Some Issues from Cases for the Period of This Report

- County conducting a facility investigation and in their investigation uncovering that a Native youth previously placed in that facility had been abused by staff. Mother had removed youth once the CHIPS case was closed over a year ago due to concerns with treatment.
- Tribe reported that:
 - County over-stepped it's boundaries and is attempting to impede on the tribally licensed foster home process because county is insisting that the tribe's choice for the foster care provider (grandparent of child) needs to have a diagnostic assessment before being licensed.
 - Non-compliance by the county for not following ICWA and the Minnesota Tribal State Agreement in tribe's request for placement preference.
 - County should immediately return the child to custodial parent because the safety concerns have been alleviated and there is no imminent harm and danger.
- Social worker filing all reports with confidential status and thus reports not available for viewing.

- Foster care providers not provided with clothing allowances and did not know they were entitled to receive clothing allowances until the information was provided by the Ombudsperson.
- Courts not timely removing the ICWA Flag when found child not eligible for tribal membership.
