GABRIEL, ROEDER, SMITH & COMPANY ACTUARIES & CONSULTANTS

2090 First National Building Detroit, Michigan 48226 Area 313: 961-3346

May 15, 1981

City of Fairmont Policemen's Benefit Association Fairmont, Minnesota

<u>Submitted in this report</u> are the results of the 1979-80 <u>gain/loss analysis</u> of the financial experiences of the City of Fairmont Policemen's Benefit Association.

The <u>composite results</u> of this study are reported on Schedules 1(A) and 1(B) and comments regarding the results are on page 12.

The gain/loss analysis was based upon statistical data furnished by the Association regarding active and retired member changes and related financial transactions.

The actuarial assumptions used for regular valuation purposes and which produce "expected" experience data are shown in the appendix of this report.

Respectfully submitted,

Robert M. O'Keefe

PURPOSE OF GAIN/LOSS ANALYSIS

Actual financial experience will not coincide exactly with assumed financial experience--differences are to be expected since the future cannot be predicted with absolute precision. The changes in computed liabilities resulting from differences between actual and assumed experiences are called actuarial gains if the experience was financially favorable and actuarial losses if the experience was financially unfavorable. Actuarial gains result in decreases in contribution rates and actuarial losses result in increases.

Regular actuarial valuations provide information about aggregate computed liabilities. However, regular valuations do not develop the information needed to explain the year to year changes in computed liabilities attributable to each activity within the retirement system financial mechanism. The purpose of a gain/loss analysis is to determine the change in computed liabilities and contribution rates attributable to variations between actual and assumed experience.

Once a difference between actual and assumed experience in a risk area has been observed to be sizeable and persistent, the assumed experience should be changed to reflect the observed reality. However, gains and losses over a relatively short period of time may not be indicative of long term trends which provide the basis for selection of actuarial assumptions.

Age & Service Retirement.

If members retire at older ages than assumed, there is a gain. If retirements occur at younger ages than assumed there is a loss.

Disability & Death-in-Service.

If casulaty claims are less than assumed, there is a gain. If there are more casualty losses than assumed, there is a loss.

Withdrawal.

If more liabilities are released by withdrawal than assumed, there is a gain. If there are fewer withdrawals than assumed, there is a loss.

Salary Increases.

If there are smaller salary increases than assumed, there is a gain.

If salary increases are greater than assumed, there is a loss.

Investment Income.

If there is greater investment income than assumed, there is a gain.

If investment income is less than assumed, there is a loss.

Post Retirement Mortality.

If benefit recipients die at younger ages than assumed, there is a gain.

If they live longer than assumed, there is a loss.

Contribution.

Gains or losses arise due to the delay in implementing changes in the recommended contribution.

Miscellaneous.

Miscellaneous gains and losses include changes due to data adjustments, rounding and changes in the average age and service characteristics of the group.

Schedule 1(A)

Gains & Losses in Accrued Liabilities and Changes in Contribution Requirements During Calendar 1979

	(Gain	Accrued Liabilities (Gain) or Loss		Requirements or Loss
Type of Activity	Active Members	Retirants & Beneficiaries	Normal Cost % of Payroll	\$ Payment on UAL
	(\$ 1n	1,000)	(\$ in	1,000)
Age & Service Retirements	\$ 0	\$ N/A	N/A%	\$ 0
Disability & Death-in-Service				
a. <u>Disability</u>	0	N/A	N/A	0
b. <u>Death-in Service</u>	(3.5)	N/A	N/A	(0.22)
Withdrawal	5.1	N/A	N/A	0.32
Salary Increases	99.1	128.7	N/A	14.46
Investment Income	(1.5)	(10.4)	N/A	(0.76)
Post Retirement Mortality	N/A	14.8	N/A	0.94
Contributions	(3.3)	(7.3)		(0.67)
Miscellaneous	1.6	2.2	N/A	0.24
EXPERIENCE RELATED (GAIN)/LOSS & CORRESPONDING CHANGE IN				
CONTRIBUTION REQUIREMENTS	\$97.5	\$128.0	N/A%	\$14.31
Changes due to plan amendments	0	0		0
TOTAL (GAIN)/LOSS DURING YEAR	\$97.5	\$128.0	N/A%	\$14.31

Schedule 1(B)

Gains & Losses in Accrued Liabilities and Changes in Contribution Requirements During Calendar 1980

		iabilities or Loss	Contribution Requirement (Gain) or Loss	
Type of Activity	Active Members (\$ in	Retirants & Beneficiaries 1,000)	Normal Cost % of Payroll (\$ in 1	\$ Payment on UAL ,000)

65-69		0.0787		0.1172	
TOTALS	0	0.1940	0	0.2097	

Average age at death: N/A.

Comments

Changes Due to Plan Amendment

This change reflects the plan amendment which was adopted in 1978 but not reflected in our initial report, as well as, the change in the disability benefit adopted in 1980.

Valuation Methods and Assumptions

The Entry Age Normal Cost method was used to determine the normal cost of all benefits. Disability and death before retirement benefits were valued in previous valuations on a terminal funding basis (one year term cost).

The rate of investment return (interest) used in making the valuation was 5.0 percent per annum, compounded annually.

The mortality table used was the United States Life Table, 1959-61, White Males and White Females.

Single Life Values:

	Pres	sent Value	of \$1 Mont	thly		
	Lev	/el	Increa	asing	Future l	_ife
Sample	For L	ife.	3.5%	Yearly	Expectancy	(Years)
Ages	Men	Women	Men	Women	Men	Women
45	\$169.61	\$186.84	\$263.23	\$304.86	27.33	32.52
50	154.85	174.20	229.51	270.80	23.22	28.08
55	139.29	159.62	197.24	236.11	19.45	23.81
60	122.79	142.73	166.26	200.76	16.01	19.69
65	106.31	124.22	137.82	166.16	12.97	15.88
70	89.86	104.31	111.71	132.82	10.29	12.38
75	73.39	83.92	87.66	101.94	7.92	9.28
80	57.54	64.24	66.29	74.77	5.89	6.67

Age & service retirement was assumed to occur at age 53, or attained age if older.

Fairmont Policemen's Benefit Association

Brief Summary (12/31/80) of Benefit Provisons Evaluated and/or Considered

Age & Service Retirement

Eligibility. 20 years of service and 50 years of age.

Amount. For first 20 years service, 50% of base pay. For years in excess of 20 an additional 2% is added to a maximum of 60% of base pay for 25 years service. (Service after attainment of age 55 is not considered for benefit purposes.

<u>Pay Used For Plan Purposes.</u> "Base pay" means maximum salary paid to a first class patrolman.

Disability Retirement

<u>Eligibility.</u> Disabled to the extent that unable to perform duties of a police officer before being eligible for age & service retirement.

Amount. 50% of base pay.

Member's Death While Active, Or In Deferred Status, Or Retired

Eligibility.

<u>Spouse.</u> Legally married to member at separation from service and residing with member at time of death. Benefits terminate upon remarriage.

Child. Younger than age 18.

Amount.

Spouse. 25% of base pay.

<u>Child.</u> 6.25% of base pay per child. Children's maximum is 25% of base pay if spouse is receiving or 50% of base pay if no spouse is receiving.

<u>Vested Deferred.</u> 20 years of service and separated before age 50. Payment beginning is deferred to attainment of age 50.

<u>Post Retirement Adjustments ("Escalator").</u> Each time base pay is changed, payments to benefit recipients are simultaneously changed by the same percent that base pay is changed.

Member Contributions. 8% of base pay. Total member contributions are refundable, without interest, if no monthly benefit is payable upon separation from service.
