## RE: Public Employees Retirement Fund

## Commission Members:

Pursuant to the terms of our Actuarial Services Contract, we have performed an actuarial valuation of the Fund as of July 1, 1993.

The results of our calculations are set forth in the following report, as are the actuarial assumptions upon which our calculations have been made. We have relied on the basic employee data and asset figures as submitted by the Public Employees Retirement Fund.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with the requirements of Section 356.215. Minnesota Statutes, and the requirements of the Standards for Actuarial Work, adopted by the Commission on July 8, 1992.

Respectfully submitted,

V. Hogan

William V. Hogan, F.S.A., M.A.A.A. Consulting Actuary

# PUBLIC EMPLOYEES RETIREMENT FUND 

## COMMENTARY

## Purpose

The purpose of this valuation is to determine the financial status of the Plan. In order to achieve this purpose, an actuarial valuation is made at the beginning of each fiscal year as required by Section 356.215 of Minnesota Statutes.

## Report Highlights

The financial status of the Plan can be measured by three different funding ratios:

- The Accrued Benefit Funding Ratio is a measure of current funding status and, when viewed over a period of years, presents a view of the funding progress. It is based upon benefits which have been earned by service to the valuation date. This year's ratio is $84.71 \%$. The corresponding ratio for the prior year was $81.72 \%$.
o The Accrued Liability Funding Ratio is also a measure of funding status and funding progress. It is based on the actuarial cost method that has historically been used by the State. For 1993 the ratio is $75.63 \%$, which is an increase from the 1992 value of $73.13 \%$.
o The Projected Benefit Funding Ratio is a measure of the adequacy or deficiency in the contribution level. This year's ratio of 95.93\% shows that the current statutory contributions are inadequate.

## Asset Information (Tables 1 and 2)

Minnesota Statutes require that the asset value used for actuarial purposes
recognize only a third of the unrealized gains and losses. This requirement exists because market values (which include all unrealized gain and losses) are typically volatile and can produce erratic changes in the contribution requirements from year to year.

The calculation of the Actuarial Value of Assets is shown in Table 1 on lines Fl to F6. It combines the cost value of the Assets Available for Benefits and one-third of the difference between the market value and cost value of those assets.

The term "Actuarial Value of Assets" is used to indicate that the value was determined for use in this actuarial valuation. Since Minnesota Statutes refer to this value as "Current Assets", the latter phrase will be used in the remainder of this report.

This Plan participates in the Minnesota Post Retirement Investment Fund (i.e. MPRIF). After the MPRIF liability has been calculated for each participating Plan, the State Board of Investments, (i.e. SBI), will determine each Plan's portion of the excess earnings for the January benefit increase as well as the Plan's allocated market share of MPRIF.

## Actuarial Balance Sheet (Table 8)

An actuarial balance sheet provides a method for evaluating current and future levels of funding.

The Current Benefit Obligation used to measure current funding levels is calculated in accordance with Statement No. 5 of the Governmental Accounting Standards Board (GASB). Those requirements are:
o For Active Members - salary and service are projected to retirement to determine benefits for each member and the ratio of credited service to total service establishes the portion of the projected benefit to be used in calculating the current funding level.
o For Non-active Members - the discounted value of benefits, including augmentation in cases where benefits have not commenced.

## GASB Disclosure

The Current Benefit Obligation amounts in Table 8 are required to be disclosed by Statement No. 5 of the Governmental Accounting Standards Board (GASB). However, Statement No. 5 uses the terms "Actuarial Present Value of Credited Projected Benefits" and "Pension Benefit Obligation" rather than "Current Benefit Obligation".

The July l, 1993 Pension Benefit Obligation reported in Table 8 is reformatted for GASB reporting purposes in the following table:
Retirees and beneficiaries currentlyreceiving benefits and terminatedemployees not yet receiving benefits $\$ 2,540,062,806$
Current Employees
Accumulated employee contributions ..... $\$ 744,025,228$
including allocated investment income
Employer-financed vested ..... $1,632,463,608$
Employer-financed nonvested ..... 247,214,840
Total Pension Benefit Obligation ..... $\$ 5,163,766,482$
Net Assets Available for Benefits at Cost ..... $\$ 4,304,163,000$
Total Benefit Obligation less Assets ..... $\$ 859,603,482$
Funded Ratio ..... 83.35\%

## Actuarial Cost Method (Table 9)

The approach used by the State of Minnesota to determine contribution sufficiency is the Entry Age Normal Actuarial Cost Method. The primary characteristic of this method is that it allocates costs as a level percentage of payroll.

A comparison of this actuarial method (Table 9) to the actuarial balance sheet (Table 8) illustrates the two techniques for allocating liabilities of active Members to past and future. As noted in the prior section, the balance sheet allocates benefits and the corresponding liabilities, on the basis of service. The method used in Table 9 allocates liabilities so that the cost each year will be a constant percentage of payroll. Both approaches, however, calculate the value of all future benefits the same way (see line $F$ of Table 8 and line A6, column l, of Table 9).

An Unfunded Actuarial Accrued Liability is computed under the Entry Age Normal Actuarial Cost Method by comparing the liabilities allocated to past service (Actuarial Accrued Liability) to the Current Assets. This amount, line B3, is funded over the remaining years to the amortization date by a series of payments that remain a constant percentage of payroll each year.

The payments will increase $6.5 \%$ each year because that is the assumed rate of increase in payroll. Although the payment schedule will be adequate to amortize the existing unfunded, the lower payments in the earlier years will not be sufficient to cover the interest on the unfunded liability. After a few years, the annual payment will cover the interest and also repay a portion of the unfunded.

## Sources of Actuarial Gains and Losses (Table 10)

The assumptions used in making the calculations using the Entry Age Normal Actuarial Cost Method are based on long-term expectations. Each year the actual experience will deviate from the long-term expectation. For a detailed analysis of the major components, refer to Table 10.

## Contribution Sufficiciency (Table 11)

This report determines the adequacy of Statutory Contributions by comparing the Statutory Contributions to the Required Contributions.

The Required Contributions, set forth in Chapter 356, consist of:
o Normal costs based on the Entry Age Normal Actuarial Cost Method.
o A Supplemental Contribution for amortizing any Unfunded Actuarial Accrued Liability.
o An Allowance for Expenses.

Table 11 shows the Plan has a contribution deficiency since the Statutory Contribution Rate is $9.04 \%$ compared to the Required Contribution Rate of $9.58 \%$.

## Changes in Actuarial Assumptions

The actuarial assumptions listed in Table 12 are the same as those used in the prior valuation, however the allowance for expenses as part of the required contributions of Chapter 356 in Table 11 only reflect administrative expenses and not investment expenses. This reduced the required contribution by approximately $.11 \%$ of payroll.

## Significant Changes in Plan Provisions

Death Benefit coverage was extended under the Coordinated plan provisions to active members less than age 50. It is our understanding that this provision does not cover former members with deferred vested benefits.

A temporary early retirement window providing enhanced benefits was enacted to be effective for those retiring between May 1993 and January 1994. Coordinated and Basic Members who have at least 25 years of service and are age 55 or who have at least 1 year of service and are age 65 may elect to retire and receive an increase of $.25 \%$ to the service credit accrual rate. The increased accrual rate will be applied to each year of service up to a maximum of 30 years.

Employer:
Allowable Service:
Salary:
Average Salary:
RETIREMENT

## RETIREMENT

Normal Retirement Benefit

Normal Retirement Benefit
Eligibility:

Eligibility:
Amount:

2.5\% of average salary for each year of Allowable
8.23\% of salary.

A public employee who is not covered under the Social Security Act. General exceptions are employees covered by other public funds and certain part-time employees.
10.73\% of salary.

Service during which Member contributions were deducted. May also include certain leaves of absence and military service.

Includes amounts deducted for deferred compensation or supplemental retirement plans, net income from fees and sick leave payments funded by the employer. Excludes unused annual leave and sick leave payments, severance payments, Workers' Compensation benefits and employer-paid flexible spending accounts, cafeteria plans, healthcare expense accounts and daycare expenses.

Average of the five highest successive years of salary. Average salary is based on all Allowable Service if less than five years.
Age 65 and three years of Allowable Service. Proportionate Retirement Annuity is available at age 65 and one year of Allowable Service. Service.

## PUBLIC EMPLOYEES RETIREMENT FUND

SUMMARY OF PLAN PROVISIONS

## Early Retirement Benefit

Eligibility:
Age 55 and three years of Allowable Service. Any age with 30 years of Allowable Service. Rule of 90: Age plus Allowable Service totals 90.

Amount:
The greater of
2\% of average salary for each of the first 10 years of Allowable Service and $2.5 \%$ of average salary for each subsequent year with reduction of $0.25 \%$ for each month the Member is under age 65 at time of retirement or age 62 if 30 years of Allowable Service. No reduction if age plus years of Allowable Service totals 90;

OR
2.5\% of average salary for each year of Allowable Service assuming augmentation to age 65 at 3\% per year and actuarial reduction for each month the Member is under age 65.

Form of Payment:

Benefit Increases:
Benefits may be increased each January 1 depending on the investment performance of the Minnesota Post Retirement Investment Fund (MPRIF). (Note: The MPRIF methodology for this increase will change effective $1 / 1 / 94$.) A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30 will receive a full increase. Members receiving benefits for at least one full month but less than 12 full months will receive a partial increase.

# PUBLIC EMPLOYEES RETIREMENT FUND 

SUMMARY OF PLAN PROVISIONS

Members retired under laws in effect before July 1, 1973 receive an additional lump-sum payment each year. In 1989, this lump-sum payment is the greater of $\$ 25$ times each full year of Allowable Service or the difference between $\$ 400$ times each full year of Allowable Service and the sum of the benefits paid from any Minnesota public pension plan plus cash payments from the Social Security Administration for the preceding fiscal year July 1, 1988 through June 30, 1989. In each following year, the lump-sum payment will increase by the same percentage increase that is applied to regular annuities paid from MPRIF .

## DISABILITY

## Disability Benefit

Total and permanent disability before normal retirement age with three years of Allowable Service.

Amount:
Normal Retirement Benefit based on Allowable Service and average salary at disability without reduction for commencement before normal retirement age. Supplemental benefit of $\$ 25$ per month payable to the later of the normal retirement age or the 5 -year anniversary at commencement of disability. The disability benefit is reduced to that amount which, when added to Workers' Compensation, does not exceed the salary the disabled Member received as of the date of the disability or the salary currently payable for the same employment position substantially similar to the one the person held as of the date of the disability, whichever is greater.

Payments stop if disability ceases. If death occurs prior to age 65 or within five years of disability. the surviving spouse can receive a refund or a survivor benefit. Dependent children are entitled to dependent child benefits subject to the 70\% family maximum. Payments change to a retirement annuity at normal retirement age. Benefits may be reduced on resumption of partial employment.

## PUBLIC EMPLOYEES RETIREMENT FUND

## SUMMARY OF PLAN PROVISIONS

Form of Payment:
Benefit Increases:
Retirement After Disability
Eligibility:
Amount:
Benefit Increases:
DEATH
Surviving Spouse Benefit
Eligibility:Amount:

Same as for retirement.
Adjusted by PERA to provide same increase as MPRIF.

Normal retirement age.
Any optional annuity continues. Otherwise, the larger of the disability benefit paid before normal retirement age or the normal retirement benefit available at normal retirement age, or an actuarially equivalent optional annuity.

Same as for retirement.

Active Member with 18 months of Allowable Service or Member receiving a disability benefit.

50\% of salary averaged over last six months. Family benefit is maximum of $70 \%$ and minimum of $50 \%$ of average salary. Benefit paid until spouse's death but no payments while spouse is remarried prior to July 1. 1991.

Surviving spouse optional annuity may be elected in lieu of this benefit.

Surviving Dependent
Child Benefit
Eligibility:

Active Member with 18 months of Allowable Service or Member receiving a disability benefit.

## PUBLIC EMPLOYEES RETIREMENT FUND <br> SUMMARY OF PLAN PROVISIONS

Amount:

## Surviving Spouse

Optional Annuity
Eligibility:

Amount:

## Benefit Increases:

## Refund of Contributions

> Eligibility:

Amount:

10\% of salary averaged over last six months for each child. Family benefit minimum (including spouse's benefit) of $50 \%$ of salary and maximum of $70 \%$ of average salary. Benefits paid until child marries. dies, or attains age 18 (age 22 if fulltime student.)

Member or former Member who dies before retirement benefits commence and other survivor annuity is waived by spouse.

Survivor's payment of the $100 \%$ joint and survivor benefit the Member could have elected if terminated or an actuarial equivalent term certain annuity. If commencement is prior to age 65 (age 62 if 30 years of service), the benefit is reduced same as early retirement with half the applicable reduction factor used from age 55 to the actual commencement age. If no surviving spouse, then an actuarial equivalent dependent child benefit is paid to age 20 or for five years if longer.

Adjusted by PERA to provide same increase as MPRIF.

Member dies before receiving any retirement benefits and survivor benefits are not payable.

The excess of the Member's contributions with 6\% interest over any disability or survivor benefits paid.

## PUBLIC EMPLOYEES RETIREMENT FUND

## SUMMARY OF PLAN PROVISIONS

## TERMINATION

## Refund of Contributions

Eligibility:
Termination of public service.
Amount:
Member's contributions with 5\% interest compounded annually if termination occurred before May 16, 1989 and $6 \%$ interest if termination occurred on or after May 16, 1989. A deferred annuity may be elected in lieu of a refund if three or more years of Allowable Service.

## Deferred Benefit

Eligibility:
Amount:
Three years of Allowable Service.
Benefit computed under law in effect at termination and increased by the following percentage compounded annually: $0 \%$ before 7/1/71; $5 \%$ from 7/1/71 to 1/1/81; and $3 \%$ thereafter until January 1 of the year following attainment of age 55 and $5 \%$ thereafter until the annuity begins. Amount is payable as a normal or early retirement.

## SUMMARY OF SIGNIFICANT CHANGES

1. Revised definition of salary.
2. Disability supplemental benefit increased to $\$ 25$ per month payable to the later of normal retirement age or the fifth anniversary of the disability.
3. Survivor annuity or refund and dependent child benefits payable upon death of the disabled member prior to age 65 or within five years of disability.
4. Upon active or former Member death, immediate commencement of the survivor annuity or the actuarial equivalent term certain annuity with half of the applicable early retirement reduction factor applied to ages prior to 55. If no surviving spouse, then dependent child benefit paid to later of age 20 or five years.

| Eligibility: | A public employee who is covered under the Social <br>  <br> Security Act. General exceptions are employees <br>  <br> covered by other public funds and certain part-time |
| :--- | :--- |
| employees. City managers and persons holding elec- |  |
| tive office may choose to become Members. |  |

# PUBLIC EMPLOYEES RETIREMENT FUND 

## SUMMARY OF PLAN PROVISIONS

## Early Retirement Benefit

Eligibility:
First hired before July 1, 1989:
Age 55 and three years of Allowable Service. Any age with 30 years of Allowable Service. Rule of 90: Age plus Allowable Service totals 90.

First hired after June 30, 1989:
Age 55 with three years of Allowable Service.
Amount:
First hired before July 1, 1989:
The greater of 1\% of average salary for each of the first 10 years of Allowable Service and 1.5\% of average salary for each subsequent year with reduction of $0.25 \%$ for each month the Member is under age 65 at time of retirement or age 62 if 30 years of Allowable Service. No reduction if age plus years of Allowable Service totals 90;

OR
1.5\% of average salary for each year of Allowable Service assuming augmentation to age 65 at $3 \%$ per year and actuarial reduction for each month the Member is under age 65.

First hired after June 30, 1989:
1.5\% of average salary for each year of allowable Service assuming augmentation to the age eligible for full Social Security retirement benefits at $3 \%$ per year and actuarial reduction for each month the Member is under the Social Security retirement age.

Life annuity with return on death of any balance of contributions over aggregate monthly payments. Actuarially equivalent options are:
$50 \%$ or $100 \%$ joint and survivor with bounce back feature without additional reduction (option canceled if Member is pre-deceased by beneficiary).

## PUBLIC EMPLOYEES RETIREMENT FUND

## SUMMARY OF PLAN PROVISIONS

Benefit Increases:
Benefits may be increased each January 1 depending on the investment performance of the Minnesota Post Retirement Investment Fund (MPRIF). A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30 will receive a full increase. Benefit recipients receiving benefits for at least one full month but less than 12 full months will receive a partial increase.

Members retired under laws in effect before July 1, 1973 receive an additional lump-sum payment each year. In 1989, this lump-sum payment is $\$ 25$ times each full year of Allowable Service. In each following year, the lump-sum payment will increase by the same percentage increase that is applied to regular annuities paid from MPRIF.

## DISABILITY

Disability Benefit
Eligibility:

Amount:

Total and permanent disability before normal retirement age with three years of Allowable Service.

Normal Retirement Benefit based on Allowable Service and average salary at disability without reduction for commencement before normal retirement age. The disability benefit is reduced to that amount which. when added to Workers' Compensation, does not exceed the salary the disabled Member received as of the date of the disability or the salary currently payable for the same employment position substantially similar to the one the person held as of the date of the disability, whichever is greater.

Payments stop if disability ceases or death occurs. Payments change to a retirement annuity at normal retirement age. Benefits may be reduced on resumption of partial employment.

## PUBLIC EMPLOYEES RETIREMENT FUND

## SUMMARY OF PLAN PROVISIONS

# PUBLIC EMPLOYEES RETIREMENT FUND SUMMARY OF PLAN PROVISIONS 

Refund of Contributions

Eligibility:

Amount:

## TERMINATION

Refund of Contributions
Eligibility:
Amount:

Deferred Benefit
Eligibility:
Amount:

Member dies before receiving any retirement benefits and survivor benefits are not payable.

The excess of the Member's contributions with 6\% interest over any disability or survivor benefits paid.

Termination of public service.
Member's contributions with 5\% interest compounded annually if termination occurred before May 16, 1989 and $6 \%$ interest if termination occurred on or after May 16, 1989. A deferred annuity may be elected in lieu of a refund if three or more years of Allowable Service.

Three years of Allowable Service.
Benefit computed under law in effect at termination and increased by the following percentage compounded annually: $0 \%$ before $7 / 1 / 71$; $5 \%$ from $7 / 1 / 71$ to $1 / 1 / 81$; and $3 \%$ thereafter until January 1 of the year following attainment of age 55 and $5 \%$ thereafter until the annuity begins. Amount is payable as a normal or early retirement.

## SUMMARY OF SIGNIFICANT CHANGES

1. Upon Active or former Member death, immediate commencement of the survivor annuity or the actuarial equivalent term certain annuity with half of the applicable early retirement reduction factor applied to ages prior to 55. If no surviving spouse, then dependent child benefit paid to later of age 20 or five years.

## RE: Public Employees Police and Fire Fund

Commission Members:
Pursuant to the terms of our Actuarial Services Contract, we have performed an actuarial valuation of the Fund as of July 1, 1993.

The results of our calculations are set forth in the following report, as are the actuarial assumptions upon which our calculations have been made. We have relied on the basic employee data and asset figures as submitted by the Public Employees Retirement Association.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with the requirements of Section 356.215, Minnesota Statutes, and the requirements of the Standards for Actuarial Work, adopted by the Commission on July 8, 1992.

Respectfully submitted,

TKC/WVH/bh

# PUBLIC EMPLOYEES POLICE AND FIRE FUND 

## COMMENTARY

## Purpose

The purpose of this valuation is to determine the financial status of the Plan. In order to achieve this purpose, an actuarial valuation is made at the beginning of each fiscal year as required by Section 356.215 of Minnesota Statutes.

## Report Highlights

The financial status of the Plan can be measured by three different funding ratios:
o The Accrued Benefit Funding Ratio is a measure of current funding status and, when viewed over a period of years, presents a view of the funding progress. It is based upon benefits which have been earned by service to the valuation date. This year's ratio is $119.95 \%$. The corresponding ratio for the prior year was $119.28 \%$.
o The Accrued Liability Funding Ratio is also a measure of funding status and funding progress. It is based on the actuarial cost method that has historically been used by the State. For 1993 the ratio is $110.81 \%$, which is an increase from the 1992 value of $110.26 \%$.
o The Projected Benefit Funding Ratio is a measure of the adequacy or deficiency in the contribution level. This year's ratio of $105.27 \%$ verifies that the current statutory contributions are sufficient.

## Asset Information (Tables 1 and 2)

Minnesota Statutes require that the asset value used for actuarial purposes
recognize only a third of the unrealized gains and losses. This requirement exists because market values (which include all unrealized gain and losses) are typically volatile and can produce erratic changes in the contribution requirements from year to year.

The calculation of the Actuarial Value of Assets is shown in Table l on lines Fl to F6. It combines the cost value of the Assets Available for Benefits and one-third of the difference between the market value and cost value of those assets.

The term "Actuarial Value of Assets" is used to indicate that the value was determined for use in this actuarial valuation. Since Minnesota Statutes refer to this value as "Current Assets", the latter phrase will be used in the remainder of this report.

This Plan participates in the Minnesota Post Retirement Investment Fund (i.e. MPRIF). After the MPRIF liability has been calculated for each participating Plan, the State Board of Investments, (i.e. SBI), will determine each Plan's portion of the excess earnings for the January benefit increase as well as the Plan's allocated market share of MPRIF.

## Actuarial Balance Sheet (Table 8)

An actuarial balance sheet provides a method for evaluating current and future levels of funding.

The Current Benefit Obligation used to measure current funding levels is calculated in accordance with. Statement No. 5 of the Governmental Accounting Standards Board (GASB). Those requirements are:
o For Active Members - salary and service are projected to retirement to determine benefits for each member and the ratio of credited service to total service establishes the portion of the projected benefit to be used in calculating the current funding level.
o For Non-active Members - the discounted value of benefits, including augmentation in cases where benefits have not commenced.

## GASB Disclosure

The Current Benefit Obligation amounts in Table 8 are required to be disclosed by Statement No. 5 of the Governmental Accounting Standards Board (GASB). However, Statement No. 5 uses the terms "Actuarial Present Value of Credited Projected Benefits" and "Pension Benefit Obligation" rather than "Current Benefit Obligation".

The July l, 1993 Pension Benefit Obligation reported in Table 8 is reformatted for GASB reporting purposes in the following table:
Retirees and beneficiaries currently
receiving benefits and terminated
employees not yet receiving benefits ..... $\$ 309,983,316$
Current Employees
Accumulated employee contributions ..... $\$ 159,847,815$
including allocated investment income
Employer-financed vested ..... 342, 107,839
Employer-financed nonvested ..... 120,393,689
Total Pension Benefit Obligation ..... \$932,332,659
Net Assets Available for Benefits at Cost ..... $\$ 1,090,856,000$
Total Benefit Obligation less Assets ..... $(\$ 158,523,341)$
Funded Ratio ..... 117.00\%

## Actuarial Cost Method (Table 9)

The approach used by the State of Minnesota to determine contribution sufficiency is the Entry Age Normal Actuarial Cost Method. The primary characteristic of this method is that it allocates costs as a level percentage of payroll.

A comparison of this actuarial method (Table 9) to the actuarial balance sheet (Table 8) illustrates the two techniques for allocating liabilities of active Members to past and future. As noted in the prior section, the balance sheet allocates benefits and the corresponding liabilities, on the basis of service. The method used in Table 9 allocates liabilities so that the cost each year will be a constant percentage of payroll. Both approaches, however, calculate the value of all future benefits the same way (see line F of Table 8 and line A6, column 1 , of Table 9 ).

An Unfunded Actuarial Accrued Liability is computed under the Entry Age Normal Actuarial Cost Method by comparing the liabilities allocated to past service (Actuarial Accrued Liability) to the Current Assets. This amount, line B3, is funded over the remaining years to the amortization date by a series of payments that remain a constant percentage of payroll each year.

The payments will increase $6.5 \%$ each year because that is the assumed rate of increase in payroll. Although the payment schedule will be adequate to amortize the existing unfunded, the lower payments in the earlier years will not be sufficient to cover the interest on the unfunded liability. After a few years, the annual payment will cover the interest and also repay a portion of the unfunded.

## Sources of Actuarial Gains and Losses (Table 10)

The assumptions used in making the calculations using the Entry Age Normal Actuarial Cost Method are based on long-term expectations. Each year the actual experience will deviate from the long-term expectation. For a detailed analysis of the major components, refer to Table 10.

## Contribution Sufficiciency (Table 11)

This report determines the adequacy of Statutory Contributions by comparing the Statutory Contributions to the Required Contributions.

The Required Contributions, set forth in Chapter 356, consist of:
o Normal costs based on the Entry Age Normal Actuarial Cost Method.
o A Supplemental Contribution for amortizing any Unfunded Actuarial Accrued Liability.
o An Allowance for Expenses.

Table 11 shows the Plan has a contribution sufficiency since the Statutory Contribution Rate is $19.50 \%$ compared to the Required Contribution Rate of $17.45 \%$.

A statutory change was adopted in the computation of the Required Contribution Rate. Previously, if the Unfunded Actuarial Liability (B3, Table 9) was negative, the Supplemental Contribution Rate (C2, Table 9) was forced to be $\$ 0$. Under the new provisions, this negative base is treated the same as a positive base and results in a negative Supplemental Contribution Rate. For this valuation, this change has reduced the Required Contribution Rate from $19.37 \%$ to $17.45 \%$.

## Changes in Actuarial Assumptions

The actuarial assumptions listed in Table 12 are the same as those used in the prior valuation, however the allowance for expenses as part of the required contributions of Chapter 356 in Table 11 only reflect administrative expenses and not investment expenses. This reduced the required contribution by approximately $.42 \%$ of payroll.

## Significant Changes in Plan Provisions

The benefit accrual rate was increased from $2.5 \%$ to $2.65 \%$. Also, the statutory contribution rate was lowered from $8 \%$ and $12 \%$ to $7.6 \%$ and $11.4 \%$ for members and employer, respectively (to be adjusted in the future depending upon plan sufficiency or defieciency).

## PUBLIC EMPLOYEES POLICE AND FIRE FUND <br> SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

| Interest: | Pre-Retirement: 8.5\% per annum Post-Retirement: 5\% per annum |
| :---: | :---: |
| Salary Increases: | Reported salary for prior fiscal year. with new hires annualized, increased $6.5 \%$ to current fiscal year and $6.5 \%$ annually for each future year. |
| Mortality: | Pre-Retirement: <br> Male - 1971 Group Annuity Mortality Table male rates projected to 1984 by Scale D <br> Female - 1971 Group Annuity Mortality Table female rates projected to 1984 by Scale D |
|  | Post-Retirement: <br> Male - Same as above <br> Female - Same as above |
|  | Post-Disability: Male -1965 RRB rates Female - 1965 RRB rates |
| Retirement Age: | Age 60 , or if over age 60 , one year from the valuation date. |
| Separation: | Graded rates based on plan experience as of June 30 , 1989. Rates are shown in rate table. |
| Disability: | Rates as shown in rate table. |
| Expenses | Prior year expenses expressed as percentage of prior year payroll. |
| Return of Contributions: | All employees withdrawing after becoming eligible for a deferred benefit were assumed to take the larger of their contributions accumulated with interest or the value of their deferred benefit. |
| Family Composition: | 85\% of male Members and 65\% of female Members are assumed to be married. Female is four years younger than male. Assume Members have no children. |
| Social Security: | N/A |

## PUBLIC EMPLOYEES POLICE AND FIRE FUND SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

| Benefit Increases | Payment of earnings on retired reserves in excess of |
| :--- | :--- |
| After Retirement: | $5 \%$ accounted for by $5 \%$ post-retirement assumption. |

Special Consideration: Married Members assumed to elect subsidized joint and survivor form of annuity as follows:

| Male - | $40 \%$ elect $50 \%$ | J\&S option |
| :--- | :--- | :--- | :--- |
|  | $45 \%$ elect $100 \%$ | J\&S option |
| Female - | $15 \%$ elect $50 \%$ | J\&S option |
|  | $15 \%$ elect $100 \%$ | J\&S option |

Actuarial Cost Method: Entry Age Normal Actuarial Cost Method with normal costs expressed as a level percentage of earnings. Under this method, Actuarial Gains (Losses) reduce (increase) the Unfunded Actuarial Accrued Liability.

Asset Valuation Method: Cost Value plus one-third Unrealized Gains or Losses.

Payment on the Unfunded Actuarial Accrued Liability:

A level percentage of payroll each year to the statutory amortization date assuming payroll increases of $6.5 \%$ per annum.

## PUBLIC EMPLOYEES POLICE AND FIRE FUND <br> SUMMARY OF PLAN PROVISIONS

Eligibility:

Contributions
Member :
Employer:
Allowable Service:

Salary:

Average Salary:

All full-time and certain part-time, police officers and fire fighters, who are not contributing to any other local retirement fund.
7.6\% of salary.
$11.4 \%$ of salary.
Police and fire service during which Member contributions were deducted. May also include certain leaves of absence and military service.

Includes amounts deducted for deferred compensation or supplemental retirement plans, net income from fees and sick leave payments funded by the employer. Excludes lump-sum annual leave and sick leave payments and Workers' Compensation benefits.

Average of the five highest successive years of salary. Average salary is based on all Allowable Service if less than five years.

## RETIREMENT

Normal Retirement Benefit

Eligibility:

Amount:

Early Retirement Benefit
Eligibility:
Amount:

Age 55 and three years of Allowable Service. Proportionate Retirement Annuity is available at age 65 and one year of Allowable Service.
2.65\% of average salary for each year of Allowable Service.

Age 50 and three years of Allowable Service.
Normal Retirement Benefit based on Allowable Service and average salary at retirement date assuming augmentation to age 55 at $3 \%$ per year and actuarial reduction for each month the Member is under age 55.

## PUBLIC EMPLOYEES POLICE AND FIRE FUND

## SUMMARY OF PLAN PROVISIONS

Form of Payment:

Benefit Increases:

Life annuity with return on death of any balance of contributions over aggregate monthly payments. Actuarially equivalent options are:
$50 \%$ or $100 \%$ joint and survivor with bounce back feature without additional reduction.

Benefits may be increased each January 1 depending on the investment performance of the Minnesota Post Retirement Investment Fund (MPRIF). (Note: The MPRIF methodology for this increase will change effective $1 / 1 / 94$.) A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30 will receive a full increase. Benefit recipients receiving benefits for at least one full month but less than 12 full months will receive a partial increase.

Members retired under law in effect before July 1, 1973 receive an additional lump-sum payment each year. In 1989, this lump-sum payment is the greater of $\$ 25$ times each full year of Allowable Service or the difference between $\$ 400$ times each full year of Allowable Service and the sum of the benefits paid from any Minnesota public pension plan plus cash payments from the Social Security Administration for the preceding fiscal year July 1, 1988 through June 30, 1989. In each following year. the lump-sum payment will increase by the same percentage increase that is applied to regular annuities paid from MPRIF.

Physically or mentally unable to perform duties as a police officer or fire fighter as a direct result of an act of duty.

TABLE 13

## PUBLIC EMPLOYEES POLICE AND FIRE FUND <br> SUMMARY OF PLAN PROVISIONS

Amount:
53\% of average salary plus 2.65\% of average salary for each year in excess of 20 years of Allowable Service. The disability benefit is reduced to that amount which when added to Workers' Compensation, does not exceed salary. Payments change to retirement annuity at age 55.

## Non-Duty Disability Benefits

Eligibility:

Amount:

Form of Payment:
Benefit Increases:

Retirement Benefits
Eligibility:
Amount:

Benefit Increases:

## DEATH

Surviving Spouse Benefit
Eligibility:

Physically or mentally unable to perform duties as a police officer or fire fighter with one year of Allowable Service.

Normal Retirement benefit based on Allowable Service (minimum of 15 years) and average salary at disability without reduction for commencement before age 55. Payments change to retirement annuity at age 55.

Same as for retirement.
Adjusted by PERA to provide same increase as MPRIF .

Age 55
Any optional annuity continues. Otherwise, the larger of the disability benefit paid before age 55 or the normal retirement benefit available at age 55 , or an actuarially equivalent optional annuity.

Same as for retirement.

Active or Disabled Member with surviving spouse, married for at least one year unless death in the line of duty.

# PUBLIC EMPLOYEES POLICE AND FIRE FUND <br> SUMMARY OF PLAN PROVISIONS 

Amount:

Surviving Dependent Child Benefit

Eligibility:
Amount:

Surviving Spouse
Optional Annuity
Eligibility:

Amount:

Benefit Increases:

50\% of salary averaged over last six months. Benefit paid until spouse's death but no payments while spouse is remarried prior to July 1, 1991.

Active or Disabled Member with dependent child.
$10 \%$ of salary averaged over last six months for each child. Family benefit minimum (including spouse's benefit) of $50 \%$ of salary and maximum of $70 \%$ of salary. Benefits paid until child marries, dies, or attains age 18 (age 23 if full-time student.)

Active or Disabled Member dies before age 55, benefits commence when Member would have been age 55 or as early as age 50 if qualified for early retirement except that benefits commence immediately if Member had 30 years of service.

Survivor's payment of the $100 \%$ joint and survivor benefit the Member could have elected if terminated. Alternatively, spouse may elect refund of deceased's contributions with interest if there are no dependent children.

Adjusted by PERA to provide same increase as MPRIF .

# PUBLIC EMPLOYEES POLICE AND FIRE FUND <br> SUMMARY OF PLAN PROVISIONS 

## TERMINATION

Refund of Contributions

Eligibility:
Amount:

Termination of public service.
Member's contributions with 5\% interest compounded annually if termination occurred before May 16, 1989 and 6\% interest if termination occurred on or after May 16, 1989. A deferred annuity may be elected in lieu of a refund if three or more years of Allowable Service.

Three years of Allowable Service.
Benefit computed under law in effect at termination and increased by the following percentage compounded annually: 0\% before 7/1/71; 5\% from $7 / 1 / 71$ to $1 / 1 / 81$; and $3 \%$ thereafter until January of the year following attainment of age 55 and $5 \%$ thereafter until the annuity begins. Amount is payable as a normal or early retirement.

## SUMMARY OF SIGNIFICANT CHANGES

1. Contributions were decreased from $8 \%$ and $12 \%$ to $7.6 \%$ and $11.4 \%$ of salary for Members and Employer, respectively. This is subject to change depending upon future funding sufficiency/deficiency.
2. Retirement factor was increased from $2.5 \%$ to $2.65 \%$ for both retirement and disability.
3. Age restriction was removed for disability eligibility.
4. Member death while disabled prior to age 65 or within five years of the disability effective date allows surviving spouse the option of Survivor Annuity, regular death benefit or refund. Dependent children are also covered, same as Active Member death.
