2022

Co-foreword

Thank you for reading the 2022 Minnesota Child Support Performance Report. As we transition into the next phase of the pandemic, we are re-visiting parts of the program that worked before 2020 and re-envisioning new policies and practices we implemented over the past couple of years to improve the program for children and families we serve.

Based on 2021 Federal Fiscal Year (FFY) data, Minnesota continues to perform well nationally for the percentage of current, monthly child support collected, the percentage of cases with payments toward past due support, and the percentage of paternities established. Like other states, the program is not at the level it was before the pandemic, but we're making progress.

This year, we continued to improve the program by:

- Eliminating new interest on child support debt
- Receiving a federal grant to implement domestic violence services for survivors who need child support
- Launching the Child Support Advisory Board Equity Committee
- Completing and starting to evaluate the Driver's License Procedural Justice Alternatives to Contempt pilot
- Continuing work on the Paths to Parenthood grant project
- Preparing for the change in credit bureau reporting that allows parents with child support debt to sign payment agreements before reporting them to credit agencies
- Updating the Minnesota Child Support Guidelines Calculator to include new guidelines taking effect on Jan. 1, 2023.

While incorporating improvements like those listed above and continuing their regular work, counties, tribes and the Child Support Division continued to be challenged by staffing shortages. We thank staff who endured the tumult of the past few years and persevered, demonstrating their dedication and resilience. Becker County exemplified these qualities when staff volunteered to serve on the Child Support Advisory Board Equity Committee and be one of the pilot counties for the driver's license procedural justice project, and digital marketing grant on top of their normal casework.

In Minnesota, we work hard to make the program better and help families meet the needs of their children. Thanks again for learning more about Minnesota's child support program as we look forward to 2023.

Sincerely,

Shaneen Moore
Director
Child Support Division

Jason Ruona
Supervisor
Becker County Child Support

Executive summary

Minnesota’s child support program provided services to 304,071 parents and 213,835 children through 1,382 county and state workers in Federal Fiscal Year (FFY) 2022. The program collected and disbursed \$517.6 million. For every \$1 spent on Minnesota’s child support program, it collected \$2.91 in support of children.

Minnesota’s 2022 Child Support Performance Report presents program status and highlights its accomplishments. The Child Support Division reports the most recent data showing statewide and individual county performance, and a five-year history for the five federal performance measures.

The five performance measures are:

- Paternity establishments
- Child support order establishment
- Collections on current support
- Collections on cases with arrears
- Program cost effectiveness

Minnesota’s child support program competes with other state programs for federal incentive funding from the Office of Child Support Enforcement (OCSE). State programs maximize federal incentives by reaching performance thresholds on the five measures. In FFY 2021, Minnesota’s program maximized its federal incentives on two of five measures, paternity establishment and orders established; it has opportunities to earn additional incentives based on collections, which maximize at 80%, and cost effectiveness at \$5.00.

Minnesota’s child support program in FFY 2022:

- Served 213,835 children; 10% of them received public assistance in the form of cash, as of Sept. 30, 2022.
- Distributed \$525 million, including:
 - \$367.8 million from employers withholding child support from parents’ paychecks
 - \$73.8 million from cash and check payments
 - \$34.7 million through tax intercepts
 - \$33.8 million received from other states’ and countries’ collections
 - \$13.2 million from unemployment insurance
 - \$1.7 million from financial institution data match levies.

In FFY 2022, Minnesota child support workers:

- Established paternity through 1,850 court orders and 694 Recognition of Parentage forms signed at county offices
- Established 8,127 orders for support; 85.81% of Minnesota child support cases have an order in place
- Adjusted 41,010 cases for cost of living, which increases the amount of child support ordered every two years
- Modified 6,050 child support orders
- Attended nearly 1,500 training webinars including 675 for the updated guidelines (2023)
- Completed over 3,600 web-based trainings.

Minnesota’s federal performance measures

| | FFY 2022 | FFY 2021 | FFY 2020 | FFY 2019 | FFY 2018 |
|-------------------------|----------|----------|----------|----------|----------|
| Paternities established | 97.8% | 98.8% | 100.1% | 101.0% | 101.2% |
| Orders established | 85.8% | 86.5% | 87.5% | 88.6% | 88.3% |
| Collections on current | 72.6% | 75.7% | 75.4% | 75.4% | 74.9% |
| Collections on arrears | 70.4% | 72.3% | 79.6% | 72.9% | 72.4% |
| Cost effectiveness | \$2.91 | \$3.09 | \$3.26 | \$3.14 | \$3.26 |

Minnesota child support services

Together with county and tribal agency staff, the child support program serves 304,071 parents and 213,835 children across 87 counties and 11 tribes. The Minnesota Department of Human Services Child Support Division supervises the program. County offices administer services by working with parents to establish and enforce support orders. Congress enacted child support programs in 1975 under Title IV-D of the Social Security Act.

Child support staff, including 1,382 employees statewide, work in partnership to serve the needs of Minnesota families, providing support to children. The number of staff is important to the Cost Effectiveness performance measure. The division gathers staff counts through an annual survey that reports full time equivalencies (FTE). FTEs are staff dedicated to working directly on, or supporting child support cases, such as supervisors, managers and directors; child support officers; financial, administrative, training, technology and legal specialists; contractors; system programmers; and others. Some staff included in the FTE count work outside the program under cooperative agreements.

A family-centered approach to supporting children is at the core of the child support program.

Cooperative agreements are initiated by county child support offices for resources outside the agency, including county attorneys, legal staff, office support, sheriff's personnel, public health workers and others.

Minnesota's child support program benefits children by:

- Locating parents and establishing parentage
- Establishing and reviewing child support orders for modification
- Helping children receive financial, medical, and child care support needed to enhance their growth and development
- Working with other state agencies to help families when one parent lives outside of Minnesota
- Helping families work toward becoming and remaining self-sufficient, ensuring parents establish a financial partnership.

Child support is money parents are court ordered to pay to their child's other parent or caregiver for support of their child. Support may be part of an interim, temporary, permanent, or modified court order in a divorce or legal separation, paternity action, order for protection, child custody action, or separate child support action.

Child support services are available to:

- Parents of minor children if one parent does not live with their child
- Parents who pay child support through court-ordered income withholding
- Those who have court-ordered physical custody of a minor child
- Those receiving public assistance for a minor child living in their home.

Child support cases open when either parent applies for services, or when a county public assistance office refers a case.

Minnesota child support services

Partnerships

The child support program helps parents establish a financial partnership by offering services for children to receive financial, medical, and child care support they need to enhance growth and development. These three elements combine to form a monthly child support obligation.

Once a parent applies for services, or after financial workers refer a case because a family receives public assistance, all child support payments must come through the Child Support Payment Center. States are required to have a central payment center that receives and disburses child support collections so parents get credit for making payments, and payments disburse correctly. Many state and federal agencies, employers, and other service programs help the child support program operate effectively and efficiently.

Processing

Division staff receipts payments. In most cases, they send support collected and owed to custodial parents within two business days by direct deposit into a checking or savings account, or stored value card. Staff may hold funds collected through certain tax refund offsets for up to six months, ensuring proper interception of refunds.

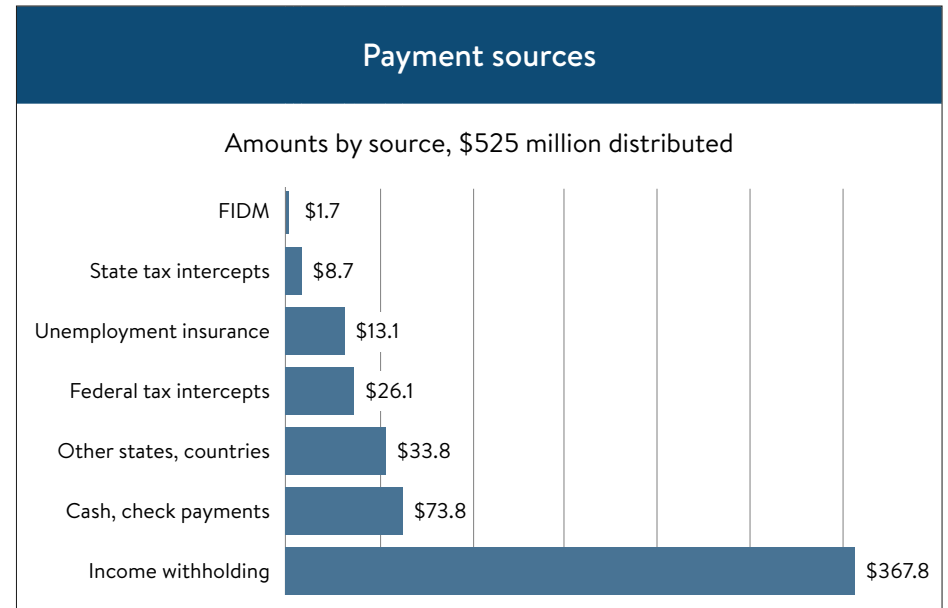

Many state and federal agencies, employers, and other service programs help the child support program operate effectively and efficiently.

In FFY 2022, the program distributed \$525 million to child support cases. Payment center staff:

- Processed \$542.5 million in payments, of which approximately \$17.5 million was returned to sender or on hold pending verification
- Received 2,522,393 transactions, of which 566,355 were paper items such as checks, and 1,956,038 through automated clearing houses (ACH)
- Deposited 95.10% of collections directly into parents' accounts.

Sources

The division tracks sources of child support payments to measure the effectiveness of enforcement activities and collection tools. The following graph shows payment sources for FFY 2022.

Income withholding

Most new or modified child support orders require income withholding where employers and payors of funds automatically withhold child support obligations from parents' pay, or other sources of income, and send withholdings to the Child Support Payment Center. Through income withholding, employers collected \$367.8 million from parents' paychecks, 70% of all support distributed.

Employers play a pivotal role in Minnesota's child support efforts, making a valuable contribution to the lives of children. Employers are also required to report new hires to the Minnesota New Hire Reporting Center, which helps match working parents with child support obligations. Cooperation among employers and child support agencies encourages parental responsibility, reduces taxpayer costs for public assistance, and helps families provide for their children.

Most child support cases in Minnesota are non-public assistance cases. Children on these cases either never received or are no longer receiving public assistance.

Cash, check payments

Self-employed parents or those not paying through income withholding send their child support to the payment center by check, cashier's check, money order, or automatic-recurring withdrawals. In FFY 2022, \$73.8 million, 14% of collections, were paid by these methods.

Other states

Child support provides services to many families with complex and changing needs. Promises of increased income opportunities and job availability may influence a parent's decision to move to and from Minnesota while child support services continue. For parents who owe support and work outside of Minnesota, other states and countries collected \$33.8 million, 6.4% of collections, of child support in FFY 2022.

Other sources

Sometimes child support obligations go unpaid or are collected only when child support workers enforce orders. In addition to enforcement methods below, parents who do not comply with their child support orders may be denied approval or renewal of a passport, reported to a credit bureau, subjected to civil contempt proceedings, charged with criminal nonsupport, or have their driver's license suspended.

The remaining payment sources include:

- 5.0% from intercepts of federal tax refunds, \$26.1 million
- 2.5% from withholdings from Unemployment Insurance, \$13.1 million
- 1.7% from intercepts of state tax refunds, \$8.7 million.

On page 47, the Collections – sources table breaks down payment sources per county.

Initiatives

1. Recently passed child support legislation helps children and families

In 2022, Minnesota's Child Support Division, county, and tribal child support agencies implemented or started preparing for child support laws passed by the Minnesota Legislature and signed by Governor Walz, including:

- **Interest on past due support** – on Aug. 1, 2022, the program stopped charging interest for parents who have past-due child support, allowing them to limit or reduce their debt, increasing the likelihood of complete and timely payments
- **Updated child support guidelines** – the program updated the Minnesota Child Support Guidelines Calculator to include the new guidelines that are effective Jan. 1, 2023. The updated guidelines in Minnesota law will help courts more effectively determine child support amounts, especially for families with low incomes
- **Foster care reimbursement** – the program is using the changes in Minnesota law and federal guidance to find alternative ways to reduce the reimbursement of foster care expenses in Minnesota. These changes will help stabilize and reunify children and families
- **Credit bureau reporting** – Starting in 2023, parents behind in their child support will have the opportunity to create a payment agreement plan before the program reports them to the credit agencies.

2. Equity initiatives

The program continued to work on several important equity initiatives including:

- Launching the Child Support Advisory Board Equity Committee, with members from Minnesota's child support program including tribal and county staff from across the state, as well as division staff. The committee works to ensure equity in policies, practices, and

procedures of the child support program to identify and mitigate bias, and improve equitable access, services, and outcomes for families it serves

- Completing, and starting an evaluation of, the Driver's License Procedural Justice Alternatives to Contempt pilot with 12 counties to adjust the driver's license suspension enforcement remedy by decreasing the number of licenses suspended, increasing engagement, and improving payment outcomes. The current remedy disproportionately affects participants of color and other communities experiencing disparities.

3. Federal innovation grants

The program expanded its work on the following federal innovation grants:

Safe Access for Victims' Economic Security (SAVES) – in October 2022, the U.S. Department of Health and Human Services, Administration for Children and Families, awarded Minnesota and 12 other state child support agencies, SAVES grants to implement comprehensive domestic violence services to survivors who need assistance accessing child support resources over the next five years.

Paths to Parenthood – division staff continue working on the federal Paths to Parenthood grant. This grant aims to develop a child support curriculum that will educate youth and young adults ages 16 – 25 on the financial, legal, and emotional responsibilities of parenthood. The curriculum will focus on those who are currently incarcerated, or in the community but still involved with the justice system, and those at risk of becoming involved with the justice system.

Digital Marketing – in 2022, the division and 12 pilot counties finished a text-messaging pilot and started evaluating its impact as a communications tool. Division staff continued developing digital ads for a variety of online platforms encouraging parents to learn more about the program and sign up for services.

Intergovernmental cases

Approximately one of every seven child support cases involve parents who live in another state. Cases are intergovernmental when one party lives in a jurisdiction different from the other, when a child support order is from a jurisdiction other than the one where both parties live, or when more than one child support order is covering the same parties. Provisions of the Uniform Interstate Family Support Act (UIFSA) govern intergovernmental child support cases. Provisions of UIFSA 2008 were adopted by every state.

Of 87 Minnesota counties, 35 share a border with another jurisdiction. Working on cases that cross jurisdiction borders continue to be essential services provided by the child support program. By law, although each state has its independent court system with varying laws, policies, and procedures, agency staff must cooperate in handling

The child support program helps parents establish a financial partnership by offering services for children to receive the basic financial, medical, and child care support needed to enhance their growth and development.

requests for assistance. When a Minnesota agency requests assistance from another jurisdiction for child support services, it is referred to as an initiating case. Alternatively, when an agency in another jurisdiction asks Minnesota for assistance, the case is referred to as a responding case. Minnesota's child support program demonstrates achievement in intergovernmental case establishment and collections.

Initiating cases

There were 17,241 initiating intergovernmental cases open in Minnesota in FFY 2022; of those, 15,837 had a child support order. Data shows an intergovernmental initiating ratio of 91.86% of cases with an order established either prior to or after Minnesota initiated to another jurisdiction.

For intergovernmental cases where Minnesota is the initiating state, the average case with a child support order collected \$2,682.84 in FFY 2022.

Responding cases

In FFY 2022, there were 7,598 open intergovernmental cases where Minnesota was responding to another jurisdiction; of those, 7,198 had a child support order. This is a high establishment percentage for intergovernmental responding cases at 94.74%.

For intergovernmental cases where Minnesota is the responding state, the average case with a child support order collected \$3,167.87 in FFY 2022.

On page 44, the Collections to and from other states table displays how much money each county distributes to other states, how much is received from other states, and size of initiating and responding caseloads.

Guide and introduction to performance data

Calculations

The 2022 Child Support Performance Report highlights accomplishments and presents program performance measures for FFY 2022. It reports the most recent data showing statewide and individual county performance, and a five-year history of the five federal performance measures. The division participates in the federal incentive funding system based on program performance, as required by the Personal Responsibility and Work Opportunity Act of 1996. The federal office evaluates states competing for federal incentive funds based on five federal performance measures. The five measures are:

Paternities established – the number of open Title IV-D cases with paternity established during the federal fiscal year divided by the number of children in open Title IV-D cases born outside of marriage during the prior federal fiscal year.

Child support orders established – the number of cases open at the end of the federal fiscal year with support orders established divided by the number of cases open at the end of the federal fiscal year.

Collections on current support – the total amount of support disbursed as current support during the federal fiscal year divided by the total amount of current support due for the federal fiscal year.

Collections on arrears – the number of total cases with support disbursed as arrears during the federal fiscal year divided by the number of total cases with arrearages due during the federal fiscal year.

Program cost effectiveness – for the federal fiscal year, the amount of collections forwarded to other states plus total collections disbursed, including fees retained by other states divided by total Title IV-D dollars expended during the federal fiscal year.

Distribution is the identification and allocation or apportionment of a support collection to current and past-due support, as applicable, of a specific case or individual. Disbursement is the actual process of dispensing or paying out the collection. [AT-20-06 OCSE 157 Instructions]

Unlike other performance measures, OCSE allows state agencies to choose between two methods of reporting paternity establishment percentages. One method uses all children born in the state. The second method, which is used by Minnesota, uses only children in the Title IV-D state system. Both methods involve paternities and births that span more than one 12-month period. The paternities established by child support workers during the federal fiscal year, therefore, are not necessarily for the same children born of non-marital births in the same federal fiscal year. This explains why some states have a paternity establishment percentage exceeding 100%. For the federal performance incentive, Minnesota’s percentage is 97.78 for FFY 2022.

| Calculating performance measures | |
|----------------------------------|--|
| Paternities established | Children in open Title IV-D cases with paternity established ¹ ÷ children in open Title IV-D cases born outside of marriage ¹ in previous year |
| Orders established | Cases open at the end of fiscal year with support orders established ² ÷ cases open at end of fiscal year ² |
| Collections on current support | Total amount of support disbursed as current support during fiscal year ² ÷ total amount of current support due for the fiscal year ² |
| Collections on arrears | Total cases with support disbursed as arrears during fiscal year ² ÷ total cases with arrearages due during fiscal year ² |
| Cost effectiveness | Collections forwarded to other states + total collections disbursed + fees retained by other states ³ ÷ total Title IV-D dollars expended ⁴ |

Sources: ¹QQ320920, ²QQ320921, ³QQ640201, ⁴Department of Human Services Financial Operations Division Report

Federal incentives

States are able to maximize federal incentives by reaching performance thresholds on each of the five measures. Minnesota maximized its federal incentives on two of five measures: Paternity establishment, at 97.78%, and order establishment at 85.81%. Minnesota has opportunities to earn additional incentives based on collections, which maximize at 80%, and cost effectiveness at \$5.00. For FFY 2022, collections on current support were 72.62%, collections on cases with arrears were 70.41%, and cost effectiveness at \$2.91.

The federal government matches 66% of state and county spending. It also provides funding based on performance, outcomes, and collection base, which the division passes on to county agencies. Division staff determines a county's share using the same methodology that the federal office uses for states. County agencies are required to reinvest incentives in the Title IV-D program.

Secure, accurate, and reliable data is critical to the child support program's success and funding. In addition to meeting the federal office's performance standards, a state's data must meet a 95% reliability standard, which means data is sufficiently complete and error-free. Federal auditors assess completeness, reliability, and security of data, as well as accuracy of reporting systems used in calculating performance measures.

Failure to meet any of the five federal performance standards, or the 95% data reliability standard, puts a state program at risk. Failure can mean loss of eligibility for incentive funds and the possibility of incurring significant penalties to the Temporary Assistance for Needy Families (TANF) grant – the Minnesota Family Investment Program (MFIP) – if there is no improvement during the corrective action year.

If a state falls below one or more of the performance measures, or does not meet data reliability criteria, the federal office imposes an automatic corrective action period of one year. If no corrections are made during that year, the federal office imposes a penalty at the end

of the year, which reduces payments by 1% to 2% of the state TANF grant for the first finding, 2% to 3% for the second consecutive finding, and 3% to 5% for the third and subsequent consecutive findings. Total penalties may not exceed 25% of a state's TANF grant.

Historically, Minnesota has performed well in federal audits. The federal office's annual Data Reliability Audit validates that the performance and financial reporting is accurately reflected in review of the child support system. Minnesota has not had a corrective action or penalty in any of its audits regarding data reliability.

Performance relative to other states

To illustrate how Minnesota compares to other states, the most recent national data is included in report tables. Federal ranking is based on FFY 2021 data; Minnesota ranked fourth for collections on current support nationally. National information is available online from the federal office. The table below shows Minnesota's performance measures for FFY 2021 compared to the four bordering states.

| Federal performance measures FFY 2021 Border state comparison | | | | | |
|--|--------|--------|--------|---------|--------|
| | MN | IA | ND | SD | WI |
| Paternities established | 98.8% | 93.2% | 104.7% | 100.1% | 98.4% |
| Orders established | 86.5% | 94.2% | 90.4% | 93.9% | 85.9% |
| Collections on current | 75.7% | 71.2% | 75.4% | 63.1% | 74.5% |
| Collections on arrears | 72.3% | 69.8% | 67.7% | 64.0% | 72.1% |
| Cost effectiveness | \$3.09 | \$5.56 | \$6.26 | \$10.62 | \$6.43 |

Funding

The federal office provides funding to states by matching qualifying expenditures, basing funding on performance, outcomes, and the state's collection base. The collection base is the baseline of the incentive structure. Once established, the federal office applies performance on the five federal performance measures to the collection base for a national total, and awards each state a prorated portion of the total incentive pool. Dollars in the incentive pool are limited. Each state's share is affected by how every other state performs under the incentive formula.

Table tips

- Statewide data appears at the bottom of tables for convenient comparison on each page
- Statewide data figures include all county and tribal shared interest case data
- A dash indicates no applicable data
- Merged county agencies are reported as follows:
 - Faribault-Martin is listed as one agency
 - Southwest Health and Human Services is listed as SWHHS (Lincoln, Lyon and Murray (LLM), with the addition of Rock on Jan. 1, 2012, and Pipestone and Redwood on Jan. 1, 2013)
 - Des Moines Valley (Cottonwood and Jackson merged on Jan. 1, 2014)
 - MNPrairie (Dodge, Steele and Waseca merged on Jan. 1, 2015)
 - Western Prairie Human Services is listed as WPHS (Grant and Pope merged on Jan. 1, 2022)
- Data sources are listed at the bottom of tables
- National data for state ranking is for FFY 2021.

Federal performance measures: County results

| County | Paternities established measure FFY2022 (%) | Orders established measure FFY2022 (%) | Collections on current measure FFY2022 (%) | Collections on arrears measure FFY2022 (%) | Cost effectiveness measure FFY2022 (\$) |
|-------------------|---|--|--|--|---|
| Aitkin | 102.48 | 94.39 | 71.03 | 65.24 | 2.64 |
