INTRODUCTION

November 16, 2022

Board of Trustees
Devinder Malhotra, Chancellor
Minnesota State
30 East 7th Street, Suite 350, St. Paul, MN 55101-7804

Dear Board of Trustees and Chancellor Malhotra:

I am pleased to submit to you the audited financial report for Minnesota State Colleges and Universities (Minnesota State) for the fiscal years ended June 30, 2022 and 2021. The financial statements are prepared by management and presented in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. This report includes the financial statements and disclosures necessary to accurately present the financial condition and results of operations for the two years. Within the financial statements, which were audited by the firm of CliftonLarsonAllen LLP, you will find the statements of net position, the statements of revenues, expenses, and changes in net position and the statements of cash flows.

We are also providing separately audited financial statements for the Revenue Fund. It is worth noting that the systemwide and Revenue Fund audit opinions are each without modification, a testimony to the efforts of each and every employee with responsibility for financial information at the 54 campuses and in the system office.

For a summary review and explanation of the financial statements, please review the Management Discussion and Analysis section of the report. The Finance Division and the finance staff at every college and university are responsible for assuring the accuracy, reliability, fairness and completeness of the information presented in this report. We rely upon the administrative and finance staff at each college and university in provision of that assurance. Many people assisted in this effort and are deserving of our appreciation.

Sincerely,

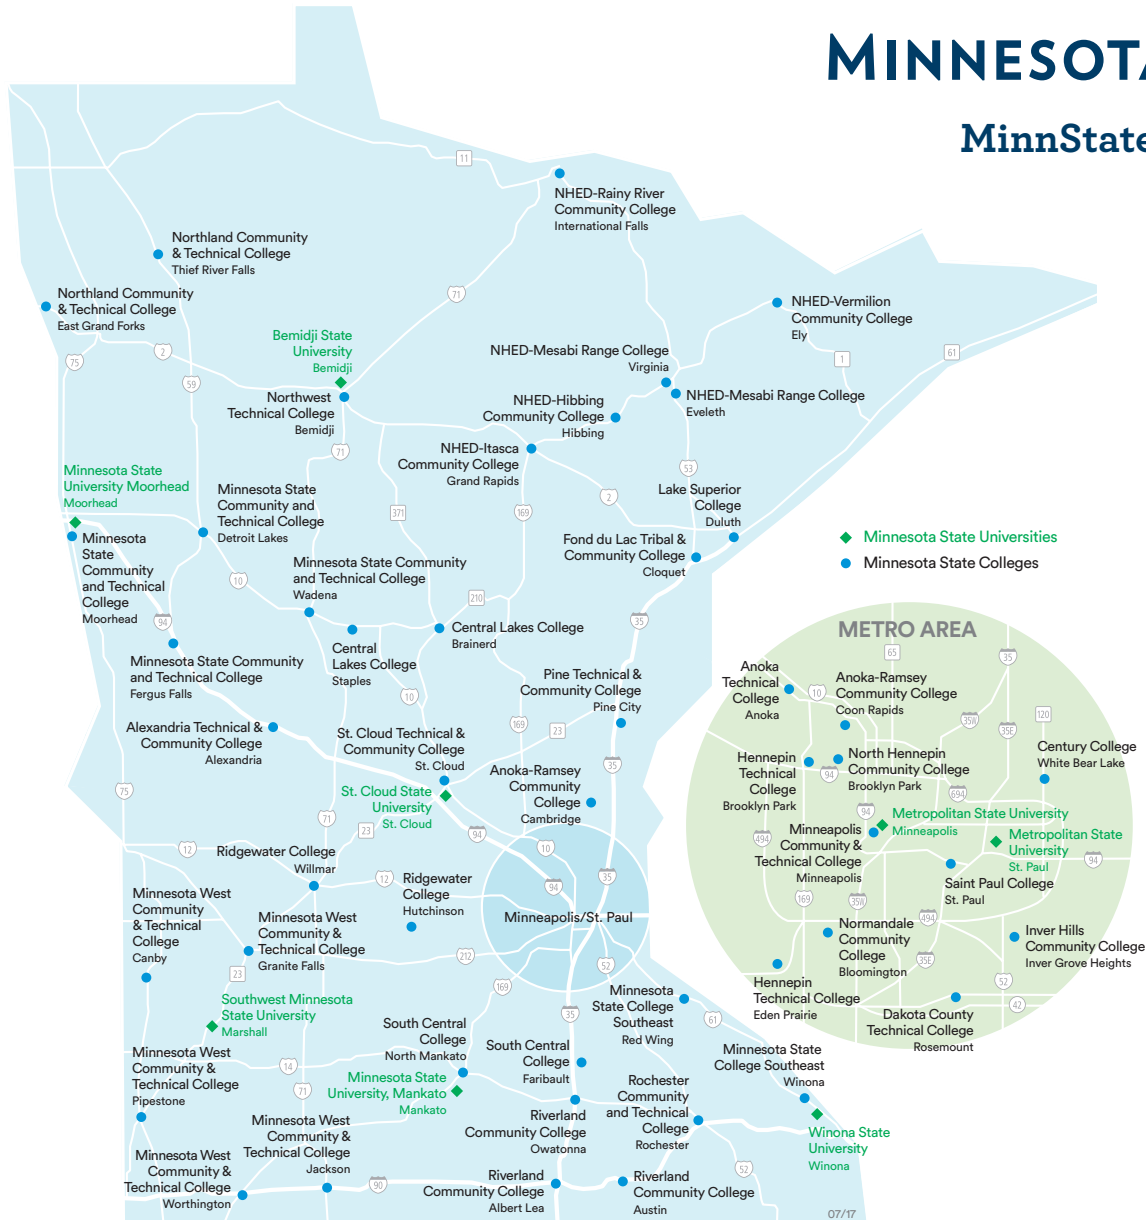

Bill Maki
Vice Chancellor for Finance and Facilities

The financial activity of the Minnesota State Colleges and Universities is included in this report. It is comprised of 37 colleges and universities. Effective May 23, 2022, five colleges with six campuses were combined into one individual college, with fiscal year 2022 being the last year these five colleges are being reported separately. The Revenue Fund activity is included in both this report and the separately issued Revenue Fund Annual Financial Report.

All financial activity of the Minnesota State Colleges and Universities is included in the state of Minnesota Annual Comprehensive Financial Report. A separately issued schedule of expenditures of federal awards will be available at a later date.

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of Minnesota State Colleges and Universities (Minnesota State) as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Minnesota State's basic financial statements as listed in the table of contents.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of Minnesota State as of June 30, 2022 and 2021, and the respective changes in financial position and where applicable, cash flows, thereof for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Bemidji State University Alumni and Foundation, Metropolitan State University Foundation, Minnesota State University Moorhead Foundation, Inc., Southwest Minnesota State University Foundation, and Winona State University Foundation, which cumulatively represents 59% of the total assets, 58% of the total net assets, and 52% of the expenses of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us and our opinion, insofar as it relates to the amounts included for the discretely presented component units, is based solely on the reports of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The other auditors did not audit the Foundations as listed above in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting and instances of reportable noncompliance associated with the Foundations.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Minnesota State Colleges and Universities do not purport to, and do not, present fairly the financial position of the state of Minnesota as of June 30, 2022 and 2021, the changes in its financial position, or its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, effective July 1, 2021, Minnesota State adopted new accounting guidance for leases. The guidance requires lessees to recognize a right-to-use lease asset and corresponding lease liability and lessors to recognize a lease receivable and corresponding deferred inflow of resources for all leases with lease terms greater than twelve months. Our opinion is not modified with respect to this matter.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Revenue Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Minnesota State's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Revenue Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Revenue Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in total other postemployment benefits liability and related ratios, the schedule of the proportionate share of net pension liability, and the schedule of contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2022, on our consideration of Minnesota State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Revenue Fund's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Revenue Fund's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

INTRODUCTION

The following discussion and analysis provide an overview of the financial position and activities of the Minnesota State Colleges and Universities (Minnesota State) for the years ended June 30, 2022, 2021 and 2020. This discussion has been prepared by management and should be read in conjunction with the financial statements and related notes, which follow this section.

Minnesota State, a state supported system, is the largest single provider of higher education in the state of Minnesota, and is comprised of formerly 37, now 33 state universities, technical, and community colleges. Effective May 23, 2022, five colleges with six campuses were combined into one individual college, with fiscal year 2022 being the last year these five colleges are being reported separately. Minnesota State continues to maintain 54 campuses in 47 communities across the state. Offering almost 4,000 educational programs, the system serves approximately 211,000 students annually in credit-based courses, as measured by unduplicated headcount enrollment. The system serves over 62,000 students of color and American Indian students across the state. Approximately 100,000 students enroll in non-credit courses each year through the system's continuing education and customized training services. The system employs approximately 14,000 full time and part time faculty and staff. Minnesota State is governed by a fifteen-member board of trustees appointed by the Governor. Twelve trustees serve six-year terms, eight representing each of Minnesota's congressional districts and four serving at-large. Three student trustees: one from a state university, one from a community college and one from a technical college, serve two-year terms. The board of trustees selects the chancellor and has broad policy responsibility for system planning, academic programs, fiscal management, personnel, admissions requirements, tuition and fees, and policies and procedures.

FINANCIAL HIGHLIGHTS

Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, and Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, were implemented during fiscal year 2015 and 2016. The adoption of GASB Statements No. 68 and No. 75 have a long-term material negative impact on Minnesota State's financial position.

It is worth noting, that the impact on fiscal years 2022, 2021, and 2020 salaries and benefits expense due to GASB Statements No. 68 and No. 75 is a result of a more comprehensive approach to pension and other postemployment benefit expense, which reflects estimates of the amounts that employees earned during the year, rather than actual contributions to the plans. The actuarially derived net pension liability, other postemployment benefit (OPEB) liability, related deferred outflows, and deferred inflows of resources, can vary between years due to actuarial assumption and benefit changes, thus affecting financial statements comparability between years.

The system's overall financial position increased by \$256.6 million in fiscal year 2022.

Excluding the GASB Statements No. 68 and No. 75 effect, fiscal years 2022 and 2021 net position increased by \$60.5 million, or 2.5 percent and \$23.9 million or 1.0 percent, respectively.

- Income (loss) before other revenues, expenses, gains, or losses, experienced a gain of \$221.2 million and a loss of \$20.0 million in fiscal years 2022 and 2021, respectively. This compares to a loss of \$41.7 million in fiscal year 2020. Excluding the effects of GASB Statements No. 68 and No. 75, the system experienced a gain of \$25.1 million in fiscal year 2022, with losses of \$6.6 million and \$24.0 million in fiscal years 2021 and 2020, respectively.

- Compensation, the largest cost category in the system, decreased \$232.5 million, or 16.5 percent, in fiscal year 2022 and decreased \$9.1 million, or 0.6 percent, in fiscal year 2021. Excluding the GASB Statements No. 68 and No. 75 adjustments, the net decrease in compensation was \$21.3 million, or 1.5 percent, and a net decrease of \$4.8 million, or 0.3 percent, in fiscal years 2022 and 2021, respectively. This cost constitutes 62.3 percent of the system's fiscal year 2022 total operating expenses, compared to 68.7 percent for fiscal year 2021.
- The state appropriation and tuition charged to students are the system's two largest revenue sources. The state appropriation increased by \$27.4 million, or 3.6 percent, in fiscal year 2022 following an 0.8 percent increase in fiscal year 2021. Most of the fiscal year 2022 increase was for colleges and universities support.
- Gross tuition revenue decreased \$9.3 million, or 1.2 percent, in fiscal year 2022. This is compared to a decrease of \$27.3 million, or 3.5 percent, and an increase of \$3.6 million, or 0.5 percent, in fiscal years 2021 and 2020, respectively. Undergraduate tuition rates for two-year colleges increased by 3.3 percent on average and for state universities increased by 3.5 percent in fiscal year 2022. This follows tuition rates increasing 3.0 percent at two-year colleges and at state universities in fiscal year 2021. However, increases were not effective until spring term, with summer and fall rates frozen at fiscal year 2020.
- The number of full year equivalent students is a significant factor driving both tuition revenue and operating expenses. The number of full year equivalent for credit students in fiscal years 2022, 2021 and 2020 totaled 108,034, 115,758, and 122,483, respectively. Enrollment in fiscal year 2022 decreased 6.7 percent from fiscal year 2021. This follows an enrollment decrease of 5.5 percent between fiscal year 2021 and 2020.
- Federal grants increased by \$171.8 million, or 42.1 percent in fiscal year 2022 compared to fiscal year 2021, following an increase of \$64.6 million, or 18.8 percent in fiscal year 2021 compared to fiscal year 2020. This increase is primarily attributable to \$334.6 million and \$156.2 million in the Higher Education Emergency Relief Fund (HEERF I, II and III) grant revenue in fiscal years 2022 and 2021 respectively. The fiscal year 2021 HEERF grant revenue increase was offset by an approximately \$29.0 million Pell grant decrease to account for the smaller total increase to federal grant revenue in that year.
- Financial aid expense increased by \$127.4 million or 119.6 percent in fiscal year 2022 compared to fiscal year 2021, following an increase of \$11.3 million or 11.9 percent in fiscal year 2021 compared to fiscal year 2020. The fiscal year 2022 and 2021 increases are attributable to additional financial aid disbursements to students financed by HEERF grant revenue.
- Total debt supporting the system's capital asset investment programs decreased in fiscal year 2022 by \$47.3 million to a total of \$445.4 million, a 9.6 percent decrease. This decrease was primarily due to the repayment of general obligation and revenue bonds of \$41.6 million. An additional \$56.0 of revenue bonds were refunded. These decreases were offset by \$50.3 million of new general obligation and revenue bonds.
- The system has been building up its cash in fiscal years 2021, 2020, and 2019 to adopt a new Enterprise Resource Planning (ERP) system which began implementation in fiscal year 2021. In fiscal year 2022 expenses outpaced revenues by \$4.0 million.

USING THE FINANCIAL STATEMENTS

This annual financial report includes five financial statements: the statements of net position, the statements of revenues, expenses and changes in net position, the statements of cash flows, the statements of fiduciary net position held for pension benefits, and the statements of changes in fiduciary net position held for pension benefits (the last two statements relate to the system's defined contribution retirement plan). These five financial statements are prepared in accordance with generally accepted accounting principles as established by the Governmental Accounting Standards Board.

STATEMENTS OF NET POSITION

The statements of net position present the financial position of the system at the end of the fiscal year, including all assets, deferred outflows, liabilities, and deferred inflows. Net position, the result of total assets and deferred outflows, minus total liabilities and deferred inflows, is one indicator of the current financial condition of the system. Assets, deferred outflows, liabilities and deferred inflows are generally measured using current values. One notable exception is capital assets which are stated at historical cost, less an allowance for depreciation/amortization.

A summary of the system's statements of net position as of June 30, 2022, 2021 and 2020 follows:

	(In Thousands)		
	2022	2021	2020
Current assets	\$ 1,422,369	\$ 1,329,264	\$ 1,282,829
Noncurrent assets	18,907	22,444	15,627
Capital and right to use assets, net	1,908,190	1,968,960	2,003,641
Deferred outflows of resources	235,309	163,598	381,278
Total assets and deferred outflows of resources	<u>3,584,775</u>	<u>3,484,266</u>	<u>3,683,375</u>
Current liabilities	346,359	342,274	335,406
Noncurrent liabilities	756,569	982,706	990,728
Deferred inflows of resources	572,695	506,763	715,258
Total liabilities and deferred inflows of resources	<u>1,675,623</u>	<u>1,831,743</u>	<u>2,041,392</u>
Net position	<u>\$ 1,909,152</u>	<u>\$ 1,652,523</u>	<u>\$ 1,641,983</u>

The primary component of current assets is cash and cash equivalents (unrestricted), which increased by \$127.3 million to total \$1.2 billion at June 30, 2022. This \$1.2 billion of cash and cash equivalents plus investments of \$20.0 million represent approximately 7.8 months of fiscal year 2022 operating expenses (excluding depreciation/amortization), an increase of 1.0 months from fiscal year 2021. This is a measure of liquid asset availability to cover operating expenses in the event of a temporary interruption to or decrease in the system's revenues.

Deferred outflows of \$235.3 million and \$163.6 million were reported in fiscal years 2022 and 2021, respectively, which represent the consumption of net position in one period that is applicable to future periods and is primarily due to GASB Statements No. 68 and No. 75.

Current liabilities consist primarily of salaries and benefits payable and accounts payable. Salaries and benefits payable at June 30, 2022 decreased from the prior year by \$0.4 million, or 0.2 percent, to a total of \$145.5 million. Consistent with prior years, the salaries and benefits payable accrual included about two months of earned salary for faculty who elected to receive salaries over twelve months on a September 1 through August 31 year. Accounts payable, including payables from restricted assets, increased by \$8.6 million from fiscal year 2021 to fiscal year 2022.

The noncurrent liabilities decreased by \$226.1 million or 23.0 percent in fiscal year 2022 compared to fiscal year 2021. This was primarily due to a decrease of \$193.9 million in the net pension liability in fiscal year 2022 compared to fiscal year 2021.

Deferred inflows of \$572.7 million and \$506.8 million were reported in fiscal years 2022 and 2021, respectively, which represent the acquisition of net position in one period that is applicable to future periods and is primarily due to GASB Statements No. 68 and No. 75. Additionally, GASB Statement No. 68 resulted in a net pension liability for fiscal years 2022 and 2021 in the amounts of \$150.8 million and \$344.7 million, respectively.

Net position represents the system's residual interest in total assets and deferred outflows after deducting total liabilities and deferred inflows. Net investment in capital assets, represents by far the largest portion of net position. Capital assets are carried at historical cost, not replacement cost. Restricted net position has constraints placed on its use by external creditors, grantors, contributors, laws or regulations and consist primarily of those asset restrictions imposed by bond covenants of \$85.7 million and restricted for debt service of \$37.8 million for a combined \$4.9 million increase over fiscal year 2021.

The system's net position as of June 30, 2022, 2021 and 2020 follows:

	(In Thousands)		
	2022	2021	2020
Net investment in capital assets	\$ 1,493,618	\$ 1,513,799	\$ 1,536,997
Restricted expendable, bond covenants	85,746	73,205	73,340
Restricted expendable, other	63,227	69,908	68,682
Unrestricted	266,561	(4,389)	(37,036)
Total net position	<u>\$ 1,909,152</u>	<u>\$ 1,652,523</u>	<u>\$ 1,641,983</u>

The system's financial position increased during fiscal year 2022 with net position increasing by \$256.6 million, or 15.6 percent, on total revenues of \$2.3 billion.

Without the effect of GASB Statements No. 68 and No. 75, unrestricted net position increased \$60.5 million or 2.5 percent in fiscal year 2022, and \$23.9 million or 1.0 percent in fiscal year 2021. This increase in fiscal year 2022 was primarily due to the additional federal HEERF funding received in fiscal year 2022 compared to fiscal year 2021.

Unrestricted net position increased significantly by \$270.9 million over fiscal year 2021. This is compared to the increase of \$32.6 million, or 88.1 percent in fiscal year 2021. During fiscal year 2020 unrestricted net position decreased by \$2.7 million, or 6.8 percent. This is mainly due to GASB Statements No. 68 and No. 75, as seen in the table below.

	(In Thousands)		
	2022	2021	2020
Unrestricted net position balance at June 30	\$ 266,561	\$ (4,389)	\$ (37,036)
Prior year effect of GASB Statements No. 68 and No. 75	739,872	726,491	708,799
Current year effect of GASB Statements No. 68 and No. 75	(196,132)	13,381	17,692
Balance at June 30, without effect of GASB No. 68 and No. 75	<u>\$ 810,301</u>	<u>\$ 735,483</u>	<u>\$ 689,455</u>

CAPITAL AND DEBT ACTIVITIES

With over 28 million managed square feet, the quality of the system's academic and residential life programs is closely linked to the development and renewal of its capital assets. The system continues to update and implement a long-range plan to modernize its complement of older facilities, balanced with new construction. Detail on commitments for construction projects is provided in Note 16 to the financial statements.

Fiscal year 2022 capital outlays totaled \$89.6 million, including \$66.1 million of new construction in progress, compared to fiscal year 2021 capital outlays which totaled \$105.7 million, including \$60.4 million of new construction in progress. Investments in capital assets consist largely of replacement and renovation of academic facilities, student housing and investments in equipment.

Capital and right to use assets are primarily financed by long-term debt through issuance of general obligation and revenue bonds. As more fully described in Notes 1 and 8, the system is responsible for paying one third of the debt service for certain general obligation bonds sold by the state of Minnesota for capital asset projects. The system recognizes as capital appropriation revenue any portion of general obligation bonds sold for which the system has no debt service responsibility.

Total state appropriation in fiscal year 2022 was \$795.3 million of which \$1.6 million is included for asset repairs and improvements that are not capitalized. General obligation bonds payable totaled \$171.8 million at June 30, 2022, a net decrease of \$11.6 million during the fiscal year. Revenue bonds payable at June 30, 2022 totaled \$186.5 million, a net decrease of \$35.7 million from June 30, 2021.

The percentage of total revenue expended to cover debt service (principal and interest payments on general obligation and revenue bonds, leases and notes payable) has increased \$52.1 million or 2.5 percent in fiscal year 2011, to \$84.0 million or 3.7 percent in fiscal year 2022. This compares to 0.9 percent of total revenue to cover debt service (principal and interest payments) on general obligation bonds only for fiscal year 2022.

Additional information on capital and debt activities can be found in Note 6 and Note 8 to the financial statements.

STATEMENTS OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

The statements of revenues, expenses and changes in net position present the system's results of operations and the overall change in net position for the fiscal year. It is the difference between the year's revenue and expense activities that results in an overall increase or decrease to net position. The state appropriation and federal and state grants are required under GASB Statement No. 34 to be considered nonoperating revenues.

A summary of the system's statements of revenues, expenses and changes in net position as of June 30, 2022, 2021 and 2020 follows:

(In Thousands)			
	2022	2021	2020
Operating revenues:			
Tuition, fees and sales, net	\$ 648,263	\$ 655,102	\$ 684,104

Grants to other organizations	(11,786)	(10,780)	(10,746)
Total nonoperating revenues (expenses)	<u>1,482,287</u>	<u>1,277,898</u>	<u>1,222,980</u>
Income (loss) before other revenues, expenses, gains or losses	221,255	(19,992)	(41,706)
Other revenues	35,374	30,532	67,474
Change in net position	<u>256,629</u>	<u>10,540</u>	<u>25,768</u>
Net position, beginning of year	1,652,523	1,641,983	1,616,215
Net position, end of year	<u>\$ 1,909,152</u>	<u>\$ 1,652,523</u>	<u>\$ 1,641,983</u>

The fiscal year 2022 total revenues increased by \$205.7 million, or 9.9 percent, which was the result of increases in grant revenue of \$177.8 million along with an increase in state appropriation of \$27.4 million. Total operating revenues increased by \$0.4 million in fiscal year 2022 compared to fiscal year 2021. Sales and room and board revenue increased by \$8.8 million, or 12.1 percent, in fiscal year 2022.

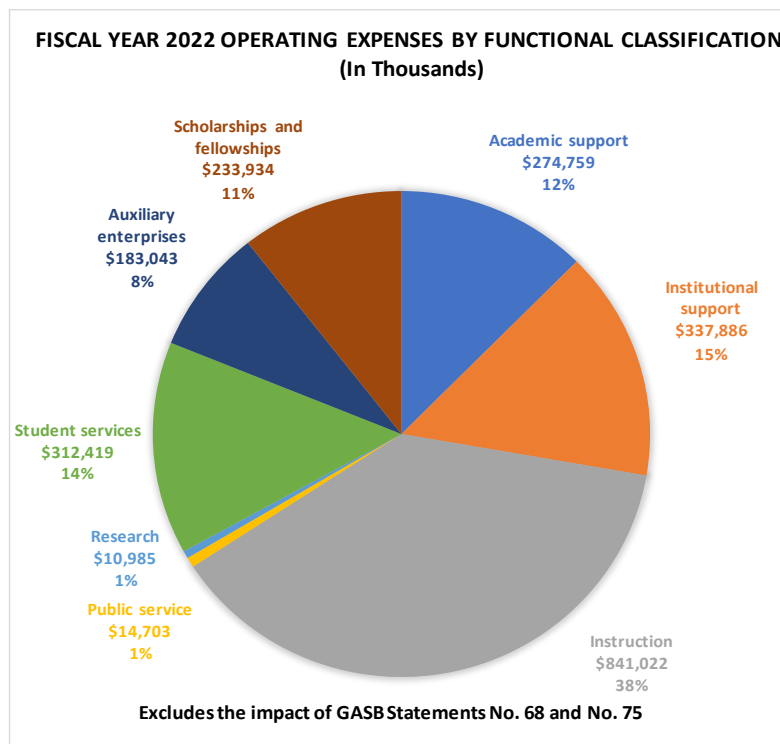

The following chart depicts fiscal year 2022 revenue by source:

Compensation is the system's single largest expense component. Compensation expense decreased \$232.5 million, or 16.5 percent, in fiscal year 2022 and represented 58.6 percent of total operating expense, compared to 68.9 percent in fiscal year 2021. Total compensation expense included fringe benefit costs of \$153.7 million and \$382.0 million in fiscal years 2022 and 2021, respectively. Fringe benefit costs in fiscal year 2022 decreased \$228.3 million due to GASB Statements No. 68 and No. 75 adjustments, compared to an increase of \$4.3 million in fiscal year 2021. Excluding the GASB Statements No. 68 and No. 75 adjustments, the net decrease in compensation was \$21.3 million or 1.5 percent, for fiscal year 2022.

The total of all other operating expenses increased for fiscal year 2022 by \$196.1 million or 30.8 percent compared to fiscal year 2021. This follows a decrease of 0.1 percent from fiscal year 2021 to fiscal year 2020. The increase in fiscal year 2022 operating expenses is primarily related to costs incurred from HEERF spending. Of this increase, \$127.4 million was disbursed to students in the form of financial aid.

The following charts illustrate fiscal year 2022 operating expenses by natural and functional classifications. Total expenses additionally include interest expense of \$11.7 million and grants to other organizations of \$11.8 million. These charts exclude the impact of GASB Statements No. 68 and No. 75 which results in a credit to compensation expense of \$196.1 million:

The system's overall financial position increased by \$256.6 million in fiscal year 2022. Without the effect of GASB Statements No. 68 and No. 75, the system's overall financial position increased by \$60.5 million in fiscal year 2022.

INVESTMENTS

All balances related to tuition revenues and most fees are held in the state treasury. These funds are invested as part of the state's investment pool by the State Board of Investment. Under state statute, the system's share of earnings on the state's investment pool is allocated to each institution by the System Office. Note 2 provides additional information on cash and investments, including steps taken to control interest and credit related risks. Revenue Fund cash balances are held in part by the state treasury and in part by U.S. Bank, N.A. as trustee, and are invested separately under contracts for investment management services.

FOUNDATIONS

The system's annual financial report for the years ended June 30, 2022 and 2021 includes financial statements for the foundations of all seven state universities, based on an assessment of the foundations' significance to the system's financial statements.

The accompanying financial report includes the foundations' statements of financial position, and the foundations' statements of activities, analogous to the system's statements of revenues, expenses, and changes in net position. It should be noted that the foundations' financial statements are not consolidated but are reported separately within the system's financial statements. The relationships between the foundations and the related universities are described in Note 18.

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE

Minnesota State continued to maintain a sound financial position in fiscal year 2022. Despite continued enrollment declines, net position improved including and excluding the effects of GASB No. 68 and 75. The primary reason for this sound financial position was the one-time Federal HEERF funding of \$334.6 million in fiscal year 2022 to support students with additional financial aid and to assist colleges and universities with additional costs and lost revenue due to the pandemic. HEERF funds have been a critical and significant source of non-operating revenue the last three fiscal years. Colleges and universities have about \$65.0 million available for fiscal year 2023 due to the June 30, 2023 extension provided by the United States Department of Education. Since these are one-time funds, operating revenues will need to recover in the near future to avoid having the reductions of expenses being the primary tool to having structurally balanced budgets going forward.

That recovery will rely heavily on enrollment stabilizing for Minnesota State. Minnesota State credit enrollment has decreased by nearly 30.0 percent in the last decade. Enrollment continues to be a major concern for most of our colleges and universities. Since fiscal year 2011, enrollment has decreased by nearly 50,000 full year equivalent (FYE) students which equates to a 32.0 percent decline. During the pandemic, enrollment declined at a faster pace. Almost 30.0 percent or 14,449 of the 50,000 FYE decline occurred between fiscal years 2020 and 2022. Fiscal year 2023 enrollment looks to continue this trend as fall 2022 enrollment projections for Minnesota State show a projected decline of approximately 4.0 percent from fiscal year 2022 enrollments. Pandemic health and safety mitigation measures continued to have a significant impact in fiscal year 2022. These measures have been reduced or lifted for the most part for fall semester 2022.

Despite enrollment challenges, Minnesota State remains committed to its core value to provide an opportunity for all Minnesotans to create a better future for themselves, for their families, and for their communities. Minnesota State's strategic objectives are built around three overlapping objectives: Equity 2030, Financial Sustainability, and Transformational Change with five focus areas:

- Student Success and Equity: Redesign educational and student service delivery models to ensure continued evolution that supports teaching and learning in a post-pandemic era and responds to the changing context of higher education.
- Workforce and Economic Development: Advance career, technical, and professional education to provide Minnesota with the talent it needs for a strong economy.
- Technology Solutions: Provide technologies that will allow us to redesign teaching and learning and encouraging a fair and equitable environment that closes student technology equity gaps across the diverse landscape and responds to the wide differences among our campuses in their technology infrastructure and ability to embark on digital transformation.
- Data Democratization: To continue to mature as a data driven organization, we must identify what information is needed-who needs access to the information and how best to facilitate and govern data infrastructure.
- Organizational Effectiveness: Provide examination and tools and resources to provide the infrastructure support as we strive for an effective organization that can be nimble and respond to the external challenges and changing landscape of higher education.

Minnesota State colleges, universities, and the system as a whole are becoming more aggressive in developing and employing comprehensive enrollment management strategies. Strategic enrollment management is a major component of Minnesota State Equity 2030, which has one goal – closing the educational equity gaps across race and ethnicity, socioeconomic status, and geographic location by the year 2030. Achieving this goal requires re-envisioning and enhancing the entire student experience to improve student success. Investments are being made to improve technologies and data analysis infrastructure and to scale high impact practices such as holistic academic advising across the system.

The outlook for the state of Minnesota budget and economic condition is positive. Minnesota State's state appropriation is its largest revenue source. The latest economic forecast showed a general fund surplus of over \$9.0 billion in the current biennium. This surplus represents over 15.0 percent of biennial expenditures. Even though the outlook for the national economy has weakened since the February 2022 state forecast, State of Minnesota revenues collections continued to exceed projections over the summer. This backdrop is critical as the Minnesota State Board of Trustees prepares to submit its fiscal year 2024 and 2025 biennial budget request to the state. After receiving \$56.4 million from our \$120.0 million request in fiscal years 2022 and 2023, Minnesota State looks to make a request about three times the size (in excess of \$300.0 million) for the next biennium that is designed to support students, support workforce and economic development, and provide the system resources to ensure there are adequate programs and services to support the system's strategic priorities.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Minnesota State's finances for all those with an interest in the system's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

MINNESOTA STATE COLLEGES AND UNIVERSITIES
NOTES TO THE FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2022 AND 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of Presentation — The reporting policies of Minnesota State Colleges and Universities (Minnesota State) conform to generally accepted accounting principles (GAAP) in the United States as prescribed by the Governmental Accounting Standards Board (GASB). The statements of net position; statements of revenues, expenses, and changes in net position; and statements of cash flows represent the financial activities of each institution and the System's activity in total.

Financial Reporting Entity — Minnesota State is an agency of the state of Minnesota and receives appropriations from the state legislature, substantially all of which are used to fund general operations. The Minnesota State financial statements include 37 member colleges and universities, the System Office, and System-wide activity. Effective May 23, 2022, five colleges with six campuses were combined into one individual college, with fiscal year 2022 being the last year these five colleges are being reported separately. The operations of most student organizations are included in the reporting entity because the board of trustees has certain fiduciary responsibilities for these resources.

Minnesota State may finance the construction, renovation, and acquisition of facilities for student residences and student unions through the sale of revenue bonds. These activities are accounted for and reported in the Revenue Fund, a legally separate entity, but are also included here. Details on the Revenue Fund bonds are available in the separately audited and issued Revenue Fund Financial Report. Copies are available from the financial reporting director at the address listed at the end of the Management's Discussion and Analysis section.

Discretely presented component units are legally separate organizations that raise and hold economic resources for the direct benefit of a college or university in accordance with GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. Foundations considered significant to a college or university are included as discretely presented component units and are separately identified in Note 18. For GASB financial statement purposes, most college foundations are not considered significant to the Minnesota State System and, therefore, are not included as discretely presented component units.

Complete financial statements of the foundations may be obtained from their respective administrative offices as follows:

Bemidji State University Alumni and Foundation
 1500 Birchmont Drive NE #17
 Bemidji, MN 56601-2699

Metropolitan State University Foundation
 700 East Seventh Street
 St. Paul, MN 55106

Minnesota State University, Mankato Foundation, Inc.
 224 Alumni Foundation Center
 Mankato, MN 56001

MN State University Moorhead Foundation, Inc.
 1104 Seventh Avenue South
 Moorhead, MN 56563

St. Cloud State University Foundation, Inc.
 Alumni and Foundation Center
 720 Fourth Avenue South
 St. Cloud, MN 56301-4498

Southwest Minnesota State University Foundation
 1501 State Street
 Marshall, MN 56258

Winona State University Foundation
 P.O. Box 5838
 175 West Mark Street
 Winona, MN 55987-5838

Fiduciary funds are omitted from inclusion in the net position of Minnesota State. Separate statements are included for the Minnesota State Defined Contribution Retirement Fund.

Joint Ventures and Jointly Governed Organizations — A joint venture is a legal entity or other organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which participants retain an ongoing financial interest or an ongoing financial responsibility. During fiscal year 2022, joint ventures received revenues of \$7,613 and incurred expenses of \$7,486. In fiscal year 2021 the amounts for revenues and expenses were \$7,868 and \$7,141, respectively.

Minnesota State jointly governs the Fond du Lac Tribal & Community College. The governing boards are the Minnesota State board of trustees and the Tribal College board of directors. The Tribal College reimburses the Community College for certain expenses. The financial position and results of operations of the Tribal College are reported in the financial statements of the Fond du Lac Reservation. Revenues and expenses related to operations of the Community College are included in the Minnesota State financial statements.

Basis of Accounting — The basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. The accompanying financial statements have been prepared as a special purpose government entity engaged in business-type activities. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods or services. Accordingly, these financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as they are incurred. Eliminations have been made to minimize the double counting of internal activities. Inter-fund receivables and payables have been eliminated in the statements of net position.

Budgetary Accounting — Minnesota State budgetary accounting, which is the basis for annual budgets and allocation of the state appropriation, differs from GAAP. Budgetary accounting includes all receipts and expenses up to the close of the books in August for the budget fiscal year. Revenues not yet received by the close of the books are not included. The criterion for recognizing expenses is the actual disbursement, and not when the goods or services are received.

The state of Minnesota operates on a two-year (biennial) budget cycle ending on June 30 of odd numbered years. Minnesota State is governed by a fifteen-member board of trustees appointed by the Governor with the advice and consent of the state senate. The board approves the individual colleges and universities biennial budget requests and allocations as part of the Minnesota State total budget.

Budgetary control is maintained at the college and university level. Presidents have the authority and responsibility to administer the budget and can transfer money between programs within each college and university without board approval. The budget of a college or university can be legally amended by the authority of the Vice Chancellor for Finance and Facilities of Minnesota State.

State appropriations do not lapse at fiscal year-end. Any unexpended appropriation from the first fiscal year of a biennium is available for the second fiscal year. Any unexpended balance may also carry over into a future biennium. State appropriation included \$1,568 and \$2,022 in fiscal years 2022 and 2021 respectively, for asset repairs and improvements that are not capitalized.

Capital Appropriation Revenue — Minnesota State is responsible for paying one third of the debt service for certain general obligation bonds sold for capital projects, as specified in the authorizing legislation. The portion of general obligation bond debt service that is payable by the state of Minnesota is recognized by Minnesota State as capital appropriation revenue when the related expenses are incurred. Individual colleges and universities are allocated cash, capital appropriation revenue, and debt based on capital project expenses.

Cash and Cash Equivalents — The cash balance represents cash in the state treasury and demand deposits in local bank accounts as well as cash equivalents. Cash equivalents are short term, high liquid deposits having original maturities (remaining time to maturity at acquisition) of three months or less. Cash and cash equivalents include amounts in demand deposits with the Minnesota State Board of Investment, savings accounts, cash management pools, repurchase agreements, and money market funds.

Restricted cash is cash held for capital projects and cash in the Revenue Fund for capital projects and debt service. The Revenue Fund is used to account for the revenues, expenses, and net position of revenue producing facilities, which are supported through usage. It has the authority to sell revenue bonds for the construction and maintenance of revenue producing facilities.

All balances related to the state appropriation, tuition revenues, and most fees are in the state treasury. Each campus has at least one account in a local bank. The activities handled through the local bank include financial aid, student payroll, auxiliary, and student activities.

Investments — Investments are reported at fair value using quoted market prices. In addition, Minnesota State invests funds held for auxiliary and student activities in various brokerage accounts.

Receivables — Accounts receivable and student loans receivable are shown net of an allowance for uncollectible accounts. Minnesota State considers grants receivable to be fully collectible, accordingly, no allowance for doubtful accounts has been recorded for these receivables.

Inventories — Inventories are valued at cost using the actual cost, first in first out, retail cost, and weighted average cost methods.

Prepaid Expense — Prepaid expense consists primarily of deposits in the state of Minnesota Debt Service Fund for future general obligation bond payments.

Capital Assets — Capital assets are recorded at cost or, for donated assets, at acquisition value. Estimated historical cost has been used when actual cost is not available. Such assets are depreciated or amortized on a straight-line basis over the useful life of the assets.

Estimated useful lives are as follows:

Asset Type	Useful Life
Buildings	30-40 years
Building improvements	15-20 years
Equipment	3-20 years
Internally developed software	7 years
Library collections	7 years

Equipment includes all items purchased with an original cost of \$10 and over. Buildings, building improvements, and internally developed software include all projects with a cost of \$250 and over for projects started since July 1, 2008, and \$100 and over for projects started prior to July 1, 2008. All land and library collection purchases are capitalized regardless of amount spent.

Leases and Right to Use Assets — Minnesota State determines if an arrangement is a lease at inception. Lessee arrangements are included in lease assets and lease liabilities in the statements of net position. Lease assets represent Minnesota State's control of the right to use an underlying asset for the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease assets are recognized at the commencement date based on the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. Lease assets are amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset. Right to use buildings are amortized over lives ranging from two to thirty-four years. Right to use equipment is amortized over lives ranging from two to six years. Lease liabilities represent Minnesota State's obligation to make lease payments arising from the lessee arrangement. Lease liabilities are recognized at the commencement date based on the present value of expected lease payments over the lease term, less any lease incentives. Interest expense is recognized ratably over the contract term. The lease term may include options to extend or terminate the lease when it is reasonably certain that Minnesota State will exercise that option. Minnesota State has elected to recognize payments for short-term leases with a lease term of 12 months or less and leases with a present value of less than \$250 as expenses as incurred, and these leases are not included as lease liabilities or right to use lease assets on the statements of net position. Lessor arrangements are included in lease receivables and deferred inflows of resources in the statements of net position. Lease receivables represent Minnesota State's claim to receive lease payments over the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease receivables are recognized at commencement date based on the present value of expected lease payments over the lease term, reduced by any provision for estimated uncollectible amounts. Interest revenue is recognized ratably over the contract term. Deferred inflows of resources related to leases are recognized at the commencement date based on the initial measurement of the lease receivable, plus any payments received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The deferred inflows related to leases are recognized as lease revenue in a systematic and rational manner over the lease term. Minnesota State recognizes payments received for short-term leases with a lease term of 12 months or less as revenue as the payments are received. Minnesota State also recognizes payments received on leases with an initial calculated net present value of \$250 or less as revenue as the payments are received. These leases are not included as lease receivables or deferred inflows on the statements of net position.

Unearned Revenue — Unearned revenue consists primarily of tuition received, but not yet earned for summer session and fall term. It also includes amounts received for unspent bond proceeds, residence hall deposits, and from grants which have not yet been earned under the terms of the agreement. Additionally, it includes food service vendor capital investments that will benefit Minnesota State over the next years. At June 30, 2022 and 2021, the food service vendor capital investment balances were \$10,282 and \$9,483, respectively. The amount of food service revenue recognized in fiscal years 2022 and 2021 was \$2,501 and \$2,887, respectively.

Long-Term Liabilities — The state of Minnesota appropriates for and sells general obligation bonds to support construction and renovation of Minnesota State facilities as approved through the state's capital budget process. Minnesota State is responsible for a portion of the debt service on the bonds sold for some college and university projects. Minnesota State may sell revenue bonds and may also enter into lease agreements for certain right to use assets.

Other long-term liabilities include compensated absences, net pension liability, early retirement benefits, other postemployment benefits, workers' compensation claims, notes payable, and capital contributions payable associated with Perkins Loan agreements with the United States Department of Education.

Deferred Outflows and Deferred Inflows of Resources — Deferred outflows of resources represent the consumption of net position by Minnesota State in one period that is applicable to future periods. Deferred inflows of resources represent the acquisition of net position that is applicable to future periods. Deferred outflows and inflows are related to defined benefit pension plans, other postemployment benefits (OPEB), economic gains/losses related to revenue bond and general obligation bond refunding, which is a result of the difference in the carrying value of the refunded debt and its reacquisition price and lease revenue.

The following tables summarize deferred outflows and inflows:

		Deferred Outflows of Resources	
		Year Ended June 30	
		2022	2021
<u>Related to Pensions</u>			
Differences between projected and actual investment earnings	\$	-	\$ 8,541
Changes in actuarial assumptions		165,696	84,965
Contributions paid to plans subsequent to measurement date		31,710	31,323

<u>Related to Refunding:</u>			
Economic gain on refunding of bonds		3,693	3,190
<u>Related to Leases:</u>			
Lease revenue		13,824	13,935
Total	\$	<u>572,695</u>	<u>506,763</u>

Operating Activities — Operating activities as reported in the statements of revenues, expenses, and changes in net position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Nearly all the expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, including state appropriations, federal, state, and private grants, and investment income.

Tuition, Fees, and Sales, Net — Tuition, fees, and sales are reported net of scholarship allowance. Note 12 to the financial statements provides additional information.

Restricted Student Payments — Restricted student payments consist of room and board, sales, and fee revenue restricted for payment of revenue bonds, and are net of scholarship allowance. Note 12 to the financial statements provides additional information.

Federal Grants — Minnesota State participates in several federal grant programs. The largest programs include Pell, Supplemental Educational Opportunity Grant, Federal Work Study, and TRIO. New for fiscal year 2020 and continuing to have a significant impact into fiscal year 2022 was Higher Education Emergency Relief Funds (HEERF) grant provided to the system due to the pandemic. The federal grant revenue related to those grants was \$334,559 and \$156,237 for fiscal years 2022 and 2021, respectively. Federal grant revenue is recognized as nonoperating revenue in accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. Expenditures under government contracts are subject to review by the granting authority. To the extent, if any, that such a review reduces expenditures allowable under these contracts, the system will record such disallowance at the time the determination is made.

Capital Grants — Minnesota State receives federal, state, and private grants which are restricted for the acquisition or construction of capital assets or are in-kind equipment donations.

Other Postemployment Benefits (OPEB) — For purposes of measuring the total OPEB liability, deferred outflows and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the plan and additions to and deductions from the plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. The plan is not funded. Minnesota State recognized an increase in benefit expense of \$1,360 and \$2,016 in fiscal years 2022 and 2021 respectively, related to OPEB. Those increases are comprised of OPEB expense of \$6,006 and \$6,662, net of reduction to expense for yearly contributions of \$4,646 and \$4,646 for fiscal years 2022 and 2021, respectively.

Defined Benefit Pensions — For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to and deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, plan contributions are recognized as of the employer payroll paid dates and benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The actuarially derived net pension liability, deferred outflows, and deferred inflows of resources can vary between years due to actuarial assumption changes, which can result in significant variability between years. For the years ended June 30, 2022 and 2021, Minnesota State recognized a decrease in benefit expense of \$199,207 and an increase of \$11,366, respectively, related to defined benefit pensions. The decrease in fiscal year 2022 is comprised of a decrease in expense of \$167,497 along with a reduction in expense for yearly contributions of \$31,710. The increase in fiscal year 2021 is comprised of an increase in expense of \$42,690, along with a reduction in expense for yearly contributions of \$31,324.

Use of Estimates — To prepare the basic financial statements in conformity with generally accepted accounting principles, management must make estimates and assumptions. These estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant areas that require the use of management's estimates relate to allowances for uncollectible accounts, compensated absences, scholarship allowances, and workers' compensation claims.

Net Position — The difference between assets and deferred outflows and liabilities and deferred inflows is net position. Net position is further classified for accounting and reporting purposes into the following categories:

- *Net investment in capital assets*: capital assets, net of accumulated depreciation/amortization and outstanding principal balances of debt and other borrowings attributable to the acquisition, construction, or improvement of those assets.
- *Restricted expendable*: net position subject to externally imposed stipulations. Net position restrictions for Minnesota State are as follows:

Restricted for bond covenants — revenue bond restrictions.

Restricted for other — includes restrictions for the following:

Capital projects — restricted for completion of capital projects.

Debt service — legally restricted debt repayment.

Donations — restricted per donor requests.

Faculty contract obligations — for faculty development and travel as required by contracts.

Loans — college and university capital contributions for Perkins Loans.

The following table summarizes net position restricted for other:

	Year Ended June 30	
	2022	2021
Capital projects	\$ 357	\$ 288
Debt service	37,792	45,430
Donations	7,054	7,050
Faculty contract obligations	16,700	15,231
Loans	1,324	1,909
Total	<u>\$ 63,227</u>	<u>\$ 69,908</u>

- *Unrestricted*: net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management, the System Office, or the board of trustees.

The system has no formal financial management policy addressing which resources to use when both restricted and unrestricted net position are available for the same purpose. College, university, or System Office leadership that has the delegated authority decides which resources to use at the time expenses are incurred. Factors used to determine which resources to use include relative priorities of the college or university in accordance with the strategic initiatives and externally imposed matching requirements of certain restricted funds. Major capital purchases are many times split funded from multiple restricted and unrestricted funding sources.

New Accounting Standards — In June 2017, the GASB issued Statement No. 87, *Leases*, which establishes accounting and financial reporting for leases by lessees and lessors. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right to use the lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Minnesota State has implemented GASB Statement No. 87 in fiscal year 2022.

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

In March 2020, the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*, which addresses the accounting and financial reporting implications that result from the replacement of an Interbank Offered Rate. GASB Statement No. 93 is effective for the year beginning after June 15, 2021. Minnesota State has implemented GASB No. 93 in fiscal year 2022.

In June 2020, the GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Service Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No 32*. The primary objectives of this Statement are to increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform, to mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statement, and enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans that meet the definition of a pension plan and for benefits provided through those plans. GASB Statement No. 97 is effective for fiscal years beginning after June 15, 2021. Minnesota State has implemented GASB No. 97 in fiscal year 2022.

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*, which provides a single method of reporting conduit debt obligations by issuers. It also eliminates diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. GASB No. 91 is effective for the year beginning after December 15, 2021. The effect GASB Statement No. 91 will have on the fiscal year 2023 financial statements has not yet been determined.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which improves financial reporting by addressing issues related to public-private and public-public partnership arrangements. The statement also provides guidance for accounting and financial reporting for availability payment arrangements. GASB Statement No. 94 is effective for the year beginning after June 15, 2022. The effect GASB Statement No. 94 will have on the fiscal year 2023 financial statements has not yet been determined.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, which provides guidance on the accounting and financial reporting for subscription-based information technology arrangements. The statement defines subscription-based technology arrangements, established that they are a right to use asset with a corresponding liability, provides capitalization criteria for outlays other than subscription payments including implementation costs, and requires footnote disclosure regarding the arrangements. GASB Statement No. 96 is effective for fiscal years beginning after June 15, 2022. The effect GASB Statement No. 96 will have on the fiscal year 2023 financial statements has not yet been determined.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, which updates the recognition and measurement guidance for compensated absences using a unified model and amending certain previously required disclosures. GASB Statement No. 101 is effective for years beginning after December 15, 2023. The effect of GASB statement No. 101 will have on the fiscal year 2025 financial statements has not yet been determined.

Reclassifications — Certain prior year amounts have been reclassified to conform to current year presentation. These classifications had no effect on net position previously reported.

Risks and Uncertainties — The World Health Organization has declared the Coronavirus Disease (COVID-19) a worldwide pandemic. COVID-19 did impact various parts of Minnesota State’s fiscal years 2022 and 2021 operations and financial results, including, but not limited to, declines in enrollment, loss of auxiliary revenues, additional bad debts, costs for increased use of technology, or potential shortages of personnel. Management believes Minnesota State continues to take appropriate actions to mitigate the negative impact.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents — All balances related to the state appropriation, tuition revenues, and most fees are held in the state treasury. In addition, each campus has at least one local bank account. The activities handled through local banks include financial aid, student payroll, auxiliary, and student activities.

Minnesota Statutes, Section 118A.03, requires that deposits be secured by depository insurance or a combination of depository insurance and collateral securities held in the state’s name by an agent of the state. The statutes further require that such insurance and collateral shall be at least ten percent greater than the amount on deposit, except where the collateral is an irrevocable standby letter of credit, in which case the collateral should at least equal the deposits. Board procedure 7.5.1 requires compliance with Minnesota Statutes, Section 118A.03.

Cash and cash equivalents are categorized to give an indication of the level of custodial credit risk. Category 1 includes cash and cash equivalents insured or collateralized with securities held by the state or its agent in Minnesota State’s name. All cash and cash equivalents are included in Category 1.

At June 30, 2022 and 2021, the local bank balances were \$121,207 and \$101,540, respectively. These balances were adjusted by items in transit to arrive at the cash in bank balance.

The following table summarizes cash and cash equivalents, including amounts reported as restricted cash:

Carrying Amount	Year Ended June 30	
	2022	2021
Cash, in bank	\$ 88,022	\$ 77,087
Money markets	10,781	7,308
Cash, trustee account (US Bank)	22,359	26,141
Total local cash and cash equivalents	121,162	110,536
Total treasury cash accounts	1,117,582	1,008,489
Grand Total	\$ 1,238,744	\$ 1,119,025

The balance in the state treasury is invested by the Minnesota State Board of Investment (SBI) as part of the state investment pool. This asset is reported as a cash equivalent. The Revenue Fund contracts with the SBI and U.S. Bank, N.A. for investment management services of Revenue Fund cash.

The cash accounts are invested in short term, liquid, high quality debt securities.

Foreign Currency Risk — Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. St. Cloud State University has foreign checking accounts, denominated entirely in British Pounds. At June 30, 2022 and 2021, the fair value in U.S. Dollars is \$129 and \$174, respectively.

Investments — The Minnesota State Board of Investment (SBI) manages the majority of the state's investments. All investments managed by the SBI are governed by Minnesota Statutes, Chapters 11A and 356A. Minnesota Statutes, Section 11A.24, broadly restricts investments to obligations and stocks of U.S. and Canadian governments, their agencies and registered corporations, other international securities, short term obligations of specified high quality, restricted participation as a limited partner in venture capital, real estate or resource equity investments, and the restricted participation in registered mutual funds. Funds not invested by SBI must also conform to the above statutes and may be further restricted by bond indentures.

Generally, when applicable, the statutes limit investments to those rated by a nationally recognized rating agency within the top four quality rating categories. The statutes further prescribe the maximum percentage of fund assets that may be invested in various asset classes and contain specific restrictions to ensure the quality of the investments.

SBI is authorized to establish, and has established, combined investment funds. Within statutory requirements and based on detailed analysis of each fund, the SBI has established investment guidelines and benchmarks for all funds under its management. These investment guidelines and benchmarks are tailored to the particular needs of each fund and specify investment objectives, risk tolerance, asset allocation, investment management structure, and specific performance standards.

Interest Rate Risk — Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. Minnesota State complies with Board procedure 7.5.1 that recommends considering fluctuating interest rates and cash flow needs when purchasing short term and long-term debt investments. Interest rate risk information is presented using the weighted average maturity method, which expresses investment time horizons, the period when investments become due and payable in years or months, weighted to reflect the dollar size of individual investments within investment type.

Credit Risk — Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Minnesota State policy for reducing its exposure to credit risk is to comply with Minnesota Statutes, Section 118A.04. The statutes limit investments to the top-quality rating categories of a nationally recognized rating agency.

Custodial Credit Risk — Custodial credit risk for investments is the risk that in the event of a failure of the counterparty, Minnesota State will not be able to recover the value of the investments that are in the possession of an outside party.

Investments are categorized to give an indication of the level of custodial credit risk. Category 1 includes securities insured, registered, or held by Minnesota State or its agent in Minnesota State's name. All investments are in Category 1.

Concentration of Credit Risk — Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Minnesota State policy for reducing this risk of loss is to comply with Board procedure 7.5.1 which recommends investments be diversified by type and issuer.

Fair Value Reporting — GASB Statement No. 72 *Fair Value Measurement and Application* sets forth the framework for measuring the fair value of investments based on a hierarchy of valuation inputs. The statement defines fair value as the exit price at the measurement date from the perspective of a market participant that controls the asset or is obliged for the liability. The hierarchy has three levels:

- *Level 1* — Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds.
- *Level 2* — Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.
- *Level 3* — Inputs that are unobservable and significant to the fair value measurement.

Minnesota State had the following investments and maturities held in various brokerage accounts and with SBI:

Year Ended June 30, 2022					
Investment Type	Fair Value	Weighted Maturity (Years)	Level 1	Level 2	Level 3
Corporate/municipal bonds	\$ 6,923	3.44		x	
U.S. agencies	3,930	3.50	x		
Asset backed securities	1	2.95		x	
U.S. treasuries	960	0.77	x		
Total	<u>11,814</u>				
Portfolio weighted average maturity		3.25			
Certificates of deposit	8,136			x	
Stock	380			x	
Total	<u>\$ 20,330</u>				

Year Ended June 30, 2021					
Investment Type	Fair Value	Weighted Maturity (Years)	Level 1	Level 2	Level 3
Corporate/municipal bonds	\$ 9,345	4.08		x	
U.S. agencies	3,522	5.26	x		
Asset backed securities	35	3.61		x	
Total	<u>12,902</u>				
Portfolio weighted average maturity		4.40			
Certificates of deposit	9,344			x	
Stock	2,870			x	
Total	<u>\$ 25,116</u>				

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

3. ACCOUNTS RECEIVABLE

The accounts receivable balances are made up primarily of receivables from individuals not paid as of June 30, 2022 and 2021. At June 30, 2022 and 2021, the total accounts receivable balances were \$98,858 and \$101,991, respectively, less an allowance for uncollectible receivables of \$33,634 and \$36,361, respectively.

The following table summarizes accounts receivable, net:

	Year Ended June 30	
	2022	2021
Tuition	\$ 42,382	\$ 48,326
Fees	10,120	11,592
Sales and service	7,819	9,095
Room and board	5,332	5,112
Third party obligations	8,330	6,488
Inventory	580	472
Financial aid	4,276	4,381
Capital projects	4,584	3,581
Direct loans	2,017	2,027
Other	13,418	10,917
Total accounts receivable	98,858	101,991
Allowance for doubtful accounts	(33,634)	(36,361)
Accounts receivable, net	<u>\$ 65,224</u>	<u>\$ 65,630</u>

The allowance for uncollectible accounts has been computed based on the following aging schedule:

Age	Allowance Percentage
Less than 1 year	20
1 to 3 years	50
3 to 5 years	65
Over 5 years	75

4. PREPAID EXPENSE

Prepaid expense consists primarily of funds which have been deposited in the state's Debt Service Fund for future general obligation bond payments in the amounts of \$24,414 and \$25,573 for fiscal years 2022 and 2021, respectively. Minnesota Statutes, Section 16A.641, requires all state agencies to have on hand December 1 of each fiscal year an amount sufficient to pay all general obligations bond principal and interest due and to become due, through July 1 of the second fiscal year. Also, included in prepaid expenses for fiscal years 2022 and 2021 were \$3,429 and \$3,788, respectively, stemming mostly from prepaid maintenance agreements and prepaid contractual support.

5. STUDENT LOANS RECEIVABLE

Loans receivable balance is made up primarily of loans under the Federal Perkins Loan Program. The federal government provided the funding for those loans. The Perkins Loan Program expired September 30, 2017. No new Perkins loan advances are permitted after June 30, 2018. Funds collected will be returned to the Department of Education and the institution on an annual basis. The Minnesota State loans collection unit and the colleges and universities are responsible for loans collection. As of June 30, 2022 and 2021, the loans receivable for this program totaled \$9,245 and \$13,258, respectively, less an allowance for uncollectible loans of \$103 and \$360, respectively.

The decrease in Federal Perkins Loans is due to continued collection efforts by Minnesota State along with the fact that loans were assigned and accepted back to the U.S. Department of Education in both fiscal years 2022 and 2021. The change in allowance is also contributable to these collections and assignment efforts.

6. CAPITAL AND RIGHT TO USE ASSETS

Summaries of changes in capital and right to use assets for fiscal years 2022 and 2021 follow:

	Year Ended June 30, 2022				
	Beginning Balance	Increases	Decreases	Completed Construction	Ending Balance
Capital assets, not depreciated/amortized:					
Land	\$ 87,334	\$ -	\$ 513	\$ -	\$ 86,821

7. ACCOUNTS PAYABLE

Accounts payable represent amounts due for goods received and services performed prior to the end of the fiscal year. The following table summarizes accounts payable:

	Year Ended June 30	
	2022	2021
Purchased services	\$ 15,651	17,636
Other payables	9,809	6,897
Capital projects	7,026	2,994
Supplies	6,239	4,550
Employee benefits	4,246	3,399
Interest	1,980	2,304
Grants, loans and scholarships	1,690	1,610
Repairs and maintenance	1,594	1,721
Inventory	697	652
Total accounts payable	\$ 48,932	\$ 41,763

In addition, as of June 30, 2022 and 2021, Minnesota State had payable from restricted assets in the amounts of \$8,160 and \$6,696, respectively, which were related to capital projects financed by general obligation bonds and revenue bonds.

8. LONG-TERM OBLIGATIONS

Summaries of amounts due within one year are reported in the current liability section of the statements of net position.

The changes in long-term obligations for fiscal years 2022 and 2021 follow:

	Year Ended June 30, 2022				
	Beginning Balance	Increases	Decreases	Ending Balance	Current Portion
Liabilities for:					
Bond premium	\$ 26,561	\$ 14,195	\$ 6,204	\$ 34,552	\$ -
General obligation bonds	183,421	9,016	20,652	171,785	19,594
Leases	32,845	-	15,141	17,704	8,021
Notes payable	12,438	11,917	779	23,576	765
Revenue bonds	222,210	41,310	77,015	186,505	15,140
Capital contributions payable	15,174	-	3,911	11,263	2,041
Total long-term obligations	<u>\$ 492,649</u>	<u>\$ 76,438</u>	<u>\$ 123,702</u>	<u>\$ 445,385</u>	<u>\$ 45,561</u>

	Year Ended June 30, 2021				
	Beginning Balance	Increases	Decreases	Ending Balance	Current Portion
Liabilities for:					
Bond premium	\$ 28,893	\$ 1,925	\$ 4,257	\$ 26,561	\$ -
General obligation bonds	198,206	6,195	20,980	183,421	20,652
Leases	5,351	29,628	2,134	32,845	15,141
Notes payable	13,398	-	960	12,438	779
Revenue bonds	242,490	-	20,280	222,210	21,050
Capital contributions payable	20,252	-	5,078	15,174	2,671
Total long-term obligations	<u>\$ 508,590</u>	<u>\$ 37,748</u>	<u>\$ 53,689</u>	<u>\$ 492,649</u>	<u>\$ 60,293</u>

The changes in other compensation benefits for fiscal years 2022 and 2021 follow:

	Year Ended June 30, 2022				
	Beginning Balance	Increases	Decreases	Ending Balance	Current Portion
Liabilities for:					
Compensated absences	\$ 153,443	\$ 14,673	\$ 16,879	\$ 151,237	\$ 18,148
Early termination benefits	2,367	1,857	2,094	2,130	2,003
Other postemployment benefits	67,263	7,104	2,930	71,437	-
Workers' compensation	3,858	1,163	1,418	3,603	2,342
Total other compensation benefits	<u>\$ 226,931</u>	<u>\$ 24,797</u>	<u>\$ 23,321</u>	<u>\$ 228,407</u>	<u>\$ 22,493</u>

	Year Ended June 30, 2021				
	Beginning Balance	Increases	Decreases	Ending Balance	Current Portion
Liabilities for:					
Compensated absences	\$ 150,900	\$ 19,421	\$ 16,878	\$ 153,443	\$ 16,879
Early termination benefits	2,238	2,152	2,023	2,367	2,095
Other postemployment benefits	68,182	20,018	20,937	67,263	-
Workers' compensation	3,801	1,537	1,480	3,858	2,353
Total other compensation benefits	<u>\$ 225,121</u>	<u>\$ 43,128</u>	<u>\$ 41,318</u>	<u>\$ 226,931</u>	<u>\$ 21,327</u>

Bond Premium — Bonds were issued in fiscal years 2022 and 2021, resulting in net premiums of \$13,187 and \$1,925, respectively. Amortization is calculated using the straight-line method and amortized over the average remaining life of the bonds.

General Obligation Bonds — The state of Minnesota sells general obligation bonds to finance Minnesota State capital projects. The interest rate on these bonds ranges from 1.6 to 5.3 percent. Minnesota State is responsible for paying one third of the debt service for certain general obligation bonds sold for capital projects, as specified in the authorizing legislation. This debt obligation is allocated to the colleges and universities based upon the specific projects funded.

Leases — Liabilities for leases include those leases that are generally defined as one that transfers benefits and risk of ownership to the lessee. Annual principal repayments in future years for real estate leases range between \$10 and \$3,445, discounted at an imputed interest rate of 3.5 percent, with the last repayment due in fiscal year 2055. Annual principal repayments in future years for equipment leases range between \$12 and \$4,576, discounted at an imputed interest rate of 3.5 percent, with the last repayment due in fiscal year 2027. Note 11 to the financial statements provides additional information.

Notes Payable — Notes payable consist of energy efficiency loans granted by energy companies in order to improve energy efficiency in college and university buildings. The interest rates for the energy loans are tied to the prime interest rate at the time of the project. The interest rate for the financing agreements ranges from 2.40 percent to 4.92 percent.

All projects completed under Minnesota Statutes, Section 16B.32, the State Retrofit Program and the State/Minnegasco Program are interest free loans. Projects completed under Minnesota Statutes, Sections 16C.14 and 16C.144, have an interest component.

Revenue Bonds — The Revenue Fund is authorized by Minnesota Statutes, Section 136F.98, to issue revenue bonds whose aggregate principal shall not exceed \$405,000 at any time. The proceeds of these bonds are used to finance the acquisition, construction, and renovation of buildings for residence halls, student unions, food services, parking facilities, and wellness centers at an institution. Revenue bonds currently outstanding have interest rates of 2.35 percent to 5.0 percent.

The revenue bonds are payable solely from and collateralized by an irrevocable pledge of revenues to be derived from the operation of the financed buildings and from student fees. These revenue bonds are payable through fiscal year 2038. Annual principal and interest payments on the bonds are expected to require less than 35.8 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$229,286. Principal and interest paid for the current year and total customer net revenues were \$29,478 and \$96,379, respectively.

In addition, Itasca Community College issued revenue bonds through the Itasca County Housing Redevelopment Authority that are payable through 2038. These bonds are payable solely from, and collateralized by, an irrevocable pledge of revenues to be derived from the operation of the financed buildings. Annual principal and interest payments on the bonds are expected to require less than 46.2 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$868. For the current year, principal and interest paid and total customer net revenues were \$170 and \$494, respectively. These revenue bonds have a variable interest rate of 0.75 percent to 3.65 percent.

Capital Contributions Payable — The liabilities of \$11,263 and \$15,174 at June 30, 2022 and 2021, respectively, represent the amount Minnesota State would owe the federal government if it were to discontinue the Perkins loan program.

Compensated Absences — Minnesota State employees accrue vacation, sick, and compensatory leave at various rates within limits specified in the collective bargaining agreements. The liability for compensated absences will be converted to a health care savings plan account or severance pay under specific conditions as defined in bargaining unit contracts. This leave is liquidated only at the time of termination from state employment.

Early Termination Benefits — Early termination benefits are benefits received for discontinuing service earlier than planned, as well as the right to continue, at the employer's expense, health insurance benefits until death. Note 9 to the financial statements provides additional information.

Other Postemployment Benefits — Other postemployment benefits are health insurance benefits for certain retired employees under a single employer fully insured plan. Under the health benefits program, retirees are required to pay 100 percent of the total premium cost. Since the premium is a blended rate determined on the entire active and retiree population, the retirees are receiving an implicit rate subsidy. Note 10 to the financial statements provides additional information.

Workers' Compensation — The state of Minnesota Department of Management and Budget manages the self-insured workers' compensation claims activities. The reported liability for workers' compensation of \$3,603 and \$3,859 at June 30, 2022 and 2021, respectively, is based on claims filed for injuries to state employees occurring prior to the fiscal year end and is an undiscounted estimate of future payments.

Net Pension Liability — The net pension liability of \$150,831 and \$344,746 at June 30, 2022 and 2021, respectively, is the proportionate share of the unfunded pension liability of the defined benefit pension plans as required by GASB Statement No. 68. Note 14 to the financial statements provides additional information.

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Principal and interest payment schedules are provided in the table below for general obligation bonds, revenue bonds, leases and notes payable. There are no payment schedules for bond premium, compensated absences, early termination benefits, other postemployment benefits, workers' compensation, net pension liability, and capital contributions payable.

Long-Term Obligation Repayment Schedule
General Obligation

Fiscal Years	Bonds		Revenue Bonds	
	Principal	Interest	Principal	Interest
2023	\$ 19,594	\$ 7,524	\$ 15,140	\$ 7,368
2024	18,406	6,431	13,355	6,793
2025	17,189	5,601	15,590	6,190
2026	16,571	4,839	19,260	5,422
2027	14,728	4,137	19,180	4,565
2028-2032	51,459	12,920	78,990	11,770
2033-2037	26,254	4,425	24,340	1,530
2038-2041	7,584	586	650	11
Total	<u>\$ 171,785</u>	<u>\$ 46,463</u>	<u>\$ 186,505</u>	<u>\$ 43,649</u>

Long-Term Obligation Repayment Schedule

Fiscal Years	Leases		Notes Payable	
	Principal	Interest	Principal	Interest
2023	\$ 8,021	\$ 540	\$ 765	\$ 606
2024	3,618	425	1,081	746
2025	2,105	342	1,202	478
2026	802	150	1,284	447
2027	510	113	1,288	413
2028-2032	1,984	410	6,980	1,613
2033-2037	211	130	7,072	793
2038-2042	161	146	3,904	162
2043-2047	127	163	-	-
2048-2052	114	195	-	-
2053-2055	51	110	-	-
Total	<u>\$ 17,704</u>	<u>\$ 2,724</u>	<u>\$ 23,576</u>	<u>\$ 5,258</u>

9. EARLY TERMINATION BENEFITS

Early termination benefits are defined as benefits received for discontinuing services earlier than planned.

Minnesota Statutes section 136F.481 authorizes the Minnesota State Colleges and Universities Board of Trustees to implement an early separation incentive program (BESI). Additionally, certain bargaining unit contracts, Minnesota State College Faculty (MSCF), Inter Faculty Organization (IFO), and Minnesota State University Association of Administrative Service Faculty (MSUAASF), provide for this benefit. The following is a description of the different benefit arrangements, including number of employees or retired faculty receiving the benefit, and the amount of future liability as of the end of fiscal years 2022 and 2021.

Board Early Separation Incentive (BESI) Program — Employees of Minnesota State accepted incentives in the form of contributions to a health care savings plan and cash payments in return for voluntarily separating from employment by the system.

The number of employees who received this benefit and the amount of future liability as of the end of fiscal years 2022 and 2021 follow:

<u>Fiscal Year</u>	<u>Number of Employees</u>	<u>Future Liability</u>
2022	15	\$ 1,346
2021	24	1,075

Minnesota State College Faculty (MSCF) contract — The MSCF contract allows former Minnesota Community College Faculty Association (MCCFA) faculty members who meet certain eligibility and a combination of age and years of service requirements to receive an early retirement incentive cash payment based on base salary, and health insurance paid for one year after separation. The cash incentive can be paid either in one or two payments.

The number of retired faculty who received this benefit and the amount of future liability as of the end of fiscal years 2022 and 2021 follow:

<u>Fiscal Year</u>	<u>Number of Faculty</u>	<u>Future Liability</u>
2022	7	\$ 253
2021	9	307

The MSCF contract allows former United Technical College Educators (UTCE) faculty members who meet certain eligibility and a combination of age and years of service requirements, to receive either an early retirement incentive cash payment, the right to continue, at the employer's expense, health insurance benefits until age 65 or death; or a combination of both. The cash incentive can be paid either in one or more payments.

The number of retired faculty who received this benefit and the amount of future liability as of the end of fiscal years 2022 and 2021 follow:

<u>Fiscal Year</u>	<u>Number of Faculty</u>	<u>Future Liability</u>
2022	9	\$ 212
2021	9	323

Inter Faculty Organization (IFO) contract — The IFO contract allows faculty members who meet certain eligibility and combination of age and years of service requirements to receive an early retirement incentive cash payment based on base salary at time of separation, as well as an amount equal to the employer's contribution for one year of health insurance premiums deposited in his/her health care savings plan at time of separation. The cash incentive can be paid either in one or two payments.

The number of retired faculty who received this benefit and the amount of future liability for faculty as of the end of fiscal years 2022 and 2021 follow:

<u>Fiscal Year</u>	<u>Number of Faculty</u>	<u>Future Liability</u>
2022	5	\$ 158
2021	6	368

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Minnesota State University Association of Administrative Service Faculty (MSUAASF) contract — The MSUAASF contract allows faculty members who meet certain eligibility and combination of age and years of service requirements to receive an early retirement incentive cash payment based on base salary at time of separation, as well as an amount equal to the employer's contribution for one year's health insurance premiums deposited in his/her health care savings plan at time of separation. The cash incentive can be paid either in one or two payments.

The number of retired faculty who received this benefit and the amount of future liability for faculty as of the end of fiscal years 2022 and 2021 follow:

Fiscal Year	Number of Faculty	Future Liability
2022	7	\$ 161
2021	8	294

10. OTHER POSTEMPLOYMENT BENEFITS

Plan Description — Minnesota State provides health insurance benefits for certain retired employees under the "Minnesota State Colleges and Universities Postretirement Medical Plan", a single employer fully insured plan, as required by Minnesota Statutes, 471.61, Subdivision 2B. Active employees who retire when eligible to receive a retirement benefit from a Minnesota public pension plan and do not participate in any other health benefits program providing coverage similar to that herein described, will be eligible to continue coverage with respect to both themselves and their eligible dependent(s) under the plan. Retirees are required to pay 100 percent of the total premium cost. Since the premium is a blended rate determined on the entire active and retiree population, the retirees are receiving an implicit rate subsidy.

As of the July 1, 2020 actuarial valuation, the following current and former employees were covered by benefit terms under the plan:

Active employees	12,089
Inactive employees or beneficiaries currently receiving benefits	544
Inactive employees entitled to but not yet receiving benefits	-
Total	<u>12,633</u>

Actuarial Methods and Assumptions — The total other postemployment benefits (OPEB) liability for Minnesota State at June 30, 2022 was measured as of June 30, 2021 and was determined by an actuarial valuation as of July 1, 2020 that was rolled forward to determine the June 30, 2022 total OPEB liability. The total OPEB liability as of June 30, 2021 was determined by an actuarial valuation as of July 1, 2020. The total OPEB liability was measured based on the following actuarial assumptions:

Measurement Date	June 30, 2021	June 30, 2020
Payroll Growth	3.0 percent	3.0 percent
Inflation	2.25 percent per year	2.25 percent per year
Initial Medical Trend Rate	7.2 percent	7.5 percent
Ultimate Medical Trend Rate	3.8 percent	3.8 percent
Year Ultimate Trend Rate Reached	2071	2071

Discount Rate — The discount rate used to measure the total OPEB liability at June 30, 2021 and 2020 was 2.16 percent and 2.21 percent, respectively. The discount rate was based on a municipal bond rate based on the 20-year Bond Buyer GO Index as of the end of June 2021 and 2020. The plan is not funded by assets in a separate trust. Therefore, the municipal bond rate was applied to all period of projected benefit payments to determine the total OPEB liability.

Changes in Total OPEB Liability — The changes in total OPEB liability are as follows:

	2022	2021
Balance, Beginning of Year	\$ 67,263	\$ 68,182
Changes for the Year		
Service Cost	5,366	5,137
Interest	1,573	2,482
Changes in Assumptions	165	12,399
Differences Between Expected and Actual Economic Experience	-	(16,101)
Benefit Payments	(2,930)	(4,836)
Net Changes	4,174	(919)
Balance, End of Year	<u>\$ 71,437</u>	<u>\$ 67,263</u>

There have been no changes in benefit terms since the previous valuation.

Changes were made in assumptions that affect the total OPEB liability since the prior valuation. The discount rate was changed from 2.21 percent to 2.16 percent. Mortality assumptions, salary increase assumptions, and medical trend rates were updated. The initial medical trend rate decreased by 0.3 percent.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate — The following presents the Minnesota State total OPEB liability calculated using the discount rate above, as well as the total OPEB liability if it were calculated using a discount rate that is one percentage lower or one percentage higher than the current discount rate:

	Sensitivity of Total OPEB Liability to Changes in the Discount Rate			
	2022		2021	
	Percent	Amount	Percent	Amount
1 Percent Lower	1.16	\$ 74,695	1.21	\$ 70,458
Current Discount Rate	2.16	71,437	2.21	67,263
1 Percent Higher	3.16	68,100	3.21	64,001

Sensitivity of Total OPEB Liability to Changes in the Healthcare Cost Trend Rates — The following presents the total OPEB liability, calculated using the healthcare cost trend rates, that is one percentage lower (6.2 percent decreasing to 2.8 percent and 6.5 percent decreasing to 2.8 percent) or one percentage higher (8.2 percent decreasing to 4.8 percent and 8.5 percent decreasing to 4.8 percent) than the current healthcare cost trend rate (7.2 percent decreasing to 3.8 percent and 7.5 percent decreasing to 3.8 percent):

	Sensitivity of Total OPEB Liability to Changes in the Health Care Trend Rate	
	2022	2021
1 Percent Lower	\$ 64,302	\$ 60,995
Current Trend Rate	71,437	67,263
1 Percent Higher	79,775	74,562

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources — For the years ended June 30, 2022 and 2021, Minnesota State recognized an increase in benefit expense of \$6,006 and \$6,662, respectively, related to OPEB.

At June 30, 2022 and 2021, Minnesota State reported deferred outflows and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	
	Year Ended June 30	
	2022	2021
Changes in actuarial assumptions	\$ 11,774	\$ 14,512
Contributions made subsequent to measurement date	4,646	4,646
Total	<u>\$ 16,420</u>	<u>\$ 19,158</u>

	Deferred Inflows of Resources	
	Year Ended June 30	
	2022	2021
Changes in actuarial assumptions	\$ 1,940	\$ 2,583
Differences between expected and actual economic experience	14,774	17,967
Total	<u>\$ 16,714</u>	<u>\$ 20,550</u>

Amounts reported as deferred outflows of resources related to OPEB resulting from Minnesota State contributions subsequent to the measurement date and before the end of the fiscal year will be recognized as a reduction of the total OPEB liability in the following fiscal year. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year	Amount
2023	\$ (933)
2024	(1,314)
2025	(1,032)
2026	(1,190)
2027	(492)
Thereafter	21
Total	<u>\$ (4,940)</u>

11. LEASE AGREEMENTS

Lessee Agreements — Minnesota State is committed under various leases primarily for building space. The leases expire at various dates through 2055. In accordance with GASB Statement No. 87, Minnesota State records right to use assets and lease liabilities based on the present value of expected payments over the lease term of the respective leases. The expected payments are discounted using the interest rate charged on the lease, if available, or otherwise discounted using the system's imputed interest rate of 3.5 percent. See Note 6 for information on right to use assets and associated accumulated depreciation/amortization. See Note 8 for the future payment schedule.

Lessor Agreements — Minnesota State has entered in several lease agreements, primarily for building space. Minnesota State records lease receivables and deferred inflows of resources based on the present value of expected receipts over the term of the respective leases. The expected receipts are discounted using the interest rate charged on the lease or using the system's imputed interest rate of 3.5 percent. During the years ended June 30, 2022 and 2021, Minnesota State recognized revenues related to these lease agreements totaling \$2,839 and \$3,801 respectively.

Total future minimum payments to be received under lessor agreements are as follows:

<u>Fiscal Years</u>	<u>Principal</u>	<u>Interest</u>
2023	\$ 2,844	\$ 162
2024	2,627	245
2025	2,284	296
2026	2,053	345
2027	1,016	192
2028-2032	2,177	762
2033-2035	659	355
Total	<u>\$ 13,660</u>	<u>\$ 2,357</u>

12. TUITION, FEES, SALES AND ROOM AND BOARD

The following table provides information related to tuition, fees, and sales revenue:

	Year Ended June 30					
	2022			2021		
	Gross	Scholarship Allowance	Net	Gross	Scholarship Allowance	Net
Tuition	\$ 750,519	\$ (252,511)	\$ 498,008	\$ 759,868	\$ (246,142)	\$ 513,726
Fees	88,480	(19,269)	69,211	87,365	(18,262)	69,103
Sales and room and board	87,773	(6,729)	81,044	79,632	(7,359)	72,273
Restricted student payments	92,762	(3,885)	88,877	78,645	(3,374)	75,271
Total	<u>\$ 1,019,534</u>	<u>\$ (282,394)</u>	<u>\$ 737,140</u>	<u>\$ 1,005,510</u>	<u>\$ (275,137)</u>	<u>\$ 730,373</u>

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

13. OPERATING EXPENSES BY FUNCTIONAL CLASSIFICATION

The following tables provide information related to operating expenses by functional classification:

Year Ended June 30, 2022					
Description	Salaries	Benefits	Other	Interest	Total
Academic support	\$ 142,732	\$ 50,547	\$ 81,480	\$ 751	\$ 275,510
Institutional support	143,503	56,058	138,325	770	338,656
Instruction	522,373	171,222	147,427	2,902	843,924
Public service	6,294	1,968	6,441	33	14,736
Research	4,990	1,410	4,585	26	11,011

Total operating expenses	\$ 1,029,602	\$ 382,011	\$ 637,474	\$ -	\$ 2,049,087

14. EMPLOYEE PENSION PLANS

Minnesota State participates in both mandatory and voluntary retirement plans. Mandatory plans include the State Employees Retirement Fund, administered by the Minnesota State Retirement System; the Teachers Retirement Fund, administered by the Teachers Retirement Association; and the General Employees Retirement Fund, administered by the Public Employees Retirement Association. Normal retirement age for employees covered by these defined benefit plans ranges from age 62 to age 66 depending upon employment date and years of service. Additionally, Minnesota State participates in a Defined Contribution Retirement Plan which is available to faculty, system administrators and other unclassified employees.

State Employees Retirement Fund

Plan Description —The State Employees Retirement Fund (SERF) is administered by the Minnesota State Retirement System (MSRS) and is established and administered in accordance with Minnesota Statutes, Chapters 352 and 356. SERF includes the General Employees Retirement Plan (General Plan), a multiple-employer, cost-sharing defined benefit plan, and three single-employer defined benefit plans. All state of Minnesota employees who are not members of another plan are covered by the General Plan.

Benefits Provided — MSRS provides retirement, disability, and death benefits through the State Employees Retirement Fund. Benefit provisions are established by state statute and can only be modified by the state legislature. Benefits are based on a member's age, years of credit, and the highest average salary for any sixty successive months of allowable service at termination of service. Benefit increases are provided to benefit recipients each January. Annuitants receive annual benefit increases of 1.0 percent through 2023, and 1.5 percent thereafter.

Retirement benefits can be computed using one of two methods: the Step formula and the Level formula. Members hired before July 1, 1989, may use the Step or Level formula, whichever is greater. Members hired on or after July 1, 1989, must use the Level formula. Each formula converts years and months of service to a certain percentage. Under the Step formula, members receive 1.2 percent of the high-five average salary for each of the first 10 years of covered service, plus 1.7 percent for each year thereafter. It also includes full benefits under the Rule of 90 (age plus years of allowable service equals 90). In contrast, the Level formula does not include the Rule of 90. Under the Level formula, members receive 1.7 percent of the high-five average salary for all years of covered service, and full benefits are available at normal retirement age.

Contributions — Minnesota Statutes Chapter 352 sets the rates for employer and employee contributions. Eligible General Plan members were required to contribute 6.0 percent of their annual covered salary in fiscal years 2022 and 2021. Participating employers were required to contribute 6.25 percent of employee annual covered salary in fiscal years 2022 and 2021. The Minnesota State contributions to the General Plan for the fiscal years ending June 30, 2022 and 2021 were \$15,368 and \$15,318, respectively. These contributions were equal to the contractually required contributions for each year as set by state statute.

Actuarial Assumptions — The Minnesota State net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The total pension liability was determined using the following actuarial assumptions:

Measurement Date	June 30, 2021	June 30, 2020
Inflation	2.25 percent per year	2.25 percent per year
Active member payroll growth	3.0 percent per year	3.0 percent per year
Investment rate of return	6.5 percent	7.5 percent

Salary increases for the June 30, 2021 and 2020 valuation were equal to reported salary at valuation date increased according to the rate table, to current fiscal year and annually each future year. Prior year salary is annualized for members with less than one year of service. Mortality rates for active members, retirees, survivors and disabilitants were based on Pub-2010 mortality tables adjusted for mortality improvements using projections scale MP-2018. Benefit increases for retirees were assumed to be 1.0 percent through December 31, 2023 and 1.5 percent thereafter.

Actuarial assumptions used in the June 30, 2021 and 2020 valuations were based on the last experience study dated June 27, 2019 and a review of inflation and investment return assumptions, dated June 24, 2021. The Allowance for Combined Service Annuity assumptions are based on an analysis completed by the LCPR actuary and a documented in a report dated October 2016.

The long-term expected rate of return on pension plan investments used in the determination of the total pension liability is 6.5 percent. The expected rate of return was determined using a building-block method. Best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using both long-term historical returns and long-term capital market expectations from a number of investment management and consulting organizations. The asset class estimates and the target allocations were then combined to produce geometric, long-term expected rate of return for the portfolio.

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

For each major asset class that is included in the pension fund target asset allocation as of the June 30, 2021 measurement date, these best estimates are summarized in the following table:

Asset Class	Target Allocation Percentage	Long-Term Expected Real Rate of Return (Geometric Mean) Percentage
Domestic equity	34	5.10
International equity	16	5.30
Private markets	25	5.90
Fixed income	25	0.75
Total	<u>100</u>	

Discount Rate — The discount rate used to measure the total pension liability as of June 30, 2021 and 2020, was 6.5 percent and 7.5 percent, respectively.

As of June 30, 2021 and 2020, the projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current statutory contribution rates. Based on these assumptions, the pension plan fiduciary net position was available to make all projected future benefit payments of current plan members. As a result, the long-term expected rate of return of 6.5 percent on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

Net Pension Liability — At June 30, 2022 and 2021, Minnesota State reported a liability of \$6,047 and \$97,846, respectively, for its proportionate share of MSRS' net pension liability. The net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The Minnesota State proportion of the net pension liability was based on the employer contributions received by MSRS during the measurement period July 1, 2020, through June 30, 2021, and July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all of MSRS's participating employers. At June 30, 2022 and 2021, the Minnesota State proportion was 7.42 percent and 7.37 percent, respectively.

There have been no changes in plan provisions since the prior measurement date.

Changes have been made in assumptions that affect the measurement of the total pension liability since the prior measurement date. The long-term investment rate of return and single discount rates were decreased from 7.5 percent to 6.5 percent.

Pension Liability Sensitivity — The following presents the Minnesota State proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

Sensitivity of Net Pension Liability at Current Single Discount Rate				
	2022		2021	
	Percent	Amount	Percent	Amount
1 Percent Lower	5.50	\$ 174,395	6.50	\$ 232,255
Current Discount Rate	6.50	6,047	7.50	97,846
1 Percent Higher	7.50	(133,037)	8.50	(14,015)

Pension Plan Fiduciary Net Position — Detailed information about the pension plan’s fiduciary net position is available in the MSRS Annual Financial Comprehensive Report, available on the MSRS website at www.msrs.state.mn.us/annual-reports.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions — For the years ended June 30, 2022 and 2021, Minnesota State recognized a decrease in benefit expense of \$161,913 and an increase in benefit expense of \$15,780, respectively, related to pensions. At June 30, 2022 and 2021, Minnesota State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources	
		Year Ended June 30	
		2022	2021
Differences between projected and actual investment earnings	\$	-	\$ 4,667
Changes in actuarial assumptions		111,268	-
Contributions paid to MSRS subsequent to measurement date		15,368	15,318
Differences between expected and actual economic experience		1,497	1,756
Changes in proportion		1,703	-
Total	\$	<u>129,836</u>	<u>21,741</u>

		Deferred Inflows of Resources	
		Year Ended June 30	
		2022	2021
Differences between projected and actual investment earnings	\$	167,234	\$ -
Changes in actuarial assumptions		83,308	220,891
Differences between expected and actual economic experience		698	1,005
Changes in proportion		6,243	12,975
Total	\$	<u>257,483</u>	<u>234,871</u>

Amounts reported as deferred outflows of resources related to pensions resulting from Minnesota State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the following fiscal year. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	Amount
2023	\$ (88,673)
2024	(18,612)
2025	(18,512)
2026	(17,218)
Total	<u>\$ (143,015)</u>

Teachers Retirement Fund

Plan Description — The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund (TRF). TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a board of trustees. The board consists of four active members, one retired member and three statutory officials.

State university, community college, and technical college teachers first employed by Minnesota State may elect TRA coverage within one year of eligible employment. Alternatively, these teachers may elect coverage through the Defined Contribution Retirement Plan (DCR) administered by Minnesota State.

Benefits Provided — TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any consecutive sixty months of formula service, age, and formula service credit at termination of service. TRA members belong to either the Basic or Coordinated plan. Benefit increases for retirees are 1.0 percent through January 2023, then increasing by 0.1 percent each year up to 1.5 percent annually.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described:

Tier I Benefits

Tier 1	Step Rate Formula	Percentage
Basic	First ten years of service	2.2 percent per year
	All years after	2.7 percent per year
Coordinated	First ten years if service years are up to July 1, 2006	1.2 percent per year
	First ten years if service years are July 1, 2006 or after	1.4 percent per year
	All other years of service if service years are up to July 1, 2006	1.7 percent per year
	All other years of service if service years are July 1, 2006 or after	1.9 percent per year

With these provisions:

- Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- 3.0 percent per year early retirement reduction factor for all years under normal retirement age.
- Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members is applied. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for coordinated members and 2.7 percent for basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66. Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

Contributions — Minnesota Statute Chapter 354 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature. TRA Basic Plan members and Coordinated Plan members were required to contribute 11.0 percent and 7.5 percent, respectively, of their annual covered salary in fiscal years 2022 and 2021. In fiscal year 2022 the employer was required to contribute 12.34 percent of pay for Basic Plan members and 8.34 percent for Coordinated Plan members. In fiscal year 2021, the employer was required to contribute 12.13 percent of pay for Basic Plan members and 8.13 percent for Coordinated Plan members. Minnesota State contributions to the TRA for the fiscal years ended June 30, 2022 and 2021, were \$15,639 and \$15,225, respectively. These contributions were equal to the required contributions for each year as set by state statute.

Actuarial Assumptions — The Minnesota State net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Measurement Date	June 30, 2021	June 30, 2020
Inflation	2.50 percent per year	2.50 percent per year
Active member payroll growth	3.00 percent per year	3.00 percent per year
Investment rate of return	7.00 percent	7.50 percent

Salary increases for the June 30, 2021 and 2020 valuation were equal to reported salary at valuation date increased according to the rate table, to current fiscal year and annually each future year. Prior year salary is annualized for members with less than one year of service. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 generational mortality tables for males or females, as appropriate, with adjustments to match fund experience. Benefit increases for retirees are 1.0 percent through January 2023, then increasing by 0.1 percent each year up to 1.5 percent annually.

Actuarial assumptions used in the June 30, 2021 and 2020 valuations were based on the experience study dated June 28, 2019. The long-term rate of return assumption used for GASB disclosures and expense determination may vary from the funding assumptions as it is selected by TRA management in consultation with the actuary.

The long-term expected rate of return on pension plan investments for June 30, 2021 and 2020 was 7.0 percent and 7.5 percent, respectively.

The target asset allocation and best estimates of geometric rates of return for each major asset class, as provided by the SBI are summarized in the following table:

Asset Class	Target Allocation Percentage	Long-Term Expected Real Rate of Return (Geometric Mean)
Domestic equity	36	5.10
International equity	17	5.30
Private markets	25	5.90
Fixed income	20	0.75
Cash	2	
Total	100	

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Discount Rate — The discount rate used to measure the total pension liability as of June 30, 2021 and 2020, was 7.0 percent and 7.5 percent, respectively.

As of June 30, 2021 and 2020, the projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current statutory contribution rates and supplemental aid will be received as currently provided in state statute. Based on these assumptions, the pension plan fiduciary net position was available to make all projected future benefit payments of current plan members. As a result, the long-term expected rate of return of 7.0 percent on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

Net Pension Liability — At June 30, 2022 and 2021, Minnesota State reported a liability of \$138,597 and \$236,738, respectively, for its proportionate share of TRF net pension liability. The net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The Minnesota State proportion of the net pension liability was based on the employer contributions received by TRF during the measurement period July 1, 2020 through June 30, 2021 and July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all of TRF's participating employers. At June 30, 2022 and 2021, the Minnesota State proportion was 3.17 percent and 3.20 percent, respectively.

There have been no changes in plan provisions since the prior measurement date.

Changes have been made in assumptions that affect the measurement of the total pension liability since the prior measurement date. The investment return assumption was changed from 7.5 percent to 7.0 percent.

Pension Liability Sensitivity — The following presents the Minnesota State proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	Sensitivity of Net Pension Liability at Current Single Discount Rate			
	2022		2021	
	Percent	Amount	Percent	Amount
1 Percent Lower	6.00	\$ 279,973	6.50	\$ 362,443
Current Discount Rate	7.00	138,597	7.50	236,738
1 Percent Higher	8.00	22,658	8.50	133,163

Pension Plan Fiduciary Net Position — Detailed information about the plan's fiduciary net position is available in the Minnesota Teachers Retirement Association Annual Comprehensive Financial Report. That report can be obtained at www.minnesotatara.org/financial/annual-reports.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions — For the years ended June 30, 2022 and 2021, Minnesota State recognized a decrease in benefit expense of \$4,005 and an increase in benefit expense of \$27,994, respectively, related to pensions. At June 30, 2022 and 2021, Minnesota State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources	
		Year Ended June 30	
		2022	2021
Differences between projected and actual investment earnings	\$	-	\$ 3,666
Changes in actuarial assumptions		50,791	84,942
Contributions paid to TRA subsequent to measurement date		15,639	15,225
Differences between expected and actual economic experience		3,754	4,748
Changes in proportion		12,882	11,196
Total	\$	<u>83,066</u>	<u>119,777</u>

		Deferred Inflows of Resources	
		Year Ended June 30	
		2022	2021
Differences between projected and actual investment earnings	\$	116,213	\$ -
Changes in actuarial assumptions		125,044	198,736
Differences between expected and actual economic experience		3,926	3,588
Changes in proportion		27,978	29,051
Total	\$	<u>273,161</u>	<u>231,375</u>

Amounts reported as deferred outflows of resources related to pensions resulting from the Minnesota State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the following fiscal year. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	Amount
2023	\$ (97,889)
2024	(75,160)
2025	(18,579)
2026	(23,219)
2027	9,113
Total	<u>\$ (205,734)</u>

General Employees Retirement Fund

Plan Description — Minnesota State participates in the General Employees Retirement Plan (GERF), a defined benefit pension plan administered by the Public Employees Retirement Association (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code. GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Benefits Provided — PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Benefit increases are provided to benefit recipients each January. Members will receive future annual increases equal to 50.0 percent of the Social Security Cost of Living Adjustment, not less than 1.0 percent and not more than 1.5 percent beginning January 1, 2019. The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

GERF benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. Members hired prior to July 1, 1989 receive the higher of Method 1 or Method 2. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. Disability benefits are available for vested members and are based upon years of service and average high-five salary.

Contributions — Minnesota Statute Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature. GERF Basic Plan members and Coordinated Plan members were required to contribute 9.1 percent and 6.5 percent, respectively, of their annual covered salary in calendar years 2022 and 2021. In calendar years 2022 and 2021, the employer was required to contribute 11.78 percent of pay for Basic Plan members and 7.5 percent for Coordinated Plan members. Minnesota State contributions to the GERF for the plan's fiscal years ended June 30, 2022 and 2021 were \$684 and \$753, respectively. These contributions were equal to the required contributions for each year as set by state statute.

Actuarial Assumptions — The Minnesota State net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The total pension liability was determined using the following actuarial assumptions:

Measurement Date	June 30, 2021	June 30, 2020
Inflation	2.25 percent per year	2.50 percent per year
Active member payroll growth	3.00 percent per year	3.25 percent per year
Investment rate of return	6.50 percent	7.50 percent

Salary increases for the June 30, 2021 and 2020 valuation were equal to reported salary at valuation date increased according to the rate table, to current fiscal year and annually each future year. Mortality rates for active members, retirees, survivors and disabilitants were based on PUB-2010 mortality tables adjusted for mortality improvements using projection scale MP-2020 and MP-2019, respectively, with slight adjustments.

Actuarial assumptions used in the June 30, 2021 and 2020 valuation were based on the results of actuarial experience studies dated June 27, 2019 and a review of inflation and investment assumptions dated June 24, 2021.

The long-term expected rate of return on pension plan investments used in the determination of the total pension liability is 6.5 percent. The expected rate of return was determined using a building-block method. Best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using both long-term historical returns and long-term capital market expectations from a number of investment management and consulting organizations. The asset class estimates and the target allocations were then combined to produce geometric, long-term expected rate of return for the portfolio.

For each major asset class that is included in the pension fund target asset allocation as of the measurement date of June 30, 2021 and 2020, these best estimates are summarized in the following table:

Asset Class	Target Allocation Percentage	Long-Term Expected Real Rate of Return (Geometric Mean) Percentage
Domestic equity	34	5.10
International equity	16	5.30
Private markets	25	5.90
Fixed income	25	0.75
Total	100	

Discount Rate — The discount rate used to measure the total pension liability as of June 30, 2021 and 2020 was 6.5 percent and 7.5 percent, respectively. The projection of cash flows used to determine the discount rate assumed that employee, employer, and state contributions will be made at the current statutory rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability — At June 30, 2022 and 2021, Minnesota State reported a liability of \$5,957 and \$9,659, respectively, for its proportionate share of the GERS' net pension liability. The net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The proportion of the net pension liability was based on Minnesota State contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2020 through June 30, 2021 and July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all PERA's participating employers. At June 30, 2022 and 2021, the Minnesota State proportion was 0.1395 percent and 0.1611 percent, respectively.

There were no changes in plan provisions since the previous valuation.

Changes have been made in assumptions that affect the measurement of the total pension liability since the prior measurement date. The investment return and single discount rates were changed from 7.5 percent to 6.5 percent. The mortality projection scale was changed from MP-2019 to MP-2020.

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Pension Liability Sensitivity — The following presents the Minnesota State proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	Sensitivity of Net Pension Liability at Current Single Discount Rate			
	2022		2021	
	Percent	Amount	Percent	Amount
1 Percent Lower	5.50	\$ 12,150	6.50	\$ 15,480
Current Discount Rate	6.50	5,957	7.50	9,659
1 Percent Higher	7.50	876	8.50	4,857

Pension Plan Fiduciary Net Position — Detailed information about each defined benefit pension plan's fiduciary net position is available in a separately-issued PERA financial report. That report may be obtained at www.mnpera.org/about/financial.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions — For the years ended June 30, 2022 and 2021, Minnesota State recognized a decrease in benefit expense of \$1,383 and \$989, respectively, related to pensions. At June 30, 2022 and 2021, Minnesota State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	
	Year Ended June 30	
	2022	2021
Differences between projected and actual investment earnings	\$ -	\$ 167
Changes in actuarial assumptions	3,637	-
Contributions paid to PERA subsequent to measurement date	684	753
Differences between expected and actual economic experience	37	88
Total	<u>\$ 4,358</u>	<u>\$ 1,008</u>

	Deferred Inflows of Resources	
	Year Ended June 30	
	2022	2021
Differences between projected and actual investment earnings	\$ 5,159	\$ -
Changes in actuarial assumptions	132	358
Differences between expected and actual economic experience	182	37
Changes in proportion	2,125	2,220
Total	<u>\$ 7,598</u>	<u>\$ 2,615</u>

Amounts reported as deferred outflows of resources related to pensions resulting from Minnesota State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the following fiscal year.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year</u>	<u>Amount</u>
2023	\$ (1,326)
2024	(816)
2025	(375)
2026	(1,407)
Total	<u>\$ (3,924)</u>

St. Paul Teachers Retirement Fund

Plan Description — The St. Paul Teachers Retirement Fund Association (SPTRFA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund (SPTRF). SPTRFA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. SPTRF is a separate statutory entity and administered by a board of trustees. The Board consists of nine members elected from the association membership and one member appointed by the Board of ISD 625, St. Paul Public Schools (SPPS).

SPTRFA membership consists of licensed teachers employed by SPPS, certain licensed teachers employed by Saint Paul College, certain licensed teachers employed by charter schools within the City of St. Paul, and SPTRFA staff. Until its merger into the Minnesota State system on July 1, 1995, all Saint Paul College teachers were contributing members of the Fund. As part of the merger process, SPTRFA-covered Saint Paul College teachers were given the option to remain active members of the Fund or to choose other retirement coverage, thus, converting to a deferred status with SPTRFA.

Benefits Provided — SPTRFA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after five years of service credit. The defined retirement benefits are based on a member's highest average salary for any five years of consecutive service for the Basic Plan, and three consecutive years of allowable service for the Coordinated Plan, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for SPTRFA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits

<u>Tier 1</u>	<u>Step Rate Formula</u>	<u>Percentage</u>
Basic	Years of service	2.0 percent per year
Coordinated	First ten years if service years are up to July 1, 2015	1.2 percent per year
	First ten years if service years are July 1, 2015 or after	1.4 percent per year
	All other years of service if service years are up to July 1, 2015	1.7 percent per year
	All other years of service if service years are July 1, 2015 or after	1.9 percent per year

With these provisions:

- Normal retirement age is 65 with less than 30 years of allowable service and age 55 with 30 or more years of allowable service.
- 0.25 percent per year early retirement reduction factor for all years under normal retirement age.
- Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

Tier II Benefits

For years of service prior to July 1, 2015 a level formula of 1.7 percent per year for coordinated members and 2.5 percent per year for basic members is applied. For years of service July 1, 2015 and after, a level formula of 1.9 percent per year for coordinated members and 2.5 percent for basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after July 1, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

Contributions — Minnesota Statute Chapter 354A sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature. SPTRFA Coordinated Plan members were required to contribute 7.5 percent of their annual covered salary in fiscal years 2022 and 2021. In fiscal years 2022 and 2021, the employer was required to contribute 12.43 percent and 12.22 percent, respectively, for Coordinated Plan members. No Basic Plan members currently remain in active status. Minnesota State contributions to the SPTRFA for the fiscal year ended June 30, 2022 and 2021, were \$19 and \$27, respectively. These contributions were equal to the required contributions for each year as set by state statute.

Actuarial Assumptions — The Minnesota State net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent per year
Active member payroll growth	3.00 percent per year
Investment rate of return	7.50 percent

Salary increases for the June 30, 2022 and 2021 valuation were equal to reported salary at valuation date increased according to the rate table, to current fiscal year and annually each future year. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables adjusted for white collar and mortality improvements using projection scale MP-2020 and MP-2019, respectively, from a base year of 2006 for males or females, as appropriate, with slight adjustments.

The long-term expected rate of return on pension plan investments is 7.5 percent. This rate was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates for each major asset class included in the target asset allocation as of the measurement date of June 30, 2021, are summarized as follows:

Asset Class	Target Allocation Percentage	Long-Term Expected Real Rate of Return (Arithmetic) Percentage
Domestic equity	35	6.55
International equity	20	6.98
Fixed income	20	3.45
Real assets	11	3.90
Private equity & alternatives	9	7.47
Opportunistic	5	6.08
Total	100	

Discount Rate — The discount rate used to measure the total pension liability as of June 30, 2021 and 2020 was 7.5 percent. This discount rate was based on the expected rate of return on pension plan investments. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, SPTRFA's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. As a result, the long-term expected rate of return on pension plan investments of was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability — At June 30, 2022 and 2021, Minnesota State reported a liability of \$230 and \$503, respectively, for its proportionate share of the SPTRFA's net pension liability. The net pension liability was measured as of June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The proportion of the net pension liability was based on Minnesota State contributions received by SPTRFA during the measurement period for employer payroll paid dates from July 1, 2020 through June 30, 2021 and July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all SPTRA's participating employers. At June 30, 2022 and 2021, the Minnesota State proportion was 0.053 percent and 0.077 percent, respectively.

There have been no changes in plan provisions since the prior measurement date.

Changes were made in assumptions that affect the measurement of the total pension liability since the prior measurement date. The mortality improvement scale was updated from MP-2019 to MP-2020.

Pension Liability Sensitivity — The following presents the Minnesota State proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	Sensitivity of Net Pension Liability at Current Single Discount Rate			
	2022		2021	
	Percent	Amount	Percent	Amount
1 Percent Lower	6.50	\$ 339	6.50	\$ 658
Current Discount Rate	7.50	230	7.50	503
1 Percent Higher	8.50	140	8.50	375

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Pension Plan Fiduciary Net Position — Detailed information about the plan's fiduciary net position is available in a separately-issued financial report. That report may be found at <https://sptrfa.org/publications/reports>.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions — For the fiscal years ended June 30, 2022 and 2021, Minnesota State recognized a decrease in benefit expense of \$195 and \$95, respectively, related to pensions.

At June 30, 2022 and 2021, Minnesota State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources	
		Year Ended June 30	
		2022	2021
Differences between projected and actual investment earnings	\$	-	\$ 41
Changes in actuarial assumptions		-	23
Contributions paid to SPTRFA subsequent to measurement date		19	27
Differences between expected and actual economic experience		7	-
Total	\$	<u>26</u>	<u>91</u>

		Deferred Inflows of Resources	
		Year Ended June 30	
		2022	2021
Differences between projected and actual investment earnings	\$	72	\$ -
Changes in actuarial assumptions		4	4
Differences between expected and actual economic experience		4	17
Changes in proportion		142	206
Total	\$	<u>222</u>	<u>227</u>

Amounts reported as deferred outflows of resources related to pensions resulting from the Minnesota State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the following fiscal year.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	Amount
2023	\$ (113)
2024	(61)
2025	(17)
2026	(24)
Total	<u>\$ (215)</u>

Minnesota State Colleges and Universities Defined Contribution Retirement Fund

General Information — The Minnesota State Defined Contribution Retirement Fund includes two plans: an Individual Retirement Account Plan and a Supplemental Retirement Plan. Both plans are mandatory, tax deferred, single employer, defined contribution plans authorized by Minnesota Statutes, Chapters 354B and 354C. The plans are designed to provide retirement benefits to Minnesota State Colleges and Universities unclassified employees. An unclassified employee is one who belongs to Minnesota State Colleges and Universities specific bargaining units. The plans cover unclassified teachers, librarians, administrators, and certain other staff. The plans are mandatory for qualified employees and vesting occurs immediately.

The administrative agent of the two plans is Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF). Separately issued financial statements can be obtained from TIAA-CREF, Normandale Lake Office Park, 8000 Norman Center Drive, Suite 1100, Bloomington, MN 55437.

Individual Retirement Account Plan (IRAP)

Participation — Every employee who is in unclassified service is required to participate in TRF or IRAP upon achieving eligibility. An unclassified employee is one who serves in a position deemed unclassified according to Minnesota Statutes. This includes presidents, vice presidents, deans, administrative or service faculty, teachers and other managers, and professionals in academic and academic support programs. Eligibility begins with the employment contract for the first year of unclassified service in which the employee is hired for more than 25 percent of a full academic year, excluding summer session. An employee remains a participant of the plan even if employed for less than 25 percent of a full academic year in subsequent years.

Contributions — There are two member groups participating in the IRAP, a faculty group and an administrator group. For those participants eligible before July 1, 2018, the employer and employee statutory contribution rates for both faculty and administrators as of June 30, 2022 and 2021, are 6.0 percent and 6.45 percent and 6.0 percent and 5.8 percent, respectively. For those participants eligible after July 1, 2018, the employer and employee statutory contribution rates for both faculty and administrators as of June 30, 2022 and 2021, are 8.34 percent and 7.5 percent and 8.13 percent and 7.5 percent, respectively. Contributions are made under the authority of Minnesota Statutes, Chapter 354B.

Required contributions for Minnesota State were:

<u>Fiscal Year</u>	<u>Employer</u>	<u>Employee</u>
2022	\$ 30,257	\$ 34,639
2021	30,380	32,565
2020	30,012	29,704

Supplemental Retirement Plan (SRP)

Participation — Every unclassified employee who has completed two full time years of unclassified service with Minnesota State Colleges and Universities must participate upon achieving eligibility. The eligible employee is enrolled on the first day of the fiscal year following completion of two full time years. Vesting occurs immediately and normal retirement age is 55.

Contributions — Participants contribute 5.0 percent of eligible compensation up to a defined maximum annual contribution as specified in the following table:

<u>Member Group</u>	<u>Eligible Compensation</u>	<u>Maximum Annual Contribution</u>
Administrators	\$ 6 to 60	\$ 2.70
Inter Faculty Organization	6 to 51	2.25
Middle Management Association Unclassified	6 to 40	1.70
Minnesota Association of Professional Employees Unclassified	6 to 40	1.70
Minnesota State College and Faculty Association	6 to 56	2.70
Minnesota State University Association of Administrative & Service Faculty	6 to 50	2.20
Other Unclassified Members	6 to 40	1.70

Minnesota State provides a match in amounts equal to the contributions made by participants. The contributions are made under the authority of Minnesota Statutes, Chapter 354C.

Required contributions for Minnesota State were:

<u>Fiscal Year</u>	<u>Amount</u>
2022	\$ 14,965
2021	15,217
2020	15,233

Voluntary Retirement Savings Plans

Minnesota State offers two voluntary programs to employees for retirement savings.

The Minnesota Deferred Compensation Plan (MNDCP) is a voluntary retirement savings plan authorized under section 457(b) of the Internal Revenue Code and Minnesota Statute, Section 352.965. The plan is composed of employee pre-tax and after-tax contributions and accumulated investment gains or losses. Participants may withdraw funds upon termination of public service or in the event of an unforeseeable emergency. As of June 30, 2022, the plan has 5,720 participants.

In addition to the state's Deferred Compensation program, Minnesota State also participates in a 403(b) Tax Sheltered Annuity (TSA) program. The plan consists of both pre-tax and after-tax contributions and accumulated investment gains or losses. As of June 30, 2022, the plan has 4,529 participants.

15. SEGMENT INFORMATION

A segment is an identifiable activity reported as a standalone entity for which one or more revenue bonds are outstanding. A segment has a specific identifiable revenue stream pledged in support of revenue bonds and has related expenses, gains, losses, assets, deferred outflows, liabilities, and deferred inflows that are required by an external party to be accounted for separately.

Minnesota State Revenue Fund issues revenue bonds to finance the acquisition, construction, and renovation of buildings for residence halls, student unions, food services, parking facilities, and wellness centers at an institution. The Itasca County Housing Redevelopment Authority sold bonds to finance Itasca Community College's student housing program. Note 8 to the financial statements provides additional information on the pledging of the revenues.

Summary financial information for Minnesota State Revenue Fund for the fiscal years ended June 30, 2022 and 2021 follows:

Summary Financial Information for Revenue Fund		
	2022	2021

17. RISK MANAGEMENT

In the normal course of operations Minnesota State is exposed to various risks of loss related to tort; theft of, damage to, or destruction of assets; error or omissions; and employer obligations. Minnesota State manages these risks through state of Minnesota insurance plans including the state of Minnesota Risk Management Fund, a self-insurance fund, and through purchased insurance coverage. In management's opinion, the ultimate resolution of any contingencies not covered by insurance would not have a significant adverse effect upon the overall net position, operations, or cash flows of Minnesota State.

Automobile liability coverage is required by the state and is provided by the Minnesota Risk Management Fund. Some colleges and universities also purchase optional physical damage coverage for their newest or most expensive vehicles.

While property and casualty coverage are required by the Minnesota State policy, colleges and universities may select optional coverage such as international accident, international liability, and professional liability for employed physicians and student health services professional liability.

The Minnesota Risk Management Fund provides the following coverage for fiscal years 2022 and 2021.

Coverage Type	Amount
Property and contents institution deductible	\$1 to \$250
Property and contents fund responsibility	\$1,000
Property and contents primary re-insurer coverage	\$1,000 to \$1,250,000
Third party bodily injury and property damage per person	\$500
Third party bodily injury and property damage per occurrence	\$1,500

Minnesota State retains the risk of loss. Minnesota State did not have any settlements in excess of coverage in the last three years.

The Minnesota Risk Management Fund purchases other insurance on the open market for some campuses. These generally include student intern professional liability, dental clinics professional liability, aviation insurance, and a variety of bonds.

Minnesota State participates in the State Employee Group Insurance Plan, which provides life insurance and hospital, medical, and dental benefits coverage through provider organizations.

FOR THE YEARS ENDED
JUNE 30, 2022 AND 2021 (DOLLARS IN THOUSANDS)

Workers' compensation is covered through state participation in the Workers' Compensation Reinsurance Association, which pays for catastrophic workers' compensation claims. Other workers' compensation risks are covered through self-insurance for which Minnesota State pays the cost of claims through the state Workers' Compensation Fund. A Minnesota State workers' compensation payment pool helps institutions manage the volatility of such claims. Annual premiums are assessed by the pool based on salary dollars and claims history. From this pool, all workers' compensation claims are paid to the state Workers' Compensation Fund.

The following table presents changes in the balances of workers' compensation claims liability during the fiscal years ended June 30, 2022 and 2021.

	Beginning Liability	Additions	Payments & Other Reductions	Ending Liability
Fiscal Year Ended 6/30/22	\$ 3,858	\$ 1,163	\$ 1,418	\$ 3,603
Fiscal Year Ended 6/30/21	3,801	1,537	1,480	3,858

18. COMPONENT UNITS

The following legally separate tax-exempt foundations affiliated with Minnesota State are included as a major component unit of Minnesota State. The Bemidji State University Alumni and Foundation, Metropolitan State University Foundation, Minnesota State University, Mankato Foundation, Inc., Minnesota State University Moorhead Foundation, Inc., Southwest Minnesota State University Foundation, St. Cloud State University Foundation, Inc., and Winona State University Foundation are formed for the purpose of obtaining and disbursing funds for the sole benefit of their college or university.

In accordance with GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, Minnesota State presents the combined statement of financial position and the combined statement of activities of the foundations on separate pages of the financial statements.

Minnesota State received \$18,949 and \$16,170 in fiscal years 2022 and 2021, respectively, from the foundations for scholarships and other educational program support. In addition to lease agreements, Southwest Minnesota State University and Winona State University have entered into agreements to manage student housing facilities owned by the foundations.

The seven state universities do not appoint any members of their respective boards and the resources held by the foundations can only be used by, or for the benefit of, the associated university. Each foundation's relationship with their institution is such that exclusion of the foundation's financial statements would cause the Minnesota State financial statements to be misleading or incomplete. The foundations are considered a component unit of their university and their statements are discretely presented in the universities' financial statements.

The foundations financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958-205, *Presentation of Financial Statements*.

Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

- *Net Assets Without Donor Restrictions:* Net assets available for use in general operations and no subject donor restrictions. The governing board has designated, from net assets without donor restrictions, net assets for a board-designated endowment. Funds paid from the board-designated endowment are subject to approval by the board.
- *Net Assets With Donor Restrictions:* Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulated that resources be maintained in perpetuity. Gifts of long-lived assets and gifts of cash restricted for the acquisition of long-lived assets are recognized as revenue when the assets are placed in service. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Investments — The foundations' investments are presented in accordance with FASB ASC 958-320, *Investments-Debt and Equity Securities*. Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position.

The inputs used to measure fair value are categorized into the following three categories:

- *Level 1* — Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds.
- *Level 2* — Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.
- *Level 3* — Inputs that are unobservable and significant to the fair value measurement.
- *Net Asset Value* — Inputs that do not fall in any of the above three categories listed.

The following tables summarize the fair value measurement of the foundations' investments:

Schedule of Investments					
As of June 30					
	2022	Level 1	Level 2	Level 3	Net Asset Value
Money market	\$ 1,519	\$ 1,519	\$ -	\$ -	\$ -
Fixed income	8,923	1,605	7,318	-	-

Equity securities	41,463	41,463	-	-	-
Bonds/U.S treasuries	36,787	-	36,787	-	-
Other	71,614	-	26	2,838	68,750
Total	<u>\$ 307,101</u>	<u>\$ 154,523</u>	<u>\$ 79,514</u>	<u>\$ 4,314</u>	<u>\$ 68,750</u>

Buildings, Property and Equipment — The following table summarizes the foundations' buildings, property, and equipment:

Schedules of Buildings, Property and Equipment		
As of June 30		
	2022	2021
Buildings, property and equipment, not depreciated:		
Land	\$ 2,990	\$ 2,431
Construction in progress	164	-
Total buildings, property and equipment, not depreciated	<u>3,154</u>	<u>2,431</u>
Buildings, property and equipment, depreciated:		
Buildings and improvements	23,347	23,392
Equipment	618	730
Leasehold improvements	107	107
Total buildings, property and equipment, depreciated	24,072	24,229
Total accumulated depreciation	<u>(13,024)</u>	<u>(12,500)</u>
Total buildings, property and equipment depreciated, net	<u>11,048</u>	<u>11,729</u>
Total buildings, property and equipment, net	<u>\$ 14,202</u>	<u>\$ 14,160</u>

Long-Term Obligations — Payment schedule of the foundations' long-term obligations follow. Excluded from the table below is St. Cloud State University Foundation's unamortized bond premium of \$82 and unamortized debt issuance costs of (\$23), which are amortized over the life of the bonds. Also excluded from the table below is Winona State University Foundation's loan agreement with a local bank of \$2,357 and Minnesota State University Mankato's loan agreement with a local bank of \$558.

Year Ended June 30	
Fiscal Year	Amount
2023	\$ 2,111
2024	1,126
2025	1,137
2026	753
2027	499
Thereafter	1,872
Total	<u>\$ 7,498</u>

Endowment Funds — The foundations' endowment includes both donor-restricted funds and funds designated by the foundation board of trustees to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the foundation board of trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Changes in endowment net assets as of June 30, 2022 and 2021 are as follows:

Schedule of Endowment Net Assets
As of June 30, 2022

	Without Donor Restrictions	With Donor Restrictions	Total Endowment Net Assets
Net assets, beginning of year	\$ 4,289	\$ 264,038	\$ 268,327
Contributions	22	15,060	15,082
Investment income	(626)	(34,919)	(35,545)
Amounts appropriated for expenditures	(68)	(8,879)	(8,947)
Other transfers	11	63	74
Net assets, end of year	<u>\$ 3,628</u>	<u>\$ 235,363</u>	<u>\$ 238,991</u>

Schedule of Endowment Net Assets
As of June 30, 2021

	Without Donor Restrictions	With Donor Restrictions	Total Endowment Net Assets

MINNESOTA STATE COLLEGES AND UNIVERSITIES
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEARS ENDED JUNE 30, 2022 AND 2021

OTHER POSTEMPLOYMENT BENEFITS PLAN

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 2.21 percent to 2.16 percent.
- Mortality assumptions, salary increase assumptions, and medical trend rates were updated.
- The initial medical trend decreased by 0.3 percent.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 3.5 percent to 2.21 percent.
- Mortality assumptions, salary increase assumptions, and medical trend rates were updated.
- The initial medical trend increased by 0.9 percent.

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 3.87 percent to 3.5 percent.
- Mortality assumptions, salary increase assumptions, and medical trend rates were updated.
- The inflation rate and payroll growth rate decreased 0.25 percent.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 3.58 percent to 3.87 percent.
- Mortality assumptions, salary increase assumptions, and annual medical claims costs and premiums were updated.
- The inflation rate and payroll growth rate decreased 0.25 percent.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 2.85 percent to 3.58 percent.

STATE EMPLOYEES RETIREMENT FUND

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The long-term investment rate of return and single discount rates were decreased from 7.5 percent to 6.5 percent.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The price inflation assumption was decreased from 2.5 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.0 percent.
- Assumed salary increases, rates of retirement, termination and disability were changed as recommended in the June 30, 2019 experience study.
- The base mortality tables were changed from the RP-2014 table to the Pub-2010 mortality table, with adjustments.
- The mortality projection scale was changed from MP-2018 to MP-2019.
- Age, marriage and benefit annuity election options were adjusted.

2020 NO CHANGES IN PLAN PROVISIONS OR ACTUARIAL ASSUMPTIONS

2019 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019.
- Member contributions increased from 5.5 percent to 5.75 percent of pay, effective July 1, 2018 and 6.0 percent of pay effective July 1, 2019. Employer contributions increased from 5.5 percent to 5.875 percent of pay effective July 1, 2018 and 6.25 percent of pay effective July 1, 2019.
- Interest credited on member contributions will decrease from 4.0 to 3.0 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0 percent for future accruing benefits effective January 1, 2019.
- Contribution stabilizer provisions were repealed.
- Post-retirement increases were changed from a 2.0 percent to 2.5 percent per year increase based upon funded ratio, to a fixed rate of 1.0 percent for five years beginning January 1, 2019 and 1.5 percent per year thereafter. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 5.42 percent to 7.5 percent.

2018 CHANGES IN PLAN PROVISIONS

- Actuarial equivalent factors were updated to reflect current mortality and interest assumptions, effective January 1, 2017.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity loads were revised.
- The discount rate was changed from 4.17 percent to 5.42 percent.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 2.0 percent through 2043 and 2.5 percent thereafter to 2.0 percent for all future years.
- The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 4.17 percent.
- Salary increases, retirement, termination, disability, mortality, percent married, and benefit election assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by a further 0.25 percent from those assumptions.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 2.0 percent through 2015, and 2.5 percent thereafter, to 2.0 percent per year through 2043, and 2.5 percent per year thereafter.

TEACHERS RETIREMENT FUND

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return assumption was changed from 7.5 percent to 7.0 percent.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- Assumed termination rates were changed to more closely reflect actual experience.
- The pre-retirement mortality assumption was changed to the RP-2014 white collar employee table, male rates set back 5 years and female rates set back 7 years. Generational projection uses MP-2015 scale.
- Assumed form of annuity election proportions were changed to more closely reflect actual experience for female retirees.

2020 NO CHANGES IN PLAN PROVISIONS OR ACTUARIAL ASSUMPTIONS

2019 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019.
- Member contribution rates are increased from 7.0 percent to 7.75 percent of pay, effective July 1, 2023. Employer contributions are increased each July 1 over the next six years (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022 and 8.75 percent in 2023).
- Interest credited on member contributions will decrease from 8.5 percent to 7.5 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0 percent for future accruing benefits effective January 1, 2019.
- Contribution stabilizer provisions were repealed.
- Post-retirement increases were changed from a 2.0 percent to 2.5 percent per year increase based upon funded ratio, to a fixed rate of 1.0 percent for five years beginning January 1, 2019 and 1.5 percent per year thereafter. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 5.12 percent to 7.5 percent.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 4.66 percent to 5.12 percent.
- The investment return assumption was changed from 8.0 percent to 7.5 percent.
- The cost of living adjustment was not assumed to increase to 2.5 percent but remain at 2.0 percent for all future years.
- The assumptions for inflation, payroll growth, general wage growth and salary increases were all adjusted.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 2.0 percent through 2043 and 2.5 percent thereafter to 2.0 percent for all future years.
- The single discount rate was changed from 8.0 percent to 4.66 percent.
- Salary increases, retirement, termination, disability, mortality, percent married, and benefit election assumptions were changed pursuant to the experience study dated June 10, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by a further 0.25 percent from those assumptions.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 8.25 percent to 8.0 percent.

GENERAL EMPLOYEES RETIREMENT FUND

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return and single discount rates were changed from 7.5 percent to 6.5 percent.
- The mortality improvement scale was changed from Scale MP-2019 to MP-2020.

- 2021 CHANGES IN PLAN PROVISIONS
- Augmentation for current privatized members was reduced to 2.0 percent for the period July 1, 2020 through December 31, 2023 and 0.0 percent after. Augmentation was eliminated for privatizations occurring after June 30, 2020.
- 2021 CHANGES IN ACTUARIAL ASSUMPTIONS
- The price inflation assumption was decreased from 2.5 percent to 2.25 percent.
 - The payroll growth assumption as decreased from 3.25 percent to 3.0 percent.
 - Assumed salary increases, rates of retirement, rates of termination and rates of disability were changed as recommended in the June 30, 2019 experience study.
 - The base mortality tables were changed from the RP-2014 table to the Pub-2010 mortality table, with adjustments.
 - The mortality improvement scale was changed from MP-2018 to MP-2019.
- 2020 CHANGES IN ACTUARIAL ASSUMPTIONS
- The mortality projection scale was changed from MP-2017 to MP-2018.
- 2019 CHANGES IN PLAN PROVISIONS
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.
 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019.
 - Interest credited on member contributions will decrease from 4.0 percent to 3.0 percent, beginning July 1, 2018.
 - Deferred augmentation was changed to 0.0 percent for future accruing benefits effective January 1, 2019.
 - Contribution stabilizer provisions were repealed.
 - Post-retirement increases were changed from 1.0 percent per year based upon funded ratio, to a fixed rate of not less than 1.0 percent and not more than 1.5 percent beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age.
- 2019 CHANGES IN ACTUARIAL ASSUMPTIONS
- The mortality projection scale was changed from MP-2015 to MP-2017.
 - The assumed benefit increase was changed from 1.0 percent per year through 2044 and 2.5 percent per year thereafter to 1.25 percent per year.
- 2018 CHANGES IN ACTUARIAL ASSUMPTIONS
- The Combined Service Annuity loads were revised.
 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.
- 2017 CHANGES IN ACTUARIAL ASSUMPTIONS
- The assumed post-retirement benefit increase rate was changed from 1.0 percent through 2035 and 2.5 percent thereafter to 1.0 percent for all years.
 - The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent.
 - Salary increases, retirement, termination, disability, mortality, percent married, and benefit election assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by a further 0.25 percent from those assumptions.
- 2016 NO CHANGES IN PLAN PROVISIONS OR ACTUARIAL ASSUMPTIONS

ST. PAUL TEACHERS RETIREMENT FUND

2022 CHANGES IN PLAN PROVISIONS

- The member contribution for the July 1, 2022 to June 30, 2023 fiscal year was changed from 7.75 percent to 7.5 percent.

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality improvement scale was updated from MP-2019 to MP-2020.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality improvement scale was updated from MP-2018 to MP-2019.

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2017 to MP-2018.

2019 CHANGES IN PLAN PROVISIONS

- Lower early retirement factors will be phased in over a sixty-month period starting July 1, 2019.
- Interest credited on refunds of member contributions decreased from 4.0 percent to 3.0 percent prospectively, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0 percent for future accruing benefits effective July 1, 2019.
- Post-retirement increases were changed from 1.0 percent per year based upon funded ratio, to 0.0 percent for January 1, 2019 and 2020 and 1.0 percent thereafter. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age.
- Member contributions will increase from 7.5 percent to 7.75 percent effective July 1, 2022. Employer contributions will increase from 6.5 percent to 9.0 percent of pay over six years, beginning July 1, 2018.
-

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed investment rate was lowered from 8.0 percent to 7.5 percent.
- Assumed wage inflation decreased from 4.0 percent to 3.0 percent.
- Salary increase rates were updated from an age-based table to a service-based table of rates.
- Retirement, withdrawal, and disability rates were adjusted to better fit observed experience.
- The mortality table was updated.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity loads were revised.
- The assumed cost-of-living adjustments were changed from 1.0 percent per year through 2054, 2.0 percent beginning 2055, 2.5 percent beginning 2066 to 1.0 percent per year through 2041, 2.0 percent beginning 2042, and 2.5 percent beginning 2052.

2017 NO CHANGES IN PLAN PROVISIONS OR ACTUARIAL ASSUMPTIONS

2016 NO CHANGES IN PLAN PROVISIONS OR ACTUARIAL ASSUMPTIONS

Minnesota State Colleges and Universities
St. Paul, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of Minnesota State Colleges and Universities (Minnesota State), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Minnesota State's basic financial statements, and have issued our report thereon dated November 16, 2022. Our report includes reference to other auditors who audited the financial statements of the Bemidji State University Alumni and Foundation, Metropolitan State University Foundation, Minnesota State University Moorhead Foundation, Inc., Southwest Minnesota State University Foundation, and Winona State University Foundation. These component units were not audited in accordance with *Government Auditing Standards*, and this report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Minnesota State Colleges and Universities internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Minnesota State Colleges and Universities internal control. Accordingly, we do not express an opinion on the effectiveness of Minnesota State Colleges and Universities internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Minnesota State Colleges and Universities financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
