**December 1, 2024**

## **COST OF REPORT**

[Minnesota Statutes §3.197](#) states that a “report to the legislature must contain, at the beginning of the report, the cost of preparing the report, including any costs incurred by another agency or another level of government”. The estimated cost of preparing this report was **\$50.00**. That is the approximate value, in terms of salary and benefits, of the time that Board staff spent preparing the report.

## **Introduction**

The Board of Pharmacy (Board) is submitting this report to the Legislature in compliance with Minnesota Statutes §152.02, subdivision 12. That section states, in part:

“The state Board of Pharmacy shall annually submit a report to the legislature on or before December 1 that specifies what changes the board made to the controlled substance schedules maintained by the board in Minnesota Rules, parts 6800.4210 to 6800.4250, in the preceding 12 months. The report must also specify any orders issued by the board under this subdivision. The report must include specific recommendations for amending the controlled substance schedules contained in subdivisions 2 to 6, so that they conform with the controlled substance schedules maintained by the board in Minnesota Rules, parts 6800.4210 to 6800.4250, and with the federal schedules.”

The Board reviewed and approved this report at its October 9, 2024 meeting.

## **2024 Scheduling Changes**

The Board did not engage in rule-making to make any changes to the controlled substance schedules found in Minnesota Rules Chapter 6800 during calendar year 2024. Nor did it issue any scheduling orders in 2024.

Board staff are currently comparing the state’s controlled substance schedules to the federal schedules in an effort to identify newly scheduled chemicals or drugs. It is anticipated the Board will propose controlled substance scheduling legislation during the 2025 Session.
