2024 SUBCOMMITTEES

The Screening Board Chair appoints one city Engineer, who has served on the Screening Board, to serve a three year term on the Needs Study Subcommittee.

The past Chair of the Screening Board is appointed to serve a three year term on the Unencumbered Construction Fund Subcommittee.

Needs Study Subcommittee	Unencumbered Construction Funds Subcommittee
Adam Nafstad Albertville (763) 497-3384 Expires after 2024 Chad Millner Edina (952) 826-0318 Expires after 2025 Layne Otteson Big Lake (763) 826-0318 Expires after 2026	John Gorder Eagan (651) 675-5645 Expires after 2023 * Justin Femrite Elk River (763) 635-1051 Expires after 2024 * Michael Thompson Plymouth (763) 509-5501 Expires after 2025 *

^{*} may serve an additional year due to vacated Screening Board Chair

MINUTES MUNICIPAL SCREENING BOARD MEETING Oct 24 & 25, 2023

Chase on the Lake – Walker, MN Room 2208

TUESDAY, OCT. 24, 2023

I. Call to Order by Chair DuChene at 1:00pm

a. DuChene welcomed the group and introduced himself as Chair of the Municipal Screening Board (MSB). Going on to explain that he has replaced Jen Desrude as Chair of the screening board who resigned due to her taking a position at a consulting firm. He then went on to introduce:

Kristine Elwood	State Aid Engineer
Bill Lanoux	Manager, Municipal State Aid Needs
Mark DuChene, Faribault	Vice Chair: Municipal screening board
Justin Femrite, Elk River	Past Chair of the MSB
Michael Thompson, Plymouth	Past Chair of the MSB
Jay Owens, Red Wing	Chair: Needs study subcommittee (NSS)-
	(online)
John Gorder, Eagan	Chair: Unencumbered construction funds
	subcommittee (UCFS) – (online)

b. DuChene introduced Deb Heiser, St. Louis Park – Secretary: MSB. Heiser then conducted roll call of the screening board members in attendance:

Jason Fisher, International Falls
Steve Emery, East Grand Forks - (online)
Layne Otteson, Big Lake
Tom Trowbridge, Moorhead
Will Manchester, Minnetonka (online)
Brandon Theobald, Kasson
Joe Stadheim, New Ulm
Chuck DeWolf, Litchfield
Zach Johnson, Lakeville
Cindy Voigt
Jenifer Hager
Dillon Dombrovski
Nick Peterson

- c. DuChene also recognized the following people in attendance:
 - Screening board alternates:

District 3	Nick Preisler, St. Michael,
District 8	Mike Ambourn, Montevideo (online)

• Minnesota Department of Transportation personnel:

Ted Schoenecker	Assistant Division Director/ State Aid (online)
Marc Briese	State Aid Programs Engineer
Derek Fredrickson	District 1 State Aid Engineer
Brian Ketring	District 2 State Aid Engineer
Angie Tomovic	District 3 State Aid Engineer
Nathan Gannon	District 4 State Aid Engineer
Todd Broadwell	District 8 State Aid Engineer
Dan Erickson	Metro State Aid Engineer
Luke Lortie	Assistant Metro State Aid Engineer
Kim Delarosa	Needs Section Supervisor (online)
Nancy Stone	State Aid program support
Mark Vizecky	MnDOT Senior Administrative Engineer (online)
Dan Erickson	Metro District State Aid Engineer
Naiomi Eckerd	Needs Specialist (online)

Others in attendance

Marc Culver, BMI	CEAM Legislative committee chair
Kyle Wallace	Minneapolis
Mike Van Beusekom	St. Paul
Duncan Schwensohn	Duluth
Adam Nafstad, Albertville	Needs study subcommittee (NSS)- (online)
Chad Millner, Edina	Needs study subcommittee (NSS)
RJ Kakach	Golden Valley (online)
Mike Albers	Rogers (online)

II. Review of the 2023 Municipal State Aid Street Needs Report

- a. Introductory information/ Approve Spring MSB minutes.
 - Lanoux went over the following introductory information on what was going to be covered at this meeting:
 - i. The official business item for this meeting is to approve the needs and submit them to the commissioner in writing by Nov. 1.
 - ii. The cities of Becker, Elko- New Market, Lindstrom, and Luverne all passed 5000 population this summer and will eligible MSAS cities in 2024. This brings the total number of MSAS cities to 155.
 - iii. The UCFS is made up of the past 3 chairs of the screening board. When Paul Sandy left, the term for the existing members was extended. Since Desrude stepped down this year, the terms would need to be extended again. Lanoux shared that for the next three years, the committee will only have two engineers on it, unless the MSB takes an alternate action. The current committee members are already serving a 4th year.
 - Lanoux provided an overview of the May Screening Board minutes, on pages 8-17, highlighting the following action items from the May Screening Board minutes.
 - i. Action to approve the unit price recommendations.

- ii. Action to change the formula for street lighting needs and approve the unit price recommendations.
- iii. There was no action taken to revise the traffic counting cycle.
- Lanoux asked if there were any questions from the board, there were none.
- DuChene called for a motion to approve the minutes from the May 2023 MSB.
- Motion to approve the minutes by Johnson, seconded by Fisher. Motion carried 13-0.
- b. Lanoux gave an overview of MSB data book, highlighting the following topics:
 - Population is straight forward, no action by the board needed.
 - The tentative allocations are based on last year's allocation, conservatively we could expect that the funding pool will be larger.
 - The four new cities would take about \$1M off the top for the new cities, not reflected in the book. Leaving conservatively \$220.6 million to distribute.
 - Construction needs are computed from annual needs updates and adjusted by the factors shown on page 45. This adjusted construction needs are used to determine the construction needs allocations.
 - The calculation to determine the excess unencumbered fund balance adjustment (page 27) was updated within the last 3 years to reflect inflation.
 - i. The balance used to determine if there is excess balance is based on the construction allotments earlier that year.
 - ii. If a city's Dec. 31 construction fund balance exceeds three times their Jan. construction allotment, and that construction fund balance is over three times the average allotment per city (minus the cities of the first class), the excess fund balance adjustment would be applied.
 - iii. Three times the average allotment is currently \$2,744,754.
 - iv. If a city wishes to request an exemption, they need to come to the fall screening board for review and approval.
 - v. There are three cities requesting an exemption at today's meeting, Edina, Golden Valley, and Rogers.
 - Applying individual adjustments to those cities that have roads outside of their boundaries. (Pg 58 Outside city limits adjustments)
 - i. In the 2023 mileage report, there are several cities that have mileage outside the city limits.
 - ii. Due to statutory language changes, (MS 162.13 Subd 2), these roadways are newly eligible to draw money needs.
 - iii. Starting this year there will be individual needs adjustments for this mileage, treating them as after the fact adjustments.
 - Little Falls will receive a onetime positive adjustment because last year they were subject to the excess balance adjustment and should not have.
 - The needs that the board is being asked to approve are shown on the 2023 adjusted construction needs table on page 60.

Lanoux asked the members if there were any questions regarding the information presented. There were none.

- c. Lanoux closed reminding the board that they will be asked to act on the following items:
 - Recommendation to Commissioner, pages 64-66

Research Account page 86

III. Exemption requests for the excess construction fund balance adjustment

Lanoux provided an overview of the process. Attached is the one-page write up from each individual city's request.

a. Edina (Chad Millner)

Lanoux provided the MSB with Edina's exemption request. Edina is experiencing a high project volume for 2024 and 2025. In addition, their January 2023 allotment is lower than typical because of interest payments on a bond that was issued for their Blake Road project.

Lanoux asked if the MSB had questions. There were none.

b. Golden Valley (RJ Kakach)

Lanoux provided the MSB with a summary of Golden Valley's exemption request. Zane Ave reconstruction in 2024 has a \$4.5M engineer's estimate and the city would like to save up for that project.

Lanoux asked if the MSB had questions. There were none.

c. Rogers (Mike Albers)

Lanoux provided the MSB with Rogers' exemption request. They have four projects programmed for 2024 with an anticipated total need of \$5.7M MSA funds.

Lanoux asked if the MSB had questions. There were none.

Lanoux explained that this is a new process for the excess balance penalty, due to this it is the first time these requests have been considered by the MSB clarifying that the MSB would be asked to act on these exemptions on Wednesday.

IV. Legislative Update

Culver explained that we will have an in-depth meeting on the legislative agenda after the MSB topics are completed at 2:30pm.

He went on to share that our partners (LMNC, Metro Cities, Mn Association of Small cities) are putting together their legislative priorities. The reason for the meeting later today is to review those, see how CEAM feels about them and provide feedback. In addition, he wanted to discuss what CEAM's priorities are for the upcoming session.

Culver went on to share that he did not have information regarding what the legislature's priorities would be, or any proposed bills. One thing that we do know is coming is a report on the impact of the GHG legislation that was passed earlier this year. The workgroup has been working on that report and it will be done by the end of Jan. 2024.

Culver thanked State Aid for their help to decipher the 2023 session legislation.

DuChene asked the MSB if there were any questions for Culver, adding his thanks to State Aid and to the MSB members for leading those discussions at the district prescreening board meetings. Going on to share that he has received emails with good ideas and comments on legislative topics. Sharing optimism that the legislative strategy session would become a regular part of the fall MSB.

V. State Aid Update/ comments

Elwood reiterated the topics that were discussed at the individual pre-screening board meetings.

Elwood closed with a request for topics that the MSB members would like the CEAM Executive Committee (EC) to discuss with MNDOT leadership. She asked that members bring them to the CEAM EC or herself for discussion at the upcoming meeting in December.

DuChene shared that when we met with MnDOT leadership last spring the EC discussed their Cost participation policy, which led to the current effort to update the policy. He conveyed that leadership listened and appreciated hearing it from city engineers directly, rather than having the message passed through State Aid.

VI. Other discussion topics

DuChene called on the members to bring forward any other discussion topics.

Voight asked about the current requirement in the State Aid rules that the travel minimum width is 20 feet, but needs allocation only provides half needs on a one-way street. She asked the group if anyone else was interested in looking at how you can build 20 ft of road, but only get half the needs. State aid rules require a 20 ft clear, and it does not make sense that we have that rule, but only get half the needs.

Lanoux spoke to the needs part of the question, indicating that cities are drawing full needs on one-way streets unless they are MSB approved one way street that is drawing half mileage.

Van Beusekom explained that the half needs are so you can have more streets on the system, when a one way draws half needs, it provides the option to have more mileage on the system. He went on to share that this was discussed in 2013 or 2014.

Lanoux indicated that when a street is coded as a one-way street it draws full needs, they only draw half needs when approved by the MSB. (see pg. 96 of book)

Trowbridge shared that Moorhead has some one-way streets we get to designate additional miles because the one-way street is half designation.

Lanoux clarified that Moorhead would have had to have MSB approval to do that.

Trowbridge disclosed that they do not have the mileage to keep them as full needs vs. half needs.

Lanoux explained that one-way streets vs. MSB one-way streets can be confusing.

DuChene asked if there were additional comments or questions on this topic.

Van Beusekom reported that they must be a pair, both Minneapolis and St Paul were forced to take quite a bit of roadway off the system due to light rail.

Lanoux agreed that interpretation of an integrated road system is that a one way should have a pair.

Voigt thanked the group for the discussion and went on to say that they have streets that do not have pairs and she is concerned about it.

Lanoux offered to dig into the definition of an integrated street system, how it is interpreted and share that with the board.

Hager asked if there is more updated interpretation and/ or data that one-ways do not need to be pairs.

Lanoux informed that he will investigate it and see what he can find.

Voigt thanked Lanoux for the offer to assist.

Bill committed to investigate by the spring MSB meeting.

DuChene asked if there were other topics.

Owens inquired about the new process to use cooperative agreements in lieu of Limited use permits for shared use trails. He was told their district was not doing it that way. He asked state aid for clarification on the process.

Elwood offered to reach out to Fausto to help clarify the new process.

Owens thanked Elwood for her help.

DuChene asked if there were further topics. There were none.

VII. Adjournment until 8:30 Wednesday morning

DuChene called for a motion to adjourn until 8:30am Wednesday morning.

Motion to adjourn by Dombrovski, seconded by Stadheim. Motion carried 13-0.

The meeting adjourned at 1:41 pm.

WEDNESDAY, OCT. 25, 2023

I. Call to Order by Chair DuChene at 8:30 am. The following members were present:

District 1	Jason Fisher, International Falls
District 2	Steve Emery, East Grand Forks - (online)
District 3	Layne Otteson, Big Lake
District 4	Tom Trowbridge, Moorhead
Metro West	Will Manchester, Minnetonka (online)
District 6	Brandon Theobald, Kasson
District 7	Joe Stadheim, New Ulm
District 8	Chuck DeWolf, Litchfield
Metro East	Zach Johnson, Lakeville
Duluth	Cindy Voigt
Minneapolis	Jenifer Hager
Rochester	Dillon Dombrovski
St. Paul	Nick Peterson

II. Review Tuesday's subjects and act on specific items

a. Needs recommendations/ Letter to Commissioner on page 64.
 DuChene called for a motion to approve the letter to the Commissioner.

Motion to approve the Needs recommendations by Hager, seconded by Stadheim. Motion carried 13-0.

b. Research Account on page 86

DuChene called for a motion to approve the following research account resolution: Be it resolved that an amount of \$1,075,845 (not to exceed ½ of 1% of the 2023 MSAS Apportionment sum of \$215,169,023) shall be set aside from the 2024 Apportionment fund and be credited to the research account.

Motion to approve the research account by Theobald, seconded by Trowbridge. Motion carried 13-0.

III. Discussion on exemptions requests/ action.

DuChene disclosed that Lanoux sent out the MSB members the information each city provided explaining their exemption request.

Voigt asked for clarification on each request and the length of time it would be granted.

Lanoux agreed to bring them each up individually, clarifying that the requests are just for this year.

a. Edina

Lanoux summarized Edina's request submittal and asked if there were any questions.

Otteson queried if this was just an anomaly.

Lanoux explained that this is a one-year thing due to bond interest being deducted from the construction allotment, and it will likely not happen next year.

Millner clarified that the request was a timing issue due to needing to pay three interest payments reducing their annual allotment from \$2M to \$1.2M.

There was additional discussion regarding what happens if the city does not spend the money next year as indicated by their requests inquiring if they should be penalized for it next year.

Lanoux surmised that that consequence had been discussed and it would be up to the MSB to decide if there is a penalty next year.

Milner shared that they fully intend to spend the money, however, three of the projects are cooperative with Hennepin County and Edina is not in control of bidding.

Culver provided some history of the new exemption request process, sharing that the intent is to punish communities that are not spending their state aid dollars. In this case, Edina is not being negligent, they are saving up for a surfeit of projects.

DuChene called for a motion to approve the exemption for Edina.

Motion to approve the exemption for Edina by Manchester, seconded by Dombrovski. Motion carried 13-0.

b. Golden Valley

Lanoux provided an overview of Golden Valley's request for an exemption and asked if there were any questions.

DuChene called for a motion to approve the exemption for Golden Valley.

Motion to approve the exemption for Golden Valley by Johnson, seconded by Theobald. Motion carried 13-0.

c. Rogers

Lanoux provided an overview of Rogers' request for an exemption, noting that Mike Albers is online and asked if there were any questions.

DuChene called for a motion to approve Rogers' exemption request.

Motion to approve the exemption requests by Fisher, seconded by Stadheim. Motion carried 13-0.

DuChene asked if there was any further discussion on these items.

Hager asked how State Aid is going to track the funds to make sure that they are available for advancement considering the new exemption process.

Lanoux described State Aid's process to track the accounts monthly and to start looking at high balances at the end of the summer.

Trowbridge asked if encumbered funds count toward the city's balance.

Delarosa indicated that encumbered funds do not count toward the city's balance.

Trowbridge concluded that if the city's projects proceed in 2024 as planned, they should be fine.

DuChene queried if there were any other questions on this topic. There were none.

IV. Any unfinished items from Day One

DuChene asked if there was any additional discussion from yesterday's topics.

V. Last call for any other discussion topics

DuChene called for any other discussion topics.

Lanoux informed that he is concerned about having a two person UCFS committee for the last few years. He researched this yesterday, paying close attention to the screening board resolution regarding the committee on page 90 of the book. The resolution states that there is a minimum three-year term for members.

Lanoux concluded that the resolution provides flexibility, to follow up, he will talk to members of the UCFS to see if they will extend their terms, and report back to the MSB at the spring meeting.

DuChene observed that the current members did not oppose this approach.

Thompson shared recalcitrance, however, he affirmed that he was willing to serve.

DuChene surveyed the room and there were no further items brought forward.

VI. Closing remarks from the Chair

DuChene thanked the following:

- Screening Board members for attending and participating.
- A special thank you to the three outgoing board members (Steve Emery, Layne Otteson, and Chuck DeWolf)
- Lanoux and Stone for setting everything up and a great script

DuChene concluded his remarks with an invitation to attend the joint city/ county meeting being held after this meeting.

VII. Spring Screening Board meeting on May 21-22, 2024- location TBD.

DuChene informed the group of the date for the 2024 spring screening board meeting.

VIII. Expense reports

DuChene reminded the group to fill out their expense reports.

IX. Adjournment

DuChene called for a motion to adjourn.

Motion to adjourn by Trowbridge, seconded by Fisher. Motion carried 13-0.

The meeting adjourned at 8:47am.

Respectfully submitted,

Municipal Screening Board Secretary

St. Louis Park Engineering Director

APPORTIONMENT SUMMARY

For 2024, the Municipalities share of the Highway Users Tax Distribution Fund is \$234,859,592. This is an increase of 9.2% from last year's apportionment of \$215,169,023.

Four new state aid eligible cities are getting a share of the distribution this year. (Becker, Elko New Market, Lindstrom and Luverne)

Funds are distributed 50% based on Population and 50% based on Construction Needs (aka Money Needs). The distribution to 155 cities is computed using the following steps:

Population Allocation

50% of the total apportionment sum is distributed on a prorated share that each city's population bears to the total population of all the other MSAS cities.

The 2020 Federal Census, or the State Demographer's / Metropolitan Council's most recent population estimates (whichever are greater), are used to determine each city's 2024 population apportionment.

The total population, for allocation purposes, has increased by 62,029 since last year.

The Total Population Allocation amount to be distributed is \$117,429,796.

State Statute 162.09 subd. 4(f) allows Chisholm (4,748) to be included with a pop. of 5,000.

The 2024 per capita population allocation is approximately \$28.06 per person. This is an increase of \$1.97 from the 2023 allocation.

The population of the city of North Oaks is 5,195. In North Oaks, all of their residential roads are private roads. The city has not established a Municipal State Aid System and will not be receiving an allocation.

MSAS Money Needs Allocation

50% of the total apportionment sum is distributed on a prorated share that each city's Adjusted Money Needs bears to the total Adjusted Money Needs of all cities.

The Total Money Needs Allocation amount to be distributed is \$117,429,796.

Money Needs are defined as the estimated cost of constructing and maintaining the Municipal State Aid Street (MSAS) system over a period of 25 years. The MSAS system comprises up to 20% of a city's local, county road and county road turnback mileage; plus 100% of any county highway and trunk highway turnback mileage.

For the 2024 apportionment, every \$1,000 in Adjusted Construction Needs earns approximately \$10.60. This is an increase of \$0.06 per \$1,000 from the 2023 apportionment.

The average change in Money Needs Allocations since last year is 9.2%. All cities saw their Needs Allocations increase this year. Cities with the highest Needs increases were Little Falls, Victoria, New Prague, Stewartville, and Carver. These cities had high increases due to either increased MSAS system mileage, new construction, changes in traffic volume, or new individual / after-the-fact adjustments.

Total Allocations

Population and Construction Needs allocations are combined to determine each city's total allocation. For the 2024 apportionment, all cities saw an increase from their 2023 total allocation. Cities with the highest increases had above average population growth, or Needs growth, or both.

Construction and Maintenance Allotments

Each city's total allocation is used to determine the amount allocated to their Maintenance and Construction Allotments. If a city didn't request more than the minimum maintenance, the maintenance was allocated at a rate of \$1500 per improved mile plus any bond interest due in 2024. A greater maintenance amount (up to 35% of the total allocation) is allocated to those cities that have submitted a written request before December 16 preceding the apportionment. After the maintenance amount is determined, the remaining amount is allocated to the city's construction account.

There are five Certified Complete cities allowed to spend a portion of their construction allotment on their local roads. This is explained in detail later in the report.

2023 POPULATION SUMMARY

The populations used for 2024 Allocations are based on the 2020 Federal Census or the most recent State Demographer / Met Council estimates, whichever are greater

^{*}New city for 2024

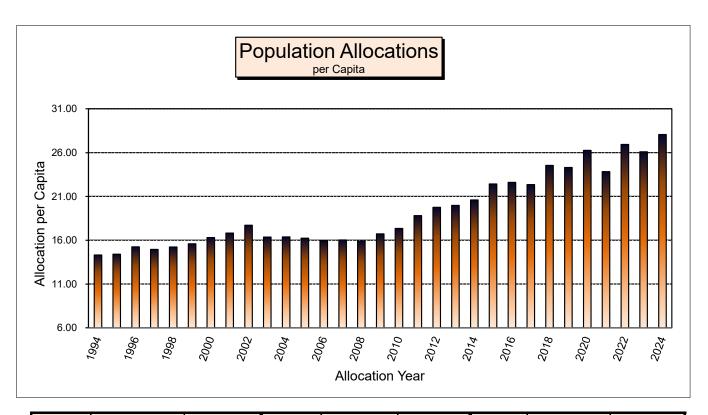

A city's Population Allocation equals the total population apportionment amount, divided by the total population of all cities, multiplied by the city's population used for 2024.

2023	<u>\$107,584,511</u> 4,123,340	\$26.09 per person
2024	\$117,429,796 4.185,369	\$28.06 per person

The population increase from 2023 to 2024 for allocation purposes is **62,029** (1.5% increase overall)

155 Cities Increased their population allocation.

0 Cities Decreased their population allocation.

Low in 1962 of \$2.35 per capita High in 2024 of \$28.06 per capita

MONEY NEEDS FOR 2024

Fifty percent of the total apportionment is determined on a prorated share that each city's money needs bears to the total of all money needs. The tabulations in this report show each municipality's money needs apportionment based on the total money needs amount of \$117,429,796.

Several adjustments are applied to the money needs. These adjustments are all outlined in Screening Board Resolutions and include any "after the fact" adjustments, as well as the Excess Balance Adjustment redistributed as Low Balance Incentive adjustments. Other individual adjustments are also applied this year. Ultimately, each city's money Needs allocation is based on their "Adjusted Money Needs".

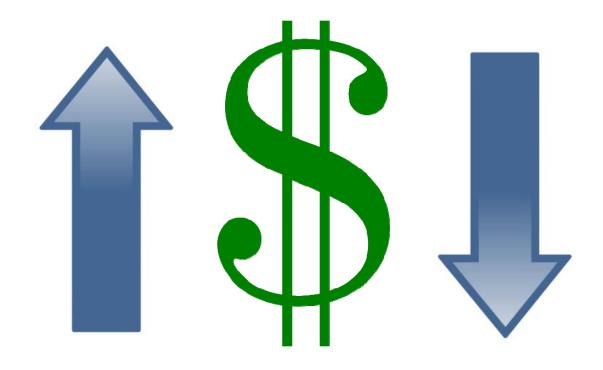

The following pages provide specific data and show the impact of any adjustments to each municipality in establishing the **2024 Money Needs Apportionment**. Before determining each city's allocation, the following Municipal Screening Board mandated adjustments are applied to the money Needs.

- Excess Unencumbered Construction Fund Balance Adjustment
- Low Balance Incentive
- After the Fact Right of Way Adjustment
- After the Fact Retaining Wall Adjustment
- After the Fact Railroad Crossing Adjustment
- After the Fact Railroad Bridge over MSAS Adjustment
- Excess Maintenance Account (none for 2024)

For this year, individual adjustments will be applied to cities with MSAS mileage outside their corporate limits (see statute language change to MS 162.13 Subd 2)

Little Falls will receive a positive individual adjustment.

Adjustments to the Money Needs

EFFECTS OF THE REDISTRIBUTION OF THE EXCESS UNENCUMBERED CONSTRUCTION FUNDS BALANCE AS THE LOW BALANCE INCENTIVE

Excess Unencumbered Construction Fund Balance Adjustment

The December 31 construction fund balance will be compared to the annual construction allotment from January of the same year. If the December 31 construction fund balance exceeds 3 times the January construction allotment, and the construction fund balance is over 3 times the average construction allotment for all cities excluding cities of the first class (hereinafter referred to as the adjusted average construction allotment), then the negative adjustment to the Needs will be 1 times the December 31 construction fund balance. In each consecutive year the December 31 construction fund balance exceeds 3 times the January construction allotment (and the balance is over 3 times the adjusted average construction allotment) the negative adjustment to the Needs will be increased to 2, 3, 4, etc. times the December 31 construction fund balance until such time the Construction Needs are adjusted to zero.

If the December 31 construction fund balance drops below 3 times the January construction allotment and subsequently increases to over 3 times, the multipliers will start over with one.

The adjusted average construction allotment used for this purpose shall not decrease in value from one year to the next.

If a city wishes to justify their balance in excess of said limits, and request an exemption to the excess balance adjustment, their request must be reviewed and approved by the Municipal Screening Board at their Annual Fall Meeting.

Low Balance Incentive

The amount of the Excess Unencumbered Construction Fund Balance Adjustment will be redistributed as a positive adjustment to the Construction Needs of all municipalities whose December 31st construction fund balance is less than 1 times their January construction allotment of the same year. This redistribution will be based on a city's prorated share of its Unadjusted Construction Needs to the total Unadjusted Construction Needs of all participating cities times the total Excess Balance Adjustment.

Note: These adjustments will not be applied this year because the 3 cities that had an excess balance requested an exemption and got it. The following table is included only to illustrate these adjustments.

EXCESS BALANCE ADJUSTMENT REDISTRIBUTED AS LOW BALANCE INCENTIVE

Balance floor for Dec. 31, 2023 is \$2,744,754. (see Screening Board Resolutions)

AFTER THE FACT RAILROAD CROSSING ADJUSTMENT

Screening Board Resolution:

Any Railroad Crossing improvements shall not be included in the Needs Calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment shall be made by annually adding the local cost (which is the total cost less county or trunk highway participation) to the annual Construction Needs for a 15 year period. Only State Aid eligible items are allowed to be included in this adjustment, and all Railroad Crossing Needs adjustments must be input by the city and approved by the District State Aid Engineer.

Municipality	Eligible Railroad Crossing Expenditures	New Railroad Crossing Expenditures 2023 (none)	Expired Railroad Crossing Expenditures	Expire Date	Total Railroad Crossing Adjustment for 2024 Apportionment

AFTER THE FACT RAILROAD BRIDGE OVER MSAS ADJUSTMENT

RR Bridge over MSAS Route Rehabilitation

Any structure that has been rehabilitated (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 8. Bridge rehabilitation) shall not be included in the Needs calculations until the rehabilitation project has been completed and the actual cost established. At that time a Construction Needs adjustment shall be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure rehabilitation Needs adjustments must be input by the city and approved by the DSAE.

RR Bridge over MSAS Route Construction/Reconstruction

Any structure that has been constructed/reconstructed (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 31. Reconstruction) shall not be included in the Needs calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment shall be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 35-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure construction/reconstruction Needs adjustments must be input by the city and approved by the District State Aid Engineer

OUTSIDE CITY LIMITS ADJUSTMENT

In 2023, statutory language changes affected the definition of "Money Needs" as defined in MS 162.13 Subd 2. As a result, roadways coded as "outside city limits" were deemed eligible to draw Money Needs. The following statutory language changes were implemented.

Money needs defined. For the purpose of this section money needs of each city having a population of 5,000 or more are defined as the estimated cost of constructing and maintaining over a period of 25 years the municipal state-aid street system in located and established by such city. Right-of-way costs and drainage shall be included in money needs. Lighting costs and other costs incidental to construction and maintenance, or a specified portion of such those costs, as set forth in the commissioner's rules, may be included in determining money needs. To avoid variances in costs due to difference in construction and maintenance policy, construction and maintenance costs shall be estimated on the basis of the engineering standards developed cooperatively by the commissioner and the engineers, or a committee thereof, of the cities.

Because roadways "outside city limits" are newly eligible to draw money needs, the Needs Application will require an enhancement to include these segments in the overall calculation. Until then, State Aid will be applying a positive After-the-Fact adjustment to cities with MSAS System mileage not completely within their corporate boundaries.

INDIVIDUAL ADJUSTMENTS

The following cities will receive individual adjustments due to having MSAS mileage outside their city limits.

Andover: \$55,369 for 0.04 miles inside the city of Ham Lake.

Blaine: \$402,577 for 0.25 miles shared with the small city of Lexington.

Brainerd: \$125,163 for 0.04 miles shared with a township.

Faribault: \$838,934 for 0.32 miles shared with a township.

Mahtomedi: \$43,643 for 0.02 miles shared with the small city of Willernie.

Mankato: \$240,038 for 0.11 miles inside a township.

Marshall: \$318,367 for 0.23 miles inside a township.

Mendota Heights: \$273,753 for 0.17 miles inside the small city of Mendota.

Montevideo: \$303,395 for 0.16 miles inside a township.

Moorhead: \$402,577 for 0.25 miles shared with a township.

Prior Lake: \$458,256 for 0.21 miles shared with a township.

Rochester: \$905,745 for 0.33 miles shared with a township.

Saint Michael: \$805,151 for 0.50 miles shared with a township.

Saint Peter: \$1,038,149 for 0.75 miles shared / inside a township.

White Bear Lake: \$21,822 for 0.01 miles inside a township.

The following city will receive an individual adjustment for a correction to last year's excess unencumbered construction fund balance adjustment.

Little Falls: \$2,533,428. Last year Little Falls received a negative adjustment. It was later determined that their balance did not exceed the balance limit.

October 25, 2023

Nancy Daubenberger, Commissioner Mail Stop 100 395 John Ireland Blvd. St. Paul, MN 55155

Dear Commissioner Daubenberger:

We, the undersigned, as members of the 2023 Municipal Screening Board, having reviewed all information available in relation to the 25 year money needs of the Municipal State Aid Street System do hereby submit our findings as required by Minnesota Statutes.

We recommend that these findings be modified as required by Screening Board Resolutions, and that any new municipalities that become eligible for State Aid by special census, incorporation, annexation or population estimates have their mileage and resulting money needs established and included in our findings.

This Board, therefore, recommends that the money needs, as listed on the attached, be modified as required and used as the basis for apportioning to the urban municipalities the 2024 Apportionment Sum as provided by Minnesota Statutes, Chapter 162.13, Subdivision 1.

DETERMINATION OF THE CONSTRUCTION AND MAINTENANCE ALLOTMENTS

Upon determining the amount available to be distributed in the Municipal State Aid Street Fund the cities Total Maintenance Allotments are computed in accordance with the State Aid Operational Rules Chapter 8820.1400 Subp. 3.

General Maintenance Allotment

The General Maintenance requested is subtracted from the Total Apportionment.

A city may request its General Maintenance Allotment be calculated using one of the following methods:

- 1) \$1500 per mile improved Municipal State Aid Streets
- 2) 25% of its Total Apportionment
- 3) 35% of its Total Apportionment (maximum percentage allowed)
- 4) A Lump Sum dollar amount greater than \$1500 per improved mile and less than 35% of its Total Apportionment

The General Maintenance Allotment may not exceed 35% of the Total Apportionment

Total Maintenance Allotment

The *Total Maintenance Allotment* is the General Maintenance Allotment *plus* any Bond Interest due.

The Total Maintenance Allotment of a city may only exceed 35% of its Total Apportionment to pay for Bond Interest.

By City Council resolution, a city may request State Aid to use local funds for the interest.

Annual Summary of Street Information

If any city's General Maintenance Allotment exceeds 25% of its Total Apportionment that city must submit a Certification Statement to receive the final payment of its Total Maintenance Allotment. The cities that will need to file a signed <u>Annual Summary of Street Information at the end of 2024</u> are:

Bloomington	Fridley	Red Wing	
Cloquet	Minneapolis	St. Louis Park	
Corcoran	Prior Lake	St. Paul	

Principal payments due on bonds in the current year are paid from the city's Construction Allotment.

^{*} New city for 2024 distribution

CERTIFICATION OF MSAS SYSTEM AS COMPLETE

A Certification of a Municipal State Aid Street System may occur when a City certifies to the Commissioner of Transportation that its state aid routes are improved to state aid standards or have no other needs beyond additional surfacing or shouldering needs as identified in the annual State Aid Needs Report. This authority exists under Minnesota Rules 8820.1800 subpart 2, which reads in part:

When the county board or governing body of an urban municipality desires to use a part of its state aid allocation on local roads or streets not on an approved state aid system, it shall certify to the commissioner that its state aid routes are improved to state aid standards or are in an adequate condition that does not have needs other than additional surfacing or shouldering needs identified in its respective state aid needs report. That portion of the county or city apportionment attributable to needs must not be used on the local system.

When a system is certified as complete, the certification shall be good for two years. The dollar amount eligible for use on local streets will be based on the population portion of the annual construction allocation. The beginning construction account figure for this calculation shall be the amount of the current year's construction account which is not generated by construction needs.

The dollar amount eligible to be spent on local street systems is determined as follows:

Determine what percentage the population allocation is of the total allocation. This percent is then multiplied times the construction allotment. This is the amount of the construction allotment that is generated by the population allocation. Only the construction allotment is used because the city has already received its maintenance allotment.

Population Allocation / Total Allocation * Construction Allotment = Local Amount Available. (see allocation into 90p account on next page)

The following five cities are Certified Complete: Columbia Heights, Crookston, Falcon Heights, Fridley, and South St. Paul.

90P ACCT - LOCAL AMOUNT AVAILABLE AFTER JANUARY 2024 ALLOCATION

Prepared for the January 2024 book

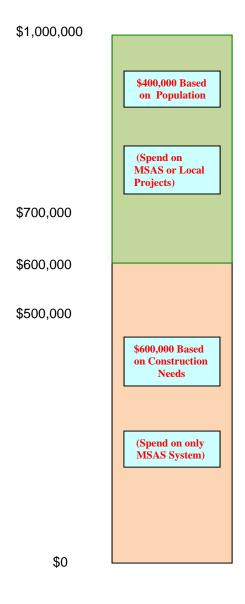

The Maximum Local Amount Available may change upon receipt of any payment request.

	Fridley	Columbia Hgts	Falcon Hgts	South St. Paul	Crookston
Total Apportionment	\$1,463,718	\$945,506	\$230,481	\$1,157,192	\$546,055
Population	\$840,650	\$616,501	\$150,920	\$582,440	\$209,924
Money Needs	\$623,068	\$329,005	\$79,561	\$574,752	\$336,131
% based on Pop.	57.4%	65.2%	65.5%	50.3%	38.4%
Total Construction Allotment: Jan. 2024 (total apportionment - maintenance)	\$951,417	\$709,129	\$172,861	\$867,894	\$409,541
Allocation to 90p acct (amount of construction allotment based on Population)	\$546,423	\$462,375	\$113,190	\$436,830	\$157,443
Amount Remaining in 90p acct (as of 12/31/2023)	\$43,873	\$0	\$269,357	\$1,249,423	\$1,241,734
** Maximum Local Unemcumbered Amount Available after January 2024 Allocation	\$590,296	\$462,375	\$382,547	\$1,686,253	\$1,399,177

^{**} This is the amount available to spend on city streets after the 2024 allotments have added to the Balance Available at the end of 2023. To find out how much is available for spending on local streets as of a specific date, please log on to SAAS Reports, select State Aid County and Municipality Report, select SAAS Status and then select your city and the Reporting Year/Month. The report numbered 90p - Muni Const Pop shows the amount available for local projects.

CERTIFIED COMPLETE CITY GRAPH

Amount Spent

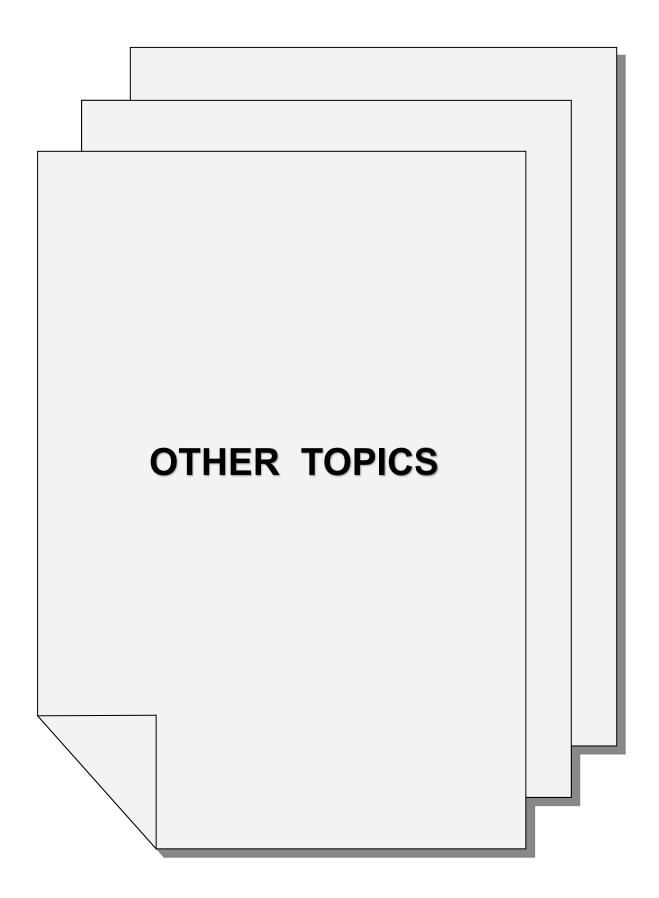

Graph Example:

A city receives a \$1,000,000 Construction Allotment and a Maximum of \$400,000 is available for Local projects.

The whole \$1,000,000 is available for State Aid Projects, but any amount over \$600,000 will reduce the Local Amount Available. Therefore, a city's Maximum Local Amount Available could be reduced without having requested payment for any Local Projects.

If the city spends \$700,000 on State Aid Projects, a maximum of \$300,000 will be available to be spent on Local Projects.

If a city spends \$500,000 on Local Projects, \$100,000 will be deducted from next year's Local Amount Available.

RELATIONSHIP OF CONSTRUCTION BALANCE TO CONSTRUCTION ALLOTMENT

The amount spent on construction projects is computed by the difference between the previous year's and current years unencumbered construction balances plus the current years construction apportionment.

Relationship of Balance to Allotment

<u>COUNTY HIGHWAY TURNBACK</u> <u>POLICY</u>

Definitions:

County Highway – Either a County State Aid Highway or a County Road

County Highway Turnback- A CSAH or a County Road which has been released by the county and designated as an MSAS roadway. A designation request must be approved and a Commissioner's Order written. A County Highway Turnback may be either County Road (CR) Turnback or a County State Aid (CSAH) Turnback. (See Minnesota Statute 162.09 Subdivision 1). A County Highway Turnback designation has to stay with the County Highway turned back and is not transferable to any other roadways.

Basic Mileage- Total improved mileage of local streets, county roads and county road turnbacks. Frontage roads which are not designated trunk highway, trunk highway turnback or on the County State Aid Highway System shall be considered in the computation of the basic street mileage. A city is allowed to designate 20% of this mileage as MSAS. (See Screening Board Resolutions in the back of the most current booklet).

MILEAGE CONSIDERATIONS

County State Aid Highway Turnbacks

A CSAH Turnback **is not** included in a city's basic mileage, which means it **is not** included in the computation for a city's 20% allowable mileage. However, a city may draw Construction Needs and generate allocation on 100% of the length of the CSAH Turnback

County Road Turnbacks

A County Road Turnback **is** included in a city's basic mileage, so it **is** included in the computation for a city's 20% allowable mileage. A city may also draw Construction Needs and generate allocation on 100% of the length of the County Road Turnback.

Jurisdictional Exchanges

County Road for MSAS

Only the **extra** mileage a city receives in an exchange between a County Road and an MSAS route **will be** considered as a County Road Turnback.

If the mileage of a jurisdictional exchange is **even**, the County Road **will not be** considered as a County Road Turnback.

If a city receives **less** mileage in a jurisdictional exchange, the County Road **will not be** considered as a County Road Turnback.

CSAH for MSAS

Only the **extra** mileage a city receives in an exchange between a CSAH and an MSAS route **will be** considered as a CSAH Turnback.

If the mileage of a jurisdictional exchange is **even**, the CSAH **will not be** considered as a CSAH Turnback.

If a city receives **less** mileage in a jurisdictional exchange, the CSAH **will not be** considered as a CSAH Turnback

NOTE:

When a city receives **less** mileage in a CSAH exchange it will have less mileage to designate within its 20% mileage limitation and may have to revoke mileage the following year when it computes its allowable mileage.

Explanation: After this exchange is completed, a city will have more CSAH mileage and less MSAS mileage than before the exchange. The new CSAH mileage was included in the city's basic mileage when it was MSAS (before the exchange) but is not included when it is CSAH (after the exchange). So, after the jurisdictional exchange the city will have less basic mileage and 20% of that mileage will be a smaller number.

If a city has more mileage designated than the new, lower 20% allowable mileage, the city will be over designated and be required to revoke some mileage. If a revocation is necessary, it will not have to be done until the following year after a city computes its new allowable mileage.

MSAS designation on a County Road

County Roads can be designated as MSAS. If a County Road which is designated as MSAS is turned back to the city, it will not be considered as County Road Turnback.

MISCELLANEOUS

A CSAH which was previously designated as Trunk Highway turnback on the CSAH system and is turned back to the city will lose all status as a TH turnback and only be considered as CSAH Turnback.

A city that had previously been over 5,000 population, lost its eligibility for an MSAS system and regained it shall revoke all streets designated as CSAH at the time of eligibility loss and consider them for MSAS designation. These roads will not be eligible for consideration as CSAH turnback designation.

In a city that becomes eligible for MSAS designation for the first time all CSAH routes which serve only a municipal function and have both termini within or at the municipal boundary, should be revoked as CSAH and considered for MSAS designation. These roads will not be eligible for consideration as CSAH turnbacks.

For MSAS purposes, a County or CSAH that has been released to a city cannot be local road for more than two years and still be considered a turnback.

CURRENT RESOLUTIONS OF THE MUNICIPAL SCREENING BOARD

October 2023

Bolded wording (except headings) are revisions since the last publication of the Resolutions

BE IT RESOLVED:

ADMINISTRATION

Appointments to Screening Board - Oct. 1961 (Revised June 1981, May 2011)

The Commissioner of Mn/DOT will annually be requested to appoint three (3) new members, upon recommendation of the City Engineers Association of Minnesota, to serve three (3) year terms as voting members of the Municipal Screening Board. These appointees are selected from the MnDOT State Aid Districts as they exist in 2010, together with one representative from each of the four (4) cities of the first class.

Screening Board Chair, Vice Chair and Secretary- June 1987 (Revised June, 2002)

The Chair Vice Chair, and Secretary, nominated annually at the annual meeting of the City Engineers Association of Minnesota and subsequently appointed by the Commissioner of the Minnesota Department of Transportation will not have a vote in matters before the Screening Board unless they are also the duly appointed Screening Board Representative of a construction District or of a City of the first class.

Appointment to the Needs Study Subcommittee - June 1987 (Revised June 1993)

The Screening Board Chair will annually appoint one city engineer, who has served on the Screening Board, to serve a three year term on the Needs Study Subcommittee. The appointment will be made at the annual winter meeting of the City's Engineers Association. The appointed subcommittee person will serve as chair of the subcommittee in the third year of the appointment.

<u>Appointment to Unencumbered Construction Funds Subcommittee</u> – (Revised June 1979, May 2014)

The Screening Board past Chair will be appointed to serve a minimum three-year term on the Unencumbered Construction Fund Subcommittee. This appointment will continue to maintain an experienced group to follow a program of accomplishments. The most senior member will serve as chair of the subcommittee.

Appearance Screening Board - Oct. 1962 (Revised Oct. 1982)

Any individual or delegation having items of concern regarding the study of State Aid Needs or State Aid Apportionment amounts, and wishing to have consideration given to these items, will send such request in writing to the State Aid Engineer. The State Aid Engineer with concurrence of the Chair of the Screening Board will determine which requests are to be referred to the Screening Board for their consideration. This resolution does not abrogate the right of the Screening Board to call any person or persons before the Board for discussion purposes.

Screening Board Meeting Dates and Locations - June 1996

The Screening Board Chair, with the assistance of the State Aid Engineer, will determine the dates and locations for Screening Board meetings.

Research Account - Oct. 1961

An annual resolution be considered for setting aside up to $\frac{1}{2}$ of 1% of the previous years' Apportionment fund for the Research Account to continue municipal street research activity.

Population Apportionment - October 1994, 1996

Beginning with calendar year 1996, the MSAS population apportionment will be determined using the latest available federal census or population estimates of the State Demographer and/or the Metropolitan Council. However, no population will be decreased below that of the latest available federal census, and no city will be dropped from the MSAS eligible list based on population estimates.

Improper Needs Report - Oct. 1961

The State Aid Engineer and the District State Aid Engineer (DSAE) are requested to recommend an adjustment of the Needs reporting whenever there is a reason to believe that said reports have deviated from accepted standards and to submit their recommendations to the Screening Board, with a copy to the municipality involved, or its engineer.

New Cities Needs - Oct. 1983 (Revised June 2005, May 2014)

Any new city having determined its eligible mileage, but has not submitted its Needs to the DSAE by December 1, will have its Needs based upon zero ADT assigned to the eligible mileage until the DSAE approves the traffic counts.

<u>Certified Complete Cities</u> – May 2014 (Revised October 2014)

State Aid Operational Rule 8820.18 subp.2 allows cities to spend the population based portion of their Construction Allotment on non MSAS city streets if its MSAS system has been Certified Complete.

At the city's request, the District State Aid Engineer will review the MSAS system in that city and if the system has been completely built, may certify it complete for a period of two years. The same proportion of a city's total allocation based on population will be used to compute the population portion of its Construction Allotment.

If a payment request for a project on the MSAS system is greater than the amount available in the Needs based account, the remainder will come from the population based account, thereby reducing the amount available for non MSAS city streets.

A city may carry over any remaining amount in its population based account from year to year. However if a payment request for a project on a non MSAS city street is greater than the amount available in the population based account, the population based account will be reduced to zero and the city will be responsible for the remaining amount.

Construction Needs Components – May 2014

For Construction Needs purposes, all roadways on the MSAS system will be considered as being built to Urban standards.

All segments on the MSAS system will generate continuous Construction Needs on the following items:

Excavation/Grading
Gravel Base
Bituminous
Curb and Gutter Construction
Sidewalk Construction
Storm Sewer Construction
Street Lighting
Traffic Signals
Engineering
Structures

Unit Price Study- Oct. 2006 (Revised May, 2014)

The Needs Study Subcommittee will annually review the Unit Prices for the Needs components used in the Needs Study. The Subcommittee will make its recommendation to the Municipal Screening board at its annual spring meeting.

The Unit Price Study go to a 3 year (or triennial) cycle with the Unit Prices for the two 'off years' to be set using the Engineering News Record construction cost index on all items where a Unit Price is not estimated and provided by other MnDOT offices. The Screening Board may request a Unit Price Study on individual items in the 'off years' if it is deemed necessary.

<u>Unit Costs</u> - May 2014, (Revised January 2015, May 2015, May 2023)

The quantities which the Unit Costs for Excavation/Grading, Gravel Base, and Bituminous are based upon will be determined by using the roadway cross sections and structural sections in each of the ADT groups as determined by the Municipal Screening Board and shown in the following table 'MSAS Urban ADT Groups for Needs Purposes'.

MSAS URBAN ADT GROUPS FOR NEEDS PURPOSES

Quantities Based on a One Mile Section

EXISTING ADT	NEEDS WIDTH	NEEDS GENERATION DATA	GRADING DEPTH (inches)	GRADING QUANTITY (cubic yards)	CLASS 5 GRAVEL BASE DEPTH (inches)	CLASS 5 GRAVEL BASE QUANTITY (Tons)	TOTAL BITUMINOUS QUANTITY (TONS)
0 EXISTING ADT & NON EXISTING	26 FOOT ROADBED WIDTH	2- 11' TRAFFIC LANES 0 PARKING LANES 2- 2' CURB REACTION	22 INCHES	11,655	6 INCHES	4,346	2,917 4 INCHES
1-499 EXISTING ADT	28' FOOT ROADBED WIDTH	2- 12' TRAFFIC LANES 0 PARKING LANES 2- 2' CURB REACTION	22 INCHES	12,496	6 INCHES	4,691	3,182 4 INCHES
500-1999 EXISTING ADT	34 FOOT ROADBED WIDTH	2- 12' TRAFFIC LANES 1- 8' PARKING LANE 1- 2' CURB REACTION	26 INCHES	17,698	10 INCHES	10,176	3,978 4 INCHES
2000-4999 EXISTING ADT	40 FOOT ROADBED WIDTH	2-12' TRAFFIC LANES 2- 8' PARKING LANE	32 INCHES	25,188	16 INCHES	19,628	4,773 4 INCHES
5000-8999 EXISTING ADT	48 FOOT ROADBED WIDTH	4-11' TRAFFIC LANES 2- 2' CURB REACTION	35 INCHES	32,795	19 INCHES	27,907	5,834 4 INCHES
9000-13,999 EXISTING ADT	54 FOOT ROADBED WIDTH	4-11' TRAFFIC LANES 1-8' PARKING LANE 1-2' CURB REACTION	36 INCHES	37,918	19 INCHES	31,460	8,287 5 INCHES
14,000-24,999 EXISTING ADT	62 FOOT ROADBED WIDTH	4-11' TRAFFIC LANES 1- 14' CENTER TURN 2- 2' CURB REACTION	38 INCHES	45,838	20 INCHES	38,049	11,535 6 INCHES
GT 25,000 EXISTING ADT	70 FOOT ROADBED WIDTH	6-11' TRAFFIC LANES 0 PARKING LANES 2- 2' CURB REACTION	39 INCHES	53,172	21 INCHES	44,776	13,126 6 INCHES

The quantity used for **Curb and Gutter** Construction will be determined by multiplying the segment length times two if it is an undivided roadway and by four if it is divided.

This quantity will then be multiplied by the Municipal Screening Board approved Unit Price to determine the Curb and Gutter Construction Needs.

The quantity used for **Sidewalk Construction** will be determined by multiplying the segment length times 26,400 (a five-foot wide sidewalk on one side of a mile of roadway) in the lower two ADT groups (less than 500 ADT) and by 52,800 (two five-foot wide sidewalks on a mile of roadway) in the upper ADT groups.

This quantity will then be multiplied by the Municipal Screening Board approved Unit Price to determine the Sidewalk Construction Needs.

The Unit Cost per mile of **Storm Sewer** for the highest MSAS Urban ADT Group for Needs Purposes will be based on the average costs of all Storm Sewer Construction on the MSAS system in the previous year. To determine the Unit Cost for the highest ADT Group, average costs for Complete Storm Sewer projects and Partial Storm Sewer projects will be provided to State Aid by the MnDOT Hydraulics Office and then added together and divided by two to calculate a statewide average Unit Cost for all Storm Sewer Construction.

The Unit Cost per mile for Storm Sewer Construction will be calculated for the highest MSAS Urban ADT Group and be prorated downward for the other ADT Groups. This proration has been determined based upon an engineering study requested by the Municipal Screening Board in 2011 and will be the basis for the Needs calculations.

The Unit Cost for **Street Lighting** will be determined by multiplying the Unit Price per mile by the segment length. For ADT groups in the range of 1 to 4999, this Unit Cost will remain at \$142,500 per mile. For ADT groups that are 5000 ADT or more, this Unit Cost will remain at \$195,000 per mile. Non-existing routes will remain at \$0 per mile. The Municipal Screening Board may request a study on this item on any year if it is deemed necessary.

The Unit Cost for **Traffic Signals** will be determined by the recommendation by the SALT Program Support Engineer and approved by the MSB.

The Unit Cost for traffic signals will be based on a cost per signal leg, and for Needs purposes a signal leg will be defined as $\frac{1}{4}$ of the signal cost.

Only signal legs on designated MSAS routes will be included in the Needs study.

Stand-alone pedestrian crossing signals will not be included in the Needs study.

The area in square feet used for **Structure Needs** (Bridges and Box Culverts) will be determined by multiplying the <u>centerline length</u> of the bridge, or the <u>culvert width</u> of the box culvert, times the Needs Width from the appropriate MSAS Urban ADT Group. This quantity will then be multiplied by the Municipal Screening Board Unit Price to determine the Structure Needs. The Unit Price for Structures will be determined by using one-half of the approved unit cost provided by the MnDOT State Aid Bridge Office.

The Unit Cost for **Engineering** will be determined by adding together all other Unit Costs and multiplying them by the MSB approved percentage. The result is added to the other Unit Costs.

Needs Item		Municipal Screening Board Approved Prices for the 2023 Distribution	Needs Study Subcommittee Recommended Prices for 2024 Distribution	Municipal Screening Board Approved Prices for the 2024 Distribution
Grading (Excavation)	Cu. Yd.	\$11.43	\$12.07	\$12.07
Aggregate Base	Ton	19.33	20.41	20.41
All Bituminous	Ton	77.33	81.66	81.66
Sidewalk Construction	Sq. Ft.	7.78	8.22	8.22
Curb and Gutter Construction	Lin.Ft.	21.48	22.68	22.68
Traffic Signals	Per Sig	249,034	262,980	262,980
Street Lighting (ADT 1-4999)	Mile	100,000	142,000	142,000
Street Lighting (ADT 5000 +)	Mile	100,000	195,000	195,000
Engineering	Percent	22	22	22
All Structures (includes both bridg	jes and bo	x culverts)		
	Sq. Ft.	98.58	105.74	105.74
Storm Sewer (based on ADT)	Per Mile)		
0 ADT & Non Existing		199,400	210,500	210,500
1-499		203,200	214,500	214,500
500-1,999		214,500	226,500	226,500
2,000-4,999		225,900	238,500	238,500
5,000-8,999		241,000	254,500	254,50
9,000-13,999		252,400	266,500	266,50
14,000-24,999		267,600	282,500	282,50
25,000 and over		282,700	298,500	298,50

Mileage - Feb. 1959 (Revised Oct. 1994. 1998)

The maximum mileage for Municipal State Aid Street designation will be 20 percent of the municipality's basic mileage - which is comprised of the total improved mileage of local streets, county roads and county road turnbacks.

Nov. 1965 – (Revised 1969, October 1993, October 1994, June 1996, October 1998, May 2014)

That the maximum mileage for State Aid designation may be exceeded to designate trunk highway turnbacks released to the Municipality after July 1, 1965.

The maximum mileage for State Aid designation may also be exceeded to designate both County Road and County State Aid Highways released to the Municipality after May 11th, 1994.

Nov. 1965 (Revised 1972, Oct. 1993, 1995, 1998)

The maximum mileage for Municipal State Aid Street designation will be based on the Annual Certification of Mileage current as of December 31st of the preceding year. Submittal of a supplementary certification during the year will not be permitted. Frontage roads not designated Trunk Highway, Trunk Highway Turnback or County State Aid Highways will be considered in the computation of the basic street mileage. The total mileage of local streets, county roads and county road turnbacks on corporate limits will be included in the municipality's basic street mileage. Any State Aid Street that is on the boundary of two adjoining urban municipalities will be considered as one-half mileage for each municipality.

All mileage on the MSAS system will accrue Needs in accordance with current rules and resolutions.

Oct. 1961 (Revised May 1980, Oct. 1982, Oct. 1983, June 1993, June 2003)

All requests for revisions to the Municipal State Aid System must be received by the District State Aid Engineer by March first to be included in that years Needs Study. If a system revision has been requested, a City Council resolution approving the system revisions and the Needs Study reporting data must be received by May first, to be included in the current year's Needs Study. If no system revisions are requested, the District State Aid Engineer must receive the Normal Needs Updates by March 31st to be included in that years' Needs Study.

One Way Street Mileage - June 1983 (Revised Oct. 1984, Oct. 1993, June 1994, Oct. 1997)

Any one-way streets added to the Municipal State Aid Street system must be reviewed by the Needs Study Sub-Committee, and approved by the Screening Board before any one-way street can be treated as one-half mileage in the Needs Study.

All Municipal Screening Board approved one-way streets be treated as one-half of the mileage and allow one-half complete Needs. When Trunk Highway or County Highway Turnback is used as part of a one-way pair, mileage for certification shall only be included as Trunk Highway or County Turnback mileage and not as approved one-way mileage.

Needs Adjustments

In the event that an MSAS route earning "After the Fact" Needs is removed from the MSAS system, the "After the Fact" Needs will then be removed from the Needs Study, except if transferred to another state system. No adjustment will be required on Needs earned prior to the revocation.

<u>Excess Unencumbered Construction Fund Balance Adjustment</u> – Oct. 2002, (Revised Jan. 2010, May 2014, May 2019, October 2021, *June 2022*)

State Aid Payment Requests received before December 1st by the District State Aid Engineer for payment will be considered as being encumbered and the construction balances will be so adjusted.

The December 31 construction fund balance will be compared to the annual construction allotment from January of the same year. If the December 31 construction fund balance exceeds 3 times the January construction allotment, and the construction fund balance is over 3 times the average construction allotment for all cities excluding cities of the first class (hereinafter referred to as the adjusted average construction allotment), then the negative adjustment to the Needs will be 1 times the December 31 construction fund balance. In each consecutive year the December 31 construction fund balance exceeds 3 times the January construction allotment (and the balance is over 3 times the adjusted average construction allotment) the negative adjustment to the Needs will be increased to 2, 3, 4, etc. times the December 31 construction fund balance until such time the Construction Needs are adjusted to zero.

If the December 31 construction fund balance drops below 3 times the January construction allotment and subsequently increases to over 3 times, the multipliers will start over with one.

The adjusted average construction allotment used for this purpose shall not decrease in value from one year to the next.

If a city wishes to justify their balance in excess of said limits, and request an exemption to the excess balance adjustment, their request must be reviewed and approved by the Municipal Screening Board at their Annual Fall Meeting.

Low Balance Incentive - Oct. 2003 (Revised May, 2014)

The amount of the Excess Unencumbered Construction Fund Balance Adjustment will be redistributed as a positive adjustment to the Construction Needs of all municipalities whose December 31st construction fund balance is less than 1 times their January construction allotment of the same year. This redistribution will be based on a city's prorated share of its Unadjusted Construction Needs to the total Unadjusted Construction Needs of all participating cities times the total Excess Balance Adjustment.

After the Fact Right of Way Adjustment - Oct. 1965 (Revised June 1986, 2000, May 2014)

Right of Way Needs will not be included in the Needs calculations until the right of way is acquired and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15-year period. Only right of way acquisition costs that are eligible for State-Aid funding will be included in the right-of-way Construction Needs adjustment. This Directive is to exclude all Federal or State grants.

When "After the Fact" Needs are requested for right-of-way projects that have been funded with local funds, but qualify for State Aid reimbursement, documentation (copies of warrants and description of acquisition) must be submitted to the District State Aid Engineer. The City Engineer will input the data into the Needs Update program and the data will be approved by the DSAE.

After the Fact Railroad Bridge over MSAS Route Adjustment – May 2014

RR Bridge over MSAS Route Rehabilitation

Any structure that has been rehabilitated (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 8. Bridge rehabilitation) will not be included in the Needs calculations until the rehabilitation project has been completed and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure rehabilitation Needs adjustments must be input by the city and approved by the DSAE.

RR Bridge over MSAS Route Construction/Reconstruction

Any structure that has been constructed/reconstructed (Minnesota Administrative Rules, CHAPTER 8820, 8820.0200 DEFINITIONS, Subp. 31. Reconstruction) will not be included in the Needs calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 35-year period. Only State Aid eligible items are allowed to be included in this adjustment and all structure construction/reconstruction Needs adjustments must be input by the city and approved by the District State Aid Engineer.

After the Fact Railroad Crossing Adjustment

Any Railroad Crossing improvements will not be included in the Needs Calculations until the project has been completed and the actual cost established. At that time a Construction Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) to the annual Construction Needs for a 15 year period. Only State Aid eligible items are allowed to be included in this adjustment, and all Railroad Crossing Needs adjustments must be input by the city and approved by the District State Aid Engineer.

Excess Maintenance Account – June 2006

Any city which requests an annual Maintenance Allocation of more than 35% of their Total Allocation, is granted a variance by the Variance Committee, and subsequently receives the increased Maintenance Allocation will receive a negative Needs adjustment equal to the amount of money over and above the 35% amount transferred from the city's Construction Account to its Maintenance Account. The Needs adjustment will be calculated for an accumulative period of twenty years, and applied as a single one-year (one time) deduction each year the city receives the maintenance allocation.

After the Fact Retaining Wall Adjustment Oct. 2006 (Revised May 2014)

Retaining wall Needs will not be included in the Needs study until such time that the retaining wall has been constructed and the actual cost established. At that time a Needs adjustment will be made by annually adding the local cost (which is the total cost less county or trunk highway participation) for a 15 year period. Documentation of the construction of the retaining wall, including eligible costs, must be submitted to your District State Aid Engineer by July 1 to be included in that years Needs study. After the Fact needs on retaining walls will begin effective for all projects awarded after January 1, 2006. All Retaining Wall adjustments must be input by the city and approved by the District State Aid Engineer.

TRAFFIC - June 1971 (Revised May 2014)

Beginning in 1965 and for all future Municipal State Aid Street Needs Studies, the Needs Study procedure will utilize traffic data developed according the Traffic Forecasting and Analysis web site at http://www.dot.state.mn.us/traffic/data/coll-methods.html

<u>Traffic Counting</u> - Sept. 1973 (Revised June 1987, 1997, 1999, Oct. 2014)

Traffic data for State Aid Needs Studies will be developed as follows:

- 1) The municipalities in the metropolitan area cooperate with the State by agreeing to participate in counting traffic every two or four years at the discretion of the city.
- 2) The cities in the outstate area may have their traffic counted and maps prepared by State forces every four years, or may elect to continue the present procedure of taking their own counts and have state forces prepare the maps.
- 3) Any city may count traffic with their own forces every two years at their discretion and expense, unless the municipality has made arrangements with the Mn/DOT district to do the count.
- 4) On new MSAS routes, the ADT will be determined by the City with the concurrence of the District State Aid Engineer until such time the roadway is counted in the standard MnDOT count rotation.
