Key Notes:

- This grant is administered by Second Harvest Heartland (SHH) on behalf of the six Feeding America food banks who serve MN. Each food bank is responsible for distributing the food to the counties they serve.
- Protein is sourced centrally by SHH and allocated out to each cluster food bank. SHH has strategically spread out its sourcing of protein with these funds to try and provide a small amount of free protein to partners throughout the entire year, rather than spending all of the funds in the first quarter to meet demand.
- The milk funds are allocated up front to food banks based on food insecurity rates in the counties they serve. Milk is procured by each food bank separately.
- The entirety of the produce funds were spent by all six food banks in just the first four months of the funds due to an unprecedented demand for

Key Notes:

- F2F funds are tracked based on when product is received from growers and producers. However, distributions by county are tracked when the product is physically sent out to the community. When product is received in one quarter and distributed out during the next quarter, it results in a discrepancy in this report.
- Approximately 11,537 gallons of milk were purchased to distribute to the community with the grant funds spent during Q3.
- In Q3 221 agencies were served across 64 Minnesota counties.
