**Date:** September 4<sup>th</sup>, 2024

**To:** Chairs and ranking minority members of the legislative committees with jurisdiction over the State Building Code, State Fire Code, and Minnesota Housing Finance Agency

**From:** Minnesota Department of Public Safety State Fire Marshal division

**Subject:** Report on residential high-rise buildings without fire sprinkler systems

---

The 2023 Minnesota Laws Chapter 37, Article 6, Section 13(b) requires cities of the first or second class to provide a list to the Minnesota Department of Public Safety State Fire Marshal (SFM) division of residential buildings in the city that:

- 1) have at least one story used for human occupancy that is 75 feet or more above the lowest level of fire department vehicle access;
- 2) were not subject to a requirement to include a sprinkler system at the time the building was constructed; and
- 3) have not been retrofitted with a sprinkler system.

The SFM shall submit the lists within 60 days of the due dates under paragraph (a) to the chairs and ranking minority members of the legislative committees with jurisdiction over the State Building Code, State Fire Code, and Minnesota Housing Finance Agency.

The table inserted below includes every Minnesota city of the first or second class, any reported residential high-rise buildings within the city, and the status of any fire sprinkler protection.

The SFM thanks all partnering cities for reporting this information, with special recognition to the Minnesota Chapter of the National Fire Sprinkler Association for proactively contacting the individual cities and compiling a large portion of this information.

**Key for Sprinkler Protection column**

“No Protection”

- The building has not been retrofitted with fire sprinklers.

“Partially Protected”

- The building has some fire sprinklers but has not been retrofitted to be fully sprinklered.

“No Data Received”

- The city of the first or second class did provide a list of applicable buildings and addresses to the State Fire Marshal division for high-rise buildings that meet the criteria in law.
  - It is unknown if the lack of reporting was because there are no buildings in the city which meet the criteria, or if there was a lack of understanding on the reporting requirement.
  - State Fire Marshal division staff will connect with all cities of the first and second class to update the list before the next list is due to be submitted in 2027.
