

December 2, 2024

The Honorable Tim Walz  
Governor, State of Minnesota  
75 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

Ryan Inman, Revisor  
Office of the Revisor  
Centennial Building, 3<sup>rd</sup> Floor  
658 Cedar St.  
St. Paul, MN 55155

Michelle Yurich, Executive Director  
Legislative Coordinating Commission  
Centennial Building, 1<sup>st</sup> Floor  
658 Cedar St.  
St. Paul, MN 55155

The Honorable Patty Acomb  
Chair, House Climate and Energy Finance and  
Policy Committee  
5<sup>th</sup> Floor, State Office Building  
100 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

The Honorable Chris Swedzinski  
Ranking Minority Lead, House Climate and  
Energy Finance and Policy Committee  
2<sup>nd</sup> Floor, State Office Building  
100 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

The Honorable Rick Hansen  
Chair, House Environment and Natural  
Resources Finance and Policy Committee  
5<sup>th</sup> Floor, State Office Building  
100 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

The Honorable Josh Heintzeman  
Ranking Minority Lead, House Environment and  
Natural Resources Finance and Policy  
Committee  
2<sup>nd</sup> Floor, State Office Building  
100 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

The Honorable Foug Hawj  
Chair, Environment, Climate, and Legacy  
Committee  
3231 Minnesota Senate Bldg.  
95 University Ave. W  
St. Paul, MN 55155

The Honorable Justin D. Eichorn  
Ranking Minority Member, Environment,  
Climate, and Legacy Committee  
2235 Minnesota Senate Bldg.  
95 University Ave. W  
St. Paul, MN 55155

The Honorable Leon Lillie  
Chair, House Legacy Finance Committee  
5<sup>th</sup> Floor, State Office Building  
100 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

The Honorable Jeff Backer  
Ranking Minority Lead, House Legacy Finance  
Committee  
2<sup>nd</sup> Floor, State Office Building  
100 Rev. Dr. Martin Luther King Jr. Blvd.  
St. Paul, MN 55155

RE: Annual Report on Obsolete, Unnecessary, or Duplicative Rules, as Required by Minnesota Statute (Minn. Stat.) § 14.05, subd. 5

Dear Legislators:

*Minn. Stat. § 14.05, subdivision 5, states:*

*“By December 1 of each year, an agency must submit to the governor, the legislative coordinating commission, the policy and funding committees and divisions with jurisdiction over the agency, and the Revisor of Statutes, a list of any rules or portions of rules that are obsolete, unnecessary, or duplicative of other state or federal statutes or rules. The list must also include an explanation of why the rule or portion of the rule is obsolete, unnecessary, or duplicative of other state or federal statutes or rules. By December 1, the agency must either report a timetable for repeal of the rule or portion of the rule, or must develop a bill for submission to the appropriate policy committee to repeal the obsolete, unnecessary, or duplicative rule. Such a bill must include proposed authorization to use the expedited procedures of section 14.389 to repeal or amend the obsolete, unnecessary, or duplicative rule. A report submitted under this subdivision must be signed by the person in the agency who is responsible for identifying and initiating repeal of obsolete rules. The report also must identify the status of any rules identified in the prior year’s report as obsolete, unnecessary, or duplicative. If none of an agency’s rules are obsolete, unnecessary, or duplicative, an agency’s December 1 report must state that conclusion.”*

The Minnesota Pollution Control Agency (MPCA) has conducted a review of its rules and requested input from interested external parties (e.g., Minnesota Chamber of Commerce, regulated parties, local government, and environmental advocacy groups) to identify rules that are obsolete, unnecessary, or duplicative.

## **Rules identified as obsolete, unnecessary, or duplicative in 2024**

The MPCA identifies the following rules as obsolete, unnecessary, or duplicative in 2024.

The MPCA has previously identified portions of Minn. R. chs. 7035 and 7045 as obsolete, unnecessary, or duplicative. The rules are part of the Land-Related Housekeeping Rule (Revisor’s ID #04155) that is anticipated to be public noticed in 2025. In addition to those previously identified rules, the agency also identifies the following rules and plans on including them in the same rule project.

**Minn. R. pt. 7035.9140, subp. 7.** This subpart lists requirements specific to the duration of a management plan for commercial transporters. The MPCA has observed that the majority of management plans change little or not at all biennially, resulting in only minimal oversight benefit gained from repeated review of unchanged plans. The unchanged requirement for plans to be maintained at a facility and thus available at any time for Agency inspection serves the intended purpose of review subsequent to initial submittals fully and thus results in sufficient environmental and public health protection.

**Minn. R. pt. 7045.0020, subp. 2.** This subpart defines an abbreviation that is not used in the chapter and is therefore being repealed.

**Minn. R. pt. 7045.0020, subp. 9a.** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 9b.*** This subpart defines a term that is not used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 10.*** This subpart defines a term that is not used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 10a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 21a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 22b.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 32a.*** This subpart defines a term that is not used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 37a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 37c.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 40a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 47.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 59d.*** The definition in this subpart is being relocated to another part in this chapter.

***Minn. R. pt. 7045.0020, subp. 60a.*** The definition in this subpart is being relocated to another part in this chapter.

***Minn. R. pt. 7045.0020, subp. 71a.*** The definition in this subpart is being relocated to another subpart in this part.

***Minn. R. pt. 7045.0020, subp. 72a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 72b.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 72c.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 73b.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 93a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

***Minn. R. pt. 7045.0020, subp. 102a.*** This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

**Minn. R. pt. 7045.0090, subp. 3.** This subpart establishes exceptions to the adoption of federal standards related to 40 CFR Part 262, subparts E and H, regarding exports and transfrontier shipments of hazardous waste; 40 CFR sections 268.5, 268.6, 268.42(b), and 268.44, regarding land disposal restrictions; 40 CFR section 279.82(b) regarding state petition to allow use of used oil as a dust suppressant; and 40 CFR Appendix to part 262, regarding hazardous waste manifest. Respectively, the MPCA is adopting without exception the federal export and transfrontier standards, does not intend to petition to allow use of used oil as a dust suppressant, has already adopted without exception the federal land disposal restrictions, and acknowledges that the relevant Appendix to part 262 has been repealed by the EPA. Therefore, this subpart is obsolete and is being repealed.

**Minn. R. pt. 7045.0125, subp. 3a.** This conditional exemption is being relocated to another part in this chapter.

**Minn. R. pt. 7045.0395.** This part relates to hazardous waste requirements related to hazardous waste discharges. The requirements in this part are being relocated to another part to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0466, subp. 3.** This subpart establishes provisions for implementation of a contingency plan. The requirements in this subpart are being relocated to another part to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0468, subps. 5 and 6.** These subparts list requirements for a report on released material and the duty to notify. The requirements in these subparts are being relocated to another part to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0572, subp. 3.** This subpart establishes provisions for implementation of a contingency plan. The requirements in this subpart are being relocated to another part to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0574, subps. 5 and 6.** These subparts list requirements for a report on released material and the duty to notify. The requirements in these subparts are being relocated to another part to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0665, subps. 1a and 1b.** These subparts establish prohibitions related to land application and evaporation disposal. The requirements in these subparts are being relocated to other parts to simplify the rules and eliminate confusion.

Minn. R. pt. 7045.0790, subp. 3. This definition is duplicative and is being repealed to simplify the rules and eliminate confusion.

Minn. R. pt. 7045.0790, subp. 4. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

Minn. R. pt. 7045.0790, subp. 5. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

Minn. R. pt. 7045.0790, subp. 6. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

Minn. R. pt. 7045.0790, subp. 7. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

Minn. R. pt. 7045.0790, subp. 8. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

Minn. R. pt. 7045.0790, subp. 11. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

Minn. R. pt. 7045.0790, subp. 15. This subpart defines a term that will no longer be used in the chapter and is therefore being repealed.

**Minn. R. pt. 7045.0692.** This part establishes requirements related to hazardous waste for energy recovery. Due to changes at the federal level that result in making the current requirements obsolete, the agency will be proposing to remove the now obsolete requirements.

**Minn. R. pt. 7045.0805.** This part establishes requirements for waste containing or contaminated with used oil. The requirements in this part are relocated to another part to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0875, subp. 6.** This subpart establishes the requirement to develop, follow, and keep on site, a detailed written analysis plan relating to halogens and fuel specification, as applicable. The requirements in this subpart are relocated to another subpart to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0895, subp. 2.** This subpart describes persons who are not marketers. The requirements in this subpart are relocated to another subpart to simplify the rules and eliminate confusion.

**Minn. R. pt. 7045.0990, subps. 3, 4, and 5.** These subparts establish requirements for used oil filter generators, used oil filter transporters, and used oil filter brokers, processors, and recyclers. The requirements in these subparts are being respectively relocated to other subparts and consolidated to simplify the rules and eliminate confusion.

As discussed in previous ORR submittals, the Land-Related Housekeeping Rule will also address the obsolete portions of the rules and relevant cross-references listed below. The MPCA notes that removal of the obsolete language does not mean that specific requirements no longer exist. In the majority of cases, removal of an existing obsolete requirement is necessary to allow for an updated requirement to address improvements in hazardous waste management or a relocated requirement to improve readability.

## Status of rules identified in previous Obsolete Rules Reports (ORRs)

The MPCA has identified obsolete rules in previous ORRs, some of which have already been addressed/remedied by the agency. For the previously identified rules listed below, the MPCA is either currently completing rulemaking to address them or still evaluating options to make the necessary changes.

### 1. Updates to underground waters, *Minn. R. pt. 7060* (2020 ORR)

MPCA staff identified portions of *Minn. R. 7060* with references to other rule parts that require updating—for example, 7060.0200 refers to text in parts 7050.0100-7050.0220 as of 2014 that was moved or changed in 2019. The MPCA, Minnesota Department of Health, and other agencies with relevant authority are reviewing specific items for revision in the Water Quality Standards: Use Class 1 rulemaking (Revisor's ID #04727).

## **2. Updates to permits and certifications, *Minn. R. pt. 7001 (2020 ORR)***

MPCA staff identified portions of *Minn. R. 7001.3175*, *7001.3275*, and *7001.3300* with requirements to submit four copies of relevant preliminary permit applications, final permit applications, or detailed site evaluation reports that are now considered obsolete because of streamlined agency processes and technological efficiency. The MPCA is working on rulemaking, referred to as the Land-Related Housekeeping Rule (Revisor's ID #04155), to make minor corrections, clarifications, and updates to its solid and hazardous waste rule chapters, including revising the requirement from four copies to one; providing for the use of electronic means as specified by the Commissioner, where appropriate; and revising cross-references as needed.

## **3. Updates to solid waste, *Minn. R. pt. 7035 (2020 ORR)***

Aspects of *Minn. R. 7035* regulate the transportation of infectious waste that relate to activities of the Minnesota Department of Health, which has amended their rules regulating infectious waste management. As a result, some requirements in this part are obsolete or require correction. Additional requirements correspond to marking and placarding requirements of the federal hazardous material regulations administered by the U.S. Department of Transportation, which supersede conflicting state requirements.

## **4. Updates to hazardous waste, *Minn. R. pt. 7045***

The Land-Related Housekeeping Rule (Revisor's ID #04155) will also address the obsolete portions of the rules and relevant cross-references listed below. The MPCA notes that removal of the obsolete language does not necessarily mean that the requirement no longer exists. In some cases, removal of the requirement still leaves behind a modified requirement or relocated requirement to improve readability:

### **(2020 and 2022 ORRs)**

***Minn. R. pt. 7045.0075, subpart 2, item E, and 7045.0135, subpart 1a, item F.*** These subparts list special requirements that apply to the management of comparable fuels or comparable syngas fuels under 40 CFR § 261.38. Federal rules related to comparable syn/gas exclusions in 40 CFR § 261.38 were vacated by the U.S. Court of Appeals for the District of Columbia on June 27, 2014. The EPA then implemented this change into federal regulation on April 8, 2015, by repealing the comparable syn/gas exclusions. During rule development, the MPCA determined that repeal of part 7045.0075, subp. 2, item E was no longer necessary. Therefore, the MPCA removes it from the ORR.

***Minn. R. pt. 7045.0125, subpart 12.*** This subpart provides requirements that apply to the export of industrial ethyl alcohol. The MPCA is adopting the revised federal hazardous waste import and export regulations, including industrial ethyl alcohol export, to replace the former state hazardous waste export rules.

***Minn. R. pt. 7045.0135, subpart 2b, items B and C.*** This subpart contains requirements regarding additions, modification, or exceptions to incorporated federal provisions. Federal updates render the requirements under items B and C obsolete.

***Minn. R. pt. 7045.0248, subpart 4.*** This subpart provides reporting requirements for exported waste, which are rendered obsolete. The MPCA is now adopting revised federal hazardous waste import and export regulations and their respective definitions relating to exporter regulation in place of former state hazardous waste export rules.

**Minn. R. pt. 7045.0261.** The MPCA originally identified only a portion of pt. 7045.0261 as obsolete in the 2015 Obsolete Rules Report (ORR) but will propose additional revisions to repeal and replace requirements based on new federal hazardous waste manifest regulations.

**Minn. R. pt. 7045.0294, subpart 2.** This subpart contains recordkeeping provisions for alternate manifests, which are now obsolete with the MPCA's online electronic reporting system for generator licenses, which is available through the MPCA's e-Services portal. Current manifest exception report retention requirement is also obsolete based on the new federal hazardous waste manifest regulations.

**Minn. R. pt. 7045.0302.** This part provides special conditions that apply to international shipments. This part is rendered obsolete with the revised federal hazardous waste import and export regulations.

**Minn. R. pt. 7045.0322.** This part incorporates federal requirements for transfrontier shipments of hazardous waste. The MPCA is adopting the revised federal hazardous waste import and export regulations in their entirety in place of the former state hazardous waste import and export rules, which makes this existing part obsolete.

**Minn. R. pt. 7045.0452, subpart 3, item E and 7045.0556, subpart 3, item D.** Part 7045.0452, subpart 3, item E contains requirements regarding the submittal of tracking documents and the length of time they must be maintained. This requirement is rendered duplicative with the planned adoption of relevant transboundary movements of hazardous waste federal regulations adopted via incorporation by reference. Part 7045.0556, item D contains requirements for notices that are also rendered obsolete.

**Minn. R. pt. 7045.0474.** This part contains general manifest requirements, rail- and water-shipment requirements, document-tracking requirements, and state-only waste requirements that are no longer necessary with the adoption of federal hazardous waste manifest regulations.

**Minn. R. pt. 7045.0675, subpart 5.** This subpart contains transfrontier requirements for parties who generate, transport, or store precious metals for recovery. The MPCA is adopting the revised federal hazardous waste import and export regulations, including those potentially applicable to shipments of precious metals for recovery, in place of former state hazardous waste import and export rules.

**Minn. R. pt. 7045.0692.** This part contains requirements that apply with the burning of hazardous waste for energy recovery in boilers or industrial furnaces that are not regulated by thermal treatment standards. The MPCA is repealing an outdated exception from the requirements otherwise applicable to hazardous waste being burned.

**Minn. R. pt. 7045.0835.** The MPCA is proposing to repeal part 7045.0835, which relates to used oil containing polychlorinated biphenyls. No other rules in this or other chapters cross reference to this part. The MPCA has observed that it is, therefore, very commonly unread, and not followed by the used oil handlers it was intended to apply to.

**Minn. R. pt. 7045.0990, subpart 1.** The MPCA simplifies the used oil and used oil filter rules by relocating the used oil filter definitions from current part 7045.0990, subpart 1, to revised part 7045.0790, which is the same location as the definitions of all other used oil terms. See changes to part 7045.0790.

**Minn. R. pts. 7045.0075, 7045.0262, 7045.0265, 7045.0375, 7045.0381, 7045.0385, 7045.0391, 7045.0476, 7045.0580, and 7045.0582.** These parts contain requirements related to manifests. The MPCA is planning to repeal the current state hazardous waste rules in their entirety and

adopt the federal hazardous waste regulations by reference under proposed *Minn. R. 7045.0581* to ensure Minnesota regulated parties comply with the most current standards.

**(2013 and 2015 ORRs)**

***Minn. R. pt. 7035.9120, subparts 4 and 5.*** Aspects of these subparts regulating transportation of infectious waste relate to activities of the Minnesota Department of Health, which has amended their rules regulating infectious waste management. As a result, some requirements in this part are obsolete or require correction. Additional requirements correspond to marking and placarding requirements of the federal hazardous material regulations administered by the U.S. Department of Transportation, which supersede conflicting state requirements.

***Minn. R. pt. 7045.0075, subpart 5.*** This subpart provides a mechanism to petition for the use of an alternate manifest for hazardous waste transportation. As of 2014, U.S. Environmental Protection Agency (EPA) regulations prohibit the use of alternate manifests.

***Minn. R. pt. 7045.0125, subparts 4–6.*** These subparts, which relate to the transportation of hazardous waste being recycled, contain an obsolete citation to repealed *Minn. Stat. § 221.0355*.

***Minn. R. pt. 7045.0206, subpart 6, item B.*** This part establishes generator size determination requirements. Obsolete requirements related to polychlorinated biphenyls are being deleted.

***Minn. R. pt. 7045.0230, subpart 1a.*** This part establishes very small quantity generator license application requirements, which are duplicative because of proposed language revisions.

***Minn. R. pt. 7045.0243, subpart 3, item G.*** This part establishes the terms and conditions of a hazardous waste generator license; item G is obsolete because the MPCA's process for issuing licenses has changed.

***Minn. R. pts. 7045.0261, subpart 1a, item B; 7045.0294, subpart 1a; and 7045.0381, subpart 5.*** These subparts provide the option of using an alternate manifest, which is no longer allowed under the federal hazardous waste manifest program.

***Minn. R. pt. 7045.0325, subpart 2.*** This subpart provides exceptions to the federal uniform hazardous waste manifest. The EPA has preempted and prohibited all state manifest requirements at variance with the federal manifest.

***Minn. R. pt. 7045.0365, subpart 3.*** Item I in this subpart establishes requirements applicable to hazardous waste transfer facilities. These requirements conflict with federal recordkeeping requirements of the regulations administered by the U.S. Department of Transportation under the authority of the Hazardous Material Transportation Act.

***Minn. R. pt. 7045.0371.*** This part, which requires hazardous wastes to be transported in accordance with applicable state statutes and federal requirements, contains an obsolete reference to repealed *Minn. Stat. § 221.0355*.

***Minn. R. pt. 7045.0395, subpart 5.*** This subpart requires specific actions in response to a spill of hazardous waste, which are preempted by the Federal Hazardous Materials Transportation Act.

***Minn. R. pt. 7045.0686.*** This part establishes the requirements for the management of spent or waste household batteries. In 2005, the MPCA adopted the Federal Universal Waste Rule (*Minn. R. pt. 7045.1400*), under which all spent or waste household batteries became eligible for management in Minnesota as universal wastes in lieu of the stricter previous requirements of this part. MPCA staff are not aware of any remaining operators operating under the requirements of this part when managing these batteries.

***Minn. R. pt. 7045.0875, subpart 8, item B.*** This part establishes that used oil processor/refiner must submit biennial reports, which the MPCA no longer requires.

**Minn. R. pt. 9210.0120, subpart 5, and Minn. R. pt. 9210.0810, subpart 1.** These rules relate to the administration of solid waste grants and contracts. The parts of these rules that refer to providing notice specifically through publication in the *State Register* were rendered obsolete by the implementation of the new SWIFT system.

The MPCA has started rulemaking to make minor corrections, clarifications, and updates to its solid and hazardous waste rule chapters and various cross-references; this rulemaking will also address the obsolete rules identified above. Addressing these obsolete requirements will involve changes to several chapters of Minnesota rules. The MPCA intends to complete this rulemaking, referred to as the Land-Related Housekeeping Rules (Revisor's ID #04155), in 2025.

#### **5. MPCA Board Rules (2015 ORR)**

The 2015 Legislative session eliminated the MPCA Citizens' Board (Minn. Stat. § 116.02, subd.6 and 8 (<https://www.revisor.mn.gov/laws/?id=4&year=2015&type=1>)). Minn. R. ch. 7000 and several other MPCA rules include obsolete references to the Board and its activities. The MPCA planned to address these obsolete rules by working with the Office of the Revisor of Statutes to prepare proposed legislation repealing obsolete rule provisions related to the Board according to Laws 2015, First Special Session chapter 4, article 4, section 149.

**Revisor's Instruction.** *The Revisor of Statutes shall prepare draft legislation to amend statutes to conform with structural changes to the Minnesota Pollution Control Agency under sections 114–117 and 150. The Revisor shall submit the proposed legislation to the chairs of the House of Representatives and senate committees with jurisdiction over environment and policy by January 1, 2016.*

The MPCA expected that the necessary legislation would also grant editorial authority to the Office of the Revisor of Statutes to eliminate references to the Board in rules. This legislation was not introduced. The MPCA will continue to investigate legislative and administrative rulemaking options for eliminating the obsolete references and, as appropriate, refine language in housekeeping rule efforts on a case-by-case basis.

#### **6. Green House Gas Emissions Rules (2014 ORR)**

Portions of the federal Green House Gas Emissions Rules were vacated by a 2014 U.S. Supreme Court decision. The MPCA will consider repealing obsolete portions of Minn. R. ch. 7007 in future permanent air rulemakings.

If you have any questions regarding this report, please feel free to contact me at 651-757-2777.

Sincerely,

Tom Johnson  
Government Relations Director  
Commissioner's Office
