November 9, 1973

Board of Directors
Minnesota State Retirement System
529 Jackson Street
St. Paul, Minnesota 55101

Gentlemen:

We are pleased to transmit herewith our report on the actuarial valuation of your Retirement System made as of June 30, 1973.

Pursuant to the Contract under which this valuation was authorized, the actuarial valuation was carried out on the basis of a 5% interest rate assumption, a 3-1/2% salary scale, and on the basis of certain other specified actuarial assumptions. Also, in accordance with the above noted contract, we utilized the entry age normal cost method of funding to determine the unfunded accrued liability of the System.

We hereby certify that the actuarial valuation of the Minnesota State Retirement System made as of June 30, 1973 was carried out on the basis of accepted actuarial methods and procedures and in accordance with the provisions of Minnesota Statutes 1971, Chapter 356. The results of that valuation indicate that the contributions required from the employees and from the State under Minnesota Statutes 1971, Chapter 352, as amended by Laws 1973 are adequate to provide the benefits that will be paid from the System.

We look forward to the opportunity of discussing this report with you at your convenience.

Very truly yours,

COATES AND CRAWFORD
Consulting Actuaries

REPORT ON

ACTUARIAL VALUATION

OF THE

MINNESOTA STATE RETIREMENT SYSTEM

AS OF

JUNE 30, 1973

SECTION I

INTRODUCTION

In accordance with the Contract between the State of Minnesota and this firm, we have completed the actuarial valuation of the Minnesota State Retirement System as of June 30, 1973.

The Executive Director of the System furnished us with detailed employee information on all active members, inactive members and retired members of the System as of June 30, 1973. The Executive Director and his staff are to be complimented on the accuracy and completeness of the aforementioned data.

The Executive Director also furnished us with a Financial Report setting forth the assets and liabilities of the Fund as of June 30, 1973. No physical audit of these assets was made by us and our calculations are based upon the Financial Report as submitted.

This valuation is based on the System as it was constituted on July 1, 1973 and reflects the major amendments which became effective on that date including the following:

- Special service retirement benefits and contributions for certain "Correctional Employees". There are 677 such employees.
- 2. Increased service retirement benefits and contributions for "General Employees".
- 3. Increased allowances to persons receiving benefits from the MAFB Fund including the increase that will become payable January 1, 1974.

The following Section II sets forth the results of the actuarial valuation and Section III contains the exhibits required by Chapter 356 of the Statutes. The schedules attached at the end of the report show the actuarial assumptions used in the current valuation which were developed during the course of the actuarial investigation carried out as of June 30, 1971.

SECTION II

RESULTS OF ACTUARIAL VALUATION

The Contract under which this valuation was authorized specifies that the actuarial valuation be carried out on the basis of a 5% interest rate assumption, a 3-1/2% salary scale, the 1951 Group Annuity Mortality Table with ages set back one year for Male retirees and set back two years for Female retirees, and upon other actuarial assumptions developed during the course of the actuarial investigation carried out as of June 30, 1971. We modified the assumptions to reflect compulsory retirement age 65 for General Employees and we assumed Correctional Employees will retire upon attaining age 55. We were also instructed to carry out the actuarial valuation on the basis of an entry age normal cost method of funding. The current valuation was carried out in accordance with the stipulations contained in the aforementioned Contract. Also, we reflected the 6% average salary increase that became effective July 11, 1973.

The entry age normal cost method of funding requires the determination of the level contribution rate which, if contributed on behalf of all new employees from the dates of employment to the dates of separation from service, will be adequate to provide all of their benefits. Under this funding method, the unfunded accrued liability is taken as the total liability of the System for benefits earned in the past as well as those earnable in the future, less the assets on hand, less the present value of future employee

contributions and less the present value of future State entry age normal cost contributions.

In order to develop the entry age normal cost contribution rate for new General Employees, we carried out a complete valuation of active members as of June 30, 1973 who were employed during the preceding four and one-half year period. The results of these calculations indicate that the total entry age normal cost rate under the new scale of benefits for General Employees amounts to 6.85% of salary. General Employees are required by law to contribute 4% and, accordingly, the State's share of the entry age normal cost contribution rate for General Employees amounts to 2.85%.

On the assumption that new male Correctional Employees will be employed at age 30 and that new female Correctional Employees will be employed at age 34, we calculated the total entry age normal cost rate for Correctional Employees to be 11.92% of salary. Correctional Employees are required by law to contribute 6% and, accordingly, the State's share of the entry age normal cost contribution for Correctional Employees amounts to 5.92%.

The law requires that the State make the following contributions to the Fund:

- (1) A "matching" contribution equal to 4% of General Employees' salaries and 9% of Correctional Employees' salaries.
- (2) An "additional" contribution equal to 2% of General Employees' salaries and 5% of Correctional Employees' salaries.

We have been advised that it is the intent of the Minnesota Legislature to pay the "additional" contributions referred to above for a limited time only.

We assigned the State Contribution Reserve to Correctional and General Employees in proportion to their accumulated contributions as follows:

	State Contribution Reserve
General Employees	\$88,415,080.93
Correctional Employees	2,080,214.35
Total	\$90,495,295.28

The Accounting Balance Sheet shown on the following page was furnished by the Executive Director.

The Actuarial Balance Sheet shown on the page following the Accounting Balance Sheet summarizes the results of the valuation. In the current valuation we have made provision for administrative expenses amounting to .19% of salaries.

The Actuarial Balance Sheet is a convenient device to present the results of an actuarial valuation. The following comments are intended to assist you in your understanding of the items contained in the Actuarial Balance Sheet.

Item 1 shows the assets on hand and was taken directly from the Accounting Balance Sheet.

Item 2 shows the present value of members' future contributions required by law.

Item 3 shows the present value of the State's future contributions to the System. We have divided the present value applicable to the State's contributions as follows:

- Item 3(a) The portion attributable to the State's share of the total entry age normal cost contribution of 2.85% of General Employees' salaries and 5.92% of Correctional Employees' salaries.
- Item 3(b) The portion attributable to the balance of the State's

 "matching" contribution less .19% which is allocated for
 operating expenses. This amounts to .96% of General Employees' salaries and 2.89% of Correctional Employees'
 salaries.
- Item 3(c) The portion attributable to the State's "additional" contribution. The following table shows the required information for Correctional Employees and for General Employees:

		Correctional Employees	General Employees	Total
•	1. Annualized Salaries July 1, 1973	\$6,426,050	\$315,073,566	\$321,499,616
	2. State "Additional" contribution rate	5%	2%	
	3. Annual State "Additional" contribution	321,303	6,301,471	6,622,774
	4. Item 3(c) Actuarial Balance Sheet	6,305,547.01	127,792,041.65	134,097,588.66
	5. Years (to nearest year) required to amortize Item 3(c) of Actuarial Balance Sheet by "Additional" State Contributions which increase in accordance with salary scale	23	24	24
	6. First year annual contribution with subsequent salary scale increases required to amortize Item 3(c) of Actuarial Balance Sheet over Period Ending June 30,1997	312,461	6,332,529	6,644,990
	7. Total Unfunded Accrued Liability (Item 3(b) plus Item 3(c) of Actuarial			

Item 5 shows the current liabilities and was taken directly from the Accounting Balance Sheet.

\$7,313,186.01

\$151,740,280.65

\$159,053,466.66

Balance Sheet)

Item 6 shows the actuarially computed present value of all benefits earned to June 30, 1973 and earnable after that date that will be paid from the System to presently active members.

Item 7 shows the actuarially computed present value of all benefits payable from the System to members who have terminated service with vested benefits.

Item 8 shows the actuarially computed present value of refundments that will be paid from the System to members who have terminated service without vested benefits.

The total of \$62,865,952.00 shown for Item 9 represents the value of benefits payable from the MAFB to MSRS retirees and reflects the increases to become effective July 1, 1973 and January 1, 1974.

CONCLUSIONS

In a retirement system such as yours where both the benefits and contributions are specified in the Retirement Law, the major purpose of an actuarial valuation is to determine whether or not the prescribed contributions are adequate to provide the benefits that will ultimately be paid under the system. The results of the current valuation show that the benefits to be provided under the System can be financed by the members' contributions and the State's "matching" contributions plus the State's "additional" contribution for approximately twenty-four years.

STATE OF MINNESOTA

SECTION III

REQUIRED EXHIBITS

Minnesota Statutes 1971, Chapter 356, requires, in Section 356.20, Subdivision 4(1), that the actuary of the System prepare an exhibit setting forth certain specified information with regard to the System as of the valuation date, including "Reserves Required" under the System. In an earlier conference with representatives of the State's Employee Retirement System's Interim Commission, we were advised that "Reserve Required", as contemplated in the aforementioned statute, may be defined as the actuarially computed present value applicable to a specified benefit reduced by the actuarially computed present value of any portion of the total entry age normal cost contribution under the System which is applicable to the specified benefit.

The exhibit required by Section 356.20, Subdivision 4(1) of Minnesota Statutes 1971, Chapter 356, is presented on the following pages of this Section III and we hereby certify that the Reserves Required set forth therein have been computed in accordance with the Entry Age Normal Cost (level Normal Cost) basis in the manner outlined in the definition referred to above.

Minnesota Statutes 1971, Chapter 356, requires, in Section 356.20, Subdivision 4(2) and (3), that there be submitted annually an analysis of the System's income and deductions from income with increases in total reserves required being specifically referred to as a deduction from income. The exhibit required by Section 356.20, Subdivision 4(2) and (3) is presented on the following page of this Section III. Items of income and deductions from income with the exception of increases in total reserves required were taken directly from statements prepared by the Executive Director.

Inasmuch as any excess of "income" over "deductions from income" must be equal to the reduction in the Unfunded Accrued Liability of the System over the period covered by the analysis, we have confirmed that fact in Item 13 of the exhibit.

Minnesota Statutes 1971, Chapter 356, requires, in Section 356.20, Subdivision 4(4), that there be submitted annually an analysis of changes in the membership of the System. Section 356.21, Subdivisions 4 and 5, requires information with respect to the annual payroll and annual annuities of the members of the System as well as certain information with respect to average ages. The exhibit required by Section 356.20, Subdivision 4(4), Section 356.21, Subdivision 4(6), and Section 356.21, Subdivision 5(9) and (10) is presented on the following pages of this Section III. All of the information was taken directly from an exhibit prepared by the Executive Director.

EXHIBIT REQUIRED BY MINNESOTA STATUTES 1971, CHAPTER 356, SECTION 356.20, SUBDIVISION 4(4), SECTION 356.21, SUBDIVISION 4(6) AND SECTION 356.21, SUBDIVISION 5(9) AND (10)
FISCAL YEAR ENDING JUNE 30, 1973

COVERED EMPLOYEE STATEMENT

ACTIVE EMPLOYEES:	NUMBER	ANNUAL PAYROLL
Active at July 1, 1972	36,962	\$286,119,677.92
New Entrants, 7/1/72 - 6/30/73*	7,579	41,562,439.58

66 years, 1 month

Section 356.21, Subdivision 4 of the Minnesota Statutes 1971 requires an analysis of the increase or decrease in the unfunded liability that occurred since the last valuation. The exhibit shown on the following pages of this Section III contains the information required by Section 356.21, Subdivision 4(1), (2), (3), (4) and (5).

EXHIBIT REQUIRED BY MINNESOTA STATUTES 1971, CHAPTER 356 SECTION 356.21, SUBDIVISION 4(1), (2), (3), (4) and (5) FISCAL YEAR ENDING JUNE 30, 1973

1.	Unfunded Accrued Liability June 30, 1972		\$ 18,951,243
2.	Change due to current rate of funding and interest requirement (Subdivision 4(4)):		
	(a) 1972-73 Past Service Contribution	- \$ 2,940,809	
	(b) 3-1/2% interest requirement	+ 663,294	- 2,277,515
3.	Change due to actuarial gains (-) or losses (+) because of 1972-73 experience deviations from expected (Subdivision 4(3)):		
	 (a) Excess interest earnings (b) Recognized Unrealized Appreciation (c) Withdrawals (d) Age and Service retirements (e) Disability retirements (f) Deaths in active service (g) Salary increases 	- 1,454,278 - 1,674,284 - 1,096,829 + 386,618 + 36,005 + 122,439 + 2,150,489	-\$ 1,529,840
4.	Change due to 1972-73 entrants (Subdivision 4(5))		- 2,168,142
5.	Unfunded Accrued Liability June 30, 1973 Old Plan - Old Assumptions		\$ 12,975,746
6.	Change due to new assumptions:		
	(a) Interest(b) Mortality after Age and ServiceRetirement	- 34,474,900 + 5,334,698	-\$ 29,140,202
7.	Unfunded Accrued Liability June 30, 1973 Old Plan - New Assumptions		(16,164,456)
8.	Change due to Plan amendments		+ 175,217,923
9.	Unfunded Accrued Liability June 30, 1973 New Plan - New Assumptions		\$159,053,467
