Co-foreword

Thank you for your interest in the 2023 Minnesota Child Support Performance Report. This year, we made significant progress after the public health emergency ended and continued providing high-quality service while improving the child support program for the families we serve.

Based on 2022 Federal Fiscal Year (FFY) data, child support programs across the country collected more than \$30 billion dollars for 12.8 million children. In Minnesota, we collected nearly \$518 million for 214,000 children. Minnesota maintained its high level of performance for the percentage of current, monthly child support collected and the percentage of cases with payments toward past due support.

Some of the changes and improvements we made to enhance the program include:

- Reforming the driver's license suspension enforcement remedy
- Updating medical support policies to help parents and children eligible for Medical Assistance
- Starting work on the federal Safe Access for Victims' Economic Security (SAVES) grant; and
- Advancing diversity, equity and inclusion through receipt of a federal grant, the Advisory Board Equity Committee and trainings for program staff.

County and Tribal child support programs continued to promote and contribute towards these efforts through active participation at all levels while addressing issues of staff retention and the challenges of meeting performance expectations.

In Washington County, we demonstrated our deep commitment to diversity, equity and inclusion (DEI) by:

- Mandating related training
- Participating in program work groups to help shape policy and training based on the outcomes of the driver's license suspension pilot and through the Advisory Board Equity Committee; and
- Continuing service delivery through the lens of procedural justice.

Additional support came through newly formed Employee Resources Groups and foundational trainings such as Beyond Diversity 101 and Understanding LGBTQIA Identities. Our commitment to incorporating diversity, equity and inclusion best practices contributed to our excellent year.

Thanks again for learning more about Minnesota's child support program. We will continue to do everything we can to meet the needs of the children we serve in 2024.

Sincerely,

Michele Schreifels
Interim Director
Child Support Division

Leah Bruch
Economic Support Supervisor
Washington County Community Services

Executive summary

Minnesota's child support program provided services to 292,245 parents and 206,649 children through 1,378 county and state workers in Federal Fiscal Year (FFY) 2023. The program collected and disbursed \$513.4 million. For every \$1 spent on Minnesota's child support program, it collected \$2.68 in support of children.

Minnesota's 2023 Child Support Performance Report presents program status and highlights its accomplishments. The Child Support Division reports the most recent data showing statewide and individual county performance, and a five-year history for the five federal performance measures. The five performance measures are:

- 
- **Paternity establishments**
 - **Child support order establishment**
 - **Collections on current support**
 - **Collections on cases with arrears**
 - **Program cost effectiveness**

Minnesota's federal performance measures

	FFY 2023	FFY 2022	FFY 2021	FFY 2020	FFY 2019
Paternities established	96.6%	97.8%	98.8%	100.1%	101.0%
Orders established	85.7%	85.8%	86.5%	87.5%	88.6%
Collections on current	73.4%	72.6%	75.7%	75.4%	75.4%
Collections on arrears	69.6%	70.4%	72.3%	79.6%	72.9%
Cost effectiveness	\$2.68	\$2.91	\$3.09	\$3.26	\$3.14

Minnesota's child support program competes with other state programs for federal incentive funding from the Office of Child Support Services (OCSS). State programs maximize federal incentives by reaching performance thresholds on the five measures. In FFY 2022, Minnesota's program maximized its federal incentives on two of five measures, paternity establishment and orders established; it has opportunities to earn additional incentives based on collections, which maximize at 80%, and cost effectiveness at \$5.00.

Minnesota's child support program in FFY 2023:

- Served 206,649 children; 10% of them received public assistance in the form of cash, as of Sept. 30, 2023.
- Distributed \$520.6 million, including:
 - \$372.1 million from employers withholding child support from parents' paychecks
 - \$72.8 million from cash and check payments
 - \$33.9 million received from other states' and countries' collections
 - \$27.6 million through tax intercepts
 - \$12.7 million from unemployment insurance
 - \$1.5 million from financial institution data match levies.

In FFY 2023, Minnesota child support workers:

- Established paternity through 1,729 court orders and 674 Recognition of Parentage forms signed at county offices
- Established 8,037 orders for support; 85.72% of Minnesota child support cases have an order in place
- Adjusted 39,144 cases for cost of living, which increases the amount of child support ordered every two years
- Modified 5,876 child support orders
- Attended nearly 1,400 trainings
- Completed over 4,200 web-based trainings.

Minnesota child support services

Together with county and Tribal agency staff, the child support program serves 292,245 parents and 206,649 children across 87 counties and 11 Tribes. The Minnesota Department of Human Services Child Support Division supervises the program. County offices administer services by working with parents to establish and enforce support orders. Congress enacted child support programs in 1975 under Title IV-D of the Social Security Act.

Child support staff, including 1,378 employees statewide, work in partnership to serve the needs of Minnesota families, providing support to children. The number of staff is important to the Cost Effectiveness performance measure. The division gathers staff counts through an annual survey that reports full time equivalencies (FTE). FTEs are staff dedicated to working directly on, or supporting child support cases, such as supervisors, managers and directors; child support officers; financial, administrative, training, technology and legal specialists; contractors; system programmers; and others. Some staff included in the FTE count work outside the program under cooperative agreements.

Cooperative agreements are initiated by county child support offices for resources outside the agency, including county attorneys, legal staff, office support, sheriff's personnel, public health workers and others.

Minnesota's child support program benefits children by:

- Locating parents and establishing parentage
- Establishing and reviewing child support orders for modification
- Helping children receive financial, medical and child care support
- Working with other state agencies to help families when one parent lives outside of Minnesota
- Helping families work toward becoming and remaining self-sufficient, ensuring parents establish a financial partnership.

A family-centered approach to supporting children is at the core of the child support program.

Child support is money parents are court ordered to pay to their child's other parent or caregiver for support of their child. Support may be part of an interim, temporary, permanent or modified court order in a divorce or legal separation, paternity action, order for protection, child custody action or separate child support action.

Child support services are available to:

- Parents of minor children if one parent does not live with their child
- Parents who pay child support through court-ordered income withholding
- Those who have court-ordered physical custody of a minor child
- Those receiving public assistance for a minor child living in their home.

Child support cases open when either parent applies for services or when a county public assistance office refers a case.

Payments

Partnerships

The child support program helps parents establish a financial partnership by offering services for children to receive financial, medical and child care support they need to enhance growth and development. These three elements combine to form a monthly child support obligation.

Once a parent applies for services, or after financial workers refer a case because a family receives public assistance, all child support payments must come through the Child Support Payment Center. States are required to have a central payment center that receives and disburses child support collections so parents get credit for making payments, and payments disburse correctly. Many state and federal agencies, employers and other service programs help the child support program operate effectively and efficiently.

Processing

Division staff receipts payments. In most cases, they send support collected and owed to custodial parents within two business days by direct deposit into a checking or savings account or stored value card. Staff may hold funds collected through certain tax refund offsets for up to six months, ensuring proper interception of refunds.

In FFY 2023, the program distributed \$520.6 million to child support cases. Payment center staff:

- Processed \$539 million in payments, of which approximately \$18.5 million was returned to sender or on hold pending verification
- Received 2,451,438 transactions, of which 513,049 were paper items such as checks and 1,938,389 through automated clearing houses (ACH)
- Deposited 95.52% of collections directly into parents' accounts.

Many state and federal agencies, employers and other service programs help the child support program operate effectively and efficiently.

Sources

The division tracks sources of child support payments to measure the effectiveness of enforcement activities and collection tools. The following graph shows payment sources for FFY 2023.

Most child support cases in Minnesota are non-public assistance cases. Children on these cases either never received or are no longer receiving public assistance.

Income withholding

Most new or modified child support orders require income withholding where employers and payors of funds automatically withhold child support obligations from parents' pay, or other sources of income, and send withholdings to the Child Support Payment Center. Through income withholding, employers collected \$372.1 million from parents' paychecks, 71.5% of all support distributed.

Employers play a pivotal role in Minnesota's child support efforts, making a valuable contribution to the lives of children. Employers are also required to report new hires to the Minnesota New Hire Reporting Center, which helps match working parents with child support obligations. Cooperation among employers and child support agencies encourages parental responsibility, reduces taxpayer costs for public assistance and helps families provide for their children.

Cash, check payments

Self-employed parents or those not paying through income withholding send their child support to the payment center by check, cashier's check, money order or automatic-recurring withdrawals. In FFY 2023, \$72.8 million, 14% of collections, were paid by these methods.

Other states

Child support provides services to many families with complex and changing needs. Promises of increased income opportunities and job availability may influence a parent's decision to move to and from Minnesota while child support services continue. For parents who owe support and work outside of Minnesota, other states and countries collected \$33.9 million, 6.5% of collections, of child support in FFY 2023.

Other sources

Sometimes child support obligations go unpaid or are collected only when child support workers enforce orders. In addition to enforcement methods below, parents who do not comply with their child support orders may be denied approval or renewal of a passport, reported to a credit bureau, subjected to civil contempt proceedings, charged with criminal nonsupport or have their driver's license suspended.

The remaining payment sources include:

- \$19.2 million, 3.7% from intercepts of federal tax refunds
- \$12.7 million, 2.4% from withholdings from Unemployment Insurance
- \$8.4 million, 1.6% from intercepts of state tax refunds.

On page 48, the Collections – sources table breaks down payment sources per county.

Initiatives

Child support legislation passed in 2023

Gov. Tim Walz and the Minnesota Legislature passed important legislation to improve Minnesota's child support program including:

- Reforming the driver's license suspension enforcement remedy to better target suspension for parents unwilling to pay, rather than for those who are unable to pay
- Updating medical support provisions to help lower-income parents with children eligible for Medical Assistance, clarify standards for affordability of health care coverage and provide for more equitable treatment between parents
- Adjusting Minnesota's child support guidelines to provide relief for parents who receive General Assistance, Supplemental Security Income or Minnesota Family Investment Program cash benefits
- Funding to review Minnesota's child support guidelines to guide future improvements when courts determine child support payment amounts
- Funding to modernize Minnesota's child support case management system, including Minnesota Child Support Online, a secure website where parents can get up-to-date case information 24 hours a day and seven days a week
- Creating the Department of Children, Youth and Families to improve coordination, engagement and culturally- and individually-responsive programs that meet children's needs throughout their development.

Equity initiatives

- Minnesota's Child Support Division received a \$3.9 million award from the federal Administration for Children and Families to assess equity in the child support program by examining disproportional access to services, order alignment with parents' ability to pay and best practices
- The Child Support Advisory Board Equity Committee (ABEC) continued working to embed equity into program policies and practices, mitigate bias and improve access and outcomes for families
- The Child Support Division started offering diversity, equity and inclusion trainings for county child support staff to help the program best serve families and create workplaces where employees can thrive.

Federal innovation grants

- Minnesota's child support program started work on the Safe Access for Victims' Economic Security (SAVES) grant to increase safe access to child support and related parenting time services for victims and survivors of domestic violence. A foundational component of Safe Access for Victims' Economic Security (SAVES) is close collaboration and partnership with community, state, Tribal and national experts and engagement of individuals with lived experience to ensure child support and parenting services align with the broader response to domestic violence
- The Child Support Division continued developing pre-parenthood curricula to prepare justice-involved youth and young adults, and Tribal and indigenous youth and young adults, for the financial, emotional and legal realities of being a parent for the Paths to Parenthood grant.

Intergovernmental cases

Approximately one of every seven child support cases involve parents who live in another state. Cases are intergovernmental when one party lives in a jurisdiction different from the other, when a child support order is from a jurisdiction other than the one where both parties live, or when more than one child support order is covering the same parties. Provisions of the Uniform Interstate Family Support Act (UIFSA) govern intergovernmental child support cases. Provisions of UIFSA 2008 were adopted by every state.

Of 87 Minnesota counties, 35 share a border with another jurisdiction. Working on cases that cross jurisdiction borders continue to be essential services provided by the child support program. By law, although each state has its independent court system with varying laws, policies and procedures, agency staff must cooperate in handling requests for assistance. When a Minnesota agency requests assistance from another jurisdiction for child support services, it is referred to as an initiating case. Alternatively, when an agency in another jurisdiction asks Minnesota for assistance, the case is referred to as a responding case. Minnesota's child support program demonstrates achievement in intergovernmental case establishment and collections.

Initiating cases

There were 16,307 initiating intergovernmental cases open in Minnesota in FFY 2023; of those, 14,952 had a child support order. Data shows an intergovernmental initiating ratio of 91.69% of cases with an order established either prior to or after Minnesota initiated to another jurisdiction.

For intergovernmental cases where Minnesota is the initiating state, the average case with a child support order collected \$2,887.70 in FFY 2023.

A photograph of a man with dark skin and short hair, wearing a grey shirt, holding a sleeping baby in a white onesie. The man is looking down at the baby with a gentle expression. The background is softly blurred, showing some warm-toned lights.

The child support program helps parents establish a financial partnership by offering services for children to receive basic financial, medical and child care support.

Responding cases

In FFY 2023, there were 7,190 open intergovernmental cases where Minnesota was responding to another jurisdiction; of those, 6,809 had a child support order. This is a high establishment percentage for intergovernmental responding cases at 94.70%.

For intergovernmental cases where Minnesota is the responding state, the average case with a child support order collected \$3,406.09 in FFY 2023.

On page 45, the Collections to and from other states table displays how much money each county distributes to other states, how much is received from other states and size of initiating and responding caseloads.

Guide and introduction to performance data

Calculations

The 2023 Child Support Performance Report highlights accomplishments and presents program performance measures for FFY 2023. It reports the most recent data showing statewide and individual county performance, and a five-year history of the five federal performance measures. The division participates in the federal incentive funding system based on program performance, as required by the Personal Responsibility and Work Opportunity Act of 1996. The federal office evaluates states competing for federal incentive funds based on five federal performance measures. The five measures are:

Paternities established – the number of open Title IV-D cases with paternity established during the federal fiscal year divided by the number of children in open Title IV-D cases born outside of marriage during the prior federal fiscal year.

Child support orders established – the number of cases open at the end of the federal fiscal year with support orders established divided by the number of cases open at the end of the federal fiscal year.

Collections on current support – the total amount of support disbursed as current support during the federal fiscal year divided by the total amount of current support due for the federal fiscal year.

Collections on arrears – the number of total cases with support disbursed as arrears during the federal fiscal year divided by the number of total cases with arrearages due during the federal fiscal year.

Program cost effectiveness – for the federal fiscal year, the amount of collections forwarded to other states plus total collections disbursed, including fees retained by other states divided by total Title IV-D dollars expended during the federal fiscal year.

Calculating performance measures

Paternities established	Children in open Title IV-D cases with paternity established ¹ ÷ children in open Title IV-D cases born outside of marriage ¹ in previous year
Orders established	Cases open at the end of fiscal year with support orders established ² ÷ cases open at end of fiscal year ²
Collections on current support	Total amount of support disbursed as current support during fiscal year ² ÷ total amount of current support due for the fiscal year ²
Collections on arrears	Total cases with support disbursed as arrears during fiscal year ² ÷ total cases with arrearages due during fiscal year ²
Cost effectiveness	Collections forwarded to other states + total collections disbursed + fees retained by other states ³ ÷ total Title IV-D dollars expended ⁴

Sources: ¹QQ320920, ²QQ320921, ³QQ640201, ⁴Department of Human Services Financial Operations Division Report

Distribution is the identification and allocation or apportionment of a support collection to current and past-due support, as applicable, of a specific case or individual. Disbursement is the actual process of dispensing or paying out the collection. [AT-20-06 OCSE 157 Instructions]

Unlike other performance measures, OCSS allows state agencies to choose between two methods of reporting paternity establishment percentages. One method uses all children born in the state. The second

method, which is used by Minnesota, uses only children in the Title IV-D state system. Both methods involve paternities and births that span more than one 12-month period. The paternities established by child support workers during the federal fiscal year, therefore, are not necessarily for the same children born of non-marital births in the same federal fiscal year. This explains why some states have a paternity establishment percentage exceeding 100%. For the federal performance incentive, Minnesota's percentage is 96.58 for FFY 2023.

Federal incentives

States are able to maximize federal incentives by reaching performance thresholds on each of the five measures. Minnesota maximized its federal incentives on two of five measures: Paternity establishment, at 96.58%, and order establishment at 85.72%. Minnesota has opportunities to earn additional incentives based on collections, which maximize at 80% and cost effectiveness at \$5.00. For FFY 2023, collections on current support were 73.39%, collections on cases with arrears were 69.58% and cost effectiveness at \$2.68.

The federal government matches 66% of state and county spending. It also provides funding based on performance, outcomes and collection base, which the division passes on to county agencies. Division staff

Minnesota's child support program benefits children by helping families work toward becoming and remaining self-sufficient, ensuring parents establish a financial partnership.

determines a county's share using the same methodology that the federal office uses for states. County agencies are required to reinvest incentives in the Title IV-D program.

Secure, accurate and reliable data is critical to the child support program's success and funding. In addition to meeting the federal office's performance standards, a state's data must meet a 95% reliability standard, which means data is sufficiently complete and error-free. Federal auditors assess completeness, reliability and security of data, as well as accuracy of reporting systems used in calculating performance measures.

Failure to meet any of the five federal performance standards, or the 95% data reliability standard, puts a state program at risk. Failure can mean loss of eligibility for incentive funds and the possibility of incurring significant penalties to the Temporary Assistance for Needy Families (TANF) grant — the Minnesota Family Investment Program (MFIP) — if there is no improvement during the corrective action year.

If a state falls below one or more of the performance measures, or does not meet data reliability criteria, the federal office imposes an automatic corrective action period of one year. If no corrections are made during that year, the federal office imposes a penalty at the end of the year, which reduces payments by 1% to 2% of the state TANF grant for the first finding, 2% to 3% for the second consecutive finding and 3% to 5% for the third and subsequent consecutive findings. Total penalties may not exceed 25% of a state's TANF grant.

Historically, Minnesota has performed well in federal audits. The federal office's annual Data Reliability Audit validates that the performance and financial reporting is accurately reflected in review of the child support system. Minnesota has not had a corrective action or penalty in any of its audits regarding data reliability.

Performance relative to other states

To illustrate how Minnesota compares to other states, the most recent national data is included in report tables. Federal ranking is based on FFY 2022 data; Minnesota ranked fifth for collections on current support nationally. National information is available online from the federal office. The table below shows Minnesota's performance measures for FFY 2022 compared to the four bordering states.

Federal performance measures FFY 2022 Border state comparison					
	MN	IA	ND	SD	WI
Paternities established	97.8%	90.3%	108.7%	99%	98%
Orders established	85.8%	94.6%	90.1%	92.7%	85.3%
Collections on current	72.6%	71.1%	75.9%	63.4%	73.7%
Collections on arrears	70.4%	68.3%	67.3%	61.6%	69.4%
Cost effectiveness	\$2.91	\$5.47	\$6.31	\$10.30	\$5.96

Funding

The federal office provides funding to states by matching qualifying expenditures, basing funding on performance, outcomes and the state's collection base. The collection base is the baseline of the incentive structure. Once established, the federal office applies performance on the five federal performance measures to the collection base for a national total, and awards each state a prorated portion of the total incentive pool. Dollars in the incentive pool are limited. Each state's share is affected by how every other state performs under the incentive formula.

Table tips

- Statewide data appears at the bottom of tables for convenient comparison on each page
- Statewide data figures include all county and Tribal shared interest case data
- A dash indicates no applicable data
- Merged county agencies are reported as follows:
 - Faribault-Martin is listed as one agency
 - Southwest Health and Human Services is listed as SWHHS (Lincoln, Lyon and Murray (LLM), with the addition of Rock on Jan. 1, 2012, and Pipestone and Redwood on Jan. 1, 2013)
 - Des Moines Valley (Cottonwood and Jackson merged on Jan. 1, 2014)
 - MNPrairie (Dodge, Steele and Waseca merged on Jan. 1, 2015)
 - Western Prairie Human Services is listed as WPHS (Grant and Pope merged on Jan. 1, 2022)
- Data sources are listed at the bottom of tables
- National data for state ranking is for FFY 2022

Spotlight on Minnesota Child Support in 2023

Payment stats

- Total dollar amount disbursed: **\$513,433,018**
- Total number of cases with payments: **117,852**
- CSPC payment statistics:
 - PayNearMe: **\$3,066,389**
with 8,320 payments –average \$369/payment
 - MoneyGram: **\$1,000,867**
with 1,931 payments – average \$518/payment

Supporting
206,649 brighter
