Dear Members of the Minnesota Legislature:

I am pleased to present Governor Walz's 2025 Infrastructure Plan. This capital budget makes critical investments across the state, ensuring state facilities are well-maintained and communities thrive, while maintaining fiscal responsibility. The Infrastructure Plan focuses on preserving state infrastructure, water and transportation infrastructure, public safety, housing and the environment, and other projects that benefit communities across the state. The Governor's recommendation includes \$790 million in general obligation bonds and \$97 million in trunk highway cash.

The Governor's 2025 capital budget recommendations are posted on our website at <https://mn.gov/mmb/budget/capital-budget/current/>. It includes a summary listing of the Governor's recommendations by entity and project. Recommended projects that were submitted by agencies for the 2024 capital budget process and legislative session were updated with new inflationary estimates, as well as additional project information. Agency and local government requests from last year's capital budget process remain available on the MMB website, as submitted in 2024.

If you need additional information or assistance, please contact Hannah Millang on my staff at [Hannah.Millang@state.mn.us](mailto:Hannah.Millang@state.mn.us). I look forward to working with you on the capital budget during the 2025 Legislative Session.

Sincerely,

Erin Campbell, Commissioner
