AT A GLANCE

- The Supreme Court, consisting of seven members, is the highest court in Minnesota, serving as the final guardian of the Minnesota Constitution and interpreting and applying the United States Constitution.
- In 2023, 83 direct appeals and 560 petitions for further review were filed with the Supreme Court.
- The Chief Justice is the administrative head of the Judicial Branch, which includes 322 justices and judges and 2,500 employees.
- The Supreme Court serves all Minnesota citizens.

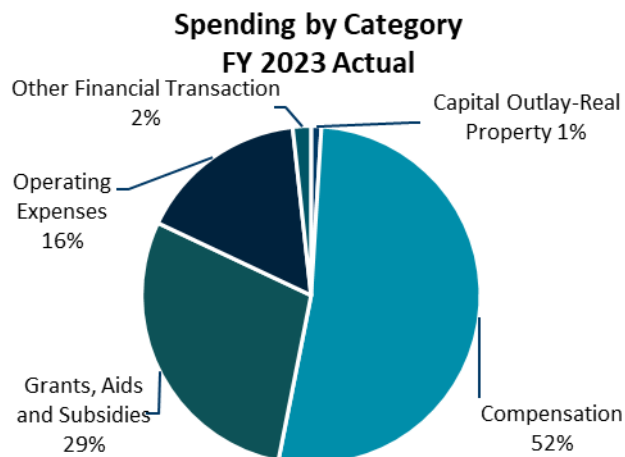

PURPOSE

The mission of the Judicial Branch is to provide justice through a system that assures equal access for the fair and timely resolution of cases and controversies.

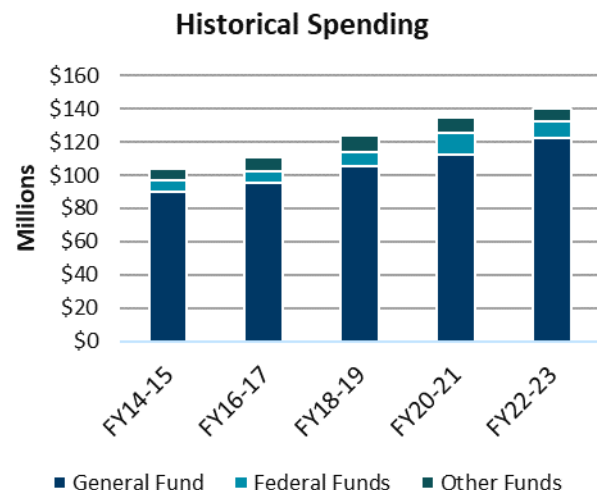

The Minnesota Supreme Court has original jurisdiction in remedial cases as prescribed by law, appellate jurisdiction over all cases, and supervisory jurisdiction over all courts in the state. Election contests and appeals for first-degree murder cases are automatically appealed to the Supreme Court. The Minnesota Supreme Court is solely responsible for the regulation of the practice of law and for judicial and lawyer discipline. The Court also promulgates rules of practice and procedure for the legal system in the state.

The Chief Justice is responsible for supervising administrative operations of the state court system.

BUDGET

Source: Budget Planning & Analysis System (BPAS)

Source: Consolidated Fund Statement

The Supreme Court spent \$74 million in fiscal year (FY) 2023. Of this amount, \$65 million (88 percent) was from general fund appropriations. The remaining \$9 million (12 percent) was funded through various sources, such as federal and local government grants, interest on lawyers' trust accounts, and fees. Due to legislative action, the Board of Civil Legal Aid will become a new, independent agency on July 1, 2025 (beginning of FY 2026). Currently part of the Supreme Court, those Civil Legal Services expenditures are included in the historical budget data charts.

STRATEGIES

As the state's highest court, the Supreme Court hears oral arguments in the State Capitol Courtroom and the Minnesota Judicial Center. The Supreme Court reviews matters on certiorari, meaning it reviews cases to set precedent, to clarify legal issues, to resolve statutory conflicts, and to answer constitutional questions. The Supreme Court considers appeals from judgments from the Court of Appeals, the Workers Compensation Court of Appeals, and the Tax Court. It hears special term matters, motions, and petitions for extraordinary relief. The Supreme Court also hears mandatory cases, including first degree murder convictions and election contests. The Court promulgates rules of practice and procedure for the legal system in the state.

In addition to hearing appeals, the Supreme Court is responsible for regulating the practice of law and making recommendations for improvement of the judicial system.

The Chief Justice is responsible for supervising administrative operations of the state court system. The Chief Justice is assisted by the State Court Administrator's Office, which provides the administrative infrastructure for the Judicial Branch, including providing finance, human resources, technology, education, communications, research and evaluation, caseload management and cross-district judicial assignments. The Chief Justice serves as chair of the Judicial Council, the policy-making entity for the Judicial Branch.

The Supreme Court conducts its administrative functions in support of three strategic goals to deliver its mission:

- Access to Justice - A justice system that is open, affordable, understandable, and provides appropriate levels of service to all users.
- Ensuring access to justice for all is an enduring commitment for Minnesota's court system. It is also an increasingly challenging concern given changing court customer expectations, shifting demographics, and increased competition for scarce resources.
- Effective Administration of Justice - *A justice system that adopts approaches and processes for the fair and just resolution of all cases.*
Over the last two decades, Minnesota courts have worked diligently to become increasingly efficient and effective. The Judicial Branch is focused on being a well-managed court system that seeks innovative ways to promote justice for individual litigants in individual cases.
- Public Trust and Accountability - *A justice system that engenders public trust and confidence through impartial decision-making and accountability for the use of public resources.*
The Judicial Branch is accountable to the public. It is critical that the Judicial Branch maintain and continuously improve public trust and accountability, and it must meet this challenge by collaborating with court customers to eliminate disparities in the court system.

The Judicial Council conducts a rigorous strategic planning process that guides the work of the State Court Administrator's Office in support of the Judicial Branch's three strategic goals. The strategic plan is reviewed and updated biennially.

In recent years, as part of the Judicial Council's strategic planning, the Minnesota Judicial Branch has engaged in a reform agenda to modernize and re-engineer the work of Minnesota's courts. These efforts have made Minnesota's court system more efficient and more convenient for court users, while increasing access to court records for customers and the public.

- Between 2012 and 2016, the eCourtMN Initiative transitioned Minnesota from paper-based court files to electronic case records. This transformation has made the work of Minnesota's courts more efficient, increased convenience for court users, enhanced information sharing between the state's justice partners, and greatly expanded access to court records and information.

- Following the successful eCourtMN Initiative, the Minnesota Judicial Branch worked to leverage the electronic case record to streamline and enhance court administration processes, and adopted the oneCourtMN Vision to deliver “high-quality, consistent, and convenient court administration services anywhere in the state.”
- In order to maintain access to justice during the COVID-19 pandemic, Minnesota courts transitioned the vast majority of court hearings to online courtrooms. While this transition was borne out of necessity, it quickly became clear that attorneys, litigants, and other court users often preferred the ease and convenience of conducting their official court business online.
- In 2022, the Minnesota Judicial Branch became one of the first court systems in the nation to commit to the long-term use of remote (online) district court hearings. The Minnesota Judicial Council adopted the oneCourtMN Hearings Initiative Policy, which set a temporary framework for how district courts would use both in-person and remote hearings to deliver timely and efficient access to justice.
- In 2024, the Minnesota Judicial Council adopted a new, permanent hearing framework for how district courts will use both in-person and remote hearings going forward. This new framework will take effect in February 2025.

RESULTS

It is the policy of the Minnesota Judicial Branch to establish core performance goals and to monitor key results that measure progress toward meeting these goals in order to ensure accountability of the Judicial Branch, improve overall operations of the court and enhance the public’s trust and confidence in the Judiciary. Throughout the year, the Supreme Court reviews performance measure results. This review is shared with the Judicial Council (the Judicial Branch’s governing body) twice a year.

The Supreme Court timing objectives identify the Court’s performance based on the case type: mandatory/original cases (e.g., First Degree Murder cases and election contests); discretionary cases (e.g., appeals from judgments from the Court of Appeals, the Workers Compensation Court of Appeals, and the Tax Court); and expedited cases (appeals in termination of parental rights and adoption cases).

Measure name	Measure type	Measure data source	Historical trend	Most recent data
Mandatory/Original Cases Ninety five percent of the cases will be disposed of within 180 days of submission to the Supreme Court.	Result	The number of cases that met the timing objective.	81 percent of 58 cases in 2022 and 81 percent of 57 cases in 2023 met the timing objective.	81 percent in 2023
Discretionary Cases Ninety five percent of petitions for further review should be disposed of within sixty days of the filing of the request for review.	Result	The number of cases that met the timing objective.	There was a decrease from 83 percent of 373 cases in 2022 to 56 percent of 285 cases that met the timing objective.	56 percent in 2023

Measure name	Measure type	Measure data source	Historical trend	Most recent data
Expedited Cases Ninety five percent of expedited appeals (termination of parental rights, adoptions) should be disposed of within 25 days of filing the appeal.	Result	The number of cases that met the timing objective.	There was an increase from 94 percent of 15 cases in 2022 to 100 percent of 15 cases that met the timing objective.	100 percent in 2023

FTEs	0	0	0	0

Recommendation:

The Governor recommends additional funding of \$938,000 in FY 2026 and \$1,899,000 in each subsequent year from the general fund to help address operating cost increases at the Supreme Court.

Rationale/Background:

The cost of operations rises each year due to increases in employer-paid health care contributions, FICA and Medicare, along with other salary and compensation-related costs. Other operating costs, like rent and lease, fuel and utilities, and IT and legal services also grow. This cost growth puts pressure on operating budgets that remain flat year to year. The Supreme Court faces challenging decisions to manage these rising costs within existing budgets, while maintaining the services Minnesotans expect. This recommendation provides additional resources to help address these cost pressures and pay for operations.

The Supreme Court requests funding for salary increases and the employer share of health insurance increases. The Judicial Branch does not negotiate its own insurance agreements – it participates in the general plan negotiated by Minnesota Management and Budget. The Supreme Court also requests funding for the increased cost of leasing office space in the Minnesota Judicial Center. This request is sought to support the core mission and services of the Supreme Court.

Proposal:

The Governor recommends increasing operating budgets to support current services. For the Supreme Court, this funding will help cover expected growth in employee compensation and insurance, lease costs, and other operating costs.

Narrative

In FY2026 and FY2027 the Supreme Court will continue to receive federal funding for Child Support and the Court Improvement Program. The Order for Protection database grant ended in FY2014 and was replaced by the Stop Violence Against Women Act for a Point of Contact position grant. This grant has a state match of approximately 30%. The Expedited Child Support Program funds magistrates, personnel, and operating costs. The Expedited Child Support Program receives federal reimbursement at a rate of 66% for eligible expenditures, so less spending with state appropriated dollars would result in a proportionate decrease in federal reimbursement. The Court Improvement Program improves the processing of child protection cases and the outcomes for abused and neglected children.

Supreme Court

Federal Funds Summary

(Dollars in Thousands)

Estimates were based on past funding. The ACL Elder Justice Innovation Grant was awarded to support the development and advancement of new and emerging issues related to elder justice. DHHS Adm for Children and Families State Tribal Partnership Grant is a 5 year grant with the purpose of fostering collaboration among multidisciplinary teams to improve outcomes for American Indian families. DHS Title IV-E Foster Care Program Grant will help to support partnership agencies with staff training. Grants that will be ending did not include revenue projected past the end date.
