LETTER FROM THE PRESIDENT

Dear colleagues, friends and partners,

I have spent the better part of my presidency listening to and learning from people across our state, nation and world, and through these conversations, I am continuously reminded of what makes the University of Minnesota so exceptional.

We are one of the largest public research universities in the country, and yet our students, faculty and staff maintain a steadfast commitment to the success of people and communities across Minnesota. Our work is reflected in every county throughout the state, and we will remain focused on ensuring a bright, healthy and prosperous future for Minnesota for generations to come.

Our enrollment numbers continue to flourish, as we welcomed more than 10,000 new students to our U of M community this fall — two-thirds of whom hail from within the great state of Minnesota. As a University, we will continue to prioritize an accessible, world-class education for students across Minnesota and beyond.

The University's research enterprise also continues to thrive, with more than \$1 billion in total research expenditures across our five campuses. This allows our researchers to generate new knowledge and develop innovative technologies that address some of the greatest challenges plaguing our communities.

As part of this year's University Performance and Accountability Report, I am pleased to share some of the many ways in which our five-campus system is pushing the boundaries of research and discovery, transforming teaching and learning, and strengthening community outreach.

Sincerely,

Rebecca Cunningham
President
