Subject: Annual Workforce Housing Development Program Report

Pursuant to Minnesota Statutes 462A.39, Subdivision 6, Minnesota Housing is required to report on the projects that receive funding under the Workforce Housing Development Program.

Summary of Program

This program awards deferred loans to small and mid-sized Greater Minnesota communities with workforce market rate rental housing needs. Among other considerations the program's statute requires vacancy rates to be five percent or less for at least the prior two-year period, one or more businesses to indicate that the lack of available rental housing has impeded their ability to recruit and hire employees, and local matching funds. The on-going base funding for the program is \$4 million and the 2023 the Legislature appropriated a one-time increase of \$35 million for FY 2024-25.

Since 2017 the program has awarded more than \$50 million in resources to build more than 1,500 units in Greater Minnesota.

2024 RFP Update

Minnesota Housing advertised up to \$39 million in available funding for the 2024 Workforce Housing Development Program Request for Proposals (RFP), which is the total biennial appropriation for FY 2024-25. The RFP closed on April 30, 2024 and the agency received 48

applications for a total request of nearly \$96 million. Ultimately, twenty-seven projects were selected totaling just over \$38.5 million.

For comparison, the last RFP in 2021 advertised up to \$4 million in funding and received 23 applications requesting a total of \$18 million, and the Agency was able to select 10 projects.

Program Resources and Outreach

Staff updated all program materials and resources to match the 2023 legislative changes in and other program updates in 2024. Select materials are available on the [Workforce Housing Development Program webpage](#).

Minnesota Housing provided several outreach opportunities in the past year, including:

- Provided project-specific technical assistance to interested applicants.
- Presented information on the program at the Affordable Housing Summit in May.
- Co hosted housing meetings in Winona, East Grand Forks and Brainerd to market the Workforce Housing Development Program.
- Provided information on the program at Minnesota Housing’s Emerging Developer/Developers of Color Engagement Session in March
- Presented information at the Sherburne County Resource event in March.
- Provided information on the program at a Hinckley Tribal Housing event in April.
- Provided information on the program to the Ramsey County NEOO Partners Emerging Diverse Developer Cohort in September.

Summary of Funding Selections

To date, the program has deployed over \$50.7 million in resources adding over 1,500 new market rate rental units to communities across Greater Minnesota, inclusive of units available for occupancy and units in the development pipeline. Over two-thirds of the developments selected are in communities with populations less than 5,000, which is a policy priority for the program. The program also prioritizes smaller size developments.

RFP Year	City	Award Amount	Number of Units
2024	Aitkin	\$495,000	44
2024	Alexandria	\$3,062,000	64
2024	Atwater	\$360,000	4
