Legislative Charge

[Minnesota Statutes 2024, section 120B.13, subdivision 4](#), reads as follows:

- (a) The commissioner shall submit the following information on rigorous course taking, disaggregated by student subgroup, school district, and postsecondary institution, to the education committees of the legislature each year by July 1, 2025, and each subsequent year by July 1:
- (1) the number of pupils enrolled in postsecondary enrollment options under section 124D.09, including concurrent enrollment, career and technical education courses offered as a concurrent enrollment course, advanced placement, and international baccalaureate courses in each school district;
 - (2) the number of teachers in each district attending training programs offered by the college board, International Baccalaureate North America, Inc., or Minnesota concurrent enrollment programs;
 - (3) the number of teachers in each district participating in support programs;
 - (4) recent trends in the field of postsecondary enrollment options under section 124D.09, including concurrent enrollment, advanced placement, and international baccalaureate programs;
 - (5) expenditures for each category in this section and under sections 124D.09 and 124D.091, including career and technical education courses offered as a concurrent enrollment course; and
 - (6) other recommendations for the state program or the postsecondary enrollment options under section 124D.09, including concurrent enrollment.
- (b) The commissioner must include data from the 2022-2023 and 2023-2024 school years in the report due July 1, 2025.

[Minnesota Statutes 2024, section 124D.09](#): Postsecondary Enrollment Options Act

Executive Summary

The Minnesota Legislature has long supported the Advanced Placement (AP), International Baccalaureate (IB), Postsecondary Enrollment Options (PSEO), and Concurrent Enrollment programs through legislation to expand access and specific appropriations to support schools, educators, and students. These rigorous course programs provide Minnesota students with college-level learning opportunities in high school, offer preparation for postsecondary success, and allow students to earn college credit before graduation.

This report presents data trends from 2022 to 2024 and includes student participation and fiscal expenditure data for the 2022–23 and 2023–24 school years. Overall participation increased across all four programs. AP exam participation rose by 12%, and IB exam participation increased by 4% in 2023–24. New training arrangements led to higher expenditures for teacher preparation, with a 17% increase for AP and a 51% increase for IB. Of the \$4.5 million annual appropriation, \$3.79 million was expended.

Participation in state-paid PSEO grew significantly, increasing by 20% since fiscal year (FY) 2022, with total state expenditures rising by 21% to \$48.6 million. Concurrent enrollment also experienced modest growth (8%), with 35,261 students from 336 districts and charter schools generating 82,689 course enrollments. Due to this growth, the prorated reimbursement rate to districts and schools decreased by 9% to \$48.37 per student per course.

Notably, students of color and American Indian students saw substantial increases in participation across all rigorous course programs. The most significant growth occurred in PSEO (+29%) and AP exams (+20%) between 2022 and 2024. Black or African American students experienced the highest growth rates in both programs, with a 33% increase in PSEO and 28% in AP. Hispanic or Latino students also showed steady gains, particularly in PSEO, IB, and concurrent enrollment. Despite these improvements, underrepresentation persists for several student groups, especially in concurrent enrollment. Participation by students eligible for educational benefits also grew markedly, with a 50% increase in PSEO and 43% in concurrent enrollment.

While funding is allocated through a pass-through model, the Minnesota Department of Education (MDE) continues to support program quality and equitable access through technical assistance, professional development, and collaboration with schools and strategic partners.

Introduction

Rigorous course participation in high school—including Advanced Placement (AP), International Baccalaureate (IB), Postsecondary Enrollment Options (PSEO), and Concurrent Enrollment—has been shown to improve academic outcomes, increase college enrollment and persistence, and provide students with early exposure to college-level learning.¹ These programs offer Minnesota students the opportunity to earn college credit while still in high school, either through standardized exams or by completing college-level coursework.

¹ Hughes, Katherine L., Olga Rodriguez, and Clive Belfield. "Broadening the Benefits of Dual Enrollment: Reaching Underachieving and Underrepresented Students with Career-Focused Programs." *Education Sciences*, vol. 8, no. 4, 2018, p. 191. MDPI, <https://www.mdpi.com/2227-7102/8/4/191>

Minnesota has a long-standing commitment to expanding access to rigorous courses. The state pioneered dual enrollment policy with the Postsecondary Enrollment Options Act and has since maintained financial support for AP, IB, and Concurrent Enrollment programs. This includes funding for student exam fees, teacher training, and district reimbursement. These efforts are designed to promote equitable access and ensure program quality across the state.

This report analyzes participation and expenditure trends from fiscal years 2023 and 2024. It highlights notable growth in student engagement—particularly among students of color and those eligible for educational benefits—as well as changes in program funding and delivery. The findings are intended to inform ongoing legislative decisions and policy development related to rigorous course programming in Minnesota.

Analysis

Advanced Placement (AP) Program

The AP Program is a cooperative educational endeavor between secondary schools and colleges and universities. Since its inception in 1955, the College Board Program has provided high school students with the opportunity to take college-level courses in a high school setting. The program consists of more than 35 college-level courses and standardized exams that assess proficiency in these courses. The College Board supports secondary schools by providing facilitated teacher training and a curriculum of high academic intensity and quality that enables students to meet the standards for college-level learning in these subjects.

Advanced Placement is open to any secondary school that is willing to organize one or more courses, foster teacher development and administer the AP exams. All AP exams (except Studio Art, which is a portfolio assessment) consist of dozens of multiple-choice questions scored by machine, and free-response questions (essays, translations, problems), which are scored at the annual AP Reading by more than 10,000 college faculty and secondary AP teachers.

Participating colleges in more than 30 countries receive AP grades and grant credit or appropriate placement to students who have done well on AP examinations. More than 90% of U.S. colleges and universities have an AP policy granting incoming students academic credit, placement or both, for qualifying scores on AP exams. Minnesota State Colleges and Universities has adopted a policy establishing common practices among higher education institutions for awarding credit for scores of 3–5 on AP exams.

All schools wishing to designate a course as AP must first receive authorization for each course by completing the AP audit process, which involves submitting a copy of the course syllabus for review by college faculty. The AP course audit provides clear guidelines on curricular and resource requirements that must be in place and helps colleges better interpret courses marked as AP on students' transcripts.

[Visit the College Board website for more information about the Advanced Placement Program.](#)

AP Course Participation

Public schools and districts report AP course participation to the Minnesota Common Course Catalogue (MCCC), a statewide system for classifying and tracking courses taught and completed in Minnesota. In 2024, 24,506 public school students were reported as enrolled in AP courses. However, this reflects a notable decline (-28% from 2022), largely due to technical issues tied to a change in how districts submitted data to MCCC. As a result, FY24 AP course-taking data is not directly comparable to previous or future years.

Despite the overall drop, students of color and American Indian students made up 32% of AP course participants in 2024, while White students accounted for 68%—a proportion slightly higher than their statewide high school enrollment of 63%. Female students continued to represent the majority of AP enrollees at 53%. Participation among students qualifying for educational benefits increased by 26% since 2022, indicating improved access for students from low-income backgrounds. Among racial and ethnic groups, American Indian or Alaska Native students and Other Indigenous Peoples saw modest but notable increases of 11% and 30%, respectively.

AP Course Participation – Public School Students by Demographic Group (FY22-FY24)

Demographic Group	FY22 Students	FY23 Students	FY24 Students	% of FY24 Total	% Change (FY22-FY24)
Gender					
Female	17,359	18,022	13,091	53%	-33%
Male	14,023	15,450	11,415	47%	-23%
Students who Qualify for Educational Benefits	4,219	6,897	5,733	23%	+26%
Students of Color and American Indian Students	8,637	9,839	7,821	32%	-10%
Race/Ethnicity					
American Indian or Alaska Native	347	377	392	2%	+11%
Asian	2,969	3,234	2,498	10%	-19%
Hispanic or Latino	1,924	2,335	1,788	7%	-8%
Black or African American	2,078	2,274	2,018	8%	-3%
Other Indigenous Peoples	7	8	10	< 1%	+30%
White	22,745	23,633	16,685	68%	-36%
Native Hawaiian or Pacific Islander	15	21	13	< 1%	-15%
Two or More Races	1,297	1,590	1,102	4%	-18%
Total Public School Students	31,382	33,472	24,506	--	-28%

AP Exam Participation

AP exam participation and performance data are collected annually by the College Board. The data reflects only public school students, as demographic information is linked through the Minnesota Automated Reporting Student System (MARSS), which does not include private or home school students. In 2024, a total of 39,092 public school students took 62,834 AP exams—an average of 1.6 exams per student. This marks a 12% increase in total exams taken since 2022.

Female students accounted for 50% of exams in 2024, maintaining a slight majority over male students, who experienced a greater rate of growth in participation (+15% compared to +8% for females).

Students of color and American Indian students saw the largest overall gains, with a 20% increase in exams taken since 2022. This group accounted for 32% of all AP exams in 2024—though still underrepresented compared to their 37% share of statewide high school enrollment. Within this group, Black or African American students showed the most significant growth in exam participation (+28%), while American Indian or Alaska Native students declined sharply (–68%), with this group comprising less than 1% of total exams.

Race/ethnicity and gender information for AP exam-takers is self-reported by students directly to the College Board. However, students do not provide information about their eligibility for educational benefits (such as free

or reduced-price lunch) when taking AP exams. To obtain educational benefits data, MDE uses a matching process within the Statewide Longitudinal Education Data System (SLEDs). Due to the timing of the SLEDs data load and the report deadline, information on students who qualify for educational benefits could not be included.

AP Exams Taken -- Public School Students, by Demographic Group (FY22-FY24)

Demographic Group	FY22 Exams	FY23 Exams	FY24 Exams	% of FY24 Exams	% Change (FY22-FY24)
Gender					
Female	28,879	30,266	31,518	50%	+8%
Male	25,684	28,850	30,365	48%	+15%
Students of Color and American Indian Students	15,840	18,130	19,847	32%	+20%
Race/Ethnicity					
American Indian or Alaska Native	257	187	153	< 1%	-68%
Asian	6,833	7,970	8,609	14%	+21%
Hispanic or Latino	3,233	3,810	4,184	7%	+23%
Black or African American	2,642	3,292	3,689	6%	+28%
White	37,053	38,836	40,403	64%	+8%
Native Hawaiian or Pacific Islander	24	24	31	< 1%	+23%
Two or More Races	2,851	3,027	3,181	5%	+10%

Total Exams	55,096	59,970	62,834	--	+12%

[For a comparison of AP Exam Participation vs. 9-12 Enrollment \(FY24\), refer to Appendix A.](#)

AP Exam Performance

An AP Exam score of three or higher (scale is 1-5) may translate into college credit or advanced standing once a student enters a postsecondary program.

2023

Of the 59,970 total AP exams taken, 67% earned a score of 3 or above, with an average score of 3.11. Disaggregated data reveals disparities in performance across racial and ethnic groups. Asian students had the highest rate of passing scores, with 72% of their exams earning a 3 or higher. In contrast, only 46% of exams taken by Black or African American students met this benchmark. Hispanic or Latino students and American Indian or Alaska Native students both had passing rates of 54%, while White students achieved a 70% passing rate.

2023 AP Exam Score Distribution and Performance Summary

Metric	Total Exams	Score of 1	Score of 2	Score of 3	Score of 4	Score of 5	% Scoring 3+

2024

In 2024, Minnesota students completed 62,834 AP exams, an increase from the previous year. Of those, 72% received a score of 3 or higher, up from 67% in 2023, suggesting notable improvement in overall performance. Minnesota average score was 3.26.

Disaggregated data shows Asian and White students had the highest success rates, with 75% of each group's exams scoring 3 or above.

In contrast, Black or African American students saw a modest increase, with 51% of exams earning a 3 or higher, compared to 46% in 2023. Hispanic or Latino students had a 57% pass rate, and American Indian or Alaska Native students held steady at 54%.

2024 AP Exam Score Distribution and Performance Summary

AP Expenditures

Since 2006, Minnesota has provided financial assistance for student exams and professional development for AP teachers. MDE Career and College Success Division administers funding for AP-related expenditures and maintains annual expenditure records. In 2024, total expenditures for AP exams and teacher training were \$2,961,708—an increase of 24% since 2022.

Minnesota AP Program Expenditures by Type (FY22-FY24)

Expenditure Category	FY22	FY23	FY24	% Change (FY22-FY24)
Exam Fee Subsidies	\$2,295,840	\$2,571,413	\$2,778,458	+17%
Teacher Training Reimbursements	\$152,120	\$145,875	\$183,250	+17%
Total Expenditures	\$2,247,960	\$2,717,288	\$2,961,708	+24%

The Minnesota legislature provides subsidies to all Minnesota public, private and home school students for AP exams. Students who demonstrate financial need qualify for a larger subsidy from the state, and benefit from a fee reduction by the College Board. The combination of state reimbursement and College Board reduction results in free AP exams for students who qualify for educational benefits and reduced-cost exams for other students.

The next table summarizes exam expenditures and rates for 2024, which includes exams taken by public, private and home school students. MDE pays the College Board directly for AP exams, instead of directly reimbursing each district or school. In 2024, exam expenditures totaled \$2,778,458 for 74,383 exams.

2024 AP Exam Subsidies and Counts by Exam Type and Student Eligibility

Student Group	Standard Exam Subsidy	# of Standard Exams	Capstone Exam Subsidy	# of Capstone Exams	Total Expenditures
Students who Qualify for Educational Benefits	\$53	8,852	\$101	78	\$477,034
Other Students	\$35	64,640	\$48	813	\$2,301,424
Totals	--	73,492	--	891	\$2,778,458

Each year, certified trainers provide in-depth AP teacher training nationwide. In Minnesota, state funding supports public and private school teachers attending AP Summer Institutes (APSI) at Augsburg University and out-of-state. In 2024, 246 teachers participated, with total training costs reaching \$183,250. Schools must follow MDE procedures to receive reimbursement after all training is complete. The table below outlines expenditures, payment methods, and rates.

2024 AP Teacher Training Rates and Expenditures by Training Type

Training Type	Payment Method	Rate per Teacher	In-Person: No. of Teachers	Online: No. of Teachers	Total Expenditures
Minnesota APSI (FY24, July 2023)	Reimbursed to Schools/Districts	In-Person: \$750 Online: \$650	2	17	\$13,585
Minnesota APSI (FY24, June 2024)	Paid directly to Augsburg University	In-Person: \$790* Online: \$685	126	96	\$165,900
Out-of-State APSI	Reimbursed to Schools/Districts	In-Person: \$775 Online: \$665	4	1	\$3,765
Totals	--	--	132	114	\$183,250

Note: For June 2024, MDE contracted Augsburg University to subsidize in-state APSI tuition. Partial reimbursements were also available for out-of-state APSI.

*Some APSI include lab fees, resulting in higher tuition.

[For AP Expenditures by District or School, refer to Appendix B.](#)

International Baccalaureate (IB) Programme

The International Baccalaureate (IB) Programme is a nonprofit, educational foundation established in 1968, offering four highly respected programs of international education that span the primary, middle and secondary school years. Schools must complete an extensive process to become authorized IB World Schools and offer IB programming, detailed below.

Primary Years Programme (PYP): The PYP is an inquiry-based, whole-school model for students in pre-K through fifth grade. It focuses on foundational academic skills, global awareness, and student-driven exploration.

Middle Years Programme (MYP): Serving students in grades six through 10, the MYP emphasizes interdisciplinary learning and real-world connections. It supports the development of skills and academic readiness for the DP and may be offered as a standalone or preparatory program.

Diploma Programme (DP): The DP is a rigorous, two-year international curriculum for high school students, offering exams across multiple academic disciplines. The DP is recognized by colleges and universities worldwide and helps students meet national or state graduation requirements. Exams are written, oral, and portfolio-based, and scored on a 1-7 scale. Students may take individual DP courses and exams to earn certificates or choose to pursue the full IB Diploma. Full diploma candidates must:

- Study six subjects, including at least three at the higher level (240 instructional hours over two years); standard level courses require 150 hours;
- Complete the Extended Essay (4,000-word research paper), Theory of Knowledge course (critical thinking), and 150 hours of community-action service, artistic and physical activities;
- Earn a minimum 24 points from subject exams.

Career-Related Programme (CP): The CP blends academic study with career-focused learning and is tailored for high school aged students. Students complete DP courses alongside technical or industry-aligned coursework to earn a Career Certificate. It can be offered in schools that do or do not host a full DP.

The IB Diploma is accepted as an admissions credential at more than 1,000 North American Colleges and in more than 100 countries. More than 90% of U.S. colleges and universities have an IB policy granting incoming students academic credit, placement or both, for qualifying grades or scores on IB exams. Minnesota State Colleges and Universities has adopted a policy establishing common practices among higher education institutions for awarding credit for scores of 4–7 in IB.

[Visit the International Baccalaureate website for more information about the IB Programs.](#)

Minnesota IB Schools

To become authorized, a school or district must go through five specific steps, including a feasibility study/strategic planning process – comprehensive school changes to curriculum, instruction, and professional development that occurs during the two-step application process. After this process has been completed,

schools undergo a site visit from the IB Americas. After a successful visit, the school then achieves the Authorized IB World School status. Follow-up visits are required to maintain IB authorization.

In 2024, 76 IB programs were in place in 53 IB-authorized Minnesota schools. Some schools implement multiple programs in the same building.

[For more information about authorized schools and programs, visit the Minnesota Association of IB World Schools \(MNIB\) website.](#)

IB Diploma Programme (DP) Course Participation

The data in this section summarizes student participation in the IB Diploma Programme available to 11th and 12th grade students, reported by the International Baccalaureate Organization (IBO) In 2024, 3,282 Minnesota public school students participated in the DP—marking a 6% increase since 2022. However, the number of students earning the full IB Diploma declined by 11%, with 221 diplomas awarded. Students may choose to take individual IB courses without pursuing the full IB diploma, which requires additional rigorous components. This flexible model may explain the contrast between rising participation and the decline in diploma attainment.

DP participation remained slightly higher among female students, who accounted for 56% of enrollees. Students eligible for educational benefits made up 20% of DP participants in 2024—a 23% increase from 2022.

Students of color and American Indian students represented 30% of DP enrollment. Notable gains were seen among American Indian and multiracial students. Participation among Asian and Black students slightly declined or remained stable.

DP Course Participation – Public School Students by Demographic Group (FY22-FY24)

Demographic Group	FY22 Students	FY23 Students	FY24 Students	% of FY24 Total	% Change (FY22-FY24)
Gender					
Female	1,807	1,908	1,830	56%	+1%
Male	1,277	1,426	1,452	44%	-2%
Students who Qualify for Educational Benefits	639	910	835	20%	+23%
Students of Color and American Indian Students	1,206	1,234	1,246	30%	+3%

White	1,878	1,878	2,036	62%	+8%

Demographic Group	FY22 Students	FY23 Students	FY24 Students	% of FY24 Total	% Change (FY22-FY24)
Native Hawaiian or Pacific Islander	3	3	3	<1%	0%
Two or More Races	142	153	172	5%	17%
Total Public School Students	3,085	3,335	3,283	--	+6%
Diplomas Earned	248	203	221	--	-12%

IB Exam Participation

Unlike the AP Program, which permits students to take an exam without enrolling in the corresponding course, students may only take an IB exam if they are enrolled in the associated IB course at an authorized school. Some IB components—such as the extended essay and Theory of Knowledge—are assessed using letter grades rather than the 1–7 numeric scoring scale. All exams are included in data, which is from the International Baccalaureate Organization (IBO).

In 2024, 11th and 12th grade Diploma Programme students took 7,538 IB exams—an increase of 4% since 2022, and an average of 2.3 exams per student. Female students accounted for 58% of all exams, though male student participation has increased by 13% over the same period. Students who qualify for educational benefits represented 23% of exam-takers, a 21% rise since 2022.

Racial and ethnic diversity among IB participants remained steady. Students of color and American Indian students made up 36% of exams in 2024, with notable increases among students identifying as Hispanic or Latino (+6%), Native Hawaiian or Pacific Islander (+14%), and Two or More Races (+23%). White students continued to represent the majority of exam-takers at 64%.

IB Exams Taken – Public School Students, by Demographic Group (FY22-FY24)

Demographic Group	FY22 Exams	FY23 Exams	FY24 Exams	% of FY24 Exams	% Change (FY22-FY24)
Gender

IB Exam Performance

An IB Exam score of four or higher (scale is 1-7) may translate into college credit or advanced standing once a student enters a postsecondary program.

2023

Of the 6,005 total IB exams taken in 2023, 65% earned a score of 4 or above, with performance varying across demographic groups. White students achieved the highest overall success rate, with 71% of their exams scoring 4 or higher. In contrast, 38% of exams taken by Black or African American students earned a score of 4 or above.

2023 IB Exam Performance by Demographic Group (Scores of 4 and above)

Demographic Group	Score of 4	Score of 5	Score of 6	Score of 7	Total Scoring 4+	Total Exams	% Scoring 4+
Race/Ethnicity							
American Indian or Alaska Native	24	12	1	1	38	70	54%

2024

Of the 5,975 total IB exams taken in 2024, 66% earned a score of 4 or above. Performance differences among demographic groups remained notable. White students had the highest success rate at 72%. Black or African American students improved performance by 5 percentage points from 2023, but continued to face the largest performance gap, with only 43% of exams scoring 4 or higher.

IB Expenditures

Minnesota supports International Baccalaureate (IB) programs by covering a portion of exam fees for students and reimbursing schools and districts for IB teacher training activities. These expenditures are administered by the MDE Career and College Success Division, which maintains annual records of IB-related spending. In 2024, Minnesota's total IB program expenditures for exams and teacher training reached \$827,101, marking a 24% increase since 2022.

Minnesota IB Program Expenditures by Type (FY22-FY24)

Expenditure Category	FY22	FY23	FY24	% Change (FY22-FY24)
Exam Fee Reimbursements	\$493,853	\$507,093	\$553,521	+11%
Teacher Training Reimbursements	\$134,185	\$188,439	\$273,580	+51%
Total Expenditures	\$628,038	\$695,532	\$827,101	+24%

Minnesota provides exam fee subsidies to both public and private school students taking IB exams. Students who demonstrate financial need receive a full subsidy (\$119 per exam), while all other students receive a 50% subsidy (\$60 per exam). In 2024, \$553,521 was spent on IB exam fee reimbursements.

IB teacher training is conducted annually by certified IB trainers, both in-state and out-of-state. In 2024, 990 teachers attended IB training, totaling \$273,580 in expenditures—a 51% increase from 2022 to 2024. A subset of teachers (459) also attended MDE-subsidized in-state workshops or IBO trainings through the Minnesota Association of IB World Schools (MNIB), totaling \$68,000 in expenditures. Reimbursements were also provided for teachers participating in out-of-state training opportunities.

MDE reimburses authorized IB public school districts, charter schools, and private schools for approved exam and training costs. Schools must follow MDE's established procedures to receive reimbursement after all exams and training is completed.

[For IB Expenditures by District or School, refer to Appendix C.](#)

Postsecondary Enrollment Options (PSEO) Program

Minnesota became the first state in the nation to pass legislation to support course-taking at the postsecondary level by eligible high school juniors and seniors. The PSEO program allows high school students to enroll in courses taught by college instructors on college campuses with each participating postsecondary institution setting its own enrollment requirements for admission. The program provides students with a greater variety of class offerings and the opportunity to pursue more challenging coursework than may be available at the high school. Students may enroll in PSEO courses on a part-time or full-time basis.

PSEO allows high school students to earn college credit at no cost and, after graduation from high school, to potentially enter postsecondary institutions with some course requirements already met. The postsecondary institutions generate a separate college transcript with their college courses and grades for the participating high school students. Any public, nonpublic, home school or American Indian-controlled tribal contract or grant student classified as a 10th-, 11th- or 12th-grader and accepted by a postsecondary institution may enroll in nonsectarian courses or programs at that postsecondary institution. Other course limitations may apply depending on grade level.

Eligible institutions include the University of Minnesota and its branches; all state universities, community colleges and technical colleges; private, Minnesota, two- or four-year, residential, degree granting, liberal arts colleges; nonprofit, degree-granting trade schools; or accredited opportunities industrialization centers in Minnesota.

PSEO State-Approved Early/Middle College Programs

Legislation provides the opportunity to use PSEO funding for developmental coursework when a student who is enrolled in the graduation incentives program enrolls full-time in an Early/Middle College Program. This program model is a partnership between a State-Approved Alternative Program (SAAP) and an eligible postsecondary institution, which is specifically designed to offer well-defined pathways to postsecondary degrees and/or credentials. Students engaged in these programs can earn dual credit with intentional academic and wraparound supports offered by the partnership.

[For more information about this unique program, visit the MDE Early/Middle College webpage.](#)

PSEO Funding

The PSEO program is funded through legislative direction under [Minnesota Statutes 2024, section 124D.09](#). There is no cost to students for tuition and materials required for PSEO coursework. For state-paid PSEO, funding flows from the state directly to enrolling postsecondary institutions for eligible courses.

Direct contract partnerships exist between high schools and postsecondary institutions to offer PSEO and are allowable per [Minnesota Statutes 2024, section 124D.09, subdivision 10 and 16](#). These arrangements, referred to by statute language as courses according to agreements, are commonly known as “PSEO by Contract” or “Direct Pay PSEO.” Because these contracts and fiscal arrangements are between high schools and postsecondary institutions, course taking data is reported by districts and charter schools to the Minnesota Common Course Catalog (MCCC). MDE is working on policies and procedures to obtain accurate student participation, course and credit data. Despite making progress, the information obtained for FY24 was limited and did not warrant inclusion in this report.

Additional funding is available to help pay transportation expenses for PSEO students whose families are at or below the poverty level, as determined by the federal government, to participate in the program.

State-Paid PSEO Program Participation

PSEO participation and demographic data are collected annually by the MDE School Finance Division. The data includes public, nonpublic, and home school students; however, detailed demographic breakdowns are only available for public school students, as this information is linked through the Minnesota Automated Reporting Student System (MARSS).

In fiscal year 2024, a total of 13,950 students participated in PSEO, a 20% increase since 2022. Public school students represented 72% of the total. Participation also rose steadily among home school and nonpublic school students, though they represent smaller shares of total PSEO enrollment.

Among public school students, female students continued to make up the majority of PSEO participants, comprising 64% in 2024. However, male students experienced a greater rate of growth, increasing their participation by 30% since 2022. Students who qualify for educational benefits—often used as an indicator of economic disadvantage—showed the largest overall increase in participation, growing by 50% from 2022 to 2024 and making up 31% of public school PSEO students in 2024.

Students of color and American Indian students also saw substantial gains in PSEO participation, with a 29% increase since 2022. This group accounted for 35% of public school PSEO participants in 2024. Within this category, Black or African American students experienced the most significant growth, with a 33% increase over the period. Hispanic or Latino students followed closely with a 31% increase. White students remained the largest racial or ethnic group among public school PSEO participants, comprising 65% of the total in 2024.

State-Paid PSEO Participation by Student Enrollment Type (FY22-FY24)

Student Enrollment Type	FY22	FY23	FY24	% of FY24 Total	% Change (FY22-FY24)
Public School Students	7,955	8,780	10,104	72%	+21%

[For a comparison of State-Paid PSEO Participation vs. 9-12 Enrollment \(FY24\), refer to Appendix A.](#)

PSEO Expenditures

During FY24, total state spending reached \$48.6 million—a 21% since FY22. This expenditure data reflects payments made directly to 55 eligible Minnesota postsecondary institutions for credits earned by high school students through the program. Community and technical colleges received the largest share of funding, totaling \$16.3 million in FY24, up 28% over three years.

Minnesota PSEO Program Expenditures by Institution Type (FY22-FY24)

Institution Type	FY 22	FY 23	FY 24	% Change (FY22-FY24)
Technical Colleges	\$1,163,708	\$1,368,785	\$1,735,860	+33%
Community Colleges	\$9,305,006	\$9,703,642	\$11,834,613	+21%
Community and Technical Colleges	\$11,700,314	\$13,372,393	\$16,298,320	+28%
State Universities	\$2,689,952	\$3,323,609	\$3,301,347	+19%
University of Minnesota campuses	\$3,184,722	\$3,109,680	\$3,546,390	+10%

Concurrent Enrollment (CE) Program

Concurrent enrollment serves public high school students enrolled in a postsecondary course taught during the regular school day and offered through a partnership between a high school and a college or university. Qualified high school instructors or college faculty teach the courses, which are offered at the secondary school or another location, according to an agreement between a public school board and the eligible postsecondary institution. The same assessment methods and content are used as the equivalent sections taught on the college campus. Students can earn high school and college credit upon successful completion of the course or courses. Students earn a grade based on their work over the entire term of the course and on multiple and varied assessments. College/university credit is granted for successful completion of the course, rather than on the results of a single high-stakes test.

Accreditation of postsecondary institutions through the Higher Learning Commission (HLC) and the National Alliance for Concurrent Enrollment Partnerships (NACEP) set standards for quality and rigor in Minnesota concurrent enrollment programs. These accrediting bodies ensure that concurrent enrollment courses offered in high schools are the same courses that are offered on the sponsoring postsecondary institution campus and that students in the high schools are held to the same academic standards as students on campus. NACEP Accreditation Standards and HLC Accreditation Criteria are similar and cover areas such as teacher credentials and preparation, rigor of courses and curricular standards, expectations for student learning and learning outcomes, access to learning resources, and monitoring and oversight. NACEP accreditation also requires program evaluation and student surveys to monitor transferability of credits earned through concurrent enrollment.

Teacher Credentials and Preparation

By requiring that concurrent enrollment programs be NACEP-accredited or meet comparable standards, the state requires that concurrent enrollment teachers be “approved by the respective college/university academic department and meet the academic department’s requirements for teaching the college/university courses.” Accredited programs or those meeting comparable standards must also provide “annual discipline-specific professional development activities and ongoing collegial interaction to address course content, course delivery, assessment, evaluation, and/or research development in the field.” The Higher Learning Commission also expects that postsecondary institutions require “the same level of credentials and qualifications for faculty in dual credit courses or programs that it does for its regular higher-education courses.” The HLC determines the criteria for faculty qualifications, including high school teachers teaching Concurrent Enrollment.

[Minnesota Statutes 2024, section 122A.76](#) provides funding to a state partnership between Lakes Country Service Cooperative and Brightworks to help cover the cost of graduate courses offered through Minnesota State University–Moorhead. These courses provide coordinated learning opportunities for teachers to become licensed to teach secondary school courses for postsecondary credit.

[For more information, access the Statewide Concurrent Enrollment Teacher Training Program Report to the Legislature.](#)

Concurrent Enrollment Aid

[Minnesota Statutes 2024, section 124D.091](#) provides funding to districts and charters to help defray the cost of offering college and/or university courses in high schools. Districts and charters are eligible for this state funding if the partnering postsecondary institution is accredited by NACEP, in the process of being accredited, or provides clear evidence of comparable standards. MDE monitors compliance with this statute by requiring non-NACEP-accredited programs to sign a letter of assurances, indicating the program meets this requirement and is an eligible institution, as defined by [Minnesota Statutes 2024, section 124D.09, subdivision 2](#).

The concurrent enrollment appropriation of \$4 million dollars supports funding of up to \$150 per student to districts and charters that offer a concurrent enrollment course, according to an agreement under [Minnesota Statutes 2024, section 124D.09, subdivisions 10 and 16](#). Reimbursements are prorated based on total concurrent enrollment participation across the state.

CE Program Participation

In 2023-2024, 35 Minnesota colleges and universities partnered with 336 districts and charter schools to offer concurrent enrollment courses to public school students. Participation has steadily increased over the past three years, according to data from the MDE School Finance Division. In fiscal year 2024, a total of 35,261 public school students participated in concurrent enrollment courses, reflecting an 8% increase since 2022.

Female students continued to represent the majority of concurrent enrollment participants, accounting for 58% of total enrollment in 2024. However, male students experienced a higher rate of growth over the same period, increasing by 11% compared to a 5% increase for females. Participation among students who qualify for educational benefits saw the most significant rise, growing by 43% and making up nearly a quarter of all concurrent enrollment students.

White students continued to make up the majority of concurrent enrollment participants, comprising 77% in 2024. Students of color and American Indian students showed strong gains, with a 19% increase in participation from 2022 to 2024. These students comprised 23% of the total concurrent enrollment population in 2024. Notable growth was seen among Hispanic or Latino students (+23%), American Indian or Alaska Native students (+23%), and students of Two or More Races (+26%).

Concurrent Enrollment Participation – Public School Students by Demographic Group (FY22-FY24)

Demographic Group	FY22 Students	FY23 Students	FY24 Students	% of FY24 Total	% Change (FY22-FY24)
Gender					
Female	19,426	19,930	20,553	58%	+5%

[For a comparison of Concurrent Enrollment Participation vs. 9-12 Enrollment \(FY24\), refer to Appendix A.](#)

CE Career Technical Education (CTE) Participation

Career and Technical Education (CTE) concurrent enrollment is a growing subset of Minnesota’s overall concurrent enrollment, with 5,646 public school students—16% of all participants—enrolled in CTE courses in fiscal year 2024. This reflects an 11% increase since 2022 and growing interest in college and career-aligned opportunities.

Female students made up the majority (56%), though male participation rose more rapidly. Participation among students who qualify for educational benefits grew by 45%, now comprising 29% of CTE enrollment. Students of color and American Indian students represented 26% of participants in 2024, with particularly strong gains among Hispanic or Latino, American Indian, and multiracial students.

CE Career Technical Education (CTE) Participation – Public School Students by Demographic Group (FY22-FY24)

Demographic Group	FY22 Students	FY23 Students	FY24 Students	% of FY24 Total	% Change (FY22-FY24)
Gender					
Female	2,848	3,004	3,161	56%	+10%

Total Public School Students	5,040	5,205	5,646	--	+11%

CE Aid Expenditures

Concurrent enrollment aid reimbursements are prorated based on total concurrent enrollment participation across the state. Total aid is capped at \$4 million and in FY 2024, the prorated reimbursement was \$48.37/student/course—a 9% decrease since 2022. CTE Aid totaled \$355,764 and is a subset of the total appropriation.

The table below summarizes overall concurrent enrollment participation and expenditures, CTE participation shown as a subset. CTE credits, course enrollments, students, and aid represent a portion of the total concurrent enrollment activity and funding. Course enrollment counts provide a duplicated count of how many students were enrolled in concurrent enrollment courses across the state. That is, each course a student takes is counted individually.

Summary of Concurrent Enrollment Participation, Credits and State Aid (FY22-FY24)

Metric	FY 22	FY 23	FY 24	% Increase (2022-24)
Total Credits Earned	256,168	267,008	276,268	+7%
CTE Credits Earned	20,055	22,014	23,216	+14%
Total Course Enrollments	76,084	79,184	82,689	+8%
CTE Course Enrollments	6,767	7,408	7,754	+13%
Total Students Participating	32,505	32,505	35,261	+8%
CTE Students Participating	5,040	5,040	5,646	+11%
Prorated Reimbursement Per Course	\$52.57	\$50.52	\$48.37	-9%

Metric	FY 22	FY 23	FY 24	% Increase (2022-24)
Total State Aid to Districts	\$4,000,000	\$4,000,000	\$4,000,000	--
Total CTE-Specific Aid to Districts	\$355,764	\$374,217	\$375,092	+5%

[For Concurrent Enrollment Participation, Credits and State Aid by District or School, refer to Appendix E.](#)

[For Concurrent Enrollment Participation and Credits by Postsecondary Institution, refer to Appendix F.](#)

Recommendations

The following recommendations have been identified to increase overall access to rigorous courses, as well as improve outcomes for students and reduce equity gaps for underserved populations.

- Ensure that eligibility criteria for student participation in PSEO and concurrent enrollment includes multiple indicators of a student’s ability to succeed in a postsecondary course or subject, rather than relying solely on indicators of overall academic standing, such as GPA or class rank.
- Promote and support rigorous course offerings in schools as a key strategy to eliminate opportunity and achievement gaps, increase graduation rates, and ensure all students are career and college ready.
- Consider clarifying the range of Early/Middle College (EMC) programs, including models such as P-TECH, and enhancing data collection efforts to ensure they are captured in future analyses.
- Continue MDE’s collaboration with the College Board and MNIB to identify student access gaps and evaluate the effectiveness of current initiatives over the next three years.
- Foster growth in on-ramp programs for high school participation (i.e., Pre-AP and IB Middle Years and Primary Years programs) through grant programs and training opportunities.
- Reimagine the PSEO funding formula so it does not result in a financial penalty for districts and charters when their students choose to participate in PSEO classes.
- Create a course code specifically for online PSEO courses, and when done in the school building, that includes increased funding to the school.
- Provide funding and training with strategic partners to strengthen secondary-postsecondary partnerships in support of Minnesota students accessing dual enrollment.
- Increase training to districts to promote robust PSEO by contract data collection in order to understand the number and demographics of students participating and succeeding in PSEO through courses according to agreements.
- Increase funding for concurrent enrollment aid to the full reimbursement rate for districts, as well as funding for teacher training to earn necessary credentials.

- Support districts and schools in improving course reporting to MCCC through MDE-led efforts, enabling more robust data on rigorous course taking for future reporting and analysis.

Conclusion

Minnesota has demonstrated long-standing legislative support for rigorous course programs, recognizing their positive impact on student outcomes such as college enrollment and completion. In the 2023–24 school year, the state invested over \$56 million to support AP, IB, PSEO, and concurrent enrollment programs, funding postsecondary tuition, exam reimbursements, teacher training, and district aid.

Student participation continues to grow, with notable increases across all programs and among students of color and those eligible for educational benefits. However, gaps remain in equitable access, particularly in concurrent enrollment, where some student groups are underrepresented compared to statewide enrollment.

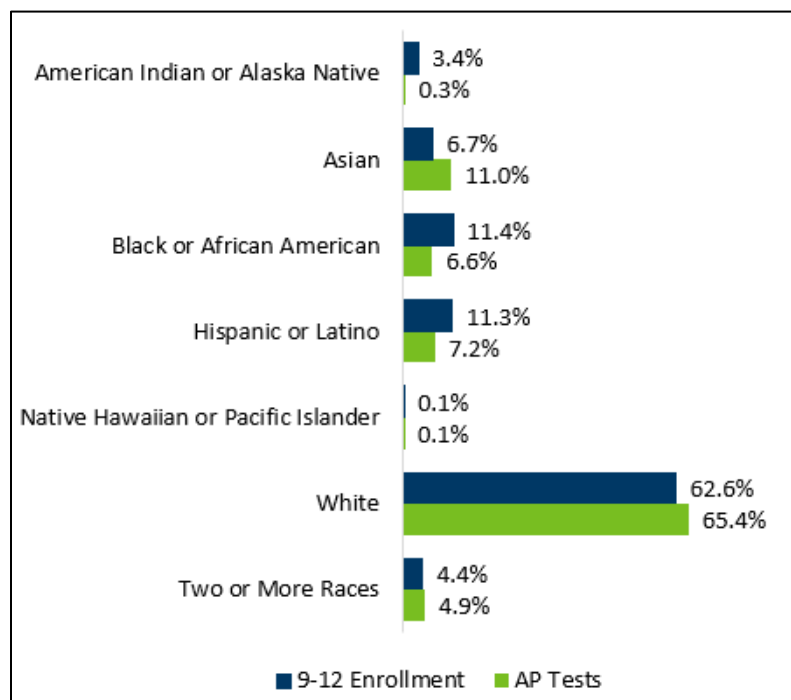

This report outlines several recommendations to address these disparities, including expanded data collection, stakeholder engagement, and alignment with priorities from the Minnesota P-20 Education Partnership. Addressing access and success challenges in dual enrollment is essential to ensure all Minnesota students benefit from these opportunities.

Appendices

Appendix A: Comparative Enrollment Data -- Rigorous Programs by Race/Ethnicity (FY24)

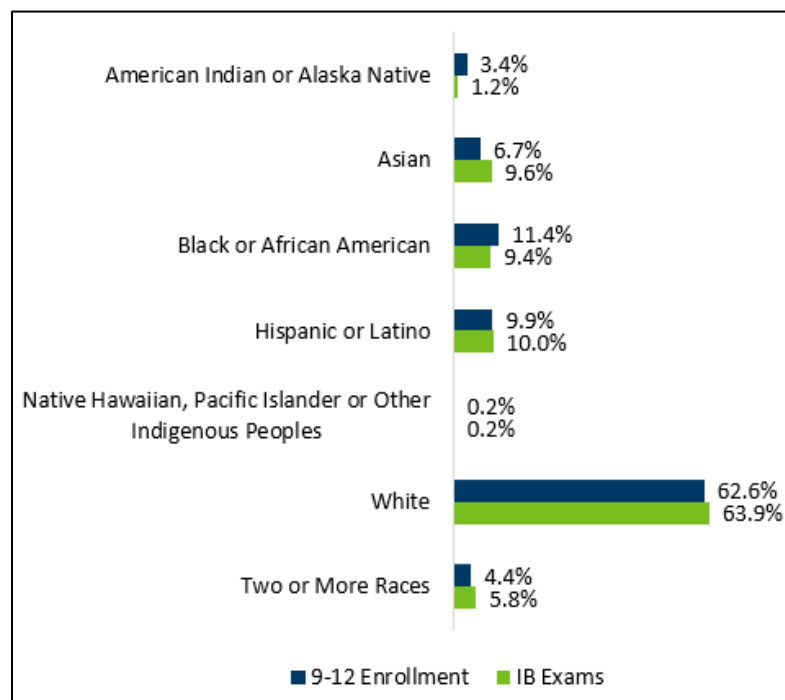

The charts below compare students enrolled in specific rigorous course programs to overall state high school enrollment by race/ethnicity. This illustrates whether specific groups are participating in rigorous course programs representative of their high school enrollment.

2024 AP Exam Taking vs. 9-12 Enrollment

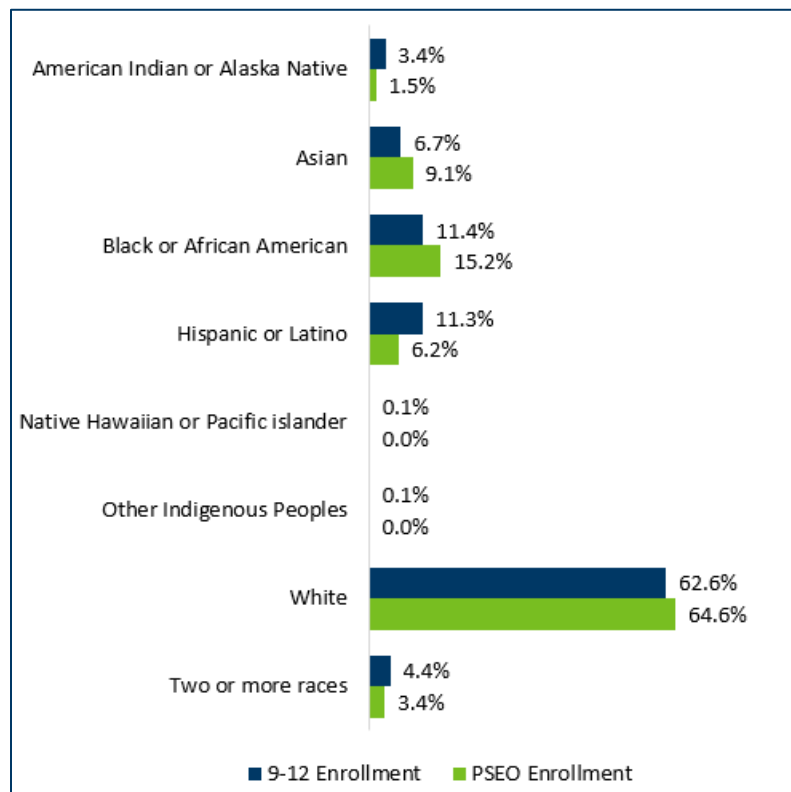

The largest representational differences include Asian students over-represented by 4.3 percentage points and Black or African American students under-represented by 4.8 percentage points.

2024 IB Exam Taking vs. 9-12 Enrollment

The largest representational differences include Asian students over-represented by 2.9 percentage points and American Indian or Alaska Native students under-represented by 2.2 percentage points.

2024 State-Paid PSEO Participation vs. 9-12 Enrollment

Black or African American students are participating in PSEO at notably high levels, exceeding their share of overall 9–12 enrollment by 3.8 percentage points. In contrast, Hispanic or Latino students are under-represented in PSEO by 5.1 percentage points

2024 Concurrent Enrollment Participation vs. 9-12 Enrollment

White students are over-represented in concurrent enrollment by 14.2 percentage points while all other racial groups are under-represented. Black or African American students and Hispanic or Latino students have the largest gaps in participation, -6.2 and -4.5 percentage points respectively.

Appendix B: Advanced Placement Expenditures by District or School

The tables in this appendix include AP exam subsidies for public, private and home school students—as well as teacher training reimbursements to public districts and private schools. AP student counts represented below are those taking AP exams. Student and exam counts are reported to the College Board by school site. Expenditure totals for AP exams and teacher training are provided by MDE Career and College Success Division.

Table B1. Advanced Placement Expenditures by District or School (FY23)

For FY23, AP student counts were pulled from the Minnesota Common Course Catalog (MCCC), which does not include private school students.

FY23: District Name and Number / School Name	AP Students	AP Exams	Teachers Trained	Teacher Training Reimbursements	Exam Subsidies	Total Expenditures
Albany Public School District #0745-01	23	23	--	--	\$841	\$841

Appendix C: International Baccalaureate Expenditures by District or School

The tables in this appendix include IB expenditures for public and private IB-authorized schools, which include elementary, middle, and high schools. Diploma Programme (DP) students are in 11th or 12th grade and take IB courses and exams. Student and exam counts are reported to International Baccalaureate Organization (IBO) by school site. Expenditure totals for IB exams and teacher training are provided by MDE Career and College Success Division.

Table C1. International Baccalaureate Expenditures by District or School (FY23)

Appendix E: Concurrent Enrollment Participation, Credits and State Aid by District or School

The tables in this appendix detail concurrent enrollment aid paid to eligible districts, including course credit totals and duplicated student enrollment counts. Expenditure totals for concurrent enrollment aid are provided by the MDE School Finance Division.

- CTE credit counts and aid are a subset of the total concurrent enrollment counts and aid.
- Enrollment counts provide a duplicated count of how many students were enrolled in concurrent enrollment courses in each district. That is, each course a student takes is counted individually.
- Gross aid represents the total amount districts would receive if concurrent enrollment were fully funded at \$150 per course per student, per course.
- Net aid shows the actual prorated amount of concurrent enrollment aid paid to districts.

Table E1. Concurrent Enrollment Participation, Credits and State Aid by District or School (FY23)

For FY23, the prorated aid rate was \$50.52 per student, per course.

FY23: District / Charter School Name	CTE Credit Count	Total Credit Count	CTE Enroll. Count	Total Enroll. Count	CTE Gross Aid	Total Gross Aid	CTE Net Aid	Total Net Aid

Appendix F: Concurrent Enrollment Course Participation and Credits by Postsecondary Institution

The tables in this appendix provide concurrent enrollment participation by postsecondary institution. Enrollment and credit information is reported to the MDE School Finance Division by participating institutions.

- Enrollment counts provide a duplicated count of how many students were enrolled in concurrent enrollment courses provided by that institution. Each enrollment is counted individually; a single student may be counted multiple times if enrolled in multiple courses.

Table F1. Concurrent Enrollment Course Participation and Credits by Postsecondary Institution (FY23)

FY23: Postsecondary Institution Name	Institution Type	Total Number of Course Enrollments	Total Number of Credits
Alexandria Technical and Community College	Community and Technical	2,588	8,006
Anoka Technical College	Technical	70	254
Anoka-Ramsey Community College	Community	4,628	17,382
