RE: Rechargeable Battery Recycling Report for 2023-2024
Harbor Freight Tools USA, Inc., Calabasas, California

Dear Ms. Cotton:

Please consider this letter our 2025 Rechargeable Battery Report for Harbor Freight Tools USA, Inc. ("Harbor Freight") which covers the years of 2023-2024. This report includes the information we are required to report in accordance with Minnesota regulations and the Harbor Freight Tools plan.

1. Harbor Freight sold the total weight of rechargeable batteries at Minnesota store locations and through our e-commerce process to Minnesota addresses:
 - a. 2023 – 76,256 lbs.
 - b. 2024 – 68,558 lbs.
2. Harbor Freight collected from Minnesota stores the following weight of rechargeable batteries:
 - a. 2023 – 7,821 lbs.
 - b. 2024 – 6,256 lbs.
3. This results in the following capture rates:
 - a. 2023 – 10.3%
 - b. 2024 – 11.0%

Chemistry	2023			2024		
	Sales Weight (Pounds)	Recycling Weight (Pounds)	% Recycled	Sales Weight (Pounds)	Recycling Weight (Pounds)	% Recycled
Li-ion	41,662	1,575	4%	33,926	1,401	4%
Pb	33,484	6,232	19%	33,709	4,845	14%
NiCd	420	5	1%	242	3	1%
NiMH	690	9	1%	681	7	1%

Harbor Freight Tools continues to promote the return of defective and used rechargeable batteries at the Harbor Freight store locations. We provide notice to consumers of our recycling programs and a reminder that it is illegal to put rechargeable batteries in the garbage as provided by Minn. Stat. § 115A.9157, subd. 2. Harbor Freight Tools has also updated its website with recycling directions.

Sincerely,

Peter Doran
Environmental Compliance Manager
