## **Grants, Loans, and Student Earnings from Institution Jobs, Fiscal Year 1993**

### **Population**

The population used in this report is the 140 Minnesota post-secondary institutions that were eligible to participate in the State Grant Program in Fiscal Year 1993. Data was collected on are all undergraduate students who attended these institutions in Fiscal Year 1993.

### **Sources of Data**

Data were obtained from two sources:

- o Coordinating Board records were used for the State Grant Program, The State Part-Time Grant Program, the Dislocated Worker Grant Program, the Non-AFDC Child Care Grant Program, the Rural Nursing Grant Program (also known as the Pre-Nursing Grant Program), the Licensed Practical Nurses Grant Program, the Registered Nurses Grant Program, the Safety Officer Survivor Grant Program, the Supplemental Educational Loan Fund (SELF), and the State Work-Study Program.
- o Institution financial aid administrators were asked to provide data on the amount of grants, loans, and earnings from work-study jobs and jobs at the institution by all undergraduates who attended in Fiscal Year 1993. Six institutions did not return the questionnaire.

### **Data Verification**

In April 1994 financial aid administrators at the institutions were asked to verify the data. The totals reported for the State Grant Program were computed in January 1994 for end-of-year reports as contained in the Coordinating Board's *Report to the Governor and the 1995 Legislature*. As institutions closeout their State Grant accounts there are often adjustments made that do not appear in the *Report to the Governor and the 1995 Legislature*.

## **Contents of This Report**

### **Totals for All Institutions**

Page 3 reports the total amount of grants, loans, and student earnings from jobs at the institutions for undergraduate students at the 140 institutions included in the data base in Fiscal Year 1993.

### **Totals for the Systems**

Pages 4 through 9 report the total aid received by undergraduate students attending each of the post-secondary systems: The Technical College System, The Community college System, the State University system, the University of Minnesota, Private Four Year Institutions, and Private Two Year Institutions.

### **Totals for Each Institution**

|                                      |                      |
|--------------------------------------|----------------------|

## **Attachment 1. Definitions of Financial Aid Categories Used**

This attachment describes the financial aid programs in place in Fiscal Year 1993, the year for which the data were collected.

### **Grant Programs**

Grant programs require no commitment to repay from students or parents. Most grants require students to make satisfactory educational progress. Restrictions are placed on eligibility, award amounts, and use.

#### **State and Local Grant Programs**

The following grant programs are funded by the State of Minnesota or Minnesota local governments.

- o **State Grant Program**

Minnesota residents registering at a Minnesota institution can apply for a State Grant. The state makes the award directly to the student. The award is based on the financial circumstances of students' families and on recognized tuition (and fees) and an allowance for living costs.

- o **State Part-Time Grant Program**

Students attending less than halftime were eligible for grants through the Part-Time Grant Program. The Minnesota Part-Time Grant program ended in Fiscal Year 1993. Beginning in Fiscal Year 1994, part-time students attending less than halftime became eligible for the State Grant Program.

- o **State Dislocated Worker Grants**

Rural Minnesota residents who were displaced homemakers, who were from farm families with severe household financial need, or workers who had received a notice of separation from employment were eligible to apply for dislocated worker grants. The program was operated by the Minnesota Higher Education Coordinating Board. The Dislocated Worker Grants Program operated by the Coordinating Board ended in Fiscal Year 1993. Beginning in Fiscal Year 1994, dislocated workers were referred to training programs at the Minnesota Department of Economic Security.

- o **Minnesota Non-AFDC Child Care Grants**

Grants are to students who have children 12 and under who demonstrate financial need. Awards are for assistance in paying for child care.

- o **Rural Nursing Grants**

These grants are also known as "Pre-Nursing Grants." Awards are to students in programs that lead to the student's first licensure as a licensed practical nurse or as a registered nurse. Participants must agree to practice in a designated rural area.

- o **Licensed Practical Nurses Grants**

Awards are to licensed practical nurses in programs that lead to licensure as a registered nurse.

- o **Registered Nurses Grants**

Awards are to registered nurses seeking to complete baccalaureate or master's degrees in nursing.

- o **Safety Officer Survivor Grants**

Awards are provided to post-secondary students who are spouses or dependent children of public safety officers killed in the line of duty.

- o **State and Local Agency Grants**

These include state, county and locally funded grants, scholarships, fellowships and gift aid other than the grant programs described above. Examples of these grants are Job Training Partnership Act (JTPA) Grants, Rehabilitation Services Grants, and Minnesota Indian Scholarship awards.

## **Federal Grant Programs**

The following grant programs are funded by the federal government.

- o **Federal Pell Grant Program**

Federal Pell Grants are awarded directly to students. The federal government determines the award based on the financial circumstances of students' families and on tuition and fees and allowances for living costs.

- o **Federal Supplemental Educational Opportunity Grant (SEOG) Program**

Funds are allocated to institutions to be used by financial aid directors to respond to special financial circumstances not recognized in the Federal Pell Grant Program. These funds are targeted to students receiving Federal Pell Grants.

- o **Federal Agency Grants**

These grants include federally funded grants, scholarships, fellowships and gift aid except Federal Pell Grants and Federal SEOGs. Examples are Health Professions Grants, Nursing Grants, ROTC stipends, Bureau of Indian Affairs grants, Tribal grants, and Paul Douglas Teacher Scholarships. These grants do not include benefits that are in the calculation of the expected student contribution such as Veterans Education Assistance Program payments.

## **Institution Grants**

The following grants are funded by post-secondary institutions.

- o **Institution Awarded Grants**

Institution awarded grants include grants, fellowships, and gift aid awarded by institutions. These include awards financed by revenues generated by institutions, funds appropriated to institutions, money donated to institutions allocated for grants, and money donated explicitly for financial aid. These awards are made to students with financial need and students who do not have financial need.

- o **Tuition Discounts or Remissions Provided by Institutions**

These include reductions in the posted tuition and fee charges by institutions. Examples are Community College System Alliss Grants, tuition reductions awarded to staff and their families as part of an employee benefit package, and tuition reductions for other individuals such as members of a religious order.

- o **Tuition Waivers Required by Law**

This category includes free tuition provided to certain individuals even though institutions are not reimbursed by another agency. For example, the State University System and Community College System are required to provide free tuition to wards of the state.

## **Private Grants and Other Grants**

The following grants are funded by various organizations.

- o **Private Grants**

This category includes grants, scholarships, fellowships, and gift aid provided by organizations not associated with the federal or state government or organizations not associated with the institution. Examples are grants awarded by service clubs such as Lions Clubs, PTAs, grants awarded by churches; grants awarded by labor unions and fraternal organizations; and Blandin Foundation grants to students living in northeastern Minnesota.

- o **Other Grants**

Other grants are grants and scholarships that do not fit into the categories identified above. One example is a grant from a state government outside Minnesota for post-secondary education at a Minnesota institution.

## **Loan Programs**

Loans are defined as long term loans students or their families will be expected to repay after completion of their post-secondary programs. Some of these loan programs, such as the SELF and Federal SLS programs described below, require payments while the students are enrolled in post-secondary education, and the payments continue after the student leaves school. Long term loans do not include emergency loans, and loans that cover the time between when tuition payments are due and other aid is received.

### **State Loan Program**

The State of Minnesota has one loan program for post-secondary students, the SELF program.

- o **Student Educational Loan Fund (SELF) Program**

The Minnesota Higher Education Coordinating Board provides loan capital for students in Minnesota. The borrower is responsible for interest charges while enrolled in post-secondary education and after leaving school. Borrowers must have a credit worthy cosigner. Borrowers do not have to show financial need to be eligible.

## **Federal Loan Programs**

The following loan programs are funded or guaranteed by the federal government.

- o **Federal Stafford Loans**

Federal Stafford Loans include Federal Subsidized Stafford Loans and Federal Unsubsidized Stafford Loans.

- **Federal Subsidized Stafford Loans** are made by lenders approved by the federal government. The federal government guarantees the loans, subsidizes the interest if market rates exceed the fixed rate the student pays, and covers the interest while the student is attending. Borrowers of Federal Subsidized Stafford Loans must demonstrate financial need.
- **Federal Unsubsidized Stafford Loans** are available to borrowers without demonstrated financial need. The loan limits and interest rate are similar to those for Federal Subsidized Stafford Loans. Borrowers are required to pay interest while in school.

- o **Federal Perkins Loans**

The federal government awards grants to institutions to create a loan fund. Institutions are required to match the federal contributions and are allowed to put additional resources into the program. Institutions make the loans to students with financial need. Students pay no interest while attending. Upon leaving, they pay a relatively low rate, currently set at 5 percent.

- o **Federal Supplemental Loans for Students (SLS)**

Lenders approved by the federal government made the loans. The federal government guaranteed the loans, set the interest rate and subsidized lenders if the rate paid by borrowers was less than market rates. The interest rate was usually higher than for the Federal Stafford Student Loan Program. The interest incurred while the student is attending is the student's responsibility. Borrowers did not have to show financial need to be eligible. This program operated according to the same rules as the Federal Parent Loans for Undergraduate Students Program described below. The Federal SLS program ended in Fiscal Year 1993. Borrowers are now referred to the Federal Unsubsidized Stafford Loan Program.

- o **Federal Parent Loans for Undergraduate Students (PLUS)**

Loans are made by lenders approved by the federal government to parents of dependent students. The federal government insures the loans, sets the interest rate and subsidizes lenders if the rate paid by borrowers is less than market rates. Borrowers do not have to show financial need to be eligible.

- o **Federal Agency Loans**

This category includes loans, other than Federal Stafford Student Loans, Federal Perkins Loans, Supplemental Loans for Students, and Federal Parent Loans for Undergraduate Students, made or guaranteed by an agency of the federal government. Examples are Health Education Assistance Loans (HEAL), Health Professions Student Loans, Nursing Loans, and Veterans Administration Loans.

## **Institution Loans**

There is one category for loans made by post-secondary institutions.

- o **Institution Awarded Loans**

These are loans, other than Federal Perkins loans, made by the institution to the student and his or her parents. Institution awarded loans include loans that students and their parents are expected to repay, at least in part, after completion of their education. Loans in this category are from institution controlled funds.

## **Loans Made by Private and Other Lenders**

There are two categories for loans made by private and other lenders.

- o **Loans Made by Private Lenders to Students and Their Parents**

This category includes loans that students and their parents are obligated to repay. These loans have no guarantee provided by a state or federal agency. They are limited to those loans explicitly made to cover part or all of the cost of attendance. These do not include second mortgages or loans independently contracted with a private lender. Examples of these loans are the SHARE and EXCEL loan programs.

- o **Other Loans**

This category includes loans that do not fit into one of the categories identified above.

## Work-Study Programs and Jobs at Institutions

Student earnings from jobs at the institution and work-study jobs provide some of the money needed for the cost of attendance. Since many institutions do not have records of student earnings at off-campus jobs, the information collected is only for jobs at the institution.

### o State Work-Study Program

The state funds a work-study program. The money is allocated by the Coordinating Board to institutions. Institutional financial aid directors make the award. Employers must provide at least 20 percent of the student's salary; the rest is covered from the state's allocation to the institution.

### o Federal Work-Study Program

The federal government funds the Federal Work-Study Program. The federal government makes an annual allocation to institutions. Institutional financial aid directors make the award. At the time of the Fiscal Year 1987 data collection, the employer was required to cover at least 20 percent of the wages paid to students awarded a Federal Work-Study job. The minimum employer match is now 30 percent.

### o Jobs at Institutions

Institutions employ students without subsidies from governments. This category includes only those wages paid to students appearing on the institution's payroll records. This does not include all on-campus jobs. The largest class of on-campus jobs not included are employees of food service contractors providing meals on-campus.
