Introduction

The purpose of this report is to present information on financial resources provided to undergraduates at Minnesota post-secondary institutions. The financial resources are grants, loans, and student earnings that help students pay tuition, fees, room and board and other costs of attending post-secondary education. This report presents information for Fiscal Year 1995, which corresponds to academic year 1994-95. Corresponding information for Fiscal Years 1987, 1989, 1991, and 1993 is available from the Higher Education Services Office.

Population

The data in this report are about the students attending the 132 Minnesota post-secondary institutions that were eligible to participate in the State Grant Program in Fiscal Year 1995. Data were collected on financial aid received by undergraduate students who attended these institutions in Fiscal Year 1995. Fiscal Year 1995 was from July 1, 1994 through June 30, 1995.

Sources of Data

Data were obtained from two sources:

- Higher Education Services Office records were used for the State Grant Program, the Non-AFDC Child Care Grant Program, the Licensed Practical Nurses Grant Program, the Registered Nurses Grant Program, the Nursing Grant Program for Persons of Color, the Pre-Nursing Grant Program, the Safety Officer Survivor Grant Program, the Student Educational Loan Fund (SELF), and the State Work-Study Program.

- Institution financial aid directors provided data on the amount of grants, loans, and earnings from work-study jobs and jobs at the institution by undergraduates who attended in Fiscal Year 1995. All 132 institutions eligible to participate in the State Grant Program in Fiscal Year 1995 provided data.

Data Verification

In March and April, 1996 Higher Education Services Office staff sent financial aid directors a preliminary version of their reports for verification.

State Grant Program Data

The amounts reported for the State Grant Program were computed in January 1996 for end-of-the-year reports as contained in the Higher Education Services Office's *Report to the Governor and the 1995 Legislature*. As institutions close out their State Grant accounts, there are often adjustments made that do not appear in the *Report to the Governor and the 1995 Legislature*.

Definitions of Financial Aid Categories

Definitions of the financial aid categories used in the report are included in Appendix I.

Financial Aid Awarded in Earlier Years

Totals by program for Fiscal Years 1987, 1989, 1991, and 1993 are included in Appendix II at the end of the report.

Appendix 1. Definitions of Financial Aid Categories

This section describes the grant, loan, and student work programs in place in Fiscal Year 1995, the year for which data were collected.

Grant Programs

Grant programs required no commitment to repay. Most grants required students to make satisfactory educational progress. Restrictions were placed on eligibility, award amounts, and use.

State and Local Grant Programs

The state of Minnesota funded the following grant programs.

State Grant Program

A Minnesota resident undergraduate who registered at a Minnesota institution could apply for a State Grant. The award was based on the financial circumstances of students' families and on recognized tuition (and fees) and an allowance for living costs.

Minnesota Non-AFDC Child Care Grants

Grants were to students who had children age 12 and under who met a means test. Awards were for assistance in paying for child care. The Higher Education Services Office allocated funds to institutions, and institutions made awards to students. (Recipients of Aid to Families with Dependent Children (AFDC) were eligible to receive assistance to help pay child care expenses through a separate program administered by counties.)

Licensed Practical Nurses Grants

Awards were to licensed practical nurses enrolled in programs that led to licensure as a registered nurse.

Registered Nurses Grants

Awards were to registered nurses enrolled in baccalaureate or master's degree programs in nursing.

Nursing Grants for Persons of Color

Awards were to persons of color enrolled in programs that led to licensure as a registered nurse or in advanced nursing education programs.

Pre-Nursing Grants

Awards were to students enrolled in programs that led to the student's first licensure as a licensed practical nurse or as a registered nurse. Participants were required to agree to practice in a designated rural area.

Safety Officer Survivor Grants

Awards were to post-secondary students who were spouses or dependent children of public safety officers killed in the line of duty.

State and Local Agency Grants

These included state, county and locally funded grants, scholarships, fellowships and gift aid other than the grant programs described above. Examples of these grants included Job Training Partnership Act (JTPA) Grants, Rehabilitation Services Grants, and Minnesota Indian Scholarship awards.

Federal Grant Programs

The federal government funded the following grant programs.

Federal Pell Grant Program

Federal Pell Grants were awarded directly to students. The federal government determined the award based on the financial circumstances of students' families and on tuition and fees and allowances for living costs.

Federal Student Educational Opportunity Grant (SEOG) Program

The federal government allocated funds to institutions to respond to special financial circumstances not recognized in the Federal Pell Grant Program. Students were required to receive Federal Pell Grants to be eligible for SEOG awards.

Federal Agency Grants

These grants included federally funded grants, scholarships, fellowships and gift aid except Federal Pell Grants and Federal SEOGs. Examples of these grants included Health Professions Grants, Nursing Grants, ROTC stipends, Bureau of Indian Affairs grants, Tribal grants, and Paul Douglas Teacher Scholarships. These grants did not include benefits that were included in the calculation of the expected student contribution such as Veterans Education Assistance Program payments.

Institution Grants

Post-secondary institutions funded the following grants.

Institution Grants

Institution grants included grants, fellowships, and gift aid awarded by institutions. These included awards financed by revenues generated by institutions, funds appropriated to institutions, money donated to institutions allocated for grants, and money donated explicitly for financial aid. Institutions made these awards to students who met a means test and students who did not meet a means test.

Tuition Discounts or Remissions Provided by Institutions

These included reductions in the posted tuition and fee charges by institutions. Examples included Community College Alliss Grants, tuition reductions awarded to staff and their families as part of employee benefit packages, and tuition reductions for other individuals, such as members of a religious order.

Tuition Waivers Required by Law

This category included free tuition provided to certain individuals. For example, state law required that the State Universities and Community Colleges provide free tuition to wards of the state.

Private Grants and Other Grants

Various organizations funded the following grants.

Private Grants

This category included grants, scholarships, fellowships and gift aid provided by organizations not associated with the federal or state government or organizations not associated with the post-secondary institutions. Examples of these grants included grants awarded by service clubs such as Lions Clubs, or PTAs; grants awarded by churches, labor unions, and fraternal organizations; and Blandin Foundation grants to students living in northeastern Minnesota.

Other Grants

Other grants were grants and scholarships that did not fit into the categories identified above. A grant from a state government outside Minnesota for post-secondary education at a Minnesota institution was one example.

Loan Programs

Loans were defined as long term loans students or their families would repay after completion of their post-secondary programs. Some loan programs, such as the SELF and Unsubsidized Federal Stafford Loan programs described below, also required payments while students were enrolled in post-secondary education. Long term loans did not include emergency loans, or loans that covered the time between when tuition payments were due and other aid was received.

State Loan Program

The state of Minnesota had one loan program for post-secondary students, the SELF program.

Student Educational Loan Fund (SELF) Program

The Minnesota Higher Education Services Office provided loan capital. The borrower was required to make interest payments while enrolled in post-secondary education. The borrower repaid principal and interest after leaving school. Borrowers were required to have a credit worthy cosigner. Borrowers did not have to meet a means test to be eligible.

Federal Loan Programs

The federal government funded or guaranteed the following loan programs.

Federal Stafford Loans

Federal Stafford Loans included Federal Subsidized Stafford Loans and Federal Unsubsidized Stafford Loans.

Federal Subsidized Stafford Loans were made by lenders approved by the federal government. The federal government guaranteed the loans, subsidized the interest if market rates exceeded the rate the student paid, and covered the interest while the student was attending. Borrowers of Federal Subsidized Stafford loans were required to meet a means test.

Federal Unsubsidized Stafford Loans were available to borrowers without a means test. The loan limits and interest rate were similar to those for Federal Subsidized Stafford Loans. Borrowers were charged interest while in school.

Federal Ford Direct Loans

Federal Ford Direct Loans also included subsidized and unsubsidized loans.

Federal Ford Direct Subsidized Loans were made by institutions with capital from the federal government. The federal government guaranteed the loans. The loan limits and interest rate were similar to those for Federal Stafford Loans. Borrowers of Federal Ford Direct Subsidized Loans were required to meet a means test.

Federal Ford Direct Unsubsidized Loans were available to borrowers without a means test. The loan limits and interest rate were similar to those for Federal Stafford Loans. Borrowers were charged interest while in school.

Federal Perkins Loans

The federal government awarded grants to institutions to create Perkins loan funds. The program required that institutions match the federal contributions. Institutions made the loans to students who met a means test. Students paid no interest while attending.

Federal Parent Loans for Undergraduate Students (PLUS)

Loans were made by lenders approved by the federal government to parents of dependent students. The federal government insured the loans, set the interest rate and subsidized lenders if the rate paid by borrowers was less than market rates. Borrowers did not have to meet a means test to be eligible.

Federal Agency Loans

This category included loans, other than Federal Stafford Student Loans, Federal Perkins Loans, Supplemental Loans for Students, and Federal Parent Loans for Undergraduate Students. The loans in this category were made or guaranteed by an agency of the federal government. Examples included Health Education Assistance Loans (HEAL), Health Professions Student Loans, Nursing Loans, and Veterans Administration Loans.

Institution Loans

There was one category for loans made by post-secondary institutions.

Institution Awarded Loans

Loans in this category were from institution controlled funds. These were loans made by the institution to students and their parents. (These loans did not include Federal Perkins Loans or Federal Ford Direct Loans.) Institution awarded loans included loans that students and their parents were expected to repay after completion of their education.

Loans Made by Private and Other Lenders

There were two categories for loans made by private and other lenders.

Loans Made by Private Lenders to Students and Their Parents

This category included loans that students and their parents were obligated to repay. These loans had no guarantees provided by a state or federal agency. They were limited to those loans explicitly made to cover part or all of the cost of attendance. These did not include second mortgages or loans independently contracted with a private lender. Examples included the SHARE and EXCEL loan programs.

Other Loans

This category included loans that did not fit into one of the categories identified above.

Work-Study Programs and Jobs at Institutions

Student earnings from jobs at the institution and work-study jobs provided some of the money needed for the price of attendance. Since many institutions did not have records of student earnings at off-campus jobs, the information collected is only for jobs at the institution.

State Work-Study Program

The state funded a work-study program. The Higher Education Services Office allocated the money to institutions. Institutional financial aid directors made the awards. Employers were required to provide at least 25 percent of the wages paid to students awarded a State Work-Study job.

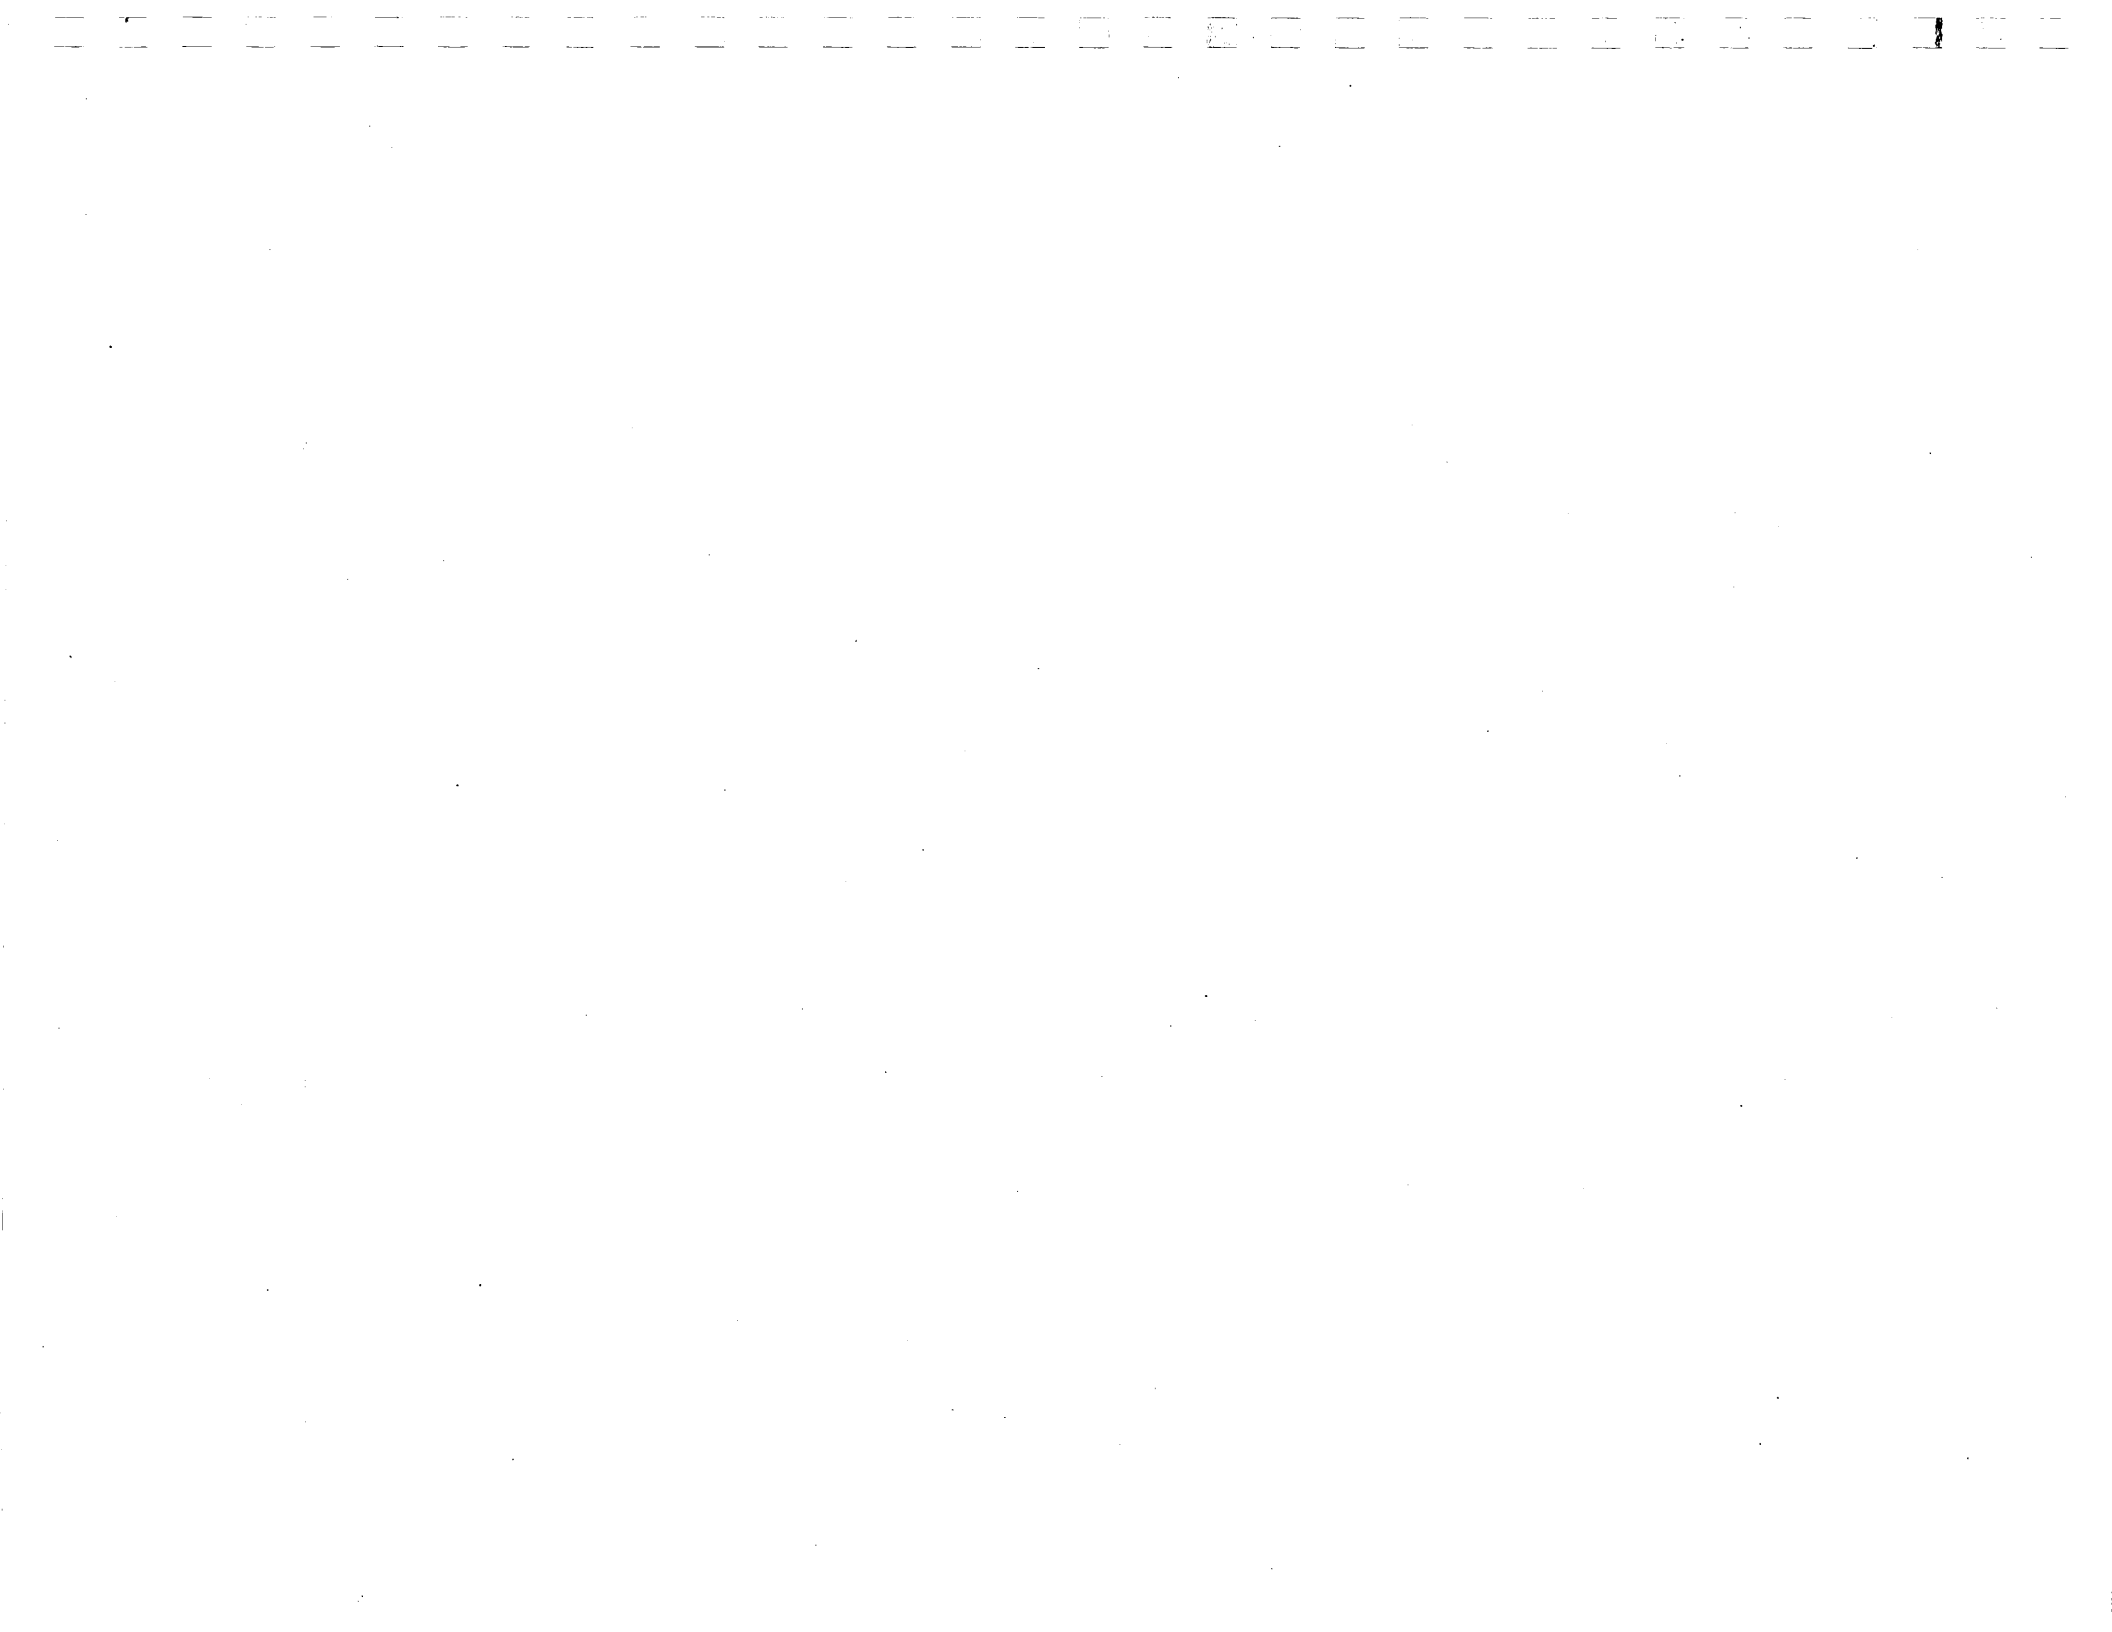

Federal Work-Study Program

The federal government funded the Federal Work-Study program. The federal government made an annual allocation to institutions. Institutional financial aid directors made the awards. Employers were required to provide at least 25 percent of the wages paid to students awarded a Federal Work-Study job.

Jobs at Institutions

Institutions employed students without subsidies from governments. This category included those wages paid to students that appeared on the institution's payroll records. This did not include all on campus jobs. The largest class of on campus jobs not included were employees of food service contractors providing meals on campus.
