

# COMMUNITY WASTEWATER COSTS ANNUAL REPORT

February 2026

The Met Council's mission is to foster efficient and economic growth for a prosperous metropolitan region.

Deb Barber	District 4	Chai Lee	District 13
John Pacheco Jr.	District 5	Toni Carter	District 14
Robert Lilligren	District 6	Victor Obisakin	District 15
Yassin Osman	District 7	Wendy Wulff	District 16
Anjuli Cameron	District 8		

The Metropolitan Council is the regional planning organization for the seven-county Twin Cities area. The Met Council operates the regional bus and rail system, collects and treats wastewater, coordinates regional water resources, plans and helps fund regional parks, and administers federal funds that provide housing opportunities for low- and moderate-income individuals and families. The 17-member Council board is appointed by and serves at the pleasure of the governor.

On request, this publication will be made available in alternative formats to people with disabilities. Call Metropolitan Council information at 651-602-1140 or TTY 651-291-0904.

## Purpose

Pursuant to Minnesota Statutes, section 473.5492, this report provides a summary of the 2025 average monthly wastewater costs for communities in the Twin Cities metropolitan area.

## Introduction

Metropolitan Council Environmental Services (Met Council) operates and maintains the Metropolitan Disposal System (MDS), the regional wastewater collection and treatment system serving the urbanized areas of the Twin Cities metropolitan area. The MDS comprises 656 miles of interceptor sewers and 9 water resource recovery facilities, which collectively treat about 255 million gallons of wastewater daily for about 2.8 million people across 111 communities connected by sanitary sewer pipes.

Met Council’s wastewater services are fully funded by user fees. Pursuant to Minnesota Statutes, section 473.517, the Council assesses a Municipal Wastewater Charge (MWC) annually to recover the costs associated with operating and maintaining the MDS. The MWC is allocated to communities based on each community’s proportionate share of total regional wastewater flow. While the Met Council sets the regional wastewater wholesale rate, communities independently set their own retail sewer utility rates. On average, Met Council’s MWC accounts for 50% to 60% of a household’s total sewer bill.

## 2025 Community Wastewater Costs Summary

The average monthly sewer utility rate across the Met Council’s 111 customer communities is \$35.58 in 2025, a 5.40% increase from 2024. The median monthly sewer utility rate is \$33.35, a 6.69% increase from the prior year.

Table I details the 2025 monthly sewer utility costs for one-and two-unit single-family residences for communities served by the MDS. Table II ranks these communities from lowest to highest monthly sewer cost.

Most communities outside the MDS service area rely primarily on private septic systems. For the 14 community-operated sewer systems, monthly sewer utility costs increased by 10.13% in 2025. Table III provides detailed monthly sewer utility cost information for communities outside the MDS service area.

### Wastewater costs for 111 customer communities connected to the MDS

	2025	2024	Percentage Change
Median Monthly Cost	\$33.35	\$31.26	6.69%
Weighted Average Monthly Cost	\$35.58	\$33.76*	5.40%

\*Weighted for the number of households connected to community-operated sewer systems

### Wastewater costs outside the MDS service area

	2025	2024	Percentage Change
Median Monthly Cost	\$60.97	\$52.64	15.82%
Weighted Average Monthly Cost	\$66.79	\$60.65*	10.13%

\*Weighted for the number of households connected to community-operated sewer systems

## Wastewater Services Costs Details

### Rate Types Used by Customer Communities

**Flat Rate:** fixed wastewater fee, regardless of water usage.

**Uniform Rate:** constant per-unit price for all metered water consumed.

**Increasing Block Rate:** progressively higher sewer rates for greater water usage.

**Base/Uniform Rate or Base/Increasing Block:** combines a fixed dollar charge or minimum charge (generally, per month or per quarter) with a metered volume charge.

Watertown Township	N/A		
West Lakeland Township	N/A		
Woodland	N/A		
Young America Township	N/A		
<b>Weighted Average *</b>	<b>\$66.79</b>		<b>18,804</b>

\*Weighted for the number of households connected to community-operated sewer systems (N/A means all residents in the community use private septic systems).

Septic systems typically cost between \$15,500 and \$32,000 to install, with an average price of about \$24,000 according to data gathered from Carver, Dakota, and Scott County Environmental Services.

Septic systems last about 20-30 years and require cleaning and inspection every 2-3 years, which costs about \$400-\$500.
