## Introduction

On May 23, 2023, the legislature signed into law legislation requiring the Department of Public Safety Driver and Vehicle Services division (DVS) to submit a report on special plates annually by Feb. 1 to the legislative committees with jurisdiction over transportation policy and finance (Laws of Minnesota 2023, Regular Session, Chapter 68, HF2887, Article 5, Section 15).

The report must identify the number of special plate issuances and total plate counts for each type of special plate, with a breakout by each alternative or additional design. This information was collected using MNDrive data and is outlined in Table 1.

For plates that require a one-time or annual contribution, DVS must also provide a fiscal summary of the contributions, including to specify the appropriate contribution account, identify the total contributions received in the two most recently completed fiscal years and identify the direct recipients of contribution funds. This information was obtained through the Statewide Integrated Financials Tool (SWIFT) and is outlined in Table 2.

DVS must also provide a description of how contribution funds were spent in the prior fiscal or calendar year, as provided by each direct recipient. For any entity that receives special plate contribution funds under Chapter 168 directly from the commissioner, they must submit information on contribution fund expenditures in the form and manner specified by the commissioner. Refer to the Contribution Fund Spending section for this information.
