# Janitorial Contracts; Rehabilitation Programs and Extended Employment Providers

Fiscal Year 2025

Report Required by Minnesota Statute § 16C.155

The data source for this report is the Statewide Integrated Financial Tools (SWIFT) system. Purchases in SWIFT are categorized by the purchasers into one of more than 50,000 possible commodity codes (UNSPSC codes).

The Office of State Procurement (OSP) analyzed line items with relevant commodity codes in an attempt to improve the accuracy of this report. Items which were clearly miscoded or inapplicable were removed, as were items showing government entities as the vendor. The numbers in this report should be considered the Department of Administration’s best estimate of executive branch spending.

\*This data excludes services performed for MnDOT by Greenview Inc., a company which provides “employment of needy, elderly persons” pursuant to Minn. Stat. § 160.282.

\*\*The DEED/DHS spend reflects strong use of the state’s enterprise contract while in the same period the sole DEED-DHS provider on the state’s roster stopped providing scanning/imaging services. No other DEED/DHS providers responded to the most recent master contract solicitation posted by OSP. OSP continues to promote the use of DEED/DHS providers through its policies and training events.

\*\*\*While these numbers represent spending that was identified as falling within the intended category, the actual values may be very different. The UNSPSC code fails to distinguish between mail services, shipping, postage, etc. and the tasks that DEED/DHS certified providers perform, which makes it difficult to get an accurate spend amount.
