# 2025 Local Road Improvement Program (LRIP) Solicitation Applications Summary

## Summary of Applications Received

An appropriation of $47 million in general obligation (GO) bonds was available for the competitive 2025 LRIP solicitation. Due to GO bond eligibility restrictions, Federally Recognized Indian Tribes were not eligible for the 2025 LRIP solicitation. Several unique circumstances occurred as a previously selected entity declined program funds in early 2026 plus some 2023 LRIP projects had award bid amounts that were under the project grant selection amount, resulting in $2,836,100 of additional 2023 GO bond funding being available. Altogether, it resulted in $49,836,100 in GO bond funds available for 2025 LRIP project recommendations. MnDOT received 233 application submittals including total cost estimates of $1.143 billion, with requests of $277.6 million in LRIP funding. Applications for this solicitation were separated into three selection pools as described below. On March 12, 2026, the LRIP Advisory Committee, as identified in Sec. 174.52 MN Statutes Subd. 3, convened and approved 42 projects for funding through the competitive LRIP solicitation.

Tables 1, 2, 3A, and 3B include summaries of all applications that were received during the 2025 LRIP solicitation, including the reason why projects were not selected, when applicable. All project selections considered geographic equity and equity across the following three selection pools. Projects that were not selected for 2025 LRIP funds are sorted by total score, with the highest scoring projects at the top.

### Selection Pools:

- Counties
- State Aid Cities
- Non-State Aid Cities and Townships
