EXECUTIVE SUMMARY

The Campaign Finance and Public Disclosure Act (Minnesota Statutes Chapter 10A) requires lobbyists to report lobbying activity to the Campaign Finance and Public Disclosure Board twice each year. The Act also requires principals to file an annual report disclosing expenditures made to support lobbying in Minnesota. This summary is based on the reports of lobbyists and principals filed for calendar year 2025.

During 2025, 1,811 individuals were registered as lobbyists to represent 1,936 associations and individuals. When a lobbyist registers with an association, the lobbyist will select the general lobbying category of interests. The breakdown of principals by general lobbying categories starts on page 7.

Lobbyists filed 6,024 periodic reports for the twelve-month period, 95% of which were filed electronically. This summary includes a list of associations and the lobbyists that represented each association during 2025 along with the total disbursements made by each association. This information starts on page 13.

Principals filed 1,754 annual reports for 2025, 98% of which were filed electronically. Principal expenditures were disclosed in four numbers: 1) the amount spent to influence legislative action 2) the amount spent to influence administrative action by the Minnesota Public Utilities Commission (MN PUC) in cases of rate setting, power plant and power line siting, and granting of certificates of need; 3) the amount spent to influence the adoption of administrative rules by state agencies, boards, and commissions and 4) the amount spent to influence official actions of political subdivisions. Expenditures by principals may be rounded to the nearest $5,000 for reporting purposes. Principals reported a total of $95,781,947 in expenditures, with $80,007,416 of the total being expenditures for lobbying the legislative action, $11,241,568 lobbying the MN PUC, $1,759,293 lobbying administrative rules, and $2,773,670 in expenditures for lobbying the political subdivisions. This amount includes lobbyist salaries, advertising and public relations campaigns, and all other lobbying disbursements made by the principals and lobbyists.

Lobbyists reported that 1,754 (91%) of the 1,936 principals represented made disbursements for lobbying purposes during 2025. The reports disclosed that 83% of lobbying disbursements were made for the purpose of influencing legislative action, 2% of disbursements were made to influence administrative action, 3% were made to influence the official actions of political subdivisions, and 12% were made to influence the MN PUC. See page 9 for a comparison of total lobbying disbursements by type of lobbying reported and total lobbying expenditures reported by principals in 2024 and 2025.

Lobbyists must disclose gifts, loans, items, and services equal in value to $5 or more given or paid to officials by the lobbyist, the lobbyist's principal, or an employee of the lobbyist. 16 lobbyists reported giving items or benefits totaling $19,781.69 to 103 legislators, 1 constitutional officer, and 8 public officials. See page 176 for definitions and see subsequent pages for details of the gifts.

Xcel Energy Services, Inc. reported the largest total principal disbursements during the period. Minnesota Chamber of Commerce reported the largest total disbursements for legislative action lobbying. American Family Insurance Co reported the largest total disbursements for administrative action lobbying. The largest total disbursements for attempts to influence actions of political subdivisions was reported by the MN School Boards Assn. The largest total amount spent to influence administrative action by the MN PUC was reported by Xcel Energy Services, Inc. Complete lists of the entities that reported making the largest amount of disbursements and the largest amount of disbursements by type of lobbying begin on page 181.

LOBBYING OVERVIEW

What is lobbying?

Lobbying is attempting to influence legislative or administrative action or the official action of a political subdivision by communicating with or urging others to communicate with public or defined local officials. Any activity that directly supports this communication is considered a part of lobbying.

Who is a lobbyist?

For the purpose of this summary, "lobbyist" means:

1) An individual who is engaged for pay or other consideration of more than $3,000 from all sources in a year for the purpose of attempting to influence legislative or administrative action or the official action of a political subdivision by communicating with or urging others to communicate with public or local officials;

2) An individual who is not compensated more than $3,000 but spends more than $3,000 in any year (not including travel expenses and membership dues) for the purpose of attempting to influence legislative or administrative action or the official action of a political subdivision by communicating with or urging others to communicate with public or local officials;

3) A non-elected local official or an employee of a political subdivision who spends more than 50 hours in any month attempting to influence legislative or administrative action or the official action of a political subdivision, other than the political subdivision employing the official or employee, by communicating with or urging others to communicate with public or local officials, including time spent monitoring any of the forenamed actions and related research, analysis, and compilation and dissemination of information relating to legislative, administrative, or political subdivision policies in Minnesota.

Who is not a lobbyist?

1) An individual who merely communicates with a public official to obtain information or request an interpretation of a law, rule or agency action;

2) An individual who volunteers personal time to work without pay on a lobbying campaign and does not spend more than $3,000 on lobbying activities; and

3) An individual who provides administrative support to a lobbyist whose salary and expenses are reported by the lobbyist and who does not actually lobby.

About lobbyist registration

A lobbyist must register with the Campaign Finance and Public Disclosure Board on behalf of each association or individual that the lobbyist represents. Registration information includes the name and address of the registrant; the name and address of the association (including officers and directors) or individual represented; the lobbyist's reporting status; and a general description of subjects on which the lobbyist expects to lobby and the kind of action the lobbyist seeks to influence.

Principal

A principal is an individual or association that spends more than $3,000 in the aggregate in any calendar year to engage, compensate, or authorize the expenditure of money by a lobbyist; or is not included in the definition above and spends at least $50,000 in any calendar year in efforts to influence legislative action, administrative action, or the official action of political subdivisions. A political subdivision (county, city, etc.) and public higher education systems, do not need to file a principal report.

Types of lobbying

Administrative action

- The adoption, amendment, or repeal of administrative rules by any official, board, commission, or agency of the state executive branch. Administrative action does not include the application or administration of an adopted rule.

Minnesota Public Utilities Commission

- The application of administrative rules in cases of rate setting, power plant and power line siting, and granting of certificates of need under Minnesota Statutes Chapter 216B.

Legislative action

- Action with regard to any bill, resolution, amendment, nomination, appointment, report, or any other matter which may be the subject of action by either house of the legislature or by any legislative committee, subcommittee, or commission. Legislative action includes gubernatorial approval or veto of any bill. The development of, in conjunction with a constitutional officer, prospective legislation or a request to a constitutional officer for support or opposition to introduced legislation is also legislative lobbying.

Political Subdivision

- Certain official actions by an elected or appointed local officials made on behalf of a political subdivision.

What is Reported by Lobbyists?

Lobbyists report their activity representing the association they represent for each of the four types of lobbying described on page 4. When a lobbyist registers to represent an association, the lobbyist identifies the general lobbying categories that are of interest to the association. General lobbying categories are a set list of major topics for lobbying. The list can be modified by the Board with input from the lobbying community. For 2025 the list of general lobbying categories included the following 28 categories:

• Agriculture • Arts and Culture • Bonding • Business Regulation• Cannabis, Tobacco, Alcohol • Civil – Criminal Law • E-12 Education• Elections and Campaign Finance• Energy• Environment and Natural Resources • Food and Beverage Industry • Gambling• Health Care • Higher Education• Housing• Human Services • Insurance • Labor and Workforce Development• Local Government • Public Safety • Public Utilities Commission • Sports • State Government • Taxes • Technology and Communications • Transportation • Veteran Affairs

The number of lobbyists who registered to lobby on each of the general lobbying categories is found on page 7. The percentage of lobbyists that reported lobbyist activity within a general lobbying category is on page 8.

Within the general lobbying category, the lobbyist identifies specific subjects of interest to the association. For example, an association may be interested in the general lobbying category of Agriculture, and within that category lobbied on the specific subject of Feedlot Regulation.

Information on legislative lobbying reported in 2025 begins on page 182. Information on administrative lobbying starts on page 455. Information on lobbying to influence political subdivisions begins on page 473. Information on lobbying of MN Public Utilities Commission starts on page 506. Before each section on a type of lobbying is a list of the principals that reported the highest expenditures for that type of lobbying.

What is Reported by Principals

Lobbyist principals file an annual report that discloses the total amount spent by the association to lobby in Minnesota. The report discloses the amount spent in each of the four types of lobbying; legislative, administrative, Minnesota Public Utilities Commission, and political subdivisions. A principal may round their total expenditures to the nearest $5,000 on the report.

The amount spent by the association on lobbying includes the compensation paid to lobbyists, expenditures for advertising, mailings, research consulting, surveys, expert testimony, studies, reports, communications, and staff costs that support lobbying efforts. A list of principals, the lobbyists registered for the principal, and the amount spent in each of the lobbying categories starts on page 13.

Information on the total disbursements made by principals compared to other years, and by lobbying type, starts on page 10. A list of principals that spent over $250,000 to lobby in Minnesota starts on page 11.

REPORTED GIFTS, ITEMS OR BENEFITS TO OFFICIALS

Definitions

Officials as used in the statutory provisions related to disclosure of gifts, items, or benefits include:

• Public Officials

State legislators; constitutional officers and their chief deputies; commissioners, deputy or assistant commissioners of state departments designated in Minn. Stat. §15.01; solicitor general and assistant attorneys general; members, chief, and deputy chief administrative officers of boards and commissions with rulemaking authority; or designated legislative employees. A complete list of public official designees is available from the Board office and on the Board website at https://cfb.mn.gov/

• Local Officials of Political Subdivisions

A person who holds elective office in a political subdivision or who is appointed to or employed in a public position in a political subdivision in which the person has the authority to recommend, or to vote on as a member of the governing body, major decisions regarding the expenditure or investment of public money.

• Legislative Employees

An individual employed by either house of the legislature.

Political Subdivision

For purposes of lobbying, the term “political subdivision” is very broad and inclusive. The term includes all counties, cities, townships, and school districts, regardless of population and location in Minnesota. The term also includes the metropolitan government units. The term includes regional railroad authorities, soil and water conservation districts, port authorities, special districts, an entity created by two or more governmental units using the Joint Powers Act, and other government entities that have authority by state law to enter into contracts. In the end, there is not much in the way of local government that is not covered by the term political subdivision.

Disclosure

Any gift, loan, item, or service, including entertainment, food, beverage, travel, and lodging, equal in value to $5 or more, given or paid to an official by the lobbyist, the lobbyist's principal, or an employee of the lobbyist must be disclosed. This category does not include campaign contributions to candidates.

Legislative Lobbying by Association and Topics of Interest

What is legislative lobbying?

Legislative lobbying means attempting to influence any of the following:

(1) the development of prospective legislation, including the development of amendment language to prospective legislation; or (2) the review, modification, adoption, or rejection by a member of the legislature or an employee of the legislature, if applicable, of any (i) bill, (ii) amendment, (iii) resolution, (iv) confirmation considered by the legislature, or (v) report; or (3) the development of, in conjunction with a constitutional officer, prospective legislation or a request for support or opposition to introduced legislation; or(4) the action of the governor in approving or vetoing any act of the legislature or portion of an act of the legislature.

What must be disclosed?

When a lobbyist registers on behalf of an association the lobbyist identifies which of the general lobbying categories, or general areas that will be lobbied on. In 2025 the general categories were:

• Agriculture • Arts and Culture • Bonding • Business Regulation• Cannabis, Tobacco, Alcohol • Civil – Criminal Law • E-12 Education• Elections and Campaign Finance• Energy• Environment and Natural Resources • Food and Beverage Industry • Gambling• Health Care • Higher Education• Housing• Human Services • Insurance • Labor and Workforce Development• Local Government • Public Safety • Public Utilities Commission • Sports • State Government • Taxes • Technology and Communications • Transportation • Veteran Affairs

When the lobbyist reports their legislative lobbying activity for the association, they provide up to four specific topics that were lobbied on within a general lobbying category. The following pages are first sorted alphabetically by general lobbying category, then the associations that conducted legislative lobbying within the category, and then the specific subjects of interest for the association within that category.

Administrative Lobbying by Agency and Topics of Interest

What is administrative lobbying?

Attempting to influence the adoption, amendment, or repeal of administrative rules by any board, commission, or agency of the state executive branch. Administrative action does not include the application or administration of an adopted rule.

What must be disclosed?

When a lobbyist reports administrative lobbying, they disclose the board or agency that is modifying administrative rules, and identify the specific subjects within the administrative rules that are of interest to the association that they represent. The following pages list the administrative lobbying in 2025 first by the state agency that was promulgating the rules, then the associations that lobbied on the administrative rules with the specific subject of interest to the association.

Lobbying of Political Subdivisions

What is lobbying Political Subdivisions?

For purposes of lobbying, the term “political subdivision” is very broad and inclusive. The term includes all counties, cities, townships, and school districts, regardless of population and location in Minnesota. The term also includes the metropolitan government units. The term includes regional railroad authorities, soil and water conservation districts, port authorities, special districts, an entity created by two or more governmental units using the Joint Powers Act, and other government entities that have authority by state law to enter into contracts. In the end, there is not much in the way of local government that is not covered by the term political subdivision.

What must be disclosed?

When a lobbyist reports lobbying of a political subdivision, they disclose the name of the political subdivision that was lobbied, and the general lobbying category and specific subject of interest that was of interest to the association the lobbyist represented. The following pages list the reported lobbying of political subdivisions in 2025 sorted first by county, then by city, then by metro agency, then by township, then other types of political subdivisions. The association that lobbied the political subdivision is listed, along with the general lobbying category, and the specific subject of interest to the association.

Lobbying of the Minnesota Public Utilities Commission

What is lobbying of the MN Public Utilities Commission?

Attempting to influence the MN Public Utilities Commission when it applies administrative rules in cases of rate setting, power plant and power line siting, and granting of certificates of need under Minnesota Statutes Chapter 216B.

What must be disclosed?

Lobbyists must disclose the docket number and project name that their association is attempting to influence. The following pages show the lobbying of the MN Public Utilities Commission in 2025, and is sorted first by association, and then the docket number and name of the project that was lobbied on. There are two lobbyist reporting period within a year, the first covers lobbying activity from January through May, the second covers June through December. The lobbying period that disclosed the activity is also listed, if a docket number/project is listed twice for an association that indicates that it was identified as a subject of lobbying in both reporting periods.
