

2026–2027 Guide TO YOUR 33 STATE COLLEGES AND UNIVERSITIES

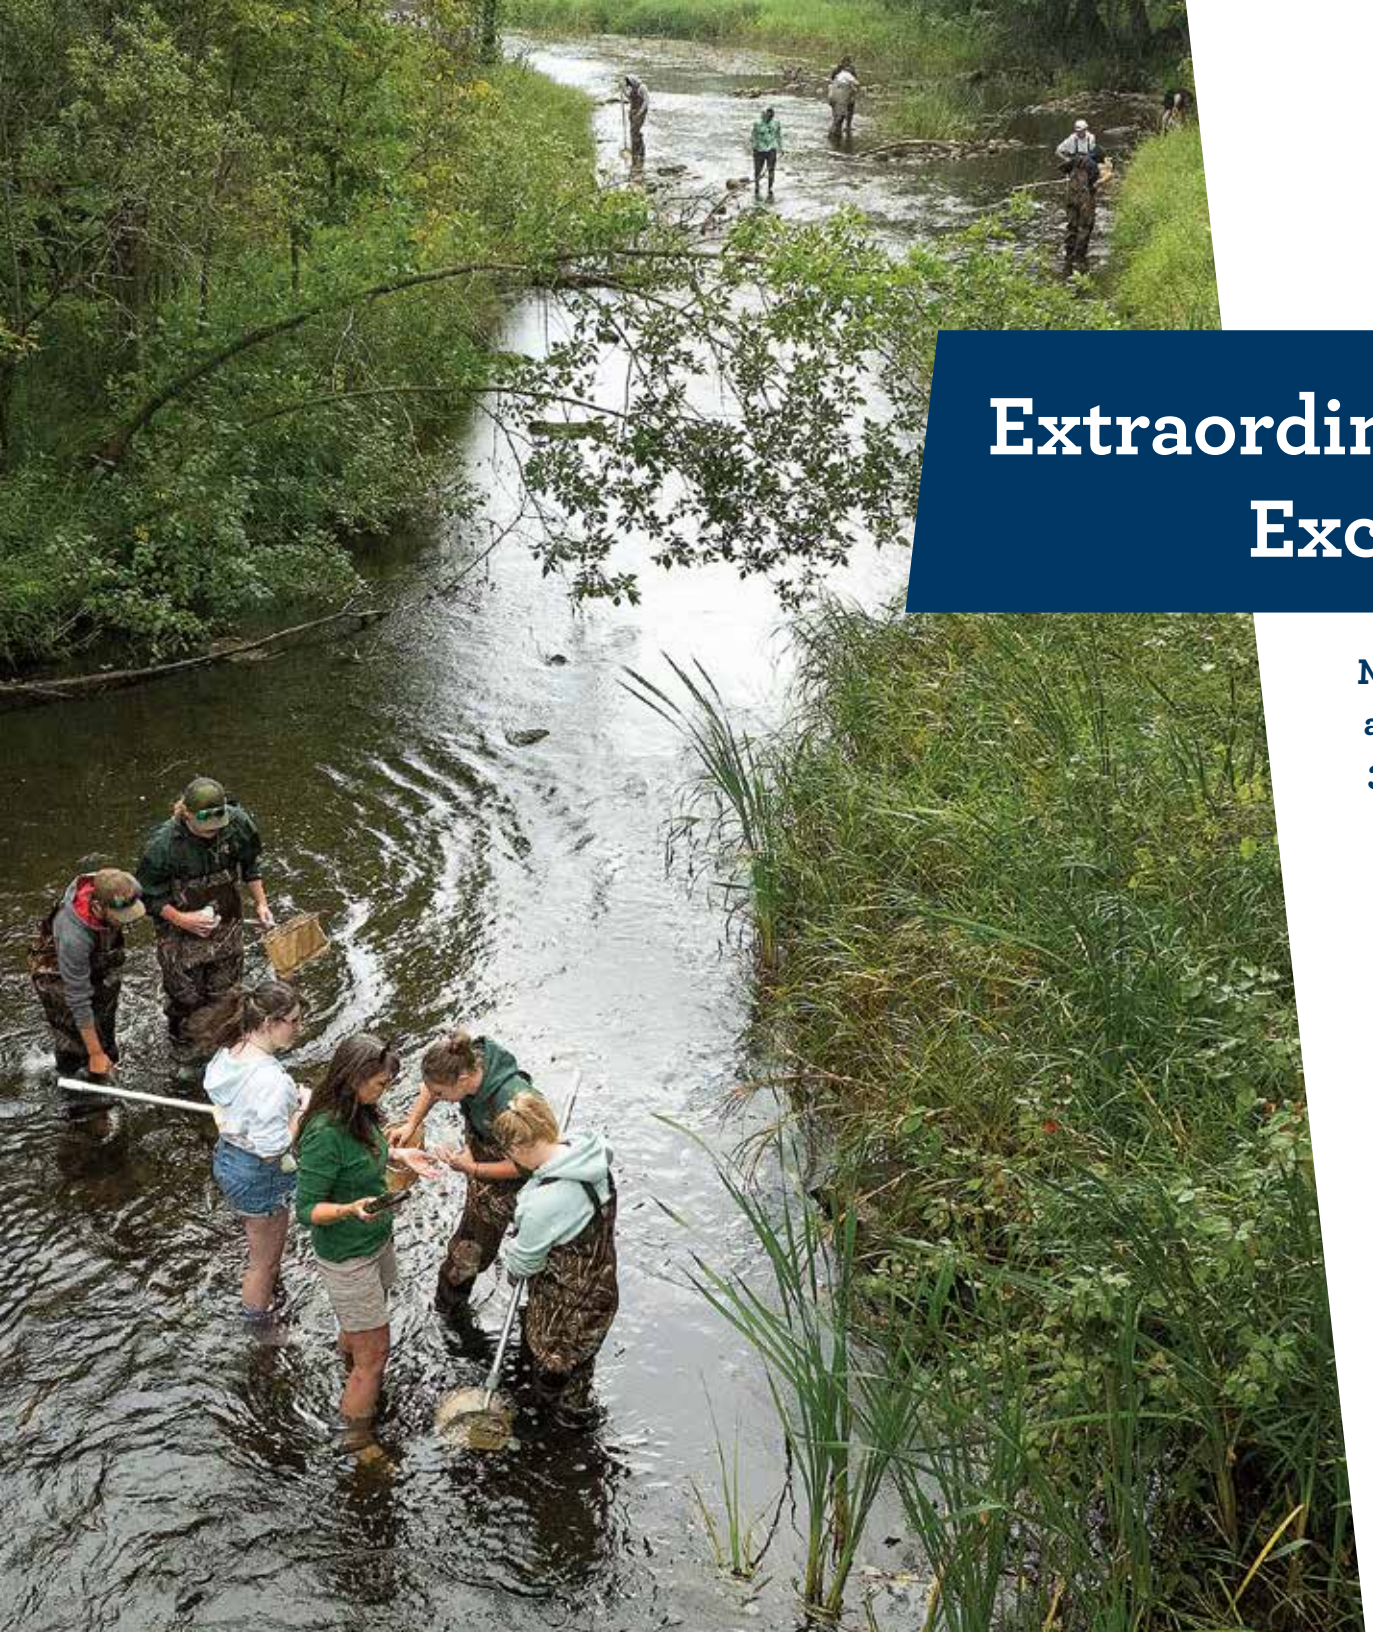

MINNESOTA STATE

Extraordinary Education. Exceptional Value.

MinnState.edu

Your **33** *State Colleges and Universities*

MINNESOTA STATE

Extraordinary Education. Exceptional Value.

Minnesota's lakesides, forests, and communities are home to the 33 colleges and universities of Minnesota State.

Each year, more than 290,000 students choose your state colleges and universities—building a brighter future and developing the talent Minnesota businesses and communities need to grow and prosper.

Minnesota State offers thousands of academic programs with some of the lowest tuition in Minnesota.

With 54 campuses in 47 Minnesota communities, you can continue your education close to home or explore options across the state. You'll also find a wide range of student life activities and experiential learning opportunities.

That's what extraordinary education at an exceptional value means for you.

Extraordinary Education

Your state colleges and universities offer nearly 4,000 academic programs taught by experienced faculty who know you by name. Take a few classes to build new skills or start or complete your bachelor's, master's, or doctoral degree. Minnesota State will help you build a plan that's right for you.

Move Quickly — Your state colleges offer options to take classes or earn a certificate, diploma, or associate degree in two years or less.

Graduation Options — Start and finish your bachelor's degree at one of your state universities, or complete two years at a state college and transfer to a university.

Work–School–Life Balance — Explore flexible scheduling, accelerated options, and online classes and programs that fit your schedule and your life.

Personalized Attention — Campuses are welcoming, class sizes are small, and you are taught by faculty, not teaching assistants.

Stay Local or Explore — Your state colleges and universities include 54 campuses in 47 communities. Choose the one that's right for you.

Retool or Advance Your Career — Explore noncredit, short-term training options designed to help you gain quick, specialized skills through continuing education and customized training programs.

Exceptional Value — Minnesota State offers affordable tuition, programs with no cost for books (Z-Degrees), and a high-quality education employers respect.

Find Your Path — Work one-on-one with staff to find the program and path that are right for you.

Exceptional Opportunities

ACCELERATE YOUR DEGREE

Start earning college credit early—save time, save money, and find your perfect fit.

Credit for Prior Learning (CPL) — Earn credit for what you already know. Students who demonstrate college- or university-level learning gained outside the classroom may be eligible to earn college credit. Examples include military training, workplace and community-based learning, professional certifications, national exams such as CLEP, DSST, and AP, World Language Seals, and International Baccalaureate diplomas.

Learn more about credit for prior learning at *MyCPL.MinnState.edu* and find information for the college or university you're considering.

PostSecondary Enrollment Options (PSEO)* — PSEO offers college courses for high school students. Courses are taught by college or university faculty and allow students to earn both high school and college credit. Contact your local state college or university for eligibility requirements and details.

Concurrent Enrollment* — Students can complete college courses at their high school while also meeting high school graduation requirements. If you're interested, talk with your high school counselor.

Technical Course Options —** Students in 10th grade may take a technical college-level course on a college campus. Students must be enrolled in a public school and meet reading proficiency and other course-specific requirements.

Advanced Placement (AP) and International Baccalaureate (IB) Options — AP and IB courses are offered at many high schools and provide rigorous coursework that prepare students for college-level classes. Students who earn qualifying scores on AP or IB exams may receive college credit at Minnesota State colleges and universities.

Learn more about these opportunites at *MinnState.edu/admissions/specialprograms*.

These options give you more flexibility to build a path that works for you.

** To be eligible for PSEO or concurrent enrollment with a Minnesota State college or university, high school juniors must be in the upper one-third of their class or earn a score at or above the 70th percentile on a test such as the ACT or SAT. Seniors must be in the upper one-half of their class or earn a score at or above the 50th percentile on a test such as the ACT or SAT. Students who do not meet these requirements may still be eligible if they can meet other college readiness standards determined by the college or university. Students in 9th or 10th grade may also be eligible to take PSEO or concurrent enrollment courses if they rank in the upper one-tenth of their class or attain a score at or above the 90th percentile on a nationally standardized, norm-referenced test, or if they have a favorable recommendation from designated high school officials. All high school students enrolling in PSEO or concurrent enrollment, regardless of grade level, must also meet all college course prerequisites.*

*** A student who first completed technical courses while in 10th grade and wishes to enroll in general education courses as an 11th or 12th grade student must take assessment tests and achieve the required scores prior to enrollment in additional PSEO courses. Learn more at MinnState.edu/admissions/pseo.*

Extraordinary Pathways

TRANSFER OPTIONS

Start at a Minnsota State college and transfer when you're ready. Plan now to save time and money later. Explore transfer programs through your state colleges and universities, or learn more at *MinnState.edu*. Transfer pathways make it easy to move from a college to a university without losing time or credits.

WANT TO LEARN MORE?

Your state colleges and universities have dedicated staff who can help you find the path that's right for you. Talk with a transfer specialist, visit a campus, or learn more at *MinnState.edu/transfer*.

Explore Transfer Pathways — Minnesota State offers transfer pathways that allow you to complete an associate degree and transfer to any of the seven state universities.* If you complete a Transfer Pathway degree at a Minnesota State college and are admitted to a Minnesota State university, you are guaranteed junior status, and all 60 credits will count toward your bachelor's degree.** See PAGE 58 for program details and options.

Get to know the Bachelor's Degree Partnership Program — The seven Minnesota State universities offer selected Bachelor's degree programs that can be completed at community colleges, allowing you to earn a university degree without leaving campus. See PAGE 60 for a complete list of degree programs and participating colleges and universities.

Find out about our transfer agreement with Tribal Colleges in Minnesota — Minnesota State and the four Tribal Colleges in Minnesota have developed a partnership that supports seamless transfer to any of the state universities. Learn more about transfer options at *MinnState.edu/transfer*.

Learn about the Minnesota State Transfer Guarantee — If you complete the Minnesota Transfer Curriculum and earn an Associate of Arts (AA) degree from a Minnesota State college with a minimum 2.0 GPA‡, you are guaranteed admission to any of the seven state universities with junior status.**

Start at a Minnesota State college and transfer when you're ready—it's a flexible way to save time, save money, and find your perfect fit.

* *Universities within the colleges and universities of Minnesota State include Bemidji State University; Metro State University; Minnesota State University, Mankato; Minnesota State University Moorhead; Southwest Minnesota State University; St. Cloud State University; and Winona State University.*

** *Students must still meet any special admission requirements for their major and are not guaranteed admission into the major itself.*

‡ *Winona State University requires a minimum 2.4 GPA for admission with an Associate of Arts (AA) degree.*

WHAT WILL TRANSFER?

ASSOCIATE OF ARTS DEGREE (AA)

Designed to transfer into liberal arts bachelor's degree programs.

ASSOCIATE OF SCIENCE (AS)

A two-year program designed for transfer into a specific bachelor's degree program. You may need to complete additional general education courses at a university.

ASSOCIATE OF FINE ARTS (AFA)

A two-year program designed for transfer into a specific bachelor's degree program. You may need to complete additional general education courses at a university.

ASSOCIATE OF APPLIED SCIENCE (AAS)

A two-year program designed to prepare you for a specific career. These programs are not primarily designed for transfer.

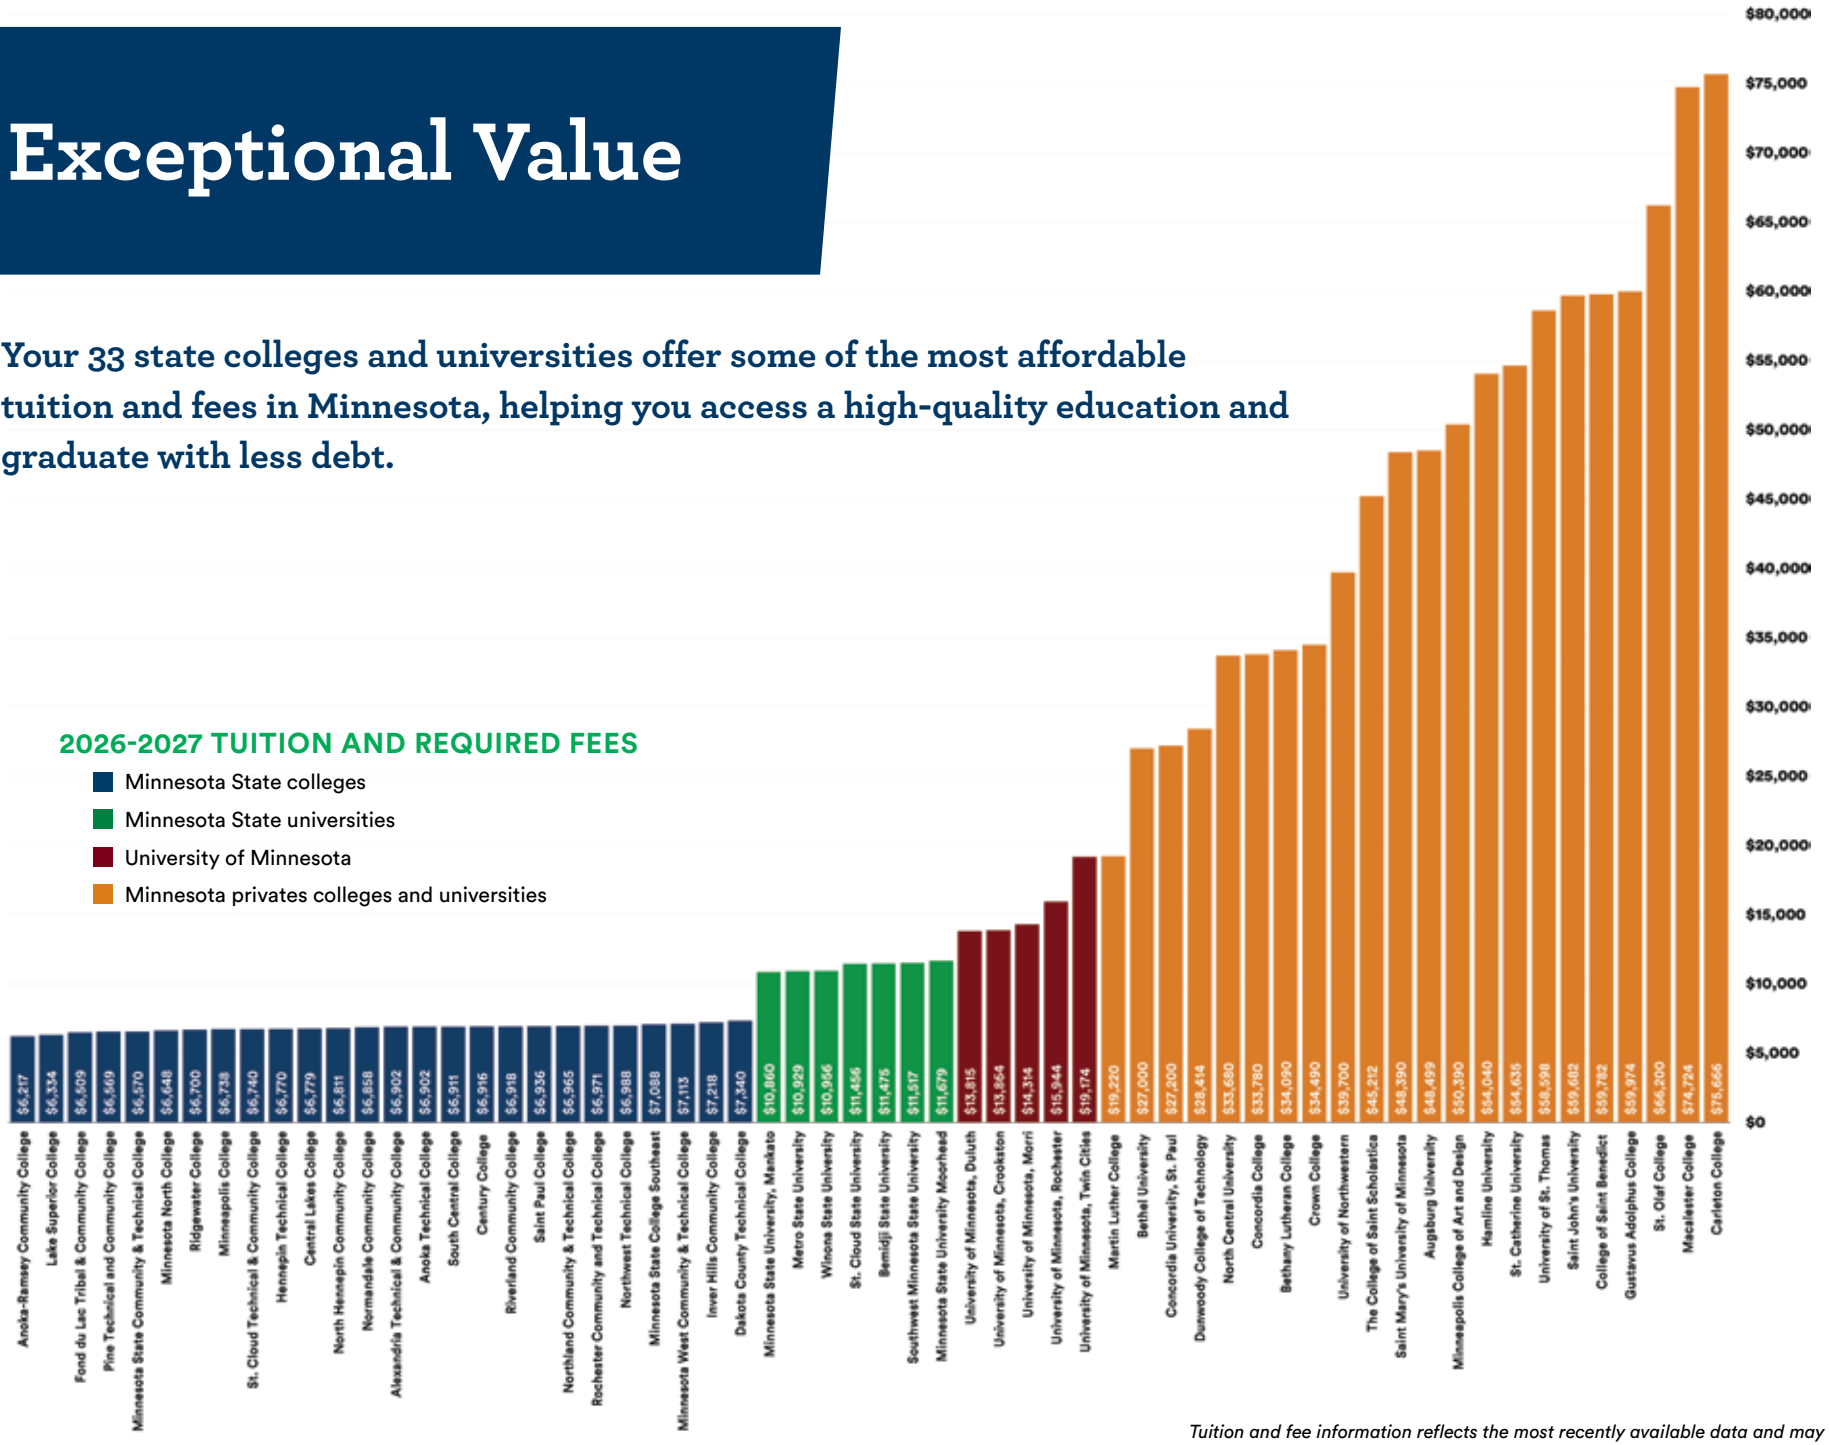

(Individual colleges and universities may accept some courses)

DIPLOMAS AND CERTIFICATES

Industry-driven programs designed for immediate entry into the workforce. These programs are not designed to transfer.

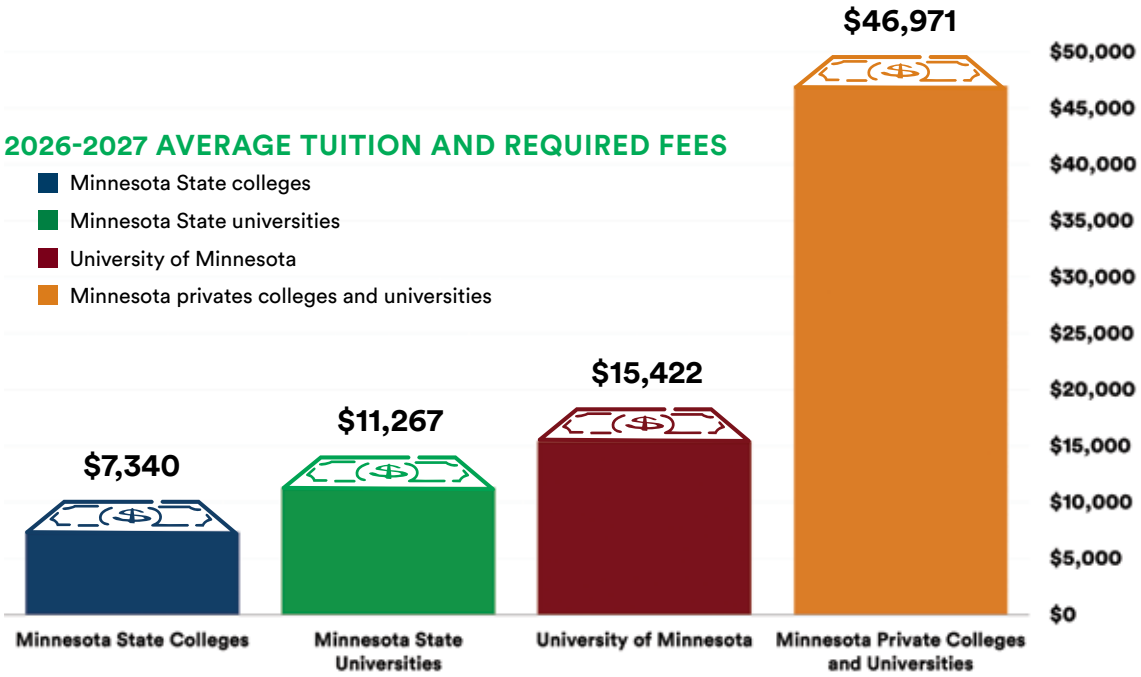

Exceptional Value

Your 33 state colleges and universities offer some of the most affordable tuition and fees in Minnesota, helping you access a high-quality education and graduate with less debt.

Tuition and fee information reflects the most recently available data and may change. Contact the college or university for the most up-to-date information.

The chart on the opposite page and the one below compares tuition and fees rates across Minnesota institutions. Minnesota State colleges and universities offer lower-cost options than many other public and private colleges in Minnesota.

Not from Minnesota? Many of your Minnesota State colleges and universities offer in-state tuition rates to residents of other states. Check with the college or university you're interested in for details. Military-connected individuals and their families qualify for in-state tuition.

FINANCIAL AID OPTIONS AND SUPPORT

MINNESOTA STATE PROMISE

Minnesota State promises to provide an extraordinary education that is affordable, accessible, enhances quality of life, and ensures prosperous communities. Learn more at MinnState.edu/admissions/minnesotastatepromise

NORTH STAR PROMISE SCHOLARSHIP

The North Star Promise Scholarship program provides eligible Minnesota residents a tuition-free path to a bachelor's degree. More information is available on the Minnesota State Office of Higher Education (OHE) website at ***ohe.mn.gov***

FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)

The Free Application for Federal Student Aid (FAFSA) is the first step in applying for financial aid for college. Visit ***studentaid.gov*** to learn more

SCHOLARSHIPS

Scholarships can help you pay for your education and reduce your overall cost. They typically do not have to be repaid. Learn more at ***MinnState.edu/admissions/financialaid***

TAX CREDITS

You may qualify for federal tax credits that can help lower the cost of education. Consult a tax professional or visit ***irs.gov***

Z-DEGREES

Z-Degree programs use course materials with no cost for books. Learn more at MinnState.edu/zdegree

Extraordinary Possibilities

STUDENT LIFE

Choosing a Minnesota State college or university means access to a vibrant campus community. From your first day, you'll find opportunities to get involved and make your experience your own. Explore clubs, organizations, events, and varsity athletics (PAGES 57 AND 64) along with study abroad and service-learning opportunities at the college or university you plan to attend.

You can also get involved in student government on your campus or at the state level through Students United (representing state university students) and LeadMN (representing community and technical college students).

It's all part of building connections and finding your perfect fit. Learn more about student life at *MinnState.edu/admissions/studentlife*.

Exceptional Talent

BRIGHTER FUTURES

Your Minnesota State colleges and universities are a vital resource for Minnesota employers.

They prepare students with the skills employers need and work closely with business and industry to develop relevant programs and curriculum.

Gain real-world experience — Employers across Minnesota partner with your colleges and universities to offer internships and job opportunities. These professionals also serve as advisors, helping shape curriculum, support equipment needs, and develop new programs and courses.

Be the talent of tomorrow —Your state colleges and universities award more than 34,000 certificates, diplomas, and degrees each year. Eighty-five percent of graduates begin working in their field within one year.

Find solutions to changing business needs — All 33 state colleges and universities offer noncredit learning options through experienced instructors who partner with employers to develop training programs that help employees thrive in a changing global marketplace and keep their skills competitive.

Update your skills and knowledge with continuing education — Advance your career by building new skills, retraining for a new field, or earning certifications and licenses.

These opportunities help you build your future and find your perfect fit. Many of these pathways are also designed to help you move forward without taking on unnecessary debt.

Extraordinary Impact

Minnesota State is making a difference. From the students we serve to our business partners and employees, chances are you or someone you know has benefited from your state colleges and universities.

**Note the median for all graduates with certificates/diplomas/associate degrees is $0 as over half did not borrow.*

Exceptional Resources

ACADEMIC SUPPORT

Minnesota State provides an affordable, accessible education designed to support your success and strengthen communities across Minnesota. Learn more about the Minnesota State Promise at *MinnState.edu/minnesotastatepromise*.

On-Campus Academic Assistance — Advisors help you plan your courses, explore career options, and stay on track toward graduation. Many campuses also offer workshops on study skills, time management, and academic success.

TRIO — TRIO programs provide additional support for students from low-income backgrounds, first-generation college students, and students with documented disabilities. Services may include coaching, mentoring, advising, and tutoring. Learn more at *MinnState.edu/admissions/TRIO*.

Accessibility Services — Your state colleges and universities provide accessible facilities and accommodations for students with documented disabilities.

Support for Military-Connected Students — All Minnesota State colleges and universities have earned the Beyond the Yellow Ribbon designation, reflecting a strong commitment to supporting veterans, service members, and their families. Learn more at *MinnState.edu/military*.

Career Planning — Explore career services at the college or university you're interested in, or use *Career Exploration Tools* to explore careers, take assessments, find programs and courses (including short-term and continuing education), and get tips for a successful job search.

BASIC NEEDS AND WELLNESS SUPPORT

You've got this. We've got you.

Your Minnesota State colleges and universities understand that students have responsibilities beyond the classroom. Support is available to help you succeed in school and in life. From financial challenges to health and wellness, resources are in place to support your well-being and help you stay on track. Learn more about student resources at ***MinnState.edu/admissions/studentresources***.

Financial and Emergency Support — Emergency grants, financial planning, and access to community resources can help you manage unexpected expenses and stay on track.

Hunger-Free Campus Initiatives — All Minnesota State colleges and universities offer food pantries or cupboards, along with connections to programs like SNAP and other community resources.

Health and Mental Health — Minnesota State students have access to additional mental health support through a partnership with Mantra Health—at no cost. Services include:

- Self-guided mental health and wellness tools
- 24/7 peer support and in-the-moment emotional support
- Short-term therapy and wellness coaching
- Support navigating campus and community resources
- Referrals for specialized care

Housing Support — Many campuses provide housing options or can connect you to resources that support stable and affordable living.

Childcare and Family Support — Many campuses offer childcare options, flexible course schedules, and services to help students balance school and family responsibilities.

Transportation and Technology Support — Colleges and universities can help connect you to resources for transportation, internet access, and technology needed for your coursework.

24/7 Support and Referrals — Free, confidential help is available through United Way 211. Call 2-1-1 or text your ZIP code to 898211 to connect with local resources anytime.

Contact the college or university you're interested in to learn more about available support services. **These resources are here to support your success and help you find your perfect fit.**

NEXT STEPS

1. Speak to friendly staff at the college or university you are considering.

2. Get to know your state colleges and universities using this guidebook or by visiting *MinnState.edu*.

3. Check out the hundreds of programs available on your campuses at *MinnState.edu/programs* or use the program grid found in the "Endless Opportunities" section of this book, starting on **PAGE 51**.

4. Visit campuses to find the college or university that is the right fit for you.

READY TO APPLY?

1. **CONTACT OR VISIT** the college or university you are considering to get specific admission requirements.
2. **SUBMIT YOUR APPLICATION.** Minnesota State universities typically accept applications in the fall, and the state colleges generally accept applications up until the start of the new semester. Visit MinnState.edu/admissions.
3. **APPLY FOR FINANCIAL AID** by visiting studentaid.gov and access the Free Application for Federal Student Aid (FAFSA).
4. **LOOK FOR SCHOLARSHIPS** by contacting the college or university you plan to attend for information and resources to begin the scholarship application process.
5. **START PLANNING** to achieve your goals by looking at the academic calendar for the college or university you wish to attend and getting to know staff who can assist you throughout your time on campus.

26 STATE COLLEGES

Minnesota State is home to 26 community, technical, and comprehensive colleges. These colleges are a great place to earn a degree and enter the workforce or complete an associate's degree and transfer to a bachelor's program.

Interested?

» **CHECK OUT THE OPTIONS.** The profile pages that follow provide an overview of all 26 colleges.

» **VISIT CAMPUSES.** The best way to find your fit is to visit campus and explore your options.

» **UNDERSTAND WHAT YOU NEED TO ENROLL.** Each college has an open admissions policy, meaning you need only a high school diploma or GED to enroll. If you don't have a high school diploma or GED, you may qualify through an approved Ability to Benefit test or by enrolling in a career pathway program. Visit each college's website for specific requirements.

» **KEEP TRANSFER IN MIND.** If you plan to continue to a university, explore pathway programs designed to make the process easier. Planning ahead can save time, money, and stress.

» **CONNECT WITH STAFF AND FACULTY.** Reach out to admissions staff, connect with faculty, and get to know the people at the college you're considering.

CAMPUS HIGHLIGHTS

- Anoka-Ramsey offers 60+ degrees, diplomas, and certificates
- 18 Transfer Pathways allow students to seamlessly transition to a bachelor's degree
- Two campuses located on riverbanks: study at the Cambridge campus near the Rum River, or at the Coon Rapids campus on the Mississippi River
- Variety of student support services available, including academic advising, disability services, career services, veterans support, counseling, and tutoring
- The Coon Rapids campus named a Hunger Free Campus with an on-campus food pantry. Cambridge campus provides students with innovative self-service fresh food pantry
- Unique undergraduate research opportunities offered across areas, including biology, chemistry, communication studies, geology, philosophy, political science, and sociology
- Fully accredited by the Higher Learning Commission and home to nationally accredited programs in nursing, business management and accounting, music, and physical therapist assistant
- The Coon Rapids campus offers a 28,976-square-foot Visual Arts Center with a glassblowing studio, photography studio, ceramics, computer labs, and classrooms
- Both campuses are home to proscenium-style theatres that help support the theater program and multiple student performances annually
- The Coon Rapids campus Music Building offers three large rehearsal spaces, six practice rooms with SmartMusic notation and recording software, and a dual Yamaha keyboard/Macintosh music technology lab
- The Coon Rapids campus' 5,000-square-foot Health and Wellness Center features a fitness center, walking track, batting cages, and several gymnasiums
- Division III athletics, including men's and women's basketball and soccer, women's softball, men's baseball, women's volleyball, and co-ed clay target
- Solar array on the Cambridge campus produces approximately 70,000 kilowatt hours of energy annually. Bee lawn on the Coon Rapids campus aims to feed local pollinators and preserve natural landscapes

PROGRAM HIGHLIGHTS

Century College offers a broad range of high-demand programs for both career entry and transfer pathways. Highlights include additive and digital manufacturing; automotive service technology; computer science; cybersecurity, forensics, and information assurance; dental hygiene; nursing and nursing assistant; engineering; HVACR; interior design; kitchen and bath design; criminal justice; liberal arts and science transfer degrees; medical assistant; mental health and behavioral health worker; prosthetic, orthotic, and pedorthic program; paramedic; radiologic technology; visual communications careers; and more

STUDENT ACTIVITIES

25+ student clubs, organizations, and activities available in areas such as fine and performing arts, recreation, and career development. Visit *century.edu* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

- **Affordable education:** Century College makes earning your degree financially accessible. With competitive tuition rates, financial aid, and numerous scholarship opportunities, students can pursue their education while managing or reducing debt
- **Transfer opportunities:** Transfer opportunities help students save significantly on a bachelor's degree. Options include associate of arts degrees, associate of fine arts degrees, Minnesota State Transfer Pathways, and general education coursework in the liberal arts and sciences
- **Immediate career entry:** Prepare for careers in high-demand fields through associate of applied science degrees, diplomas, and certificates, spanning areas such as applied design, business, health sciences, human services, STEM, and trade and industry
- **Flexible learning options:** Maintain a work–school–life balance with flexible course options, including online, hybrid, daytime, evening, and part-time schedules, along with credit for prior learning
- **State-of-the-art facilities:** Learn in modern classrooms and labs with the latest technology, including an Applied Technology Center and specialized labs for digital fabrication, prosthetics, orthotics, pedorthics, and health sciences simulation
- **Comprehensive student support:** Receive personalized support, including advising, tutoring, career counseling, wellness, veteran, disability, and technology services, as well as an on-campus student resource center
- **Vibrant campus life:** Engage in various activities and organizations. Students can participate in athletics, clubs, campus recreation, arts and theater, competitions, guest speakers, and dedicated LGBTQ and Veterans Centers
- **Strong community ties:** Benefit from robust community and business partnerships that enrich our academic curriculum and provide real-world experiences. Opportunities include internships, service learning, and career exploration to enhance learning and career prospects
- **Continuing education:** Whether enhancing job skills or retraining for a new career, our Continuing Education and Customized Training department offers a broad range of non-credit, short-term courses tailored to meet ongoing professional and personal development needs
- **Committed to student success:** Century College is a Leader College in Achieving the Dream, a national network focused on improving student success and closing equity gaps through evidence-based practices

Associate of Applied Science, Associate of Arts, Associate of Fine Arts, Associate of Science, Certificate, Diploma

PROGRAM HIGHLIGHTS

Find your passion and build your future at Inver Hills Community College, where all students belong. The campus supports student success through a focus on inclusion, equity, and learning. Located less than 10 miles south of St. Paul, Inver Hills offers nearly 40 programs, including: accounting, biology, climate change studies, computer science, criminal justice, culturally responsive professional peace officer training, emergency medical services, engineering fundamentals, environmental science, individualized professional studies, network technology and security, nursing, paralegal, pre-social work, project management, psychology, social justice studies, Spanish, and more, including opportunities to earn college credit while in high school (Concurrent Enrollment and PSEO).

STUDENT ACTIVITIES

25+ student clubs, organizations, and activities available in areas such as music, theater, culture, and student leadership. Visit *inverhills.edu* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

- Inver Hills offers a supportive learning environment with small class sizes and opportunities to get involved. Students get to know their instructors and peers
- Inver Hills prepares students for career success through challenging coursework, internships, community-based learning, and ongoing career development support
- Inver Hills provides a wide range of services, including advising, counseling, financial aid, food and basic needs support, tutoring, and both in-person and online resources
- From day one, students are set up for success through programs such as New Student Orientation and First Year Experience Communities
- Financial aid and scholarships help thousands of students each year reach their goals while reducing student loan debt
- Student life and student clubs offer opportunities to be involved and take leadership roles on campus
- A broad range of adult learner services includes part-time scheduling, online tutoring, and opportunities to earn credit for prior learning
- Nestled into the hills of Inver Grove Heights right off Highway 52, our beautiful campus features multiple ponds and a community garden
- Inver Hills students are well prepared to transfer to four-year colleges, with strong credit transfer options and advising support

HUNGER FREE CAMPUS

TRIO SERVICES

DEGREES OFFERED

Associate of Applied Science, Associate of Arts, Associate of Fine Arts, Associate of Science, Certificate, Diploma

PROGRAM HIGHLIGHTS

Lake Superior College offers more than 80 programs, including: allied health and nursing, automotive service technology, aviation, cybersecurity, dental hygiene, emergency medical technician (EMT), fire technology and administration, integrated manufacturing, liberal arts and sciences, business administration, physical therapist assistant, carpentry, and much more

SPECIAL OPTIONS

» Lake Superior College collaborates with many four-year institutions, including Bemidji State University, Metro State University, St. Cloud State University, Minnesota State University, Mankato, Southwest Minnesota State University, The College of St. Scholastica, University of Minnesota Duluth, and University of Wisconsin–Superior, to provide seamless transfer pathways

» LSC partners with area high schools through Postsecondary Enrollment Options (PSEO) and College in the Schools (CITS) programs

» Z-degree programs offer zero-cost textbooks for Associate of Arts (AA) and Minnesota Transfer Curriculum (MnTC) courses

» The LIFE@LSC program focuses on academic and employment goals, as well as, life skills and social opportunities for students with intellectual or developmental disabilities

STUDENT ACTIVITIES

Over 40 student clubs, organizations, and activities are available in areas such as arts, recreation, student leadership, and career development. Visit *lsc.edu* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

» The main campus sits on a 97-acre wooded site overlooking Lake Superior and the St. Louis River Bay. It features an interpretive hiking trail with 14 sites of ecological and geological interest, as well as a designated trout stream (Miller Creek)

» One of the largest two-year colleges in northeastern Minnesota offers small class sizes and flexible scheduling

» On-site veterans services are available through the Veterans Resource Center, Higher Education Veterans Program, and Minnesota Department of Veterans Affairs

» Earned Silver status as a 2026-27 Military Friendly® School

» Transfer Pathway programs are available in fields such as art, biology, chemistry, communication, criminal justice, economics, English, exercise science, health sciences, history, mathematics, pre-social work, psychology, and sociology, helping students complete an associate degree and transfer to a bachelor's program

» LSC participates in the Inside-Out Prison Exchange Program, bringing together campus-based and incarcerated students for a semester-long course held at the Duluth Federal Prison Camp. LSC is one of only a few institutions in Minnesota to offer this program

» Community partnerships connect students with local, regional, and state agencies and nonprofits through workforce training, customized programs, and advisory councils

» The Center for Advanced Aviation hangar at the Duluth International Airport houses both LSC's professional pilot and aviation maintenance technician programs

» The Emergency Response Training Center provides world-class training for emergency response professionals

» Students provide dental hygiene, massage therapy, and physical therapy services through faculty-supervised clinics that serve both students and the community

» Students can apply for scholarships held by the LSC Foundation each April and October

Associate of Applied Science, Associate of Arts, Associate of Fine Arts, Associate of Science, Certificate

PROGRAM HIGHLIGHTS

Art, business, computer science, dental hygiene, law enforcement, liberal arts, music, nursing, psychology, science and engineering, teacher education, theater, world languages

STUDENT ACTIVITIES

40+ student clubs, organizations, and activities available in areas such as arts, recreation, student leadership, and career development. Visit *normandale.edu/campus-life* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

- Prepares students for full participation in diverse communities, creates pathways to other college programs, and builds community connections. Normandale is committed to quality, affordability, student access, and success
- Normandale offers 70+ associate degree and certificate options; in-person, online, or hybrid formats
- More than 16,000 students from diverse backgrounds attend classes at the college each year, making it Minnesota's largest community college
- Normandale offers accredited music, theater, art, and business programs—rare among two-year colleges in Minnesota and nationwide

- Normandale is a top transfer institution to Metro State University; Minnesota State University, Mankato; University of Minnesota; University of St. Thomas; and many others
- College Services area features modern classrooms, state-of-the-art labs and small group spaces for student collaboration, and creates a centralized Student Services model that makes it easy for students to find services and support
- Continuing Education offers courses for in-demand skills and collaborates with industry partners through grants from MN DEED
- One of eight two-year colleges nationally to partner with Aon on a full-time apprenticeship program that combines education and work experience
- Services are provided for second language and developmental education students and students with disabilities
- Normandale Tutoring Center provides services to students through the Writing Center, embedded Peer Assistant Study Sessions tutors, walk-in peer tutoring, and tutoring for non-native English speakers
- Normandale's community dental clinic accepts public assistance and offers dental services on a sliding fee scale
- Normandale's Campus Cupboard is a resource that provides fresh meals to students
- Normandale is a Beyond the Yellow Ribbon military-friendly organization
- Normandale has one of the few authentic Japanese Gardens in the state
- Normandale will open a Center for Interprofessional Education in Healthcare in Fall 2026

ON-CAMPUS HOUSING

DEGREES OFFERED

Associate of Applied Science, Associate of Science, Certificate, Diploma

PROGRAM HIGHLIGHTS

Accounting, administrative assistant, automotive service and performance, business, business foundations, cardiac sonography, community health worker, cosmetology/esthetics/ nail technician, dental assisting, electrical construction and maintenance, gerontology, health care administrative, health sciences, heating, air and refrigeration technology, human resources, management and entrepreneurship, IT support/support technician, medical coding, nursing (practical nursing, LPN step-in track, RN), plumbing technology, sales and marketing

STUDENT ACTIVITIES

Numerous student clubs, organizations, and activities are available. Visit *ntcmn.edu* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

- Academic programs, both on campus and online, closely match career opportunities
- New programs in cardiac sonography and IT support starting in Fall 2026
- All nursing programs include online lecture courses with in-person, hands-on labs and clinical experiences
- State-of-the-art technology resources and labs offer students an in-depth, hands-on learning experience
- Recent lab upgrades for programmable logic controls, automotive, dental assisting, nursing, and heating, air conditioning and refrigeration technology
- Most NTC students spend four hours in hands-on labs for every hour spent in lectures
- Automotive (ASE Education Foundation Master Level), dental assisting (Commission on Dental Accreditation), and nursing (Accreditation Commission for Education in Nursing) programs are fully accredited
- Programs are guided by industry partners through active and engaged program advisory committees
- Students experience personal attention, small classes, supportive faculty, and well-equipped labs, as well as abundant parking
- Students are enabled to succeed in both the classroom and workplace through support from the Student Success Center, which offers tutoring, library assistance, academic coaching, career services, and academic advising
- Through a partnership with Bemidji State University, students can live in BSU student housing and enjoy the benefits of an on-campus college experience
- Internships and hands-on experiences are woven into program requirements, ensuring that students graduate with the skills they need to succeed
- "The Roost" is a comfortable student lounge that provides a casual spot to relax, play a game, study, or just hang out and socialize
- A lively and engaging Student Success Center connects NTC students with a variety of services and support to ensure their academic success. The center offers test proctoring, tutoring, free social activities, and more
- Students can join leadership organizations such as NTC Student Senate and program-specific organizations such as student-led clubs for automotive, child education, and nursing
- Nearly all students who use NTC's tutoring services eventually pass their classes, and most receive grades of A or B
- The Center for Diversity, Equity, and Inclusion and American Indian Resource Center support students through events and programming meant to increase both the understanding of diversity, equity, and inclusion

VISIT

Associate of Applied Science, Associate of Arts, Associate of Fine Arts, Associate of Science, Certificate, Diploma

PROGRAM HIGHLIGHTS

RCTC offers nearly 70 programs in 10 academic pathways, including accounting, aviation pilot, business, cancer registry management, cardiovascular invasive specialist, clinical neurophysiology technology, cybersecurity, dental hygiene, health information technology, histology technician, intensive care paramedic, liberal arts and sciences, magnetic resonance imaging (MRI), mass communication, nursing, peace officer, radiography, surgical technology, veterinary technology, and many more. Several programs hold national certifications and accreditations.

STUDENT ACTIVITIES

The College features dozens of student clubs, organizations, and activities, including student government, special interest groups, honor societies, and service organizations. RCTC is home to eight varsity athletic teams, including football, baseball, wrestling, men's and women's basketball, volleyball, softball, and soccer. Find out more about RCTC's athletic teams and opportunities *rctcyellowjackets.com*.

The College also offers several performing and fine arts opportunities for students including theatre productions, vocal and instrumental music programs, and an art gallery for student exhibitions. For a full list of student organizations, clubs, and events, visit *rctc.edu* or *MinnState.edu*.

CAMPUS HIGHLIGHTS

- Founded in 1915 on a motion by Dr. Charles Mayo (co-founder of the world-renowned Mayo Clinic) to the Rochester School Board, RCTC is Minnesota's oldest public two-year college and one of the nation's oldest original community colleges
- 518-acre campus with 20 buildings, including the Rochester Regional Sports Center and Stadium
- Rochester is one of the nation's "Most Livable Cities," the third-largest city in Minnesota, and home to Mayo Clinic and IBM Rochester
- RCTC offers more than 70 academic programs with over 90 credential options in on-campus, hybrid, and online delivery methods
- Innovative academic partnership with Mayo Clinic—with six collaborative programs offered, including cardiovascular invasive specialist, clinical neurophysiology technology, histology technician, intensive care paramedic, radiography, and MRI
- Multiple articulation and transfer agreements with four-year universities, so RCTC credits will seamlessly transfer
- The college has partnerships with dozens of local organizations, including Rochester Public Schools/CTECH and P-TECH, Mayo Clinic, Olmsted Medical Center, Rochester Area Chamber of Commerce, plus many more
- RCTC Foundation awards over 400 scholarships totaling more than $500,000 to RCTC students
- Access to support services, including student health clinic, mental health practitioners, Hive Supply food cupboard, student emergency fund, winter clothing closet, plus much more
- Beyond the Yellow Ribbon distinction for offering student veterans resources and support services
- Rochester Regional Sports Center which features a 40,000 Field House, Performance Court, and Regional Stadium

DEGREES OFFERED

Associate of Applied Science, Associate of Arts, Associate of Science, Certificate, Diploma

PROGRAM HIGHLIGHTS

South Central College (SCC) offers a wide variety of Career and Technical, Transfer, and Customized Workforce Education programs. Transfer options enable students to start their bachelor's degree at SCC before transferring to a university. Some students opt to take specific Minnesota State Transfer Curriculum courses to satisfy some of their university general education requirements. Others choose to earn their full associate degree at SCC, which enables them to complete the first half of their bachelor's degree and transfer to a state university as a junior in their program of interest. Career and Technical programs prepare students to start or advance in a rewarding field as soon as they graduate, with the option to continue their education while working. SCC's Customized Workforce Education division offers specialized, short-term career training programs to help organizations train their employees and help individuals grow in their current field or pursue a new occupation

STUDENT ACTIVITIES

SCC provides students with growth opportunities inside and outside the classroom, offering student life activities to nurture the whole person. Student clubs and organizations include the African Student Association, Campus Activities Board, Dental Assisting Club, Diversity Club, Dungeons and Dragons Club, International Student Association, Leadership Learning Community (LLC), Multicultural Club, Phi Theta Kappa, Postsecondary Agricultural Student Organization, PRIDE, Psychology Club, SkillsUSA, Student Nurses Association, and Student Senate. Visit *southcentral.edu/studentlife* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

- 100 Career-Ready awards and degrees are available in the following areas: agriculture, arts and communications, building and design, business, education and human services, health sciences, manufacturing, and transportation
- To provide a smooth transition from South Central College to a Minnesota State university, SCC offers 10 Minnesota State Transfer Pathway associate degrees including three new options in accounting, English, and history degrees for the 2025-26 school year
- Short-term, career-relevant training is provided to approximately 12,000 individuals each year through SCC's Customized Workforce Education division
- SCC supports students with services that drive success from tutoring to on-campus social workers
- $500,000+ in scholarships are distributed to students each year from the South Central CC Foundation
- The college is accredited by the Higher Learning Commission, with seven programs having additional industry accreditations
- Contributions from industry partners have helped fund state-of-the-art agribusiness, health sciences, nursing assistant, and welding labs on SCC's North Mankato campus as well as future dental, infrastructure solutions and surgical technology labs with more to come
- SCC has strong relationships with area businesses that provide students with internships and apprenticeships while in school and permanent employment after graduation
- SCC is a Leader College of Achieving the Dream (ATD), a network of 300+ colleges committed to helping students achieve their goals, advancing equity, and supporting student success at their institutions and throughout their communities

Advanced Technical Certificate, Associate of Applied Science, Associate of Arts, Associate of Science, Certificate, Diploma

PROGRAM HIGHLIGHTS

Aircraft maintenance technician, adult echocardiography, liberal arts and sciences, PSEO, cardiovascular technology, culinary arts, diesel mechanic, early childhood and elementary education, network administration, robotics and industrial controls

SPECIAL OPTIONS

Transfer Degree Programs – Biology transfer pathway AS, business transfer pathway AS, elementary education foundations transfer pathway AS, environmental science AS, liberal arts and sciences AA, mathematics transfer pathway AA, psychology transfer pathway AA, Spanish transfer pathway AA, and special education transfer pathway AS. Transfer Pathways are designed to fully transfer to Minnesota State universities that offer a related bachelor's degree. Environmental science transfers via articulation agreements

Short-term Certificates – SCTCC offers learning options that are short-term but also allow for growth. CNC and advanced machining provides a credential after each full-time semester with two certificate and two diploma options. Early childhood education offers a certificate, diploma, and AAS through the same growth-centered options

Online Programs – SCTCC offers seven programs completely online: AA, accounting, business, computer programming, early childhood education certificate, finance, health information technology/medical coding, and psychology. Computer programming, health information technology, and finance are only offered 100% online

Advanced Manufacturing Center – The Advanced Manufacturing Center offers community collaboration and supports cross-training for SCTCC's manufacturing programs, supporting regional employers' need for high-demand jobs in manufacturing

Aircraft Maintenance Technician – After a fast-tracked start, this program received FAA certification and starts Fall 2026. The program offers AAS and diploma options, and SCTCC has the lowest credit load of all available programs in the system

STUDENT ACTIVITIES

More than 25 student clubs, organizations, and activities. The SCTCC Cyclones compete in five intercollegiate sports: men's and women's basketball, baseball, softball, and volleyball. The Cyclones are members of the Minnesota College Athletic Conference (MCAC) and the National Junior College Athletic Association (NJCAA). Collegiate DECA provides opportunities for students to enhance their marketing, management, and business skills. Students in auto body, automotives, diesel truck technician, HVAC/R, and electrical compete in SkillsUSA competitions and qualify for national competitions. Visit *sctcc.edu/campus-life* or *MinnState.edu* to explore the full list of activities.

CAMPUS HIGHLIGHTS

- 98 percent of SCTCC grads available for work find jobs in their fields
- Student services include a Multicultural Center, First-Gen Cyclones Success, Cyclones Cupboard food pantry, Wellness Resource Services, mental health professional, tutoring, and Career Services
- Cutting-edge simulation labs featuring equipment donated and used by area industries
- Highly involved advisory boards mean SCTCC is aligned for area industry needs
- In 2025, more than $375,000 in scholarships was awarded to 358 students
- Childcare facility on campus
- Beyond the Yellow Ribbon Company designation

VISIT

Schedule a visit with our admissions team for a campus tour or to learn more about your program of interest today at *sctcc.edu/visit*.

FINE ARTS

7 STATE UNIVERSITIES

Seven state universities are part of Minnesota State. Each offers pathways to earn your bachelor's degree—or beyond—and prepare for your future career.

Interested?

You may be admitted as a first-year student at a state university if you can answer yes to at least one of the following:

- Did you graduate in the top half of your high school class?
- Did you earn a combined score of 1,000 or higher on the SAT, or a comparable score on the redesigned SAT?
- Did you score 21 or higher on the ACT?

Planning to attend a state university?

If you answered yes to one of the questions above, here are your next steps:

- **EXPLORE YOUR OPTIONS.** The profile pages that follow provide an overview of the seven state universities.
- **UNDERSTAND ADMISSION REQUIREMENTS.** Some universities may have additional admission requirements. Check with the admissions office at the university you're interested in for details. If you don't meet the minimum requirements, you may still be considered for admission through special provisions.
- **ASK QUESTIONS AND VISIT CAMPUS.** There's no better way to find the right fit. Contact an admissions office to ask questions or schedule a visit.

CAMPUS HIGHLIGHTS

- **Successful –** 97 percent of WSU graduates are hired in their field or pursue further education
- **Affordable –** WSU ranks #1 for Best Value Colleges in Minnesota, and 97 percent of first-year students benefit from financial aid
- **Sustainable –** with the largest campus solar panel system, WSU is the most energy efficient university in Minnesota State. The LESS project cuts WSU's annual carbon footprint by 25 percent
- **Beautiful –** scenic bluffs and the Mississippi River are in WSU's backyard, meaning rock climbing, kayaking, and more are nearby
- **Competitive –** WSU is home to 14 NCAA Division-II and one Division-III varsity teams
- **Supportive –** the WSU community goes above and beyond to ensure student success. With small classes taught by expert faculty, students get direct support
- **Healthy –** with a full-service fitness center, the largest university climbing wall in the Midwest, and on-campus mental health services, WSU is dedicated to holistic health
- **Connected –** WSU students receive a fully equipped laptop with full-service tech support
- **Hands-on –** students can intern with some of the region's most prestigious organizations and use what they've learned to help others in their community
- **Trusted –** WSU is the oldest member of Minnesota State and has earned the #1 student success and graduation rates in the system
- **Lively –** Winona's thriving arts and music scenes provide entertainment that fits students' budgets

VISIT

Visiting campus is the best way for you to decide if WSU is the right fit for you. Connect with an admissions counselor and tour campus in person or online. Learn more at *winona.edu/visit*.

TRANSFER PATHWAYS

Minnesota State Transfer Pathways make it easy to complete a specific associate degree at a Minnesota State college and transfer to a Minnesota State university to earn a bachelor's degree without losing credits or taking extra courses.* Transfer Pathways can be a great way to save time and money as you work toward graduation.

*Students must meet special admission requirements for the major and are not guaranteed admission into the major itself. Call or visit the college or university you're interested in to learn more.

INTERCOLLEGIATE ATHLETICS – UNIVERSITIES

Student-athletes attending Minnesota State universities have remarkable opportunities to join elite, nationally competitive programs. The Northern Sun Intercollegiate Conference, one of the nation's premier NCAA Division II leagues, counts six Minnesota State universities among its 16 members. And, three of our universities sponsor NCAA Division I ice hockey.
