---------------------------	------------

1998 Finances for Cities Under 2,500 in Population

Governmental Revenues

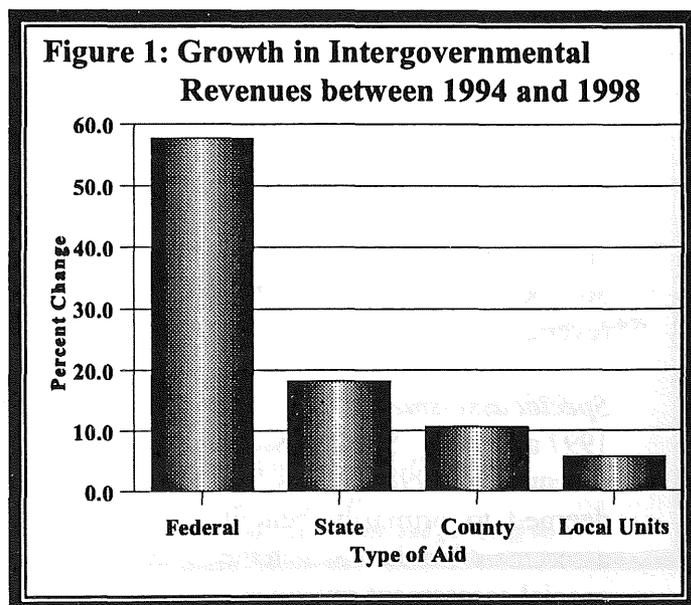

The following analysis focuses on the 661 of 668 Minnesota cities with populations less than 2,500 ("small cities") that submitted financial information to the Office of the State Auditor. Revenues for these cities totaled \$344.7 million in 1998, excluding borrowing and transfers from other funds. This represents an increase of \$28.7 million or 9.1 percent over 1997. The principal sources of revenues in 1998 were: intergovernmental revenues, which accounted for 39.9 percent of revenues; property taxes, which accounted for 22.7 percent of revenues; and "all other revenues," which accounted for 13.1 percent of revenues. All revenue sources except federal grants increased between 1997 and 1998.

- **Intergovernmental revenues.** Cities receive grants and aids from federal, state, county, and other local sources. Intergovernmental revenues were the largest source of revenues for small cities in 1998 totaling \$137.7 million and accounting for 39.9 percent of total revenues. Intergovernmental revenues as a percent of total revenues decreased from 43.4 percent in 1994 to 39.9 percent in 1998.

State grants and aids. State grants and aids not only represented the largest share of intergovernmental revenues (80.0%) but were also the *single* largest source of revenues for small cities in 1998, accounting for 32.0 percent of all revenues. State aid increased \$8.8 million or 8.7 percent between 1997 and 1998. The largest component of state aid is Local Government Aid (LGA), which totaled \$61.3 million in 1998. LGA increased \$2.9 million or 5.0 percent between 1997 and 1998.

Federal grants and aids. Federal grants to small cities totaled \$19.7 million in 1998. This represents a decrease of \$1.1 million or 5.5 percent from 1997. Although federal grants decreased between 1997 and 1998, the amount provided to small cities grew 57.7 percent between 1994 and 1998. In comparison, inflation grew 10.0 percent over the same period.¹ The majority of federal grants and aids received by cities help support major infrastructure projects such as wastewater treatment facilities

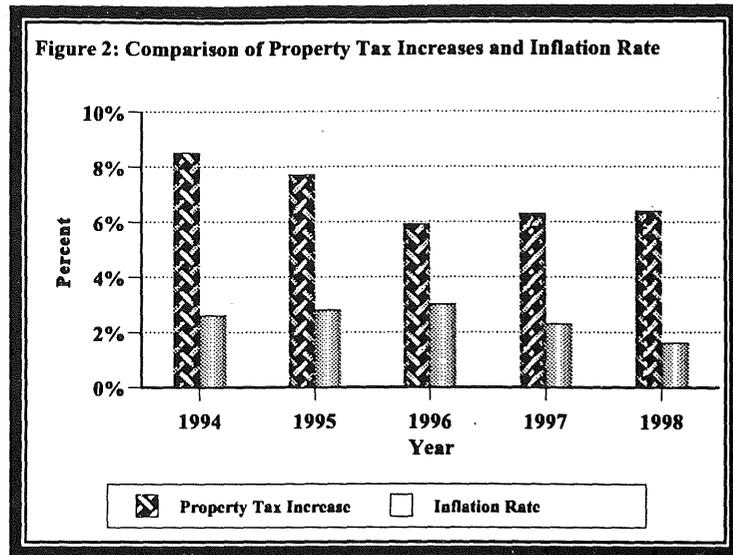

and sewer improvements. Cities also receive federal disaster assistance for activities such as flood control projects and recovery efforts.

¹ Source: U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Index.

- Property taxes.** Property tax revenues totaled \$78.3 million and accounted for 22.7 percent of revenues in 1998. As in the previous five years, general property tax revenues grew faster than the rate of inflation. In 1998, the consumer price index for urban areas (CPI-U) rose 1.6 percent², while property tax revenues increased 6.4 percent.

Figure 2 provides a comparison between property tax increases and the rate of inflation for the years 1994 through 1998.

- Charges for services.** Minnesota's small cities raised revenues of \$28.7 million from charges for services in 1998. This represents a 9.5 percent increase over 1997. Public safety charges for services accounted for 44.6 percent of all charges for services in 1998. Public safety fees are generated when one city provides police, fire, ambulance, or other public safety services to another local government. Park and recreation activities generated the second highest amount of fee revenue.

Public safety charges for services accounted for 44.6 percent of all charges for services in 1998.

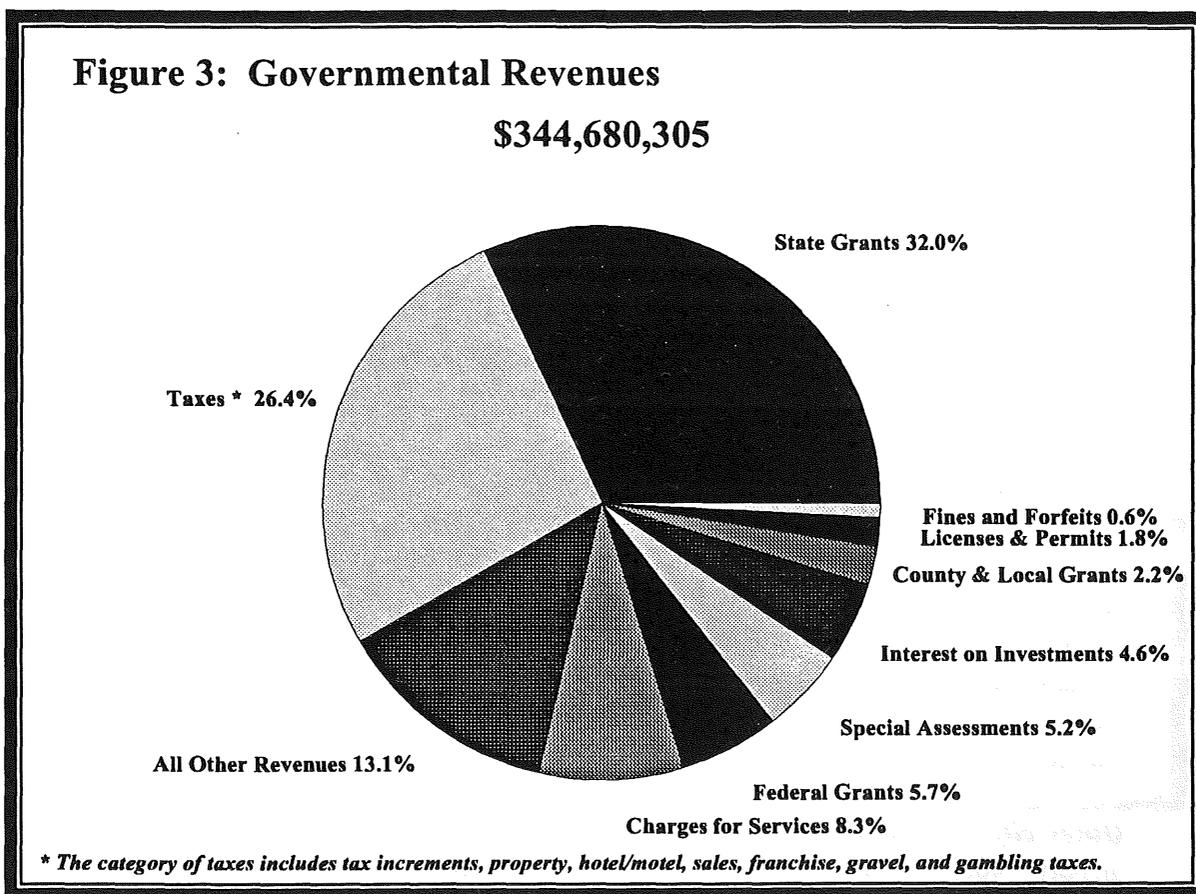

- Tax increments.** Cities generate tax increment revenue when they establish tax increment financing (TIF) districts. In a TIF district, a city reserves the use of a portion of the property taxes collected from parcels in the district to pay the costs of development and redevelopment rather than the general services of the city, county, and school district. Revenue from tax increments totaled \$11.9 million in 1998. This represents an increase of 2.8 percent over 1997 tax increments. Tax increment revenues as a percent of total city revenue ranged from zero to 36.2 percent among individual cities. For the 177 small cities with TIF districts, tax increment revenue averaged 6.0 percent of total revenues.
- Special assessments.** Revenue derived from special assessments increased 9.5 percent between 1997 and 1998. Special assessments totaled \$18.0 million and accounted for 5.2 percent of total revenues in 1998. Cities levy special assessments to pay for services and projects that are deemed to primarily benefit specific properties. Additionally, cities may issue special assessment bonds in which the interest and principal payments are funded wholly or in part by special assessment revenues.

²

Source: U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Index.

- **Licenses and permits.** This category accounts for revenue derived from fees collected for the issuance of both business and non-business licenses and permits. Revenues in this category totaled \$6.2 million in 1998. This represents an increase of 13.3 percent over 1997 levels. Growth in this category has been fueled by demand for residential and non-residential building permits.
- **All other revenues.** All other revenues totaled \$45.2 million and accounted for 13.1 percent of all revenues in 1998. This category of revenues increased 24.4 percent between 1997 and 1998. This category accounts for all revenues that have not been allocated elsewhere such as donations, certain lease payments, and insurance settlements.
- **Other sources of revenues.** Other sources of revenues that increased between 1997 and 1998 included interest on investments, which increased 2.0 percent; all other taxes, which increased 3.7 percent³; and fines and forfeits, which increased 10.0 percent.

Figure 3 summarizes the proportion of revenue that each source of revenue provides.

³ Excludes property taxes and tax increments, which are discussed separately.

Governmental Expenditures

Total Current Expenditures

Minnesota's cities under 2,500 in population had total current expenditures of \$200.4 million in 1998. This represents an increase of 4.8 percent over 1997.⁴ Highlights of 1998 city spending include:

- **Public safety.** Public safety current expenditures totaled \$56.4 million in 1998. This represents an increase of 3.4 percent over 1997. Spending on police, fire, ambulance and other protection represented the largest current expenditure for small cities at 28.1 percent of total current expenditures.
- **General government.** This category represented the second largest current expenditure in 1998, accounting for 25.0 percent of total current expenditures. Small cities spent a total of \$50.1 million on general government services such as administration, finance, and elections. This represents an increase of 5.0 percent over 1997 spending on general government services.
- **Streets and highways.** Small cities had streets and highways current expenditures of \$38.7 million in 1998. This represents a decrease of 2.8 percent from 1997. Streets and highways current expenditures accounted for 19.3 percent of all current expenditures. Streets and highways current expenditures include such items as maintenance, snow removal, lighting, and engineering. In addition to these current expenditures, cities under 2,500 in population spent \$44.5 million on construction and other capital projects related to streets and highways.
- **Culture and recreation.** Culture and recreation current expenditures rose to \$19.4 million in 1998. This represents an increase of 2.7 percent over 1997. Small cities have placed a greater priority on culture and recreation spending for several years. The emphasis on culture and recreation spending has lifted its share of total current expenditures from 9.2 percent in 1994 to 9.7 percent in 1998.
- **Economic development and housing.** Small cities spent \$19.5 million on housing and economic development activities in 1998. This represents an increase of \$6.1 million or 45.3 percent over 1997 levels. The Red River Valley floods of 1997 affected many of the cities along the Red River and its tributaries. To avert future flood-related losses, some cities bought out houses and businesses located in flood plains. These buyouts, as well as engineering and planning costs for new housing and development, are reflected in the large increase for this category of current expenditures.
- **Other city expenditures.** Small cities increased spending in 1998 for health (64.5%), and airports (40.6%), but spent 1.4 percent less on sanitation.

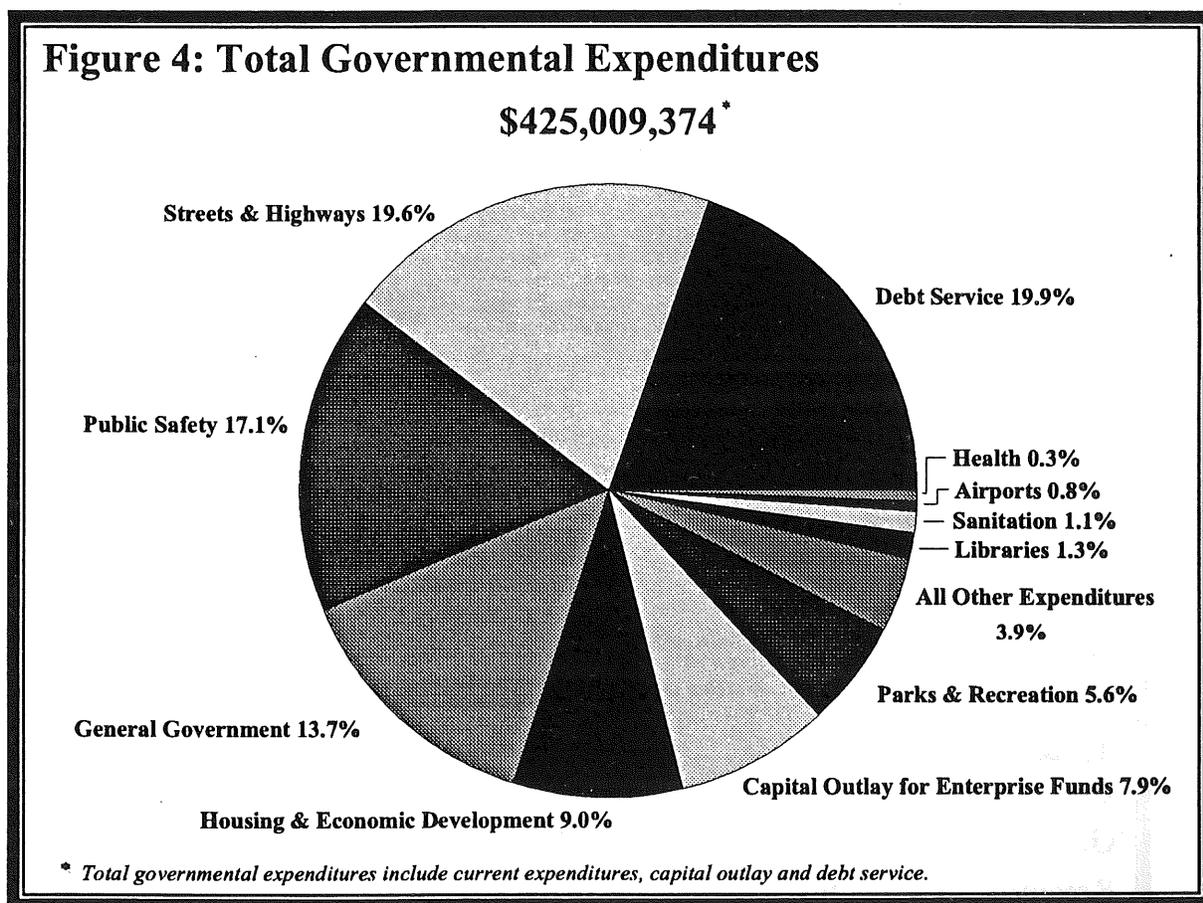

⁴ Current expenditures exclude capital outlay, debt service and other financing uses.

Capital Outlay and Debt Service

In addition to current expenditures of \$200.4 million, small cities had capital outlays of \$139.5 million and debt service payments of \$84.4 million in 1998. Small capital outlays increased \$12.6 million or 10 percent between 1997 and 1998. Street construction and the purchase of road and highway equipment totaled \$44.5 million and represented the largest category of capital expenditures in 1998. Streets and highways capital outlay grew by 38.9 percent between 1997 and 1998.

Debt service expenditures increased 19.4 percent between 1997 and 1998. For the first time since 1991, small cities spent more servicing their debt than on any other expenditure category. Debt service accounted for 19.9 percent of total governmental expenditures.

Figure 4 summarizes total governmental expenditures for cities under 2,500 in population.⁵

⁵

Total governmental expenditures exclude enterprise fund operations.

Municipal Enterprises

In addition to governmental funds, many cities establish enterprise funds to account for operations that are financed and operated in a manner similar to private business enterprises. These enterprises are intended to be self-sustaining through fees and user charges. Enterprise funds are also created to provide more detailed financial information on operations where there are public policy, accountability, management control and other concerns. Common enterprises created by cities include water, sewer, electric, gas, and heat utilities.

The operating income of public service enterprises (excluding municipal liquor stores) totaled \$15.5 million in 1998 on operating revenues of \$209.4 million and operating expenses of \$193.9 million. Municipal enterprises generated a net income of \$27.9 million in 1998 compared to \$19.5 million in 1997. This represents an increase of 43.4 percent over 1997. Small cities transferred a net of \$8.7 million from enterprise funds to governmental funds in 1998.

Total sales for municipal liquor stores increased \$2.2 million, cost of sales increased \$2.0 million, and gross profits were up \$144,882. Operating expenses increased \$28,188, operating income increased \$116,694, and net income increased \$75,371. Cities under 2,500 in population transferred profits of \$4.3 million from liquor store operations to other funds in 1998.

Indebtedness

During the year, bonds totaling \$128.1 million were issued and \$79.7 million were retired, leaving \$609.1 million in outstanding bonded indebtedness at the end of 1998. In addition, small cities held \$115.1 million in other long-term debt. On a per capita basis, there was a wide variance among small cities in the amount of outstanding long-term (bonded and other) debt. The average per capita long-term debt for cities was \$1,644. Per capita long-term debt ranged from a high of \$19,970 in the city of Becker to no debt in 181 cities. No information was available for the seven cities that did not report.

Figure 5 provides a two-year summary of bonds outstanding classified by type of issue:

<u>Type of Issue</u>	<u>1998</u>	<u>1997</u>
General Obligation	89,244,435	94,688,168
G.O. Tax Increment	94,760,848	93,152,431
Revenue Tax Increment	850,000	0
G.O. Special Assessment	148,430,686	136,333,480

... Projects Funds, and Debt Service Funds. Enterprise
... funds

Appendix A

Scope of Report and Methodology

This report provides a summary of the financial operations of the 668 cities under 2,500 in population for the calendar year 1998. Information concerning Minnesota cities over 2,500 in population is contained in a separate report.

Sources of the data include the annual city financial reporting form, audits by public accountants, financial statements prepared by the city clerk or clerk-treasurer, county auditors' reports of indebtedness, and the Department of Revenue records for state shared tax distributions, grants, aids, taxable valuations and tax levies.

In accordance with Minnesota Statutes § 471.698, cities must prepare and submit an annual detailed statement of the financial affairs of the city to the State Auditor. Of the 668 cities under 2,500 in population, 370 cities submitted an annual detailed statement of the financial affairs of the city using the cash basis of accounting.

The remaining 298 cities have elected to comply with Minnesota Statutes § 471.697. This statute requires cities to submit comprehensive annual financial reports and an audited financial statement prepared in accordance with Generally Accepted Accounting Principles (GAAP). The governmental funds are reported using the modified accrual basis of accounting, and the enterprise funds are reported using the accrual basis of accounting. Pursuant to Minnesota Statutes § 412.591, subdivision 2, cities operating under Option Plan "A" with the combined office of clerk-treasurer are also required to have an audit, although the audited financial statements may be on the cash basis of accounting.

Tables 2 and 3, which summarize the revenues and expenditures for the governmental functions (including expendable trust funds), are classified into five population types based on the 1998 population estimates from the Office of the State Demographer. These five types are:

<u>TYPE</u>	<u>POPULATION</u>
1	2,001 - 2,500
2	1,501 - 2,000
3	1,001 - 1,500
4	500 - 1,000
5	UNDER 500

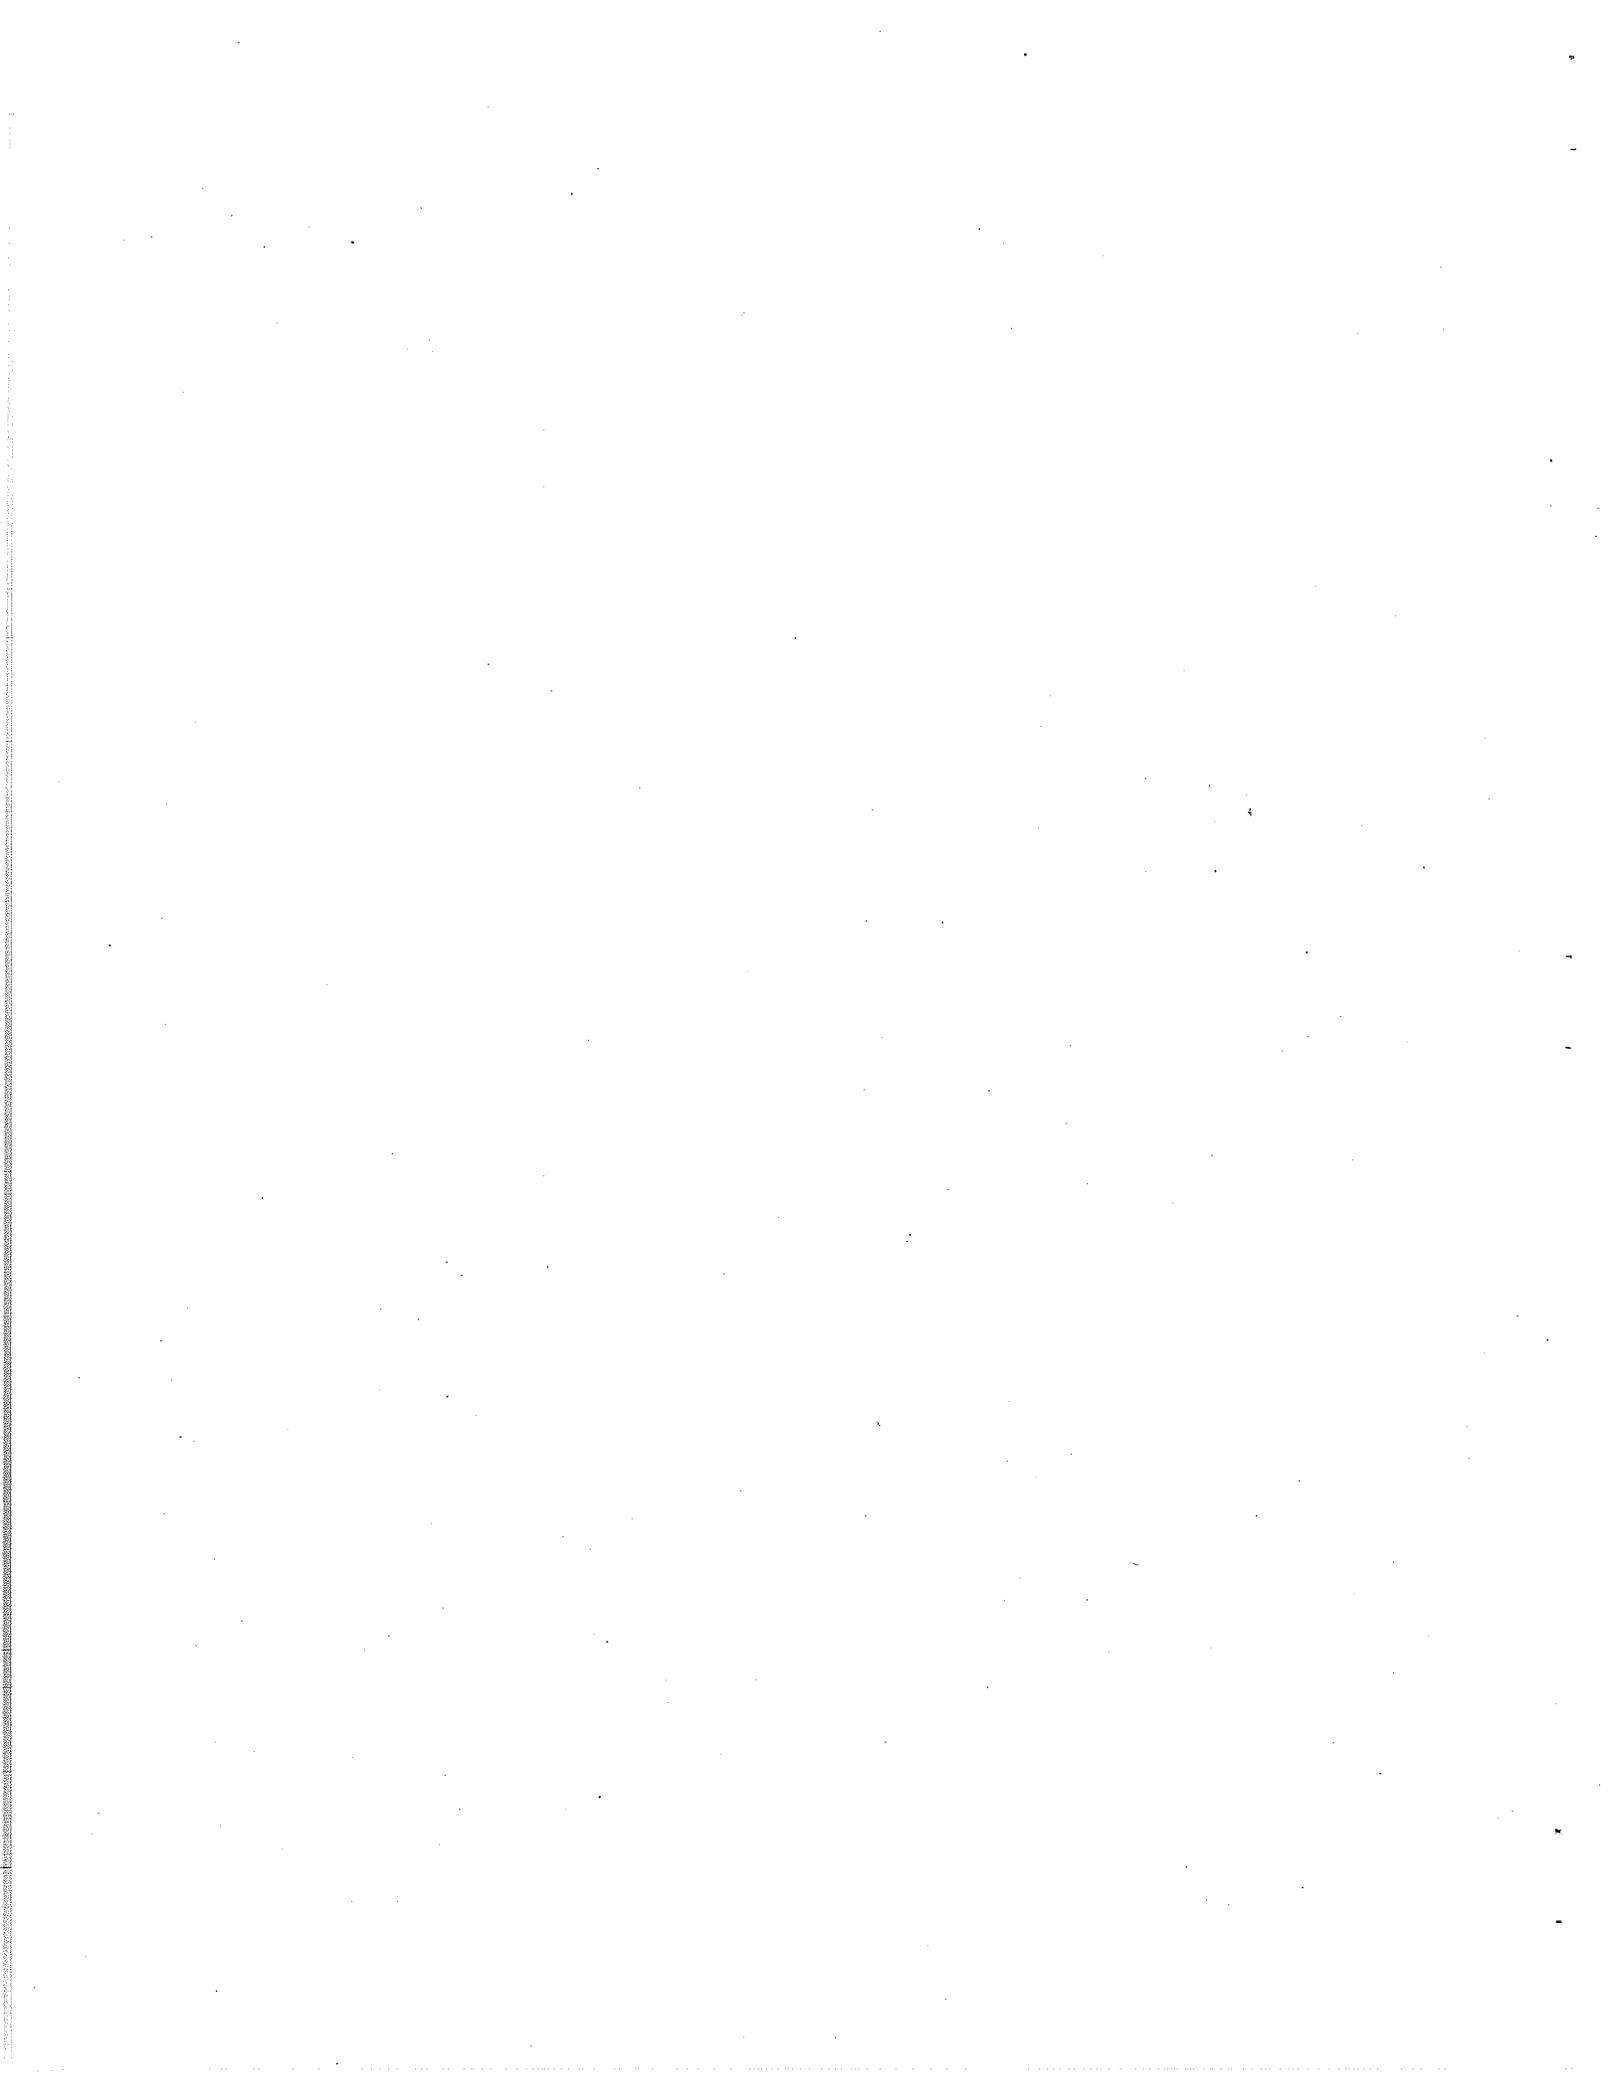

This report includes the financial operations of the governmental funds for each city. These funds are the General Fund, Special Revenue Funds, Capital Projects Funds, and Debt Service Funds. Enterprise funds are reported separately from the city governmental funds.

Cities in Minnesota operate many types of public service enterprises. The operations of nine major enterprise funds common to most cities are summarized and presented separately. Major enterprise funds common to most cities are grouped together by type of enterprise fund such as water utilities, sewer utilities, refuse disposal, electric, nursing homes, liquor stores, etc. Enterprise funds whose operations are exclusive to cultural and recreational activities are combined together into "culture and recreation enterprise operations." All other enterprise funds are combined together as "other city enterprise operations." In this report, electric utilities that operate generation and distribution systems are combined with those operating distribution systems only. When possible, the financial operations of these enterprises are presented on the accrual basis rather than the cash basis of accounting. The basis of accounting is accrual unless indicated otherwise by a footnote.

Table 19 summarizes the outstanding bonded indebtedness of cities by the type of bond issue. This table also provides a summary of the combined total of other types of long-term debt such as notes or loans.

Seven cities failed to submit an annual reporting form and/or financial statement in time for this publication. They are *Bena, Bethel, Carver, Clearbrook, Evan, Ronneby, and Vermillion.*

GLOSSARY

Glossary

ALL OTHER EXPENDITURES - Includes miscellaneous expenditures that were not allocated to a specific function.

ALL OTHER REVENUES - Includes refunds, reimbursements, donations, and lease payments.

BORROWING - Includes the sale of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Cities are restricted by law from borrowing for current expenses.

CAPITAL OUTLAY - The purchase or construction of buildings, permanent improvements, equipment, machinery, and land. Capital outlay varies from year to year based on the needs and resources of the cities.

CAPITAL OUTLAY FOR ENTERPRISE FUNDS - Expenditures from governmental funds for improvements to public service enterprises, such as sewer and water mains.

CAPITAL PROJECTS FUND - A fund created to account for the financial resources that are used for the acquisition or construction of a fixed asset. An example of this fund type is a street improvement fund.

CHARGES FOR SERVICES - Fees for activities of the governmental funds. These include rent of city hall by individuals or organizations, police and fire contracts, fire calls, recreation fees, park dedication fees, etc.

CURRENT EXPENDITURES - Expenditures which benefit the current fiscal period. Expenditures included in this definition are salaries, pension contributions, operating expenses, etc.

DEBT SERVICE FUND - A fund to account for the collection of resources and payment of long-term debt principal and interest.

ECONOMIC DEVELOPMENT - Expenditures directed toward developing an area or providing assistance and opportunity to persons and business for such development.

ENTERPRISE FUND - A fund established to account for operations financed and operated in a manner similar to private business, e.g., water, sewer, electric utilities, hospitals. The expenses of providing services are primarily financed by user charges.

FINES AND FORFEITS - Receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

FRANCHISE TAXES - Proceeds from taxes imposed on public utilities, usually involving elements of a monopoly, (e.g., electric utilities, gas utilities, cable TV) for use of public property.

GENERAL FUND - The fund used to account for all financial resources not required to be accounted for in another fund. This fund is the main operating fund.

Glossary

GENERAL GOVERNMENT - Expenditures related to the administration of the governmental unit.

GOVERNMENTAL FUNDS - The funds through which most governmental activities are financed. The four governmental fund types are: general, special revenue, debt service, and capital projects.

GRAVEL TAX - A tax imposed by the county for aggregate material removal. A percentage is shared with towns and cities to be expended for streets and highways.

HOUSING - Expenditures associated with planning and providing adequate housing and redevelopment of substandard physical facilities.

INTEREST EARNINGS - Includes interest earned on checking and savings accounts, CD's, money market funds, and Treasury bonds and bills.

LICENSES AND PERMITS - Includes receipts from liquor licenses, cigarette licenses, other business licenses, street use permits, building permits, and other non-business licenses and permits.

NET TAX LEVY - The city property taxes, less state property tax relief aids or grants, required to be paid by the property owners of the city.

OTHER FINANCING SOURCES - Includes long-term debt proceeds, sale of fixed assets and transfers in from other funds.

OTHER FINANCING USES - Includes transfers out to other funds, refunding bond proceeds deposited with escrow agent, and remittance to other agencies.

PARKS AND RECREATION - Expenditures for park maintenance, mowing, planting and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, cable TV, baseball fields, organized recreation activities, etc.

SANITATION - Expenditures include refuse collection and disposal, recycling, street cleaning, and weed and pest control.

SPECIAL ASSESSMENTS - A levy made against certain properties to defray all or part of the costs of a specific improvement, such as new sewer and water mains, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments.

SPECIAL REVENUE FUNDS - A fund used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

STREETS AND HIGHWAYS - Expenditures include maintenance of streets, snow removal, street lighting, street and bridge construction, and the purchase and maintenance of street equipment.

Glossary

TAXABLE TAX CAPACITY - The tax capacity less the tax increment district value, less the fiscal disparities contribution value, plus the fiscal disparities distribution value.

TAX CAPACITY - The value assigned to the property used to calculate the property taxes.

TAX INCREMENTS - Taxes collected on tax increment financing projects. Tax increment financing is a tool which cities use to develop or redevelop a portion of the city. The increase in taxes on the developed or redeveloped area is used to cover the city costs associated with the project.

TOTAL EXPENDITURES - Includes current operating expenses, capital outlays, and debt service principal and interest payments.

TOTAL REVENUES - Receipts of monies that increase the amount of available resources without creating a liability or a future payment. Borrowing and transfers between funds are not included in total revenues.

TRANSFERS - ENTERPRISE FUNDS - The transfer of available resources to or from public service enterprises. An example of this transfer is the water utility transferring money to the general fund. It is shown separately because the water enterprise fund is not included in the governmental funds.

TRANSFERS - GOVERNMENTAL FUNDS - The transfer of money between governmental fund types. The revenues and expenditures for these funds are always shown in the same tables.

UNALLOCATED INSURANCE - Expenditures for insurance premiums that were not allocated to a specific function of government.

UNALLOCATED PENSION CONTRIBUTIONS - Expenditures for contributions to pension plans that were not allocated to a specific function of government.
