INTRODUCTION

This page intentionally left blank

State of Minnesota Department of Finance 400 Centennial Building 658 Cedar Street St. Paul, Minnesota 55155 Voice: (651) 296-5900 Fax: (651) 296-8685 TTY: 1-800-627-3529

June 14, 2002

The Honorable Jesse Ventura, Governor

Members of the Legislature

In accordance with Minnesota Statutes, Section 16A.50, the Department of Finance is pleased to submit the Comprehensive Annual Financial Report for the state of Minnesota for the fiscal year ended June 30, 2001 as restated. This report includes the financial statements for the state, and the disclosures necessary to accurately present the financial condition and results of operations for the year then ended. The report has been prepared in accordance with generally accepted accounting principles (GAAP) for governmental units.

The Department of Finance is responsible for the accuracy, fairness and completeness of the financial statements, including all disclosures, presented in this report. The information presented is accurate in all material respects and includes all disclosures necessary for an understanding of the state's financial activities.

The report is divided into three sections: Introductory Section; Financial Section, including the auditor's opinion and basic financial statements; and the Statistical Section, containing financial and other data for current and prior years. The Notes to the Financial Statements, in the financial section, are necessary for an understanding of the information included in the statements. The notes include the Summary of Significant Accounting Policies and other necessary disclosure of matters relating to the financial position of the state.

Financial Reporting Entity

The financial reporting entity consists of all the funds and account groups of the primary government, as well as its component units. Component units are legally separate organizations for which the state is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's governing body, and either (a) the ability of the state to impose its will, or (b) the potential for the organization to provide financial benefits to, or impose financial burdens on, the primary government.

The Housing Finance Agency, Higher Education Services Office, Public Facilities Authority, Minnesota Technology, Inc., Metropolitan Council, Rural Finance Authority, Agricultural and Economic Development Board, Export Finance Authority, University of Minnesota, Workers' Compensation Assigned Risk Plan, Minnesota Partnership for Action Against Tobacco, and the National Sports Center Foundation are component units reported discretely. The state has either the ability to impose its will over these agencies or provides substantial funding.

Economic Condition and Outlook as of December 7, 2001

Minnesota's economy continued to outperform the U.S. averages in fiscal year 2001. Personal income grew at an annual rate of 7.2 percent during the fiscal year, 0.6 percentage points greater than the U.S. average. At the close of the fiscal year, the state's unemployment rate was 3.4 percent, 1.1 percentage points lower than the U.S. average of 4.5 percent. In calendar 2000, per capita personal income in Minnesota grew by 5.9 percent, slightly above the U.S. average growth rate of 5.7 percent. Per capita personal income in Minnesota is now 8.4 percent more than the national average. Minnesota ranked 9th among all states in personal income per capita in 2000.

Minnesota's labor force participation rates remain among the highest in the nation, and the state's unemployment remains low, but labor markets are no longer as tight as in recent years. Minnesota's unemployment rate crept closer to the national average in fiscal 2001. In fiscal year 2001, Minnesota's unemployment rate averaged just 3.3 percent; the U.S. average was 4.2 percent. Payroll employment grew by nearly 26,000 during the past fiscal year. On a percentage basis, the statewide employment growth rate of 0.8 percent exceeded the national average of 0.4 percent.

Minnesota's economy is projected to grow more slowly than the U.S. economy during fiscal year 2002. Payroll employment through October has fallen more steeply than the U.S. average, and Minnesota wage growth has also been below the national average. Total wage and salary payments in Minnesota are forecast to grow by just 1.0 percent in fiscal 2002 due to slower employment growth and fewer hours worked. Bonuses are also expected to be down significantly. Personal income in Minnesota is expected to grow at a rate of 1.0 percent. Wage growth in Minnesota is projected to recover strongly in fiscal 2003, as the labor market tightens once again.

Major Program Initiatives

• Minnesota's Tobacco Settlement. On May 8, 1998, Minnesota settled its lawsuit with the tobacco industry resulting in a new revenue stream for the state. A small portion of the settlement (\$202 million) was dedicated by the courts for specific purposes and will not be a part of the state's general revenues. A larger portion of the settlement (the one-time payments) was dedicated by the Governor and the legislature to be placed into endowments for specific purposes. The balance (the annual payments) will be deposited into the state's General Fund.

Part of the state's settlement is a series of six one-time payments, which end after fiscal year 2003. In 1999 and 2000, the Governor and the legislature created two endowments (medical education and tobacco use prevention) with the first four of the one-time payments. The two remaining one-time payments and the annual, on-going payments are revenues to the General Fund. The value of these payments will level off at \$203 million by fiscal year 2005. All of these payments are counted as General Fund revenues and are subject to the appropriation process.

Actual and Estimated General Fund Non-Dedicated Tobacco Revenues* (In Thousands)

Fiscal Year	Annual Payments
2000**	\$ 112,400
2001**	132,100
2002	155,900
2003	159,600
2004	200,500
2005	204,700
Total	\$ 965,200

- * Amounts are based on the November 2001 forecast. This forecast reflects adjustments to the base payments for inflation (upward) and consumption (downward).
- ** Amounts represent actual payments.
- K-12 Education. State aid to education increased by \$360 million (more than 9 percent) in fiscal year 2001. As in previous years, much of the increase was in the general education program, the primary source of general operating funds for school districts. These funds provide the bulk of the basic operating funds for schools, and the increase largely reflects the cost of increasing the per pupil funding allowance by \$224 in fiscal year 2001. This increased the amount per pupil by \$224 for fiscal year 2001 to \$3,964 per pupil unit. This allowance is adjusted by two factors under Minnesota's school finance system. The funding is weighted depending on the grade level of a student, and since fiscal year 2000, a system of "marginal cost funding" is used to adjust for a district's enrollment trends. Major changes are ahead for the state's education finance system, with the 2001 legislative adopting the Governor's recommendation to take over the general education levy, effective fiscal year 2003.
- Sales Tax Rebate. A sales tax rebate of \$791 million was approved by the 2001 legislature. This follows a \$636 million rebate in the previous year. The law specifies that the rebate is a reduction of fiscal year 2001 sales tax revenue and appropriated money from the General Fund to make the payments. Payments were based on estimated sales tax paid by individuals, as reported on individual income tax returns.

Financial Information

The Department of Finance is responsible for the Minnesota Accounting and Procurement System (MAPS) and the information warehouse from which these financial statements were prepared. MAPS is maintained primarily on a budgetary basis of accounting. However, certain accrual information is recorded in MAPS. The budgetary basis recognizes revenues and expenditures essentially on a cash basis, except that encumbrances at year-end are considered expenditures. Since this budgetary basis differs from GAAP, adjustments to accounting data are necessary to provide financial statements in accordance with GAAP. These disparate bases result in budgetary fund balances, which often differ significantly from those calculated under GAAP.

The Department of Finance is also responsible for designing and applying the state's system of internal accounting controls. These controls provide reasonable assurance that the state's assets are protected against loss and that the accounting records from which the financial statements are prepared are reliable. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefit derived.

Budget Process. The state's fiscal period is a biennium. The governor's biennial budget is
presented to the legislature in January of odd numbered years for the upcoming biennium. State
statutes require a balanced budget. Specific legislative appropriations are required for several
funds. These funds include the General, Trunk Highway, Highway User Tax Distribution, State
Airports, Environmental, Minnesota Resources, Natural Resources, Game and Fish, Solid Waste,
Health Care Access, and Special Compensation funds.

Budgetary control is provided primarily through the accounting system. Appropriations are established in the accounting system at the amounts provided in the appropriation laws. The accounting system does not permit expenditures in excess of these amounts.

General Fund. During fiscal year 2001, the total fund balance, on a GAAP basis, for the General Fund decreased by \$775.2 million to \$1.18 billion. On June 30, 2001, the unreserved, undesignated portion of the fund balance reflected a zero balance, after providing for a \$972.0 million budgetary reserve. This compares with a \$451.2 million unreserved, undesignated fund balance at the end of fiscal year 2000 with a \$972 million budgetary reserve. On a budgetary basis, the June 30, 2001 unrestricted (undesignated) fund balance for the General Fund was \$194.7 million compared with a balance of \$861.1 million at the end of 2000.

General Fund revenues and transfers-in totaled \$12.477 billion for fiscal year 2001, up 3.7 percent from those for fiscal year 2000. General Fund expenditures and transfers-out for the year totaled \$13.104 billion, an increase of 7.7 percent from the previous year. Of this amount, \$8.975 billion (68 percent) is in the form of grants and subsidies to local governments, individuals and non-profit organizations.

General Government Functions. General government functions are funded from the General, special revenue, capital projects, and Debt Service funds. These funds account for the activities of most state operations, including those also financed from transportation, natural resources, and federal revenue sources, plus numerous other smaller revenue sources. The total fund balances for all of these funds decreased by \$305.4 million, with a General Fund balance decrease of \$775.2 million, special revenue funds increase of \$475.8 million, capital projects funds decrease of \$16.6 million.

The net revenues, expenditures and transfers for these funds are presented below (expressed in thousands). The percent of total and the increases or decreases over fiscal year 2000 are also presented.

		Percent of	Increase (D Over June 3	/
Net Revenues:	June 30, 2001	Net Revenues	 Dollars	Percent
Individual Income Taxes	\$ 5,924,978	31.5%	\$ 333,652	6.0%
Corporate Income Taxes	709,702	3.8%	(124,541)	-14.9%
Sales Tax	3,015,094	16.0%	(99,427)	-3.2%
Fuel Taxes	611,528	3.3%	416	0.1%
Other Taxes	2,230,155	11.9%	(124,717)	-5.3%
Federal Revenues	4,495,512	23.9%	289,710	6.9%
Investment/Interest Income	322,354	1.7%	28,214	9.6%
Tuition and Student Fees	360,877	1.9%	16,839	4.9%
Other Revenues	1,133,621	6.0%	 151,464	15.4%
Total Net Revenues	\$ 18,803,821	100.0%	\$ 471,610	2.6%

Overall revenues remain consistent. The decrease in corporate income taxes was the result of an unfavorable economic climate. Other revenue consists of license fees, departmental earnings, care and hospitalization and various miscellaneous earnings.

			Percent of	Increase (De Over June 30	
Expenditues and Net Transfers:	Ju	ine 30, 2001	Total	Dollars	Percent
Expenditures:					
Protection of Persons and Property	\$	305,457	1.6%	\$ 36,242	13.5%
Transportation		497,928	2.6%	35,123	7.6%
Resource Management		370,160	1.9%	17,135	4.9%
Economic and Manpower Development		253,438	1.3%	22,514	9.7%
Education		1,125,713	5.8%	67,413	6.4%
Health and Social Services		873,630	4.5%	(46,307)	-5.0%
General Government		423,478	2.2%	52,526	14.2%
Capital Outlay		650,744	3.4%	(27,382)	-4.0%
Debt Service		461,112	2.4%	14,027	3.1%
Grants and Subsidies		13,236,472	68.7%	1,133,217	9.4%
Total Expenditues	\$	18,198,132	94.4%	\$ 1,304,508	7.7%
Net Transfers-Out		1,072,934	5.6%	 (677,532)	-38.7%
Total Expenditures and Net Transfers	\$	19,271,066	100.0%	\$ 626,976	3.7%

Overall expenditures also remain consistent. The increase in Protection of Persons and Property is due to additional district courts operated by the state. The increase in General Government is primarily due to increased volume of security lending transactions, which incurred rebate and fees.

- Enterprise Fund Operations. Retained earnings for the enterprise funds increased by \$12.9 million to \$188.5 million. Enterprise funds provide services to the general public and are expected to recover full costs, primarily through user charges. Included among the enterprise funds is the State Lottery Fund, whose income of \$57.8 million after taxes was transferred to other state funds. This is consistent with fiscal year 2000. The State Operated Community Services Fund reported net income of \$5.1 million compared with \$1.6 million in fiscal year 2000. This increase is primarily due to a rate increase and expansion of services provided.
- Internal Service Fund Operations. State internal service funds provide a variety of services to state agencies. These include computer services, motor pool, telecommunications, printing, management of the capitol complex buildings and insurance (employee health and life, and auto liability). The objective of these funds is to recover the full costs of services provided to other governmental organizations. The internal service funds reported net income of \$7.7 million for fiscal year 2001 with total operating revenues of \$603.1 million. The internal service funds ended the year with total retained earnings of \$107.9 million, which is up \$7.7 million over last year. This increase is primarily from the Employee Insurance Fund, with net income of \$7.5 million.
- Fiduciary Fund Operations. Contributions to the various pension plans are set in statute at rates expected to fully amortize the unfunded pension benefit obligations of all plans by about 2020, with differing years for each fund. In recent years, contributions have been sufficient to cover the actuarially determined contribution requirements for most funds. Actuarial valuations are performed annually for all defined benefit pension funds, and the results are used to determine any changes needed in the contribution rates.

Grants totaling than \$1,046.5 million were provided from the expendable trust funds, primarily to local governments and individuals. Of this amount, \$439.0 million of the various highway taxes went to cities and counties for roads and bridges. Another \$24.1 million from earnings on the Endowment School Fund assets was distributed to school districts. Most of the remainder of the grants, \$533.1 million, was for unemployment benefits funded by taxes on employers.

 Debt Administration. Minnesota's credit ratings on general obligation bonds continued at AAA by Standard & Poor's Corporation and Fitch Investors Service, Inc., and Aaa by Moody's Investors Service.

The state issued \$285.0 million of new general obligation bonds, and \$224.3 million of general obligation bonds were redeemed during 2001, leaving an outstanding balance of \$2.6 billion.

The state has a debt management policy, which has three goals:

- Maintain AAA/Aaa bond ratings
- Minimize state borrowing costs
- Provide a reasonable financing capacity within a prudent debt limit

The state debt management policy has four guidelines. The first requires that the ratio of budgeted biennial debt service expenditures for general obligation bonded debt, paid by transfers from the General Fund, should not exceed 3.0 percent of total projected biennial General Fund non-dedicated revenues, net of refunds, on a budgetary basis. The ratio of transfers to net non-dedicated revenues for the biennium ending June 30, 2001 is 2.4 percent.

The second and third guidelines state that general obligation bonded debt should not exceed 2.5 percent of the total personal income for the state, and also that the total debt of state agencies and the University of Minnesota should not exceed 3.5 percent of total personal income. These ratios were 1.6 percent and 2.4 percent, respectively, based on debt outstanding at June 30, 2001, and estimated personal income for the year ended on that date.

The fourth guideline states that the total amount of state general obligation debt, moral obligation debt, state bond guarantees, equipment capital leases and real estate leases should not exceed 5.0 percent of the total personal income for the state. The ratio was 3.0 percent based on information at June 30, 2001.

• Cash Management. The majority of cash is held in the state treasury and commingled in state bank accounts. The cash in individual funds may be invested separately where permitted by statute. However, cash in most funds is invested as a part of an investment pool. Investment earnings of the pools are allocated to the individual funds where provided by statute. Earnings for all other participants are credited to the General Fund.

Minnesota Statute requires that deposits be secured by depository insurance or a combination of depository insurance and collateral securities held in the state's name by an agent of the state. This statute further requires that such insurance and collateral shall be in amounts sufficient to ensure that the deposits do not exceed 90 percent of the sum of the insured amount and the fair value of the collateral.

The State Board of Investment manages the majority of the state's investing. Minnesota Statute broadly restricts investment to obligations and stocks of U.S. and Canadian governments, their agencies and their registered corporations, short-term obligations of specified high quality, restricted participation as a limited partner in venture capital, real estate, or resource equity investments and restricted participation in registered mutual funds.

Risk Management. The state is prohibited by statute from insuring property against loss. Certain agencies and programs are exempted from this prohibition, these include; the Minnesota Correctional Facility - Stillwater, State Universities, Community Colleges, Family Farm Security Program, Department of Military Affairs, Iron Range Resources and Rehabilitation Board, and the Sibley House. The Commissioner of the Department of Administration may authorize the purchase of insurance on state properties should it be deemed necessary and appropriate to protect buildings and content. All losses of state property are self-insured or are covered by programs of the Risk Management Fund (an internal service fund) or by insurance policies purchased by the Risk Management Fund on behalf of state agencies.

Employee's health and a portion of dental insurance are self-insured. Employee's life and the remaining dental insurance are provided through contracts with outside organizations. Premiums collected for these benefits have been more than sufficient to cover claims submitted.

Audits

The independent Office of the Legislative Auditor performs post-audits of the activities of state agencies. Accordingly, they performed the audit of these financial statements and their opinion is included. They also issue an audit report or management letter to state agencies and a summary report to the legislature.

As a part of the audit of these financial statements, a single audit of federal programs is being conducted by the Office of the Legislative Auditor. This audit meets the requirements of the federal Single Audit Act. The audit covers federal program activities for state agencies for the year ended June 30, 2001. A supplementary report, "Financial and Compliance Report on Federally Assisted Programs" will be available in March 2002.

Certificate

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the state of Minnesota for its comprehensive annual financial report for the fiscal year ended June 30, 2000. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

To be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report (CAFR), whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The state of Minnesota has received a Certificate of Achievement for each of the last sixteen fiscal years through June 30, 2000. The Department of Finance believes this current report continues to conform to the Certificate of Achievement Program requirements, and is being submitted to the GFOA.

Acknowledgments

Although the Department of Finance accepts final responsibility for this report, staff in many other state agencies and component units provided much of the data. Assistance from these organizations ranged from providing necessary data to actual preparation of financial statements for their agencies' funds. I want to express my appreciation for the dedication of the many people in the Department of Finance who helped in the preparation of this report, as well as for the many people in other agencies, without whose efforts this report would not have been possible.

Sinterely. Pamela Wheelock

Commissioner

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Minnesota

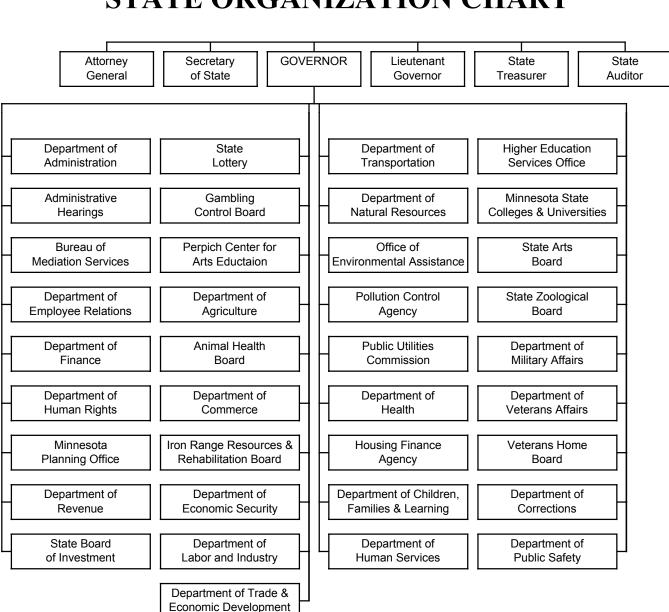

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended June 30, 2000

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

FINANCIAL SECTION

Independent Auditor's Report

Members of the Legislature

The Honorable Jesse Ventura, Governor

Ms. Pamela Wheelock, Commissioner of Finance

We have audited the accompanying general purpose financial statements of the State of Minnesota as of and for the year ended June 30, 2001, as listed in the Table of Contents. These general purpose financial statements are the responsibility of the state's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit. We did not audit the financial statements of the Public Facilities Authority, Metropolitan Council, Minnesota Technology Incorporated, Higher Education Services Office, Minnesota Partnership for Action Against Tobacco, Housing Finance Agency, Minnesota Workers Compensation Assigned Risk Plan, National Sports Center Foundation, and University of Minnesota, which represent 98 percent of the assets and 99 percent of the revenues of the discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the aforementioned discretely presented component units, is based solely on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based upon our audit and the reports of other auditors, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the State of Minnesota as of June 30, 2001, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Members of the Legislature The Honorable Jesse Ventura, Governor Ms. Pamela Wheelock, Commissioner of Finance Page 2

As discussed in Note 15 to the general purpose financial statements, the State of Minnesota implemented two Governmental Accounting Standards Board (GASB) statements during the year ended June 30, 2001. GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions* and GASB Statement No. 36 *Recipient Reporting for Certain Nonexchange Revenues, an amendment to GASB Statement No. 33*, establish accounting and financial reporting standards to guide state and local governments' decisions about *when* (in what fiscal year) to report the results of nonexchange transactions involving cash and other financial and capital resources. In a nonexchange transaction, a government gives (or receives) value without directly receiving (or giving) equal value in return.

As discussed in Note 23, a liability for sales tax refunds of \$157 million was discovered subsequent to the issuance of the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2001. Portions of the general purpose financial statements have been restated to reflect this subsequent discovery. Note 23 discloses the full impact of this liability on the financial statements and the related notes.

The combining and individual fund and account group financial statements and schedules listed in the Table of Contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Minnesota. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

The accompanying financial information in the Introduction and Statistical Sections as listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the general purpose financial statements of the State of Minnesota. Such additional information has not been subjected to the auditing procedures applied to the audit of the general purpose financial statements and, accordingly, we express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2001, on our consideration of the State of Minnesota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

James R. Mohler

James R. Nobles Legislative Auditor

Claudia J. Gudvangen

Claudia J. Gudvangen, CPA Deputy Legislative Auditor

December 7, 2001, except for Note 23, as to which the date is June 14, 2002

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2001

These notes provide disclosures relevant to the combined financial statements on the preceding pages.

1. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of Presentation

The reporting policies of the state of Minnesota conform to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

Financial Reporting Entity of the State of Minnesota

This report includes the various state departments, agencies, institutions and organizational units, which are controlled by or dependent upon the Minnesota legislature and/or its constitutional officers. The state, a primary government, has also considered for inclusion all potential component units for which it may be financially accountable and other organizations for which the nature and significance of their relationship with the state are such that exclusion would cause the state's financial statements to be misleading or incomplete. GASB has set forth criteria to be used in determining financial accountability. These criteria include the state's ability to appoint a voting majority of an organization's governing body, and either the state's ability to impose its will on that organization, or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the state. As required by GAAP, these financial statements include the state of Minnesota (the primary government) and its component units.

Discretely presented component units - These are entities that are legally separate from the state, but for which the state is financially accountable, or their relationship with the state is such that exclusion would cause the state's financial statements to be misleading or incomplete. These component units are reported in a separate column and separately identified in the note disclosures because of their separate legal status.

- Metropolitan Council (MC) (governmental and proprietary fund types) MC is responsible for coordinating the planning and development of the seven-county metropolitan area. MC operates the public transit system and the regional sewage collection and treatment system. The council members are appointed by the governor with the chair responsible for the council activities. MC includes the Metropolitan Sports Facilities Commission as a component unit. MC's fiscal year ends December 31.
- Minnesota Technology Incorporated (MTI) (governmental fund type) MTI fosters long-term economic growth and job creation by stimulating innovation and the development of new products, services and production processes through technology transfer, applied research and financial assistance. The state's General Fund provides most of the funding for MTI.
- Higher Education Services Office (HESO) (governmental and proprietary fund types) HESO makes and guarantees loans to qualified post-secondary students. HESO provides the state grant and loan program services for which the state provides administrative funding. Revenue bonds are issued in HESO's name with limitations set by the legislature.
- *Export Finance Authority (EFA)* (governmental fund type) EFA aids and facilitates the financing of exports from the state. Excess revenue is transferred to the state's General Fund.
- Agricultural and Economic Development Board (AEDB) (governmental fund type) AEDB provides services to state government by administering state programs for agricultural and economic development. AEDB may issue revenue bonds for the purpose of financing development projects.

- Rural Finance Authority (RFA) (governmental fund type) RFA administers a number of state agriculture programs, including the homestead redemption program, loan restructuring program and agricultural improvement program. RFA is under the administrative control of a commissioner appointed by the governor. The state has issued general obligation bond debt for the programs administered by RFA.
- Minnesota Partnership for Action Against Tobacco (MPAAT) (governmental fund type) MPAAT issues grants to health, community and academic organizations throughout Minnesota in support of research and cessation activities that will encourage and help tobacco users quit. MPAAT is funded by a tobacco lawsuit settlement with the state of Minnesota.
- Housing Finance Agency (HFA) (proprietary fund type) HFA provides money for loans and technical assistance for the construction and rehabilitation of housing for families of low and moderate incomes. HFA is under the administrative control of a commissioner appointed by the governor. HFA issues bonds in its own name.
- Public Facilities Authority (PFA) (governmental and proprietary fund types) PFA provides assistance to municipalities, primarily for wastewater treatment construction projects. A state agency provides administrative services to PFA. The state provides funding for PFA. The board members determine the funding for local government projects.
- Workers' Compensation Assigned Risk Plan (WCARP) (proprietary fund type) WCARP is the source of workers' compensation and employers' liability coverage for Minnesota employers unable to obtain an insurance policy through the voluntary market. The state Commissioner of the Department of Commerce enters into administrative contracts, sets premium rates and makes assessments. The Commissioner has the authority to assess all licensed workers' compensation insurance companies doing business in Minnesota an amount sufficient to fully fund the obligations of the plan to the extent that the assets of the plan are inadequate to meet its obligations. WCARP's fiscal year ends December 31.
- National Sports Center Foundation (NSCF) (proprietary fund type) NSCF is under contract with the Minnesota Amateur Sports Commission to operate the National Sports Center facility primarily for holding youth-oriented athletic and other non-athletic functions and events. NSCF is responsible for certain improvements to the facility and the operating costs of the facility. The commission approves the foundation's spending budget, approves all rates and fees and owns any reserve funds. The facility belongs to the state. The foundation's fiscal year ends December 31.
- University of Minnesota (U of M) (college and university fund type) The U of M was established permanently by the Minnesota constitution. The state appropriates a large percentage of the U of M's operating budget. The legislature elects the 12-member board of regents, which governs the U of M, but the state does not have direct authority over the U of M's management. The state has issued debt for U of M capital projects.

Complete financial statements of the discretely presented component units may be obtained from their respective administrative offices as follows:

Metropolitan Council Mears Park Centre 230 East Fifth Street St. Paul, Minnesota 55101

Minnesota Technology Incorporated 400 Mill Place, 111 Third Avenue South Minneapolis, Minnesota 55401 Public Facilities Authority Department of Trade & Economic Development 500 Metro Square Bldg., 121 East Seventh Place St. Paul, Minnesota 55101

Related entities - These are entities for which the state is accountable because the state appoints a voting majority of the board, but for which the state does not have financial accountability. The following are related entities not included in the reporting entity:

- Higher Education Facilities Authority The governor appoints a majority of the board. The Authority can issue revenue bonds and notes in its name. The state has no statutory authority to affect the operations of the Authority.
- Joint Underwriting Association The governor appoints a majority of the board. The board establishes the operating plan and determines premium rates and assessments. Membership in the association is a condition for doing business in the state.
- Medical Malpractice Joint Underwriting Association The governor appoints a majority of the board. The board establishes the operating plan and determines premium rates and assessments. Membership in the association is a condition for doing business in the state.
- Metropolitan Airports Commission The governor appoints a majority of the voting commissioners. The state has no statutory authority to directly affect the commission's activities and operations. Holders of the commission's debt instruments have no recourse against the state.
- State Fund Mutual Insurance Company The governor appoints a majority of the board. The board establishes the operating plan and determines premium rates and assessments.
- Workers' Compensation Reinsurance Association The governor appoints a majority of the board. The association supports itself solely from revenues derived from premiums charged to association members. The state has no authority to affect the operations of the association.

The following organizations, which are part of the primary government, also prepare and publish their own financial reports, which may contain differences in presentation resulting from differing reporting emphasis. Copies of these financial reports may be obtained directly from each organization.

Classification of Funds

The financial activity of the state is organized using individual funds and account groups. Each fund is a separate accounting entity with a self-balancing set of accounts used to record the financial transactions and balances of that entity. Individual funds have been established as stipulated by legal provisions or by administrative discretion. The funds presented are classified as follows:

Governmental Funds - These funds account for the acquisition, use and balances of expendable financial resources and the related current liabilities. Most state operations are accounted for in this fund category. Included in this classification are the General Fund (which accounts for all financial resources except those required to be accounted for in another fund), special revenue, capital projects and debt service fund types. The special revenue funds account for revenue sources that are legally restricted to expenditure for specific purposes (not including expendable trusts or major capital projects). The capital project funds account for the acquisition of fixed assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds. The Debt Service Fund accounts for the accumulation of resources for, and the payment of, most general obligation long-term debt principal and interest.

Proprietary Funds - These funds account for all assets, liabilities and equities of the fund, and match revenues and expenses to determine net income and capital maintenance. The fund types included in this category are the enterprise and internal service funds.

Fiduciary Funds - These funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Included in this fund category are expendable and nonexpendable trust, pension and investment trust and agency fund types. Depending on their nature, fiduciary funds are classified as governmental (expendable trust funds) or proprietary funds (pension, investment and nonexpendable trust funds) for accounting measurement purposes. Agency funds are custodial in nature; thus, they do not measure results of operations.

Account Groups - These account for the fixed asset acquisitions and the general obligation long-term indebtedness for all governmental fund types.

Component Units - These account for the assets, liabilities and operations of discretely presented component units. Statements other than balance sheets are combined with statements of funds using a similar basis of accounting.

Basis of Accounting

All proprietary, pension, investment and nonexpendable trust funds are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized as they are incurred. The accrual basis of accounting is also used for contributions, benefits and refunds paid for defined benefit and defined contribution pension plans. All proprietary funds, except the Workers' Compensation Assigned Risk Plan (WCARP) (component unit), follow applicable GASB guidance or Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with, or contradict, GASB pronouncements. WCARP has elected to follow all applicable FASB statements issued after November 30, 1989 that do not contradict GASB pronouncements.

All governmental, expendable trust and agency funds are accounted for using the modified accrual basis of accounting. The modified accrual basis of accounting includes the following recognition principles:

Revenues - Individual income, sales and unemployment compensation taxes and federal grants are the major revenue sources susceptible to accrual. Tax revenues are recognized in the period they become both measurable and available to finance expenditures of the current period. *Measurable* means that taxpayer liability is supported by sufficient documentation and can be reasonably estimated. *Available* means the revenue is collectible by the close of the books in September. Similarly, anticipated refunds of such taxes are recorded as reductions in revenue in the period when the claim is received and the state's liability is measurable. Federal grants collected on a reimbursement basis are recognized as revenue when reimbursable expenditures are incurred. Revenues collected on an advance basis, including certain federal grant revenues to which the state does not yet have legal entitlement, are reported as deferred revenue until the related commitment arises, at which time revenue is recognized.

Derived tax revenues are recognized in accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions". This statement requires that revenues be recognized in the accounting period when the underlying exchange, upon which the tax is based, has occurred. Derived tax revenues include sales, income, gasoline, medical providers and miscellaneous taxes, which are accrued in the fiscal period when the taxes become both measurable and available to finance state expenditures.

Expenditures and related liabilities - Expenditures and related liabilities are recognized when fund obligations are incurred as a result of the receipt of the goods and services, except principal and interest on long-term debt, which are recorded when due. Grant expenditures are discussed separately.

Encumbrances - Encumbrance accounting is used for budgetary control and reporting purposes only. In the financial statements, encumbrances are recorded on the balance sheet as a reservation of fund balance to the extent of fund balance availability for completing the transactions in a subsequent year, except for those long-term commitments which rely significantly on future resources, as discussed in Note 10.

College and university type - College and university type (University of Minnesota) is accounted for on the accrual basis of accounting in accordance with accounting principles outlined in the American Institute of Certified Public Accountants' audit guide, Audits of Colleges and Universities, and guidelines suggested by the National Association of College and University Business Officers. Under these standards, two types of operating statements are prepared, which should not be combined with governmental or proprietary statements. Only the combined totals are presented for the statement of revenues, expenses and changes in fund balance.

The above guidelines normally permit recognition of revenues and receivables when the state appropriates funds. For consistency in reporting intra-entity transactions, the state does not apply this guideline to transactions between the primary government and the college and university type.

Grant Expenditures and Liabilities Recognition

Grants are defined as nonexchange transactions because the state gives (or receives) value to another party without receiving (or giving) equal value in return. Grants are normally paid either on a reimbursement basis or an entitlement basis. Entitlement type grants may be based on services provided by the grantee. The intent of the grant is to help fund such services, but the grant amount is not based on the cost of providing the service(s). Expenditures and the related liabilities for these types of entitlement grants are recognized as the service is provided if the amount owed can be reasonably estimated soon after the end of the state's fiscal year. Other types of entitlement grants are not based on the services provided or action taken by the grantee. Expenditures and the related liabilities for these types of grants are recognized in the fiscal year in which the resources were appropriated.

Reimbursement type grants may be awarded for specific services provided to eligible recipients, or may be made for eligible types of reimbursements. Grants paid on the reimbursement basis are recognized as expenditures and liabilities in the year in which the grantee incurs the costs of specific services to eligible recipients or makes eligible types of expenditures.

Compensated Absences

State employees accrue vacation leave, sick leave and compensatory leave at various rates within limits specified in the collective bargaining agreements. Leave balances are liquidated in cash only at the time of termination from state employment. For governmental funds, the liability for compensated absences is reported in the General Long-Term Obligation Account Group. All other fund types report this liability as a liability of the specific fund.

Cash Equivalents and Investments

Cash Equivalents - Cash equivalents are short-term, highly liquid investments having original maturities (remaining time to maturity at acquisition) of three months or less. Cash management pools and money market funds that are used essentially as demand deposit accounts are also included in cash equivalents.

Investments - Investments are reported at fair value. The basis for determining the fair value of investments that is not based on market quotations includes analysis of future cash flows, audited financial statements and independent appraisals. Investments in derivatives are generally made to manage the overall risk of the individual manager's portfolios to a level satisfactory to the investment management firm and in accordance with the firm's contract with the Minnesota State Board of Investment.

Inventories

Inventories for governmental funds are recorded as expenditures when purchased and are not a resource available for appropriation. There are exceptions to this. For the Trunk Highway Fund (special revenue), inventories are valued using the weighted-average cost. Northeast Minnesota Economic Protection (expendable trust) fund inventory consists of repossessed properties held for resale and are valued at market. Inventories for proprietary funds are expensed when consumed. Inventories maintained by the various funds are determined by annual and periodic physical counts. Inventories of the enterprise funds are valued using the first-in first-out, average cost and specific cost methods. Inventories of the internal service funds are valued using the first-in first-out method.

Restricted Assets

Mandatory asset segregations are presented in various enterprise funds as restricted assets. Such segregations are required by bond covenants and other external restrictions. The excess of restricted assets over liabilities payable from restricted assets will first be used for bonds payable. The remainder, if any, is included in reserved retained earnings.

Securities Lending

Securities on loan for cash collateral and the liabilities resulting from the security lending transactions are reported on the balance sheet. Securities lending income and rebate and management fees are reported separately on the "Statement of Revenues, Expenditures and Changes in Fund Balances", "Statement of Revenues, Expenses and Changes in Retained Earnings" or the "Statement of Changes in Plan Net Assets" as appropriate for the various fund types.

Fixed Assets

Governmental Fund Types - Fixed assets for these funds are reported in the General Fixed Assets Account Group. General fixed assets are recorded at cost or, for donated assets, at fair value at the date of acquisition. An inventory of land and buildings for the general fixed assets was completed in 1985. Historical cost records for older fixed assets are incomplete or not available. Accordingly, estimated historical costs have been used in these situations. Tax forfeited land is not included in land inventory because the state does not take permanent title. When the land is sold, proceeds are distributed to local jurisdictions. Public domain (infrastructure) general fixed assets, such as highways, curbs, bridges and lighting systems, are not capitalized. Depreciation is not applied to the general fixed assets nor is interest capitalized during construction.

Proprietary and Fiduciary Fund Types - Fixed assets for these funds are stated at cost or, for donated assets, at fair value at date of acquisition. Fixed assets for these fund types are depreciated or amortized on a straight-line basis over the useful life of the assets. Estimated useful lives are as follows:

Buildings	40-50 years
Improvements (large)	20-50 years
Improvements (small)	3-10 years
Equipment	3-12 years

Depreciation on fixed assets acquired with resources externally restricted for that purpose is closed to contributed capital after being recognized in operations.

Depreciation reported on the Statement of Cash Flows exceeds depreciation expense reported on the Statement of Revenues, Expenses and Changes in Retained Earnings for enterprise and internal service funds because a portion of depreciation expense is included in the cost of goods sold amount.

General Long-Term Liabilities

All unmatured long-term indebtedness not reported in a proprietary or fiduciary fund is accounted for in the General Long-Term Obligation Account Group. Included among these liabilities are the non-current portions of liabilities resulting from debt issuances, compensated absences, closure and postclosure care for landfills, workers' compensation claims, post retirement benefits and arbitrage rebate requirements (see Note 7).

Deferred Costs

In governmental fund types, bond discounts, premiums and issuance costs are recognized in the current period. In the proprietary funds, these costs are deferred and amortized over the life of the bonds using the effective interest method or the straight-line method, which approximates the effective interest method. The deferred costs reported are primarily for bond issuance costs of the enterprise funds.

Deferred Compensation Plan

The state offers a deferred compensation plan created in accordance with Internal Revenue Service Code, Section 457. The plan is available to all public employees in the state and is administered by Great West Life and Annuity. The State Board of Investment (SBI) and two insurance companies manage investments. The portion of the plan where participants have selected investment options provided by the two insurance companies is excluded from the state's financial statements because the funds are not under the state's control. The portion of the plan where participants have selected investment options provided by SBI is accounted for in the State Deferred Compensation Fund, an expendable trust fund, with its investments reported at fair value.

Under this plan, compensation is deferred for income tax purposes in accordance with Section 457 and is not available to employees until termination, retirement, death or unforeseeable emergency. In accordance with state statute, effective July 1, 1997, contributions are held for the exclusive benefit of the participants and their beneficiaries. These amounts will be held in trust, in custodial accounts or in qualifying contracts as required by federal law. The state is not liable for any investment losses under the plan, but does have the duty of due care of a prudent investor for investments managed by SBI.

Budgeting and Budgetary Control

Minnesota operates on a two-year (biennial) budget cycle ending on June 30 of odd-numbered years. Appropriations in the biennial budget are usually for a single year; however, where specified, single year appropriations are available for either year of the biennium. The governor's budget for the biennium is developed by the Department of Finance and presented to the legislature for approval. Specific appropriations are required for all expenditures from the General Fund and all special revenue funds except the Federal, Petroleum Tank Cleanup, Maximum Effort School Loan, Iron Range Resources and Rehabilitation, and Miscellaneous Special Revenue funds. Some appropriations are "open appropriations" for entitlement type and some interfund transfer programs. In these cases, the amount that is needed to fulfill the obligation for the fiscal year is made available. There is no limit on the amount that can be expended for the program. Estimates of the amount needed for such programs are included in the budget forecast.

Budgetary control is essentially maintained at the departmental level except for certain programs where control is at the program level. In most departments, upon notifying the governor and legislative leadership, department heads are permitted to revise budgets by transferring amounts between programs in their departments.

Standard practice is that unencumbered appropriation balances cancel to the fund at the end of the fiscal year. However, if specifically provided for in law, or if statutory authority is invoked by the agency, the unencumbered balance may be carried forward between fiscal years. The budget and the state accounting system are maintained essentially on a cash basis with the exception that, at year-end, encumbered amounts are included in the expenditures of the year appropriated for budgetary reporting. The accounting system controls expenditures by appropriation line item as established in the legally adopted appropriation bills. There are no instances where expenditures exceed the authorized limits at the legal level of budgetary control. A separate report showing the detail of legal level of budgetary control and actual expenditures is available from the Department of Finance.

Memorandum Only Totals Column

The totals columns on the Combined Financial Statements are captioned "Memorandum Only" to indicate that the totals are presented only to facilitate financial analysis. The information in these columns does not present consolidated financial position, results of operations or cash flows.

Fund Name Change

Within the enterprise fund type, the Chemical Dependency Treatment Fund has been renamed the Behavioral Services Fund due to an increased scope of activity. Within the expendable trust fund type, the Reemployment Insurance Fund has been renamed the Unemployment Insurance Fund.

2. CASH AND INVESTMENTS

Cash and Cash Equivalents

The majority of the primary government's cash is held in the state treasury and commingled in state bank accounts while the majority of component unit cash is held in separate bank accounts. The cash in individual funds may be invested separately where permitted by statute, but cash in most funds is invested as part of an investment pool. A fund's investment with the primary government's cash pools is reported as a cash equivalent. Investment earnings of the primary government's pools are allocated to the individual funds where provided by statute. Earnings for all other participants are credited to the General Fund.

The following table summarizes the state's cash and cash equivalents, including amounts reported as restricted assets at December 31, 2000 or June 30, 2001, whichever is applicable (in thousands). Cash with the U.S. Treasury is available for the cash demands of the Unemployment Insurance Fund (expendable trust fund).

	Primary		Component	
Carrying Amount	Government			Units
Cash in Bank	\$	89,428	\$	11,063
Cash on Hand and Imprest Cash		2,449		-
Cash with Fiscal Agent		13,793		-
Cash with U.S. Treasury		556,610		-
Cash Equivalent Investments:				
Cash Management Investment Pools	9	,073,196		159,315
Cash Equivalent Investments		91,742		1,644,540
Total Cash and Cash Equivalents	<u>\$</u> 9	,827,218	\$	1,814,918

Deposits

At June 30, 2001, the primary government's bank balance was \$80,028,000. For component units at December 31, 2000 or June 30, 2001, whichever is applicable, the bank balances were \$28,876,000. These bank balances were adjusted by items in transit to arrive at the state's cash in bank balance. The bank balances were fully covered by federal depository insurance or collateral held by the state's agent in the state's name or held by the component unit in the component unit's name (lowest risk category). Minnesota Statutes, Section 9.031 requires that deposits be secured by depository insurance or a combination of depository insurance and collateral securities held in the state's name by an agent of the state. This statute further requires that such insurance and collateral shall be in amounts sufficient to ensure that the deposits do not exceed 90 percent of the sum of the insured amount and the fair value of the collateral. During the year, certain bank accounts administered by Minnesota State Colleges and Universities (MnSCU) carried balances exceeding the legally secured amount. MnSCU bank balances increase significantly at the beginning of the fall and spring semesters resulting in under collateralized balances. Under collateralized MnSCU balances reached a maximum of \$13.6 million in January 2001.

Investments

The Minnesota State Board of Investment (SBI) manages the majority of the state's investing. Minnesota Statutes, Section 11A.24 broadly restricts investments of the primary government to obligations and stocks of United States and Canadian governments, their agencies and their registered corporations, other international securities, short-term obligations of specified high quality, restricted participation as a limited partner in venture capital, real estate, or resource equity investments and restricted participation in registered mutual funds. In accordance with Minnesota Statute, SBI has the authority to enter into, and has entered into, derivative transactions including put and call options and future contracts traded on a contract market regulated by a governmental agency or by a financial institution regulated by a governmental agency. Any agreements for put and call options and futures contracts may only be entered into with a fully offsetting amount of cash or security. As of June 30, 2001, the state's exposure to market risk is minimal as the derivatives outstanding represent approximately one percent of the total investment balance.

Primary Government Investments at June 30, 2001 (In Thousands)

(In Thousands)	Fair
Investment Type	Value
Repurchase Agreements	\$ 334,219
Commercial Paper	4,027,428
Short Term Corporate Notes	2,900
U.S. Treasury Obligations	1,496,406

Corporate Stocks	668,325
Other Equity	 48,627
Total Investments	\$ 3,559,342
Trustee Managed Pools/Mutual Funds	 177,673
Total Investments	\$ 3,737,015

The previous tables show the state's investments, including cash equivalents, at their carrying and fair values. All primary government and component unit investments are classified as risk category 1. Risk category 1 includes securities which are insured or registered or are held by the government or its agent in the government's name. Risk category 2 investments include uninsured and unregistered securities held by the counter party's trust department or agent in the government's name. Investments in risk category 3 include uninsured and unregistered securities held by the counter party or by its trust department or agent, but not in the government's name.

State statutes do not prohibit Minnesota from participating in securities lending transactions. Minnesota has, by way of Custodial Trust Agreements, authorized State Street Bank and Trust Company (State Street) and Wells Fargo Bank, Minnesota, N.A., (Wells Fargo) to act as agents in lending Minnesota securities to broker-dealers and banks pursuant to a form of loan agreement.

During the fiscal year, State Street and Wells Fargo lent on behalf of Minnesota, certain securities held by State Street or Wells Fargo as custodian and received cash (both United States and foreign currency) and securities issued or guaranteed by the United States government, sovereign debt of foreign countries and irrevocable bank letters of credit as collateral. Neither State Street nor Wells Fargo has the ability to pledge or sell collateral securities absent a borrower default. Borrowers were required to deliver collateral for each loan in amounts equal to not less than one hundred percent (100%) of the fair value of the loaned securities.

Minnesota did not impose any restrictions during the fiscal year on the amount of the loans that either State Street or Wells Fargo made on its behalf. State Street and Wells Fargo indemnified Minnesota by agreeing to purchase replacement securities or return the cash collateral in the event a borrower failed to return a loaned security or pay distributions thereon. No borrower failed to return loaned securities or pay distributions thereon during the fiscal year resulting from default of the borrowers.

During the fiscal year, Minnesota and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested in the separately managed funds of the Minnesota State Board of Investment.

Primary Government Securities Lending Analysis at June 30, 2001 (In Thousands)

	Wells Fargo	State Street
Fair Value of Securities on Loan	\$ 1,434,148	\$ 3,655,809
Collateral Held	\$ 1,452,041	\$ 4,448,469
Average Duration	47 days	73 days
Average Weighted Maturity	47 days	529 days

Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. On June 30, 2001, Minnesota had no credit risk exposure to borrowers because the amounts the state owed the borrowers exceeded the amounts the borrowers owed the state.

Funds not invested by SBI are primarily MnSCU agency funds. Investments for these funds must also conform to the above statutes and may be further restricted by bond indentures.

3. CAMBRIDGE BANK LITIGATION FUNDS

Revenue bonds were issued to satisfy the claims and judgments resulting from litigation. The Cambridge Litigation Revenue Fund, the Cambridge Litigation Revenue Bond Fund and the Cambridge Litigation Revenue Bond Debt Service Fund are used to record revenues, bond proceeds, claims and judgments and debt service payments. These funds are presented as part of the General Fund and the Debt Service Fund (governmental funds).

The General Fund, as presented herein, includes the Cambridge Litigation Revenue Fund and the Cambridge Litigation Revenue Bond Fund, which were established and maintained in the state treasury and on the state's books and records as a separate special revenue fund, pursuant to Minnesota Statutes, Section 16A.67. The Cambridge Litigation Revenue Fund and the Cambridge Litigation Revenue Bond Fund were established by the Commissioner of Finance's order dated May 1, 1996, which was entitled "Order of the Minnesota Commissioner of Finance for Issuance and Sale of \$200,000,000 state revenue bonds, Series 1996A" (the "Order"). The funds are required to be

maintained until the state revenue bonds, Series 1996A, and any other revenue bonds hereafter issued and made payable from the Cambridge Litigation Revenue Bond Fund (the "Revenue Bonds") are paid or discharged in accordance with the Order. The Cambridge Litigation Revenue Fund is used to record receipts of certain non-tax revenues (comprising departmental earnings, medical payments and non-dedicated lottery revenues, all as defined in the Order), revenue bond proceeds and investment earnings, and the disbursement of revenue bond proceeds to pay costs of a judgment against the state and related claims described below, and the transfer of revenues and investment earnings first to the Cambridge Litigation Revenue Bond Debt Service Fund to pay debt service on the revenue bonds, and second to the General Fund to pay costs of state government.

The terms, departmental earnings, medical payments and non-dedicated lottery revenues are defined in the Order substantially as follows:

- Departmental Earnings are certain license fees, service fees and other charges imposed by or pursuant to the state law, which are collected from the general public and regulated businesses and professions. The use of these fees is not otherwise restricted by federal law and is not determined to constitute a tax of statewide application on any class of property, income, transaction or privilege. In addition, these fees, penalties and interest may not be dedicated to another fund.
- Medical Payments are all amounts paid to the state by non-state resources for payment, or as reimbursement for payment by the state from its General Fund, of costs incurred for the care and treatment of mentally ill and developmentally disabled persons at regional treatment centers.
- Non-dedicated Lottery Revenues are all lottery net income not dedicated and required by the State Constitution, Article XI, Section 14 to be transferred to the Environment and Natural Resources Trust Fund (expendable trust fund).

For the fiscal year ended June 30, 2001, the funding received by and transferred from the Cambridge Litigation Revenue Fund, including revenues, investment earnings and the moneys received by and disbursed from the Cambridge Litigation Revenue Bond Fund, were as follows:

(In Thousands)	
Net Revenues:	
License and Fees	\$ 104,667
Care & Hospitalization	58,359
Department Services	29,992
Penalties & Fines	1,545
Investment/Interest Income	575
Net Revenues	\$ 195,138
Other Financing Sources (Uses):	
Operating Transfers	\$ 30,084
Transfers to Debt Service	
and General Funds	(215,483)
Net Other Financing Sources (Uses)	<u>\$ (185,399)</u>
Excess of Revenues and Other Sources	
Over (Under) Expenditures and Other Uses	<u>\$ 9,739</u>

Cambridge Litigation Revenue Bond Fund

The 1997 legislature appropriated \$16,600,000 from the General Fund to pay any additional claims. The total remaining claims have been paid by the General Fund as of June 30, 2001. The principal and interest on claims paid during fiscal year 2001 totaled \$872,000 and \$1,206,000 respectively.

The Cambridge Litigation Revenue Fund and the Cambridge Litigation Revenue Bond Fund, while maintained and administered as separate funds on the official books and records of the state as covenanted and agreed in the Order, have been presented as part of the General Fund for financial reporting purposes for the following reasons. First, the purpose for which the revenue bonds were issued is to fund a portion of the judgment entered against the state in Cambridge State Bank vs. James, 514 N.W.2d 565 (Minn. 1994) and related claims, wherein the Minnesota

Supreme Court held that certain banks were entitled to a refund of taxes paid on income from federal obligations. The judgment and related claims are obligations of the General Fund and have been recorded as an accrued liability in the General Long-Term Obligation Account Group. Second, the revenues appropriated to the Cambridge Litigation Revenue Fund, prior to the establishment of the Cambridge Litigation Revenue Fund, have been revenues of the General Fund. Third, revenues appropriated to the Cambridge Litigation Revenue Fund, which are not required to be transferred to the Cambridge Litigation Revenue Bond Debt Service Fund to pay debt service on the revenue bonds, are required to be and have been transferred to the General Fund, and once so transferred, are available only for General Fund purposes.

4. INTERFUND ACTIVITY

Primary Government

Primary Government Interfund receivables and payables at June 30, 2001, including the current portion of interfund advances, are summarized as follows (in thousands):

Debt Service Fund		51,979		-	
Total Primary Government	\$	54,117	\$	121,891	
Total	\$	176,008	\$	193,109	

Due to primary government exceeds due from component units by \$17,101,000 for the Workers' Compensation Assigned Risk Plan because the plan's fiscal year end differs from the primary government.

Transfers-out to component units exceeds transfers-in from primary government by \$38,424,000. Of this amount, \$15,000,000 and \$23,424,000 were reported as transfers-out to component units in the General Fund and Building Fund (capital project fund), respectively, and recorded as contributed capital in the Public Facilities Authority Fund (proprietary fund type) and Metropolitan Council (proprietary fund type).

Residual equity transfers-out exceed similar transfers-in by \$20,899,000 because of differing reporting focuses for Metropolitan Council proprietary and governmental fund types. These residual equity transfers from governmental fund types are reported as part of the increase to contributed capital in the proprietary fund types.

5. LOANS, NOTES AND FINANCING LEASES RECEIVABLE

Loans, notes and financing leases receivable, net of allowances for possible losses, as of June 30, 2001, consisted of the following (in thousands):

Minnesota Statutes, Section 16A.641 provides for an annual appropriation for transfer to the Debt Service Fund. The amount of the appropriation is to be such that, when combined with the balance on hand in the Debt Service Fund on December 1 of each year for state bonds, it will be sufficient to pay all general obligation bond principal and interest due and to become due through July 1 in the second ensuing year. If the amount appropriated is insufficient when combined with the balance on hand in the Debt Service Fund, the state constitution requires the state auditor to levy a statewide property tax to cover the deficiency. No such property tax has been levied since 1969 when the law was enacted requiring the appropriation.

In fiscal year 2001, the Department of Finance made the necessary transfers to the Debt Service Fund as follows (in thousands):

General Fund	\$ 351,269
Special Revenue Funds:	
Trunk Highway Fund	\$ 6,352
Natural Resources Funds	68
Maximum Effort School Loan Fund	1,633
Miscellaneous Special Revenue Fund	 1,344
Total Special Revenue Funds	\$ 9,397
Capital Projects Funds:	
Building Fund	\$ 10,725
General Projects Fund	 7
Total Capital Projects Funds	\$ 10,732
Enterprise Fund:	
Behavioral Services	55
Component Units:	
Rural Finance Authority	\$ 8,021
University of Minnesota	 2,837
Total Component Units	\$ 10,858
Total Operating Transfers to Debt Service Fund	\$ 382,311

The amount shown in the Debt Service Fund as reserved for debt requirements differs from that shown in the General Long-Term Obligation Account Group as Amount Available in Debt Service Fund because the Debt Service Fund amount includes amounts for both principal and interest on general obligation bonds while the General Long-Term Obligation Account Group includes only the amount for bond principal.

General Obligation Bond Issues

On November 1, 2000, \$255,000,000 in general obligation state various purpose and state refunding bonds and \$30,000,000 in general obligation state trunk highway bonds were issued at a true interest rate of 5.05 percent. During fiscal year 2001, \$224,126,000 in general obligation bonds principal was repaid.

In previous years, the state issued general obligation refunding bonds to refund obligations of certain bond issues. The proceeds of the bond issues were placed in special escrow accounts and invested in government securities. These investments have been certified to be sufficient to pay all principal and interest on the bonds when due. Accordingly, the original refunded bonds have been eliminated, and the new advance refunding bonds have been added to the General Long-Term Obligation Account Group.

The balance outstanding for all extinguished debt at June 30, 2001 was \$261,700,000, which is shown below. The state remains contingently liable to pay the refunded general obligation bonds.

Outstanding Defeased Debt

(In Thousands)

Refunding Date	efunding Amount	efunded Amount	utstanding Amount	Refunded Bond Call Date
August 1, 1993	\$ 146,995	\$ 133,770	\$ 95,900	August 1, 2001
November 1, 1993	91,720	81,650	81,650	August 1, 2002
November 1, 1998	 99,700	 96,100	 84,150	October 1, 2004
Total	\$ 338,415	\$ 311,520	\$ 261,700	

In addition, \$2,040,000 of state guaranteed bonds are being held in escrow because the bond proceeds exceeded the cost of the project. Additional Escrow Defeased Amount

Totals	\$	853,336	\$	2,592,595	

Loans Payable

Loans payable consist of loans granted by energy companies to improve energy efficiency in Minnesota State Colleges and Universities (MnSCU) buildings. These loans are interest free.

Revenue Bonds Payable

Revenue bonds payable of \$16,100,000 reported in the General Long-Term Obligation Account group consist of \$100,000 for airport facilities secured by St. Louis County and \$16,000,000 for the financing of the Giants Ridge recreational area.

On November 1, 2000, \$16,000,000 in state revenue bonds were issued at a true interest rate of 7.48 percent. In addition, \$3,710,000 of these bonds were refunded. The entire refunding bonds proceeds of \$3,674,000 from the Iron Range Resources and Rehabilitation fund (special revenue) have been placed in a special escrow account. This amount has been certified as sufficient to pay all principle and interest on the bonds when due. Accordingly, the original refunded bonds have been eliminated, and the new advance refunding bonds have been added to the General Long-Term Obligation Account Group.

Outstanding Defeased Debt (In Thousands)

	Refunding Ret			funded	Out	tstanding	Refunded Bond			
Refunding Date	Amount		Amount		Amount		Call Date			
November 1, 2000	\$	3,710	\$	3,710	\$	3,710	October 1, 2012			

Claims

Municipal solid waste landfills liability of \$269,213,000 for closure and postclosure care is reported for the landfill cleanup program payable from the Solid Waste Fund (special revenue fund) and the General Fund.

Claims of \$58,322,000 are for workers' compensation claims of employees of uninsured and bankrupt firms. These claims are funded by an assessment on insurers and are payable from the Special Compensation Fund (special revenue fund).

Claims of \$33,016,000 are for certain employees who qualify for post-retirement benefits upon retirement at age 55 under terms of their employment contract. See Note 17 for the amount paid in fiscal year 2001.

The remaining claim amount of \$1,265,592,000 is for reimbursements of supplementary and second injury benefits for old workers' compensation injuries. Legislative action ended both the supplementary and second injury programs. The claim amount represents the estimated undiscounted cost of supplementary benefits for injuries prior to October 1, 1995, and second injury program benefits for injuries prior to July 1, 1992. Without alteration by settlements, the liability is expected to extend to approximately 2045 for supplementary benefits and 2033 for second injuries.

Compensated Absences

The compensated absences liability for governmental funds of \$302,109,000 is primarily for vacation leave and vested sick leave, which are payable as severance pay under specific conditions. Both amounts are paid only when an employee terminates from state employment. This obligation will be liquidated using future resources at unspecified times.

Workers' Compensation

The liability for workers' compensation of \$127,189,000 is based on claims filed for injuries to state employees occurring prior to June 30, 2001 and is an undiscounted estimate of future payments. The liability will be liquidated using future resources at unspecified times.

Leases

Capital leases payable are for those leases that meet the criteria in GASB Statement No. 1, "Authoritative Status of NCGA Pronouncements and AICPA Industry Audit Guide". See Note 8 for the minimum future payments under operating leases.

Arbitrage Liabilities

The arbitrage rebate payable to the federal government of \$26,000 is required by the Tax Reform Act of 1986 and U.S. Treasury regulations and penalties. It is the estimate of the excess earnings on tax-exempt bond proceeds and debt service reserves. Interest earnings on bond proceeds are used primarily for debt service payments. The arbitrage rebate will be paid through an appropriation from the General Fund. There is no reservation of assets for this liability.

Revenue Bonds Payable - Fiduciary Funds

The following defined benefit funds have the authority to issue, and have issued, revenue bonds, which are not general obligations of the state, but are solely secured by certain pledged assets of the funds. On June 1, 2000, \$29,000,000 of revenue bonds were issued. The pledged assets include certain payments made by the State Employees Retirement Fund (SERF), Teachers Retirement Fund (TRF), and Public Employees Retirement Fund (PERF). Minnesota Statutes, Section 356.89 authorized the issuance of these revenue bonds will be allocated to each fund based on the percentage interest each fund has in the facility. The repayment schedule for the combined three funds follows:

Long-Term Debt Repayment Schedule Fiduciary Funds -June 30, 2001 (In Thousands)

Component Units

The Metropolitan Council (MC) (governmental fund type) issues general obligation bonds for parks, solid waste, sewers and transportation, backed by MC's full faith and credit and taxing powers. MC had \$160,579,000 in general obligation bonds outstanding on December 31, 2000.

The Agricultural and Economic Development Board (AEDB) issues revenue bonds for agricultural and economic projects.

8. LEASE AGREEMENTS

Operating Leases

The state and its component units are committed under various leases primarily for building and office space. For accounting purposes, these leases are considered to be operating leases. Lease expenditures for the year ended June 30, 2001 totaled approximately \$69,711,000 and \$19,041,000 for the primary government and component units respectively. Lease expenditures for the year ended December 31, 2000 totaled approximately \$1,733,000 for component units.

Total	\$	239,735	Total	\$ 85,121	Total	\$	6,428			

Capital Leases

The state and its component units have entered into several capital lease agreements to purchase equipment. The leases meet the criteria of a capital lease as defined by Financial Accounting Standards Board Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risk of ownership to the lessee. The terms of each agreement provide options to purchase the equipment at any time during the lease period.

In the governmental funds, equipment purchased through capital lease agreements is included with the general fixed assets. The state's liability for these capital leases is included in general long-term obligations (see Note 7).

9. LONG-TERM OBLIGATIONS - PROPRIETARY FUNDS

Revenue and General Obligation Bonds

Primary Government

The enterprise funds listed below have the authority to issue, and have issued, revenue bonds which are not general obligations of the state, but are payable solely from rentals, revenues and other income, charges and monies that were pledged for repayment. Premiums and discounts on revenue bonds are amortized using the interest method over the life of the bonds to which they relate.

The Minnesota State Colleges and Universities (MnSCU), which is included in the College and Universities Enterprise Activities (CUEA), financed the construction of a dormitory and a modular housing project through the Higher Education Facilities Authority. MnSCU reports the \$1,410,000 debt for these two projects in CUEA.

In addition, the State Operated Community Services (SOCS) has been appropriated money to provide group residential housing for individuals with developmental disabilities. The state has issued general obligation bonds to finance these projects. The debt service costs on the bonds sold to finance these projects must be paid in accordance with Minnesota Statutes, Section 16A.643 from the group residential housing fees charged.

Component Units (proprietary funds)

The Housing Finance Agency (HFA) is authorized by Minnesota Statutes, Sections 462A.21-.22 to issue bonds and notes for the purpose of providing funds for rehabilitation, construction and mortgage loans, or for refunding bonds to sponsors of residential housing for families of low and moderate income. The amount outstanding on these bonds at any time shall not exceed \$2,400,000,000, according to Minnesota Statutes, Section 462A.22.

The Public Facilities Authority (PFA) is authorized by Minnesota Statutes, Section 446A.072 to issue revenue bonds for the purpose of making loans to municipalities for wastewater treatment facilities. The amount outstanding on these bonds at any time shall not exceed \$850,000,000, according to Minnesota Statutes, Section 446A.12.

The Higher Education Services Office (HESO) is authorized by Minnesota Statutes, Sections 136A.171-.175 to issue revenue bonds and notes to finance guaranteed loans for students attending eligible post-secondary educational institutions. The amount outstanding on these bonds at any one time, not including refunded bonds or otherwise defeased or discharged bonds, may not exceed \$550,000,000, according to Minnesota Statutes, Section 136A.171.

The University of Minnesota (U of M) issues revenue bonds and general obligation bonds for capital projects.

The Metropolitan Council (MC) issues environmental services general obligation bonds backed by MC in full faith and credit and taxing powers.

Bond Defeasances

Primary Government

State Colleges and Universities Revenue Fund (enterprise fund) had \$27,390,000 in bonds that were defeased and not reflected in the financial statements as of June 30, 2001. The bonds were defeased by placing investments in an irrevocable trust to provide for all future debt service of the bonds.

Component Units

Public Facilities Authority (proprietary fund type) had \$82,535,000 various refunding series bonds that were defeased and not reflected in the financial statements as of June 30, 2001.

10. LONG-TERM COMMITMENTS

Long-term commitments consist of grant agreements, construction and other contracts. These commitments will be partially funded by current reserves for long-term commitments with the remaining resources provided by future bond proceeds, mining tax revenues and federal grants. Long-term commitments as of June 30, 2001 were as follows (in thousands):

Special Revenue Fund:	
Trunk Highway Fund	\$ 564,918
Capital Projects Funds:	
General Projects Fund	120,347
Transportation Fund	9,855
Building Fund	 337,496
Total Primary Government	\$ 1,032,616
Component Unit:	
University of Minnesota	\$ 431,605

11. CONTINGENT LIABILITIES – LITIGATION

- 1) Payment of tort claims against the state is made from funds appropriated by the Minnesota Legislature to agencies for their general operations to the extent such funds are available without unduly hindering the operation of the agency, from appropriations of dedicated receipts if practicable or from funds appropriated for the payment of tort claims. The tort claims appropriations for fiscal years ending June 30, 2002 and June 30, 2003 were \$875,000 for each year. The maximum limits of liability for tort claims are \$300,000 for any one claim and \$1,000,000 for any number of claims arising out of a single occurrence.
- 2) Lawsuits based on non-tort theories furnish another basis for potential liability. The following cases, or categories of cases, in which the state, its officers or employees, are defendants have been noted because an adverse decision in each case or category of case could result in an expenditure of state monies of over \$10,000,000 in excess of current levels.
 - a. At any one time, there are hundreds of Department of Transportation eminent domain actions being litigated in district courts throughout the state. There is a continuous flow of such cases, with the actual number depending on many factors such as the number of parcels of land that can be acquired by direct purchase, the construction needs of the Department and revenues available for highway projects. In the aggregate, the potential cost to the state for property which has been or will be acquired exceeds \$10 million. Liability arising out of decisions unfavorable to the state may impact the state's trunk highway fund.
 - b. At any one time, there are claims and cases pending against various state agencies, including but not limited to, the Departments of Administration and Transportation and the Minnesota State Colleges and Universities, and other state agencies which may be potentially responsible parties for the cleanup of hazardous and other contaminated waste sites under federal and state superfund and other environmental laws. In the aggregate, it is possible that the potential liability of the state for such claims may exceed \$10 million because all parties are jointly and severally liable under federal and state superfund laws. Liability out of decisions unfavorable to the state may impact the trunk highway fund for claims against the Department of Transportation and the state's General Fund for claims against other state agencies.
 - c. *Amoco, et al. v. Commissioner of Revenue.* Minnesota Tax Court. These cases involve nine related corporations that are challenging the State's corporate franchise tax. The major issues involve; (i) whether the State's gasoline tax law prevents the State from imposing any other kind of tax on Amoco, (ii) whether Amoco and its affiliates are engaged in a unitary business so that the income of all affiliates may be combined and a proportionate share taxed by the State, and (iii) whether the franchise tax discriminates against combined groups conducting business overseas through U.S. domestic corporations and in favor of combined groups conducting their overseas operations through non-U.S.

corporations. Resolution of this matter is not expected before the end of 2001. The amount in controversy is \$29 million. An adverse precedent, however, would result in substantial additional liability as to these and other taxpayers.

- d. Danny's Tranny's, Inc., and all other similarly situated v. State of Minnesota et al. Ramsey County District Court. This is a class action against the State of Minnesota, the Commissioners of Commerce and Finance, and the Minnesota Workers' Compensation Assigned Risk Plan Review Board challenging the constitutionality of legislation passed in the 2000 legislative session. The legislation at issue appropriated surplus funds in the Minnesota Workers' Compensation Assigned Risk Plan and transferred \$450 million to various State agencies and funds. Plaintiffs contend the surplus funds rightfully belong to employers who paid premiums to the Minnesota Workers' Compensation Assigned Risk Plan, and allege the appropriation of the money violates their constitutional rights. The amount in controversy is the transferred amount of the surplus that was contained in the Minnesota Workers' Compensation Assigned Risk Plan. In a judgment entered October 18, 2001, the district court upheld all but \$32 million (plus one year of interest) of the disputed \$450 million in transfers, and denied class certification. Appeals were filed on December 7, 2001. It is unclear whether the \$32 million award would have to be paid to employers from the State's general fund or from the remaining excess surplus in the Minnesota Workers' Compensation Assigned Risk Plan, which presently is over \$100 million.
- e. *Great Lakes Gas Transmission, LP v. Commissioner of Revenue.* Minnesota Supreme Court. This action involves the imposition and collection of a sales/use tax on the purchase of natural gas. The taxpayer claims that; (i) it did not make a taxable purchase of the gas, (ii) the sales/use tax violates the interstate commerce clause and equal protection guarantees, (iii) the sales/use tax is preempted by federal law, and (iv) the gas is exempt from the sales/use tax because it is consumed in industrial production. The Minnesota Tax Court held that natural gas burned to power pipeline compressors is exempt from sales/use tax as fuel consumed in industrial production and ordered a refund of the tax paid. The Commissioner of Revenue has appealed the Minnesota Tax Court's decision to the Minnesota Supreme Court, which heard oral argument on October 2, 2001. The refund amount requested for all pipelines is estimated to be \$11.4 million plus interest. A decision regarding the appeal is expected by early 2002.
- f. U.S. West Communications, Inc. v. Commissioner of Revenue; and Qwest Corporation, f/k/a U.S. West Communications, Inc. v. Commissioner of Revenue. Minnesota Tax Court. Plaintiffs, a regional telecommunication public utility and its successor in interest, claim that that they are entitled to capital equipment refunds of sales taxes paid in an amount of \$5.4 million plus interest in the first case and in an amount of \$21 million plus interest in the second case. The claims are based on the theory that the Plaintiffs use the telecommunications equipment they purchase or install in Minnesota for the tax-exempt purpose of "manufacturing, fabricating or refining" of "tangible personal property." The first case covers a seven-month period ending June 1996, and the second case covers a thirty-month period ending December 1998. A determination in the Plaintiffs' favor would result in a potential tax refund liability well in excess of \$10 million when applied as precedent to Plaintiffs' subsequent tax periods, as well as to the potential refund claims of other telecommunications companies. Since the filing of these cases, several other telecommunications companies have filed similar suits. To date, the total for all such suits is \$47 million. An adverse decision would impact the State's General Fund. The Minnesota Tax Court ruled in favor of the Commissioner of Revenue on April 2, 2001, and Plaintiffs appealed that decision to the Minnesota Supreme Court, which heard oral argument on October 4, 2001. A decision regarding the appeal is expected by early 2002.

12. CONTINGENT LIABILITIES - OTHER

Primary Government

Pension Trust Funds

In addition to the pension trust funds included in the reporting entity (see Note 16), the state is funding a portion of the unfunded liability for other public employee pension funds. Therefore, the state may be contingently liable for

the unfunded liability of these funds. The pension trust funds involved, the year-end for which the most current data is available and the unfunded liabilities are described below (in thousands):

Minneapolis Employee Retirement Fund	June 30, 2001	\$ 108,813
Minneapolis Teachers Retirement Fund	June 30, 2001	\$ 548,381
St. Paul Teachers Retirement Fund	June 30, 2001	\$ 191,886
Local Police and Fire Funds	December 31, 2000	\$ 34,867

The unfunded liability of the Local Police and Fire Fund for 2000 consists of four local plans.

The pension trust funds for which the state has custodial responsibility, but for which the state is not contingently liable, include the Public Employees Retirement, Police and Fire and Public Employees Correctional funds.

All of the unfunded liabilities shown above were computed using the entry age normal actuarial cost (level normal cost) method. Assumptions include 6 and 5 percent interest rates, and 4 and 3.5 percent annual salary growth rates for the Minneapolis Employee Retirement Fund and the Local Police and Fire funds, respectively. Additional annual contributions are provided to reduce the current unfunded liabilities. It has been the intent of the legislature, in establishing contribution rates, to provide sufficient resources to retire or fully fund the liabilities for the Local Police and Fire funds by June 30, 2009 and by June 30, 2020 for the Minneapolis Employees Retirement Fund.

Petroleum Tank Environmental Cleanup

The Petroleum Tank Release Cleanup Act, Minnesota Statutes, Chapter 115C.09, requires the state to reimburse owners for most of their costs to clean up contamination from petroleum tank leaks and spills. The payments will come from the Petroleum Tank Cleanup Fund (Petrofund) (special revenue fund). A significant number of unreported tank contamination sites and cleanup costs presently exist which will require Petrofund expenditures. As of June 30, 2001, the Petrofund has reimbursed eligible applicants approximately \$307 million since program inception in 1987. The estimated total payments from the program, which terminates on June 30, 2005, are between \$370-\$400 million for investigative and cleanup costs.

Solid Waste Fund

The Closed Landfill Program provides environmental response to qualified, state-permitted, closed landfills. Currently, 103 closed sites are in the program. Up to eight additional sites may enter the program in the near future. The state becomes responsible for the long-term care of these closed municipal solid waste facilities only after certain eligibility requirements are met. The state is responsible, in perpetuity, for performing cleanup and final closure work as well as all maintenance and monitoring functions at these qualifying sites. Funding for the state's perpetual obligation at these landfills comes from the Solid Waste Fund (special revenue fund), which includes revenues from the Solid Waste Management Tax, insurance recovery proceeds, and financial assurance from previous owners and operators. Additional revenue from the sale of state general obligation bonds is used for design and construction work at the publicly-owned landfills in the program. As of June 30, 2001, \$124.2 million has been expended by the Solid Waste and bond funds. Estimates indicate that the total of all program payments may reach \$594 million. These estimates include costs for planned response actions, amounts representing future unknown additional remedies which have some probability of occurring, future replacement of some remedial systems, and reimbursements. Actual costs may be higher than estimated because of inflation, changes in technology, inclusion of additional qualifying sites, changes in regulations or future unanticipated response actions.

Component Units

The *Metropolitan Council* enters into contracts for various purposes, including transit services and construction projects, among others. As of December 31, 2000, unpaid commitments were approximately \$117.6 million for transit services, while future commitments were \$297.2 million for metro transit-light rail, \$34.7 million for regional transit services and \$20.7 million for construction contracts.

The Workers' Compensation Assigned Risk Plan (WCARP) contracts with five servicing contractors to provide policy issuance, premium accounting and claim settlement services in exchange for a service fee based upon a

standard written premium. Contingent liabilities exist with respect to performance of the above services to the extent that the servicing carriers are unable to meet their obligations under terms of the general service agreement.

WCARP, through Employers Life Insurance Company of Wausau, has purchased annuities to settle certain claims with the claimant as payee, but for which WCARP remains contingently liable. WCARP eliminated its loss reserves for these claims at the time the annuities were purchased. A contingent liability exists to the extent that the issuer of the annuity contracts becomes unable to fulfill its contractual obligations. The present value of annuity contracts in force at December 31, 2000 was approximately \$4.9 million.

WCARP had a change in estimates of insured events in prior years. This decrease resulted in a reduction in the estimate of the ultimate cost of losses incurred, thus a negative expense of \$15.5 million for this fiscal year. This decrease was due primarily to the release of reserves attributed to improvement in claim experience, as well as changes in economic, social, and legal trends since the loss of reserves were originally established.

The University of Minnesota (U of M) has approximately \$263.6 million of construction projects in process, principally buildings, that have been included in the assets of the plant funds at June 30, 2001. The estimated cost to complete these facilities is \$431.6 million, which is to be funded from plant fund assets and \$113.8 million in appropriations available from the state of Minnesota.

The U of M owns certain steam production facilities that produce steam for heating and cooling for the Twin Cities campuses. By agreement, these facilities are managed, operated and maintained by an unaffiliated company. The term of the agreement is 25 years and commenced on July 1, 1992. Under the agreement, the U of M must make minimum fixed payments for certain operating and maintenance costs as well as contingent payments based on monthly usage. The minimum fixed amount of the required payments at June 30, 2001 is as follows (in thousands):

Fiscal Year	
Ending June 30	Total
2002	\$ 6,048
2003	6,048
2004	6,048
2005	6,048
2006	6,048
Thereafter	66,536
Total	<u>\$ 96,776</u>

Other Contingent Liabilities

The 1993 Legislature established a School District Credit Enhancement Program. The legislation authorized and directed the Commissioner of Finance to issue a warrant and authorized the commissioner of Children, Families and Learning (CFL) to pay debt service coming due, under certain circumstances and subject to the availability of funds. Payments are made on behalf of the school district if the district cannot pay for: 1) the school district tax and the state-aid anticipation certificates of indebtedness, 2) certificates of indebtedness and capital notes for equipment, 3) certificates of participation, and 4) school district general obligation bonds. The school district must notify the commissioner of CFL that the district does not have sufficient money in its debt service fund for this purpose. Payment can also be made if the paying agent informs the commissioner of CFL that it has not received timely payments from the school district to be used to pay debt service. The school district must repay (with interest) amounts paid on the district's behalf. Repayment can be either through a reduction of subsequent state-aid payments or by the levy of an ad valorem tax, which may be made with the approval of the commissioner of CFL. As of October 1, 2001, approximately \$8.0 billion in principal and interest of bonds, certificates of indebtedness and capital notes was enrolled in the program. The state has not had to make any debt service payments on behalf of school districts under the program and does not expect to make any payments in the future.

13. NORTHWEST AIRLINES MAINTENANCE FACILITIES

Minnesota Laws 1991, Chapter 350 authorized the state to issue up to \$50,000,000 of revenue bonds secured by the state's full faith and credit to finance the construction and equipping of an engine repair facility in Hibbing, and up to \$125,000,000 to finance the construction and equipping of an aircraft maintenance facility in Duluth. By agreement dated December 21, 1994 with Northwest Airlines, Inc. (NWA), the intended lessee of both facilities and certain other parties, it was agreed that the Hibbing facility would not be constructed and that the state would use its best efforts to issue revenue bonds secured by the state's full faith and credit for the Duluth facility. The state issued \$47,670,000 of revenue bonds in May 1995. As of June 30, 2001, \$41,050,000 of the revenue bonds remained outstanding, of which \$23,630,000 is payable primarily from lease payments of NWA, and \$17,420,000 is payable primarily from tax increment revenues derived from the Duluth facility and other revenues of the city of Duluth.

In the event these revenues are insufficient to make payment, the state will have the right to apply certain state-aid payments otherwise payable to the city of Duluth to the payment of these bonds, or to reimburse itself from these funds for making payments on the bonds. Of the \$41,050,000 revenue bonds issued by the state, \$40,950,000 is secured by the state's full faith and credit, and \$100,000 is secured by the full faith and credit of St. Louis County. The bonds are structured so that the initial bonds, together with expected later refundings, will provide financing over a 30-year amortization period. On July 1, 1999, \$3,435,000 of the revenue bonds was defeased, thereby reducing the amount of the stated outstanding balance. The defeased funds are to be held in escrow. The invested funds will be sufficient to pay the principal of, and interest on, the bonds to their earliest call date or, for the bonds secured by the full faith and credit of St. Louis County, to pay the principal on bonds coming due on August 1, 2004. The 1997 Minnesota legislature cancelled \$48,765,000 of the bonding authorization for the engine repair facility. Pursuant to Minnesota Statutes, Section 16A.642 an additional \$81,275,000 of the bonding authorization was cancelled on July 1, 2001.

14. EQUITY

Contributed Capital

Details of the changes in the contributed capital of the primary government enterprise and internal service funds and component unit proprietary funds are as follows (in thousands):

	Primary Government					Component Units		
Source		nterprise Funds	Internal Service Funds Total		P	roprietary Funds		
Contributed Capital, Beginning	\$	25,848	\$ 6,064	\$ 31,912	\$	962,334

Total Retained Earnings	\$	188,530	\$	107,927	\$	1,563,460			

Reserved Retained Earnings

Primary Government

Reserved for Claims represents the accrued amount for claims incurred, but not reported for the Public Employees Insurance Program Fund and the Risk Management Fund.

Component Units

Reserved Retained Earnings per State Law consists of \$178,763,000 in the Housing Finance Agency Fund. This reserve is the unused portion of state appropriations provided for specific programs. These programs are primarily for interest rate reductions on housing mortgages and home improvement loans.

Fund Balances

The following table identifies in greater detail the fund balances of the reporting entity (in thousands):

											Fiduciary		Iniversity

Reserved Fund Balance

The reserved portion of the fund balances indicates that a portion of the fund balance is not available for appropriation or is legally segregated for a specific future use.

Budgetary Reserve in the General Fund consists of two different accounts. The budget reserve account is appropriated by the legislature for use only when it appears that probable receipts will be less than anticipated and the amount available for the remainder of the biennium will be less than needed for budgeted expenditures. In this circumstance, state law requires that the commissioner of Finance, with the approval of the governor and after consulting with legislative leadership, transfer the amounts necessary from the reserve to the unreserved fund balance. The cash flow account is used to meet cash flow deficiencies resulting from the uneven distribution of revenue collections and required expenditures during a fiscal year.

Budgetary Reserve in the Health Care Access Fund (special revenue fund) is a statutory reserve established to preserve basic health care services when federal funding is significantly reduced. This reserve is limited to \$150,000,000.

Reserved for Local Governments is the equity amount in three expendable trust funds required by the state constitution to be paid to local governments. The funds are the Municipal State-Aid Street, County State-Aid Highway and Endowment School funds. The payments to these local governments are for street and highway projects (to municipalities and counties) and to subsidize education in local school districts.

Reserved for Other of \$5,680,000 in the special revenue fund (Federal Fund) consists primarily of petroleum overcharge fines allocated by the federal courts to be used for energy conservation programs.

Reserved for Other - University of Minnesota (component unit) of \$769,205,000 consists primarily of current externally restricted operating funds along with restricted plant funds that may be utilized only in accordance with the purposes established by the source of the funds.

Unreserved Fund Balance

Primary Government

The unreserved portion of the fund balances consists of designated fund balances indicating tentative managerial plans for future use of resources and undesignated fund balances indicating those unreserved financial resources available for appropriation. A portion of the undesignated fund balances in the Natural Resources (special revenue) funds may be appropriated only for specific programs.

Designated for Fund Purposes consists of fund balances for non-appropriated funds to be used for the following purposes (in thousands):

	Special Revenue Funds	Ez	xpendable Trust Funds
Education	\$ 11,511	\$	15,041
Economic Development	164,441		708,951
Health and Social Services	86,045		-
Transportation	6,803		-
Resource Management	22,915		18,926
Protection of Persons and Property	21,724		-
General Government	 18,596		
Totals	\$ 332,035	\$	742,918

The total Designated for Fund Purposes of Governmental Component Units and the University of Minnesota of \$298,672,000 and \$210,229,000 respectively, is to be used primarily for debt service.

15. PRIOR PERIOD ADJUSTMENTS AND OTHER CHANGES IN ACCOUNTING PRINCIPLES

Prior Period Adjustments

Primary Government

The Miscellaneous Special Revenue Fund includes a prior period adjustment of \$5,439,000 due to the restructuring of a loan program, the Rural Challenge Grant Program. Loans previously administered by the Department of Trade and Economic Development are being administered by regional organizations. The state retains a general oversight role regarding the use of funds.

Component Unit

The operations of the University Hospital and Clinic (U of M) and certain assets and liabilities were transferred to Fairview Hospital and Healthcare Services on December 31, 1996. Recoveries and adjustments to previously recorded losses on this transfer total \$14,228,000 for the year ended June 30, 2001, representing a Medicare reimbursement for the loss on property, plant, and equipment.

Change in Accounting Principle

Primary Government

The state implemented GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions" and Statement No. 36, "Recipient Reporting for Certain Shared Nonexchange Transactions", an amendment to Statement No. 33, for fiscal year 2001. These statements establish accounting and financial reporting standards to guide state and local governments decisions about when (in which fiscal year) to report the results of nonexchange transactions involving cash and other financial and capital resources. In a nonexchange transaction, a government gives, or receives, value without directly receiving, or giving, equal value in return.

GASB Statement No. 33 required that the Unemployment Insurance Fund restate revenues, receivables and payables for unemployment taxes assessed on employee wages earned during the quarter ended June 30, 2000, but not paid to the fund until fiscal year 2001. Under the restatement, unemployment tax revenue is recognized in the year that the underlying wages were earned. The restatement resulted in increases in unreserved fund balance of \$101.4 million, receivables of \$63.7 million and payables of \$3.1 million, and a decrease in revenue of \$40.8 million. In addition, the Miscellaneous Special Revenue Fund had an increase of \$8.2 million to fund balance because part of the revenue flows through this fund.

Refer to Note 23 regarding a change in accounting principle for sales tax revenue and liability in the General Fund.

Component Unit

The University of Minnesota (U of M) also implemented GASB Statement No. 33 in fiscal year 2001. Restatement of the prior year U of M financial statements for the adoption of GASB Statement No. 33 was determined impractical. As a result, net assets at July 1, 2000 were increased by \$2,553,000 for the cumulative effect of these changes on years prior to 2001. The current-year impact on net assets of the adoption of this statement is a decrease of \$8,096,000.

Changes in Fund Structure

Primary Government

The Traumatic Brain Injury (TBI) activity previously reported as part of the General Fund is now reported as part of the Behavioral Services Fund. Based on re-evaluation of the fund structure, this activity has been reclassified as an enterprise fund. The net effect of this change for the Behavioral Services Fund is an increase of \$2,160,000 on the cash flow statement. TBI had no beginning retained earnings. The General Fund is reporting a Change in Fund Structure adjustment of \$2,160,000, which increases the Behavioral Services contributed capital. Other contributed capital came from the General Fixed Assets Account Group.

16. PENSION AND INVESTMENT TRUST FUNDS

The state of Minnesota performs a fiduciary role for several pension trust funds. For some of these funds, the state contributes as an employer, and for other funds performs only a fiduciary role. These trust funds are categorized as either defined benefit or defined contribution (pension trust funds) or investment trust funds.

Three plan administrators, who prepare and publish their own stand-alone comprehensive annual financial reports, including financial statements and required supplementary information, provide the pension fund information. Each plan administrator accounts for one or more pension plans. Copies of these reports may be obtained directly from the organizations listed below. See Summary of Significant Accounting and Reporting Policies (Note 1) for addresses.

<u>Plan Administrator</u> Public Employees Retirement Association (PERA)	<u>Plans Covered</u> Public Employees Retirement Fund Police and Fire Fund Public Employees Correctional Fund Public Employees Defined Contribution Retirement Fund
Teachers Retirement Association (TRA)	Teachers Retirement Fund
Minnesota State Retirement System (MSRS)	State Employees Fund State Patrol Fund Correctional Employees Fund Judicial Fund Elective State Officers Fund Legislative Fund Unclassified Employee Retirement Fund

Wells Fargo is the plan administrator for the College and University Retirement Fund. Wells Fargo prepares, but does not publish, its financial report. Copies of this report may be obtained from the Department of Finance.

Defined Benefit Pension Funds

Plan Descriptions and Contribution Information

Multiple employer, cost-sharing plans:

The State Employees Retirement Fund (SERF) covers those employees of the state, University of Minnesota and certain other entities not covered by other pension funds. Thirty-two employers participate in this plan. Normal retirement age is 65. The annuity formula is the greater of a step rate with a flat rate reduction for each month of early retirement, or a level rate (the higher step rate) with an actuarial reduction for early retirement. The applicable rates are 1.2 percent and 1.7 percent. The state, as an employer for some participants, is liable for a portion of any unfunded accrued liability of this fund.

The Teachers Retirement Fund (TRF) covers teachers and other related professionals employed by school districts or by the state. Four hundred sixty-three employers participate in this plan. Normal retirement is age 65. The annuity formula for each type of membership is the greater of a step rate with a flat reduction for each month of early retirement, or a level rate (the higher step rate) with an actuarially based reduction for early retirement. The applicable rates for basic members are 2.2 and 2.7 percent, and for coordinated members, 1.2 and 1.7 percent. The state, as an employer for some participants, is liable for a portion of any unfunded accrued liability of this fund. Currently, TRF does not have an unfunded accrued liability.

The Public Employees Retirement Fund (PERF) covers employees of various governmental subdivisions, including counties, cities, school districts and related organizations. Approximately 2,000 employers participate in this plan. There are two types of membership: basic and coordinated. Normal retirement age is 65. The

annuity formula for each type of membership is the greater of a step rate with a flat reduction for each month of early retirement, or a level rate (the higher step rate) with an actuarially based reduction for early retirement. The applicable rates for basic members are 2.2 and 2.7 percent, and for coordinated members, 1.2 and 1.7 percent. The state is not an employer of the participants in the plan, but performs only in a fiduciary capacity and is not responsible for the unfunded accrued liability of this fund.

The Police and Fire Fund (P&FF) covers persons employed as police officers and firefighters by local governmental subdivisions. Normal retirement age is 55. The annuity formula for each member is 3 percent of average salary for each year of service in that plan. Prior to 1981, these employees were not covered by a local relief association. The fund covers all those hired since 1980. The state is not an employer of participants in the plan, but performs in a fiduciary capacity. Approximately 500 employers participate in this plan.

The Public Employees Correctional Fund (PECF) covers employees in county correctional facilities who have direct contact with inmates. Approximately 80 employers participate in this plan. Normal retirement age is 55. The annuity formula for each member is 1.9 percent of average salary for each year of service in that plan. The state is not an employer of participants in the plan, but performs in a fiduciary capacity.

■ Single employer (state of Minnesota) plans:

The State Patrol Retirement Fund (SPRF) covers state patrol officers, crime bureau officers and various conservation officers who perform enforcement duties. Normal retirement age is 55. The annuity is 3.0 percent for each year of service.

The Correctional Employees Retirement Fund (CERF) covers state employees who have direct responsibility for inmates at Minnesota correctional facilities. Normal retirement age is 55. The annuity is 2.4 percent for each year of service.

The Judicial Retirement Fund (JRF) covers judges of the supreme court, district courts, county courts, probate courts and various court referees. Normal retirement age is 65. The annuity is 2.7 percent for each year of service (3.2 percent for each year after June 30, 1980).

The Elective State Officers Fund (ESOF) covers the state's constitutional officers. Vesting occurs after eight years. Normal retirement age is 62. The annuity is 2.5 percent for each year of service. The EOSF is excluded from the Single Employers Plan Disclosures since the remaining active employees have retired, terminated or elected coverage under another plan. This plan is closed to new entrants according to Minnesota Statutes, Chapter 352C.

The Legislative Retirement Fund (LRF) covers members of the state's house of representatives and senate. Vesting occurs after six years. Normal retirement age is 62. The annuity is 2.5 percent for each year of service.

Actuarial Assumptions for Single Employers

- The actuarial cost method used by all plans is the Entry Age Normal method.
- The method used to determine actuarial valuation of assets is cost plus one-third unrealized gains or losses.
- Minnesota statutes or valuation standards do not require an inflation rate assumption to cost the plans.
- Investment returns for pre-retirement and post-retirement are 8.5 percent and 6.0 percent, respectively, for SPRF, CERF and JRF; and 8.5 percent and 5.0 percent, respectively for LRF and ESOF.
- Projected salary increases are graded from 7.75 percent to 5.25 percent for SPRF and CERF. For LRF, ESOF and JRF, projected salary increases are a level 5.0 percent.
- The payment of earnings on retired reserves in excess of 6.0 percent is accounted for by 6.0 percent post-retirement assumptions for all plans. Under the LRF and ESOF plans, for those persons not yet in pay status, a 5% post-retirement discount rate is used to account for the one-time adjustment applicable at retirement.
- The level percentage of projected payroll is the amortization method used, except for the ESOF plan which uses the level dollar amortization method.
- The amortization period is through July 1, 2020.
- The amortization period is closed.

Defined Contribution Funds

The defined contribution funds presented in the financial statements include various statewide public employee retirement funds under which the benefits to be received are limited to an annuity, which can be purchased with the combined contributions of both the employee and employer. Accordingly, there is no unfunded liability for these funds; therefore, there is no actuarial valuation of accrued benefit liability nor any actuarially required contribution.

Plan Descriptions and Contribution Information

The Unclassified Employee Retirement Fund, authorized by Minnesota Statutes, Chapter 352D, covers only those state employees who are included either by statute or policy in the "unclassified service" of the state. Statutory contribution rates are 4.0 percent for employee and 6.0 percent for employer. Vesting occurs immediately, and normal retirement age is 55. Annuity is based on age and value of the participant's account. Eighteen employers participate in this plan.

The College and University Retirement fund, authorized by Minnesota Statutes, Chapter 354B and Chapter 354C, cover unclassified teachers, librarians, administrators and certain other staff members who have been employed fulltime for a minimum of two academic years. The plan administrator is Wells Fargo. Participation is mandatory for qualified employees. These funds consist of an Individual Retirement Account Plan (IRAP) and a Supplemental Retirement Plan (SRP). Two member groups participate in the IRAP, one for faculty and one for managerial employees. For the faculty, the employer and employee statutory contribution rates are 6.0 and 4.5 percent respectively, while for the managerial employees the employer rate is 6.0 percent and the employee rate is 4.0 percent. For the SRP, the statutory contribution rate is 5 percent of salary between \$6,000 and \$15,000. Vesting occurs immediately, and normal retirement is age 55. One employer participates in this plan. Total current membership in the plan is approximately 14,500.

The Public Employee Defined Contribution Retirement Fund (PEDCR) is authorized by Minnesota Statutes, Chapter 353D. The plan covers local units of government of which current or former elected officials elect to participate (with the exception of elected county sheriffs), emergency medical service personnel employed by or providing service to any of the participating ambulance services and physicians employed at public facilities. The plan administrator is the Public Employee Retirement Association. Plan benefits depend solely on amounts contributed to the plan plus investment earnings less administrative expenses. There is no vesting period required to receive benefits from this plan. PEDCR Fund covers approximately 1,000 units of government. There are 4,716 members in the plan.

Defined Contribution Plans Contributions Made for Fiscal Year 2001 (In Thousands)

	PERA Defined Contribution Fund	Unclassified Employee <u>Retirement Fund</u>	Colleges and Universities <u>Retirement Fund</u>
Employee Contributions	\$875	\$4,560	\$17,606
Employer Contributions	\$971	\$6,120	\$20,653

Investment Trust Funds

The Supplemental Retirement Fund (investment trust fund) is administered by the State Board of Investment, which issues a separate report (see Note 1 for address). This fund is an investment pool for external participants, which are locally administered retirement funds and a deferred compensation plan.

17. POST-RETIREMENT BENEFITS

For certain employees, post-retirement benefits are available upon retirement at age 55 under terms of their employment contract. Through fiscal year 2001, the employees involved were primarily conservation officers, correctional counselors at state correctional facilities, highway patrol officers and Minnesota State Colleges and Universities (MnSCU) faculty entitled to early retirement incentives. If these employees elect retirement at age 55, the state pays the employer's share of health insurance benefits until the employees reach age 65.

Periodically, the legislature has provided early retirement incentives for other employees meeting specific requirements. The specific circumstances usually require the employee to retire within a narrow time frame, whereby the state will pay the employer's share of health insurance benefits until the employee reaches age 65. The 1993 and 1995 legislatures approved incentive windows from May 17, 1993 through January 30, 1994, and from May 23, 1994 through January 30, 1995, respectively.

The cost of these benefits, which is recognized when paid, was \$6,496,529 during fiscal year 2001. Approximately 1,100 former employees currently receive this benefit. The long-term liability is reported in the general long-term obligation account group.

18. SEGMENT INFORMATION AND CONDENSED BALANCE SHEET

19. RISK MANAGEMENT

Primary Government

The state is exposed to various risks of loss related to torts; to theft of, damage to, or destruction of assets; to errors or omissions; and to employer obligations. The state manages these risks through the Risk Management Fund (internal service fund), a self-insurance fund, and other self-insurance mechanisms. All health plans are self-insured.

Risk Management Fund

State agencies may elect to participate in the Risk Management Fund, which offers liability and property coverage. The agency pays a premium to participate in this coverage. All state agencies are required to purchase automobile liability coverage from the fund.

The property coverage offers an agency a deductible between \$1,000 and \$100,000. The fund covers the balance of the claim up to \$500,000. The primary reinsurer covers losses up to \$25,000,000 after which the excess loss is shared among three reinsurers up to \$400,000,000. The liability coverage is up to the statutory limit of \$300,000 per person for property damage or \$750,000 for bodily injury per occurrence. Once annual losses paid by the Risk Management Fund reach \$3,500,000, the reinsurer will step in and cover those losses in excess of each covered agency's deductible. Once this limit is reached, the fund has to pay a \$10,000 maintenance deductible for each claim.

The Risk Management Fund purchases insurance policies for state agencies seeking other types of coverage. This type of policy covers risks for which the state is not able to self-insure and includes aviation, medical malpractice and foster care liability. The premiums for these policies are billed back to agencies at cost.

Statutory provisions prohibit the state from insuring property against loss. Certain agencies and programs are exempted from this prohibition. These include the Minnesota Correctional Facility - Stillwater, Minnesota State Colleges and Universities, Family Farm Security Program, Department of Military Affairs, Iron Range Resources and Rehabilitation Board and the Sibley House. The Commissioner of the Department of Administration may authorize the purchase of insurance on state properties should it be deemed necessary and appropriate to protect buildings and contents. All losses of state property are self-insured, covered by programs of the Risk Management Fund or covered by insurance policies purchased by the Risk Management Fund on behalf of state agencies.

Tort Claims

Tort claims against the state are limited by statute to \$300,000 per person for property damage or \$1,000,000 per person for bodily injury per occurrence. These risks are covered through self-insurance. Each state agency is responsible to pay for the cost of claims from its operating budget of various funds. The legislature also makes an annual Tort Claim Appropriation to cover claims that would unduly impair agency operations. Agencies not able to cover claims through these two avenues must seek additional appropriations from the legislature.

Workers' Compensation

The state, as a self-insured employer, assumes all risks for workers' compensation related claims and is required by state law to be a member of the Workers' Compensation Reinsurance Association (WRCA). The WRCA reimburses the state for catastrophic workers' compensation claims that exceed the current retention amount of \$1,320,000. The recovery of claim costs that are less than the WCRA retention amount is the responsibility of each state agency. These costs are paid from each agency's operating budget. During fiscal year 2001, a significant change in claim liability occurred as a result of several unanticipated events that contributed to an estimated \$11 million reduction in outstanding liabilities. These events included full or partial settlement of claims, the deaths of former employees thus reducing future liabilities and the recalculation of new claim-based revised financial data.

State Employee Group Insurance Program

The State Employee Group Insurance Program (SEGIP) was created by the Minnesota State Legislature as an employee insurance trust fund to provide eligible employees and other eligible persons with life insurance and hospital, medical, and dental benefits coverage through provider organizations. The trust fund is not associated with a public risk pool. The fund type used to account for SEGIP fiscal activities is an internal service fund dedicated solely for the purpose of this program. A contingency reserve is maintained within the trust fund to increase the controls over medical plan provisions and other insurance costs for the purpose of moderating premium and claim fluctuations, and to assume all inherent risk associated with the self-funded insurance programs, which would also include losses to the fund.

SEGIP provides benefits coverage to employees by contracting with carriers for medical, dental, life, and disability coverage through a network of providers throughout the state.

In January 2000, the Fund became fully self-insured for medical coverage and now assumes all liability for medical claims. The self-funded programs within the fund establish claims liabilities based on estimates of the ultimate costs of claims (including future claim adjustment expenses) that have been reported but not paid, and of claims that have been incurred but not reported. These estimates are provided by the insurance carriers and reviewed by the program managers for accuracy and reasonableness. The estimates are based on claim experience and claim lag timetables provided by the carriers and do not include additional estimates for subrogation, salvage or unallocated claim adjustments.

Public Employees Insurance Program

The Public Employees Insurance Program (PEIP) is a public entity risk pool currently operating as an insurance program. The risk pool was created by the Minnesota State Legislature to provide public employees and other eligible persons with life insurance and hospital, medical and dental benefit coverage to result in a greater utilization of government resources and advance the health and welfare of the citizens of the state. The enabling legislation for PEIP is Laws of Minnesota, 1987 codified as Minnesota Statutes, Section 43A.16. The PEIP became a self-funded program again in 1998 after a brief period as a fully funded entity.

PEIP's membership as of June 30, 2001 was 4,158 members and 4,798 dependents. The members of the pool include 20 schools, 78 cities/townships, 4 counties and 27 other public employers. PEIP provides medical benefits coverage to public employees through a self-insured statewide program administered through several private-sector claims administrators/managed care organizations, as well as fully insured life and dental coverage. The pool will be self-sustaining through member premiums and will reinsure for claims through its administrators/managed care organizations for Stop-Loss coverage for claims in excess of \$50,000. The employers' premium would be increased the next plan-year and over several plan-years, if necessary, to recover costs in case of a deficiency. Investment income is not anticipated in calculating premium deficiencies. In the event the assets of the pool would be exhausted, members would not be responsible for the pool's liabilities.

The pool establishes claims liabilities based on estimates of the ultimate costs of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. The estimated amounts of reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. The pool uses reinsurance agreements to reduce its exposure to large losses on all types of insured events. Reinsurance permits the recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the pool as direct insurer of the risks reinsured.

The following table presents changes in the balances of self-insured claims liabilities during the fiscal years ended June 30, 2001 and 2000:

		Beginning Claims Liability	Vet Additions and Changes in Claims	 Payment of Claims	 Ending Claims Liability
Risk Management Fund

* The Office of the Attorney General does not recognize liabilities for Tort Claims. Claims have never exceeded funding appropriated by the legislature.

Component Units

Metropolitan Council

Metropolitan Council (MC) is exposed to various risks of loss related to torts; to theft of, damage to, or destruction of assets; to errors or omissions; and to employer obligations. MC both purchases commercial insurance and self-insures for these risks of loss as discussed below. MC has not experienced significant reduction in insurance coverage from the prior year. In addition, MC has not had any settlements in excess of coverage for the past three years.

Liability

MC purchases general liability insurance to protect all divisions of MC and recognizes a current liability for incurred, reported claims, and a long-term liability for claims incurred, but not reported. Claims liabilities are calculated considering recent claim settlement trends including frequency and amount of payouts. Minnesota Statutes, Section 466.04 generally limits the MC's 2000 tort exposure to \$300,000 per claim and \$1,000,000 per occurrence for a claim arising on or after January 1, 2000. For claims arising earlier, the limits are \$200,000 per claim and \$750,000 per occurrence. In addition, an amount equal to twice these limits applies if the claim arises out of the release or threatened release of a hazardous substance.

Workers' Compensation

MC has self-administered workers' compensation claims for all divisions. Liabilities are reported when information is available that suggests there has been an occurrence with probable loss incurred. Liabilities include an amount for claims that have been incurred but not reported. Claims liabilities are re-evaluated periodically to consider recently settled claims, the frequency of claims and other economic and social factors. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using a discount rate of 5.22 percent.

The self-insurance retention limit for workers' compensation is \$1,240,000 per single loss. For claims above the retention limit, the Workers' Compensation Reinsurance Association reimburses MC.

University of Minnesota

The University is self-insured for medical malpractice, general liability, directors and officers liability and automobile liability through RUMINCO, Ltd., a wholly owned single parent captive insurance company. Claims are reported to a third-party administrator, which pays expenses and sets up reserves. The total estimated expense of a claim is estimated and booked as a liability when it is probable a loss has occurred and the amount of the loss can be reasonably estimated in the year in which it is reported. In addition, an actuarial liability is established for incurred but not reported claims.

The University is also self-insured for workers' compensation through an internally maintained fund. The internal fund for workers' compensation is maintained only to fund current year expected payouts. Excess insurance is maintained through the Workers' Compensation Reinsurance Association. Each year, an actuarial estimate of the University's liability for workers' compensation is compiled and recorded, but the liability is not funded in a separate reserve.

The following table presents changes in the balances of claims liabilities during the fiscal years ended December 31, 2000 and 1999 or June 30, 2001 and 2000, as applicable:

		Beginning Claims Liability	a	et Additions nd Changes in Claims	 Payment of Claims	 Ending Claims Liability

20. BUDGETARY BASIS VS GAAP

Actual revenues, transfers-in, expenditures, encumbrances and transfers-out on the budgetary basis do not equal those on the GAAP basis in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types and Expendable Trust Funds. This inequality results primarily from differences in the recognition of accruals, reimbursements, deferred revenue, intrafund and loan transactions, and from the budgetary basis of accounting for encumbrances. On the budgetary basis, encumbrances are recognized as expenditures in the year encumbered. The modified accrual basis of accounting recognizes expenditures when the goods or services are received, regardless of the year encumbered. A reconciliation of the fund balances under the two bases for the General Fund and special revenue funds is provided in the table "Reconciliation of GAAP Basis Fund Balances".

A major difference between GAAP and the budgetary fund balances for special revenue funds is an entity difference for those funds, which do not require legal appropriations. A reconciliation of this entity difference is presented below (in thousands). Other differences in basis of accounting and perspective (fund structure) are included in the subsequent table.

21. SUBSEQUENT EVENTS

Primary Government

On October 17, 2001, \$330,000,000 of general obligation state various purpose bonds and \$25,000,000 of general obligation state trunk highway bonds were sold at a true interest rate of 4.30 percent. The bonds were issued to finance the cost of capital improvements. These bonds are backed by the full faith and credit and taxing powers of the state of Minnesota.

On October 24, 2001, \$4,000,000 of general obligation taxable state various purpose bonds were sold at a true interest rate of 5.41 percent. The bonds were issued to finance the cost of capital improvements. These bonds are backed by the full faith and credit and taxing powers of the state of Minnesota.

As required by the constitution and statutes, transfers from primary government and component unit funds presented below were made on November 30, 2001 to the separately invested Debt Service Fund to cover the principal and interest maturing through July 1, 2003 (in thousands):

General Fund	\$295,745
Natural Resources Fund	13
Trunk Highway Fund	7,449
Maximum Effort School Loan Fund	1,037
University of Minnesota	7,581
Total Transfers to Debt Service	<u>\$311,825</u>

A sales tax rebate not to exceed \$852.08 million was approved by the 2001 legislature. The law specifies that the rebate is a reduction of fiscal year 2001 sales tax revenues. The amount necessary to pay the sales tax rebate and interest is appropriated from the General Fund to the Commissioner of Revenue in fiscal year 2001 and is available to claim by taxpayers until June 30, 2003. A sales tax rebate of \$791.3 million was recorded in the financial statements as a reduction of the sales tax revenue and an increase in accounts payable in the General Fund as of June 30, 2001. The majority of the sales tax rebate accrued in fiscal year 2001 was issued to taxpayers in August 2001. Of this amount, approximately \$25 million was collected by the state through revenue recapture programs.

Component Units

In March 2001, \$32,000,000 of general obligation sewer refunding bonds, which refund the 2002-09 maturities of the \$62,375,000 General Obligation Sewer Refunding Bonds, were issued by the Metropolitan Council (proprietary fund type). In January 2001, the Metropolitan Council (proprietary fund type) secured a full funding grant agreement from the Federal Transit Administration for the construction of the Hiawatha light rail project. The Metropolitan Council has a December 31 year end.

In October 2001, the Public Facilities Authority (proprietary fund type) issued \$94,000,000 in revenue bonds for the purpose of funding loans.

In 2001, the Workers' Compensation Assigned Risk Plan (WCARP) received a notice of a \$17,881,000 refund of excess ceded reinsurance premiums from the Workers' Compensation Reinsurance Association, which will be received and recorded in 2001. WCARP has a December 31 year end.

22. NEW REPORTING STANDARDS

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments", followed in November 1999 by Statement No. 35, "Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities". These statements establish new financial reporting requirements for state and local governments and public colleges and universities throughout the United States. When implemented, the statements will require new information to be reported and restructure much of the information that governments have presented in the past. Comparability with reports issued in all prior years will be affected. The state is required to implement Statement No. 34 for the fiscal year ending June 30, 2002. Minnesota State Colleges and Universities and the University of Minnesota will concurrently implement Statement No. 35. The state has not yet determined the full impact that adopting GASB Statements Nos. 34 and 35 will have on the financial statements.

23. RESTATEMENT – CHANGE IN ACCOUNTING PRINCIPLE

A liability for sales tax refunds of \$157 million was discovered subsequent to the issuance of the Comprehensive Annual Financial Report (CAFR) for fiscal year ended June 30, 2001. The liability is required to be recorded as a result of implementing GASB Statement No. 33, "Accounting and Financial Reporting for Nonexhange Transactions". The liability has been reflected in this restated CAFR as a \$5 million reduction to sales tax revenue and a change in accounting principle of \$152 million in the General Fund. In addition to the Combined Balance Sheet All Fund Types, Account Groups and Discretely Presented Component Units and the Combined Statement of Revenues, Expenditures and Changes in Fund Balances All Governmental Fund Types, Expendable Trust Funds and Discretely Presented Component Units, this change has been reflected in the transmittal letter, Note 14 "Equity", Note 20 "Budgetary Basis vs. GAAP" and the Statistical Section "General Governmental Revenues by Source".

SPECIAL REVENUE FUNDS

Special revenue funds account for the proceeds of specific revenue sources (other than expendable trusts or for major capital projects) that are legally restricted to expenditure for specific purposes. Descriptions of the individual funds in this category are presented below.

The *Trunk Highway Fund* is supported by revenues from the Highway User Tax Distribution Fund and federal grants to provide planning, design, construction and maintenance of the state trunk highway system.

The *Highway User Tax Distribution Fund* receives revenue from taxes on motor vehicles and motor fuels for transfer to various transportation related funds.

The *State Airports Fund* uses revenue from aviation related taxes and fees to provide technical and financial assistance to municipal airports and to promote aviation safety, planning and regulation.

The *Federal Fund* receives and disburses federal government grants and reimbursements. The fund is administered in accordance with grant agreements between the state and federal agencies.

The *Petroleum Tank Cleanup Fund* receives funding from a fee imposed on petroleum distributors for the purpose of reimbursing responsible parties for most of their costs to clean up environmental contamination from petroleum tanks.

The *Solid Waste Fund* receives funding from a fee imposed on solid waste haulers to clean up closed municipal landfills.

The *Health Care Access Fund* receives taxes on health service providers and premiums for programs which will help contain the costs of health care, make reforms in health insurance, and provide competitively priced insurance for people unable to obtain affordable coverage.

The Natural Resources Funds include three funds created to preserve and improve the state's natural resources.

Minnesota Resources Fund receives a portion of the cigarette and tobacco taxes which are appropriated for various natural resource development purposes.

The *Natural Resources Fund* receives taxes from fuel used in recreational vehicles, and fees and donations which are used to fund management of the related natural resource programs.

Game and Fish Fund receives revenues from license fees and fines related to hunting and fishing which are spent for related purposes.

The *Maximum Effort School Loan Fund* receives bond proceeds and reimbursements from school districts to help finance school district construction projects.

The *Special Compensation Fund* receives assessments on all insurers for administration of the state workers' compensation program, including enforcement, for reimbursement of certain supplemental benefits, and for payment of claims to employees of uninsured and bankrupt firms.

The *Environmental Fund* accounts for activities that monitor and control environmental problems using taxes and fees from activities and industries contributing to environmental problems.

The *Iron Range Resources and Rehabilitation Fund* receives revenues from taconite taxes which are used to promote economic development in northeastern Minnesota.

The *Miscellaneous Special Revenue Fund* includes numerous smaller accounts whose revenues are dedicated to a variety of specific purposes.

CAPITAL PROJECTS FUNDS

These funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and fiduciary funds). Descriptions of individual funds in this category are presented below.

The *General Project Fund* receives monies appropriated from the General Fund for maintenance, building, or capital improvement projects.

The *Transportation Fund* receives proceeds of transportation bonds, General Fund appropriations and federal grants for the construction or reconstruction of state and locally owned bridges.

The *Building Fund* receives revenue from the sale of state bonds to provide funds for the maintenance, acquisition and betterment of state lands and buildings and to make grants and loans to local governments for the acquisition and betterment of other public land and buildings.

ENTERPRISE FUNDS

Enterprise funds account for operations that are financed and operated in a manner similar to private business enterprises and where the costs of providing goods or services to the general public are recovered primarily through user charges; or where the state has decided that determination of net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. Descriptions of the individual funds in this category are presented below.

The *State Colleges and Universities Revenue Fund* constructs, maintains and operates college buildings for residence hall, student union or food service purposes.

The *State Lottery Fund* accounts for the operations of the state lottery. The net proceeds are transferred to the Environment and Natural Resources Trust Fund (40 percent), with the remainder transferred to the General Fund.

The *College and University Enterprise Activities Fund* includes the auxiliary enterprises and student loan programs operated by the state universities, community and technical colleges.

The *Minnesota Correctional Industries Fund* facilitates offender rehabilitation by providing facilities and assistance for manufacturing and marketing goods primarily to governmental entities.

The *Behavioral Services Fund* accounts for the activity of state regional treatment centers for chemical dependency treatment services and for the activity of state neurorehabilitation services.

The *Public Employees Insurance Fund* provides life insurance and hospital, medical, and dental benefit coverage to public employees and other eligible persons.

The *Private Employers Insurance Fund* provides group health insurance coverage for small business employers.

The *Enterprise Activities Fund* includes various minor activities providing services to the general public or local governmental units.

The *State Operated Community Services Fund* provides waiver residential and day treatment and rehabilitation services for individuals with developmental disabilities.

INTERNAL SERVICE FUNDS

Internal Service Funds account for the financing of goods and services provided by one state agency to other state agencies on a cost-reimbursement basis. Descriptions of individual funds in this category are presented below.

The *Intertechnologies Fund* accounts for the operation of statewide communication and information systems.

The *Central Stores Fund* accounts for the operation of centralized supplies purchasing, storage and distribution.

The State Printer Fund accounts for the operation of print shops.

The *Central Motor Pool Fund* accounts for the operation of a fleet of passenger vehicles and the state vehicle maintenance garage.

The *Plant Management Fund* accounts for the cost of maintenance and operation of state owned buildings and grounds in the capitol complex.

The *Employee Insurance Fund* accounts for employee health and life insurance premiums and makes payments based on insurance benefits provided to employees.

The *Risk Management Fund* accounts for the providing of liability insurance, primarily automobile, to state agencies.

The *Central Services Fund* accounts for miscellaneous centralized support services provided to state agencies.

FIDUCIARY FUNDS

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Descriptions of the generic fund types within this category and specific funds within each fund type are presented below.

PENSION TRUST FUNDS are funds administered by independent boards for which the state performs a fiduciary role. These funds are categorized by function into two types.

<u>Defined Benefit Pension Funds</u> include those retirement funds for which the participant's retirement annuity is based on a statutory formula utilizing such factors as age, average salary, and length of service. Individual funds in this category include those described below.

The *Public Employees Retirement Fund* includes resources accumulated to pay present and future retirement annuities to eligible employees of various local units of government.

The *Police and Fire Fund* includes resources accumulated to pay present and future retirement annuities to eligible police officers and firefighters.

The *Public Employees Correctional Fund* includes resources accumulated to pay present and future retirement annuities to eligible employees of various local units of government.

The *Teachers Retirement Fund* includes resources accumulated to pay present and future retirement annuities for members of both the basic and coordinated teachers retirement plans.

The *State Employees Retirement Fund* includes resources accumulated to pay present and future retirement annuities to state and University of Minnesota employees not covered by other pension funds.

The *State Patrol Retirement Fund* includes resources accumulated to pay present and future retirement annuities to eligible state patrol officers, conservation officers and crime bureau personnel.

The *Correctional Employees Retirement Fund* includes resources accumulated to pay present and future retirement annuities to state employees who have direct responsibility for offenders at Minnesota correctional facilities.

The *Judicial Retirement Fund* includes resources accumulated to pay present and future retirement annuities to eligible district, municipal, county and probate court judges, supreme court justices and various court referees.

The *Elective State Officers Fund* includes resources accumulated to pay present and future retirement annuities for the state's constitutional officers.

The *Legislative Retirement Fund* includes resources accumulated to pay present and future retirement annuities for members of the state legislature.

<u>Defined Contribution Funds</u> include those retirement funds for which the amount of the participant's retirement annuity is primarily determined by the employer/employee contributions. Other factors such as age and length of service may provide minimum eligibility qualifications. Descriptions of the individual funds in this category are presented below.

The *Defined Contribution Fund* is an IRC Section 401(a) deferred compensation plan administered by the Public Employees Retirement Association.

The *Unclassified Employees Retirement Fund* includes the aggregate of unclassified employee share accounts which are either refunded or used to purchase a retirement annuity upon termination of service.

The *College and University Retirement Fund* includes the aggregate of share accounts derived from contributions received from eligible state university and community college employees along with matching state contributions. The plan administrator is Wells Fargo.

INVESTMENT TRUST FUND provides an investment vehicle for the assets of various public retirement plans and funds.

NONEXPENDABLE TRUST FUND is a fund whose principal may not be expended.

The *Permanent School Fund* is a constitutionally established trust fund which receives revenue from investments and the sale of state land and timber. The investment earnings are transferred to the Endowment School Fund for distribution to school districts.

EXPENDABLE TRUST FUNDS are funds whose resources, including principal and interest, may be expended. Descriptions of the individual funds in this category are presented below.

The *Municipal State-Aid Street Fund* receives 8.95 percent of the revenue received by the Highway User Tax Distribution Fund primarily for distribution to municipalities for improvement of streets.

The *County State-Aid Highway Fund* receives 30.75 percent of the revenue received by the Highway User Tax Distribution Fund primarily for distribution to counties for improvement of county roads.

The *Endowment School Fund* receives revenue from the investments of the Permanent School Fund for distribution to school districts.

The *Endowment Fund* receives gifts, donations and endowments which may be expended only for those purposes specified by the donors.

The *Environment and Natural Resources Trust Fund* receives the investment earnings and a portion of the net lottery proceeds in accordance with a plan approved by the Minnesota Future Resource Commission.

The *Northeast Minnesota Economic Protection Fund* receives distribution from taconite production taxes to be held in trust or expended only in economic emergency for the purposes of rehabilitation and diversification of industry in the area largely dependent on the taconite mining industry.

The Unemployment Insurance Fund receives unemployment taxes collected from employers and pays unemployment benefits to eligible individuals.

The *State Deferred Compensation Fund* includes the portion of the plan where participants have selected investment options provided by the State Board of Investment.

The *Medical Education and Research Fund* receives funds from health care assistance programs funded by the state and federal governments. These funds are used for medical education activities in the state of Minnesota.

The *Tobacco Use Prevention Fund* receives tobacco settlement payments as a result of a lawsuit. This money is to be used to fund initiatives to reduce tobacco use by young people and to promote activities to achieve this goal.

AGENCY FUNDS are funds which hold monies in an agency capacity for various governmental units, individuals or funds. Individual fund descriptions follow.

The Disbursement Clearing Fund is a clearing fund that accounts for state warrants issued and redeemed.

The *Miscellaneous Agency Fund* includes the amounts held in trust by the state for other governmental units, funds or individuals.

COMPONENT UNIT FUNDS

Component units are legally separate organizations for which the primary government is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's governing body, and either (a) the ability to impose the will of the primary government on the organization, or (b) the potential for the organization to provide financial benefits to, or impose financial burdens on, the primary government. Component units are presented below in three reporting groups: Governmental fund type, Proprietary fund type and Universities.

GOVERNMENTAL FUND TYPE:

Public Facilities Authority provides financial assistance to eligible municipalities with high cost wastewater infrastructure projects.

The *Metropolitan Council* is responsible for coordinating the planning and development of the Twin Cities metropolitan area.

Minnesota Technology Incorporated provides financial assistance to new or existing small and medium sized businesses in greater Minnesota, to stimulate economic growth and job creation.

The *Higher Education Services Office* administers state student loan programs and engages in long-range planning for the needs of higher education.

The Export Finance Authority aids and facilitates the financing of exports from the state.

The Agricultural and Economic Development Board administers programs for agricultural and economic development.

The Rural Finance Authority administers state agriculture programs.

The *Minnesota Partnership for Action Against Tobacco* issues grants to health, community and academic organizations throughout Minnesota in support of research and cessation activities that will encourage and help tobacco users quit.

PROPRIETARY FUND TYPE:

The *Housing Finance Agency* provides money for loans and technical assistance for construction and rehabilitation of housing for families of low and moderate incomes.

The *Public Facilities Authority* provides financial assistance to municipalities, primarily for wastewater treatment construction projects.

The *Metropolitan Council* operates the metropolitan regional sewage treatment and disposal systems and the public transit system. The Metropolitan Sports Facilities Commission, a component unit of the Council, operates the Metropolitan Sports Center and Hubert H. Humphrey Metrodome sports facilities.

The *Workers' Compensation Assigned Risk Plan* is the source of workers' compensation and employers' liability coverage for Minnesota employers who have been unable to obtain an insurance policy through the voluntary market.

The *National Sports Center Foundation* is under contract with the Minnesota Amateur Sports Commission to maintain and operate the National Sports Center facility. The primary purpose of the facility is to hold youth-oriented athletic and other non-athletic functions and events.

The Higher Education Services Office makes and guarantees loans to qualified post secondary students.

COLLEGE AND UNIVERSITY TYPE:

The University of Minnesota is a multi-campus university providing undergraduate and graduate degrees, advanced research opportunities, and an extension service.

¹ Minnesota Statutes 16A.642, required that on February 1, 2001 the Commissioner of Finance report unencumbered bond proceeds balances to the legislature that were enacted more than four years prior. These bond proceeds balances and their bond authorizations cancelled effective on July 1, 2001. The cancellation report reduced Building Bond authorizations as follows: Laws 1983, Chapter 323 by \$20,149; Laws 1989, Chapter 300 by \$49,625; Laws 1990, Chapter 610 by \$30,871; Laws 1992, Chapter 558 by \$351,001; Laws 1993, Chapter 373 by \$9,428; Laws 1994, Chapter 643 by \$1,518,171; Special Session Laws 1995, Chapter 2 by \$31,448; Laws 1996, Chapter 463 by \$2,275,358; Special Session Laws 1997, Chapter 2 by \$1,250,000 and Laws 1998, Chapter 404 by \$1,000,000. The cancellation report also reduced: Airport Facility Bonds authorized by Laws 1991, Chapter 350 by \$81,275,000; Reinvest in Minnesota Bonds authorized by Laws 1991, Chapter 354 by \$10,995; Landfill Bonds authorized by Laws 1994, Chapter 639 by \$52,460,000; Transportation Bonds authorized by Laws 1994, Chapter 643 by \$51,280 and Rural Finance Authority Bonds authorized by Laws 1996, Chapter 463 by \$2,900,000.

² Laws 2001, Chapter 55 converted \$7 million of transportation improvement from general fund cash to Transportation Bonds and converted capital project financing from Various Purpose general obligation bonding to general fund cash.

- ³ Special Session Laws 2001, Chapter 12 authorizes \$117,205,000 in Various Purpose Bonds. The law was signed on June 30, 2001 and became effective the day after enactment which was July 1, 2001. This law also corrected the insufficient bond authorizations reported in Laws of 2000, Chapter 492, noted in Footnote 4 below.
- ⁴ Appropriations of bond authorizations were \$71.160 million less than the bond appropriations. Accordingly, \$71.16 million of these bonds cannot be issued without further legislative bond authorizations.
- ⁵ Laws 2000, Chapter 492 reduced Building Bonds authorizations as follows: Laws 1994, Chapter 643 by \$1,964.000; Laws 1996, Chapter 463 by \$1,855,000; Special Session Laws 1997, Chapter 2 by \$10,000,000; Laws 1998, Chapter 404 by \$2,700,000; and Laws 1999, Chapter 240 by \$4,000,000. The \$2,700,000 bond authorization reduction for Laws of 1998, Chapter 404 was for the cancellation of projects actually authorized by Laws 1999, Chapter 240. Further legislation will be requested to increase the bond authorization of Laws of 1998, Chapter 404 by \$2,700,000 and decrease the bond authorization of Laws of 1999, Chapter 240 by \$2,700,000.
- ⁶ Laws 1998, Chapter 404 reduced Building Bond authorization in Laws 1994, Chapter 643 by \$1,350,000. Laws 1998, Chapter 404 also reduced Transportation Bond authorization in Laws 1994, Chapter 643 by \$10,000,000.
- ⁷ Laws 1997, Chapter 202 reduced Building Bond authorizations as follows: Laws 1987, Chapter 400 by \$295,000; Laws 1989, Chapter 300 by \$3,335,000; Laws 1990, Chapter 610 by \$9,260,000; Laws 1992, Chapter 558 by \$6,590,000; Laws 1993, Chapter 373 by \$10,000; and Laws 1996, Chapter 463 by \$37,285,000. Laws 1997, Chapter 202 also reduced: the Transportation Bond authorization in Laws 1990, Chapter 610 by \$165,000; the Reinvest in Minnesota authorization in Laws 1990, Chapter 610 by \$20,000; and Airport Facility Bond authorized in Laws 1991, Chapter 350 by \$48,765,000.
- ⁸ Special Session Laws 1995, Chapter 2 reduced Building Bond authorizations as follows: Laws 1987, Chapter 400 by \$50,000; Laws 1989, Chapter 300 by \$65,000; Laws 1990, Chapter 610 by \$580,000; Laws 1992, Chapter 558 by \$5,000; and Laws 1994, Chapter 643 by \$1,245,000. Special Session Laws 1995, Chapter 2 also reduced the Transportation Bond authorization in Laws 1987, Chapter 400 by \$10,000.
- ⁹ Laws 1994, Chapter 643 reduced Building Bond authorizations as follows: Laws 1987, Chapter 400 by \$240,000; Laws 1989, Chapter 300 by \$895,000; Laws 1990, Chapter 610 by \$115,000; Laws 1992, Chapter 558 by \$65,000; and Laws 1993, Chapter 373 by \$15,000.
- ¹⁰ Laws 1993, Chapter 373 reduced Building Bond authorizations as follows: Laws 1987, Chapter 400 by \$700,000; Laws 1989, Chapter 300 by \$2,550,000; and Laws 1990, Chapter 610 by \$2,500,000.
