Board of Directors
Minnesota State Retirement System
529 Jackson Street
St. Paul, Minnesota 55101

Gentlemen:

We are pleased to transmit herewith our report on the actuarial valuation of your Retirement System made as of June 30, 1977.

Pursuant to the Contract under which this valuation was authorized, the actuarial valuation was carried out on the basis of a 5% interest rate assumption, a 3-1/2% salary scale, and on the basis of certain other specified actuarial assumptions. Also, in accordance with the above noted contract, we utilized the entry age normal cost method of funding to determine the unfunded supplemental present value (unfunded accrued liability) of the System.

We hereby certify that the actuarial valuation of the Minnesota State Retirement System made as of June 30, 1977 was carried out on the basis of accepted actuarial methods and procedures and in accordance with the provisions of Minnesota Statutes, Chapter 356. The results of that valuation indicate that the contributions required from the employees and from the State under Minnesota Statutes, Chapter 352, are adequate to provide the benefits that will be paid from the System.

We look forward to the opportunity of discussing this report with you at your convenience.

Very truly yours,

TOWERS, PERRIN, FORSTER & CROSBY

H.M. Church

REPORT ON ACTUARIAL VALUATION OF THE
MINNESOTA STATE RETIREMENT SYSTEM
AS OF JUNE 30, 1977

SECTION I
INTRODUCTION

In accordance with the Contract between the State of Minnesota and this firm, we have completed the actuarial valuation of the Minnesota State Retirement System as of June 30, 1977 as it was constituted as of that date.

The Executive Director of the System furnished us with detailed employee information on all active members, inactive members and retired members of the System as of June 30, 1977. The Executive Director and his staff are to be complimented on the accuracy and completeness of the aforementioned data.

The Executive Director also furnished us with a Financial Report setting forth the assets and liabilities of the Fund as of June 30, 1977. No physical audit of these assets was made by us and our calculations are based upon the Financial Report as submitted.

The Society of Actuaries recently recommended that the term "Unfunded Supplemental Present Value" replace the often used, in the past, term "Unfunded Accrued Liability". We are in full agreement with this recommendation and have used the term "Unfunded Supplemental Present Value" throughout this report.

The following Section II sets forth the results of the actuarial valuation and Section III contains the exhibits required by Chapter 356 of the Statutes. The schedules attached at the end of the report show the actuarial assumptions used in the current valuation which were developed during the course of the actuarial investigation carried out as of June 30, 1975.

SECTION II
RESULTS OF ACTUARIAL VALUATION

The Contract under which this valuation was authorized specifies that the actuarial valuation be carried out on the basis of a 5% interest rate assumption, a 3-1/2% salary scale, the 1951 Group Annuity Mortality Table with ages set back one year for Male retirees and set back two years for Female retirees, and upon other appropriate actuarial assumptions. We were also instructed to carry out the actuarial valuation on the basis of an entry age normal cost method of funding.

The current valuation was carried out in accordance with the stipulations contained in the aforementioned Contract and on the basis of the other actuarial assumptions developed by the June 30, 1975 experience study. It is to be noted that we did not reflect the 4% salary increase that became effective July 7, 1977.

The entry age normal cost method of funding requires the determination of the level contribution rate which, if contributed on behalf of all new employees from the dates of employment to the dates of separation from service, will be adequate to provide all of their benefits. Under this funding method, the unfunded supplemental present value is taken as the total liability of the System for benefits earned in the past as well as those earnable in the future, less the assets on hand, less the present value of future employee contributions and less the present value of future State entry age normal cost contributions.

In order to develop the entry age normal cost contribution rate for new Correctional Employees, we carried out a complete valuation of all active members based on their ages at entry and upon their estimated salaries at time of entry. The results of these calculations indicate that the total entry age normal cost rate for Correctional Employees amounts to 11.04% of salary. Correctional Employees are required by law to contribute 6% and, accordingly, the State's share of the entry age normal cost contribution rate for Correctional Employees amounts to 5.04%.

For General Employees, we also carried out a complete valuation of all active members based on their ages at entry and upon their estimated salaries at time of entry. Based on this valuation, we calculated the total entry age normal cost rate to be 7.09%. General Employees are required by law to contribute 4% and, accordingly, the State's share of the entry age normal cost contribution for General Employees amounts to 3.09%.

The law requires that the State make the following contributions to the fund:

1. A "matching contribution equal to 4% of General Employees' salaries and 9% of Correctional Employees' salaries.
2. An "additional" contribution equal to 2% of General Employees' salaries and 5% of Correctional Employees' salaries.

We have been advised that it is the intent of the Minnesota Legislature to pay the "additional" contributions referred to above for a limited time only.

We assigned the State contribution Reserve, prior to adjustment from the MAFB Fund, to Correctional and General Employees in proportion to their accumulated contributions as follows:

	<u>State Contribution Reserve</u>
General Employees	\$123,429,785
Correctional Employees	<u>3,919,033</u>
Total	\$127,348,818

The Accounting Balance Sheet shown on the following page was furnished by the Executive Director.

The Actuarial Balance Sheet shown on the page following the Accounting Balance Sheet summarizes the results of the valuation. In the current valuation we have made provision for administrative expenses amounting to .14% of salaries.

13.	TOTAL LIABILITIES		<u>\$795,594,713</u>

The Actuarial Balance Sheet is a convenient device to present the results of an actuarial valuation. The following comments are intended to assist you in your understanding of the items contained in the Actuarial Balance Sheet.

Item 1 shows the assets on hand and was taken directly from the Accounting Balance Sheet.

Item 2 shows the amount receivable from the MAFB Fund for the 1975, 1976 and 1977 mortality adjustment.

Item 3 shows the present value of members' future contributions required by law.

Item 4 shows the present value of the State's future contributions to the System. We have divided the present value applicable to the State's contributions as follows:

- | | |
|-----------|--|
| Item 4(a) | The portion attributable to the State's share of the total entry age normal cost contribution of 3.09% of General Employees' salaries and 5.04% of Correctional Employees' salaries. |
| Item 4(b) | The portion attributable to the balance of the State's "matching" contribution less .14% which is allocated for operating expenses. This amounts to .77% of General Employees' salaries and 3.82% of Correctional Employees' salaries. |

Item 4(c) The portion attributable to the State's "additional" contribution. The following table shows the required information for Correctional Employees and for General Employees.

	<u>Correctional Employees</u>	<u>General Employees</u>	<u>Total</u>
1. Annualized Salaries July 1, 1977	\$12,399,792	\$470,803,712	\$483,203,504
2. State "Additional" contribution rate	5%	2%	
3. Annual State "Additional" contribution	619,990	9,416,074	10,036,064
4. Item 3(c) Actuarial Balance Sheet	4,157,040	126,218,878	130,375,918
5. Years (to nearest year) required to amortize Item 3(c) of Actuarial Balance Sheet by "Addi- tional" State Contribu- tions which increase in accordance with salary scale	7	15	14
6. First year annual con- tribution with subsequent salary scale increases required to amortize Item 3(c) of Actuarial Balance Sheet over Period Ending June 30, 1997	240,332	7,297,119	7,537,451
7. Total Unfunded Supple- mental Present Value (Item 3(b) plus Item 3(c) of Actuarial Balance Sheet)	7,540,039	156,062,508	163,602,547

Item 6 shows the current liabilities and was taken directly from the Accounting Balance Sheet.

Item 7 shows the actuarially computed present value of all benefits earned to June 30, 1977 and earnable after that date that will be paid from the System to presently active members.

Item 8 shows the actuarially computed present value of all benefits payable from the System to members who have terminated service with vested benefits.

Item 9 shows the actuarially computed present value of refundments that will be paid from the System to members who have terminated service without vested benefits.

The total of \$140,731,018 shown for Item 11 represents the value of benefits payable from the MAFB to MSRS retirees. The 4% increase that will become effective January 1, 1978 for certain retirees as of June 30, 1977 is included.

Item 12 shows the difference between the MAFB Fund participation and the present value of benefits payable from the MAFB Fund after adjustments for the January 1, 1978 increase in benefits and after adjustment for the 1977 mortality gain. The following schedule shows the determination:

1.	MAFB Fund Participation June 30, 1977	\$132,317,135
2.	Transfer from MAFB Fund to MSRS Fund for:	
	(a) 1975 and 1976 mortality adjustment	1,628,612
	(b) 1977 mortality gain	<u>499,589</u>
	(c) Total	2,128,201
3.	MAFB Fund Participation after Transfers (Item 1 - Item 2)	130,188,934
4.	Present Value of Benefits Payable from MAFB Fund:	
	(a) June 30, 1977 benefits	136,025,416
	(b) Increase effective January 1, 1978	<u>4,705,602</u>
	(c) Total	140,731,018
5.	MAFB Annuity Stabilization Account (Item 3 - Item 4)	(10,542,084)

CONCLUSIONS

In a retirement system such as yours where both the benefits and contributions are specified in the Retirement Law, the major purpose of an actuarial valuation is to determine whether or not the prescribed contributions are adequate to provide the benefits that will ultimately be paid under the system. The results of the current valuation show that the benefits to be provided under the System can be financed by the members' contributions and the State's "matching" contributions plus the State's "additional" contribution for approximately fourteen years.

Based on the actuarial assumptions utilized for the current valuation, we estimate the present value of benefits earned to June 30, 1977 by presently active and retired persons to be \$407,419,863. Applicable assets, including \$12,670,285 due from the MAFB Fund, amount to \$357,556,308. Thus, as of June 30, 1977, 87.8% of the liability for benefits earned to date have been funded. This corresponds to 80.7% as of June 30, 1976.

SECTION III
REQUIRED EXHIBITS

Minnesota Statutes, Chapter 356, requires, in Section 356.20, Subdivision 4(1), that the actuary of the System prepare an exhibit setting forth certain specified information with regard to the System as of the valuation date, including "Reserves Required" under the System. In an earlier conference with representatives of the State's Employee Retirement System's Interim Commission, we were advised that "Reserve Required", as contemplated in the aforementioned statute, may be defined as the actuarially computed present value applicable to a specified benefit reduced by the actuarially computed present value of any portion of the total entry age normal cost contribution under the System which is applicable to the specified benefit.

The exhibit required by Section 356.20, Subdivision 4(1) of Minnesota Statutes, Chapter 356, is presented on the following pages of this Section III and we hereby certify that the Reserves Required set forth therein have been computed in accordance with the Entry Age Normal Cost (level Normal Cost) basis in the manner outlined in the definition referred to above.

6. Total	\$805,727,485	\$284,568,630	\$521,158,855

Minnesota Statutes, Chapter 356, requires, in Section 356.20, Subdivision 4(2) and (3), that there be submitted annually an analysis of the System's income and deductions from income with increases in total reserves required being specifically referred to as a deduction from income. The exhibit required by Section 356.20, Subdivision 4(2) and (3) is presented on the following page of this Section IV. Items of income and deductions from income with the exception of increases in total reserves required were taken directly from statements prepared by the Executive Director.

Inasmuch as any excess of "income" over "deductions from income" must be equal to the reduction in the Unfunded Supplemental Present Value System over the period covered by the analysis, we have confirmed that fact in Item 16 of the exhibit.

<u>FISCAL YEAR ENDING</u>	<u>AVERAGE RETIREMENT AGE</u>
6/30/72	66 yrs. 3 mos.
6/30/73	65 yrs. 11 mos.
6/30/74	65 yrs. 4 mos.
6/30/75	65 yrs. 2 mos.
6/30/76	64 yrs. 11 mos.
6/30/77	64 yrs. 1 mos.

AVERAGE AGE AT RETIREMENT OF ALL EXISTING SERVICE ANNUITANTS

65 yrs. 6 mos.

- * Deferred Annuities refers to those inactive members who have a vested right to receive an annuity at some later date. The Deferred Annuitants listed in prior years reports were those that were inactive with vested rights at the time they began receiving their annuities. These people are reported with the Service Retirement Annuitants this year.

All Existing Service Annuitants

59 yrs. 6 mos.

Section 356.215, Subdivision 4 of the Minnesota Statutes requires an analysis of the increase or decrease in the Unfunded Supplemental Present Value that occurred since the last valuation. This exhibit is shown on the following page.

MINNESOTA STATE RETIREMENT SYSTEM

EXHIBIT REQUIRED BY MINNESOTA STATUTES, CHAPTER 356,
SECTION 356.215, SUBDIVISION 4
FISCAL YEAR ENDING JUNE 30, 1977

1.	Unfunded Supplemental Present Value June 30, 1976		\$177,423,154
2.	Change due to current rate of funding and interest requirement:		
	(a) 1976-77 Past Service Contribution	\$11,808,280	
	(b) 5% interest requirement	<u>8,871,158</u>	- 2,937,122
3.	Change due to actuarial gains (-) or losses (+) because of 1976-77 experience deviations from expected:		
	(a) Mortality of Retired Persons*	- 2,128,201	
	(b) Excess interest earnings	- 1,310,856	
	(c) Recognized Unrealized Appreciation	+ 847,233	
	(d) Withdrawals	- 992,902	
	(e) Age and Service retirements	+ 936,436	
	(f) Disability retirements	+ 90,742	
	(g) Deaths in active service	- 877,307	
	(h) Salary increases	<u>+ 2,120,128</u>	- 1,314,727
4.	Change due to 1976-77 entrants		- 2,827,500
5.	Change due to rescinding 1976 statutory mortality loss		- 12,058,953
6.	Change due to new EANC rates (balancing item)		+ 5,317,695
7.	Unfunded Supplemental Present Value June 30, 1977		\$163,602,547

* Includes adjustments for 1975, 1976 and 1977.
