## GENERAL SUMMARY

### ALL LOCAL GOVERNMENTAL UNITS

The financial data for all local governmental units in Minnesota covered in this report have been summarized in Tables 1 through 7 to show the governmental fund revenues, expenditures, and indebtedness. Operations of enterprise funds such as hospitals, nursing homes, water, and electric utilities are not included in Tables 1 through 5, but are summarized and presented together with the detailed tables for counties, cities, and towns.

### REVENUES AND EXPENDITURES

Tables 1 and 2 present revenues and expenditures of the counties, cities, towns, schools, and other units, and totals for each type of revenue and expenditure. Tables 3 and 4 present the same information in a two year comparative schedule, with current expense and capital outlay expenditure items shown separately. Revenues are classified by source and expenditures by function or major activity.

### INDEBTEDNESS

In the years prior to 1971, the tables showing indebtedness were classified by purpose of issue. Since a classification of indebtedness by type of bonds, based upon security pledged is of greater interest and importance, years starting with 1971 are reported by type of indebtedness. The five types of indebtedness reported in Tables 6 and 7 are: general obligation, which are bonds payable from a general tax levy; special assessment, which are payable wholly or in part from special assessments; revenue bonds, which are payable from revenue of public service enterprises; refunding bonds; and other.

Table 7, which shows outstanding indebtedness for 10 years, was reclassified by type of bonded debt. The "all other" category could not be restated for cities and villages, and therefore, the years 1971 through 1976 should not be compared to prior years in this category.

### THE COUNTIES

### OPERATIONS

In addition to their governmental functions, counties serve as agents for other governmental units in the collection and distribution of taxes and grants. These funds are classified as agency transactions in the classification of receipts and disbursements in this report. The governmental operations are reflected in the revenue receipts and expenditures for current expense and capital outlay. County hospitals and nursing homes are considered public service enterprises and their financial operations are presented in separate tables.

### REVENUE

The two main sources of county income are property taxes and intergovernmental revenue which together

accounted for 90.8% of total revenue in 1976. Over the past four years the percentage of revenue from taxes has increased from 29.3% to 33.1% in 1976. Intergovernmental revenue has declined from 65.5% in 1972 to 57.7% in 1976. During this period, the amount of tax collected increased from \$210.9 million to \$286.9 million, and intergovernmental revenue increased from \$471.9 million to \$499.1 million.

### EXPENDITURES

Expenditures by counties for governmental functions in 1976 totaled \$854.3 million, which represents an increase of \$239.7 million or 39.0% in the past five years. Most of the increase came from highway expenditures which rose \$54.0 million, general government which rose \$70.1 million, and public safety up \$43.9 million, while welfare declined \$22.3 million in county expenditures.

Welfare is the largest county function accounting for 40.0% of the total expenditures in 1976. Current expense for each type of welfare in 1975 and 1976 is presented in the following table.

Type of Welfare	1975	1976	Increase (Decrease)
General Relief	\$ 41,299,707	\$ 55,101,457	\$ 13,801,750
Aid to families with dependent children	140,998,585	147,870,724	6,872,139
Medical Assistance	68,418,965	19,364,704	(49,054,261)
Social Services	46,852,169	43,161,361	(3,690,808)
Administration and all other costs	65,508,717	74,040,815	8,532,098
TOTAL	\$363,078,143	\$339,539,061	(\$23,539,082)

### OPERATIONS OF PUBLIC SERVICE ENTERPRISES

The financial operations of county hospitals and nursing homes are presented in Tables 15 and 16.

The 17 county hospitals had operating revenues of \$95.7 million and operating expense of \$104.6 million, resulting in a net operating loss of \$8.9 million. Most of this loss is attributable to Hennepin County General and Saint Paul-Ramsey hospitals which are supported in part by tax levies.

Rest homes and nursing homes had operating revenue of \$17.4 million and operating expense of \$18.3 million resulting in a net operating loss of \$.9 million. The majority of this loss is attributable to the operating loss of \$458 thousand at Nopeming in St. Louis County and \$223 thousand in Ramsey County.

### INDEBTEDNESS

In 1976, counties issued bonds totaling \$24.7 million and retired bonds totaling \$28.2 million, leaving \$162.2 million outstanding at December 31, 1976.

## CITIES

### GOVERNMENTAL OPERATIONS

A separate report on the revenue, expenditures, and debt of cities is published by this office. Summaries from that report are included here. Governmental operations are presented in a summary by population groups, and in total for each of the latest five years.

#### REVENUE

Revenue receipts totaled \$875.6 million in the year 1976. This is \$121.6 million or 16.1% higher than in 1975, and \$320.9 million or 57.9% higher than in 1972.

During this period, taxes have increased \$48.1 million or 27.0%, but the percentage of revenue from this source has dropped from 32.1% to 25.9%. This resulted largely from the increase in intergovernmental revenue, mainly state shared taxes and aids which rose \$175.8 million or 98.9% and accounted for 40.4% of the total revenue in 1976, compared with 32.0% in 1972. Intergovernmental revenue includes Federal Revenue Sharing, which started in December, 1972, and all other Federal grants. Revenue from special assessments increased \$38.2 million, but the percentage of Revenue from this source is down from 13.6% to 13.0%. Revenue from all other sources also increased during this period, with licenses and permits showing a small gain.

#### EXPENDITURES

Expenditures by all municipalities for governmental functions in 1976 totaled \$908.9 million. This was \$61.4 million or 7.2% higher than in 1975 and \$323.2 million or 55.2% higher than in 1972.

Expenditures for public safety totaled \$182.9 million which was \$17.4 million higher than in 1975, and \$67.4 million above 1972. Expenditures for highways totaled \$170.3 million, up \$4.9 million over the preceding year and up \$69.2 million over 1972. Sanitation totaled \$130.8 million which was \$15.7 million over the total in 1975.

The increase in the amount of interest paid reflects the increase in bonds outstanding as well as higher interest rates on bonds issued during the last few years.

### OPERATION OF PUBLIC SERVICE ENTERPRISES

Municipalities in Minnesota operate several types of public service enterprises. Seven are presented on separate tables and others are combined in one table as "Other service enterprises." Electric utilities which operate generation and distribution systems are presented separately from those operating distribution systems only. When possible, the financial operations are presented on the accrual basis rather than the cash basis.

Operating revenue and expenses were both higher for all types of enterprises, except heat utilities, in 1976. Increases in operating revenue exceeded increases in operating expense for all enterprises, except for hospitals and other service enterprises, which included four transit systems reported in this table for the first time, which all showed operating losses.

Municipal liquor store sales were up \$2.8 million, cost of sales were up \$1.8 million, and gross profit was up \$1.0 million. Operating expense rose \$2.3 million, resulting in a decrease of \$1.3 million in operating income. Contributions to governmental funds totaled \$9.9 million compared to \$10.4 million in 1975.

#### INDEBTEDNESS

The outstanding bonded indebtedness of cities rose \$89.8 million in 1976 reaching a total of \$1.51 billion at the end of that year.

## TOWNS

### OPERATIONS

A separate report on the revenues, expenditures, and debt of towns is published by this office. That data is presented here in summarized form.

The source of data for towns was the township reporting form submitted to this office, and is the result of a cooperative data collection effort undertaken with the Department of Transportation and the U.S. Bureau of the Census. The 1973 legislature required towns to submit financial reports, where they were formerly exempt. Data for receipts and disbursements prior to 1973 were estimated.

#### REVENUE

A five year summary of the town revenue and expenditures is presented in Table 21. Grants and aids have become the principal source of revenue for towns, accounting for 56.2% of the total revenue in the current year.

#### EXPENDITURES

Expenditures of towns amounted to 63.0% for Highways, 17.2% general government, 8.3% public safety, 10.0% miscellaneous, and 1.5% interest for 1976.

#### INDEBTEDNESS

Relatively few towns have any bonded indebtedness and of these, nine towns account for 88% of the \$8.9 million outstanding at December 31, 1976.

## SCHOOLS

### OPERATIONS

Schools operate on a June 30 fiscal year, the current year in this report is the year ended June 30, 1977.

### REVENUE

The total revenue of all school districts in Minnesota exceeds \$1.78 billion for the year ended June 30, 1977. This was an increase over the total in the prior year by \$191.2 million, and was \$510.3 million or 40.1% higher than in 1972. During this period taxes have risen \$135.8 million or 31.2% and state aids \$392.1 million or 58.1%. Taxes decreased from 34.2% of total school revenue to 32.0% and state aids increased from 53.1% to 59.9%.

### EXPENDITURES

Total expenditures exceeded \$1.72 billion in the current year, having increased \$94.0 million over the preceding year. Current expense accounted for 91.9%, and capital outlay 8.1% of total expenditures.

Total current expense per pupil in the graded and secondary schools in the last five years is presented in the following table.

Year Ended June 30	Enrollment	Current Expense	
		Total Amount	Per Pupil
1973	966,088	\$1,103,099,601	\$1,141.82
1974	938,200	1,185,692,245	1,263.79
1975	929,213	1,333,022,327	1,434.57
1976	905,075	1,452,070,825	1,604.36
1977	889,735	1,584,162,573	1,780.49

The cost per pupil has increased over \$638 during this period. Enrollment has declined by 7.9% since 1973, while total current costs have increased \$481 million, or 43.6% during the same period.

## INDEBTEDNESS

School districts issued bonds totaling \$98.4 million and paid \$77.4 million in 1976 leaving a balance of \$1.229 billion outstanding at the end of that year. School indebtedness was summarized from county auditors reports of outstanding indebtedness, which are prepared on the calendar year basis.

## OTHER AGENCIES

### OPERATIONS

The governmental agencies included in this section of the report have been created to perform certain functions in areas which are generally not performed by other governmental units. They are supported by revenue derived from sources similar to those of other governments and their expenditures cover nearly every type of function, as shown in Table 4.

### REVENUE

The Other Agencies had revenues totaling \$1.331 billion in 1976. Over \$705.6 million was from intergovernmental sources and \$286.6 million from charges for services.

### EXPENDITURES

Expenditures of the Other Agencies total over \$997 million, of which \$491.1 million were University of Minnesota expenditures, \$96.1 million were housing authorities and urban renewal, \$105.4 million retirement associations, \$85.8 million metro waste control, and \$61.5 million metro transit.

(1) Dept. of Education furnished the data by computer for two years ended June 30, 1976 and 1977. Source was Annual Financial Report filed by school districts.

Classification was changed for certain categories, at the recommendation of the Dept. of Education, particularly "Operation and Maintenance" where fixed charges, student activities, and outgoing transfers were changed to "other".

This presentation is possible as a result of the revised Annual Financial Report filed by school districts for the year ended June 30, 1977.

(3) Bonds issued includes adjustments reflecting differences between current year and prior year reports. Majority of adjustments was Minneapolis - Special district 1, to include tax anticipation notes issued in 1975.

## EXPLANATION OF CLASSIFICATIONS USED

The data reported by the governmental units included receipts of all types and disbursements for all purposes. As the intent of this report is to provide information relating to the finances of the local governmental units in comparable form, a uniform classification of receipts and disbursements was developed.

Receipts were first classified as to revenue and nonrevenue, and disbursements were classified as to expenditures, and disbursements not chargeable as expenditures. Nonrevenue receipts, and disbursements which are not chargeable as expenditures, neither add to nor detract from the net assets of the government. Examples of nonrevenue receipts are (1) borrowing, (2) sale of investments, (3) refunds, and (4) interfund transfers. Examples of disbursements not chargeable as expenditures are (1) debt redemption, (2) trust and agency payments, (3) purchase of investments, (4) refunds paid out, and (5) inter-fund transfers.

Revenue receipts are classified as to source, expenditures by activities. The classification used closely follows the standard classification developed by the National Committee on Governmental Accounting. A uniform classification of revenue by source permits accurate comparisons between governmental units, and the analysis of financing methods. A uniform classification of expenditures by activities reveals operating costs, and enables an accurate comparison between governmental units, as similar activities are common to most units.

In most communities the following activities are regarded as self-supporting public service enterprises:

1. Water utility
2. Electric utility
3. Heat utility
4. Gas utility
5. Liquor store
6. Hospital
7. Nursing homes

Because of the basic differences between the characteristics of governmental funds, and funds for the operation of these enterprises, the receipts and disbursements of the governmental and public service enterprise funds are shown separately.

The classification used herein is detailed below.
