

MINNESOTA HOUSING FINANCE AGENCY

BIENNIAL REPORT

FISCAL YEARS 1978-1979

LEGISLATIVE REFERENCE LIBRARY
STATE OF MINNESOTA

Appendix

The following printouts contain data on three Minnesota Housing Finance Agency programs - the Affordable Home Mortgage Program, the Home Improvement Loan Program and the Home Improvement Grant Program.

The data are provided by census tract for Minneapolis, St. Paul and Duluth; by community for Hennepin, Ramsey and St. Louis Counties; and by county for the remainder of the state. This is in keeping with Minnesota statutes which require that the biennial report submitted by the Agency to the Governor and the Legislature "shall include the distribution of money under each Agency program by county, except for counties containing a city of the first class, where the distribution shall be recorded by municipality. Within cities of the first class, the distribution of Agency money shall be recorded by census tract." (Minnesota Statutes 462A.22 subd. 9)

The Affordable Home Mortgage Program data cover all loans made by the Agency from September, 1974 through August, 1978, a total of 4,471 loans. They do not include the 1,261 loans issued under the first mortgage finance program administered by the Agency, the GNMA Program of 1973.

The Home Improvement Loan Program data cover all loans made by the Agency from August, 1975 through December, 1977, a total of 12,378 loans. For calendar year 1978 the data represent only 20% of the 6,600 loans made by the Agency. Though this 20% sample provides statistically accurate information on Agency activities statewide, it is not at all accurate at the local level. Therefore, figures for the Home Improvement Loan Program will almost always understate the number of loans and amount of money provided to a particular community or county, but the degree of understatement will vary significantly from one location to another.

The Home Improvement Grant Program data cover all grants made from September, 1976 through December, 1978, a total of 6,356 grants.
