Office of the Chairman

January 23, 1980

TO: Members of the Minnesota State Legislature

Attached is a copy of the Appendix to the 1979 Metropolitan Council Annual Report to the Minnesota State Legislature. The Appendix completes fulfillment of Minnesota Statutes Chapter 473 which requires the Council to provide you with a listing of all plans and projects reviewed by the Council during 1979, as well as detailed financial information about the Council. The Council's Annual Report was delivered to the Legislature on January 15.

I have also enclosed a copy of a map of legislative districts in the Metropolitan Area that the Council has prepared as a public service. It's my way of advising you that such a map exists. You may be getting constituent requests for such information. We will be happy to provide copies of the map to the public at no cost.

My regards to my former colleagues in the Legislature. You have my best wishes for a fruitful session.

Sincerely,

A handwritten signature in cursive script, appearing to read "Charles R. Weaver".

Charles R. Weaver
Chairman

About this Appendix

This Appendix contains budgetary and referral information required by Minnesota Statutes Chapter 473. It contains detailed financial information on the Council's 1979 and 1980 revenues and expenditures. In addition, the report lists all plans and projects received for review under its referral process from November 1, 1978 to October 31, 1979.

The referral process is a system of review and evaluation carried out by the Council under responsibilities assigned to it by state and federal law. The purpose of the review is to ensure coordination of project proposals and local planning with regional planning.

The types of "referrals," or projects, that undergo regional review vary widely, as the listing suggest. Federal regulations and state statutes involve the Council in reviewing applications submitted by local governmental units and private agencies for federal financial assistance. The Council follows the "A-95" review process, established by federal regulation, in reviewing such requests.

In the referral process, the Council can, in general, take two kinds of actions, depending on the type of referral. It can (1) *recommend* a certain course of action to another, approving agency, or (2) it can *approve* or *disapprove* a referral with no further consideration by another governmental unit. Projects proposed under the "A-95" process, plus those proposed under certain state provisions, fall into the *recommend* category; a limited number of proposals, which include those of metropolitan agencies, come under the *approve* or *disapprove* category.
