The annual report of the State Auditor covers the revenues, expenditures, indebtedness, taxable valuations and tax levies of the local governments of Minnesota for the fiscal years ended during the period July 1, 1979 to June 30, 1980. This data has been collected and is published and distributed pursuant to Minnesota Statutes, Sections 6.74 and 6.75.

This report has been generated by computer, using System 2000 (a data base management system), through the University of Minnesota Computer Center. Those wishing to make further analysis of the data may contact this office for assistance.

The State Auditor thanks the administrators and finance officers whose helpful assistance has contributed to the preparation of this report.

INTRODUCTION

SCOPE

THIS REPORT PRESENTS THE FINANCIAL AFFAIRS OF THE LOCAL UNITS OF GOVERNMENT WHICH OPERATED DURING THE 1979 CALENDAR YEAR, OR THE FISCAL YEAR WHICH MOST NEARLY COINCIDES WITH THAT YEAR. THE FOLLOWING TABULATION SHOWS THE AGENCIES INCLUDED, THE NUMBER OF UNITS IN EACH CLASS, THE PERIOD COVERED, AND THE SOURCE OF THE DATA FOR THIS REPORT.

THE SOURCES OF THE DATA INCORPORATED IN THIS REPORT INCLUDE STATEMENTS OF CITIES AND OTHER UNITS OF LOCAL GOVERNMENT WHICH ARE AUDITED, AND ARE ON A MODIFIED ACCRUAL BASIS. OTHERS ARE NOT AUDITED AND ARE PREPARED ON A CASH RECEIPTS AND DISBURSEMENTS BASIS.

GENERAL SUMMARY

ALL LOCAL GOVERNMENTAL UNITS

The financial data for all local governmental units in Minnesota covered in this report have been summarized in Tables 1 through 7 to show the governmental fund revenues, expenditures, and indebtedness. Operations of enterprise funds such as hospitals, nursing homes, water, and electric utilities are not included in Tables 1 through 5. Separate reports have been issued for cities and towns, from which summaries have been prepared for this publication.

REVENUES AND EXPENDITURES

Tables 1 and 2 present revenues and expenditures of the counties, cities, towns, school districts, and other agencies, and totals for each type of revenue and expenditure. Tables 3 and 4 present the same information in a two year comparative schedule, with current expense and capital outlay expenditure items shown separately. Revenues are classified by source and expenditures by function or major activity.

INDEBTEDNESS

In the years prior to 1971, the tables showing indebtedness were classified by purpose of issue. Since a classification of indebtedness by type of bonds, based upon security pledged is of greater interest and importance, years starting with 1971 are reported by type of indebtedness. The six types of indebtedness reported in Tables 6 and 7 are: general obligation, which are bonds payable from a general tax levy; special assessment, which are payable wholly or in part from special assessments; G.O. revenue bonds which are backed by the full faith and credit of the municipality; revenue bonds, which are payable from revenue of public service enterprises; refunding bonds; and other.

Table 7, which shows outstanding indebtedness for 10 years, was reclassified by type of bonded debt. The "all other" category could not be restated for cities, and therefore, the years 1971 through 1979 should not be compared to prior years in this category.

THE COUNTIES

OPERATIONS

Counties serve as agents for other governmental units in the collection and distribution of taxes and grants. The governmental operations are shown in Tables 11 and 12 revenues and expenditures of the counties. County hospitals and nursing homes are considered public service enterprises and their financial operations are presented in separate tables. The counties generally report on the cash basis of accounting, however some of the counties, generally the larger ones, report on a modified accrual or accrual basis of accounting.

Financial operations reported in Tables 11 and 12 include the general fund and other governmental funds. The tables have been changed beginning in calendar year 1979, to more nearly reflect revenues and expenditures of the counties. Cash purchases and sales of investments, trust and agency, intergovernmental service funds, and other miscellaneous receipts and disbursements have been dropped from the reports, although still available to researchers on computer files. Comparison of total revenues and borrowings and total expenditures and debt redemption should not be made to totals of receipts and disbursements in the publications of prior years. Detailed line items, total revenues, expenditures, borrowings and debt redemption are comparable.

REVENUES

The two main sources of county revenues are property taxes and intergovernmental revenues which together accounted for 86.5% of total revenues in 1979. Over the past five years the percentage of revenue from taxes has decreased from 34.7% to 33.2% in 1979. Intergovernmental revenues has declined from 56.2% in 1975 to 53.3% in 1979. During this five year period, the amount of tax collected increased from \$274.4 million to \$377.5 million and intergovernmental revenues increased from \$444 million to \$605.1 million.

EXPENDITURES

Expenditures by counties for governmental functions in 1979 totaled \$1.1 billion which represents an increase of \$295.5 million or 35.8% in the past five years. Most of the increase came from highway expenditures which rose \$88.4 million, general government which rose \$50.0 million, and public safety was up \$34.4 million, while welfare rose by \$91.1 million during this five year period.

Welfare is still the largest county function accounting for 40.5% of the total expenditures in 1979. Current expense for each type of welfare in 1978 and 1979 is presented in the following table.

Type of Welfare	1979	1978	Increase (Decrease)
General Relief	\$ 65,615,905	\$ 64,516,177	\$ 1,099,728
Aid to families with dependent children	178,206,477	164,225,937	13,980,540
Medical Assistance	22,458,302	20,103,325	2,354,977
Social Services	63,468,842	53,321,117	10,147,725
Administration and all other costs	123,972,347	112,538,027	11,434,320
TOTAL	\$453,721,873	\$414,704,583	\$ 39,017,290

OPERATIONS OF PUBLIC SERVICE ENTERPRISES

The financial operations of county hospitals and nursing homes are presented in Tables 14 and 15.

The 17 county hospitals had operating revenues of \$146.7 million and operating expenses of \$151.0 million, resulting in a net operating loss of \$4.3 million. Most of this loss is attributable to Hennepin County medical center which is supported in part by tax levies.

Rest homes and nursing homes had operating revenues of \$26.3 million and operating expenses of \$26.0 million resulting in a net operating income of \$272 thousand. Nonoperating revenues were sufficient to bring net income to \$471 thousand for this period.

INDEBTEDNESS

In 1979 counties issued bonds totaling \$33.0 million and retired bonds totaling \$16.5 million, leaving \$175.6 million outstanding at December 31, 1979.

CITIES

GOVERNMENTAL OPERATIONS

A separate report on the revenues, expenditures, and debt of cities is published by this office. Summaries from that report are included here. Governmental operations are presented in a summary by population groups, and in total for each of the latest five years.

REVENUES

Revenues totaled \$1.2 billion in the year 1979. This is \$104.9 million or 9.4% higher than in 1978, and \$467.8 million or 62% higher than in 1975.

During this five year period, taxes have increased \$58.1 million or 26.7%, but the percentage of revenue from this source has decreased from 28.9% to 22.6%. This resulted largely from the increase in intergovernmental revenues, mainly state shared taxes and aids which rose \$230.6 million or 84.2% and accounted for 41.3% of the total revenue in 1979, compared with 36.3% in 1975. Intergovernmental revenues include Federal Revenue Sharings, which started in December, 1972, and all other State and Federal grants. Revenue from special assessments increase \$43.6 million, but the percentage of revenue from this source is down from 11.7% to 10.8%. Interest earnings increased \$36.8 million or 123% while revenue from all other sources increased slightly during this five year period.

EXPENDITURES

Expenditures by all cities for governmental functions in 1979 totaled \$1.25 billion. This was \$143.2 million or 12.9% higher than in 1978 and \$402.6 million or 47.5% higher than in 1975.

Expenditures for public safety total \$37.8 million which was \$19.1 million higher than in 1978, and \$72.2 million above 1975. Expenditures for highways totaled \$241.9 million up \$49.6 million over the preceding year and up \$76.5 million over 1975. Sanitation totaled \$185.5 million which was \$19.8 million over the total in 1978.

The increase in the amount of interest paid reflects the increase in bonds outstanding as well as higher interest rates on bonds issued during the last few years.

OPERATIONS OF PUBLIC SERVICE ENTERPRISES

Cities in Minnesota operate several types of public service enterprises. Seven are presented on separate tables and others are combined in one table, "Other service enterprises." Electric utilities which operate generation and distribution systems are presented separately from those operating distribution systems only. Where possible, the financial operations are presented on the accrual basis rather than the cash basis.

Operating revenues and expenses were both higher for all types of enterprises in 1979. The increase in operating expenses exceeded the increase in operating revenues for the water, gas, nursing homes and "other service enterprises"; resulting in decreases in operating income. The "other service enterprises" includes 11 transit systems which reported a total operating loss of \$1.2 million.

Municipal liquor store sales were up \$10.3 million, cost of sales were up \$7.5 million, and gross profit was up \$2.8 million. Operating expenses rose \$2.1 million, resulting in an increase of \$692 thousand in operating income. Contributions to governmental funds totaled \$9.7 million compared to \$8.0 million in 1978.

INDEBTEDNESS

The outstanding bonded indebtedness of cities rose \$146.6 million in 1979 reaching a total of \$1.89 billion at the end of that year.

TOWNS

OPERATIONS

A separate report on the revenues, expenditures and debt of towns is published by this office. That data is presented here in summarized form.

The source of data for towns was the township reporting form submitted to this office, and is the result of a cooperative data collection effort undertaken by the Office of the State Auditor and the Minnesota Department of Transportation and the U.S. Bureau of the Census.

REVENUES

A five year summary of town revenues and expenditures is presented in Table 20. Grants and aids have become the principal source of revenues for towns, accounting for 50.4%. While taxes were 38.8% of the total revenues in the current year.

EXPENDITURES

Expenditures of the towns amounted to 63.3% for highways, 12.8% general government, 7.2% public safety, 15.4% miscellaneous, and 1.3% interest expense for 1979.

INDEBTEDNESS

Relatively few towns have any bonded indebtedness and of these, three towns account for \$11.8 million of 72.6% of the \$16.2 million outstanding at December 31, 1979.

SCHOOL DISTRICTS

OPERATIONS

School districts operate on a June 30 fiscal year, and the year in this report is for the fiscal year ended June 30, 1980.

REVENUES

The total revenues of all school districts in Minnesota exceeded \$2.2 billion for the year ended June 30, 1980. This was an increase over the total in the prior year by \$158.7 million, and was \$623.8 million or 39.2% higher than in 1975. During this five year period taxes have risen \$160.9 million or 32.1% and state aids \$282.5 million or 31.7%.

EXPENDITURES

Total expenditures exceeded \$2.13 billion, having increased \$191.9 million over the preceding year. Current expenditures accounted for 91.2%, and capital outlay 8.8% of total expenditures.

Total current expenditures per pupil in the graded elementary and secondary schools and area vocational technical institutes in the last five years is presented in the following table.

Year Ended June 30	Enrollment	Current Expense	
		Total Amount	Per Pupil
1976	905,075	\$1,452,070,825	\$1,604.36
1977	889,735	1,584,162,573	1,780.49
1978	863,425	1,680,014,709	1,945.76
1979	833,121	1,783,132,353	2,140.30
1980	824,917	1,942,608,292	2,354.91

The cost per pupil has increased over \$750 during this period. Enrollment has declined by 8.9% since Fiscal Year 1976, while total current costs have increased \$491 million, or 33.8% during the same period.

INDEBTEDNESS

School districts issued bonds totaling \$54.4 million and paid \$86.2 million in 1979 leaving a balance of \$1.075 billion outstanding at the end of that year. School indebtedness was summarized from the Department of Education Annual Financial Reports, which are prepared on a fiscal year basis.

OTHER AGENCIES

OPERATIONS

The governmental agencies included in this section of the report have been created to perform certain functions in areas which are generally not performed by other governmental units. They are supported by revenues derived from sources similar to those of other governments and their expenditures cover nearly every type of function, as shown in Tables 4 and 28.

REVENUES

The Other Agencies had revenues totaling \$1.596 billion in 1979. Over \$777.6 million was from intergovernmental sources and \$413.7 million from charges for services.

EXPENDITURES

Expenditures of the Other Agencies total over \$1.351 billion, of which \$646.8 million were University of Minnesota expenditures, \$175.9 million retirement associations, \$82.2 million were housing authorities and urban renewal, \$102.4 million metro waste control, and \$81.1 million metro transit.

EXPLANATION OF CLASSIFICATIONS USED

The data reported by the local governmental units in Minnesota has been summarized to reflect the revenues and expenditures of the political subdivisions. It is the intent of this report to provide information relating to the finances of the local governmental units in comparable form; therefore, a uniform classification of revenues and expenditures was developed.

Revenues are classified by source, and expenditures are classified by function or activity. The classification used closely follows the standard classification developed by the National Council on Governmental Accounting. A uniform classification of revenues by source permits reasonably accurate comparisons between governmental units, and the analysis of financing methods. A uniform classification of expenditures by function or activity shows operating costs and enables a comparison of similar activities between various governmental units.

In most communities the following activities are regarded as self-supporting public service enterprises:

- Water utility
- Electric utility
- Hospital
- Nursing home
- Heat utility
- Gas utility
- Liquor store

Because of the basic differences between the characteristics of governmental funds, and funds for the operation of these enterprises, the revenues and expenditures of the governmental and public service enterprise funds are shown separately.

The classification used herein is detailed below.

GOVERNMENTAL REVENUES

General Property Taxes - Includes all revenues from the direct ad valorem tax on real and personal property. Includes penalties and interest on delinquent taxes. Includes power and light tax, and other special taxes for counties, cities, towns, school districts, and other special districts.

Other Taxes - Includes local sales taxes; hotel-motel taxes; food and beverage taxes; admissions taxes; franchise taxes; etc.

Special Assessments - Includes revenues from benefited property owners for street, sidewalk, ditch, sewer, and other construction or improvement costs.

Licenses and Permits - Includes revenues from licenses and permits from businesses and occupations; non-business licenses; and permits for buildings, plumbing, etc.

Intergovernmental Revenues - Includes grants and shared taxes from other governmental units; for example, local government aid and homestead credit paid by the State; and Federal revenue sharing.

Charges for Services - Includes charges, fees, rentals, and minor sales of the various governmental departments for services rendered to individuals and other local governmental units.

Fines and Forfeits - Includes revenues exacted as penalties for law violation; penalties for non-observance of contracts; forfeited deposits, etc.

Miscellaneous Revenues - Includes revenues from interest on investments; rental of nondepartmental property; donations; and sale of property.

Contributions from Public Service Enterprise Funds - Includes permanent transfers or contributions from public service enterprise funds to governmental funds, such as payments in lieu of taxes.

Borrowings

Includes revenues from sale of bonds, certificates of indebtedness, tax anticipation certificates, except public service enterprise borrowings.

EXPENDITURES

Expenditures of the various local governmental units include current expenditures (the annual recurring cost of maintaining governmental functions, including interest expense) and capital outlay (expenditures for permanent improvements and equipment).

GOVERNMENTAL EXPENDITURES

Current Expenditures

General Government - Includes all payments for the current expenditures of general governmental officers--executive, legislative, and judicial; boards and commissions; elections; general government buildings; and all general administrative expense payments.

Public Safety - Includes payments for the current expenditures of police and fire departments; corrections; protective inspection; armory expense; protection to animals; coroner's expenses; mortgages; civil defense; and flood control.

Highways and Streets - Includes maintenance and operation payments for roads, streets, bridges, alleys, and sidewalks. Includes payments for lightings, snow removal, and traffic control.

Sanitation - Includes all expense payments for sanitary sewers, storm sewers, sewage disposal plants, garbage and refuse collection and disposal, weed cutting, public rest rooms, and street cleanings.

Health - Includes payments for current expenditures of health departments, health inspection, vital statistics, control of communicable diseases, and child health service.

Hospitals - Includes payments for operation of district hospitals. County and municipal hospitals are considered public service enterprises in this report.

Welfare - Includes all payments for the support or assistance of the poor, the aged, the blind, and dependent children; contributions to charitable organizations; and administration costs of the various programs.

Education - Includes payments for current expenditures of institutions of learning--books, school libraries, supplies furnished to pupils, school administration, and transportation of pupils.

Libraries - Includes payments for current expenditures of all libraries intended for the use of the public and all payments to other units for library services.

Recreation - Includes the payments for operation and maintenance of recreational activities, buildings, parks, musical entertainment and celebrations.

Conservation of Natural Resources - Includes payments for county fairs, county fairs, lake and stream improvements, ditches, contributions to agricultural societies, and the protection and propagation of game and fish.

Contributions to Public Service Enterprise Funds - Includes permanent transfers made to these funds and payments which help support the operation of the enterprises, except payments for services.

Urban Redevelopment and Housing - Includes expenditures for the planning and provision of adequate housing and redevelopment of substandard physical facilities.

Miscellaneous - Includes contributions to employee pension funds, insurance premiums not allocated to a specific function, operation and maintenance of port authorities, municipal airports, and other unallocable current expenditures.

Interest Expense - Includes payment of interest on all classes of public debt, with the exception of interest on debt of municipally owned public service enterprises.

Capital Outlay

Includes all payments for construction and improvement of governmental property, exclusive of property belonging to a government owned public service enterprise. Includes purchase of real property and major equipment. In general, payments which create or enhance the value of governmental fixed assets are capital outlay.

Debt Redemption

Includes principal payments on all classes of long term public debt such as bonds and certificates, except public service enterprise debt.

PUBLIC SERVICE ENTERPRISES

Tables included in this report were summarized from financial statements to show the financial operations for each type of public service enterprise.

Where possible, the financial operations were summarized on the accrual basis of accounting rather than the cash basis.

The classifications used for the public service enterprises closely follow those used by the Federal Bureau of the Census and, in general, include the types of revenues and expenses that are used in similar enterprises in private industry.
