INTRODUCTION

SCOPE

This report covers the financial operations of the 855 cities in Minnesota for the calendar year 1980. The sources of these data are annual city financial reporting forms, reports of audits by public accountants and the State Auditor, county auditor's tax abstracts and reports of indebtedness, and the Department of Revenue records of state shared tax distributions and grants, taxable valuations, and tax levies.

Cities with populations greater than 2,500 were required by Charter 787, Laws of 1978 to report using the modified accrual basis of accounting, or accrual basis for certain types of funds. The data in this publication for the larger cities was taken from audited reports, the majority of which were prepared on the accrual or modified accrual basis of accounting. Cities under 2,500 in population are not required to be audited, under charter 787 laws of 1978, and the data in this report has been taken from statements of cash receipts and disbursements in most cases. Statutory cities operating under option plan "A" with combined offices of Clerk-Treasurer are required to have an audit, pursuant to Minnesota Statutes Section 412.591, subdivision 2.

Financial operations reported in Tables 1 through 4 include the general fund and other governmental funds. The tables were changed beginning with calendar year 1977, to more nearly reflect revenues and expenditures of the cities. Cash investment transactions, trust and agency funds, intergovernmental service funds, and other miscellaneous receipts and disbursements have been dropped from the reports. Comparison of total revenues and borrowings and total expenditures and debt redemption should not be made to totals of receipts and disbursements in the publications of prior years. Detailed line items, total revenues, expenditures, borrowings and debt redemption are comparable to other years.

The financial operations of the municipal public service enterprises are presented separately from the governmental operations. These enterprises operate wholly or in large part from revenue derived from the sale of goods or services. When possible, each enterprise is presented separately on a revenues and expenses basis. However, in some municipalities the operations of two or more enterprises are combined; for example, the function of sanitary sewers and sewage disposal are combined with the operation of the water utility. These instances are disclosed with appropriate footnotes.

Thirty-one cities under 2,500 in population failed to submit an annual reporting form in time for this publication:

Akela	Bingham Lake	Roy River	Carver
Cobden	Comfrey	Deerwood	Doran
Ellsworth	Elysian	Genola	Grand Meadow
Green Isle	Jeffers	Kellogg	Kenneth
Kiester	Landfall	Leonidas	Manhattan Beach
Marleton	Northrop	Pierz	Randall
Randolph	Remer	St. Anthony	Swanville
Tamarack	Tenstrike	Thomson	

The city of Dundee submitted a reporting form inadequately prepared and Windom population 4,724, failed to submit an audited financial report in time for this publication.

Revenues and expenditures for governmental functions are summarized by population groups based on the 1980 Federal census. The population groups correspond to the legal definitions of the 1st, 2nd, 3rd and 4th class cities. The latter group is further divided between those over and under 2,500 in population. This grouping is for the purpose of making comparison of financial data between groups as well as between municipalities of similar size.

GENERAL SUMMARY

TAXABLE VALUATIONS AND TAX LEVIES

Data on the ad valorem tax on real and personal property in each population group and for all municipalities are presented in the following table.

Taxable valuations are based on assessments made in 1979 and on which taxes were levied that year for collection in 1980, together with comparable data for the preceding year.

Population Group	Taxable Valuation Per Capita		Tax Levied Per Capita		Average Tax Rate [Mills]	
	1979	1978	1979	1978	1979	1978
Over 100,000	\$4,097.28	\$3,655.87	\$141.24	\$147.55	34.47	40.36
20,000 to 100,000	4,891.41	4,383.59	85.32	78.31	17.44	17.86
10,000 to 20,000	3,866.34	3,561.82	82.14	78.47	21.24	22.03
2,500 to 10,000	3,520.03	3,090.49	76.22	66.48	21.65	21.51
Under 2,500	2,688.60	2,900.85	77.86	75.46	28.96	26.01
All Municipalities	\$4,021.39	\$3,679.19	\$ 95.39	\$ 92.63	23.72	25.18

Taxable valuation per capita in all municipalities increased \$342.20 or 9.3% in 1979. The changes in valuation in each population group varied from a \$212.25 decrease or 7.3% in the under 2,500 group to an increase of \$507.82 or 11.6% in the 20,000 to 100,000 group.

The amount of city taxes levied per capita in all municipalities increased \$2.76 or 3.0%. The municipal taxes levied per capita in each group ranged from a decrease of \$6.31 or 4.3% in the over 100,000 group to

an increase of \$9.74 or 14.6% in the 2,500 to 10,000 group. Average mill rates for these groups decreased 5.89 mills and an increase of .14 mills, respectively.

Taxable valuations for 1979 do not include tax increment assessed valuation, nor fiscal disparities contribution valuation, but do include fiscal disparities distribution valuation.

Twelve cities levied no property tax in 1979. These cities were all in the under 2,500 group and all have a population of less than 200.

GOVERNMENTAL OPERATIONS

REVENUES

Revenue for the governmental operations of all municipalities in 1980 totaled \$1.3 billion which was \$80.4 million or 6.6% higher than in 1979. The total revenue per capita was \$417.76 compared to \$396.59 in 1979. The amount per capita in each population group was as follows:

Population Group	Per Capita
Over 100,000	\$605.85
20,000 to 100,000	353.88
10,000 to 20,000	393.66
2,500 to 10,000	368.31
Under 2,500	327.69

Total operating revenue of the 855 cities came from three principal sources: (1) taxes (21.1%); (2) intergovernmental revenues (43.3%) - federal and state grants and aids;

(3) other revenues (35.6%) - consisting principally of charges for services, special assessments, public enterprise profits, licenses, fines and interest on investments.

Revenues from taxes totaled \$274.7 million which was 0.5% less than in 1979 (see Table 1). The three first-class cities received 26.5% of their revenue from taxes, while the other cities in the state averaged about 17.7%.

Intergovernmental revenues, the largest source of governmental revenue, totaled \$564 million which was 43.3% of the total revenue compared with \$504 million or 41.3% from that source in 1979. Revenue from this source ranged from 33.2% in the 20,000 to 100,000 population group to 52.8% in the over 100,000 population group. Intergovernmental revenues by major class of city is summarized below.

Intergovernmental Revenues For 1980

Charges for services which totaled \$93.0 million were \$50.0 million or 34.9% lower than in 1979. This difference is due to a change in presentation by the Office of the State Auditor. The sewer function has been changed from a governmental fund to an enterprise operation where reported by the city audited financial statements as an enterprise fund. Sanitation charges in the governmental funds totaled \$19.2 million in 1980, with the cities of 2,500 population or more receiving \$11.8 million, and \$7.4 million received by the under 2,500 group. Those cities that reported sewer operations as an enterprise fund are shown on Table 6A this year for the first time.

Special assessments totaled \$175.2 million and accounted for 13.5% of the total revenues compared with \$132.2 million or 10.8% in 1979. The percentage of revenue from this source ranges from 1.7% in the over 100,000 population group to 22.1% in the 2,500 to 10,000 population group.

Contributions from public service enterprises totaled \$23.7 million or 1.8% of total revenues. This revenue is largely profits of municipal liquor stores and electric utilities, neither of which are operated by the three largest cities. This is an important source of revenue in the under 2,500 group where it accounts for 4.8% of revenue. In a number of municipalities in this group it is the largest source of revenue and in some cities exceeds 50% of revenue.

Interest on investments which totaled \$87.5 million was up \$20.8 million and accounted for 6.7% of revenue from this source compared with 5.4% in 1979. Other sources of revenue together totaled \$83.7 million and accounted for 6.5% of total revenues.

EXPENDITURES

Expenditures for governmental functions by all municipalities in 1980 totaled \$1.33 billion which was \$78.8 million or 6.3% higher than in 1979.

The costliest governmental function was public safety where expenditures totaled \$265.0 million. This was \$27.2 million or 11.4% higher than in 1979. Municipalities in the 2,500 to 10,000 population group accounted for \$7.9 million of this increase and the cities in the 20,000 to 100,000 population group increased \$8.8 million. Some \$18.9 million or 7.1% of the expenditures for public safety are for new equipment or other capital outlay.

Expenditures for highways totaled \$257.4 million. This was \$15.5 million or 6.4% higher than in 1979. Some \$142.9 million or 55.5% of the expenditures for highways are for highway construction and equipment.

Expenditures of \$139.1 million for sanitation were down \$46.4 million or 25.0%, due to a change in the presentation of the sewer function from a governmental fund to an enterprise operation as reported in the city audited financial statements. Sanitation expenditures in the governmental funds for cities of 2,500 population or more totaled \$108.8 million in 1980, which consisted primarily of capital outlay totaling \$85.7 million, while, the under 2,500 group totaled \$30.3 million and had capital outlay totaling \$21.4 million. Those cities that reported the sewer operations as an enterprise fund are shown on Table 6A this year for the first time.

Expenditures for recreation including parks totaled \$130.9 million and accounted for 9.9% of the total expenditures compared with \$117.3 million or 9.4% in 1979.

Interest expense which totaled \$94.0 million increased 20.9% over the preceding year. This is accounted for by higher interest rates on bonds issued in recent years and by the increase of outstanding indebtedness.

Figure 1 depicts the share each source of revenue provides and the proportionate percentage of each governmental function. Figure 2 shows the change in the total amount of governmental revenues and expenditures in the last 10 years.

OPERATION OF PUBLIC SERVICE ENTERPRISES

Municipalities in Minnesota operate several types of public service enterprises. Eight are presented on separate tables and others are combined in one table as "Other Service Enterprises". This is the first report in which electric utilities operating generation and distribution systems are combined with those operating distribution systems only.

When possible, the financial operations of these enterprises are presented on the accrual basis rather than cash basis. The basis of accounting is disclosed by appropriate footnotes in the tables 6 through 13.

The following two-year summary of operations by type of public service enterprise is presented for the purpose of comparison

	1980	1979

Operating revenues and expenses were both higher for all types of enterprises, except "Other Service Enterprises", in 1980. The increase in operating expenses exceeded the increase in operating revenues for Electric, Gas, and Heat, resulting in decreases in operating income. The Other Service Enterprises include transit systems.

The following is a two year summary of municipal liquor store operations.

	1980		1979	
	Amount	Per Cent of Sales	Amount	Per Cent of Sales
Sales	\$140,869,427	100.0	\$133,891,648	100.0

Total Sales were up \$7.0 million; cost of sales were up \$5.1 million and gross profit was up \$1.8 million. Operating expenses rose \$1.0 million resulting in an increase of \$.8 million in operating income. Contributions to governmental funds totaled \$8.8 million, compared to \$9.7 million in 1979.

INDEBTEDNESS

Outstanding indebtedness of cities is presented in Table 14 classified by type of bond. The five types are general obligation, including tax increment financing and G.O. revenue bonds shown separately, which are bonds payable from a general tax levy; special assessments which are payable wholly or in part from special assessments; revenue bonds, which are payable from revenue of public service enterprises; refunding bonds; all other, which consists primarily of bonds payable from Municipal State-aid street allocations.

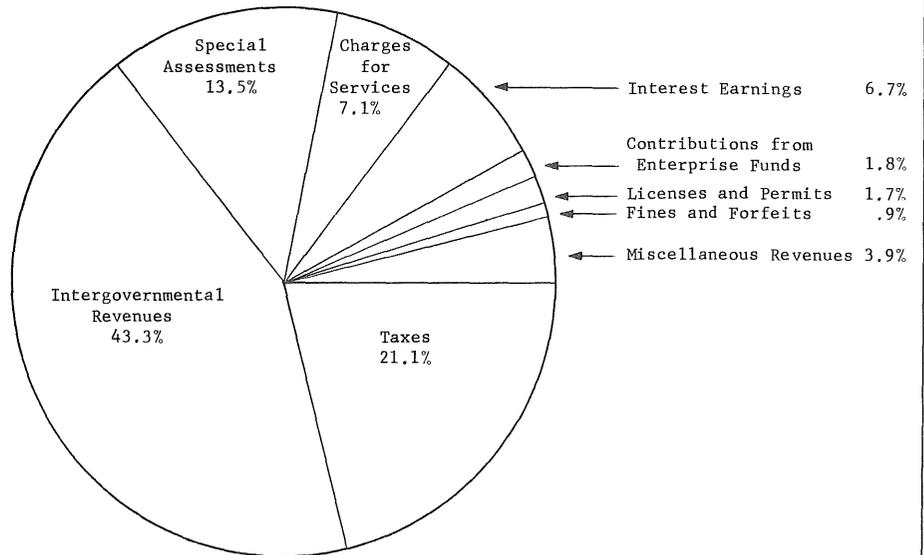

During the year bonds totaling \$345.6 million were issued and \$160.3 million were retired, leaving \$2.08 billion outstanding at the end of 1980.

Figure 3 shows the amount of bonds outstanding at the end of each year since 1970. During the current period the amount outstanding has increased \$186.7 million or 9.9%.

ENTERPRISE FUNDS

Enterprise funds are established to account for the financing of self-supporting activities of governmental units which render services on a user charge basis to the general public. The most universal type of government enterprise is the public utility engaged in the provision of such basic services as water, electricity, and natural gas. Sanitary sewer systems financed by user charges have also assumed the status of public utility operations in many urban areas, and many cities have combined water and sewer systems under the same management. Another type of government enterprise in Minnesota is the Municipal Liquor operation.
