

REPORT OF THE
STATE AUDITOR of MINNESOTA

REVENUES, EXPENDITURES, AND DEBT OF THE LOCAL GOVERNMENTS
IN MINNESOTA

FOR THE FISCAL YEARS ENDED
DURING THE PERIOD
JULY 1, 1980 to JUNE 30, 1981

This document is made available electronically by the Minnesota Legislative Reference Library

1980/81

P R E F A C E

The annual report of the State Auditor covers the revenues, expenditures, indebtedness, taxable valuations and tax levies of the local governments of Minnesota for the fiscal years ended during the period July 1, 1980 to June 30, 1981. This data has been collected and is published and distributed pursuant to Minnesota Statutes, Sections 6.74 and 6.75.

The Governmental Information Division has generated these reports by computer, using System 2000, a data base management system, with University of Minnesota computers. Those wishing to make further analysis of the data should contact this office for assistance.

The State Auditor thanks the administrators and finance officers whose helpful assistance has contributed to the preparation of this report.

Arne H. Carlson
State Auditor

April, 1982

INTRODUCTION

SCOPE

THIS REPORT PRESENTS THE FINANCIAL AFFAIRS OF THE LOCAL UNITS OF GOVERNMENT WHICH OPERATED DURING THE 1980 CALENDAR YEAR, OR THE FISCAL YEAR WHICH MOST NEARLY COINCIDES WITH THAT YEAR. THE FOLLOWING TABULATION SHOWS THE AGENCIES INCLUDED, THE NUMBER OF UNITS IN EACH CLASS, THE PERIOD COVERED, AND THE SOURCE OF THE DATA FOR THIS REPORT.

THE SOURCES OF THE DATA INCORPORATED IN THIS REPORT INCLUDE STATEMENTS OF CITIES AND OTHER UNITS OF LOCAL GOVERNMENT WHICH ARE AUDITED, AND ARE ON A MODIFIED ACCRUAL BASIS. OTHERS ARE NOT AUDITED AND ARE PREPARED ON A CASH RECEIPTS AND DISBURSEMENTS BASIS.

GOVERNMENTAL AGENCY	NUMBER OF UNITS	YEAR ENDED	SOURCE OF DATA
THE COUNTIES	87	DECEMBER 31, 1980	STATE AUDITOR'S AUDIT REPORTS AND COUNTY FINANCIAL STATEMENTS.
THE CITIES	855	DECEMBER 31, 1980	ANNUAL FINANCIAL STATEMENTS, AUDIT REPORTS OF PUBLIC ACCOUNTANTS AND THE STATE AUDITOR, AND DEPT. OF REVENUE RECORDS OF TAXABLE VALUATIONS AND TAX LEVIES.
THE TOWNS	1794	DECEMBER 31, 1980 AND DURING MARCH 1981	TOWNSHIP FINANCIAL REPORTING FORMS; TAXABLE VALUATIONS AND TAX LEVIES FROM DEPT. OF REVENUE RECORDS.

TOTAL UNITS	4331		

GENERAL SUMMARY

ALL LOCAL GOVERNMENTAL UNITS

The financial data for all local governmental units in Minnesota covered in this report have been summarized in Tables 1 through 5 to show the governmental fund revenues, expenditures, and indebtedness. Operations of enterprise funds such as hospitals, nursing homes, water and electric utilities are not included in Tables 1 through 3. Separate reports have been issued for cities and towns, from which summaries have been prepared for this publication.

REVENUES AND EXPENDITURES

Tables 1 and 2 present revenues and expenditures of the counties, cities, towns, school districts, and other agencies, and totals for each type of revenue and expenditure. Intergovernmental revenue detail is not available for all the counties and consequently totals cannot be shown in this important category for counties nor for overall totals. Revenues are classified by source and expenditures by function or major activity.

INDEBTEDNESS

The six types of indebtedness reported in Tables 4 and 5 are: general obligation, which are bonds payable from a general tax levy; special assessment, which are payable wholly or in part from special assessments; G.O. revenue bonds which are backed by the full faith and credit of the municipality; revenue bonds, which are payable from revenue of public service enterprises; refunding bonds; and other.

THE COUNTIES

OPERATIONS

Counties serve as agents for other governmental units in the collection and distribution of taxes and grants, in addition to their governmental functions. The governmental operations are shown in Tables 9 and 10 revenues and expenditures of the counties. County hospitals and nursing homes are considered public service enterprises and their financial operations are presented in separate tables. Forty-eight counties reported on the modified accrual basis of accounting, and thirty-nine of the counties, generally the smaller ones, reported on the cash basis of accounting.

Financial operations reported in Tables 9 and 10 include the general fund and other governmental funds. The tables were changed beginning in calendar year 1979, to more nearly reflect revenues and expenditures of the counties. Cash purchases and sales of investments, trust and agency, intergovernmental service funds, and other miscellaneous receipts and disbursements have been dropped from the reports. Comparison of

total revenues and borrowings and total expenditures and debt redemption should not be made to totals of receipts and disbursements in the publications of prior years. Detailed line items, total revenues, expenditures, borrowings and debt redemption are comparable.

REVENUES

The two main sources of county revenues are property taxes and intergovernmental revenues which together accounted for 86.9% of total revenues in 1980. Over the past five years the percentage of revenue from taxes has decreased from 33.1% to 30.5% in 1980. Intergovernmental revenues as a percent of total revenues has declined from 57.7 in 1976 to 56.4 in 1980. During this five year period, the amount of taxes collected increased from \$286.9 million to \$389.2 million and intergovernmental revenues increased from \$499 million to \$720.2 million. Detailed breakdowns of county intergovernmental revenues were not available in the audit reports or by any other means for about half of the counties for 1980. The totals reflect the detail for those counties that did furnish this information; however, no attempt was made to show totals for these individual categories, because it would be based on incomplete data.

EXPENDITURES

Expenditures by counties for governmental functions in 1980 totaled \$1.27 billion which represents an increase of \$413.7 million or 48.4% in the past five years. Most of the increase came from public welfare, which rose \$218.9 million, highway expenditures which rose \$94.7 million, public safety was up \$60.6 million while general government was up \$38.6 million during this five year period.

Welfare is still the largest county function accounting for 44.2% of the total expenditures in 1980. Detailed welfare expenditures are not available in the audit reports for one half of the counties, and consequently the breakdown of welfare categories in total was not possible in 1980. The following table of current expenditures is shown for reference purposes:

Type of Welfare	1979	1980
General Relief	\$ 65,615,905	Not Available
Aid to families with dependent children	178,206,477	Not Available
Medical Assistance	22,458,302	Not Available
Social Services Administration and all other costs	63,468,842	Not Available
	123,972,347	Not Available
TOTAL	\$453,721,873	\$560,617,025

OPERATIONS OF PUBLIC SERVICE ENTERPRISES

The financial operations of county hospitals, nursing homes and other service enterprises are presented in Tables 12, 13 and 14.

The 17 county hospitals had operating revenues of \$177.9 million and operating expenses of \$179.9 million, resulting in a net operating loss of \$1.9 million. Most of this loss is attributable to Hennepin County medical center which is supported in part by tax levies.

Rest homes and nursing homes had operating revenues of \$30.6 million and operating expenses of \$30.2 million resulting in a net operating income of \$413 thousand. Nonoperating expenses were sufficient to bring net income down to \$6 thousand for this period.

Other county public service enterprises are shown separately for the first time in this publication. Nineteen counties are shown with enterprise funds, including an ice arena, nursing services, sanitary landfills, and so forth. Operating revenues totaled \$8.0 million and operating expenses totaled \$10.2 million for a net loss of \$2.2 million. Net income was \$264 thousand.

INDEBTEDNESS

In 1980 counties issued bonds totaling \$16.5 million and retired bonds totaling \$16.8 million, leaving \$176.4 million outstanding at December 31, 1980.

THE CITIES

GOVERNMENTAL OPERATIONS

A separate report on the revenues, expenditures, and debt of cities is published by this office. Summaries from that report are included here. Governmental operations are presented in a summary by population groups, and in total for each of the latest five years.

REVENUES

Revenues totaled \$1.3 billion in the year 1980. This is \$80.4 million or 6.7% higher than in 1979, and \$426.7 million or 48.7% higher than in 1976.

During this five year period, taxes have increased \$48.4 million or 21.4%, but the percentage of revenue from this source has decreased from 25.9% to 21.1%. This resulted largely from the increases in intergovernmental revenues, mainly state shared taxes and aids which rose \$210.9 million or 59.7% and accounted for 43.3% of the total revenue in 1980, compared with 40.4% in 1976. Intergovernmental revenues include Federal Revenue Sharing, which started in December, 1972, and all other State and Federal grants. Revenue from special assessments increased \$61.7 million, while the percentage of revenue from this source is 13.5% compared to 13.0%. Interest earnings increased \$61.1 million or 231%.

EXPENDITURES

Expenditures by all cities for governmental functions in 1980 totaled \$1.33 billion. This was \$78.8 million or 6.3% higher than in 1979 and \$420.0 million or 46.2% higher than in 1976.

Expenditures for public safety total \$265.0 million which was \$27.2 million higher than in 1979, and \$82.0 million above 1976. Expenditures for highways totaled \$257.4 million up \$15.5 million over the preceding year and up \$87.1 million over 1976. Sanitation totaled \$139.1 million which was \$46.4 million under the total in 1979. An accounting and reporting change caused the drop in sanitation expenditures, because cities reporting sewer operations as enterprise funds were shown in enterprise funds for the first time in this year in State Auditor's publications.

The increase in the amount of interest paid reflects the increase in bonds outstanding as well as higher interest rates on bonds issued during the last few years.

OPERATIONS OF PUBLIC SERVICE ENTERPRISES

Cities in Minnesota operate several types of public service enterprises. Eight are presented on separate tables and others are combined in one table, "Other service enterprises." This is the first report in which electric utilities which operate generation and distribution systems are combined with those operating distribution systems only. Where possible, the financial operations are presented on the accrual basis rather than on the cash basis. Sewer utility operations are shown with the enterprise funds for the first time in 1980.

Operating revenues and expenses were both higher for all types of enterprises except "Other Service Enterprises" in 1980. The increase in operating expenses exceeded the increase in operating revenues for the electric, gas and heat, resulting in decreases in operating income. The "Other Service Enterprises" includes transit systems.

Municipal liquor store sales were up \$7.0 million, cost of sales were up \$5.1 million, and gross profit was up \$1.8 million. Operating expenses rose \$1.0 million, resulting in an increase of \$811 thousand in operating income. Contributions to governmental funds totaled \$8.8 million compared to \$9.7 million in 1979.

INDEBTEDNESS

The outstanding bonded indebtedness of cities rose \$187.6 million in 1980 reaching a total of \$2.08 billion at the end of that year.

THE TOWNS

OPERATIONS

A separate report on the revenues, expenditures and debt of towns is generated by this office. That data is presented here in summarized form.

The source of data for towns was the township reporting form submitted to this office, and is the result of a cooperative data collection effort undertaken by the Office of the State Auditor and the Minnesota Department of Transportation and the U.S. Bureau of the Census.

REVENUES

A five year summary of town revenues and expenditures is presented in Table 19. Grants and aids have become the principal source of revenues for towns, accounting for 47.2%. While taxes were 41.9% of the total revenues in the current year.

EXPENDITURES

Expenditures of the towns amounted to \$60.3 million, with 59.2% for highways, 16.1% general government, 8.9% public safety, 13.9% miscellaneous and 1.9% interest expense for 1980.

Expenditures are down from the preceding year by 9.4%, attributable in part to Stuntz Township, which has been annexed by the city of Hibbing. Non-reporting towns are no longer estimated and included in these publications, which is a departure from previous methods.

INDEBTEDNESS

Relatively few towns have any bonded indebtedness and of these, five towns account for \$15.0 million or 79.9% of the \$18.8 million total outstanding at December 31, 1980.

THE SCHOOL DISTRICTS

OPERATIONS

School districts operate on a June 30 fiscal year, and the year in this report is for the fiscal year ended June 30, 1981. The data presented in this publication were prepared by the Department of Education from the UFARS reports at the request of this office.

REVENUES

The total revenues of all school districts in Minnesota exceeded \$2.3 billion for the year ended June 30, 1981. This was an increase over the total in the prior year by \$133.3 million, and was \$565.9 million or 31.7% higher than in 1976. During this five year period taxes have risen \$69.3 million or 12.1% while state and federal aids increased \$330.4 million or 30.0%.

EXPENDITURES

Total expenditures exceeded \$2.34 billion, having increased \$217.5 million over the preceding year. Current expenditures accounted for 92.3%, and capital outlay 7.7% of total expenditures.

Total current expenditures per pupil in the graded elementary and secondary schools and area vocational technical institutes in the last five years is presented in the following table.

Year Ended June 30	Enrollment	Current Expense	
		Total Amount	Per Pupil
1977	889,735	\$1,584,162,573	\$1,780.49
1978	863,425	1,680,014,709	1,945.76
1979	833,121	1,783,132,353	2,140.30
1980	824,917	1,942,608,292	2,354.91
1981	782,198	2,166,669,750	2,769.97

The cost per pupil has increased over 1989 during this period. Enrollment has declined by 12.1% since Fiscal Year 1977, while total current costs have increased \$582 million, or 36.8% during the same period.

INDEBTEDNESS

School districts issued bonds totaling \$57.1 million and paid \$84.9 million in 1980 leaving a balance of \$1.049 billion outstanding at the end of that year. School indebtedness was summarized from the Department of Education Reports, which are prepared on a fiscal year basis.

THE OTHER AGENCIES

OPERATIONS

The governmental agencies included in this section of the report have been created to perform certain functions in areas which are generally not performed by other governmental units. They are supported by revenues derived from sources similar to those of other governments and their expenditures cover nearly every type of function, as shown in Tables 2, 25, 26 and 27.

The Other Agencies are shown in four tables in this publication, tables 25, 26, 27 and 28. Table 25 and 26 includes governmental funds reported on the modified accrual basis of accounting or cash basis. Table 27 includes operations of funds on the accrual basis of accounting. This is a change in reporting more in line with recommended governmental accounting practices. However, it does introduce some changes from past practices, and caution is advised when making comparisons to prior years. Table 28 covers the outstanding debt for these agencies.

REVENUES

The Other Agencies had revenues totaling over \$2.0 billion in 1980. Over \$814.4 million was from intersystemal sources and \$493.8 million from charges for services.

EXPENDITURES

Expenditures of the Other Agencies total over \$1.5 billion, of which \$733.9 million were University of Minnesota expenditures \$197.5 million retirement associations, \$97.8 million were housing authorities and urban renewal, \$42.7 million operating expense for metropolitan waste control and \$84.9 million operating expense metropolitan transit.

† Outstanding indebtedness for 1978, 1979 and 1980 were taken from the Dept. of Education "Financial Reports".

Data for prior years were from the County Auditors reports of indebtedness as of December 31 of each year.

[1] The data for the year ending June 30, 1981 may not be comparable to previous years due to classification changes made by the Department of Education.

EXPLANATION OF CLASSIFICATIONS USED

The data reported by the local governmental units in Minnesota has been summarized to reflect the revenues and expenditures of the political subdivisions. It is the intent of this report to provide information relating to the finances of all the local governmental units in comparable form; therefore, a uniform classification of revenues and expenditures was developed.

The source of the data incorporated in this report include statements of cities, counties, and other units of local government which are audited, and are presented on the modified accrual or accrual basis of accountings. Others are not audited and have been prepared on a cash receipts and cash disbursements basis.

Revenues are classified by source, and expenditures are classified by function or subfunction. The classification used closely follows the standard classification developed by the National Council on Governmental Accounting. A uniform classification of revenues by source permits reasonably accurate comparisons between governmental units, and the analysis of financing methods. A uniform classification of expenditures by function or activity shows operating costs and enables a comparison of similar activities between various governmental units.

In most communities the following activities are regarded as self-supporting public service enterprises:

- Water utility
- Electric utility
- Hospital
- Nursing home
- Heat utility
- Gas utility
- Liquor store

Because of the basic differences between the characteristics of governmental funds, and funds for the operation of these enterprises, the revenues and expenditures of the governmental and public service enterprise funds are shown separately.

The classification used herein is detailed below.

GOVERNMENTAL REVENUES

General Property Taxes - Includes all revenues from the direct ad valorem tax on real and personal property. Includes penalties and interest on delinquent taxes. Includes power and light tax, and other special taxes for counties, cities, towns, school districts, and other special districts.

Other Taxes - Includes local sales taxes, hotel-motel taxes, food and beverage taxes, admissions taxes, franchise taxes, etc.

Special Assessments - Includes revenues from benefited property owners for street, sidewalk, ditch, sewer, and other construction or improvement costs.

Licenses and Permits - Includes revenues from licenses and permits from businesses and occupations, non-business licenses, and permits for buildings, plumbing, etc.

Intergovernmental Revenues - Includes grants and shared taxes from other governmental units, for example, local government aid and homestead credit paid by the State, and general revenue sharing paid by the Federal government.

Charges for Services - Includes charges, fees, rentals, and minor sales of the various governmental departments for services rendered to individuals and other local governmental units.

Fines and Forfeits - Includes revenues exacted as penalties for law violation, penalties for non-observance of contracts, forfeited deposits, etc.

Miscellaneous Revenue - Includes revenue from interest on investments, rental of nondepartmental property, donations, and sale of property.

Contributions from Public Service Enterprise Funds - Includes permanent transfers or contributions from public service enterprise funds to governmental funds, such as payments in lieu of taxes or flat sum contributions (transfers).

Borrowings

Includes receipts from the sale of bonds, certificates of indebtedness, tax anticipation certificates, except public service enterprise borrowings.

EXPENDITURES

Expenditures of the various local governmental units include current expenditures (the annual recurring cost of maintaining governmental functions, including interest expense) and capital outlay (expenditures for permanent improvements and equipment).

GOVERNMENTAL EXPENDITURES

Current Expenditures

General Government - Includes all payments for the current expenditures of general governmental officers--executive, legislative, and judicial; boards and commissions; elections; general government buildings; and all general administrative expense payments.

Public Safety - Includes payments for the current expenditures of police and fire departments, corrections, protective inspection, armory expense, protection to animals, coroner's expenses, morgues, civil defense, and flood control.

Highways and Streets - Includes maintenance and operation payments for roads, streets, bridges, alleys, and sidewalks. Includes payments for lighting, snow removal, and traffic control.

Sanitation - Includes all expense payments for sanitary sewers, storm sewers, sewage disposal plants, garbage and refuse collection and disposal, weed cutting, public rest rooms, and street cleaning. Starting in 1980, cities reporting sanitation as an enterprise funds are reported as enterprise funds, rather than with governmental funds in the publications of The Office of the State Auditor.

Health - Includes payments for current expenditures of health departments, health inspection, vital statistics, control of communicable diseases, and child health service.

Hospitals - Includes payments for operation of district hospitals. County and municipal hospitals are considered public service enterprises in this report.

Welfare - Includes all payments for the support or assistance of the poor, the aged, the blind, and dependent children; contributions to charitable organizations; and administration costs of the various programs.

Education - Includes payments for current expenditures of institutions of learning--books, school libraries, supplies furnished to pupils, school administration, and transportation of pupils.

Libraries - Includes payments for current expenditures of all libraries intended for the use of the public and all payments to other units for library services.

Recreation - Includes the payments for operation and maintenance of recreational activities, buildings, parks, musical entertainment and celebrations.

Conservation of Natural Resources - Includes payments for county agents, county fairs, lake and stream improvements, ditches, contributions to agricultural societies, and the protection and propagation of game and fish.

Contributions to Public Service Enterprise Funds - Includes permanent transfers made to these funds and payments which help support the operation of the enterprises, except payments for services.

Urban Redevelopment and Housing - Includes expenditures for the planning and provision of adequate housing and redevelopment of substandard physical facilities.

Miscellaneous - Includes contributions to employee pension funds, insurance premiums not allocated to a specific function, operation and maintenance of port authorities, municipal airports, and other unallocable current expenditures.

Interest Expense - Includes payment of interest on all classes of public debt, with the exception of interest on debt of municipally owned public service enterprises.

Capital Outlay

Includes all payments for construction and improvement of governmental property, exclusive of property belonging to a government owned public service enterprise. Includes purchase of real property and major equipment. In general, payments which create or enhance the value of governmental fixed assets are capital outlay.

Debt Redemption

Includes principal payments on all classes of long term public debt such as bonds and certificates, except public service enterprise debt.

PUBLIC SERVICE ENTERPRISES

Tables included in this report were summarized from financial statements to show the financial operations for each type of public service enterprise.

Where possible, the financial operations were summarized on the accrual basis of accounting rather than the cash basis.

The classifications used for the public service enterprises closely follow those used by the Federal Bureau of the Census and, in general, include the types of revenues and expenses that are used in similar enterprises in private industry.
