P R E F A C E

The annual report of the State Auditor covers the revenues, expenditures, indebtedness, taxable valuations and tax levies of the cities of Minnesota for the year 1981. This report includes the operations of municipalities for the fiscal year ended December 31, 1981. This data has been collected and is published and distributed pursuant to Minnesota Statutes, Sections 6.74 and 6.75.

Improvements have been made in the reporting of enterprise funds by separating all reported enterprise funds from the governmental funds in accordance with preferred governmental fund accounting and reporting requirements. Caution should be applied in making comparisons of the 1981 calendar year to prior years.

This report has been generated by computer, using System 2000 (a data base management system) through the University of Minnesota Computer Center. Those wishing to make further analysis of the data should contact this office for assistance.

The State Auditor expresses his appreciation to the clerks and municipal finance officers whose helpful assistance has contributed to the preparation of this report.

INTRODUCTION

SCOPE

This report covers the financial operations of the 855 cities in Minnesota for the calendar year 1981. The sources of these data are annual city financial reporting forms, reports of audits by public accountants and the State Auditor, county auditors' tax abstracts and reports of indebtedness, and the Department of Revenue records of state shared tax distributions and grants, taxable valuations, and tax levies.

Cities with populations greater than 2,500 are required by Chapter 787, Laws of 1978 to report using Generally Accepted Accounting Principles (GAAP), which require the modified accrual basis of accounting for governmental funds, and the accrual basis for enterprise funds. The data for Governmental Funds in this publication for the larger cities was taken from audited reports, which were prepared on the modified accrual basis of accounting. Cities under 2,500 in population are not required to report on a GAAP basis under Chapter 787, Laws of 1978, and the data in this report have been prepared from statements of cash receipts and disbursements in most cases. Statutory cities operating under Option Plan 'A' with combined offices of Clerk-Treasurer are required to have an audit, pursuant to Minnesota Statutes Section 412.591, subdivision 2, although the audited financial statements may be on the cash basis.

Financial operations reported in Tables 1, 3, 3A, 4, 4A and 5 include the governmental funds of the city. The governmental fund types include the General Fund, Special Revenue Funds, Capital Projects Funds, Debt Service Funds, and Special Assessments Funds of the city. A summary of the Governmental Funds is shown in Table 1, and Table 2 is a summary of Enterprise Fund operations.

Total Revenues and Expenditures of governmental funds no longer include enterprise fund transfers (contributions), but show these amounts as Other Financing Sources and Uses. Contributions from Enterprise Funds are captioned as transfers from enterprise funds for the first time in 1981. Contributions to Enterprise Funds for current expense are shown as transfers to enterprise funds. Governmental fund capital outlays for enterprise improvements appear not as contributions but as Capital Outlay for Enterprise Funds.

This publication for the first time separates ALL reported enterprise funds from the city governmental funds, including enterprises such as airports, arenas, swimming pools, ice arenas, marinas and so forth. In previous reports only major enterprises common to most cities such as water,

liquor stores, hospitals, nursing homes and the like were reported in separate tables for enterprise funds. Sewage disposal and treatment was first shown as a separate enterprise starting in 1980.

The presentation herein conforms more closely to the governmental accounting model outlined in Statement 1, which provides for a clear distinction between governmental funds and enterprise funds. Statement 1 was issued by the National Council on Governmental Accounting in 1979 and affects all years after June 30, 1980. For this reason comparison figures for 1981 and prior years may not be meaningful without careful and detailed analysis.

The financial operations of the municipal public service enterprises are presented separately from the governmental operations in tables 6 through 13. These enterprises operate wholly or in large part from revenue derived from the sale of goods or services. When possible, each enterprise is presented separately on a revenues and expenses basis. However, in some municipalities the operations of two or more enterprises are combined. For example, the function of sanitary sewers and sewage disposal may be combined with the operation of the water utility. These instances are disclosed with appropriate footnotes.

Four cities failed to submit an annual reporting form or audited financial statement in time for this publication:

New London	St. Paul Park
St. Anthony (Stearns)	Zumbrota

Of the four cities failing to report only one, St. Paul Park, population 4,864, was over 2500 in population.

Revenues and expenditures for governmental functions are summarized by population groups based on the 1980 Federal census (PC80-1-A25, February 1982). The population groups correspond to the legal definitions of the 1st, 2nd, 3rd and 4th class cities. The latter group is further divided between those over and under 2,500 in population. This grouping is for the purpose of making comparison of financial data between groups as well as between municipalities of similar size.

GENERAL SUMMARY

TAXABLE VALUATIONS AND TAX LEVIES

Data on the ad valorem tax on real and personal property in each population group and for all municipalities are presented in the following table.

Taxable valuations are based on assessments made in 1980 and on which taxes were levied that year for collection in 1981, together with comparable data for the preceding year.

Population Group	Taxable Valuation Per Capita		Tax Levied Per Capita		Average Tax Rate [Mills]	
	1980	1979	1980	1979	1980	1979
Over 100,000	\$5,050.90	\$4,097.28	\$157.53	\$141.24	\$31.18	\$34.47
20,000 to 100,000	5,633.72	4,891.41	97.48	85.32	17.30	17.44
10,000 to 20,000	4,449.62	3,866.34	98.35	82.14	22.10	21.24
2,500 to 10,000	4,256.79	3,520.03	90.32	76.22	21.21	21.65
Under 2,500	3,207.30	2,688.60	90.66	77.86	28.26	28.96
All Municipalities	\$4,768.22	\$4,021.39	\$109.53	\$ 92.39	\$22.97	\$23.72

Taxable valuation per capita in all municipalities increased \$746.83 or 18.6% in 1980. The changes in valuation in each population group varied from a \$518.70 increase or 19.3% in the under 2,500 group to an increase of \$953.62 or 23.3% in the over 100,000 group.

The amount of city taxes levied per capita in all municipalities increased \$17.14 or 18.6%. The municipal taxes levied per capita in each group ranged from an increase of \$12.16 or 14.3% in the 20,000 to 100,000 group to

an increase of \$16.3 or 11.5% in the over 100,000 group. Average mill rates for these groups decreased 0.75 mills over all.

Taxable valuations for 1979 and 1980 do not include tax increment assessed valuation, nor fiscal disparities contribution valuation, but do include fiscal disparities distribution valuation.

Eleven cities levied no property tax in 1980. These cities were all in the under 2,500 group and all have a population of less than 200.

GOVERNMENTAL OPERATIONS

REVENUES

Revenue for the governmental operations of all municipalities in 1981 totaled \$1.35 billion which was \$53.0 million or 4.1% higher than in 1980. The total revenue per capita was \$433.51 compared to \$417.76 in 1980. The amount per capita in each population group was as follows:

Population Group	Per Capita
Over 100,000	\$675.59
20,000 to 100,000	363.54
10,000 to 20,000	404.19
2,500 to 10,000	361.26
Under 2,500	300.10

Total operating revenue of the 855 cities came from three principal sources: (1) taxes (23.0%); (2) intergovernmental revenues (43.2%) - federal and state grants and aids;

(3) other revenues (33.8%) - consisting principally of charges for services, special assessments, licenses, fines, and interest earnings on investments.

Revenues from taxes totaled \$312.4 million which was 13.7% greater than in 1980 (see Table 1). The three first-class cities received 27.1% of their revenue from taxes, while the other cities in the state averaged about 20.2%.

Intergovernmental revenues, the largest source of governmental revenue, totaled \$585 million which was 43.2% of the total revenue compared with \$564 million or 43.3% from that source in 1980. Revenue from this source ranged from 33.9% in the 20,000 to 100,000 population group to 52.5% in the over 100,000 population group. Intergovernmental revenues by major class of city is summarized below.

Intergovernmental Revenues For 1981

Charges for services, which totaled \$67.2 million, were \$25.8 million or 27.8% lower than in 1980. This difference is due to a change in presentation by the Office of the State Auditor. The sewer function has been changed from a governmental fund to an enterprise operation when reported as an enterprise fund by the city. Sanitation charges in the governmental funds totaled \$3.7 million in 1981. Those cities that reported sewer operations as an enterprise fund were shown in Table 6A a new table in 1980.

Special assessments totaled \$164.0 million and accounted for 12.1% of the total revenues compared with \$175.2 million or 13.5% in 1980. The percentage of revenue from this source ranges from 2.3% in the over 100,000 population group to 20.8% in the 10,000 to 20,000 population group.

Transfers from public service enterprises (Contributions) totaled \$26.3 million. These transfers are no longer shown as revenue, but as "Other Financing Sources". Transfers from enterprises are largely profits of municipal liquor stores and electric utilities, neither of which are operated by the three largest cities. This is an important financing source for the under 2,500 group where it accounts for \$7.4 million.

Interest earnings on investments which totaled \$121.3 million was up \$33.8 million and accounted for 8.9% of revenue from this source compared with 6.7% in 1980.

EXPENDITURES

Expenditures for governmental functions by all municipalities in 1981 totaled \$1.33 billion. This should not be directly compared to prior years due to the accounting changes mentioned previously.

The costliest governmental function was streets and highways where expenditures totaled \$296.3 million. This was \$38.9 million or 15.1% higher than in 1980. Municipalities in the 20,000 to 100,000 population group accounted for \$20.3 million of this increase and the cities in the 10,000 to 20,000 population group increased \$11.1 million. Some \$169.8 million or 57.3% of the expenditures for streets and highways are for highway construction and equipment.

Expenditures for public safety totaled \$288.8 million. This was \$23.8 million or 9.0% higher than in 1980. Some \$16.1 million or 5.6% of the expenditures for public safety are for new equipment or other capital outlay.

Expenditures of \$78.0 million for sanitation were down \$61.1 million or 43.9%, due to a change in the presentation of the sewer function from a governmental fund to an enterprise operation as reported in the city audited financial statements. Another change was made in classifying storm sewer expenditures, totaling \$30.7 million, as a highway expenditure in 1981, as defined in "Governmental Accounting and Financial Reporting" [GAAFR] (November 1980) Those cities that reported the sewer operations as enterprise fund, are shown in Table 6A.

Expenditures for recreation including parks totaled \$129.4 million and accounted for 9.7% of the total expenditures compared with \$130.9 million or 9.9% in 1980. Those cities that reported recreational activities as an enterprise fund are shown in Table 12 for the first time this year.

Interest and fiscal charges totaling \$107.6 million increased 14.5% over the preceding year. This is accounted for by higher interest rates on bonds issued in recent years and by the increase of outstanding indebtedness.

Figure 1 depicts the share each source of revenue provides and the percentage of each governmental function. Figure 2 shows the change in the total amount of governmental revenues and expenditures in the last 10 years.

OPERATION OF PUBLIC SERVICE ENTERPRISES

Municipalities in Minnesota operate several types of public service enterprises. Eight are presented on separate tables and others are combined in one table as "Other Service Enterprises". In this report electric utilities that operate generation and distribution systems are combined with those operating distribution systems only.

This is the first report that the "Other Service Enterprises" includes enterprise funds that were previously reported by the Office of the State Auditor in the governmental funds.

When possible, the financial operations of these enterprises are presented on the accrual basis rather than cash basis. The basis of accounting is disclosed by appropriate footnotes in the tables 6 through 13.

The following two-year summary of operations by type of public service enterprise is presented for the purpose of comparison.

Total sales were up \$5.3 million, cost of sales were up \$4.2 million and gross profit was up \$1.1 million. Operating expenses rose \$2.0 million, resulting in an increase of \$ 896 thousand in operating income. Contributions to governmental funds totaled \$9.6 million, compared to \$8.8 million in 1980.

The following table is a two-year summary of all enterprise fund operations.

	1981	1980

INDEBTEDNESS

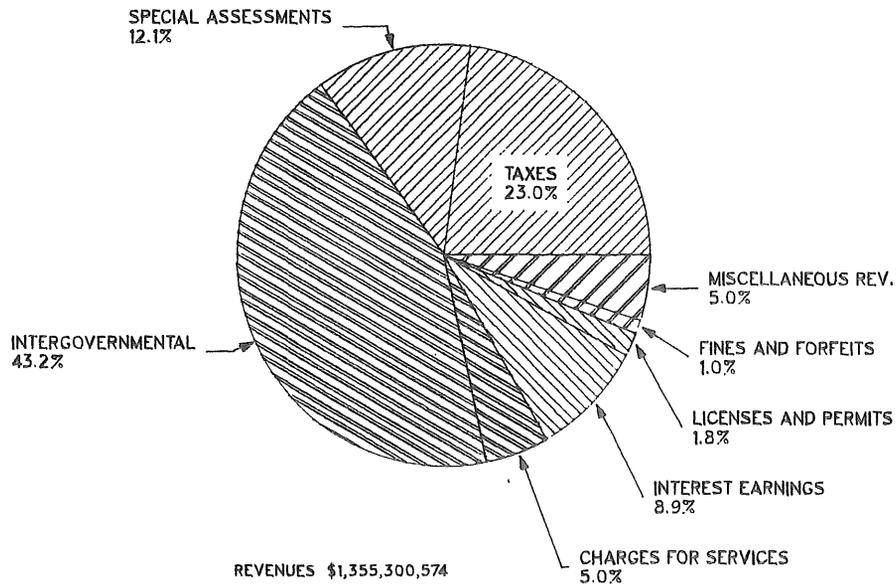

Outstanding indebtedness of cities is presented in Table 14 classified by type of bond. The five types are general obligation, including tax increment financing and G.D. revenue bonds (shown separately) which are bonds payable from a general tax levy; special assessments, which are payable wholly or in part from special assessments; revenue bonds, which are payable from revenue of public service enterprises; refunding bonds; and all other, which consists primarily of bonds payable from Municipal State-aid street allocations.

During the year bonds totaling \$310.4 million were issued and \$179.4 million were retired, leaving \$2.2 billion outstanding at the end of 1981.

Figure 3 shows the amount of bonds outstanding at the end of each year since 1971. During the current period the amount outstanding has increased \$128.9 million or 6.2%.

ENTERPRISE FUNDS

Enterprise funds are established to account for the financing of self-supporting activities of governmental units which render services on a user charge basis to the general public. The most universal type of government enterprise is the public utility engaged in the provision of such basic services as water, electricity, and natural gas. Sanitary sewer systems financed by user charges have also assumed the status of public utility operations in many urban areas, and many cities have combined water and sewer systems under the same management. Another type of government enterprise in Minnesota is the Municipal Liquor operation.
