P R E F A C E

The annual report of the State Auditor on revenues, expenditures, and debt of the cities in Minnesota for the fiscal year ended December 31, 1984, includes taxable valuations, tax levies and the financial operations of municipalities. Populations were taken from "Minnesota Populations, 1984" from the Office of the State Demographer. The data have been collected, published and distributed pursuant to Minnesota Statutes, Sections 6.74 and 6.75.

In this report as in the 1981 through 1983 reports, all enterprise funds are reported separately from the governmental funds, in accordance with current accounting and reporting practices. Caution is necessary when comparing the 1981 through 1984 reports to those published in prior years, since separate reporting of enterprise and governmental funds was not uniform until 1981.

The Office of the State Auditor has generated this report using d.base III (a microcomputer data base management system), IBM PC's, and an AT. Anyone who wishes to analyze the data further should contact this office for assistance.

My staff and I want to express our appreciation to the clerks and municipal finance officers whose helpful cooperation contributed to the preparation of this report.

Arne H. Carlson

INTRODUCTION

SCOPE

This report covers the financial operations of the 855 cities in Minnesota for the calendar year 1984. The sources of the data are annual city financial reports of audits by public accountants and the State Auditor, county auditors' tax abstracts and reports of indebtedness, and the Department of Revenue records of state shared tax distributions, grants, aids, taxable valuations and tax levies.

Cities with populations greater than 2,500 are required by Minnesota Statutes 471.695 - 471.699 to submit comprehensive annual financial reports prepared in accordance with Generally Accepted Accounting Principles (GAAP), which require the modified accrual basis of accounting for Governmental Funds, and the accrual basis for Enterprise Funds. The data in this publication for the cities over 2,500 in population were taken from city reporting forms introduced in 1985 and from the audited reports. Cities under 2,500 in population are not required to report on a GAAP basis. The data for most cities under 2,500 in population have been entered from reporting forms prepared on the cash basis of accounting submitted by city clerks. Statutory cities operating under Option Plan "A" with combined offices of Clerk-Treasurer are required to have an audit, pursuant to Minnesota Statutes Section 412.591, subdivision 2, although the audited financial statements may be on the cash basis.

Financial operations reported in Tables 1, 3, 3A, 4, 4A and 5 include the Governmental Funds for each city. The Governmental Funds are the General Fund, Special Revenue Funds, Capital Projects Funds, Debt Service Funds, and Special Assessment Funds; they are summarized in Table 1. Table 2 is a summary of Enterprise Fund operations.

Total revenues and expenditures of Governmental Funds no longer include Enterprise Fund transfers (contributions), but show these amounts as "other financing sources or uses."

Contributions to Enterprise Funds for current expense are shown as transfers to Enterprise Funds.

This publication separates all reported Enterprise Funds from the city Governmental Funds, including enterprises such as airports, auditoriums, swimming pools, refuse collection and others. In reports prior to 1981, only major enterprises common to most cities such as water, liquor stores, hospitals and nursing homes were reported separately as Enterprise Funds. Sewage disposal and treatment was first shown as a separate enterprise in 1980.

This information has been verified with city finance directors and city clerks, and any reported corrections were made to the data bases.

The presentation here conforms more closely to the governmental accounting model prescribed in Statement 1 issued in 1979 by the National Council on Government Accounting. Statement 1 provides for a clear distinction between Governmental Funds and Enterprise Funds. Because of this change in reporting, comparison of 1981 through 1984 figures to prior years may be distorted without careful and detailed analysis.

Some housing and redevelopment agencies are now reported in the city financial statements since NCGA Statement 3, which requires all funds of the cities to be included in the comprehensive annual financial report (CAFR). This report shows some increase in revenues and expenditures of the Governmental Funds, reflecting the addition of a number of HRA's.

The financial operations of the 2194 municipal public service enterprises are presented in Tables 6 through 15. The enterprises furnish many types of services, and operate wholly or in large part with revenue derived from the sale of goods or services. When possible, each enterprise is presented separately on an accrual basis of accounting. In some municipalities the operations of two or more enterprises are combined. For example, the functions of sanitary sewers, sewage disposal, and the operation of the water utility may be combined. This treatment is not in conformity with preferred governmental accounting and reporting practices, and the combined enterprises are disclosed with appropriate footnotes.

Thirteen cities failed to submit an annual reporting form or audited financial statement in time for this publication.

One of the cities failing to report, St. Paul Park, was over 2,500 in population, and has not reported in time for this publication for 1981, 1982, 1983, or 1984.

Revenues and expenditures for governmental functions are summarized by population classes based on the 1984 population of the Office of the State Demographer. The population classes correspond to the legal definitions of the 1st, 2nd, 3rd and 4th class cities. The 4th class cities are further divided between those over and under 2,500 in population, for the purpose of comparison of financial data between classes as well as between cities of similar size.

GENERAL SUMMARY

TAXABLE VALUATIONS AND TAX LEVIES

The ad valorem taxes on real and personal property in each population class and for all cities are presented in the following table.

Taxable valuations are based on assessments made in 1983 on which taxes were levied that year for collection in 1984, together with comparable data for the preceding year.

Population Class	Taxable Valuation Per Capita		Local Tax Levy Per Capita		Average Tax Rate (Mills)	
	1984	1983	1984	1983	1984	1983
Over 100,000	\$5,422.32	\$6,310.85	\$200.22	\$194.18	\$31.18	\$30.77
20,000 to 100,000	6,886.96	6,800.64	126.44	114.61	18.36	16.85
10,000 to 20,000	5,439.48	5,372.37	129.36	118.91	23.78	22.13
2,500 to 10,000	5,162.48	5,080.39	117.70	106.74	22.80	21.01
Under 2,500	3,685.58	3,727.02	115.49	106.18	31.34	28.49
All Cities	\$5,848.75	\$5,776.14	\$140.48	\$130.80	\$24.82	\$22.64

Total taxable valuation in Minnesota increased \$72.61 per capita in 1984. This is 1.3% higher than the previous year. The changes in valuation in each population class varied from increases of \$111.47 or 1.8% in the cities of the first class to decreases of \$41.44 or 1.1% in the under 2,500 class.

in the cities of the first class to an increase of \$11.83 in the 20,000 to 100,000 class. Average mill rates for municipalities increased 1.38 mills overall.

The amount of city taxes levied per capita in all cities increased \$9.68 or 7.4%. Last year tax levies increased \$8.81 per capita or 7.2%. The city taxes levied per capita in each class ranged from an increase of \$6.04

Taxable valuations for 1983 and 1984 do not include tax increment assessed valuation or fiscal disparities contribution valuation, but do include fiscal disparities distribution valuation.

Eight cities levied no property tax in 1984. These cities were all in the under 2,500 class and all have a population of less than 150.

GOVERNMENTAL OPERATIONS

REVENUES

Revenue for the Governmental Funds of all cities in 1984 totaled \$1.68 billion, which was \$173.9 million or 11.5% higher than in 1983. The total revenue per capita was \$526.45 compared to \$476.07 in 1983. The amount per capita in each population class was as follows:

governmental revenues (38.7%) - federal and state grants and aids; and (3) special assessments (9.7%).

Population Class	Per Capita
Over 100,000	\$857.10
20,000 to 100,000	451.37
10,000 to 20,000	468.44
2,500 to 10,000	410.31
Under 2,500	364.62

Revenues from taxes totaled \$425.2 million. This is a significant increase over the \$371.9 million collected in 1983.

The principal sources of revenue for the 855 cities consisted of: (1) taxes (25.3%); (2) inter-

Intergovernmental revenue, the largest source totaled \$649.8 million, which was 38.7% of the total revenue compared with \$615.7 million or 40.9% from that source in 1983. Intergovernmental revenue ranged from 29.1% of total revenue in the 20,000 to 100,000 population class to 44.7% in the cities of the first class. Intergovernmental revenues by major class of city are summarized below.

Special assessments totaled \$163.2 million and accounted for 9.7% of the total revenue compared with \$155.8 million or 10.3% in 1983. The percentage of total revenue from this source ranged from 2.4% in the over 100,000 population class to 16.5% in the 10,000 to 20,000 population class.

Interest earnings on investments, which were the fourth largest revenue source for cities in 1984, were up \$29.8 million from 1983. Interest earnings accounted for 8.4% of total revenue compared with 7.4% in 1983.

Charges for services, which totaled \$86.2 million, were \$9.7 million or 12.7% higher than in 1983. Service charges represented 7.1% of total revenue in the under 2,500 population class, compared to an average of only 5.1% in the other population classes.

Transfers from public service enterprises totaled \$33.5 million. These transfers, which are shown as "Other Financing Sources," are an important financing source for the under 2,500 class where they account for \$9.5 million.

EXPENDITURES

Expenditures for governmental functions by all cities in 1984 totaled \$1.63 billion. This should not be directly compared to years before 1981 due to the accounting changes mentioned previously.

Public safety was the costliest governmental function in 1984, totaling \$339.6 million. This was \$17.8 million or 5.5% higher than 1983.

Expenditures for streets and highways totaled \$332.4 million. This was \$21.3 million or 6.8% higher than in 1983. Approximately \$183.7 million or 55.3% of street and highway expenditures were for new equipment or other construction.

Expenditures of \$20.3 million for sanitation were up \$1.2 million or 6.3% in 1984. Cities changed their presentation of the sanitary sewer function from a Governmental Fund to an Enterprise Fund in the city financial statements. In addition to reporting sanitary sewer operations as an Enterprise Fund, storm sewer expenditures are reported as a highway expenditure as defined in "Governmental Accounting and Financial Reporting" [GAAPFR] (November 1980). The sanitary sewer operations are shown in Table 7.

Garbage enterprise funds are reported on separately in Table 13 for the first time in this publication for 1984. Previously these funds had been shown in other enterprise funds, and many are still included in governmental funds by the cities.

Expenditures for recreation, including parks, totaled \$126.6 million and accounted for 7.8% of the total expenditures compared with \$120.6 million or 8.3% in 1983. The cities that reported recreational activities as an enterprise fund are shown in Table 14.

Interest and fiscal charges totaling \$146.1 million increased 4.7% over the preceding year. This is accounted for by higher interest rates on bonds issued in recent years and by the increase of outstanding indebtedness.

Figure 1 depicts the percentage of total revenue or expenditure that each governmental function provides. Figure 2 shows the change in the total amount of governmental revenues and expenditures in the last 12 years.

OPERATION OF PUBLIC SERVICE ENTERPRISES

Municipalities in Minnesota operate many types of public service enterprises. Nine are presented on separate tables and others are combined in one table as "Other Service Enterprises." In this report electric utilities that operate generation and distribution systems are combined with those operating distribution systems only.

When possible, the financial operations of these enterprises are presented on the accrual basis rather than cash basis. The basis of accounting is disclosed by appropriate footnotes in Tables 6 through 15.

The following two-year summary of operations by type of public service enterprise is presented for the purpose of comparison.

The "Other Service Enterprises" include several Enterprise Funds that were shown in city Governmental Funds prior to 1981. These include airports, arenas, swimming pools, golf courses and several other enterprises.

The following is a two-year summary of city liquor store operations.

	1984		1983

Total sales were down \$2.4 million, cost of sales was down \$1.0 million, and gross profit was down \$1.3 million. Operating expenses were down \$419 thousand. Operating income decreased \$889 thousand. Contribution to Governmental Funds totaled \$9.1 million, compared to \$8.9 million in 1983.

The following table is a two-year summary of operations for all Enterprise Funds.

All Enterprises (tables 6 - 15)	1983		1984

INDEBTEDNESS

Outstanding indebtedness of cities is presented in Table 16, classified by type of bond. The six types are general obligation, G.O. tax increment financing and G.O. revenue bonds; special assessment, which are payable wholly or in part from special assessments; revenue bonds, which are payable from revenue of public service enterprises; revenue tax increment, which are payable solely from the revenue of the tax increment district; refunding bonds and all other, which consists primarily of bonds payable for cities of the first class. Other long-term debt consists primarily of long-term lease agreements, installment purchase contracts, and Housing & Redevelopment Authority notes.

During the year bonds totaling \$540.7 million were issued and \$469.5 million were retired, leaving \$2.52 billion outstanding at the end of 1984.

Figure 3 shows the amount of bonds outstanding at the end of each year since 1973.
