The annual report of the State Auditor on revenues, expenditures, and debt of the cities in Minnesota for the fiscal year ended December 31, 1986, includes taxable valuations, tax levies and the financial operations of municipalities. Populations were taken from "Minnesota Populations, 1986" from the Office of the State Demographer. The data have been collected, published and distributed pursuant to Minnesota Statutes, Sections 6.74 and 6.75.

In this report as in the 1981 through 1985 reports, all enterprise funds are reported separately from the governmental funds, in accordance with current accounting and reporting practices. Caution is necessary when comparing the 1981 through 1985 reports to those published in prior years, since separate reporting of enterprise and governmental funds was not uniform until 1981.

The Office of the State Auditor has generated this report using d.base III and IBM AT's. Anyone who wishes to analyze the data further should contact this office for assistance.

My staff and I want to express our appreciation to the clerks and municipal finance officers whose helpful cooperation contributed to the preparation of this report.

INTRODUCTION

SCOPE

This report covers the financial operations of the 855 cities in Minnesota for the calendar year 1986. The sources of the data are annual city financial reports of audits by public accountants and the State Auditor, county auditors' reports of indebtedness, and the Department of Revenue records of state shared tax distributions, grants, aids, taxable valuations and tax levies.

Cities with populations greater than 2,500 are required by Minnesota Statutes 471.695 - 471.699 to submit comprehensive annual financial reports prepared in accordance with Generally Accepted Accounting Principles (GAAP), which require the modified accrual basis of accounting for Governmental Funds, and the accrual basis for Enterprise Funds. The data in this publication for the cities over 2,500 in population were taken from city reporting forms introduced in 1984 and from the audited reports. Cities under 2,500 in population are not required to report on a GAAP basis. The data for most cities under 2,500 in population have been entered from reporting forms prepared on the cash basis of accounting submitted by city clerks. Statutory cities operating under Option Plan "A" with combined offices of Clerk-Treasurer are required to have an audit, pursuant to Minnesota Statutes Section 412.591, subdivision 2, although the audited financial statements may be on the cash basis.

Financial operations reported in Tables 1, 1A, 3, 3A, 4, 4A and 5 include the Governmental Funds for each city. The Governmental Funds are the General Fund, Special Revenue Funds, Capital Projects Funds, Debt Service Funds, and Special Assessment Funds; they are summarized in Table 1. Table 1A is a five-year comparison of Governmental Funds. Table 2 is a summary of Enterprise Fund operations.

This publication separates all reported Enterprise Funds from the city Governmental Funds, including enterprises such as airports, auditoriums, swimming pools, refuse collection and others. In reports prior to 1981, only major enterprises common to most cities such as water, liquor stores, hospitals and nursing homes were reported separately as Enterprise Funds. Sewage disposal and treatment was first shown as a separate enterprise in 1980.

This information has been verified with city

finance directors and city clerks, and any reported corrections were made to the data bases.

Some housing and redevelopment agencies are now reported in the city financial statements since NCGA Statement 3, which requires all funds of the cities to be included in the comprehensive annual financial report (CAFR). This report shows some increase in revenues and expenditures of the Governmental Funds, reflecting the addition of a number of HRA's.

The financial operations of the 2281 municipal public service enterprises are presented in Tables 6 through 15. The enterprises furnish many types of services, and operate wholly or in large part with revenue derived from the sale of goods or services. When possible, each enterprise is presented separately on an accrual basis of accounting. In some municipalities the operations of two or more enterprises are combined. For example, the functions of sanitary sewers, sewage disposal, and the operation of the water utility may be combined. This treatment is not in conformity with preferred governmental accounting and reporting practices, and the combined enterprises are disclosed with appropriate footnotes.

Thirteen cities failed to submit an annual reporting form or audited financial statement in time for this publication.

One of the cities failing to report, Princeton, was over 2,500 in population.

Revenues and expenditures for governmental functions are summarized by population classes based on 1986 population figures from the Office of the State Demographer. The population classes correspond to the legal definitions of the 1st, 2nd, 3rd and 4th class cities. The 4th class cities are further divided between those over and under 2,500 in population, for the purpose of comparison of financial data between classes as well as between cities of similar size.

GENERAL SUMMARY

TAXABLE VALUATIONS AND TAX LEVIES

The ad valorem taxes on real and personal property in each population class and for all cities are presented in the following table.

Taxable valuations are based on assessments made in 1985 on which taxes were levied that year for collection in 1986, together with comparable data for the preceding year.

Total taxable valuation in Minnesota increased \$389.95 per capita in 1986. This is 6.5% higher than the previous year. The changes in valuation in each population class varied from increases of \$201.81 or 3.8% in the cities of the fourth class to increases of \$1,341.30 or 35.9% in the cities of the under 2,500 class.

The amount of city taxes levied per capita in all cities increased \$12.23 or 8.3%. Last year tax levies increased \$5.89 per capita or 4.2%. The city taxes levied per capita in each class ranged from an increase of \$7.72 in the 20,000 to 100,000 class to an increase of \$26.12 in the cities of the under 2,500 class. Average mill rates for all cities increased .42 mills overall.

Taxable valuations for 1985 and 1986 do not include tax increment assessed valuation or fiscal disparities contribution valuation, but do include fiscal disparities distribution valuation.

Six cities levied no property tax in 1986. These cities were all in the under 2,500 class and all have a population of less than 185.

GOVERNMENTAL OPERATIONS

REVENUES

Revenue for the Governmental Funds of all cities in 1986 totaled \$1.87 billion, which was \$112.8 million or 6.4% higher than in 1985. The total revenue per capita was \$575.12 compared to \$544.72 in 1985. The amount per capita in each population class was as follows:

(2) intergovernmental revenues (36.7%) - federal, state, county, local grants and aids; and (3) special assessments (10.3%).

Revenues from property taxes totaled \$510 million. This is a \$49.1 million increase over the \$460.9 million collected in 1985.

Population Class	Per Capita
Over 100,000	885.19
20,000 to 100,000	508.88
10,000 to 20,000	520.61
2,500 to 10,000	471.63
Under 2,500	423.27

Intergovernmental revenue, the largest source, totaled \$686.2 million, which was 36.7% of the total revenue compared with \$669 million or 38.1% from that source in 1985. Intergovernmental revenue ranged from 26.5% of total revenue in the 20,000 to 100,000 population class to 48.9% in the cities of the under 2,500 class. Intergovernmental revenues by major class of city are summarized below.

The principal sources of revenue for the 855 cities consisted of: (1) property taxes (27.3%);

Special assessments totaled \$193 million and accounted for 10.3% of the total revenue compared with \$164.3 million or 9.4% in 1985. The percentage of total revenue from this source ranged from 2.6% in the over 100,000 population class to 16.4% in the 20,000 to 100,000 population class.

Interest earnings on investments, which were the fourth largest revenue source for cities in 1986, increased \$18.2 million from 1985. Interest earnings accounted for 8.5% of total revenue compared with 8% in 1985.

Miscellaneous revenues, which totaled \$103.7 million, were \$11.4 million or 9.9% less than in 1985. Miscellaneous revenues represented 5.8% of total revenue in the 20,000 to 100,000 population class, compared to an average of 5.4% in the other population classes.

Transfers from public service enterprises totaled \$45.3 million. These transfers, which are shown as "Other Financing Sources," are an important financing source for the under 2,500 population class where they account for \$7.8 million.

EXPENDITURES

Expenditures for governmental functions by all cities in 1986 totaled \$2.03 billion. This should not be directly compared to years before 1981 due to the accounting changes mentioned on page 3.

Principal payments in debt service funds have been included in expenditures starting in 1985 to more nearly conform to governmental accounting standards. Total expenditures (including principal) should not be compared to years prior to 1985, or distortions will result.

Public safety was the costliest governmental function in 1986, totaling \$399.7 million. This was an increase of \$27.7 million or 7.4% higher than 1985.

Expenditures for streets and highways totaled \$396.1 million. This was \$29.5 million or 8.1% higher than in 1985. Approximately \$226.7 million or 57.2% of street and highway expenditures was for new equipment or other construction.

In conformance with NCGA Statement No. 3, "Defining the Governmental Reporting Entity", all city functions over which city officials exercise oversight responsibility are included in their city's financial statements. As a result of applying the criteria of Statement No. 3, some cities have included HRA and economic development in their financial statements. HRA and economic development expenditures totaled \$222 million and were 4.6% higher than in 1985. Approximately \$134 million or 60.4% of the expenditures was for capital outlay.

Expenditures for general government were up \$15.4 million or 8.8% in 1986. Total general government expenditures were \$191.7 million and accounted for 9.9% of the total expenditures compared with \$176.3 million or 10.1% in 1985.

Miscellaneous expenditures totaling \$180.4 million increased 27.5% over the preceding year. Total miscellaneous expenditures accounted for 9.3% of the total expenditures compared with \$141.5 million or 8.1% in 1985.

Figures 1 and 2 depict the percentage of total revenues or expenditures that each governmental function provides. Figure 3 shows the change in the total amount of governmental revenues and expenditures in the last 10 years.

OPERATION OF PUBLIC SERVICE ENTERPRISES

Municipalities in Minnesota operate many types of public service enterprises. Nine are presented on separate tables and others are combined in one table as "Other Service Enterprises." In this report electric utilities that operate generation and distribution systems are combined with those operating distribution systems only.

When possible, the financial operations of these enterprises are presented on the accrual basis rather than cash basis. The basis of accounting is disclosed in footnotes in Tables 6 through 15.

The following two-year summary of operations by type of public service enterprise is presented for the purpose of comparison.

INDEBTEDNESS

Outstanding indebtedness of cities is presented in Table 16, classified by type of bond. The six types are general obligation, G.O. tax increment financing and G.O. revenue bonds, special assessment bonds, which are payable wholly or in part from special assessments; revenue bonds, which are payable from revenue of public service enterprises; revenue tax increment, which are payable solely from the revenue of the tax increment district; refunding bonds; and all other, which consists primarily of bonds payable for cities of the first class. Other long-term debt consists primarily of long-term lease agreements, installment purchase contracts, and Housing & Redevelopment Authority notes.

During the year bonds totaling \$914 million were issued and \$409.4 million were retired, leaving \$3.4 billion outstanding at the end of 1986.

Figure 4 shows the amount of bonds outstanding at the end of each year since 1977.
