STATE OF MINNESOTA
DEPARTMENT OF PUBLIC SAFETY
SAINT PAUL 55155-1889

October 1, 1991

The Honorable Arne Carlson
Governor of the State of Minnesota
And Members of the Legislature
State Capitol Building
Saint Paul, Minnesota 55155

Dear Governor Carlson:

Pursuant to Minnesota Statutes 299C.18 and 299C.52, the Minnesota Crime Information-1990 publication is submitted for your review. This report is based on information gathered through local law enforcement agencies and within the operational sections of the Bureau of Criminal Apprehension.

The local law enforcement information obtained provides a measurement of criminal activity for specific geographical jurisdictions, and is not to be considered a comparison of individual law enforcement agency activities. This edition, along with future publications, is meant to provide the public, public officials, and law enforcement administrators with changes in the volume and rate of reported crimes for each successive year. It is believed that this printed information will offer an assessment of criminal activity in Minnesota.

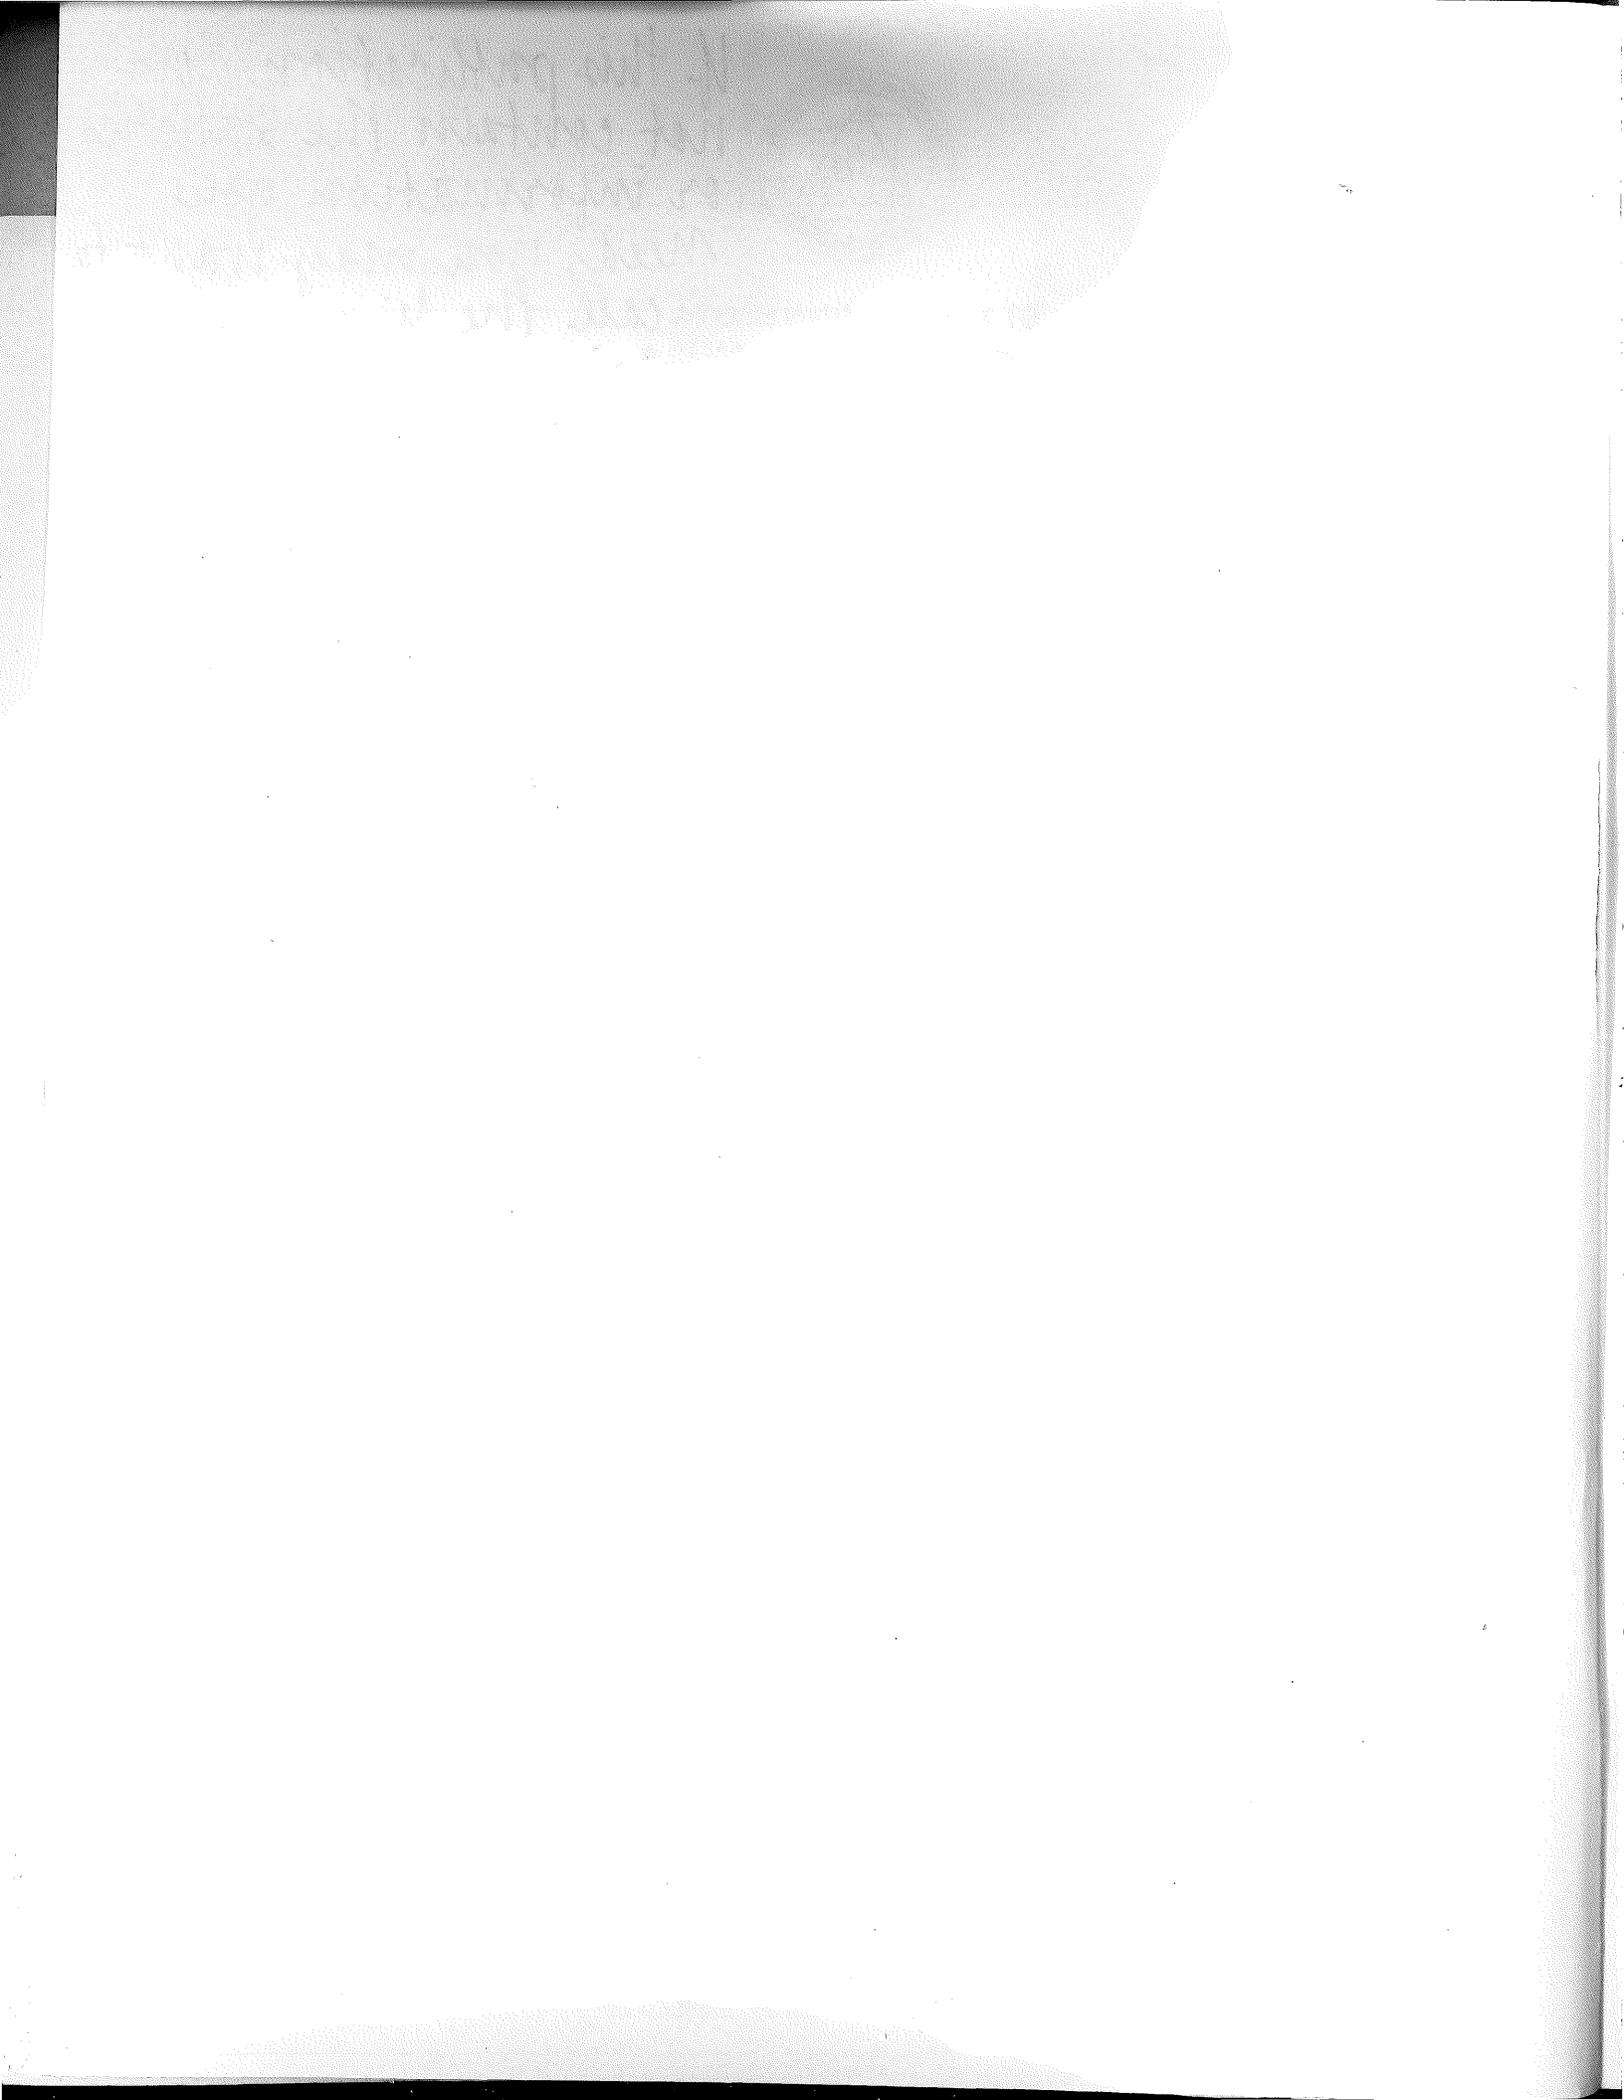

This publication is made possible through the diligent and dedicated efforts of Minnesota's law enforcement agencies responsible for providing the necessary information.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Ralph Church".

Ralph Church
Commissioner

PREFACE

In 1935, the Bureau of Criminal Apprehension was given the responsibility to collect activity information from the law enforcement agencies throughout the State of Minnesota. Biennially, reports were completed and forwarded to the concerned parties as required by State Statute. In 1972, the publications began to be printed annually.

Each year's report measures the amount of criminal activity within the State as collected and prepared from data submitted by individual law enforcement agencies. The criminal activity consists of measurements involving offenses, clearances, and arrests.

This report also satisfies additional statutory requirements placed on the Bureau. Among those requirements is a section that provides information on the operational sections of the Bureau of Criminal

Apprehension. In addition, other sections provide information which relate to law enforcement officers killed or assaulted; firearms discharges by police officers; missing children reports; police pursuits, and bias offenses. Limited information is also available on law enforcement personnel.

Comparisons with previous year's statistics will be presented only where there is a significant number of trend changes that might be of use to the evaluator. Individual comparisons on specific measurements will be left to the evaluator for use as required by the individual's need.

The Bureau of Criminal Apprehension wishes to express its thanks to the cooperating law enforcement agencies whose assistance provide the success of this publication.

LAW ENFORCEMENT AGENCIES CONTRIBUTING

To assure an accurate interpretation of the data presented in this report, the exact number of law enforcement agencies submitting information must be indicated. Specifically, reports are collected for urban places (cities and towns) and rural areas according to the definitions of Uniform Crime Reporting. The police departments report information for cities while the sheriff's departments collect information for the rural areas.

The Bureau requests that information from all reporting agencies be submitted regularly. Since 1936, the average percent of sheriff's and police departments forwarding information has been over 95 percent. The 98 percent contribution figure for 1990 is further evidence of the high degree of cooperation reflected by those agencies submitting information.

CRIME INFORMATION

BACKGROUND

The State of Minnesota, since 1936, has participated in the FBI's Uniform Crime Reporting Program. The statistics that have been generated each year are not only of vital concern to national figures, but are equally important to the State as a whole. In 1972, Minnesota began collecting crime related data as part of a computerized statewide Criminal Justice Reporting System program. The benefits derived from such an automated program are indicated in a modernistic approach to the collection of Uniform Crime Reports.

The responsibility and authority for collecting and disseminating the UCR information was mandated to the Bureau of Criminal Apprehension through applicable State Statutes. They are as follows:

MINNESOTA STATE STATUTES, CHAPTER 299C

299C.05 DIVISION OF CRIMINAL STATISTICS.

There is hereby established within the Bureau a division of criminal statistics, and the superintendent, within the limits of membership herein prescribed, shall appoint a qualified statistician and one assistant to be in charge thereof. It shall be the duty of this division to collect, and preserve as a record of the Bureau, information concerning the number and nature of offenses known to have been committed in the state, of the legal steps taken in connection therewith from the inception of the complaint to the final discharge of the defendant and such other information as may be useful in the study of crime and administration of justice. The information so collected and preserved shall include such data as may be requested by the United States Department of Justice, at Washington, under its national system of crime reporting.

299C.06 DIVISION POWERS AND DUTIES; LOCAL

OFFICERS TO COOPERATE. It shall be the duty of all sheriff's, chiefs of police, city marshals, constables, prison wardens, superintendents of insane hospitals, reformatories and correctional schools, probation and parole officers, school attendance officers, coroners, county attorneys, court clerks, the liquor control commissioner, the commissioner of highways, and the state fire marshal to furnish to the division statistics and information regarding the number of crimes reported and discovered, arrests made, complaints, informations and indictments filed and the disposition made of same, pleas, convictions, acquittals,

probations granted or denied, receipts, transfers, and discharges to and from prisons, reformatories, correctional schools and other institutions, paroles granted and revoked, commutation of sentences and pardons granted and rescinded, and all other data useful in determining the cause and amount of crime in this state and to form a basis for the study of crime, police methods, court procedure, and penal problems. Such statistics and information shall be furnished upon the request of the division and upon such forms as may be prescribed and furnished by it. The division shall have the power to inspect and prescribe the form and substance of the records kept by those officials from which the information is so furnished.

299C.12 RECORDS KEPT BY PEACE OFFICERS;

REPORTS. Every peace officer shall keep or cause to be kept a permanent written record, in such form as the superintendent may prescribe, of all felonies reported to or discovered by him within his jurisdiction and of all warrants of arrest for felonies and search warrants issued to him in relation to the commission of felonies, and shall make or cause to be made to the sheriff of the county and the bureau, reports of all such crimes, upon such forms as the superintendent may prescribe, including a statement of the facts and a description of the offender, so far as known, the offender's method of operation, the action taken by the officer, and such other information as the superintendent may require.

GOALS AND OBJECTIVES

The primary goal of the UCR program in Minnesota is to provide statistical information on the volume and affect of crime. To better assist concerned individuals and agencies to solve the state crime problem, a more encompassing approach involving all aspects of criminal activity was needed. With this in mind, and examining the recommendations of the President's Commission on Law Enforcement and the Administration of Justice, the UCR program became one aspect of the computerized State Criminal Justice Reporting System.

The major objectives of Minnesota's UCR Program include:

1. Statistics on crime in Minnesota to be used by the Governor, Legislature, Crime Control Planning Board, and other concerned individuals within the State.

2. Statistics on crime for administrative and operational use by law enforcement administrators.
3. Statistics on specific criminal offenses to be used in the FBI's national crime reports.
4. Statistics involving the age, sex and race of offenders to determine the proper focus for crime prevention and enforcement.
5. Statistics on crime for researchers to assist in the formation of the causes of crime within a biological, sociological and/or psychological framework.
6. Statistics on crime to measure the workload and effectiveness of the 'current' state criminal justice system.
7. Statistics on crime for personnel employed by the criminal justice system to help assist them in improving the efficiency and performance of criminal justice agencies.

REPORTING PROCEDURES

Through Minnesota's crime reporting statutes, participating Minnesota Law Enforcement Agencies are required to submit information as determined by the Bureau of Criminal Apprehension. The required information is tallied from the individual agency's internal record of complaints, investigations, miscellaneous reports and arrests. To help achieve a uniformity of reporting throughout the State, a copy of the *Minnesota Law Enforcement Records Manual*, along with the FBI's *Uniform Crime Reporting Handbook* is offered to each agency. In conjunction with the manuals, numerous training sessions in record and report writing and filing are offered to each agency by field representatives of the Bureau's Criminal Justice Information Systems Section. Individual contact with agencies experiencing difficulty in any phase of the Criminal Justice Reporting System is also offered by the field representatives. Verification for authenticity of reports that are submitted are handled by the clerical staff at the Bureau or by a special "edit" program written into the computerized Criminal Justice Reporting System. Inconsistencies of report information and minor errors are corrected by telephone or terminal contact. Major errors in UCR reporting methods are handled exclusively by field representatives.

The Bureau, along with the FBI, has established their specific program to measure criminal data activity for both state and federal purposes. The result is a

tabulation of the number and type of offenses committed, cases cleared or solved, and the persons arrested. A criminal act may involve several crimes, several persons, and several victims; but all that is necessary for such an act to be reported and recorded by the state and federal programs is one violation. If a given criminal act involves more than one offense, only the more serious offense is counted. "Clearance by arrest" indicates that at least one person was arrested. It does not preclude the fact others may have also been involved in the offense. Any additional arrests are purely supplemental and are used for each department's record purposes only and not reported under the program.

Another part of criminal data collection involves juvenile offenses and arrests. When reviewing such data it should be remembered that many times juvenile offenses are handled informally within the different agencies and therefore go unreported. In cases where an offense involves both adults and juveniles, and subsequent arrests are made of both, the crime reporting program will indicate this offense to be cleared by the arrest of the adult. Juvenile arrests are used for clearance purposes only in those instances where juveniles alone are involved.

Clearing an offense by the arrest of a person(s) is but one means of indicating such activity. Another involves the clearing of a reported offense by use of the term "exceptionally cleared". An exceptional clearance exists when some element beyond law enforcement action prevents formal charges against the offender. Such a situation might arise if:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by a law enforcement officer.
5. The offender confesses to committing the crime while already in custody for another crime or serving a sentence.
6. The offender is prosecuted in another city for a different crime by federal, state, or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.

7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses.

The count of offenses is taken from the record of complaints received by law enforcement agencies from victims, witnesses, other sources or discovered by them during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the court. The resulting number of "offenses actually known to law enforcement agencies" for each crime offense category is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Reported offenses are recorded by the municipality and county in which they occur, rather than to the agency which may investigate, arrest, or otherwise in some manner dispose of the case. Municipal law enforcement agencies report those crimes which occur in the counties outside the city. Law enforcement agencies also report on a periodic basis, supplemental offense information such as the value of property stolen and recovered as well as circumstances surrounding homicides. Additional reports of persons arrested are submitted. These reports provide information concerning the age, sex and race of persons arrested by each individual law enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily and semi-daily basis under the Minnesota Criminal Justice Reporting System program. Once received, it is processed and disseminated for use in state and national reports as well as by the participating agencies themselves (see CJRS-UCR flow chart).

"Crime rate" is a term often used in evaluating criminal statistics. The crime rate represents or equates the number of index crimes per 100,000 in population. Basically, it refers to the comparison of the number of offenses with the number of potential offenses and the number of persons exposed to the risk of the offense. It does not include other variables

which might affect the amount of crime within a given area.

CRIME FACTORS

When the current method of crime reporting is considered, several limitations in its accuracy may be immediately recognizable. Law enforcement agencies are not totally to blame because of their capability to only report that which is known to them. In many instances, the very citizens who are themselves "victims" of a crime fail to inform the law enforcement agency of their occurrence. There is a general tendency among the public to not report minor crimes that are, in their eyes, of little consequence. The public may also feel that the law enforcement agency is of little help to them. They may also feel the threat of blackmail or retaliation for participating in a sex, gambling, or narcotic offense. The public may also feel the threat of embarrassment for being involved in a crime regarded against the norms of society. Given these factors, much crime is never included in the total state evaluation of the crime problem.

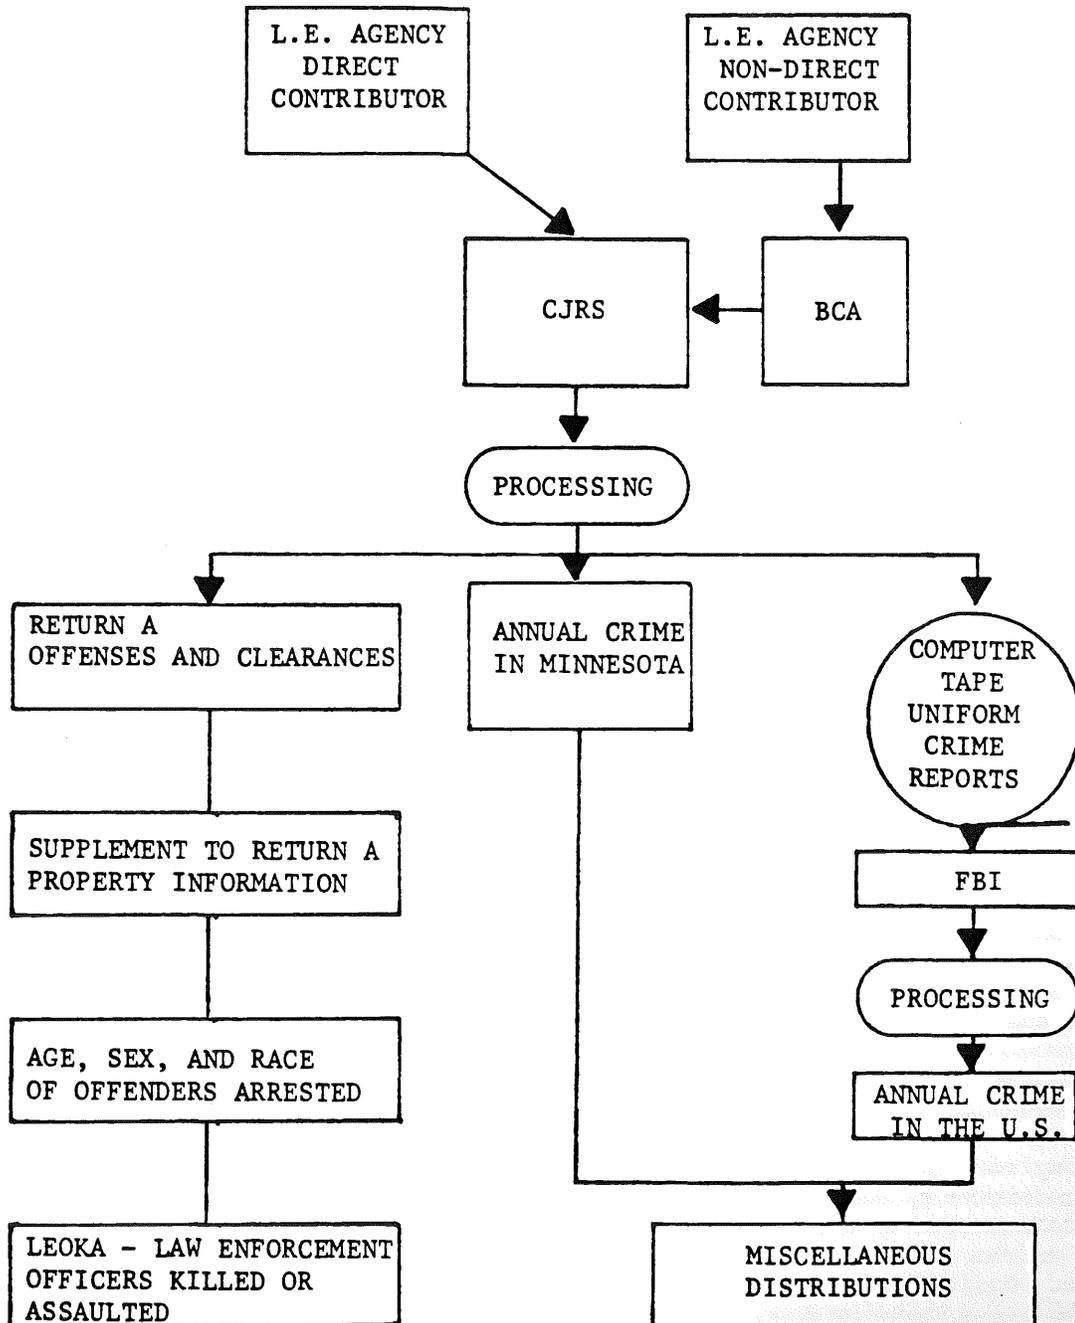

Another element of concern is the actual number of law enforcement agencies reporting crime information. Lack of crime information by delinquent agencies can potentially reduce the accuracy of the crime picture as developed from reported information.

The term "selective reporting" also has a bearing on the crime reported by participating agencies. Selective reporting reflects only the crimes for which an agency considers important or necessary to be reported through the system. The information that is utilized from such reporting is slanted and misleading. It does not give an accurate account of the crime problem and it further discredits the time spent in reporting the "selected" activity. Such reporting is immediately recognizable from the output reports and its improper use affects all the information submitted by the contributing law enforcement agencies.

Extraneous conditions beyond the realm of law enforcement also affect the measurement and analysis of crime. These conditions, or CRIME FACTORS, include but are not necessarily limited to:

- A. Legislative changes as to what constitutes a criminal offense.

FLOW CHART OF THE CJRS/UCR IN MINNESOTA

- B. Density and size of the community population and the metropolitan area of which it is part.
- C. Composition of the population with reference particularly to age, sex, and race.
- D. Economic status and mores of the population.
- E. Relative stability of population including commuters, seasonal and other transient types.
- F. Climate, including seasonal weather conditions.
- G. Educational, recreational, and religious characteristics.
- H. Effective strength of the police force.
- I. Standards governing appointments to the police force.
- J. Policies of each of the law enforcement agencies.
- K. Policies of the prosecuting officials and the courts.
- L. Attitude of the public toward law enforcement problems.
- M. The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Information provided in the *Minnesota Crime Information 1990*, is as accurate as currently available in the State. Crime and arrest statistics should be interpreted with caution when comparing different law enforcement jurisdictions. **Reported crimes relate to events, while arrests relate to persons.** For any one criminal act there may be multiple crimes, multiple offenders, and multiple victims.

Given the above considerations the total crime picture is indeed influenced by many variables. Opponents of the Uniform Crime Reporting System are often vocal in pointing out the inadequacy of this system. Proponents respond by indicating that at the present time there is no other suitable method of collecting criminal statistics. If a better system is developed, tested, and offered as a replacement, law enforcement will not hesitate to implement it.

A DESCRIPTION OF UNIFORM CRIME REPORTING OFFENSES AND THEIR CLASSIFICATION

The Bureau of Criminal Apprehension, using the reporting techniques recommended by the FBI, records criminal data submitted by the many law enforcement agencies in the State. The criminal data collected contains information regarding Part I Offenses called to the attention of Minnesota Law Enforcement agencies.

Part I Offenses reflect information on eight "serious" crime classifications, and it is generally referred to as the "Crime Index" measurement. Part II Offenses are represented by twenty "less serious" crime classifications.

The eight crimes represented in the Part I Offenses include murder, rape, aggravated assault, robbery, burglary, larceny, motor vehicle theft, and arson. These crimes were chosen because of their uniformity of definition, total volumes, and likelihood of being reported. The crimes of murder, rape, aggravated assault, and robbery are also known as "violent crimes." The crimes of burglary, larceny, motor vehicle theft and arson are labeled as "property crimes." The law enforcement agency may become aware of these crimes in several ways; reports of its own officers, citizens complaints, notification from the prosecuting attorney and from information supplied by court officials.

PART I OFFENSES (Serious Crime)

Criminal Homicide - The killing of another person.

- (a) **Murder** - Any unlawful killing of a human being in which the element of malice aforethought was present in the murder.

Manslaughter - Any unlawful killing of a human being without the element of malice aforethought is counted as manslaughter.

- (b) **Death by Negligence** - Any death that occurs because of the negligence of some person other than the victim and that is not in the commission of an unlawful act. These are deaths which police investigation established as primarily caused by gross negligence.

Forcible Rape (does not include Statutory Rape).

- (a) Rape by Force - The carnal knowledge of a female forcibly and against her will, but excluding statutory rape and other sex offenses.
- (b) Assault to Rape-Attempts - All assaults and attempts to rape.

Robbery - A robbery is defined as the felonious and forcible taking of property of another against his will by violence or by putting him in fear. This includes all attempts.

- (a) Armed Robbery-Any Weapon - When any object is so employed as to constitute force or the threat of force, it will be considered a weapon. This would include firearms, knives, clubs, brass knuckles, blackjacks, broken bottles, acid, explosives, etc. Cases involving possible pretended weapons or cases involving weapons not seen by the victim but which the robber claims to have with him should be counted in this category.
- (b) Strong Arm-No Weapons - This includes muggings and similar offenses where no weapon is used by strong-arm tactics are employed to deprive the victim of his property. This definition is limited to hands, arms, fists, feet, etc. Include all attempts.

Aggravated Assault - An Aggravated Assault is an attempt or offer with unlawful force or violence to do physical injury to another. As a general rule all assaults will be classified and scored in this category. Exclude assaults with intent to rob or rape. Excludes simple assault, assault and battery, fighting, etc. These will be scored in the appropriate category.

- (a) Gun - Includes all assaults or attempted assaults involving the use of any type of firearm. This includes revolvers, automatic pistols, shotguns, zip guns, pellet guns, etc.
- (b) Knife or Cutting Instrument - Includes all assaults or attempted assaults involving the use of cutting or stabbing objects such as knives or razors, hatchets, axes, cleavers, scissors, glass, broken bottles, daggers, ice picks, etc.

- (c) Other Dangerous Weapons - Includes all assaults or attempted assaults when an object other than a gun, knife or cutting instrument is used. This includes clubs, bricks, jack handles, bottles, explosives, acid, lye, poisons, scalding water, and cases of attempted drownings and burnings, etc.
- (d) Hands, Fists, Feet, etc.-Aggravated - Includes all assaults with hands, fists, feet, etc., which could result in an aggravated assault conviction. In order to be classified as aggravated, the victim must suffer great bodily harm.

Burglary - Breaking and Entering - Includes any unlawful entry or attempted forcible entry of any structure to commit a felony or larceny. As a general rule, score as one offense, any unlawful entry or attempted forcible entry of any dwelling, attached structure, public building, shop, factory, storehouse, apartment, house, trailer, warehouse, mill, farm, ship, railroad car, etc. For UCR purposes, breaking and entering with larceny is classified and scored only as breaking and entering. This does not include breaking and entering of motor vehicles. These are scored in the larceny category.

- (a) Forcible Entry - Includes all offenses where force of any kind is used to unlawfully enter a locked structure such as any of those listed above with intent to steal or commit a felony. This includes entry by use of a master key, celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building followed by breaking out of the structure should also be scored here.
- (b) Unlawful Entry-No Force - Includes any unlawful entry when you fail to discover any evidence of forcible entry.
- (c) Attempted Forcible Entry - Included in this category only when your investigation determines that a forcible entry has been attempted.

Larceny-Theft (does not include Motor Vehicle Theft) - This category includes the unlawful taking of the property of another with intent to deprive him of ownership. This involves all larcenies and thefts resulting from pocket

picking, purse snatching, shoplifting, larceny from auto, larceny of auto parts and accessories, bicycle theft, larceny from buildings, and larceny from any coin operated machines. Any theft that is not a robbery or any theft that does not result from a breaking and entering shall be scored here. Excludes embezzlements, unlawful conversions, larceny by bailee, frauds or bad checks. Enter all attempted larcenies. Note: when the true or known value of stolen property is not available, estimates based on accepted police methods of property evaluation should be used for the purposes of Uniform Crime Reporting.

Motor Vehicle Theft - This category includes larceny or attempted larceny of motor vehicles. Includes all thefts and attempted thefts of motor vehicles. This includes all vehicles which can be registered as a motor vehicle in this state. Excludes incidents in which the alleged offender had lawful access to the vehicle as in a family situation or the unauthorized use by others having lawful access to the vehicle such as chauffeur, employee, etc.

Arson - Includes all arrests for violation of state law and municipal ordinances relating to arson and attempted arson. This generally includes any willful or malicious burning of a dwelling, church, college, jail, meeting house, public building, ship or other vessel, motor vehicle, aircraft, contents of building, personal property of another, goods or chattels, crops, trees, fences, gates, grain, vegetable products, lumber, woods, marshes, meadows, etc. A death resulting from arson will be classified as murder and personal injuries resulting would be classified as assaults.

PART II OFFENSES (Less Serious Crime)

Other Assaults - This classification consists of all assaults and attempted assaults which are simple or minor in nature.

Forgery and Counterfeiting - In this case, place all offenses dealing with the making, altering, uttering or possession with intent to defraud, anything false in a semblance of that which is true. Include altering or forging of public or other records, making, altering, forging or counterfeiting coins, plates, banknotes, checks, etc. Possessing or uttering forged or counterfeited instruments, signing the name of another or a fictitious person with intent to defraud and all attempts to commit any of the above acts.

Fraud - This is defined as fraudulent conversion and obtaining money by false pretense. Include bad checks, confidence games, etc., except forgeries and counterfeiting.

Embezzlement - This is the misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

Stolen Property-Buying, Receiving, Possessing - This includes all offenses of buying, receiving, possessing, or concealing stolen property as well as all attempts to commit any of these offenses.

Vandalism-Destruction of Property - This includes all willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth or any other such means as may be specified by law.

Weapons - This classification includes violation of weapon laws such as the manufacture, sale, or possession of deadly weapons or silencers, carrying deadly weapons, aliens possessing deadly weapons, and all attempts to commit any of the above offenses.

Prostitution and Commercialized Vice - Include in this class the sex offenses of a commercialized nature such as prostitution, keeping a bawdy house, disorderly house, or house of ill repute, pandering, procuring, transporting or detaining women for immoral purposes, etc., and all attempts to commit any of the above.

Sex Offenses - This includes all sex offenses other than forcible rape, prostitution, and commercialized vice. This encompasses offenses against chastity, common decency, morals, and the like such as adultery and fornication, buggery, incest, indecent exposure, sodomy, carnal abuse (no force), and all attempts to commit any of the above.

Narcotic Drug Laws - This includes all arrests for the violation of state and local ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

Gambling - Includes all charges relating to promoting, permitting, or engaging in gambling.

Offenses Against Family and Children - Includes all charges of non-support, neglect, or abuse of family and children by such acts as desertion, abandonment, or non-support, neglect or abuse of a child, or nonpayment of alimony.

Driving Under the Influence - This classification is limited to driving or operating any vehicle while under the influence of liquor or narcotic drugs.

Liquor Laws - With the exception of drunkenness and driving under the influence, all state or local liquor law violations are placed in this class. Excludes federal violations, includes manufacturing, selling, transporting and furnishing as in maintaining unlawful drinking places. Bootlegging, operating a still, furnishing liquor to a minor and the using of a vehicle for illegal transportation of liquor are included.

Drunkenness - No longer reported under the UCR program in Minnesota. This offense was repealed in Minnesota on July 1, 1971 (MSS 340.96; C 90, S2).

Disorderly Conduct-Disturbing the Peace-This includes all disorderly persons arrested who cannot be classified under Offenses of Criminal Homicide, Forcible Rape, Drunkenness, or Vagrancy.

Vagrancy - This classification indicates arrests for failure of an individual to give a good account of himself, begging, loitering, etc.

All Other Offenses - Include in this class every other state or local offense not included, except traffic. This encompasses abduction and compelling to marry, abortion (death resulting from criminal abortion, according to statutes, is a criminal homicide), bastardy and concealing death of a bastard, bigamy and polygamy, blackmail and extortion, bribery, contempt of court, discrimination and unfair competition, kidnapping, offenses contributing to juvenile delinquency, perjury, possession, repair, manufacturing, etc., of burglary tools, possession or sale of obscene literature and unlawful use, possession, etc., of explosives, etc.

Suspicion - This category is used for unknown incidents when the actual offense has not been determined.

Curfew and Loitering Law Violation (Juvenile) - This area shows offenses relating to local curfew or loitering ordinances, where such laws exist. It is limited to juveniles taken into protective custody who have run away from the reporting jurisdiction.

Runaways (Juveniles) - This classification is limited to juveniles taken into protective custody under provisions of State Statutes.

MINNESOTA OFFENSE INFORMATION

MINNESOTA CRIME INDEX INFORMATION

STATEWIDE OVERVIEW

Crime Index (Serious Crimes)

The eight major criminal offenses are referred to as the crime index and they are used to evaluate the changes and trends in amounts of crime over designated periods of time. Beginning in 1973, the Minnesota State Patrol began submitting criminal offense and arrest information in accordance with the Statewide Uniform Crime Reporting Program. Statewide totals in the *Minnesota Crime Information* publication of 1973 did not include the State Patrol figures, except as a separate section of the book. The statewide figures for 1974 to the present do include the State Patrol data.

- The crime index in Minnesota totaled 199,345 actual offenses during 1990, which was an increase of 3.8 percent from the 191,989 actual offenses occurring in 1989.
- The crime rate represented 4,579 per 100,000 in population for 1990, while in 1989 the crime rate was registered at 4,458.6 per 100,000 population, a 2.7 percent increase.
- Of the total crime index offenses reported in 1990, 20 percent were cleared by arrest or exceptionally cleared. In 1989, 22 percent of the total offenses were cleared by arrest or exceptionally cleared.
- Larceny was the largest category of serious crime reported for Minnesota in 1990 with a total of 130,618 offenses reported. Larceny was also the largest category of serious crime reported for the state in 1989 with 122,640 total offenses reported.

Violent Crimes

Violent crime in Minnesota accounted for 6 percent of all crime index offenses reported in 1990. There were 12,717 murders, forcible rapes, robberies, and aggravated assaults for that year. Compared with the 12,540 total violent crimes reported for 1989, the 1990 figure represents a 1.4 percent increase in violent crime for the state. There was a 10 percent increase in the number of violent crimes for the nation in 1990 based on preliminary figures released by the FBI in April, 1991. The number of violent crimes for the state per 100,000 population for 1990

was 292, while in 1989 there were 291 per 100,000 population.*

- **Murder** - Offenses involving murder totaled 123 in 1990 in Minnesota compared to 108 in 1989, an increase of 13.8 percent.
- **Rape** - Minnesota registered 1,640 rapes in 1990 and 1,357 in 1989; an increase of 20.8 percent.
- **Robbery** - There were 4,091 robberies in Minnesota in 1990 compared to 4,129 offenses in 1989; a decrease of 1 percent.
- **Aggravated Assault** - Offenses involving aggravated assault numbered 6,863 in 1990 compared to 6,946 aggravated assaults in 1989; a decrease of 1 percent.

Property Crimes

Property crime in Minnesota in 1990 amounted to 94 percent of the crime index offenses for that year. There were a total of 186,628 burglaries, larcenies, motor vehicle thefts, and arsons actually reported in 1990. Compared with the 179,449 offenses reported in 1989, the 1990 figure represents a 4 percent increase in property crime for the state. This compares to a 1 percent increase in property crime for the nation in 1990 based on preliminary figures released by the FBI in April, 1991.

- **Burglary** - There were 39,272 burglaries in Minnesota in 1990 compared to 39,021 offenses in 1989; an increase of 1 percent.
- **Theft/Larceny** - Offenses involving larcenies in Minnesota in 1990 totaled 130,618 compared to 122,640 offenses in 1989; an increase of 6.5 percent.
- **Motor Vehicle Theft** - In 1990 there were 15,489 offenses of motor vehicle theft in Minnesota, compared to the 16,536 offenses reported in 1989; a decrease of 6.3 percent.
- **Arson** - In 1990 there were 1,249 offenses of arson in Minnesota, compared to the 1,252 offenses reported in 1989; a decrease of .2 percent.

* Minnesota crime rates per 100,000 inhabitants are based on a 4,353,000 state population of those agencies who contributed reports in 1990.

Total Arrests**

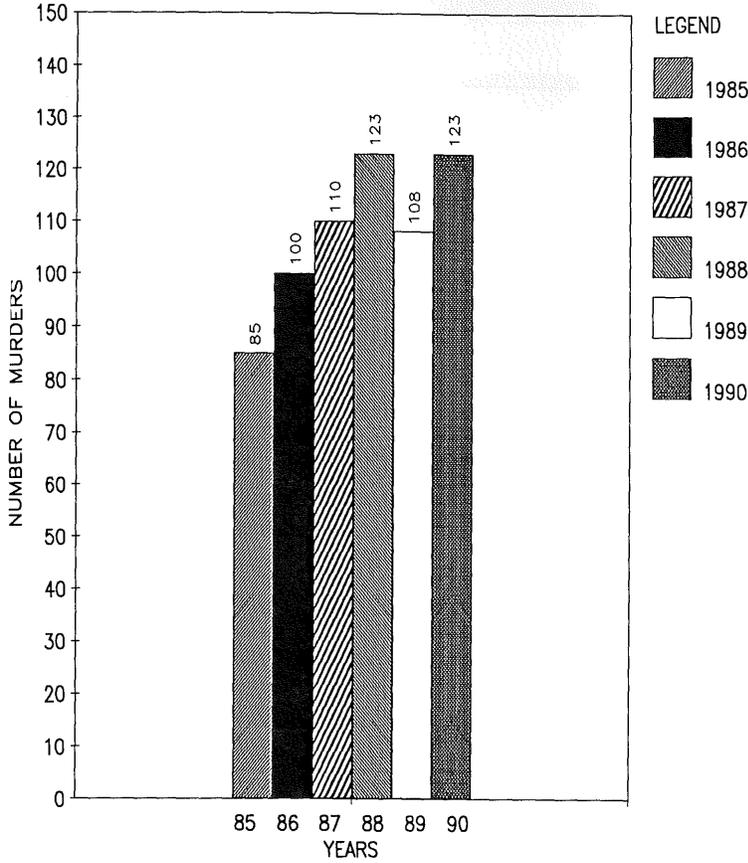

Law Enforcement agencies within Minnesota's 4,353,000 reporting population area accounted for 181,887 total arrests in 1990. Compared with the 181,476 arrests in 1989, the 1990 figure represents a .2 percent increase in arrests for the state.

- **ADULT ARRESTS** - Arrests for adults in 1990 totaled 137,167, compared to 137,622 arrests in 1989; a decrease of .3 percent.
- **JUVENILE ARRESTS** - The total number of juveniles arrested in 1990 for criminal offenses totaled 44,720, compared to 43,854 juveniles arrested in 1989; an increase of 2.0 percent.

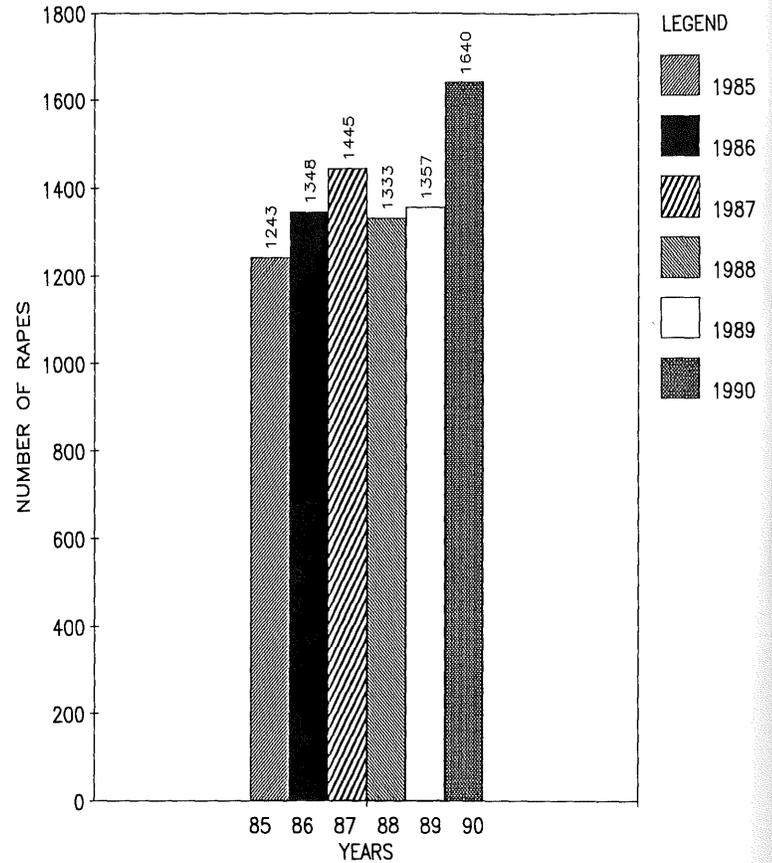

** Total arrests represent all arrests for adults and juveniles in either a Part I (serious) or Part II (less serious) criminal offense. An arrest in the Uniform Crime Reporting sense refers to a form of detention by depriving an individual of his personal liberties by a form of legal authority.

CRIMINAL HOMICIDE - MURDER

Criminal homicide involves those offenses of murder and non-negligent homicide that are classified as willful felonious deaths as distinguished from deaths caused by negligence. Attempts to kill are scored as aggravated assaults and not as murder. Justifiable or excusable homicides, suicides and accidental deaths are excluded from this category.

SUMMARY ANALYSIS

- In 1990 there were 123 homicides reported for the state, with 96 of these offenses cleared by arrest. This represents a 78 percent clearance rate for that year. Of the 96 offenses that were cleared, 10 were cleared by the arrest of a juvenile.*
- The crime rate for homicide in 1990 was 2.8 per 100,000 population. Eight offenses were unfounded.
- Homicide offenses represented 1 percent of the total violent crimes, with one averaged every 3 days.

HOMICIDE SCENARIO

A white male, between the ages of 25-29, is shot with a handgun. The offender, a white male between the ages of 20-24, is likely to be arrested.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

SUPPLEMENTARY HOMICIDE INFORMATION

Supplementary Homicide Reports are manually submitted to the BCA by law enforcement agencies reporting homicides during the year. These reports provided additional information on the homicide offenses. The following information was compiled from reports on 123 homicides during 1990.

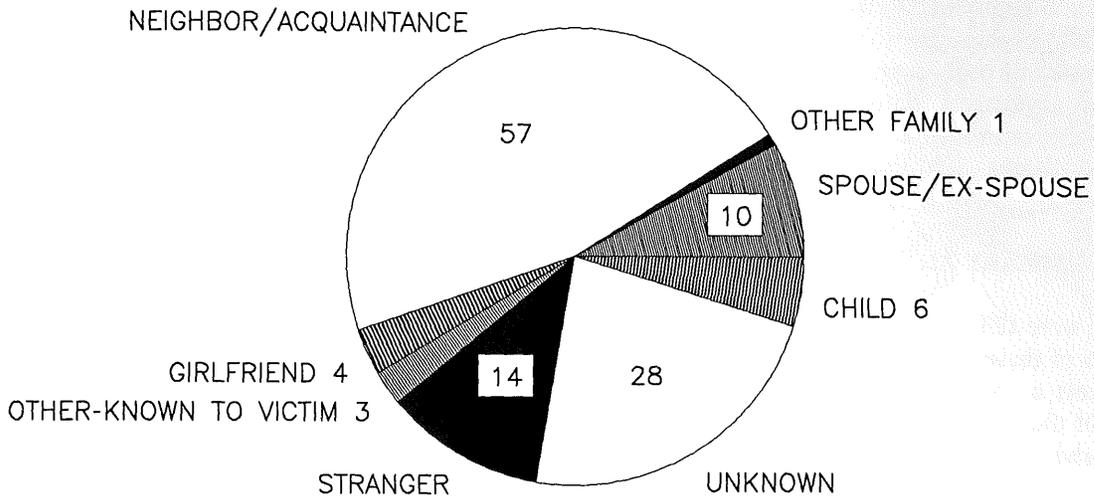

Relationship of the Victim to the Offender

- 15 homicide victims were killed by a member of their nuclear family (12 percent).
- 81 homicide victims (65 percent) were either family members or friends/acquaintances.
- 14 homicide victims were strangers to their assailants.

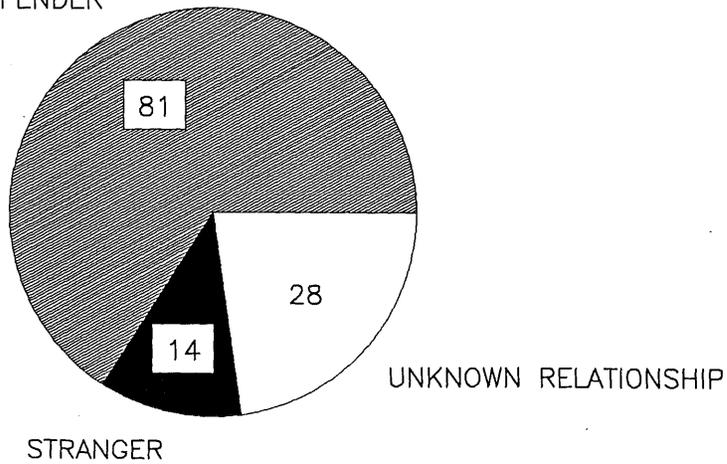

Weapon Used to Commit the Homicide

- Fifty-four homicides were committed with some type of firearm (33 percent).
- In 7 of the 54 homicides involving a firearm, the victim was a family member (13 percent).
- In 8 of the homicides involving a firearm, the victims were killed by strangers (15 percent).

**FIGURE 4
NUMBER OF HOMICIDES AND
HOW THEY WERE COMMITTED DURING 1990**

Total Homicides = 123

Age, Sex and Race of Victims

- The highest number of victims for a single age group was 25-29 with 19 victims (15 percent).

- 87 homicide victims were male (71 percent) compared to 64 (59 percent) in 1989.

- 58 homicide victims were white (47 percent) compared to 76 (70 percent) in 1989.

FORCIBLE RAPES - INCLUDING ATTEMPTS

Forcible rape is the carnal knowledge of a female using force and committed against her will. Uniform Crime Reporting needs require rape to be divided into two categories: (1) Rape by force, and (2) Attempted rape. Statutory rape and other sex offenses are excluded from this category.

SUMMARY ANALYSIS

- For the 1,780 rapes reported in 1990, 140 were listed as unfounded.
- Of the 1,640 reported actual rapes that occurred in Minnesota in 1990, 1,453 were by force while 187 were recorded as attempted rapes.

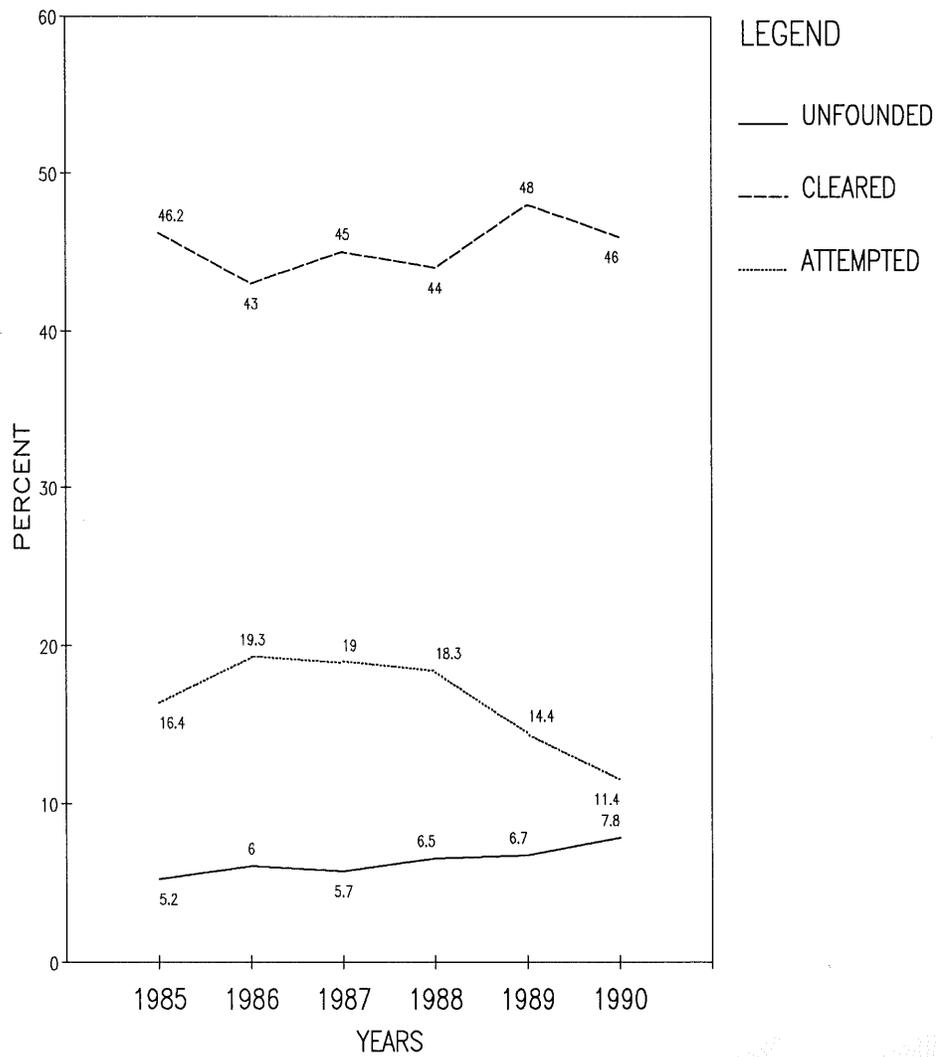

- Of the total rapes occurring in 1990, 760 or 46 percent were cleared by arrest. Of this total, 59 were cleared with the arrest of a juvenile.*
- The crime rate for rape in 1990 represented 38 per 100,000 population.
- The total number of rapes in 1990 represented 13 percent of the total violent crimes with 4 averaged per day.

RAPE SCENARIO

A woman living in an urban area is forcibly raped, the offender has a less than 50 percent chance of being arrested. The offender, if arrested, is a 19 year old, white male.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

FIGURE 5
COMPARISON OF RAPES UNFOUNDED, CLEARED AND ATTEMPTED
FOR PERIOD 1985-1990

ROBBERY

Robbery involves the felonious and forcible taking of the property of another against his will, by violence or by placing the person in state of fear. The crime of robbery necessitates that a victim be present in order for it to be so classified. As a general rule, robbery differs from larceny in that it is aggravated by the threat and element of force. An attempt to commit a robbery, either armed or strong arm is counted as if the actual offense did occur.

SUMMARY ANALYSIS

- Of the 4,154 total robberies reported in 1990, 63 offenses were unfounded.
- Of the 4,091 actual robbery offenses that occurred in Minnesota in 1990, 797 or 19

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

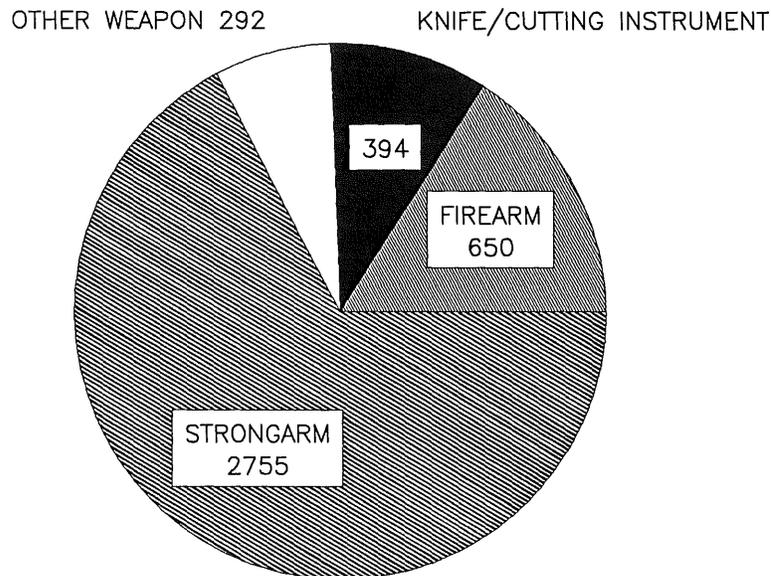

percent were cleared by arrest. Of the 797 offenses that were cleared, 172 were cleared by the arrest of a juvenile.*

- The crime rate for robberies in 1990 amounted to 94 per 100,000 population.
- In 1990, robbery offenses represented 32 percent of the total violent crimes with 11 offenses averaged each day.

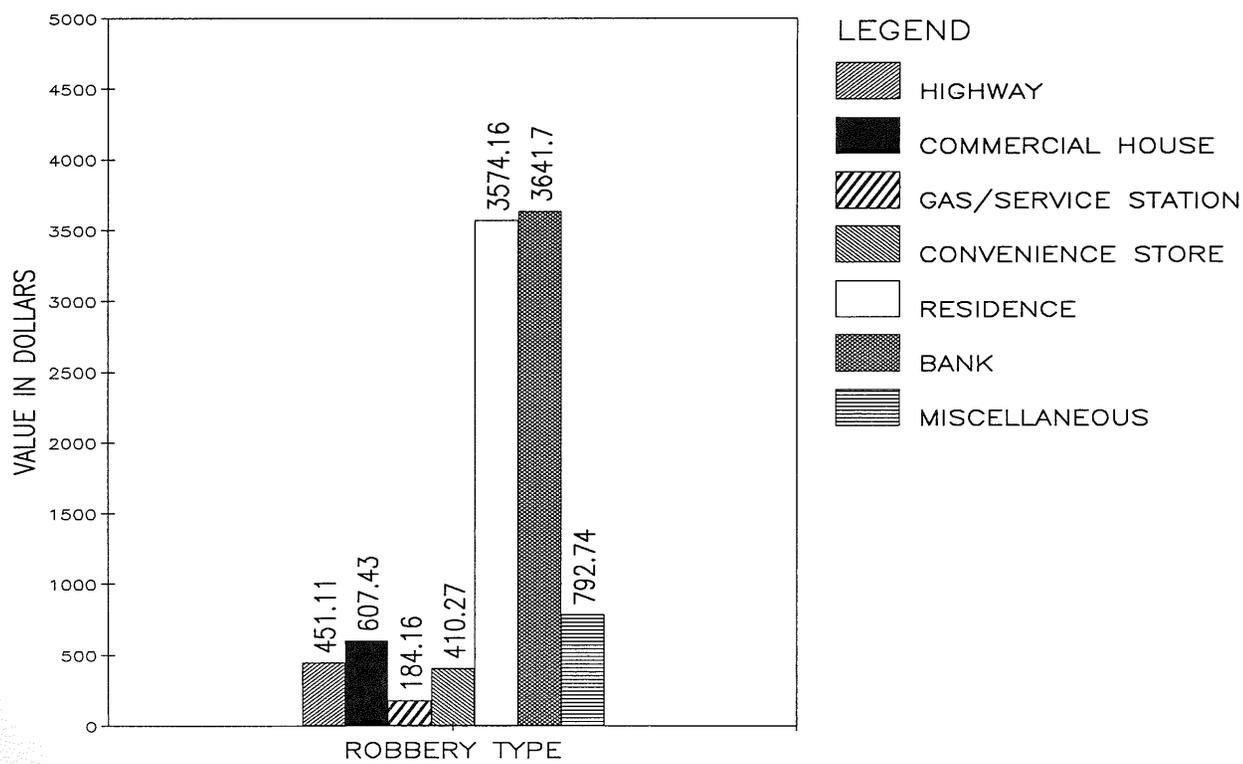

ROBBERY SCENARIO

On an urban street, a victim is deprived of property by strongarm tactics. The chances are one in five that the offender will be arrested. If the offender is arrested it will be a black male between the ages of 25-59.

FIGURE 6

AGGRAVATED ASSAULT

The definition of assault involves an attempt or offer with unlawful force or violence to do physical injury to another. An aggravated assault may be committed with a gun, knife or cutting instrument, other dangerous weapons such as clubs, or through the use hands, fists or feet. Assault with intent to commit murder is also listed as aggravated assault.

All assaults where no weapon is used, which result in minor injuries are classified as non-aggravated assaults or simple assaults and are not counted in the crime index total.

SUMMARY ANALYSIS

- Of the 7,051 total aggravated assault offenses reported in 1990, 188 were reported as unfounded.

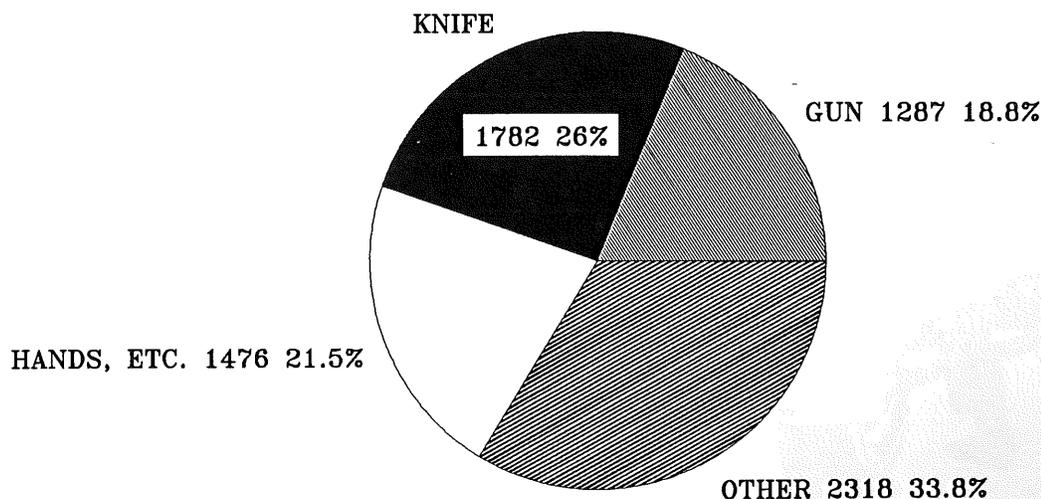

- For the total 6,863 actual aggravated assaults occurring in Minnesota in 1990, 4,393 or 64 percent were cleared by arrest. Of the 4,393 assaults cleared by arrest, 616 were cleared with the arrest of a juvenile.*
- The crime rate for assaults in 1990 was 158 per 100,000 population, compared to 161 in 1989.
- In 1990, aggravated assault offenses accounted for 54 percent of the total violent crimes with 18 averaged per day.

AGGRAVATED ASSAULT SCENARIO

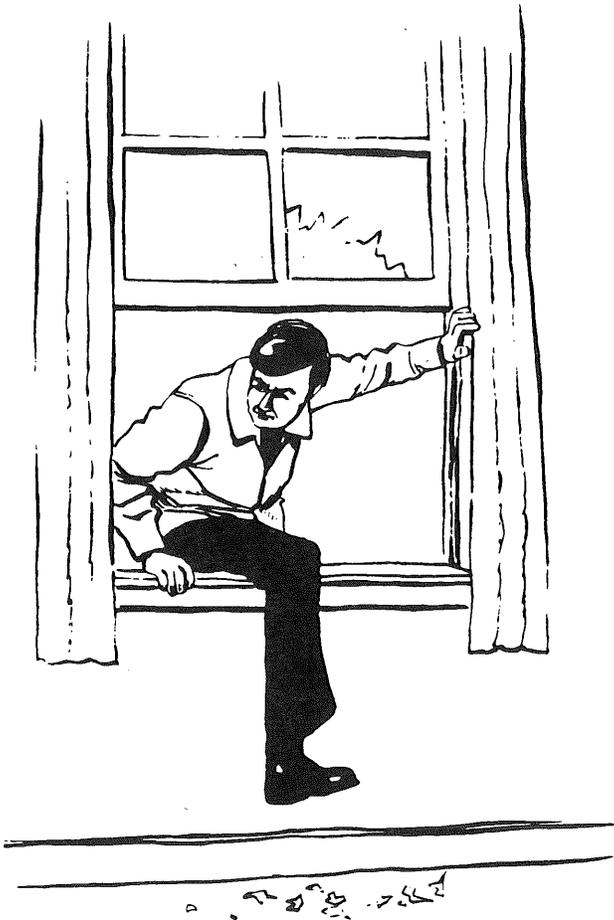

An urban resident is assaulted with a dangerous weapon by a white male between the ages of 25-59.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

MOTOR VEHICLE THEFT

ARSON

BURGLARY

Burglary consists of the unlawful entry or attempted forcible entry of a structure to commit a theft or felony, even though no force may have been used to gain entry. Burglary is divided into three separate classes:

- A. Forcible Entry
- B. Unlawful Entry - No Force
- C. Attempted Forcible Entry

Supplementary information is collected that denotes the time and place of occurrence.

SUMMARY ANALYSIS

- Of the total 40,815 burglary offenses reported for the state in 1990, 1,543 offenses were unfounded.

- There was a total of 39,272 actual burglaries that occurred in Minnesota in 1990. Of that total 3,973 offenses were cleared by arrest which amounted to a 10 percent clearance rate. For the total 3,973 offenses cleared by arrest, 724 were cleared with the arrest of a juvenile.*
- The crime rate for burglary in 1990 was 902 per 100,000 population.
- In 1990, burglaries represented 21 percent of the total property crimes with 107 averaged per day.

BURGLARY SCENARIO

An urban residence is forcibly entered during the night and approximately \$860.00 worth of property is stolen. The offender has a one in ten chance of being caught, but if arrested will be a 17 year old, white male.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

LARCENY

Larceny (theft) is the taking of the personal property of another with intent to permanently deprive him of ownership. Larceny figures will include all those offenses in which a theft (also attempted situations) occurred regardless of monetary loss assigned the stolen property.

SUMMARY ANALYSIS

- Of the total 133,416 larceny offenses reported for 1990, 2,798 were listed as unfounded.
- Of the 130,618 actual larceny offenses that occurred in Minnesota in 1990, 27,377 were cleared by arrest, representing a 21 percent

clearance rate. Of the 27,377 larceny offenses that were cleared, 8,218 were cleared by the arrest of a juvenile.*

- Larceny in 1990 represented a crime rate of 3,001 per 100,000 population.
- The total number of larcenies for 1990 amounted to 70 percent of the total property crime figures with 357 averaged each day.

LARCENY SCENARIO

A 13-14 year old, white male steals \$765.00 worth of property from a building in an urban area. The offender has a one in four chance of being arrested.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

MOTOR VEHICLE THEFT

Motor Vehicle Theft is the larceny or attempted larceny of a motor vehicle. This includes all vehicles that can be registered as such. "Joyriding" thefts are included under this category.

SUMMARY ANALYSIS

- Of the 16,378 motor vehicle thefts reported in 1990, 1,249 offenses were unfounded.
 - In Minnesota during 1990, there were 15,489 actual thefts reported to have occurred. Of that total 3,232 were cleared by arrest, indicating a clearance rate of 20 percent. Out of the total offenses cleared by arrest, 1,018 were cleared with the arrest of a juvenile.*
 - Motor vehicle thefts in 1990 represented a crime rate of 356 per 100,000 population.
- In 1990, motor vehicle thefts represented 8.2 percent of the total property crimes and averaged 42 per day.
 - Of the 15,489 motor vehicles stolen in 1990, 6,189** or 40 percent were recovered.
 - Of the 15,489 vehicles reported stolen 12,149 were automobiles, 1,467 were trucks/buses and 1,873 were vehicles such as snowmobiles, motorcycles, motorscooters, etc.

MOTOR VEHICLE THEFT SCENARIO

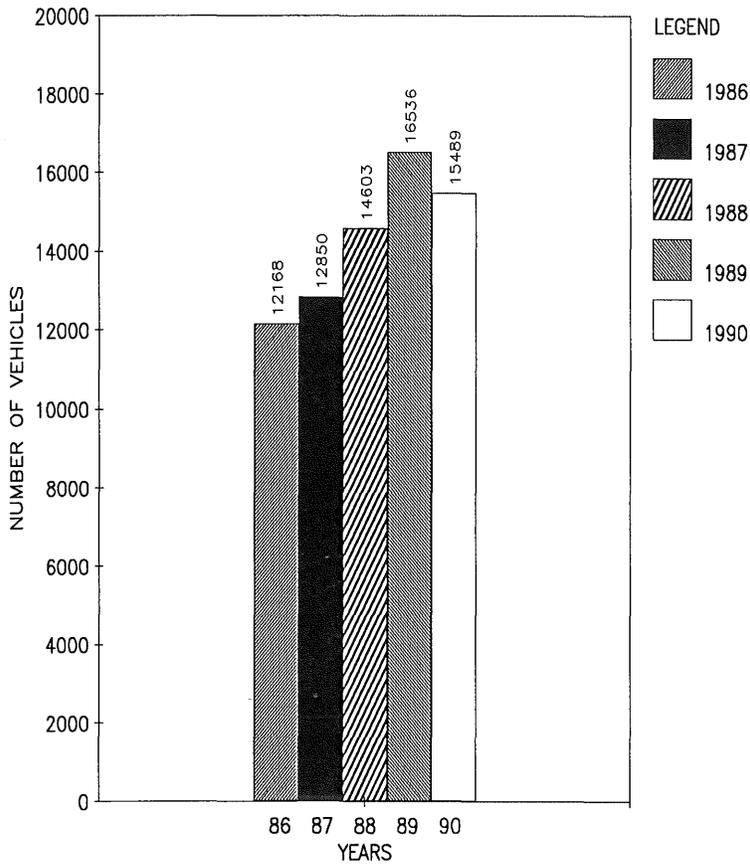

An automobile valued at approximately \$5,000.00 is stolen in an urban area. If recovered, the vehicle will be recovered within the same jurisdiction in which it was stolen. The offender has a one in five chance of being arrested. If arrested, it will be a 15 year old, white male.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

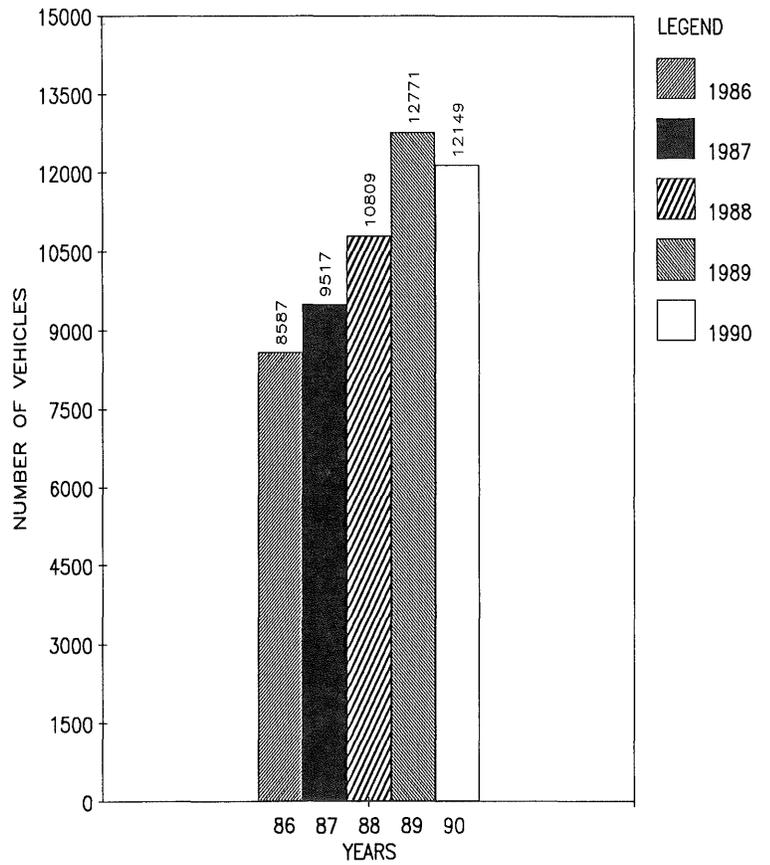

** The number of vehicles recovered excludes Minneapolis and St. Paul Police Departments.

ARSON

Arson is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Fires of suspicious or unknown origins are excluded.

This crime category is distinctive from other offenses in that all arson, regardless of the occurrence along with another crime, are to be reported. This procedure may not have been adhered to in all instances during 1990, as 1,249 offenses were recorded on the Uniform Crime Reports, and 1,059* on a defined arson report.

SUMMARY ANALYSIS

- Of the total 1,059 arson offenses known, 29 were listed as unfounded.
- Of the 1,030 actual arson offenses reported as having occurred in Minnesota in 1990, 262 or 25 percent were cleared by arrest. Of the 262 arsons cleared by arrest, 72 were cleared by the arrest of a juvenile.**

* The 1990 defined arson report does not include Minneapolis Police Department

** Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

- The crime rate for arson in 1990 was 23 per 100,000 population, with 2.8 offenses averaged per day.
- Of the 1,030 arson offenses reported, 556 (53 percent) were structural fires, 196 (19 percent) were arsons of mobile property (motor vehicles, airplanes, boats, etc.) and 278 offenses were for arson of other property such as crops, timber, fences, signs, etc. (26 percent).
- Of the 556 structures burned, 185 (33 percent) of the structures were uninhabited.
- The dollar value lost to arson in 1990 totaled \$4,841,608 with structural fires accounting for 88 percent of the loss (\$4,293,634).

ARSON SCENARIO

A 13-14 year old, white male burns a single occupancy residential structure in an urban area, resulting in approximately \$9,850.00 damage to the structure. The offender has a one in four chance of being arrested.

MINNESOTA PROPERTY CRIME VALUE INFORMATION

1990 PROPERTY CRIME INFORMATION FOR MINNESOTA

Information on property stolen and recovered in Minnesota for the offenses of criminal homicide, rape, robbery, burglary, larceny and motor vehicle theft is reflected in the following tables and figures.

Table 7 indicates that the property type category of Stolen Vehicles had the highest stolen value of property taken in the state in 1990. The Livestock category showed the lowest amount of stolen value for property taken during that year. The highest

recovered value reported was in the Vehicle category while the lowest recovered value reported was Livestock. Table 8 indicates a more specific itemization of property stolen/recovered and the associated monetary values. Figure 20 shows the average dollar loss to property offenses in Minnesota for the past year. Figure 21 reflects what proportion of an average dollar was lost to the robbery, burglary, larceny and motor vehicle theft offenses during 1990.

**TABLE 7
TOTAL VALUE OF PROPERTY STOLEN/RECOVERED IN MINNESOTA FOR 1990***

<u>Property Type</u>	<u>Stolen Value</u>	<u>Recovered Value</u>
Currency/Notes	\$ 9,118,581	\$ 424,695
Jewelry/Metals	8,361,445	879,277
Clothing/Furs	2,916,373	435,550
Locally Stolen Autos	49,647,007	29,673,696
Office Equipment	2,973,450	204,652
TV/Radio/Stereo	9,833,617	576,333
Firearms	1,145,811	145,336
Household Items	1,204,201	83,276
Consumer Items	903,168	199,564
Livestock	279,008	27,542
Miscellaneous	32,886,017	2,886,831
Total	\$119,268,678	\$35,536,752

Stolen Values are based on the "fair market value" at the time of theft. Recovered values are determined by "fair market value" at the time of recovery less any damage or depreciation.

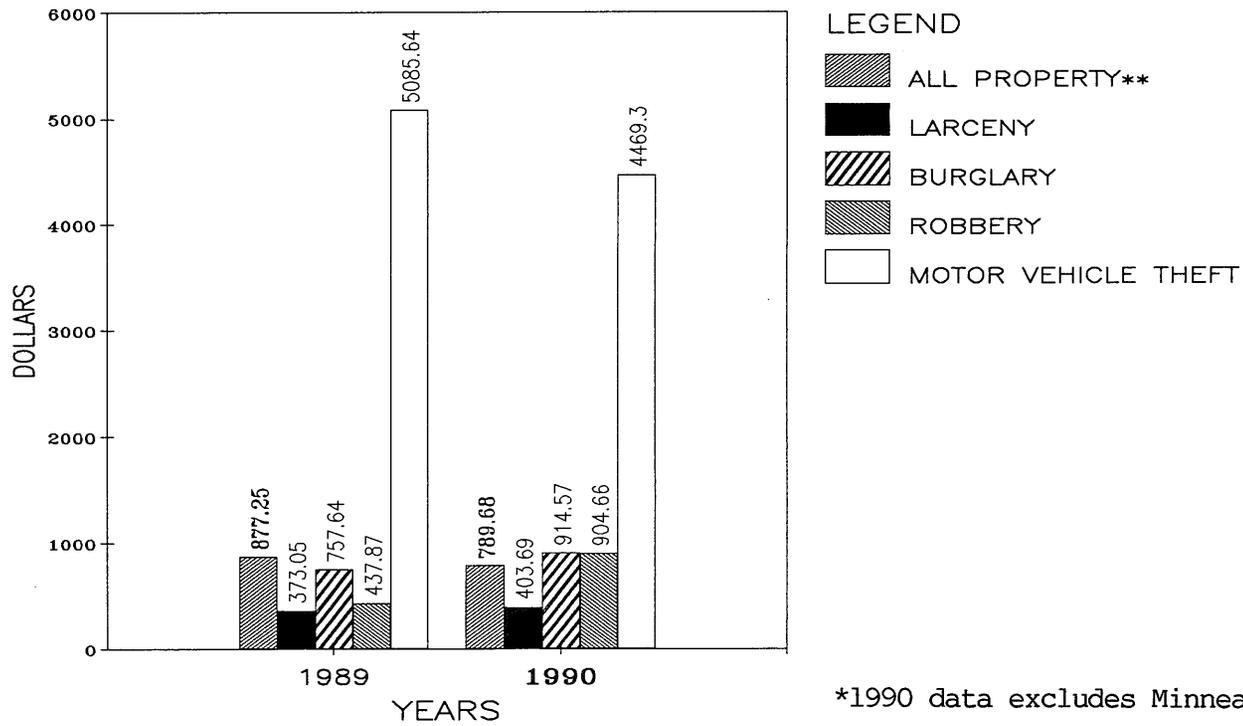

* ALL STOLEN AND RECOVERED VALUES EXCLUDE MINNEAPOLIS POLICE DEPT.

ADDITIONAL STATEWIDE OFFENSE INFORMATION

In addition to the aforementioned crime index information and property crime values, there are additional sources of offense information included as a part of Minnesota Offense Information.

Table 9 contains statewide summary information for total Part I and Part II offenses for 1990. The first column is the offenses listed according to crime category, as described in the Crime Information section of this publication. The remaining columns give the number of offenses, unfounded offenses, the crime rate, offenses cleared by arrest, and offenses cleared by arrest of a juvenile.

Table 10 encompasses 1990 statewide data relating to property loss. The first portion of the table refers

to the various property types and the corresponding stolen and/or recovered value. The rest of the table lists the Part I offenses broken down into sub-categories and the value of the property stolen or recovered for each offense.

Table 11 provides summary information including the crime rate, population, crime index and percent cleared for urban-rural, the various Crime Control Planning Board regions, and the reporting agencies in Minnesota for 1990.

Table 12 depicts summary Minnesota Crime Index Information for the years 1936-1990 and also includes state population and crime rate.

* Estimated 1989 population, FBI.

** Crime statistics include all Larceny offenses regardless of value. Part I crimes will be referred to as "Crime Index" offenses and do not include Negligent Manslaughter. Starting with 1980, the "Crime Index" offenses will include offenses of Arson.

(A) Agency not contributing Part II Offenses; Simple Assault only is recorded.

(B) Population not calculated.

MINNESOTA ARREST INFORMATION

GENERAL ARREST INFORMATION

Arrest information for Minnesota in 1990 is presented with a state total concerning age, sex, and race factors. Data has also been tabulated for the specific kinds of narcotic arrests and the individuals involved.

The total number of arrests involving criminal offenses in the state in 1990 was 181,887*, with 144,207 males and 37,680 females arrested. Compared with 181,476* total arrests (144,160 males and 37,316 females) for 1989, the 1990 figures represent a .2 percent increase in total arrests. Arrests of males increased .3 percent and female arrests increased .9 percent from 1989 to 1990.

There are several significant factors to consider when arrest data is evaluated. One arrest situation is counted for each time an individual is arrested whether it be several times a year for one type of offense or for different offenses.

Another factor to consider is that an arrest can be reported for an offense that occurred during a previous reporting period and thus can reflect an

* Based on detailed information received by the BCA.

arrest picture not totally consistent with the total actual offenses for that period. In some extreme cases arrests may outnumber offenses, which in large measure is a result of this factor.

As stated previously, an arrest situation constitutes a form of detention for uniform crime reporting purposes. Because police arrest activities often vary, especially with relation to juveniles, the reporting agencies are instructed to count one arrest each time a person is taken into custody for committing a specific crime. The FBI's instructions state that:

"A juvenile is counted as a person arrested when he commits an offense and the circumstances are such that if the offender were an adult an arrest would be made."**

Juveniles (persons under 18 years) constitute 25 percent (44,720) of all arrests during 1990 and account for 44 percent of the Part I arrests: 54 percent of the Arson, 58 percent of the Vehicle Theft, 40 percent of the Burglary, and 47 percent of the Larceny arrests.

** Crime in the United States - Uniform Crime Reports, 1972 Annual FBI, Washington, D.C., pg. 119

NARCOTIC ARREST INFORMATION

NARCOTIC ARRESTS IN MINNESOTA

Narcotic arrest information for the state in 1990 involved 7,307 arrest situations, with 6,282 males and 1,025 females arrested. Persons aged 19 comprise the greatest portion of the arrests (470) representing 6.4 percent of all arrests. Persons aged 18 were the next highest with 432 arrests. Race information reveals that 72 percent of the narcotics arrests were for persons of the white race. Compared with the 1989 figures for narcotic arrests (7,211), the 1990 amount indicates a 1.3 percent increase.

Since 1981 there has been a 41 percent increase in the number of narcotic arrests within the state.

It should be noted that figures for the Minneapolis Police Department are included in the statewide totals only for the age breakdown. Specific breakdowns of narcotic types and also sale and possession are not available from Minneapolis.

URBAN-RURAL AND REGIONAL INFORMATION

COMPARISON OF URBAN-RURAL CRIME OFFENSES/ARRESTS FOR 1990

Urban-rural crime comparison by offense offers information to agencies in evaluating the difference in crime occurring by geographical locations. The information that is available must be interpreted with caution as it gives a general indication of urban-rural crime only and does not represent data that can be applied to any one specific agency. Variations in crime are caused by a multitude of crime factors, which have been listed previously in this report. The information that is presented in this section lists the numbers of specific criminal offenses that have been reported to the appropriate urban or rural law enforcement authority. Because

of jurisdictional reasons, Capitol Security and State Patrol figures are excluded from this section of the report.

Of additional value is the ratio of urban to rural crime offenses for 1990. The ratio is nothing more than the amount of one particular criminal offense for the urban area as compared with the amount of one particular offense for the rural area. A ratio of 8:1 aggravated assaults indicates that for every eight offenses of aggravated assault in an urban area, the rural area experienced one aggravated assault.

COMPARISON OF CRIME OFFENSES/ARRESTS BY REGIONS

COMPARISON OF CRIME BY REGIONS

The regional breakdown of crimes and arrests within Minnesota often provides a more exacting measurement of the volume of crime based on specific areas. For specific information, the regional distinctions evaluated in this report are based on the nine state planning regions of the Crime Control Planning Board.

Region 11, which is the most densely populated geographical section for the entire state, recorded the highest number of reported Part I offenses (135,637) and Part II offenses (143,836) of all regions. Sixty-eight percent of the state's Part I offenses occurred in this region, while 54 percent of the Part II offenses were registered from this area. Approximately 80 percent of the state's violent crimes were recorded from this section and 67 percent of property crime

was represented by this region. The largest portion of arrests for Part I and Part II offenses were also registered from Region 11. There were 24,979 arrests for Part I violations compared to 77,589 arrests for Part II offenses.

Region 1 recorded the smallest amount of Part I offenses with 2,416. Region 2 registered the second lowest amount of Part I offenses with 2,901. Region 2, with 5,246 offenses, recorded the lowest number of Part II offenses followed by Region 1 with 5,449 offenses. Region 1 also reported the least amount of violent crime (86) and property offenses (2,330) in the state.

The region registering the highest clearance rate for Part I offenses in 1990 was Region 1 with 27.8 percent. The region with the highest Part II clearance rate was Region 1 with 68 percent.

MINNESOTA LAW ENFORCEMENT EMPLOYEE INFORMATION

LAW ENFORCEMENT CODE OF ETHICS

As a Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession... law enforcement.

MINNESOTA LAW ENFORCEMENT EMPLOYEE INFORMATION

The average number of full time law enforcement personnel in 1990 (including sworn and civilian) amounted to 2.1 employees per each 1,000 residents of the state. The average number of sworn personnel (excluding civilian) amounted to 1.5 employees per 1,000 population. The contributing law enforcement agencies averaged one full-time civilian employee to three full-time sworn personnel. These figures represent the averages as derived from the submitted data and are not the recommended ratios for Minnesota law enforcement agencies. The average ratio of law enforcement personnel for any given community may, and does, vary according to a number of community and policing factors.

In 1990, the reporting sheriff's departments indicated 1,850 sworn personnel employed and 1,380 civilian personnel which amounted to a total of 3,230 employees. The police departments reported to have 4,132 sworn personnel in 1990, compared with 862 civilian employees. The total number of municipal employees equaled 4,994 personnel. The State Patrol figures indicate 524 sworn personnel and 227 civilian employees for a total of 751.

Of the total number of sworn personnel in 1990 (6611*), there were 6,245 males and 366 females. Considering the total number of civilian personnel for the same year (2,503*), there were 907 males compared with 1,596 females.

* Totals include personnel from the University of Minnesota PD, Airport PD, Hennepin Co. Parks Ranger Force and the State Patrol.

⁵ Departments under contract excluded from population totals.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Vital information other than Uniform Crime Reporting is also collected that evaluates the number of law enforcement personnel who have been assaulted and/or killed. The data from those county (sheriff) and municipal (police) agencies reporting is collected and tabulated annually.

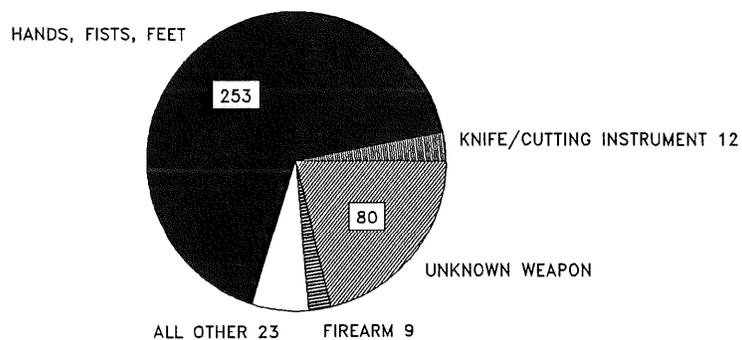

There was a total of 377 assaults recorded in Minnesota for 1990. Of that total, 253 involved hands, fists, or feet; 9 were attributed to firearms; 23 involved some other dangerous weapon, and 12 were committed with a knife or cutting instrument. There were 125 assaults in which there was no personal injury to the law enforcement officer, while 172 registered some form of personal injury.

The type of activity most responsible for the assault situations was responding to "Disturbance Calls" with 112 incidents. Of the total assault situations, 348 were cleared by the law enforcement agencies. The most frequent time of assaults was indicated as between 10:00 p.m. and 2:00 a.m., with 189 confrontations. The type of assignment most frequently registered with assaults during the year was a one-man vehicle-assist (104 incidents).

There was one fatality in 1990:

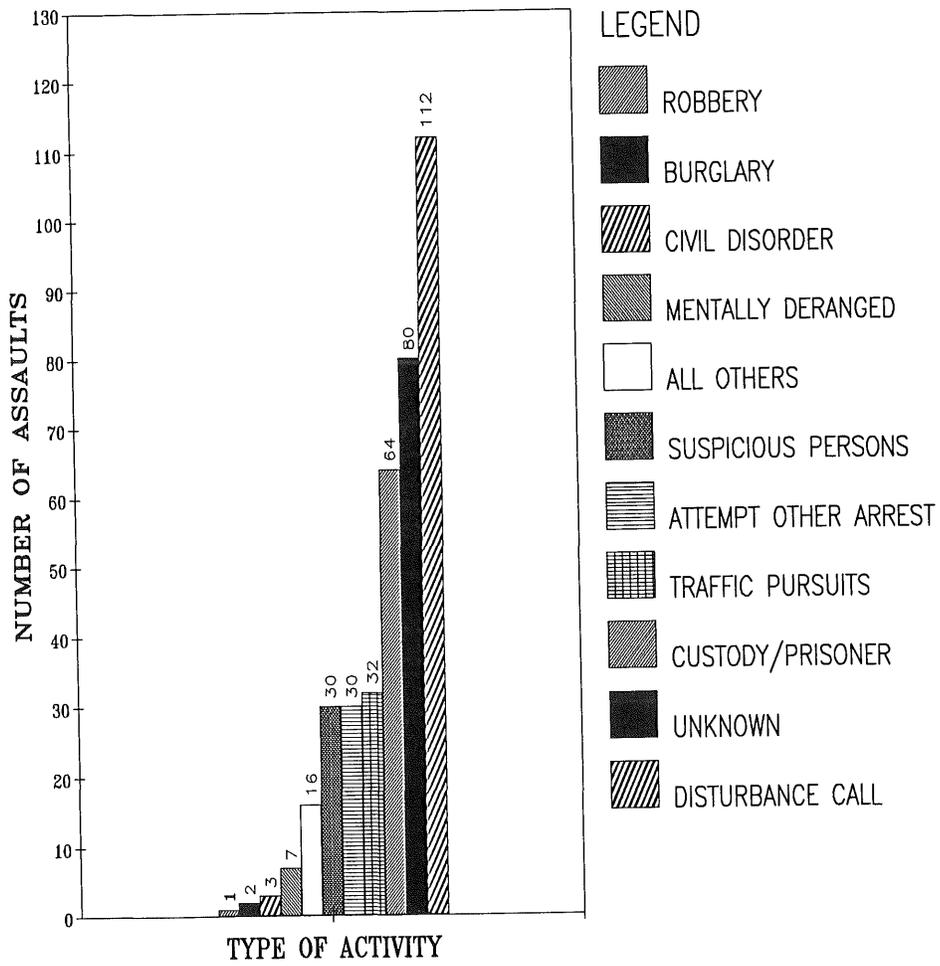

In April, 1990, a police officer in Duluth was shot and killed while investigating a disturbance call regarding a person with a gun.

LAW ENFORCEMENT OFFICERS FIREARMS DISCHARGES

Pursuant to Minnesota State Statute 626.553, Subdivision 2, information is collected concerning firearm discharges by law enforcement officers in Minnesota. 1978 was the first full year that this information was available.

In 1990, there were 59 shots fired during 16 incidents. There are six general areas of information collected: the Type of Activity the officer was engaged in at the time of the discharge; Type of Weapon Used; Purpose of the Discharge; Results of the Discharge; Time of Day; and the Level of the Incident which precipitated the discharge.

The highest number of discharges by Type of Activity was for "Traffic Pursuits" with 36 shots fired.

Fifty-seven (97 percent) of the shots fired were with a handgun, and 54 (91 percent) of the total shots were Non-Warning shots. Eighty-five percent of the firearms discharges were during a six-hour time period, from 10:00 p.m. - 4:00 a.m. In 73 percent of the shots fired, no injuries were suffered, thirteen shots resulted in wounds, and there were three fatal shots fired.

Information on the size of the community served by the departments was also tabulated. Forty-one shots (69 percent) were fired in communities under 50,000 population, and 18 (31 percent) in communities over 50,000 population.

Of the 59 shots fired, 57 were in felony situations.

COUNTY AND MUNICIPAL LAW ENFORCEMENT AGENCY OFFENSE INFORMATION

County and Municipal Law Enforcement Offense Information contained in this section is arranged by total county figures, sheriff office figures, and municipal police department figures.

Legislation passed in October, 1978, reclassified the offense of arson to a Part I Crime. The arson figures

reflected in 1990 have been tabulated and recorded in the Part I Crimes area. This fact should be taken into consideration whenever comparing Part I and Part II totals for 1980-1990 with previous years.

The information contained within this section will reflect agencies not reporting specific offenses.

POLICE PURSUITS

BACKGROUND:

In 1988, the Legislature passed a law requiring all pursuits by peace officers to be reported to the Department of Public Safety. 1989 was first full year this data was collected. The state statute is as follows:

626.5532 PURSUIT OF FLEEING SUSPECTS BY PEACE OFFICERS.

Subdivision 1. Reports. If a peace officer pursues a fleeing suspect, the officer's department head must file a notice of the incident with the commissioner of public safety within 30 days following the pursuit. A pursuit must be reported under this section if it is a pursuit by a peace officer of a motor vehicle being operated in violation of section 609.487. The notice must contain information concerning the reason for and circumstances surrounding the pursuit, including the alleged offense, the length of the pursuit in distance and time, the outcome of the pursuit, any charges filed against the suspect as a result of the pursuit, injuries and property damage resulting from the pursuit, and other information deemed relevant by the commissioner.

Subd. 2. Local governments to adopt procedures and training requirements. Each political subdivision and state law enforcement agency that employs persons licensed by the peace

officer standards and training board under section 626.845 must establish written procedures to govern the conduct of peace officers who are in pursuit of a vehicle being operated in violation of section 609.487, and requirements for the training of peace officers in conducting pursuits. The procedures must state how peace officers will provide assistance to a person injured during the course of a pursuit. A political subdivision or agency that does not establish procedures and requirements by October 1, 1989, is subject to licensing sanctions of the peace officer standards and training board.

SUMMARY

- Of the 1,029 pursuit incidents reported, 74% were initiated as a traffic pursuit, followed by pursuit of a felony vehicle 16%.
- 38% of the pursuits resulted in property damage either to a squad car, violator vehicle or other property. 48% recorded no property damage.
- 60% (622) of all pursuits occurred between the hours of 10:00 p.m. and 4:00 a.m.
- 214 injuries or possible injuries were reported. 139 of the injuries were received by the violator.

Table 32 shows the total pursuits for the calendar year 1990.

BIAS MOTIVATED CRIMES

BACKGROUND:

In 1988, the Legislature passed a law which requires peace officers to report any incidents which were motivated by bias. 1989 was the first full year this information was collected. The state statute reads as follows:

626.5531 REPORTING OF CRIMES MOTIVATED BY BIAS.

Subdivision 1. Reports required. A peace officer must report to the head of the officer's department every violation of chapter 609 or a local criminal ordinance if the officer has reason to believe that the offender was motivated to commit the act by the victim's race, religion, national origin, sex, age and disability, or characteristics identified as sexual orientation. The superintendent of the bureau of criminal apprehension shall adopt a reporting form to be used by law enforcement agencies in making the reports required under this section. The reports must include for each incident all of the following:

- (1) the date of the offense;
- (2) the location of the offense;
- (3) whether the target of the incident is a person, private property, or public property;
- (4) the crime committed;
- (5) the type of bias and information about the offender and victim that is relevant to that bias;
- (6) any organized group involved in the incident;
- (7) the disposition of the case; and
- (8) any additional information the superintendent deems necessary for the acquisition of accurate and relevant data.

Subd. 2. Use of information collected. The head of a local law enforcement agency or state law enforcement department that employs peace officers licensed under section 626.843 must file a monthly report describing crimes reported under this section with the department of public safety, bureau of criminal apprehension. The commissioner of public safety must summarize and analyze the information received and file an annual report with the department of human rights and the legislature.

SUMMARY

- Of the total 307 bias incidents, the largest type of bias reported was racial with 83% (255) followed by religious with 7%.
- The target of 79% of the bias offenses was against a person.
- 32% of the offenses occurred on a street/sidewalk followed by 29% at a residence.
- 26% of all offenses reported were for simple assault, 19% oral abuse, and 14% aggravated assault.
- There were 332 victims of bias in 1990. 239 males and 93 females. 48% of the victims were white, followed by 37% black.
- 40% of all victims were between the ages of 11-20, followed by 35% 21-30 year olds.
- There were 394 bias offenders in 1990. 358 males and 36 females. 50% of the offenders were black while 43% were white.
- The age group with the highest number of offenders was 11-20 year olds with 69%.

Table 33 indicates the total number of bias reports filed for the calendar year 1990 compared with calendar year 1989.

MINNESOTA MISSING CHILDREN REPORT

BACKGROUND:

In 1984, the Minnesota Legislature enacted what is known as the "Minnesota Missing Children's Act". This Act provides for the Commissioner of Public Safety to maintain a missing children program. This program requires the Commissioner to: provide the necessary computer systems to allow for the maintaining of data on missing children in the Federal Bureau of Investigation's National Crime Information Center; provide a system for broadcasting information on missing children regionally, statewide, multi-state and nationwide; and to annually compile statistical information related to missing children.

The responsibility and authority for collecting and disseminating the missing children information has been delegated to the Bureau of Criminal Apprehension, Criminal Justice Information Systems Section. Minnesota State Statutes, Chapter 299C.

299C.52 MINNESOTA MISSING CHILDREN PROGRAM

Subdivision 1. **Definitions.** As used in sections 299C.52 and 299C.53, the following terms have the meanings given them:

(a) "Child" means any person under the age of 18 years or any person certified or known to be mentally incompetent;

(b) "CJIS" means Minnesota Criminal Justice Information System;

(c) "Missing" means the status of a child after a law enforcement agency that has received a report of a missing child has conducted a preliminary investigation and determined that the child cannot be located; and

(d) "NCIC" means National Crime Information Center.

Subd. 2. **Establishment.** The commissioner of public safety shall maintain a Minnesota missing child program within the department to enable documented information about missing Minnesota children to be entered into the NCIC computer.

Subd. 3. **Computer equipment and programs.** The commissioner shall provide the necessary computer hardware and computer programs to enter, modify, and cancel information on missing children in the NCIC computer through the CJIS. These programs must provide for search and retrieval of information using the following identifiers: name and date of birth, name and social security number, name and driver's

license number, vehicle license number, and vehicle identification number. The commissioner shall also provide a system for regional, statewide, multi-state, and nationwide broadcasts of information on missing children. These broadcasts shall be made by local law enforcement agencies where possible or, in the case of statewide or nationwide broadcasts, by the bureau of criminal apprehension upon request of the local law enforcement agency.

Subd. 4. **Authority to enter or retrieve information.** Only law enforcement agencies may enter missing child information through the CJIS into the NCIC computer or retrieve information through the CJIS from the NCIC computer.

Subd. 5. **Statistical data.** The commissioner shall annually compile and make available statistical information on the number of missing children entered into the NCIC computer and, if available, information on the number located.

Subd. 6. **Rules.** The commissioner may adopt rules in conformance with section 299C.52 and 299C.53 to provide for the orderly collection and entry of missing child information and requests for retrieval of missing child information.

299C.53 MISSING CHILD REPORTS; DUTIES OF COMMISSIONER AND LAW ENFORCEMENT AGENCIES.

Subdivision 1. **Investigation and entry of information.** Upon receiving a report of a child believed to be missing, a law enforcement agency shall conduct a preliminary investigation to determine whether the child is missing. If the child is determined to be missing, the agency shall immediately enter identifying and descriptive information about the child through the CJIS into the NCIC computer. Law enforcement agencies having direct access to the CJIS and the NCIC computer shall enter and retrieve the data directly and shall cooperate in the entry and retrieval of data on behalf of law enforcement agencies which do not have direct access to the systems.

Subd. 2. **Location of missing child.** Immediately after a missing child is located, the law enforcement agency which located or returned the missing child shall notify the law enforcement agency having jurisdiction over the investigation, and that agency shall cancel the entry from the NCIC computer.

GOALS AND OBJECTIVES:

The primary goal of the "Minnesota Missing Children's Act" is to assist in the locating of those children reported missing in the shortest possible time thus insuring their safe return by: requiring investigative action by law enforcement agencies; by requiring the entry of data on the missing child; and by requiring an annual compilation of statistical information for evaluation of the missing children problem in Minnesota.

The data collected for the time period of January 1-December 31, 1990, indicates that there was a total of 10,197 records created by law enforcement agencies regarding missing children. During the same time period, 9,051 missing children records were removed leaving a total of 1,146 active missing juvenile records in the system for the time period January-December, 1990.

Table 34 indicates reasons for creating and removing records and the categories of active missing children records.

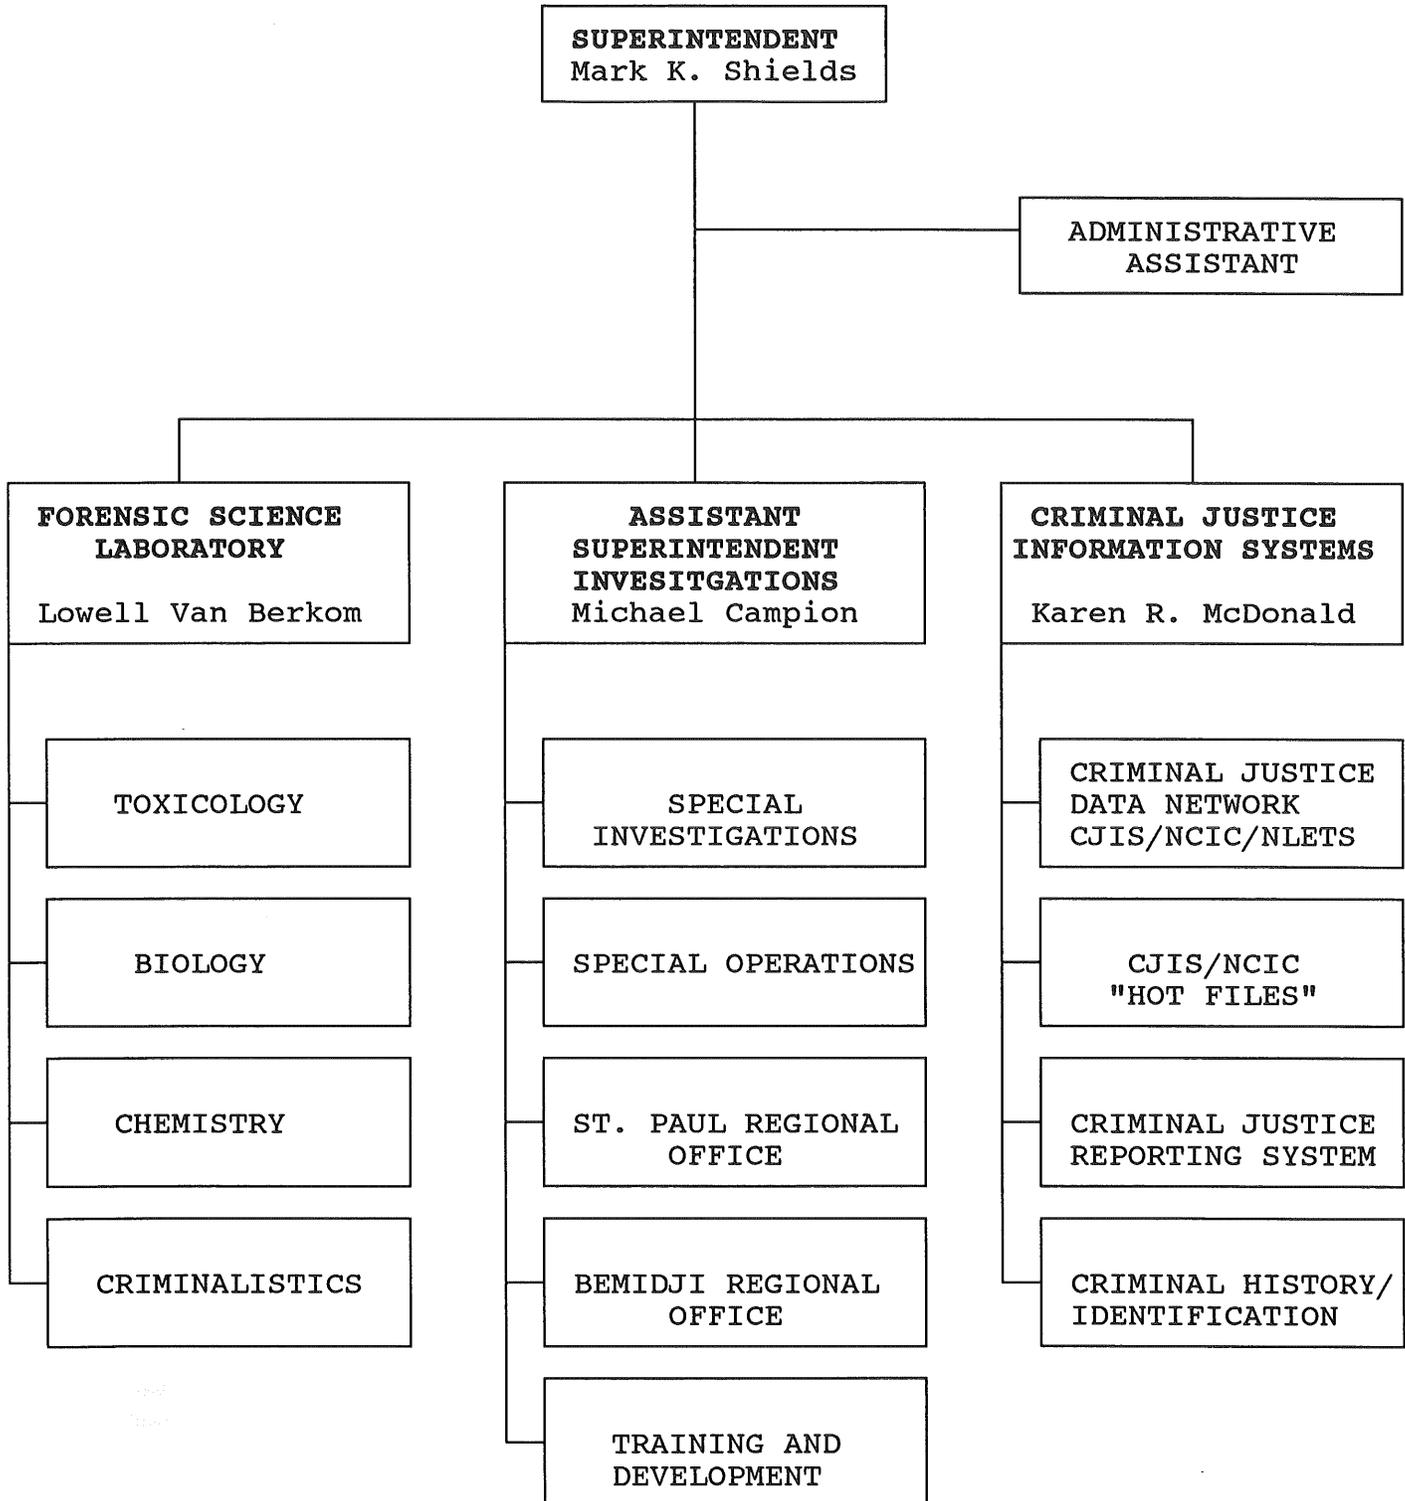

FIGURE 35
BUREAU OF CRIMINAL APPREHENSION
ORGANIZATIONAL CHART

BUREAU OF CRIMINAL APPREHENSION ACTIVITIES

1990

The Bureau of Criminal Apprehension provides critical investigative and specialized criminal justice support services to law enforcement and criminal justice agencies throughout the State of Minnesota. Specialized support activities consist of advanced police training and development, forensic laboratory and crime scene analysis, statewide criminal justice statistics gathering, and computer system operations and records maintenance.

Specialized investigations and support activities are furnished to criminal justice agencies to aid them in the administration of justice, resolution of crimes and for the protection of the citizens of the State of Minnesota.

OPERATION:

The Bureau of Criminal Apprehension (BCA) is directed by a superintendent who is aided by an assistant superintendent, forensic laboratory director, criminal justice information systems director and an administrative assistant. The superintendent is responsible for all functions of the Bureau, and manages the resources of the organization so that its objectives are met effectively. The superintendent provides long-range planning, implements policy and searches for innovative management methods to perform its activities more effectively. The assistant superintendent is responsible for general investigations, such as homicides, rapes, robberies, frauds, and burglaries, and specialized investigations such as narcotics, organized crime, sexual exploitation of children, computer crime, and major thefts, in addition to police training and development. The forensic laboratory director is responsible for a wide range of laboratory services for law enforcement. The criminal justice information systems director is responsible for criminal justice data communications functions. The administrative assistant is responsible for conducting research and assisting the superintendent in the administration and management of the BCA.

HISTORY AND FUNCTIONS:

The Bureau of Criminal Apprehension, under the Attorney General, was established July 1, 1927, by an act of the State Legislature. It was created to coordinate the efforts and work of peace officers throughout the state, to aid them in solving local crimes, and to assist them in apprehending criminals. In addition, the bureau was intended to become a clearinghouse for crimes and criminal records where a law enforcement officer might apply for fingerprints,

photographs, and records of criminals, fugitives and suspects. Before the state bureau was established, each sheriff's office and each police department worked as a distinct and separate unit. There was a lack of interchange of information regarding criminals and a lack of coordination in following criminals trails across local and county lines.

During the first eight years of its activities, the BCA was hampered in its work because of a limited staff and limited powers. The bureau's personnel consisted of a maximum of 12 employees, headed by a superintendent. No member of the bureau was permitted to enter any county to investigate a crime without first having a request from the sheriff.

The 1935 Legislature increased the bureau's staff from 12 to 28; gave bureau investigators full police power; required local officers to submit identification data, crime reports, and other data to the bureau; and added statistical and radio divisions. The increased personnel made possible the establishment of the first bureau districts in the state. With investigators located strategically throughout the state, the value of the bureau to local officers was greatly enhanced. Bureau agents were thus able to respond promptly when their services were requested. The need for speedier communications resulted in the establishment of a state radio system at Redwood Falls in October, 1935. The need of a scientific laboratory was apparent because of the nature of specimens of evidence bureau agents were called upon to examine, which required chemical and microscopic equipment. In 1947, the laboratory became functional.

Because of budget limitations, the number of personnel was cut in 1941 to 23, and the bureau was forced to again limit its activities. In the fall of 1953, the bureau's radio station was transferred to the State Patrol. At this time, the bureau joined with the Minnesota State Patrol, the St. Paul Police Department, the Minneapolis Police Department, the Hennepin County Sheriff's Office and the Hennepin Radio Station to form a teletype network in the Twin Cities area.

CRIMINAL JUSTICE INFORMATION SYSTEMS SECTION

The Criminal Justice Information Systems Section (CJIS) manages a computerized, data communications system which indexes documented criminal justice information concerning crimes and criminals of state and nationwide interest.

Interfaced with the National Crime Information Center (NCIC) in Washington, D.C. and the National Law Enforcement Telecommunications System (NLETS) in Phoenix, Arizona, this system has the capability of routing messages to criminal justice agencies throughout the nation.

The system is a central repository for stolen property such as stolen vehicles, vehicle parts, license plates, guns, boats and securities. CJIS also indexes criminal data (i.e., misdemeanors, gross misdemeanors, and felony wants/warrants), criminal histories, and information regarding missing persons and runaway juveniles. The system maintains direct access to the Division of Driver and Vehicle Services' computerized driver license and vehicle registration files, and enables all terminals to send and receive interstate-intrastate information.

Based on actual traffic occurring in April, 1990, 2,870,233 messages involving such activity occurred. This is an average of 95,664 messages a day, or 3,986 messages an hour and represents a 7.7 percent increase from 1989. At this rate, some 34,917,360 messages would be transmitted in one year. Actual figures for selected functions during January-December, 1989 and January-December, 1990 are indicated in Table 35.

The CJIS has the responsibility of collecting information on Part I offenses (murder, rape, robbery,

aggravated assault, burglary, larceny, vehicle theft and arson) and furnishing such statistics to the FBI monthly. That information along with additional data is compiled and published in the *Minnesota Crime Information* booklet yearly.

The Identification Unit of CJIS processes fingerprint records containing physical descriptors, fingerprint classification and details of the subject's criminal activity. This data is used for backup information for all CCH records entered into the computer.

The 28,866 fingerprints received during 1990 reflect a 9 percent increase from the 26,499 prints received in 1989. In 1990 the percent of prints received of persons with prior records was 53 percent. An additional 1,053 applicant fingerprints were received in 1990 which is an 8.5 percent increase from the 970 received in 1989.

Requests for criminal history records are received by telephone, mail, in person and via the datacommunications network. Requests for criminal justice purposes increased 27 percent from 36,262 in 1989 to 46,147 in 1990.

Information is also requested for use by non-criminal justice agencies (as provided for by law). In 1990, an increase of 9.7 percent in non-criminal justice requests was noted, from 34,114 in 1989 to 37,438 in 1990.

**TABLE 35
CJIS ACTIVITY 1989-1990**

FORENSIC SCIENCE LABORATORY

Serving the Minnesota law enforcement community at all levels, the BCA Forensic Science Laboratory provides forensic services in the following areas:

- Microanalysis of Trace Evidence
- Serology and DNA
- Firearms and Tools Marks
- Serial Number Restoration
- Questioned Documents
- Forensic Photography
- Forensic Toxicology
- Latent Fingerprints
- Identification of Controlled Substances
- Alcohol Analysis of Blood and Urine
- Arson Analysis
- Breath Testing

In addition, the Laboratory responds to requests from local law enforcement agencies for assistance in processing major crime scenes and provides instruction in special areas of police training schools.

Upon completion of examinations, the Laboratory prepares written reports of the results and provides expert testimony in court when requested or summoned. During calendar year 1990, the Laboratory's analysts made 309 court appearances.

The Laboratory also coordinates a statewide breath alcohol testing program whose goal is the reduction of alcohol related traffic accidents and fatalities. It is the Laboratory's responsibility to train and certify all operators of breath testing instruments in the state and to ensure their continued competency through periodic re-certification training. Additionally, the Laboratory evaluates and purchases breath testing instruments, which are then assigned to law enforcement agencies and maintained and certified by the Laboratory's Breath Testing Unit.

In calendar year 1990, the Laboratory's Breath Testing Unit received 37,274 breath test records from law enforcement agencies throughout the state. The data from these test records is used in computerized reports that provide information needed to maintain the effectiveness of the statewide breath alcohol testing program.

In calendar year 1990, 4,849 cases were submitted to the Laboratory. The following is a breakdown of these cases by type of offense:

<u>Type of Case</u>	<u>Number of Cases</u>
Assault	129
Attempted Homicide	18
Auto Theft	40
Burglary	378

<u>Type of Case</u>	<u>Number of Cases</u>
Criminal Negligence	10
Controlled Substances	1,860
Criminal Sexual Conduct	367
Criminal Vehicular Operation	71
Deleted Table Entry	1

Other Traffic	12
Robbery	38
Stolen Property	13
Theft	82
Toxicology Analysis	6
Vandalism	34
Weapons	8
Other Case Types	1
TOTAL	4,849

In addition, 5,775 DWI kits were submitted.

The BCA DNA Laboratory is now on line. DNA analysis will play a very important role for the identification of individuals from blood or semen recovered from crime scenes. Samples will be screened by existing serological methods to identify substances such as blood or semen and to limit the number of actual items that need be processed by the much more expensive and labor intensive methods of DNA typing. Our case acceptance policy for DNA analysis will be similar to that adopted by the FBI. Only major violent crimes and current cases will be accepted for DNA work. As case load permits, other types of cases may be accepted for DNA analysis.

Our goal is to provide high quality DNA analysis in forensic case work. We are working closely with the FBI and the Technical Working Group on DNA Analysis Methods (TWGDAM) and have established protocols and guidelines that will ensure that our results are reliable, reproducible, and acceptable to the judicial system.

INVESTIGATIVE DIVISION

The Investigative Division is comprised of 62 sworn agents with statewide jurisdiction. The Bureau is divided into the following investigative groups.

- The Special Investigations Unit provides the investigative component focusing on narcotics enforcement. Two teams of agents, using various investigative techniques and strategies, focus on mid-level and upper-level violators of state and federal controlled substance laws.
- The Special Operations Unit is responsible for technical support to the other investigative units of the BCA. Additionally, this unit provides the communications function of the BCA, security assistance, video and audio surveillance support and dignitary protection.
- The St. Paul Regional Office provides investigative services to local law enforcement agencies throughout the southern half of Minnesota; including the Twin Cities Metro area.

The special agents and support personnel assigned to this region have training and experience in the investigation of a wide variety of crimes against persons and property. Current areas of emphasis include homicides, child abuse and child sexual exploitation, and financial crimes.

In addition to the traditional investigative services mentioned above, the St. Paul Regional Office personnel also provide specialized services designed to complement the work of the investigators. These services include psychological profiling of suspected serial killers and rapists, analysis of criminal organizations and activities, forensic artistry, and a computer-based program known as the Minnesota Sex Crimes Analysis Program (MNSCAP).

- The Bemidji Regional Office handles investigative requests from the northern area of the state. The office contains a fair balance of expertise in relation to its duties and responsibilities, including agents with extensive experience in investigating homicides, narcotics violations, and child sexual abuse cases. The Bemidji region includes field officers in Thief River Falls, Moorhead, Fergus Falls, Brainerd, Grand Rapids and Duluth.

- The Training and Development Unit is comprised of special agents who conduct continuing education of law enforcement officers throughout the State of Minnesota. The course offerings are directed in the following focus areas: Child Abuse/Sexual Exploitation; Arson; Evidence and Collection and Identification; Supervision and Management; Criminal Investigation and Specialized Topics; and Narcotics Investigation.

Since receiving a legislative appropriation in 1989, the BCA has developed a D.A.R.E. (Drug Abuse Resistance Education) training project. As of June, 1991, five D.A.R.E. Officer Training classes have been conducted in Minnesota training approximately 150 officers to teach in Minnesota's schools. The D.A.R.E. project has proven to be a positive way in which law enforcement can make an impact on demand reduction by joining hands with the schools and community.

The BCA continues to adjust to the ever-changing needs of the criminal justice community with a focus on providing a higher quality of service to our clients. To further this goal, the BCA is increasing cooperation among its three major sections -- CJIS, Forensic Science Laboratory, and Investigations. A major emphasis will be placed on improvement of the criminal justice records systems in the coming year, including improvements in the timeliness and accuracy of criminal history records.

This emphasis, along with the ongoing efforts to provide quality service to our clients, requires an intricate balance of finite Bureau resources of people, equipment and funds. The BCA strives to maintain the necessary flexibility to meet the challenges of its client law enforcement agencies.

GLOSSARY OF TERMS

ADULT - For Minnesota Uniform Crime Report purposes, a person aged 18 or above.

ARREST RATE - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST - For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is: (1) arrested, or (2) charged with the commission of the offense.

COUNTY - Subdivisions of state, each with its own government, including a sheriff's department.

CRIME FACTORS - Conditions which affect the amount and type of crime that occurs in a geographical area.

CRIME INDEX - The total number of eight major offenses used to measure the extent, fluctuation and distribution of a crime in a given geographical area. Crime classification used in the index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. Each of these offenses is referred to as an "Index Offense".

CRIME RATE - The number of index offenses reported for each unit of population, generally per 100,000 persons. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses divided by 10,000 population X 100,000 = 5,000 Crime Rate).

EXCEPTIONAL CLEARANCE - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE - For Minnesota Uniform Crime Report purposes, a person under the age of 18.

MUNICIPALITY - City or town that has its own government, including police department.

PART I OFFENSES - The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and occur most frequently. The monthly tabulation of Part I offenses provides a count of "offenses known".

PART II OFFENSES - The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature. Monthly tabulations of Part II offenses are included in Minnesota's crime information report.

PROPERTY CRIME - Consists of the Index Offenses of Burglary, Larceny, Motor Vehicle Theft and Arson.

VIOLENT CRIME - Consists of the Index Offenses of Murder, Forcible Rape, Robbery and Aggravated Assault.
