Clause a: GENERAL STATEMENT OF BOARD ACTIVITIES

The Minnesota State Board of Medical Practice has been given the following responsibilities:

1. Licensure to Practice Medicine and Surgery

<u>Basis</u>	<u>Licenses Issued</u>	
	FY 91	FY 92
A. FLEX written examination	34	41
B. FLEX examination other state	151	162
C. Reciprocity	44	30
D. Endorsement of National Board of Medical Examiners	520	617
E. Endorsement of National Board of Osteopathic Examiners	8	15
F. Endorsement of Medical Council of Canada	<u>16</u>	<u>19</u>
TOTAL	773	884

A. FLEX Written Examination

The FLEX examination, a three day examination, was adopted by the Board in December, 1971 and is the examination used by all states within the United States. It is also used by Puerto Rico, the District of Columbia and the Province of Saskatchewan.

The FLEX score of 75.0 on each part is the passing score used by all states, including Minnesota. The examination is given in June and December. This examination is in two parts, each 1 1/2 days long.

B. FLEX Examination Other States

The Board has authorized the office to accept applications on the basis of FLEX examination taken in other states in lieu of taking our written examination of applying on the basis of reciprocity. Many of these applicants are international medical school graduates.

C. Reciprocity

Minnesota has reciprocity with all other states having examination requirements equal to or greater than Minnesota's. This means Minnesota will accept exam scores from other states, but does not guarantee licensure.

D. Endorsement of National Board of Medical Examiners

One normally becomes a Diplomate of the National Board of Medical Examiners by taking Day 1 (basic science subjects), as a second

year medical student, Day 2 (clinical science subjects), as a fourth year medical student and Day 3, (clinical competence), as a first year resident. This is the basis on which most United States graduates and many Canadian graduates are licensed in Minnesota.

E. Endorsement of National Board of Osteopathic Examiners

Since the Board of Osteopathy was merged with the Board of Medical Examiners in 1963, the only license the Doctor of Osteopathy can obtain in Minnesota is the license to practice medicine and surgery; the same license as issued to the Doctor of Medicine. They may apply on the basis of reciprocity, examination or the National Board of Osteopathic Examiners.

F. Endorsement of Medical Council of Canada

Minnesota Session Laws 1977, Chapter 7, authorized the Board to grant licenses to licentiates of the Medical Council of Canada.

G. SPEX Written Examination

Effective, August 1, 1991, the SPEX examination, a one day written examination, has been utilized by the Board to assure minimum competency of physician applicants who have not taken a licensing examination for ten years and are not currently specialty board certified.

2. Endorsement of Certification to Other States

During the two-year period, July 1, 1990 to June 30, 1992, 302 Minnesota licentiates used their Minnesota license to obtain licensure by reciprocity in other states. In addition to the above endorsements, thousands of certifications are made to the Drug Enforcement Administration, hospitals, drug companies and so forth.

3. Professional Corporations

During the two-year period, July 1, 1990 to June 30, 1992, 51 new corporations were formed, bringing the total of corporations formed since the original law was passed in 1951 to 1357. The number of corporations registered is 644, as of June 30, 1992.

4. Temporary Licenses

A temporary license to practice medicine can be issued until the next Board meeting if all requirements for a full licensure have been met. From July 1, 1990 to June 30, 1992, 704 temporary permits were issued.

5. Physical Therapy

Physical therapists have been registered in Minnesota since 1953. Physical therapists may be registered on the basis of having passed the Assessment Systems, Inc. (ASI) exam, the Professional

Examination Service (PES) examination or the American Registry of Physical Therapy Examination (no longer available). The number granted registration is as follows:

FY 91	197
FY 92	<u>178</u>
TOTAL	375

6. Physician Assistants

Physician assistants have been registered in Minnesota since 1987. Current regulations dictate that physician assistants may be registered on the basis of having graduated from an accredited program and passed the National Commission on Certification of Physician Assistants, Inc. (NCCPA) exam. Effective March 9, 1992, rules were adopted allowing physician to delegate authority to physician assistants to prescribe and administer drugs. Physician assistants practice under a supervisory agreement with a supervising physician(s). The number granted registration is as follows:

FY 91	35
FY 92	<u>29</u>
TOTAL	64
