SUBJECT: 1992 Minnesota Department of Natural Resources Registry of Public
Recreational Trail Mileages

Enclosed you will find the latest edition of the *Minnesota Registry of Public Recreational Trail Mileages*, pursuant to Minnesota Statutes 85.017. This is the only comprehensive listing of the state's 16,000 miles of public off-road trails. It includes bicycle, cross-country ski, hike, horse, and snowmobile trails. It reflects, in part, the July 1, 1992 information contained within the Department of Natural Resources' (DNR) recreational facility computer files. These files contain a great variety of information on trails shown in this registry.

The trail information in this registry is the basis for recreation research and planning, as well as for public information. The DNR's Trails and Waterways Unit has recently updated most of the cross-country ski, horseback and snowmobile trail information files listed in this registry, as well as other trail types to varying degrees. Information contained in this database finds its way into various publications, both at the state and national level.

If you have any questions or comments about this registry, please contact me. Your continuing help in maintaining the accuracy of Minnesota's trail information is appreciated. Also, if you know of others who should receive this trail inventory, please let us know.

INTRODUCTION

This trail mileage registry is mandated under Minnesota Statutes 85.017 which states: "The Commissioner of Natural Resources shall compile and maintain a current registry of cross-country skiing, hiking, horseback riding and snowmobiling trails in the state and shall publish and distribute the information" It is a by-product of a recreation facility inventory first called for in the State Comprehensive Outdoor Recreation Plan (SCORP).

The SCORP process dates back to the 1964 Land and Water Conservation Fund Act passed by Congress and implemented in Minnesota under Minnesota Statutes 86.71 (1965, Laws of Minnesota, Chapter 910, as amended).

This registry is a comprehensive listing of the five major recreational trail types. It is not intended as a trail user's guide. The number of public trails listed is more comprehensive than those in public brochures. This is because, for a variety of reasons, some administrators have chosen not to promote their trails in public brochures. The registry does not offer a fully detailed description of all information on the data system. The information presented here, however, is useful for allocation of funds and planning/management purposes.

For a more extensive trail description, an inquirer may contact the Department of Natural Resources' (DNR) Outdoor Recreation Information Center. This center provides an extensive number of trail maps and brochures free to the public.

The total private trail miles (by DNR Region) have been included in this registry for the sake of completeness. Parts of this listing are in great need of updating because it was compiled primarily in the mid-1970s. It has not been feasible for the DNR to keep this category current.

EXPLANATORY NOTES

A "trail" is defined as any continuous pathway intended for recreational use for a period of time (all or part of the year). The "intended" use of a trail is determined when it is designated by a trail administrator. The administrator is the agency or individual having the authority to execute and/or arrange for any of the following: acquisition, development, maintenance and management. For a trail or trail activity to be "designated," it must be advertiseable, useable, and either signed, mapped or

identified by written policy of the administrator. Designated uses in this registry include hiking, skiing, horseback riding, biking, and snowmobiling.

A trail does not include road shoulders (i.e., bikeways) which do not provide a physical treadway separation for the recreationist. However, some roads (i.e., in parks and forests) become trails in winter when they are designated exclusively for either snowmobiling or cross-country skiing.

Since December 1981, nearly all public trails in this file have been updated. Most snowmobile and cross-country ski trail information was updated in the fall of 1989 in preparation for publication by the Office of Tourism and the DNR. Another recent update has been the spring 1989 review for Minnesota's State Horse Trails. Each of these data updates, as well as other inventory updates, are reflected in the date of information for each trail segment as reported in the extreme right column.

Five new maps have been added showing the trailhead locations statewide. Public Hiking Trailheads are concentrated in the Twin Cities metropolitan area where the largest portion of the population can find them most easily (page vi). Public Horse Trailheads illustrates how public horse trails are distributed primarily on the basis of where state parks and state forests are located (page vii). Public Snowmobile Trailheads illustrates the progress-to-date of distributing snowmobile trails statewide (page viii). Public Cross-Country Ski Trailheads illustrates how ski trails are concentrated in the Twin Cities metropolitan area where the largest portion of the population has them within one-half hour from home (page ix). Public Bicycle Trailheads illustrates how public bicycle trails are concentrated in the Twin Cities metropolitan area where population density calls for more close-to-home options that are also protected from automobile pressures.

This report is computer generated from the RECFAC (recreational facility) database, which is managed by the DNR's Office of Planning on a COMPAQ 386 micro-computer.

TRAIL ADMINISTRATION CATEGORIES

Federal;

U.S. Forest Service (part of the U.S. Department of Agriculture) - managed within statutory boundaries.

U.S. Fish and Wildlife (part of the U.S. Department of the Interior) - managed within units of National Wildlife Refuges.

U.S. Fish and Wildlife (part of the U.S. Department of the Interior) - managed within units of National Waterfowl Production Areas.

National Park Service (part of the U.S. Department of the Interior) - managed within National Parks.

U.S. Army Corps of Engineers (part of the U.S. Department of Defense; Army Corps, COE, ACE) - managed within Federal water reservoir boundaries.

State (Department of Natural Resources);

Division of Forestry - managed inside statutory State Forest boundaries.

Division of Forestry Outside - managed outside statutory State Forest boundaries.

Division of Fish and Wildlife - managed inside statutory Wildlife Management Areas or Scientific and Natural Areas.

Trails and Waterways Unit - managed "State Trail" as defined by statute.

Division of Parks and Recreation - State Park managed trails.

County;

County Government - managed by a county government including county forestry, public works, or park departments.

County Government (GIA)* - sponsored by a county government with the aid of the DNR's Trails Assistance Program.

Hennepin Parks - managed by the Suburban Hennepin Regional Park District (SHRPD), within its boundaries.

Hennepin Parks (GIA)* - managed by the SHRPD, within its boundaries, with the aid of the DNR's Trails Assistance Program.

City;

Minor Civil Division - managed by a local government, including townships, city highway/parkway departments, or other city public works or parks departments.

Minor Civil Division (GIA)* - sponsored by a local government with the aid of the DNR's Trails Assistance Program.

Other;

MN Historical Society - managed as part of a state historical site.

MN Department of Transportation - managed as part of a state highway development.

Minnesota Zoo - managed as an extension of the Zoo's programs.

University of Minnesota - managed as part of the University's educational program.

State Community Colleges - managed as part of the College's educational program.

Other State - managed by other state agencies, specifically the Iron Range Resources Rehabilitation Board (IRRRB).

School District - managed as part of a public school system.

Private;**

Various Private - managed by private entities, including church organizations, individuals, or other profit or non-profit corporations.

(*) Grants-In-Aid (GIA) trails are single-use trails built by local people, often on privately owned land, sponsored by a local unit of government, and funded by the DNR through its Trails Assistance Program. The Program is used to develop and maintain cross-country skiing and/or snowmobiling trails. Any other use of these trails is incidental, and in certain instances is prohibited.

(**) This category has only been summarized. Most of the individual trail listings are in need of updating.
