The numbers of approved professional and practical nursing programs as of June 30 of each fiscal year are shown below:

<u>Type of Program</u>	<u>FY 1991</u>	<u>FY 1992</u>

Approval of one new practical nursing program at Southwestern Technical College in Pipestone was granted in FY 1991. The controlling institutions operating the Austin, Faribault and Rochester Technical Colleges' practical nursing programs were consolidated into Minnesota Riverland Technical College with campuses in each city. Austin and Faribault Technical Colleges voluntarily closed their programs to begin alignment with Rochester. Therefore, approval was terminated for the two closed programs; approval continues for the renamed Minnesota Riverland Technical College Practical Nursing Program, with campuses in Rochester, Austin and Faribault.

Clause p: (continued)

The College of St. Catherine Department of Nursing which prepares professional nurses separated from the Minnesota Intercollegiate Nursing Consortium (MINC) and returned to independent operation. St. Olaf College and Gustavus Adolphus College continue in the consortium.

The loss of professional staff due to early retirement resulted in few surveys for renewal of approval for the purpose of determining continued compliance with administrative rules. Three partial surveys of practical nursing schools were completed in FY 1991 due to low passing rates of graduates on the licensing examination. One partial survey of a practical nurse program was completed in FY 1992 in response to expressed student concerns. Each of the above practical nursing programs was found to be in compliance with all applicable rules. Two professional nurse programs were surveyed and approved during FY 1992.

3. PUBLIC HEALTH NURSING

The number of registered nurses who were granted public health nursing registration during FY 91 and FY 92 is as follows:

<u>FY 1991</u>	<u>FY 1992</u>

4. NURSING ASSISTANT REGISTRY

From July 1, 1990 to December 31, 1991, the Board continued to implement portions of Public Law 100-203 (called OBRA '87) pertaining to nursing assistant training, competency evaluation programs and a registry of nursing assistants who work in long term care facilities.

Authorization for these activities was provided under a contract with the Minnesota Department of Health and Minnesota Statutes Section 144A.61 that expired on December 31, 1991. On January 1, 1992, all activities for the administering the nursing assistant registry were transferred to the Minnesota Department of Health.

During FY 91 and 92 (up to December 31, 1991), the Board approved 51 training programs and one curriculum. When the program was transferred to the health department, a total of 95 training programs had been approved by the Board since the initiation of the registry in FY 89. Also since that time, the Board had approved three curricula to be used in these training programs.

As of June 30, 1991, 36,366 nursing assistants were on the registry. For that portion of FY 92 that the registry was administered by this agency, 38,901 nursing assistants were on the registry.
