# AFFIRMATIVE ACTION STATISTICS

## State of Minnesota

January 1993

For questions about federal forms: (612) 370-3177

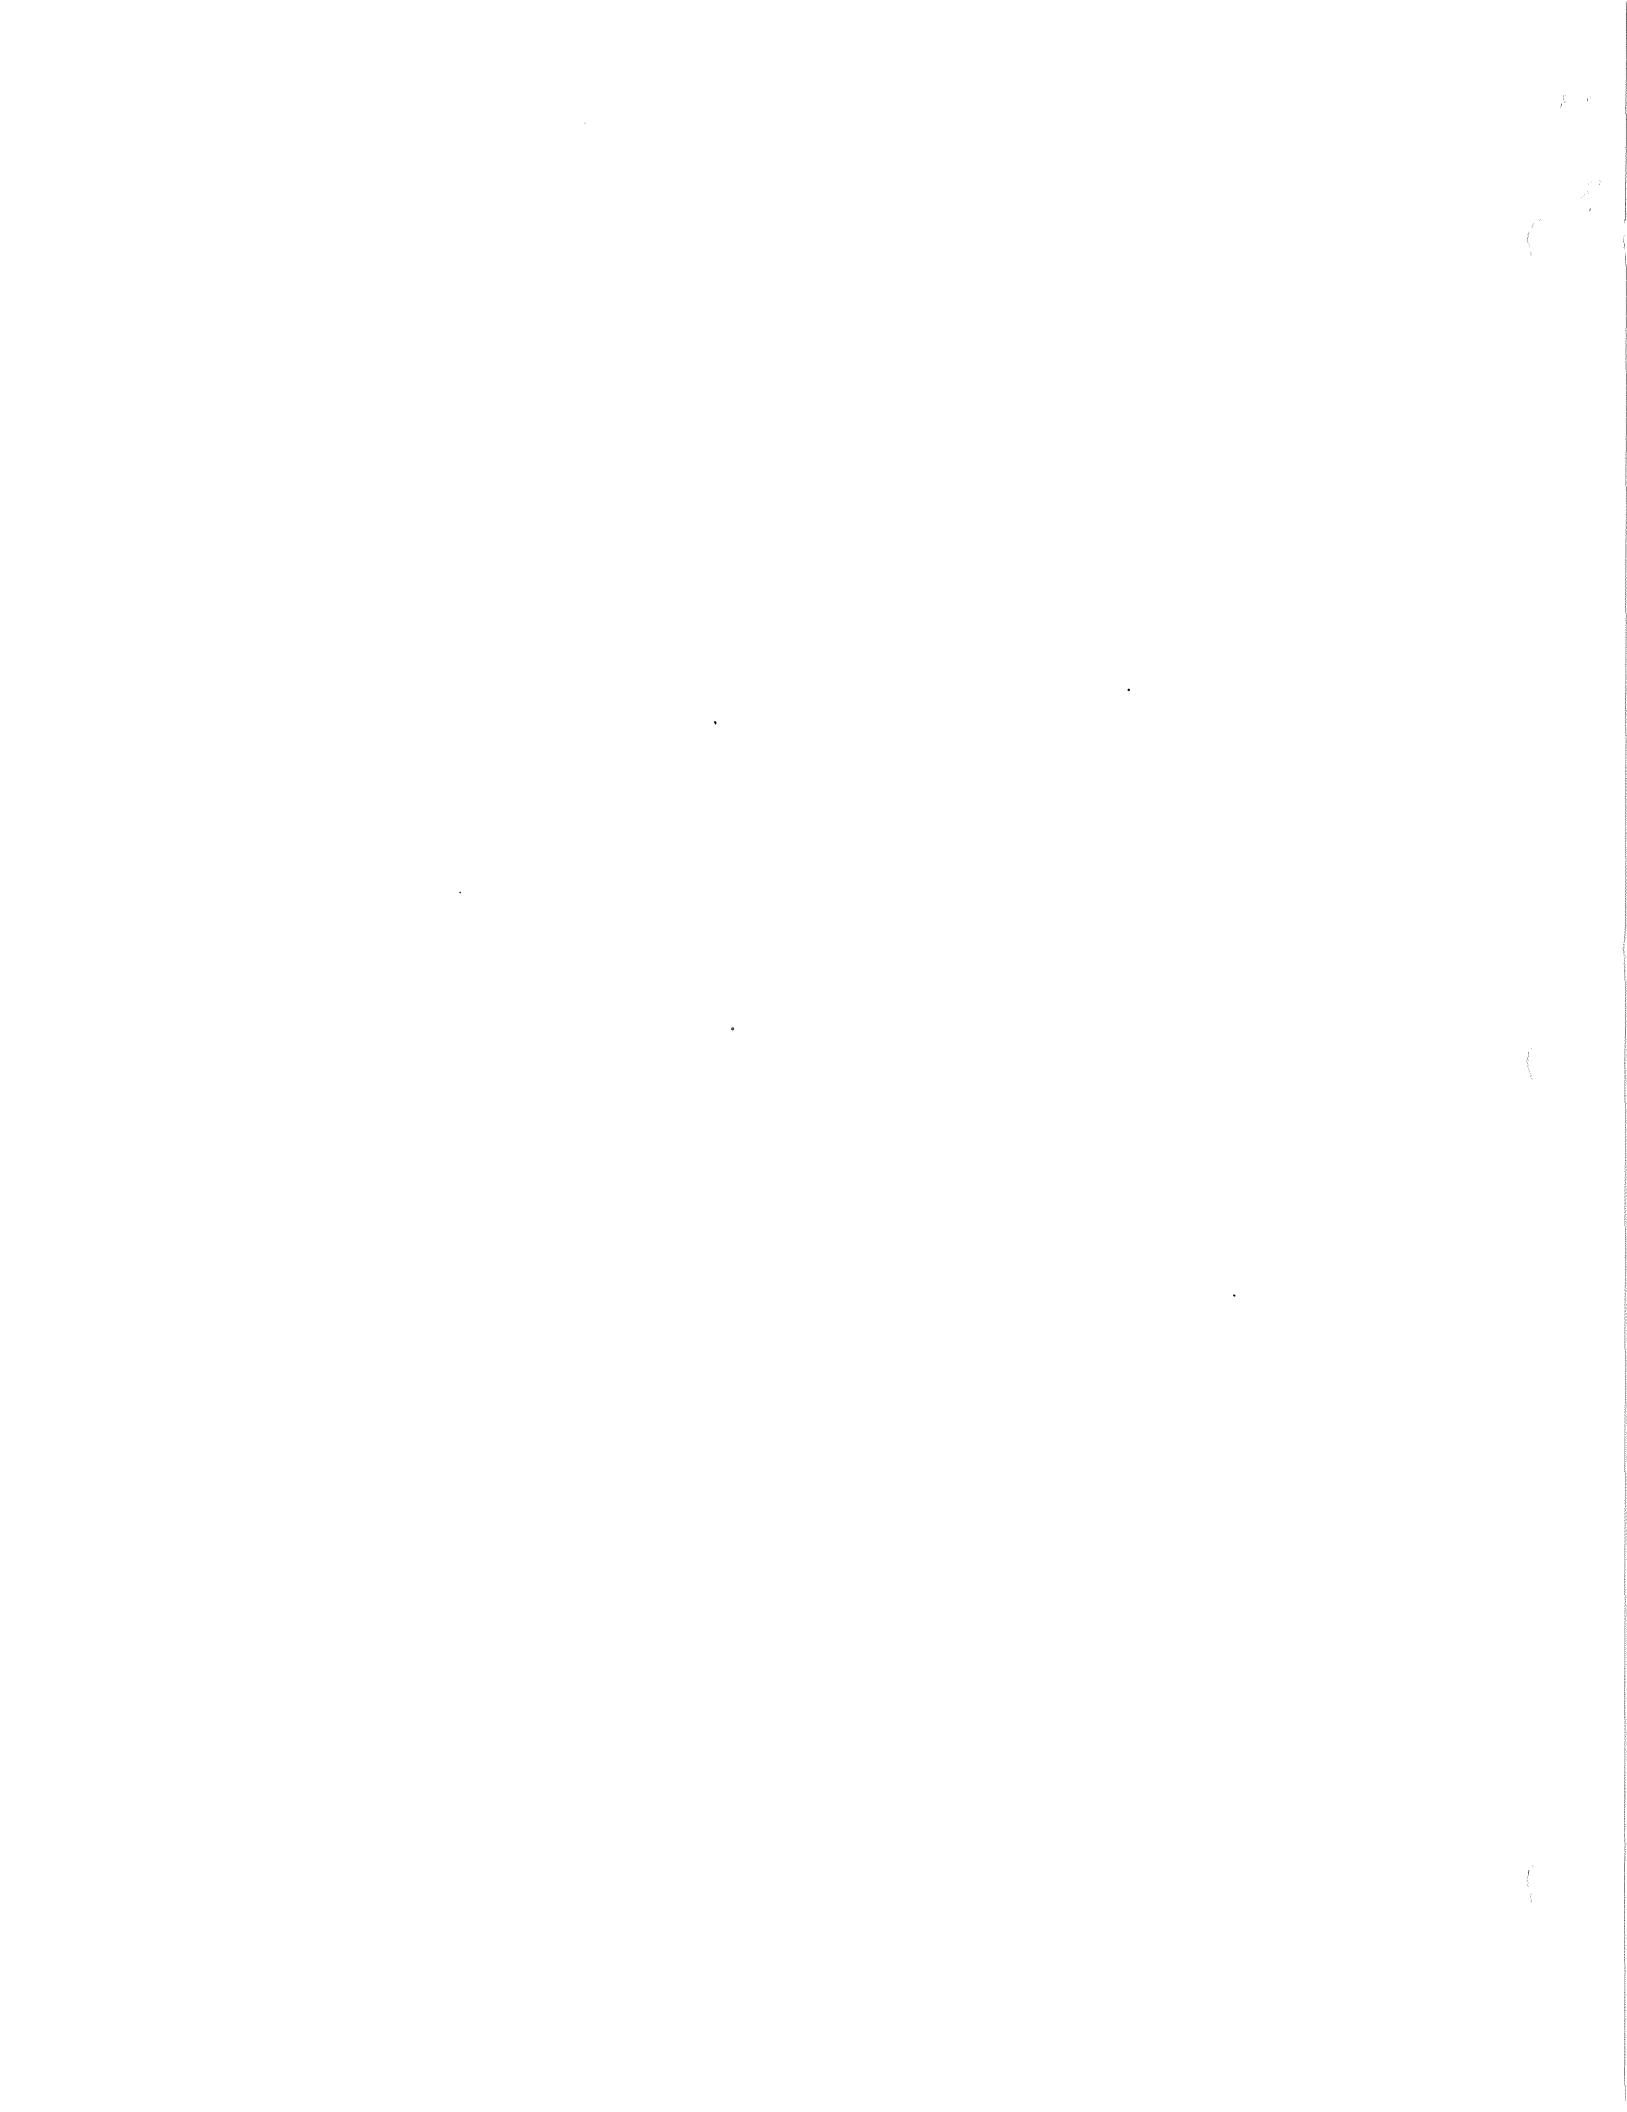

If you are completing federal forms, call the Office of Federal Contract Compliance (U.S. Dept. of Labor) at (612) 370-3177, or write to that office at Bridgeplace Bldg., Room 102, 220 S. 2nd St., Minneapolis, MN, 55401.

For questions about state forms: (612) 296-5663

If you are completing state forms, call the Minnesota Department of Human Rights, Contract Compliance Office, at (612) 296-5663, or write that office at 500 Bremer Tower, 7th Place & Minnesota Street, St. Paul, Minnesota, 55101.

The statistics in this booklet are prepared by:  
Research and Statistics Office, Minnesota Department of Jobs and Training  
390 North Robert Street, Saint Paul, Minnesota 55101 (612) 296-6545

The data in this report meet the minimum requirements specified in the Code of Federal Regulations, 41 CFR 60-2.11.

**Equal employment opportunity** is the objective of affirmative action programs. To achieve this goal, and to meet Equal Employment Opportunity compliance requirements, an affirmative action program must include an analysis of a contractor's employment of women and minorities, and goals and timetables to correct deficiencies.

**Affirmative action statistical packets** are developed and distributed by the Research and Statistics Office of the Minnesota Department of Jobs and Training to assist employers who are completing affirmative action plans. The packets are available for the following areas:

## Metro Statistical Areas (MSA's)

Mpls.-St. Paul MSA (11 counties)	The city of Minneapolis
Rochester MSA (Olmsted County)	The city of St. Paul
St. Cloud MSA (3 counties)	The city of Duluth
Mankato labor market area	The city of Rochester

## **Mankato labor market area (Blue Earth-Nicollet Counties)      The total United States**

**Other states:** To obtain affirmative action data for another state, call that state's office of affirmative action statistics:

Wisconsin: (608) 266-0851  
Iowa: (515) 242-5868

North Dakota: (701) 224-3048  
South Dakota: (605) 622-2314

For other states' numbers:  
(612) 296-6545

**Tables 1, 2, 3 & 6** in this packet are from the 1990 census and will not be updated until 2000 census data have been collected, tabulated, and made available. However, the statistics in **Tables 4 and 5** were updated in December, 1992 with 1991 data on unemployment insurance claimants and Minnesota Job Service registrants, and this provides at least a partial picture of the current availability of workers.

**For Assistance:** For help in completing affirmative action forms or for help in interpreting compliance regulations, contact the following:

Federal forms: Call (612) 370-3177, or write to:

## **Summary of Affirmative Action Statistics**

The majority of employers in Minnesota probably recruit their workers from within the state. However, some positions such as those for professionals and skilled laborers may have a much broader recruitment area. In these cases, adjacent states and other labor market areas should be considered in setting affirmative action program goals. The data presented in the tables in this packet will assist companies in completing an availability analysis and utilization/underutilization analysis.

### **Description of Tables:**

**Table 1** presents population data by race and sex as collected by the 1990 census. This table shows the 1990 population by minority status and the female population by minority status. The female percentage composition (the number of females divided by the total population) and the minority percentage composition ("Minority-Group", or the sum of all minorities, divided by the total population) are also shown.

**Table 2** contains 1990 labor force statistics by sex and minority status as collected by the 1990 census. This table shows the total number of persons in the labor force by female and minority status. The percent distribution of the labor force by sex and minority status is also shown. This table contains the data required to do an availability analysis for employers with fewer than 50 employees.

**Table 3** identifies occupations of persons in the 1990 labor force by sex and minority status, including the percent distribution of sex and minority groups within the same occupation. This information shows the availability of experienced workers in various occupations or job groups. The table is preceded by an index which shows the census occupational code and its related occupational category. A more detailed report on 514 occupations in the labor force is available upon request from the Research Office of the Minnesota Department of Jobs and Training. In order to keep down costs, the detailed table was not included in this packet. There is no additional charge for the detailed data.

**Table 4** provides data on the occupations of the insured unemployed by sex and minority status. This group includes persons who claimed benefits for unemployment insurance during calendar year 1991. The occupations are coded according to the Dictionary of Occupational Titles which differ from the census occupational classification system. This data is important in that it provides an ongoing profile of the makeup of the labor supply during years between the decennial censuses. In general, unemployment insurance claimants have historically come from the goods producing industries, such as mining, construction, and manufacturing, rather than service producing industries. Consequently, the proportion of males in the unemployment insurance data is higher than the 1990 Census data.

**Table 5** lists the occupations of job applicants who registered to seek work through Minnesota Job Service offices during calendar year 1991. Once again, occupational categories are based on the Dictionary of Occupational Titles rather than the census job groups.

**Table 6** contains data on the work disability and labor force status of persons in each area. The data is disaggregated by gender and age.

## Definitions

**Labor Force** - "Employed" plus "unemployed" civilians (see further definitions below). 1990 census respondents were considered "employed" or "unemployed" depending on whether they were employed or unemployed during the calendar week prior to the date on which they either completed their census questionnaires or were interviewed by census takers. Since the week of response was not the same for all persons, the reference week for labor force data is not entirely uniform. For many persons, however, the reference week for answering the 1990 census employment questions was the last week in March, 1990.

**Employed** - Civilians 16 years old and over who, in the reference week, were either (a) "at work" - those who did any work at all as paid employees or in their own business, profession, or on their own farm, or who worked 15 hours or more as unpaid workers on a family farm or in a family business; or (b) "with a job but not at work" - those who did not work during the reference week but had jobs or businesses from which they were temporarily absent due to illness, bad weather, industrial dispute, vacation, or other personal reasons. Excluded from the employed are persons whose only activity consisted of work around the house or volunteer work for religious, charitable, and similar organizations.

**Unemployed** - Civilians 16 years old and over who were neither "at work" nor "with a job, but not at work", but who were: (a) looking for work during the last four weeks, and (b) available to accept a job. Also included as unemployed are persons who did not work at all during the reference week and were waiting to be called back to a job from which they had been laid off.

**Labor force participation rate** is the proportion of persons, 16 years of age and older, who are in the labor force.

**Race** - All persons were asked to identify themselves according to the following race categories on the 1990 census questionnaire: White, Black, American Indian/Eskimo/Aleut, Asian or Pacific Islander, or Other Race. Asian includes "Chinese," "Filipino," "Japanese," "Asian Indian," "Korean," "Vietnamese," "Cambodian," "Hmong," "Laotian," "Thai," and other Asian, such as Indonesian or Pakistani. Pacific Islander includes "Hawaiian," "Samoan," "Guamanian," and other Pacific Islander, such as Tahitian. The Asian or Pacific Islander population data from the 1990 census will differ from the 1980 census data because all Asians or Pacific Islanders were categorized in that one category whereas in 1980 some Asian populations, such as Cambodian and Hmong, were included in the Other Race category. In the 1990 Census, the Other Race category includes all persons not included in the major four race categories mentioned above. Examples of persons reported in the Other Race category include multiracial, multiethnic, mixed, interracial, Wesort, or a Spanish/Hispanic origin group (such as Mexican, Cuban, or Puerto Rican).

**Hispanic** in the 1990 census refers to those who classified themselves in one of the specific Hispanic origin categories listed on the census questionnaire - "Mexican," "Puerto Rican," or "Cuban" - as well as those who indicated that they were of "other Spanish/Hispanic" origin. Persons of "Other Spanish/Hispanic" origin are those whose origins are from Spain, the Spanish-speaking countries of Central or South America, or the Dominican Republic, or they are persons of Hispanic origin identifying themselves generally as Spanish, Spanish-American, Hispanic, Hispano, Latino, and so on. The 1990 data on Hispanic origin are generally comparable with those for the 1980 Census.

## **Occupational Definitions**

### ***Executive, Administrative, and Managerial***

This group includes the top and middle management occupations and occupations directly supportive to management which are concerned with achieving the overall objectives of an industrial, commercial, governmental, or other establishment. Top level managers include persons concerned with policy making, planning, staffing, directing, and/or controlling activities in an organization. Middle managers include persons who plan, organize, staff, direct, and/or control activities at the operational level. Workers in this group are not directly concerned with the fabrication of products or with the provision of services. They require a knowledge of and the capacity to put into effect management principles, practices, and techniques.

### ***Professional***

This group includes occupations concerned with the theoretical and practical aspects of such fields as: architecture, engineering, mathematics, physical and social sciences, medicine and health, education, museum, library, and archival sciences, law, theology, the arts, and recreation. Most of these occupations require substantial educational preparation, usually at the university or college level.

### ***Technologists and Technicians***

This group includes occupations concerned with providing technical assistance in the provision of health care, in engineering and scientific research, development, testing, and related activities, as well as independently operating and programming technical equipment and systems.

### ***Sales***

This occupational group includes occupations concerned with selling goods and services, purchasing commodities and property for resale and with conducting wholesale and retail businesses.

### ***Administrative Support***

Administrative Support includes occupations concerned with preparing, transcribing, transferring, systematizing, and preserving written communications and records; collecting accounts; gathering and distributing information; operating office machines and electronic data-processing equipment; storing, distributing, and accounting for stores of materials; operating telephone switchboards, distributing mail and delivering messages; and performing other administrative support and clerical duties.

### ***Service***

Service includes occupations concerned with providing domestic services in private households; preparing and serving food and drink in establishments; providing lodging; providing grooming and other personal and health care services for individuals; providing protection for people and property; and performing cleaning and maintenance of buildings, etc.

### ***Farming, Forestry, and Fishing***

This group includes occupations concerned with the production, propagation, gathering, and catching of animals, animal products, plant products; the provision of services associated with agricultural production, and game farms, fisheries, and wild life conservation.

### ***Precision Production, Craft, and Repair***

*Precision Production Occupations* require a high degree of precision in the tasks performed. Frequently, these occupations require an ability to interpret detailed instructions and specifications. The amount of time spent in training for these occupations is substantial, in most cases at least six months to a year, and in many cases, several years.

*Construction Trades* include occupations which involve constructing, altering, and maintaining buildings, other structures, roads, bridges, pipelines, and similar projects. Most of the occupations require two or more years of specific vocational preparation.

*Extractive Occupations* include occupations concerned with drilling oil wells, blasting, or cutting materials to be mined.

*Mechanics and Repairers* include occupations concerned with the adjustment, maintenance, part replacement, and repair of tools, equipment, and machines.

### ***Production Working***

This group includes occupations concerned either with the setting up, operating, and tending of machines or with hand production work, usually in a factory or other fixed place of business.

### ***Transportation and Material Moving***

This group includes occupations concerned with operating and controlling equipment used to facilitate the movement of people or materials and the supervising of those workers.

### ***Handlers, Helpers, and Laborers***

This occupational group includes jobs which involve helping other workers and/or performing routine, nonmachine tasks.

<sup>3</sup> Hispanics may be of any racial group.

<sup>4</sup> Minority Group includes the sum of Hispanic and all races except white. Because Hispanics may be reported as both Hispanic and a racial category other than white, this number may be inflated by the level of duplication in reporting these individuals.

## **Index of Occupational Codes and Job Titles**

Table 3 which follows is a summary table which contains the number and percent distribution of the labor force by major occupational groups by gender and minority status. Please use the following table to match the occupational code number with the appropriate job group.

<b><u>CODE NUMBER</u></b>	<b><u>JOB GROUP</u></b>
