Stat. 6.75

P R E F A C E

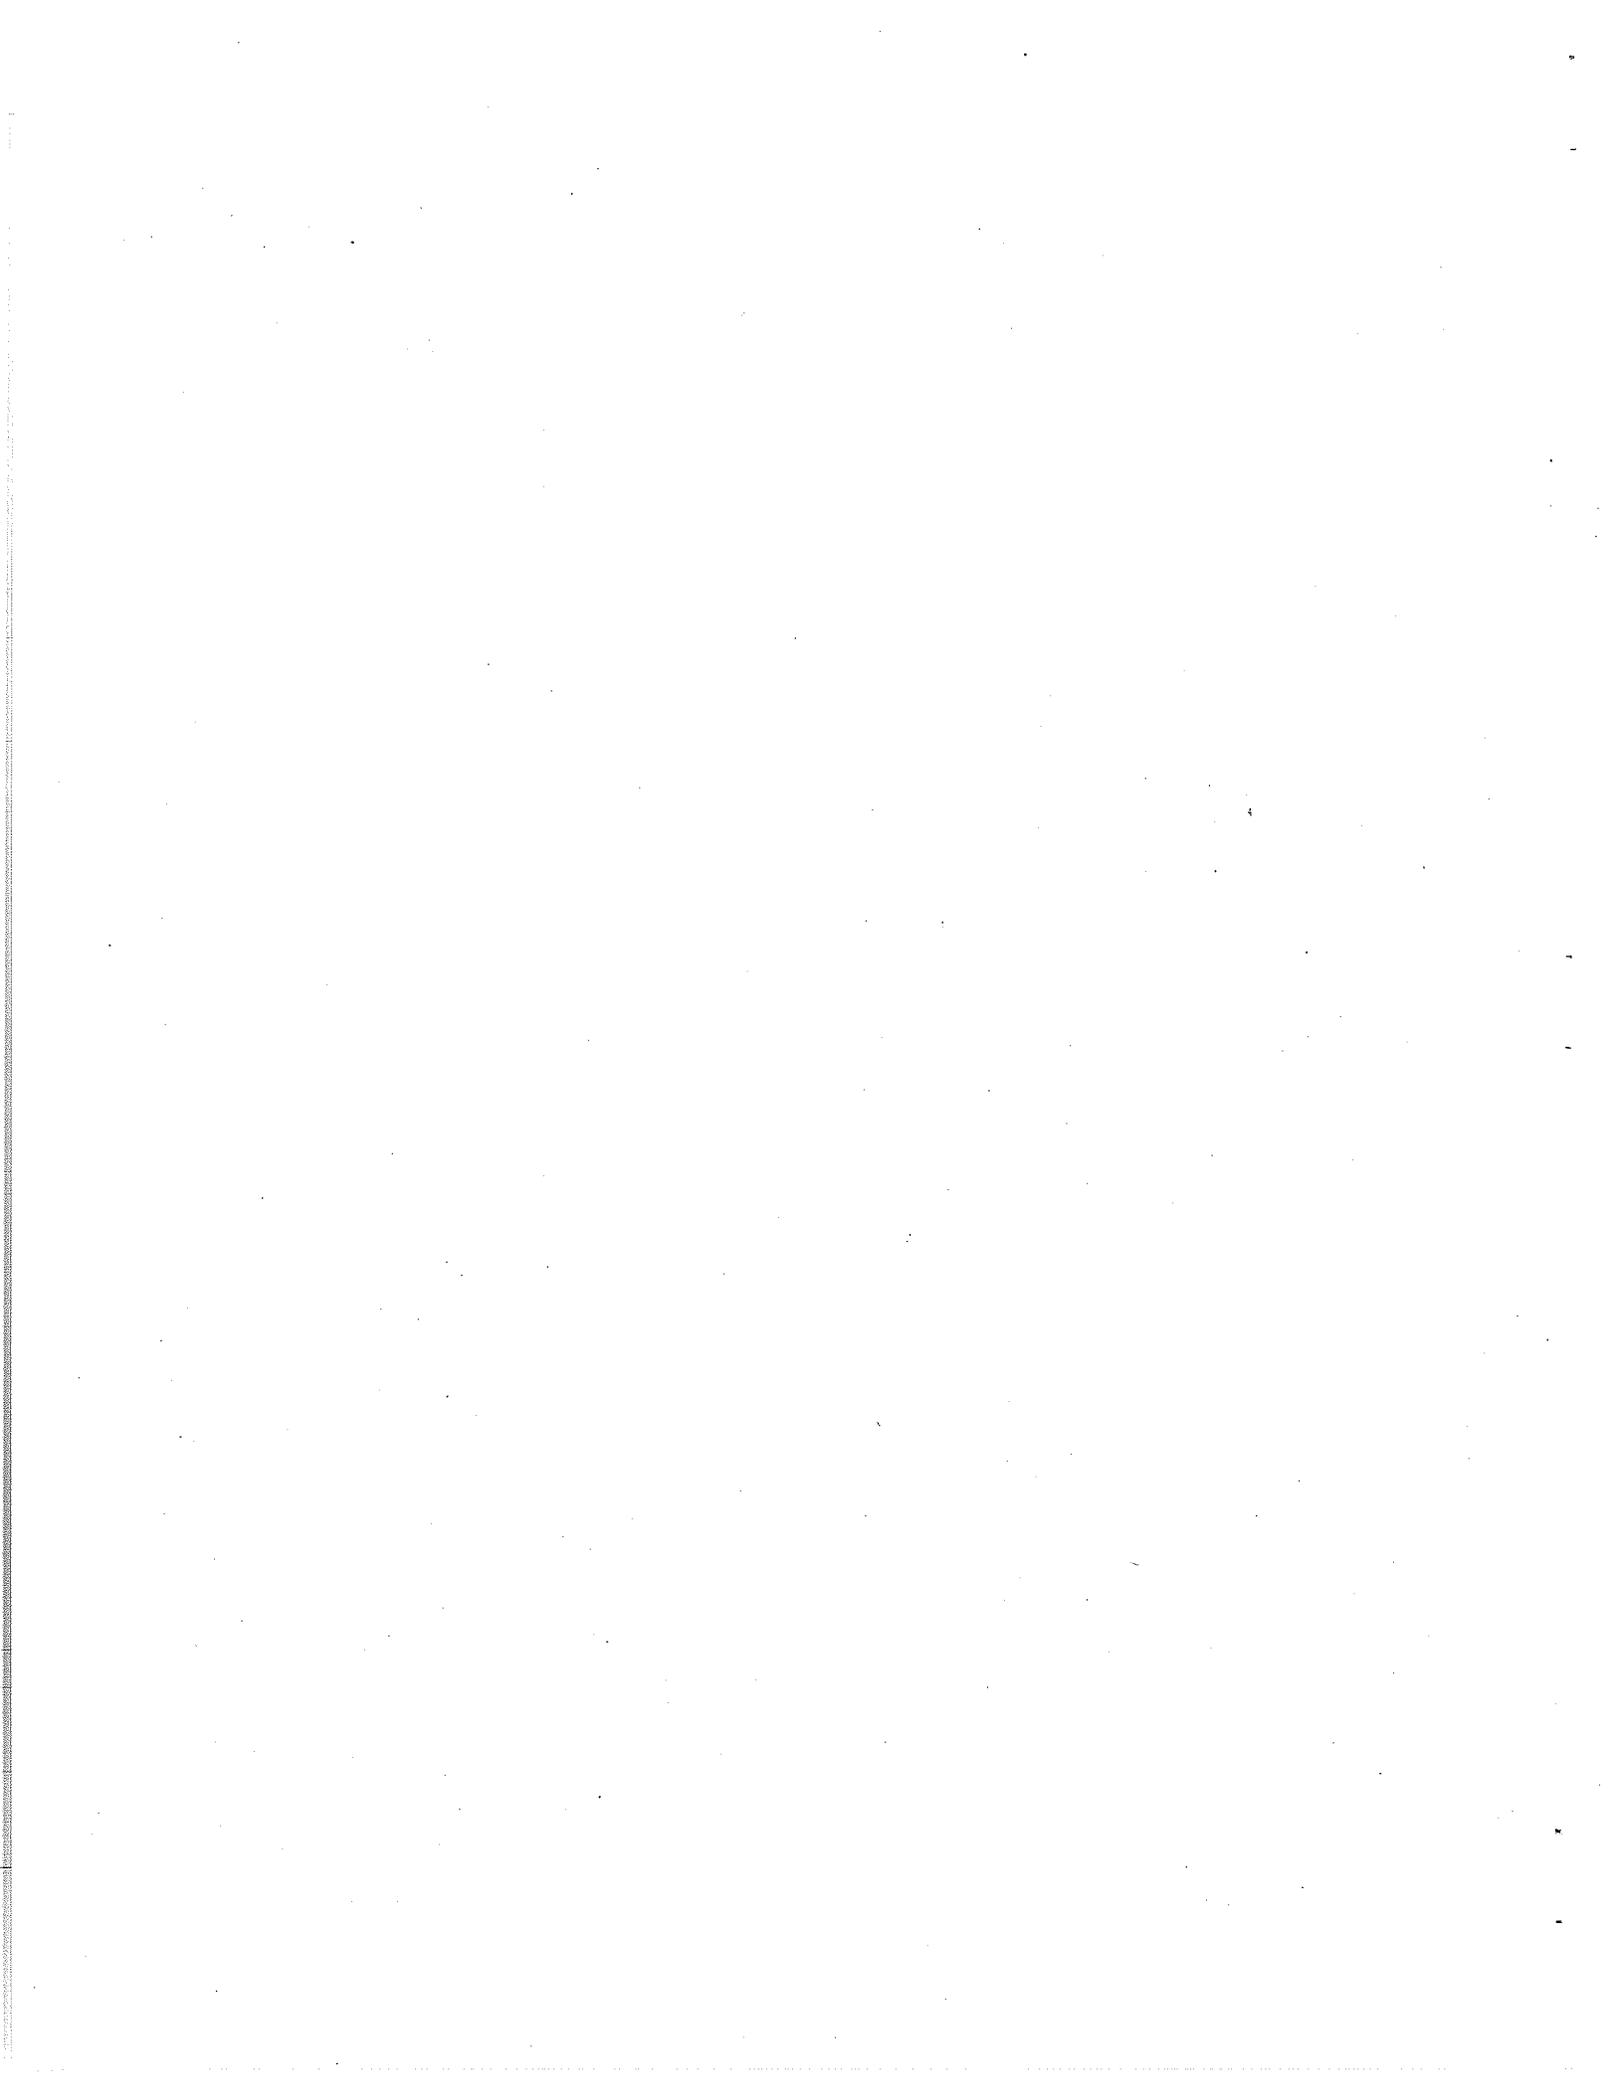

The annual report of the State Auditor on revenues, expenditures, and debt of the cities in Minnesota for the fiscal year ended December 31, 1993, includes taxable tax capacities, net tax levies and the financial operations of municipalities. Populations were taken from "Minnesota Populations, 1993" issued by the Office of the State Demographer. The data have been collected, published and distributed pursuant to Minnesota Statutes, Sections 6.74 and 6.75.

In this report, as in the 1981 through 1992 reports, all enterprise funds are reported separately from the governmental funds in accordance with current accounting and reporting practices. Caution is necessary when comparing recent reports to those published in years prior to 1981, since separate reporting of enterprise and governmental funds was not uniform until 1981.

The Office of the State Auditor has generated this report using dBASE IV and IBM compatible personal computers. Anyone who wishes to analyze the data further should call (612) 297-3688.

My staff and I want to express our appreciation to the city clerks and municipal finance officers whose helpful cooperation contributed to the preparation of this report.

EXECUTIVE SUMMARY

1993 FINANCES FOR CITIES UNDER 2,500 POPULATION

OVERVIEW

Minnesota's smaller cities, those under 2,500 in population, increased their spending 4.5 percent between 1992 and 1993. (This excludes capital expenditures and debt service payments.) Cities increased their spending in the areas of economic development, general government, streets and highways, and culture and recreation.

CITY REVENUES

Total revenues to the 674 Minnesota cities under 2,500 in population decreased 1.2 percent to \$249 million in 1993. This decrease is rather unusual considering that revenues have increased every year for the last ten years. In addition, revenues derived from property taxes and charges for services rose 7.9 and 8.6 percent respectively in 1993. Offsetting the increases in property taxes and service charges were drops in intergovernmental revenues and earnings from interest.

Although revenues from state aid and grants remained by far the largest single source of revenue to small cities, accounting for 36.5 percent of all revenues, they declined \$7.5 million, or 7.6 percent between 1992 and 1993. State aid and grants to cities under 2,500 population totaled \$91.3 million in 1993.

Among state aid programs, there were declines of over \$2 million each in local government aid (LGA), small city development grants (SCDG's) and in "other" state grants. SCDG's and "other" state grants can vary greatly from year-to-year because they are likely to fund specific projects that are either one-time or short-term expenditures.

In 1992, cities enjoyed a bonus one-time distribution of excess LGA revenue due to a surplus in the local government trust fund (LGTF). The distribution of excess LGA inflated the 1992 revenues. The excess revenue was not added permanently to a city's LGA base which resulted in lower LGA payments in 1993. Cities that relied on the excess revenue to fund services in 1992 had to either cut services or find replacement revenues in 1993.

Property-taxes strengthened their position as the second largest source of revenues for Minnesota small cities. Property-tax revenues increased \$4.1 million, or 7.9 percent, to \$56.0 million in 1993. While this represents a smaller increase than last year's 13 percent increase, it still was greater than the rate of inflation and the increase in expenditures. Property-taxes provided 22.4 percent of all small city revenues in 1993 compared to 20.5 percent in 1992.

Small cities also increased their reliance on service charges to finance city services. Revenues from service charges grew \$1.6 million, or 8.6 percent, to \$20.5 million between 1992 and 1993. Charges for services now represent 8.2 percent of all small city revenues, up from 6.2

percent five years ago.

Federal revenues to small cities grew by 5 percent to \$14.3 million in 1993. While federal revenues increased in 1993, they represent just 5.8 percent of all small city revenues, down from 8.9 percent of revenues five years earlier.

Interest earnings declined almost 19 percent in 1993. Earnings from interest represented 3.9 percent of all revenues, down from 7.2 percent two years earlier. Interest earnings have been on the decline since 1990.

Tax increments, which grew by more than 36 percent in 1992 declined by 1.9 percent in 1993.

CITY CURRENT EXPENDITURES

Spending by Minnesota's small cities increased \$6.6 million, or 4.5 percent in 1993. Current expenditures (excluding capital outlays and debt payments of both interest and principal) reached \$151.1 million, up from \$144.5 million in 1992. The increase was less than the average annual increase of the previous five years (6.9 percent).

Small cities concentrated their spending in two major areas, public safety and general government services. These two categories of spending account for more than 50 percent of all expenditures by cities under 2,500 in population. Both categories of spending saw only modest increases over 1992 levels.

Small cities spent \$42.2 million on public safety services in 1993, 1.5 percent over 1992 levels. Spending on police, fire, ambulance and other protection represented 27.9 percent of all current expenditures for small cities, the largest share of any category of spending.

General-government services, such as administration, finance and elections, had the second highest share of small-city spending at 25.7 percent of total current expenditures, or \$38.9 million. Spending on general government services increased \$1.7 million, or 4.6 percent in 1993.

Spending on economic development increased a \$2.8 million in 1993, 64.2 percent over 1992 levels. Although the percentage increase was unusually large, spending on economic development activities represents just 4.7 percent of all small city current expenditures.

Other services for which current expenditures increased included:

- Streets and highways. Small cities spent \$32.6 on streets and highways in 1993, \$1.6 million more than in 1992. Spending on streets and highways account for 21.6 percent of current expenditures.
- Culture and recreation. Spending on libraries, parks and recreation increased by 8.2%,

or \$1.1 million in 1993. Small cities spent a total of \$13.9 million on libraries, parks and recreation, 9.2 percent of all current expenditures. Spending on culture and recreation represented only 5.2 percent of small city spending five years earlier.

Spending on all other services declined between 1992 and 1993. Cities spent 35.8 percent less on health services; 25.9 percent less on airports; 21.0 percent less on housing and urban development; and 2.8 percent less on sanitation services.

Expenditures for Capital Purchases and to Reduce Debt

In addition to the \$151 million in current expenditures, small cities spent \$96.9 million on capital outlays. Expenditures on capital projects declined 6.6 percent, or \$6.8 million in 1993. Capital outlays accounted for 32 percent of all expenditures in 1993. Spending on capital outlays can fluctuate greatly from year to year because of varying city needs.

Minnesota's small cities also spent \$35.8 million in principal and \$18.6 million in interest payments on debt in 1993. Spending on principal and interest declined 3.6 percent and 3.7 percent respectively. Small cities took advantage of favorable interest rates and increased their spending on debt redemption and refunded bonds by 162 percent to \$11.7 million.

CONCLUSION

Many of Minnesota's smallest cities find themselves relying more on property taxes to fund essential services. Property tax increases in 1993 were double the rate of inflation and outpaced increases in expenditures. Unfortunately for many of these small cities, relief from the federal or state government is unlikely to occur. In fact, state aid to cities will likely decrease as the state moves towards a greater role in financing education. In this era of public hostility to property tax increases, cities must continue to find less expensive, more efficient ways of delivering essential city services or face the prospect of scaling back services to their citizens.

INTRODUCTION

This report covers financial operations of the 674 cities under 2,500 in population for the calendar year 1993. Beginning in 1991, cities under 2,500 and over 2,500 in population were separated into two volumes to present the data in a format more useful to the reader.

Sources of the data include the annual city financial reporting form, audits by public accountants, financial statements prepared by the city clerk or clerk-treasurer, county auditors' reports of indebtedness, and the Department of Revenue records of state shared tax distributions, grants, aids, taxable valuations and tax levies.

Of the 674 cities under 2,500 in population, 384 cities report on the cash basis of accounting. This is in accordance with Minnesota Statute 471.698, which requires the city to prepare and submit an annual detailed statement of the financial affairs of the city to the State Auditor.

The remaining 290 cities have elected to comply with Minnesota Statutes 471.697. This requires cities to submit comprehensive annual financial reports and an audited financial statement prepared in accordance with Generally Accepted Accounting Principles (GAAP). The governmental funds are reported using the modified accrual basis of accounting, and the enterprise funds are reported using the accrual basis of accounting. Pursuant to Statutes Section 412.591, Subdivision 2, cities operating under Option Plan "A" with the combined office of clerk-treasurer are also required to have an audit, although the audited financial statements may be on the cash basis of accounting.

This report includes the financial operations of the governmental funds for each city. These funds are the General Fund, Special Revenue Funds, Capital Projects Funds, and Debt Service Funds. Further, all reported enterprise funds are separated from the city governmental funds. Major enterprise funds common to most cities are grouped together by type of enterprise fund such as Water Utilities, Sewer Utilities, Refuse Disposal, Electric, Nursing Homes, etc. Finally, the outstanding bonded debt of cities is identified and the debt totaled by the type of bond issue. Other types of long-term debt such as notes or loans are combined into one total for the city.

The revenues and expenditures for the governmental functions (including expendable trust funds) are classified into five population types based on the 1993 population estimates from the Office of the State Demographer. These five types are:

TYPE	POPULATION
1	2,000 - 2,500
2	1,500 - 2,000
3	1,000 - 1,500
4	500 - 1,000
5	UNDER 500

GENERAL SUMMARY

TAXABLE TAX CAPACITY

For tax collection years 1988 and prior, taxable valuation was calculated on a formula applied to market value. This resulted in an assessed valuation that was used as a base to spread the annual tax levies.

Beginning with property taxes payable in 1989, the State of Minnesota legislated a change in this formula. The previous system of assessed values has been replaced with a set of tax capacity rates.

Assessed value has been replaced with net tax capacity and tax capacity rates have replaced mill rates. Taxes are determined by multiplying the net tax capacity by the local tax rates, as expressed as a percentage. This replaces assessed values multiplied by mill rates. Total taxable tax capacity for the cities in 1993 was \$198.5 million with a per capita of \$466.01.

GOVERNMENTAL OPERATIONS

REVENUES

Revenue for the Governmental Funds in 1993 totaled \$249.9 million which was \$3.1 million or 1.2% less than 1992. The total revenue per capita was \$586.70 compared to \$598.18 in 1992. The amount per capita in each population type was as follows:

Population	Type	1993 Per Capita
2,000 - 2,500	1	\$574.75
1,500 - 2,000	2	\$642.60
1,000 - 1,500	3	\$676.68
500 - 1,000	4	\$531.56
Under 500	5	\$546.48

The principal sources of revenue were intergovernmental revenues (45.3%) – federal, state, county, local grants and aids; property taxes (25.2%); and, miscellaneous revenues (9.4%). Intergovernmental revenues from 1989 through 1993 are summarized below:

Intergovernmental revenue, the largest source, totaled \$113.2 million which was 45.3% of total revenue. Overall, intergovernmental revenue has increased 2.3% over the 5-year period. In 1993, state grants provided \$91.3 million or 80.7% of total intergovernmental revenue. "State Local Government Aid," the largest share of state aid to cities, indicated a 14.3% decrease from 1989 to 1993. "County Grants - Hwys" showed the largest increase of 828.8% during the five-year period with \$2.4 million in 1993 compared to \$263.4 thousand in 1989. Revenues from federal grants decreased during the 5-year period providing \$14.3 million or 12.7% of total intergovernmental revenues in 1993. This compares to \$19.9 million or 17.9% in 1989.

Revenues from property taxes totaled \$62.9 million. This is a \$4 million increase over the \$58.9 million collected in 1992.

Miscellaneous revenues, the third largest revenue source in 1993, decreased \$509.7 thousand, a decrease of 2.1% from 1992. Miscellaneous revenues generally consist of refunds, reimbursements, donations (including gambling proceeds), rental & lease revenues, and other revenue sources not specifically classified by the cities. These revenue sources accounted for 9.4% of total revenue.

Charges for services, which totaled \$20.4 million, were \$1.6 million or 8.6% more than in 1992. Charges for services accounted for 8.2% of total revenue compared with \$18.8 million or 7.4% in 1992. The percentage of total revenue from this source varied from 7.3% in Type 2 cities (1500 - 2000 in population) to 9.4% in Type 1 cities (2000 - 2500 in population).

Interest earnings decreased \$2.3 million or 18.8% from 1992. Interest earnings in 1993 were \$9.8 million compared to \$12 million in 1992. This revenue source accounted for 3.9% of total revenue.

Transfers from public service enterprises totaled \$11.9 million in 1993 compared to \$11.6 million in 1992. These transfers, which are shown as "Other Financing Sources," increased \$288 thousand or 2.5% from 1992.

"Streets and highways were the costliest governmental operation in 1993"

EXPENDITURES

Expenditures for governmental functions by cities in 1993 decreased \$2.3 million or .8% from 1992. Expenditures for 1993 totaled \$302.3 million compared to \$304.6 million in 1992.

Streets and highways were the costliest governmental operation in 1993, totaling \$60.9 million or 20.1% of total expenditures. This includes 46.5% or \$28.3 million in expenditures for road construction and equipment. Overall spending decreased \$1.1 million or 1.8% from 1992.

Debt service, the second largest expenditure in 1993, decreased \$2 million or 3.6% from 1992. Total debt service principal and interest expenditures were \$54.4 million compared to \$56.5 million in 1992. City debt accounted for 18.1% of total expenditures.

Public safety totaled \$53.5 million. Expenditures increased \$1.5 million or 2.9% from 1992. Approximately \$26.3 million or 49.1% was for police.

Expenditures for general government were up \$2.2 million or 5% in 1993. Total general government expenditures were \$45.6 million and accounted for 15.1% of total expenditures. This compares with \$43.4 million or 14.3% of total expenditures in 1992.

During 1993, expenditures for culture and recreation totaled \$24.4 million and accounted for 8.1% of total expenditures. This is an increase of \$4.3 million or 21.6% from 1992. The majority of these expenditures, approximately \$20.8 million or 85%, were for the maintenance, operation, construction of, and improvements to public parks and recreational facilities.

Figures 1 and 2 depict the percentage of total revenues or expenditures that each governmental function provides. Figure 3 shows the 7-year change in state grants and aids. Figure 4 shows the percent of total revenue for taxes, intergovernmental revenues and charges for services in the last seven years.

OPERATION OF PUBLIC SERVICE ENTERPRISES

Municipalities in Minnesota operate many types of public service enterprises. The operations of nine major enterprise funds common to most cities are summarized and presented separately. Enterprise funds whose operations are exclusive to culture and recreational activities are combined together into "Culture and Recreation Enterprise Operations." All other enterprise funds are combined together as "Other City Enterprise Operations."

In this report electric utilities that operate generation and distribution systems are combined with those operating distribution systems only.

When possible, the financial operations of these enterprises are presented on the accrual basis rather than cash basis. The basis of accounting is accrual unless indicated otherwise by a footnote.

The following two-year summary of operations by type of public service enterprise is presented for the purpose of comparison.
