

STATE OF MINNESOTA
DEPARTMENT OF REVENUE

PROPERTY TAXES LEVIED IN MINNESOTA

1980 ASSESSMENTS
TAXES PAYABLE IN 1981

F O R E W O R D

Property tax is a very important source of revenue for all local units of government; cities, townships, school districts, special districts and county government. The State Government of Minnesota has not levied a property tax since 1966.

Property Taxes Levied in Minnesota is divided into five main parts. First is a description of the Minnesota property tax system including a review of values, tax levies and mill rates. A section devoted to historical data follows, with some tables containing information from as far back as 1925. A comparison of payable 1980 and 1981 assessed values, taxes levied, homestead credit, agricultural credit, net tax payable and average mill rates by county is also included. The third part contains current year assessed valuation and market valuation data while current year tax data is found in the fourth. Mobile home property tax data for payable 1980 is summarized in the final section of the bulletin.

TABLE OF CONTENTS

SECTION I

Review of the Minnesota Property Tax System

A. Values

B. Levies and Mill Rates

SECTION I

REVIEW OF THE MINNESOTA PROPERTY TAX SYSTEM TAXES PAYABLE IN 1981

The following narrative section is a general description of the Minnesota property tax system for taxes payable in 1981 and the laws that prevailed at that time.

The general property tax is the major tax imposed by local governmental units and school districts. The State has not imposed a levy on property since 1966. Therefore, the entire property tax base is subject to taxation only by the local taxing districts; county governments, cities, townships, school districts and special taxing districts. The property tax is an ad valorem tax. The amount of tax levied on a parcel of property is based upon the market value of the property, the total assessed value of property in the taxing districts having authority to levy a tax on the parcel of property, and the property tax budget requirements of the taxing districts. (See Fiscal Disparities, page 18, for the method of taxation in metropolitan counties.) All real property and tangible personal property is subject to taxation unless specifically exempted by law.

A. Values

1. Exempt Property:

Exempt real property includes Indian lands, public property, educational facilities, religious and charitable institutions. The property is valued every six years with the most recent assessment being made in 1980. The 1980 market valuations of exempt property are shown on Table 21.

Exempt personal property includes farm livestock, farm machinery, furniture, inventories, tools and machinery of service, retail, wholesale and manufacturing businesses, furnishings of rental units if the rental value is subject to the sales tax, and containers in the possession of the consumer during consumption if the sale of the commodities is subject to the sales tax. Household goods are also exempt from property taxation as are intangible properties, such as stocks, bonds and insurance policies.

Effective for the 1973 and subsequent assessments, exempt property also includes the value of commercial and industrial tools, implements, machinery and equipment attached to or installed in real property for use in the business or production activity conducted thereon, excepting public utility attached machinery.

2. Assessors:

As of January 1, 1968, each county must have a county assessor appointed by the Board of County Commissioners and approved by the State Commissioner of Revenue. The term of county assessor is four years. Assessors in municipalities of 30,000 or more population have the same duties and

2. (Cont.)

responsibilities as county assessors. The county assessor, aided by deputy assessors and local assessors, must assess all property except state-assessed property. The state is responsible for the original assessment of electric transmission and distribution systems and pipeline systems distributing natural gas or petroleum products. All air-flight property, i.e., commercial aircraft, is assessed by the state. Minerals and unmined ore are also state-assessed.

3. Valuation of Property:

All taxable property values are listed as of January 2 of each year. At least one-fourth of all parcels of real property in a taxing district must be reassessed every year so that every parcel is assessed at least once every four years. All property is to be valued at its market value, which is its selling price in a normal open market transaction. (Prior to the 1975 assessment all real estate was supposed to be assessed every two years and personal property assessed every year. In practice, especially in counties with many parcels, real estate was rarely reassessed that often.) Before the 1972 assessment, the market value was divided by three to arrive at an "adjusted market value." The statutory classification rates (see Number 4, Classification of Property below) were applied to the adjusted market value to determine the assessed value. With the discontinuation of adjusted market value, the total assessed values of real and personal property approximately tripled. Since the mill rate is determined by dividing the tax levy by the assessed valuation, the mill rate under the current method is approximately one-third of what it had been under the previous system. Therefore, a rate of 300 mills would be only 100 mills under the new system.

Classification of Property:

When property is valued, it must be classified according to the legal classification system. The various statutory classification rates are applied to the market value to determine the assessed value of property. The term "assessed" value and "taxable" value are synonymous except in the metropolitan counties. (See Tax Levies and Mill Rates, Section 13, page 18, for an explanation of the difference between assessed and taxable values due to fiscal disparities.) Real and personal property in Minnesota is classified as follows for the 1980 assessment for determination of taxes payable in 1981. Mobile home property not qualifying for treatment as real estate is classified for the 1980 assessment for taxes payable in 1980.

REAL PROPERTY

<u>Class</u>	<u>Description</u>	<u>Percent of Market Value</u>
1	Unmined Iron Ore	50%
1a	"Low Recovery" Iron Ore	30 to 48½%
1b	Severed mineral interests tax	*

REAL PROPERTY

<u>Class</u>	<u>Description</u>	<u>Percent of Market Value</u>
3	Agricultural non-homestead	19%
3	Seasonal residential for recreational purposes:	
	a. Commercial, but not used for more than 200 days per year (example: resort). See also Class 3b below.	21%
	b. Non-commercial (example: cabin)	21%
3	Tools, implements and machinery of an electric generating, transmission or distribution system or a pipeline system transporting or distributing water, gas or petroleum products which are fixtures to real property	33-1/3%
3a	Commercial seasonal recreational residential not used for more than 200 days per year which includes a portion used as a homestead by the owner	12%
3b	Agricultural homestead	
	1st \$50,000 market value	14%
	Excess of market value over \$50,000	19%
3c	All other homestead**	
	1st \$25,000 market value	16%
	2nd \$25,000 market value	22%
	Excess of market value over \$50,000	28%
3cc	Paraplegic veterans, homesteads of blind and permanently and totally disabled persons	
	1st \$33,000 market value***	5%
	\$33,000 to \$50,000 market value: agricultural	14%
	Excess of market value over \$50,000: agricultural	19%
	\$33,000 to \$50,000 market value: all other	22%
	Excess of market value over \$50,000: all other	28%
3d	Non-homestead residential	
	a. Apartments with four or more units that do not qualify as Title II National Housing	38%
	b. Land of Title II National Housing	38%
3dd	Non-homestead residential one, two or three units	28%
3e	Timberland	19%

REAL PROPERTY

<u>Class</u>	<u>Description</u>	<u>Percent of Market Value</u>
4	All other real property (examples: a. Commercial, including parking ramps, industrial including petroleum refineries and public utility land and buildings	43%
	b. Vacant land	40%
None	Type I and II Apartments Five or more stories (structures only) Four or less stories (structures only)	25% 33-1/3%
None	Housing for elderly or for low and moderate income families financed by direct federal loan or federally insured loan pursuant to Title II of the National Housing Act or the Minnesota Housing Act. Structures only.***	20%
None	Housing for elderly or for low and moderate income families financed by a direct loan or insured loan from the Farmer's Home Administration and is located in a municipality under 10,000 population. Structures only.***	5%
*	25¢ per acre annually (tax effective January 1, 1975). Each parcel is subject to minimum annual tax of \$2.00.	
**	Townhouse property is classified and valued as all other homestead real estate. Value is added for each unit's share of the development's common areas.	
***	The assessed value resulting from this classification is used to determine a property tax credit (reduced assessment credit) extended to this type of property. The regular classification that applies for this property is used to determine the assessed value which is used for mill rate and tax extension purposes.	

PERSONAL PROPERTY

<u>Class</u>	<u>Description</u>	<u>Percent of Market Value</u>
2a	Mobile Homes Homestead 1st \$25,000 market value Excess of market value over \$25,000 Non-homestead	18% 30% 40%
3	Structures on leased public lands in rural areas	21%

PERSONAL PROPERTY

<u>Class</u>	<u>Description</u>	<u>Percent of Market Value</u>
3	Tools, implements and machinery of an electric generating, transmission or distribution system or a pipeline system transporting or distributing water, gas or petroleum products which are fixtures	33-1/3%
3	Leased agricultural real estate of exempt land (M.S. 272.01, Subd. 2)	19%
3f	Owner occupied residences on leased public or railroad lands	****
4	Structures on leased public lands in urban areas	43%
4	Structures on railroad operating right-of-ways	43%
4	Leased all other (non-agricultural) real estate of exempt land (M.S. 272.01, Subd. 2)	43%
4	Systems of electric, gas and water utilities	43%

END OF CLASSIFICATION OF LAW

There will be no assessment of the former classes of property listed below:

- 3 Personal - Inventories, stocks of merchandise of sorts, all materials, parts and supplies, furniture and equipment, manufacturer's materials, manufactured articles including the inventories of manufacturers, wholesalers, retailers and contractors, and the furnishings of a room or apartment in a hotel, rooming house, tourist court, motel or trailer camp, and tools and machinery which, by law, are considered as personal property
- 3a Agricultural products in the hands of the producer
- 3j Petroleum refinery's personal property
- 3 Real - Machinery which constitutes fixtures to real estate except public utilities under ad valorem taxation
- **** Buildings receive the classification rate as if they were homestead real property within the scope of Class 3b, 3c or 3cc, whichever is applicable.

5. Market Value Increase Limitation:

The annual market value increase for any property for the 1975 through 1978 assessments was limited to 10 percent or one-fourth of the total amount of

5. (Cont.)

increase from the previous year, whichever was greater. In 1979 a change was made in the formula used in determining the limited market value on property for the 1979 assessment and the elimination of the limited market value on property for the 1980 assessment. For the 1979 assessment, the amount of increase in the limited market value was 10 percent of the 1978 limited market value or one-half of the difference between the 1978 limited market value and the 1979 estimated market value, whichever amount was greater. This limited market value was the base to which the property classification assessment percentages referred to in Number 4 above were applied to arrive at the assessed value for assessment years 1975 - 1979. Beginning with the 1980 assessment, the limited market value on property was eliminated, and the estimated market value is now the base to which the property classification assessment percentages are applied to arrive at the assessed value.

6. Review and Equalization:

The work of the assessor is subject to administrative review and equalization at three levels: the local Board of Review, the County Board of Equalization and the State Board of Equalization. It is the duty of these boards to equalize property assessments within each class and within each taxing district.

B. Tax Levies and Mill Rates

1. The Property Tax Budget Levy:

Each local taxing district determines the amount of money needed to fund their various operations in the coming year. The total amount of this money is commonly referred to as a "budget." Finances for the budget originate from a variety of sources including, among others, state and federal aids, parking meters, fines, municipal liquor stores, licenses, permits, local sales taxes and property taxes. The property tax budget levy is only one constituent of the entire operating budget required by the taxing district.

2. Levy Limitations:

The 1971 Legislature enacted a law which imposed limitations upon the revenue raised by means of property tax levies. There are two basic overall levy limitation laws; one pertains to local government and the other pertains to school districts. Since these laws are completely independent of one another, each will be discussed separately.

a. Local Government Levy Limitations:

All cities of 2,500 population or more, towns with statutory city powers of 2,500 population or more and county governments are subject to the 8 percent levy limitation. Basically, it limits the local districts other than first-class cities and the counties containing them to an 8 percent increase in the levy limit base over the levy limit base in the previous levy year. First-class cities and the counties containing them are limited to a 6 percent levy limit base increase. Provisions are made in the law which allow the limitations to be increased or adjusted to reflect increases in population,

2. a. (Cont.)

industrial or commercial development, boundary changes, transfer of functions or services from one governmental subdivision to another, or the will of the voters of the governmental subdivision by way of a direct referendum on a levy increase. Also, the levy limit base of a local government may be increased by up to 10 percent. This 10 percent levy limit base adjustment may be made only one time and if the voters petition it must be ratified by referendum.

Beginning with levy year 1979, a city or town whose levy limit base per capita is less than 85 percent of the average levy limit base per capita for the cities and towns in the same county may apply to the Levy Limitations Review Board to have their levy limit base per capita raised to 85 percent of the average for their particular county.

Furthermore, a governmental subdivision may apply to the Levy Limitations Review Board for a levy limit base increase for: (a) the amount of surplus funds expended for nonspecial levy purposes in calendar year 1971, (b) the cost of financing new services mandated by changes in state law, provided that the new services cannot be financed by special levies or special assessments and (c) the increased general operating costs of new or expanded services resulting from annexations, consolidations or incorporations since 1970.

This 8 percent levy limitation is in addition to specific charter, special law and statutory levy limitations. If the 8 percent levy limitation is more restrictive than the specific limitations, the 8 percent levy limitation prevails. If the specific limitations are more restrictive than the 8 percent levy limitation, the specific limitations prevail.

All ad valorem tax levies are subject to the governmental subdivision's 8 percent levy limitation except for "special levies." The "special levies" authorized outside the 8 percent levy limitations are numerous and detailed, but in brief they include the following levies to pay:

(1) For the increased costs of court judgments and out of court settlements on any tort action, including the premium costs of liability insurance (but excluding coverage for Workmen's Compensation claims);

(2) For the increased cost of compliance with written lawful orders initially issued prior to January 1, 1977, by the State of Minnesota, or the United States, or any agency or subdivision thereof, or with stipulation agreements in lieu of such lawful orders signed before January 1, 1977. This special levy also includes the cost of complying with permits or applications for permits for treatment works or disposal systems for pollution abatement in lieu of lawful orders which were initially signed before January 1, 1977;

(3) For matching fund programs or projects with the state or federal government to the extent of the increase in levy for the required local share over the amount levied for the program or project in levy year 1970, taxes payable in 1971. Includes the increased local share for the delivery or purchase of social services and social services administrations, but excludes

2. a. (Cont.)

public assistance administration. In determining the special levy, the governmental subdivision may include levies in anticipation of state or federal grants, levies to reimburse expenditures already made for local shares, as well as current levy year requirements;

(4) For the unreimbursed cost of public assistance aids. Does not include the costs of public assistance administration;

(5) For bonded indebtedness, including the entire levy amount required to make the bond principal and interest payments due in the forthcoming budget year. A municipality may also claim a special levy for the amount needed to reimburse liquor store revenues used to pay the principal and interest due on municipal liquor store bonds in the calendar year immediately preceding the current levy year. Other bond-like payments that qualify as a special levy are the levies to fund the payments made to the Minnesota State Armory Building Commission to the extent that such payments are for the purpose of retiring the principal and interest on armory construction bonds. Similarly, a levy to fund the payments made to another political subdivision of the State of Minnesota is a special levy to the extent that such payments are used to retire the principal and interest on bonds or certificates of indebtedness of the type that qualify for a special levy;

(6) For the cost of principal and interest on certain types of certificates of indebtedness. These are primarily equipment certificates of indebtedness such as those authorized for statutory cities by Minnesota Statutes, Section 412.301;

(7) For decreasing non-tax revenues to reimburse a governmental subdivision for the decrease in revenues from municipal liquor store, public service enterprises (for example: water utilities), licenses, permits, fines and forfeits to the extent that the revenues from these sources collected in 1979 are less than the inflation adjusted revenues in 1979. "Fines and forfeits" refers to the net collections of a municipal court in 1971 (revenues minus expenditures) and a city's share of county court fines after 1971;

(8) For a decreased mobile home tax distribution, to the extent that the governmental subdivision's portion of the ad valorem tax on mobile homes in the current levy year is less than the distribution of the mobile home tax aid to the governmental subdivision in calendar year 1971;

(9) For those governmental subdivisions which experienced a county auditor's error of omission or an error of omission in the levy certified to the county auditor in levy year 1971 or thereafter;

(10) For the increased costs of municipal services resulting from annexations, consolidations or incorporations ordered by the Minnesota Municipal Board after 1970. The amount of such increased costs must be the costs as estimated by the Minnesota Municipal Board and contained in a Municipal Board order. The total special levy may not exceed 50 percent of the governmental unit's levy limit base. This amount may be levied in one year or prorated over two or three years, depending on the Municipal Board's order;

2. a. (Cont.)

(11) For the increased costs of providing municipal services to new private industrial and non-residential commercial developments. One part of the special levy is for site preparation, such as sewers, water lines, streets, street lighting and traffic signals for the development site. One year's expenditures for each site to be paid by non-bonded indebtedness property tax levies may be claimed as a special levy. The other part of the special levy (applicable only to cities and towns) is tied to the increase in the assessed value of new industrial and commercial property. For each development, the current assessed value is compared to the latest assessed value prior to the issuance of the basic construction permit (the oldest one issued within the three calendar years preceding the current levy year). The sum of these differences for all eligible developments is multiplied times the ratio of the city or town's levy limitation for the current levy year to its total assessed value for the current levy year in order to determine the special levy. The developments used must all be taxable, nonresidential properties and their assessed values for the purpose of this special levy include both land and buildings;

(12) For the amount required to recover a loss in tax receipts due to abatement or court action in the year preceding the current levy year. Limited to the ratio of non-special levies to total levies for the year preceding the current levy year multiplied times the loss in tax receipts. The special levy portion may be claimed under other special levy categories. County governments are not authorized to claim this special levy;

(13) For the amounts required by law to reduce the unfunded accrued liability (deficit) of public pension funds, including interest on the deficit, to the extent of the increase over 106 percent of the amount levied for that purpose in levy year 1976, payable in 1977;

(14) For the cost of establishing and administering an employer commuter van program in accordance with Minnesota Statutes, Section 174 27. Limited to 0.1 mill for establishment and 0.01 mill for administration;

(15) For the cost of shade tree disease control programs operating under Minnesota Statutes, Section 18.023. Includes the cost of sanitation, reforestation, equipment and foresters. The special levy is reduced by the unspent balance of the similar levy for 1979 payable 1980 and the amount of anticipated state or federal grants, and does not include the cost of equipment purchased through the issuance of bonds or certificates of indebtedness;

(16) For the amount of tax receipts lost due to abatements or court action in 1980 resulting from a reassessment ordered by the Commissioner of Revenue. This special levy is applicable to county governments. City governments may claim a special levy for lost tax receipts from a particular abatement or court action only once;

(17) The costs of the Southern Minnesota River Basin Area II for Blue Earth, Brown, Cottonwood, Lac Qui Parle, Lincoln, Lyon, Murray, Pipestone, Redwood, or Yellow Medicine counties.

Except for these "special levies" and any increased levies authorized by direct referendum, all levies in excess of a governmental subdivision's 8 percent levy limitation are subject to a penalty equal to 33 percent of the excess levy, which is deductible from the governmental subdivision's Local Government Aid payments.

2. b. School District Levy Limitations:

Maintenance:

The major levy limitation for school districts limits the school maintenance levy. The chief maintenance expenditures are for instruction, administration and the operation and upkeep of school buildings. The major components of the maintenance levy are the following:

Basic Maintenance: For most school districts, except those with relatively high taxable valuation per pupil unit and the three intermediate AVTI (Area Vocational-Technical Institute) districts, the basic maintenance levy limitation before adjustment equals 21 mills times the adjusted assessed valuation of the district for the preceding year. For districts with relatively high taxable valuation per pupil unit, a cap is placed on the basic maintenance levy limitation to avoid giving authority to levy an excessive amount per pupil unit. (The adjusted assessed valuation is the taxable valuation of each district adjusted by the state for variations in property assessment levels and other adjustments specified by statutes. The adjusted assessed valuation is also known as the EARC value.)

The foundation program guarantees a certain level of financial support for each pupil unit (before adjustment) from state and local efforts. The local effort is the basic maintenance levy limitation. The state effort is the foundation aid formula allowance times the pupil units of the district less the local effort. The foundation aid formula allowance is \$1,333 for school year 1981-82 (the year for which 1980 payable 1981 levies provide revenue).

Replacement Maintenance: Almost all districts have a replacement maintenance levy limitation. It is equal to the district's equalizing ratio times the projected 1980-81 foundation aid loss due to the repeal of the supplemental pupil units and sparsity aid, adjusted for a change in foundation revenue. Districts with a low EARC value per pupil unit will have a low equalizing ratio. Districts with a high EARC value per pupil unit will have a high equalizing ratio (but the equalizing ratio never exceeds one). The replacement component of foundation aid bears a complimentary relationship to the replacement maintenance levy limitation.

Grandfather (Excess) Maintenance: Approximately 40 percent of the districts have a grandfather maintenance levy limitation. It is equal to the grandfather allowance times the current year's pupil units times the ratio of the district's EARC value per pupil unit to the state's EARC value per pupil unit. In no event is the ratio to be larger than one. For most districts having a grandfather maintenance levy limitation, the excess allowance was established by the district's maintenance cost in school year 1970-1971. The grandfather foundation aid adjustment component is complimentary to the grandfather maintenance levy limitation.

Discretionary Maintenance: Approximately 50 percent of the districts have a discretionary maintenance levy limitation. It is equal to the lesser of one mill times the previous year's EARC value of the district or \$64.48 times the

pupil units of the district. The district's voters may, by referendum, reduce or eliminate this limitation authorization. The discretionary foundation aid adjustment component is complimentary to the discretionary maintenance levy limitation.

Unemployment Insurance Maintenance: Approximately 50 percent of the districts have an unemployment insurance maintenance levy limitation. It is equal to the amount needed to eliminate the projected deficit balance in the general fund account appropriated for unemployment insurance.

Referendum Maintenance: Approximately 30 percent of the districts have a referendum maintenance levy limitation. It is the additional levy authority authorized by the voters of the district for the years specified on the ballot. The district's voters may, through the referendum recall provision, eliminate this limitation authorization.

Transportation:

Almost all districts have a transportation levy limitation. The basic transportation levy limitation is one mill times the previous year's EARC value of the district. Districts are also allowed to have transportation levy limitation components for current year hazardous transportation costs and the additional amount needed to eliminate the projected deficit in the transportation fund account appropriated for bus purchases.

Community Service:

About 80 percent of the districts have a community service levy limitation. This limitation is equal to the greater of \$2.50 times the population of the district or the amount of the 1976 certified community service levy times 1.10. Districts must levy for community service an amount at least equal to the minimum community service levy limitation to qualify for community service aid.

Capital Expenditure:

Almost all districts have a capital expenditure levy limitation. This limitation is equal to the lesser of \$90 (\$95 for districts with a pupil unit increase) times the pupil units of the district or seven mills times the previous year's EARC value of the district. Low value districts must levy for capital expenditure an amount at least equal to the minimum capital expenditure levy limitation in order to qualify for capital expenditure equalization aid.

General Debt Service:

About 90 percent of the districts levy for general debt service. Districts are obligated to levy an amount sufficient to pay their debt service obligations for bonded indebtedness and state loans.

AVTI Debt Service and AVTI "Other":

Only the 33 AVTI (Area Vocational Technical Institutes) districts are authorized to have an AVTI debt service or AVTI "Other" levy limitation.

3. **Determination of the Property Tax Levy:**

The local units of government certify to the county auditor their property tax budget levy. The auditor adjusts the levies to comply with specific charter and statutory limitations. Generally, however, he makes no adjustments to the overall levy limitations of the taxing districts unless specifically

authorized to do so by the Commissioner of Education or the Commissioner of Revenue. This last review of the budget levies by the county auditor determines the actual dollar amounts to be levied through ad valorem property taxation.

4. Special Assessments:

Special assessments, which are also paid by property owners, involve the funding of such projects as streets, curbs, sidewalks, ditches and storm sewers. When any of these improvements are made to a person's property, that person is considered to have benefited directly by them. Improvements of this nature have no relationship to the value of the owner's property; rather, the amount needed for the project is determined on the basis of how much each property benefits. The determination of the mill rate and the individual's taxes due (see Section 5 below) excludes the amounts needed for these types of special assessments. Any amounts for special assessments are added but enumerated separately on the property owner's tax statement. They are not considered to be a tax on property.

5. Determination of the Mill Rate and the Individual Taxes Due:

The final levy requirements of each taxing district, namely counties, cities, towns, school districts and special taxing districts, are spread against the respective taxable values to determine the mill rates required to generate the necessary revenue. Under normal circumstances, this is accomplished by dividing the property tax budget levy amount by the total taxable value. For example, if the county's levy was \$1,000,000 and the total assessed value was \$50,600,000, then the total county mill rate would be calculated as follows:

$$\$1,000,000/\$50,600,000 = .0197628 = 19.763 \text{ mills}$$

Special attention, however, needs to be given to mill rate calculations which deviate from the customary calculations.

a. Fire Protection Districts:

Township mill rates are influenced by the presence of special fire protection districts (Minnesota Statutes 1980, Section 368.85). Any organized town may, through a majority vote cast by the electors within the proposed district, establish a territory which will receive fire protection. A fire district consists of compact and contiguous property of which at least 25 percent of the total assessed value of taxable real property therein is classified as homestead property and other buildings or structures. All costs of a fire protection district are borne by the property taxpayers located within its boundaries. The cost of the fire district is reflected in a higher municipal mill rate for the concerned property. Property outside of the district does not contribute tax dollars toward this protection.

b. Rural-Urban Service Districts:

A factor to be considered in the calculation of city mill rates is the rural-urban service district. A rural service district and an urban service district which are adopted by ordinance constitute "separate taxing districts for the purpose of all municipal property taxes except those levied for the payment of bonds and judgments and interest thereon." (Minnesota Statutes 1980, Section 272.67.) Only unplatted lands which are rural in character and which

5. b. (Cont.)

are not developed for commercial, industrial or urban use can become rural service districts. Such land is not benefited to the same degree as other lands by municipal services financed by general taxation. An urban service district consists of all lands within the boundaries of the municipality which are not included in the rural service district. Lesser benefits within a rural service district result in lower mill rates for taxpayers within its boundaries than for taxpayers located within the boundaries of the complementary urban service district.

6. Agricultural Aid Credit:

Effective for taxes payable in 1981 all agricultural homestead property up to 240 acres is subject to a tax reduction equal to the amount produced by applying a rate of 17 mills on the assessed value of the property. The portion of the agricultural homestead property over 240 acres, 3e timberland, non-commercial seasonal recreational residential and agricultural non-homestead properties receive a reduction equal to the amount produced by applying a rate of ten mills on the assessed value of the property. The agricultural credit extended to a property cannot exceed the school district tax on the property. The amount of agricultural credit granted is paid entirely and directly to the school districts by the state.

7. Wetlands Credit and Reimbursement:

Effective with taxes payable in 1981, qualifying wetlands of one acre or more are exempt from the property tax, and local taxing districts automatically receive a state paid wetlands reimbursement designed to compensate for the exemption. The reimbursement is determined by multiplying the 1979 assessed value of property currently exempt under the wetlands provisions by the current year total mill rate for the taxing area in which the wetlands are located. For the purpose of this reimbursement, a parcel's 1979 assessed value of exempt wetlands cannot be less than \$5 per acre of wetlands.

Owners of property containing qualifying wetlands can apply for and receive a wetlands credit on the taxes they pay on the rest of their property as long as those parcels are contiguous to the wetlands parcel. The wetlands credit value is determined by multiplying the current year average estimated market value of an acre of tillable land in the township or city in which the wetlands are located by the number of acres of wetlands in the parcel. The actual credit amount is determined by multiplying the wetlands credit value by 7.5 mills. As with all of the property tax credits, the credit amounts actually paid cannot add up to exceed the gross tax liability. The amount of wetlands credit granted is paid by the state directly to the local taxing districts.

The exemption, reimbursement and credit apply to both homestead and non-homestead properties.

8. Native Prairie Credit and Reimbursement:

Effective with taxes payable in 1981, qualifying native prairie of ten acres or more is exempt from the property tax, and local taxing districts automatically receive a state paid native prairie reimbursement designed to compensate for the exemption. The reimbursement is determined by multiplying the 1979

8. (Cont.)

assessed value of property currently exempt under the native prairie provisions by the current year total mill rate for the taxing area in which the native prairie is located. For the purpose of this reimbursement, a parcel's 1979 assessed value of exempt native prairie cannot be less than \$5 per acre of native prairie.

Owners of property containing qualifying native prairie can apply for and receive a native prairie credit on the taxes they pay on the rest of their property as long as those parcels are within two cities and/or townships from the native prairie parcel. The native prairie credit value is determined by multiplying the current year average estimated market value of an acre of tillable land in the township or city in which the native prairie is located by the number of acres of native prairie in the parcel. The actual credit amount is determined by multiplying the native prairie credit value by 15 mills. As with all of the property tax credits, the credit amounts actually paid cannot add up to exceed the gross tax liability. The amount of native prairie credit granted is paid by the state directly to the local taxing districts.

The exemption, reimbursement and credit apply to both homestead and non-homestead properties.

9. Reduced Assessment Credit:

Effective with taxes payable in 1981, two sets of values are determined for Title II, Farmers Home Administration and Class 3cc properties. One set of values is based on the classification percentages that have been used in prior years. That is, 20% for Title II buildings and 5% for Farmers Home Administration buildings and 5% for the first \$33,000 of estimated market value for Class 3cc properties. The second set of assessed values is based on the classification percentage that would apply if the preferential assessment provisions did not exist and the properties were classified as 3b, 3c, 3dd or 3d, whichever is appropriate. These higher assessed values are used in the mill rate determination assessed value base and used to determine the gross tax for these properties. The resulting gross tax is to be decreased by the state paid reduced assessment credit. This credit is determined by multiplying the difference between the high and low assessed values for such properties by the prevailing total mill rate. The net effect of the reduced assessment credit is to reduce the property owner's gross tax to the tax amount that would have been due based on the preferential assessment provisions, but without the tax burden shift to other property types. The reduced assessment credit is paid by the state directly to the local taxing districts.

10. Homestead Property Tax Relief Credit:

Effective with taxes payable in 1981, the homestead credit is computed on 58 percent of the gross tax (less any agricultural, wetlands, native prairie, reduced assessment, supplementary homestead or taconite homestead credits) of owner occupied (homestead) property to a maximum of \$650 per year. The reduction on agricultural homesteads also applies to the gross tax less agricultural, wetlands, native prairie, reduced assessment, supplementary homestead or taconite homestead credits and is limited to the 240 acres of land most contiguous surrounding, bordering or closest to the dwelling. Non-contiguous land is subject to the homestead classification and credit only if

10. (Cont.)

the homestead is classified as class 3b (agricultural homestead) and the detached land is located in the same township or city or not farther than two townships or cities or combination of the two from the homestead. Homestead mobile homes are also eligible for the homestead credit. The amount of homestead credit granted is paid by the state directly to the local taxing districts.

For taxes payable in 1981, an additional 57 percent or 66 percent (depending upon the iron ore value of the assessment district or the presence of taconite mines, plants or electric generating facilities) taconite homestead credit up to a maximum reduction of \$375 or \$430, respectively, is extended to homesteads located in certain iron range areas. The taconite homestead credit is deducted before the 58 percent homestead credit is calculated and is paid by the state from a portion of the taconite production tax receipts.

Beginning in payable 1981, homesteads within school district #317 in Itasca County and school district #698 in Aitkin and St. Louis Counties receive the supplemental homestead property tax relief credit instead of the 57% taconite homestead credit.

11. Mobile Homes:

Mobile home taxation adheres to the traits of more than one type of tax. The term "hybrid" might be a way of describing its characteristics. A mobile home, or trailer house, is not taxed as a motor vehicle even though it has the ability to be easily moved. Beginning with assessment year 1980, mobile homes that meet each of the following criteria must be treated as real estate and valued and assessed as such in 1980 for taxes payable in 1981:

1. The owner of the unit holds title to the land upon which it is situated;
2. The unit is affixed to the land by:
 - a. a permanent foundation,
 - b. or is installed at its location in accordance with the mobile homes building code, Sections 327.31 to 327.34,
 - c. or is affixed to the land in a manner comparable to other real property in the taxing district;
3. The unit is connected to public utilities, has a well and septic tank system, or is serviced by water and sewer facilities comparable to other real property in the taxing district.

Those mobile homes not meeting each of the above criteria will continue to be classified as Class 2a personal property. These mobile homes are able to qualify for property tax relief credits in a manner similar to real property. To become eligible for homestead credit, the mobile home must be owner-occupied just as real property. Homesteaded mobile homes receive the same assessment ratios as homesteaded real estate, for the previous assessment year, which for the 1979 assessment year were 18% of the first \$25,000 of market value and 30% of the excess over \$25,000 of market value. Homestead base amounts are the same as for real estate in the current assessment year, which for the 1980 assessment year were \$25,000.

Mobile homes classified as Class 2a personal property are assessed every year as other personal property but the taxes are due in full on or before August

11. (Cont.)

31 of that same year. The valuation of 2a mobile home property is not included in the calculations which establish the mill rates used to determine taxes on other real and personal property values. The mill rate applicable to 2a mobile home values is the mill rate which was established and was employed on other real and personal property in that same year.

The 1979 and 1980 valuations and resulting taxes associated with mobile homes classified as Class 2a personal property are shown on Tables 40 and 41.

12. Tax Increment Financing:

The mechanism of tax increment financing provides a growing tax base to finance renewal or renovation projects. There are seven main types of tax increment financing allowable under Minnesota law:

- 1 Minnesota Rural Development Finance Authority (M.S. 362A)
- 2 Port Authority (M.S. 458.192)
- 3 Municipal Development District (M.S. 472A)
- 4 Housing and Redevelopment Authority (M.S. 462.545 and M.S. 462.585)
- 5 Metropolitan Housing and Redevelopment Authority (M.S. 473.193-473.201)
- 6 Municipal Industrial Development (M.S. 474)
- 7 Special Laws:
 - St. Paul Urban Renewal - 1963 Laws, Chapter 881
 - Hopkins Development Districts - 1971 Laws, Chapter 548
 - Minneapolis and Robbinsdale Development Districts - 1971 Laws, Chapter 677
 - Duluth Development Districts - 1973 Laws, Chapter 761
 - St. Paul Development Districts - 1973 Laws, Chapter 764

Although these seven types of tax increment financing have particular distinguishing characteristics, they all function on the same basis. The original value of the project area, before renewal, is used when calculating the mill rate. The tax levies are spread against the full value of the project area. Revenue obtained from the difference between the original assessed value and the current year assessed value of the concerned property is distributed to the appropriate authority to finance the renewal project debt. As the value of the property increases, so will this "tax increment." The increment values and taxes are shown by county on Table 17.

For example, a district had an original assessed value of \$500,000. The current year assessed value of the property, however, increased to \$750,000. The county auditor uses only the original assessed value of \$500,000 when determining mill rates. The difference between the two values, \$250,000, is the "tax increment value." This \$250,000 value times the total local mill rate equals the tax increment amount which the county auditor distributes to the affected tax increment district.

13. Fiscal Disparities:

The Metropolitan Development Act, more commonly known as "Fiscal Disparities," was first implemented for taxes payable in 1975. It established a new property tax system for the seven metropolitan counties of Anoka, Carver,

13. (Cont.)

Dakota, Hennepin, Ramsey, Scott and Washington. Although the law is complex, it can be briefly summarized as follows:

Forty percent of the increase in commercial-industrial (including public utility) assessed valuation in each assessment district since 1971 is contributed to an area-wide tax base. Using the factors of population and real property market value, a per capita distribution index is calculated. This index is employed in determining what proportion of the assessed value in the area-wide tax base shall be distributed back to each assessment district. The total assessed value less the contribution assessed value equals the local taxable value used to determine local mill rates.

A taxing district's budget levy is reduced by the levy amount it is permitted to spread on the area tax base. Its area levy amount is its distribution assessed value multiplied by its prior year mill rate. The reduced budget levy divided by the taxing district's local taxable value (assessed value less contribution assessed value) equals its levy mill rate. The local mill rate times the assessed value less contribution value is equal to the local portion of each district's property tax budget levy; whereas, the prior year local mill rate times the distribution value is equal to the area-wide portion. Each metropolitan county auditor certifies to the administrative auditor the area-wide portions of the levy for each district located within his county. The administrative auditor then computes an area-wide mill rate by dividing the total of the area-wide levies by the total area-wide tax base.

A calculated proportion of the assessed value of each commercial-industrial parcel of property is taxed based on the area-wide mill rate; the remaining value receives the local mill rate.

As a result of the aforementioned law, the property tax levy of a taxing district is not the tax amount paid by the taxpayers located within the geographic boundaries of that district. The amount they paid could be more or less than what is actually needed by the district in which they live, depending upon whether the area-wide mill rate was larger or smaller than the local mill rate and whether the contribution value was larger or smaller than the distribution value.

14. Payment of the Tax:

The resultant extensions of taxes due are submitted to the county treasurer for collection. Statements containing the assessor's determination of market value and the amount of tax due after the deduction of agricultural, wetlands, native prairie, reduced assessment, supplementary homestead, taconite homestead and the 58% homestead credits, where applicable, are sent to each taxpayer. Property taxes may be paid to the county treasurer in two equal installments. One-half of the personal property tax must be paid by February 28, and the other half by June 30. Payment of one-half of the real estate tax is due by May 31, with the remainder due by October 31. The tax on mobile homes is due in full on August 31.

15. Property Tax Penalties:

a. Personal Property:

All unpaid personal property taxes where the amount is \$10 or less are deemed delinquent on March 1 in the year they become due, and thereupon a penalty of eight percent is charged upon all such taxes. When the amount of such tax exceeds the sum of \$10, the first half becomes delinquent if not paid prior to March 1 and thereupon a penalty of eight percent is charged on the unpaid first half. The second half of the tax in excess of \$10 becomes delinquent if not paid prior to July 1 and thereupon a penalty of eight percent is charged on such unpaid second half. The provision does not apply to Class 2a mobile home property.

b. Real Estate:

On June 1 of each year, with respect to property actually occupied and used as a homestead by the owner of the property, a penalty of three percent is charged upon all unpaid current real estate taxes, and a penalty of seven percent on non-homestead property. Thereafter, for both homestead and non-homestead property, on the first day of each month, up to and including November 1 following, an additional penalty of one percent for each month is charged on all such unpaid taxes. When the taxes against any tract or lot exceed \$10, one-half of them may be paid prior to June 1 without a penalty; the remaining one-half can be paid at any time prior to the following November 1 without penalty. However, if the remaining one-half is not paid by November 1, then a penalty of four percent is charged on homestead property and a penalty of four percent on non-homestead property. An additional penalty of two percent is added on December 1, and another two percent on January 1 if the second half taxes on homestead property remain unpaid. For non-homestead property, an additional four percent penalty is added on December 1, and another four percent is added on January 1 if the second half taxes remain unpaid. An additional two percent penalty is added on the amount of the original tax remaining unpaid on the first Monday in January.

c. Mobile Home:

All unpaid taxes on mobile homes shall be deemed delinquent on September 1 in the year of assessment and thereupon a penalty of eight percent shall be imposed.

* The statewide average rate of taxation is exclusive of special assessments.

(a) In 1970 the column headings were revised. The revised individual real estate columns are not comparable with the previous years, however, remaining columns may be compared. Some homestead property values in excess of the amount eligible for homestead credit, in the past, have been incorrectly considered as non-homestead. Therefore, the column headed "Non-homestead Real Estate" actually contains some values that should be in the column entitled "Homestead Real Estate".

(b) The homestead base values by payable year are as follows:

1970-1972...\$4,000; 1973-1976...\$12,000; 1977...\$13,000; 1978...\$15,000; 1979...\$17,000;

1980...\$21,000; 1981...\$25,000; \$50,000

(c) Taxes payable in 1973 were the first levies to come under the market value concept. Due to this change, the assessed values, and consequently, the average tax rate were affected.

TABLE 2

NOTE: Homestead credit became effective with taxes payable in 1968; Taconite credit became effective with taxes payable in 1970.

* Due to the elimination of the "adjusted market value" concept, the mill rate decreased to approximately one-third of the previous level. See explanation on page 4.

** Total amounts of homestead credit include the following amounts of taconite credit:

1970.....	\$1,012,094	1972.....	\$2,814,419	1974.....	\$3,250,178	1976.....	\$9,263,039	1978.....	\$9,524,963
1971.....	1,043,486	1973.....	2,617,416	1975.....	3,648,072	1977.....	9,066,923	1979.....	\$11,748,570
								1980.....	\$13,006,426
								1981.....	\$14,398,085

*** Includes Seven County Metropolitan Contribution Levy in:

1975.....	\$16,672,517	1976.....	\$20,986,439	1977.....	\$19,518,464	1978.....	\$23,075,548	1979.....	\$29,523,199
								1980.....	\$36,268,483
								1981.....	\$46,774,964

**** In 1981 special taxing district amount includes tax increment financing levy amount of \$22,489,390.

***** In 1981 the net taxes column reflects the exclusion of the three new credits: Reduced assessment credit.....\$11,536,758
Wetlands Credit.....\$ 2,307,260
Native Prairie Credit.....\$ 83,104

* Special Assessments are charges made to specific real estate parcels for improvements which do not benefit the entire taxing district. Special Assessments are not included in the taxing districts levy when mill rates are determined.

** School Districts do not have special assessments. However, the entries in this table are basically old school district debts that were treated as special assessments during that year in which the taxes were due. Because of their treatment, these taxes were not included in calculating the average county mill rate, the statewide average mill rate, nor were they given homestead credit for the years in which homestead credit was paid.

*** Prior to payable year 1974, no specific provisions were made for reporting special taxing districts' (specifically watersheds) special assessments. Hence, any special taxing district's special assessments were shown on this table as county special assessments. Effective with payable 1974, a separate column was provided for reporting special taxing districts' special assessments.

TABLE 16 FOOTNOTES

* Values for the seven metropolitan counties are before fiscal disparities. The total levy for these counties includes the contribution levies. The contribution and distribution values and contribution levy are as follows:

COUNTY	CONTRIBUTION VALUE		DISTRIBUTION VALUE		CONTRIBUTION LEVY	
	1980	1981	1980	1981	1980	1981
Anoka	\$ 34,509,539	\$ 45,429,191	\$ 41,561,929	\$ 58,890,183	\$ 3,815,099	\$ 4,679,338
Carver	5,721,304	7,226,685	6,022,810	8,111,944	632,502	744,376
Dakota	47,658,835	62,886,120	30,947,304	43,691,858	5,268,779	6,477,456
Hennepin	153,325,181	215,864,276	143,169,061	194,485,267	16,950,405	22,234,666
Ramsey	59,186,227	88,989,596	78,442,069	110,753,086	6,543,156	9,166,195
Scott	13,062,152	14,847,062	6,616,830	9,387,039	1,444,047	1,529,112
Washington	14,603,963	18,871,493	21,285,668	28,788,276	1,614,497	1,943,821
TOTAL:	\$328,067,201	\$454,114,423	\$328,045,671	\$454,107,653	\$ 36,268,485	\$ 46,774,964

** Homestead credit includes taconite homestead credit. The amounts for taconite homestead credit are as follows:

COUNTY	1980	1981	COUNTY	1980	1981
Aitkin	\$ 523,252	\$ 543,115	Lake	\$ 858,329	\$ 938,277
Cook	245,482	245,716	St. Louis	7,882,847	8,980,047
Crow Wing	611,453	631,517			
Itasca	2,885,063	3,059,413	Total:	\$13,006,426	\$14,398,085

Beginning in payable 1981, the taconite homestead credit includes the following amounts of supplementary homestead credit:

COUNTY	1980	1981
Aitkin	\$ -	\$ 1,216
Itasca	-	291,048
St. Louis	-	127,273
Total	\$ -	\$419,537

***The assessed value, special taxing district levy and total levy columns contain tax increment financing amounts for those counties containing a tax increment financing district. The tax increment values and levies are found on Table 17, pages 52 and 53. For 1981, the net taxes payable reflect the reduction of the three new credits: reduced assessment, wetlands and native prairie. The amounts for these credits can be found on Table 22, pages 108 through 120.

* The average rate of taxation is exclusive of special assessments.

** Value and levies include tax increment financing value and levy.

*** Includes: Area Vocational Technical Institutes (AVTI) namely, #287, #916 and #917.

**** Includes: Hospital Districts
 Metropolitan Council
 Metropolitan Transit
 Mosquito Control
 Watershed Districts
 Housing & Redevelopment Authorities
 Sanitary Sewer Districts
 County Park District
 Port Authorities
 Regional Development Commissions

***** Includes the following amount of Supplementary Homestead Credit:

Aitkin	\$ 1,216
Itasca	291,048
St. Louis	127,273
Statewide Total:	\$419,537

Explanation of Categorical Division of County,
City/Township, School District, and
Special Taxing District Levies by Major Purpose

To obtain uniform reporting from the 87 counties and to comply with the physical limitations of the Abstract of Tax Lists, the numerous authorized levies are grouped by major purpose of the levy. The county auditors are provided with instructions which detail the individual levies to be included in each category (column) on the abstract. Some are self-explanatory, while others include a wide variety of levies.

The following list is not a complete digest of all the levies. It is merely a general index to the nature of each category as found on the abstract. Tables through are patterned after the design of the abstract column headings.

COUNTY LEVIES

<u>Column Heading</u>	<u>Items Included Within Column Heading</u>
General Revenue	General revenue
Indebtedness	General obligation, state loans, debt portion of other levies
Road and Bridge	Road and bridge, repair and maintenance
Welfare	Old age assistance, aid to dependent children, aid to blind and disabled persons, medical assistance, administration expense
County Building	County or regional jail construction, other county buildings
County and/or Regional Library	County library, contracts for library service
Public Employees Retirement	Public employees' retirement and social security funds, employees on leave from the state
Health Services	Ambulance service, health department and county controlled hospital districts, mental health services, nursing homes and cattle testing
Community Development	Agricultural societies and extension committees, civil defense, correction centers, probation services, sheltered workshops, senior citizen recreation programs, insect and weed control, solid waste programs, park and monuments, voting machines
Miscellaneous	Public examiner's post-audit expense, state reassessment costs, judgments, armories
County Special Assessments	See (*) after City/Town Special Assessments

CITY/TOWNSHIP LEVIES

Column Heading	Items Included Within Column Heading
General Revenue	Regular and general fund purposes
Indebtedness	General obligations, state loans, indebtedness of dissolved villages, hospitals, parking facilities, water, sewer bonds and all other debt within any fund
Road and Bridge	Road work, road drainage, bridge repairs
Firemen's Relief	Relief for paid and volunteer firemen, police relief
Public Employees Retirement	Public employees' retirement and social security funds
Community Services and Protection	Airports, ambulance and health services, civil defense, aquatic vegetation, water pollution, insect control, fire and police protection, community correction and activity centers, dump grounds and sewage disposal, commemorative purposes, parks, recreation, musical entertainment, library, cemetery, voting machines
Miscellaneous	Advertising, comprehensive planning, judgments, state post-audit expense, permanent improvement and replacement fund
City/Township Special Assessments	See (*) below

* Property taxes categorized as special assessments are not determined through the use of a mill rate as are ad valorem property tax levies. Instead, the dollar amount of a special assessment is paid by the property owner who benefits from the improvement regardless of the cash value of the owner's property. Examples of special assessments are ditches, curbs, gutters and storm sewers. If public property is improved by a special assessment, however, such as a courthouse sidewalk, every property owner pays a portion of its costs. The improvement is financed through proper funds within the county or municipality's total ad valorem levy.

SCHOOL DISTRICT LEVIES

Each of the following categories relate directly to the type of school property tax levy reported on the form entitled "Levy Limitation and Certification - 1980 Payable 1981".

<u>Column Heading</u>	<u>Items Included Within Column Heading</u>
Maintenance	Operation and maintenance of the school, including salaries, fuel, rent
Transportation	Transportation costs, bus service
Community Service	Community oriented activities, not limited to any age group
Capital Expenditure	Additions, repairs, desks and other equipment
Indebtedness	Building and operating debt, state loans
Area Vocational Technical School	
Debt Service	Building and operating debt
Maintenance	All vocational school costs except debt
Intermediate Area Vocational Technical Schools	
#287 - Suburban Hennepin County	
#916 - Ramsey-Washington County	
#917 - Dakota County	
Debt	Building and operating debt
Maintenance	Operation and maintenance of the vocational school

SPECIAL TAXING DISTRICT LEVIES

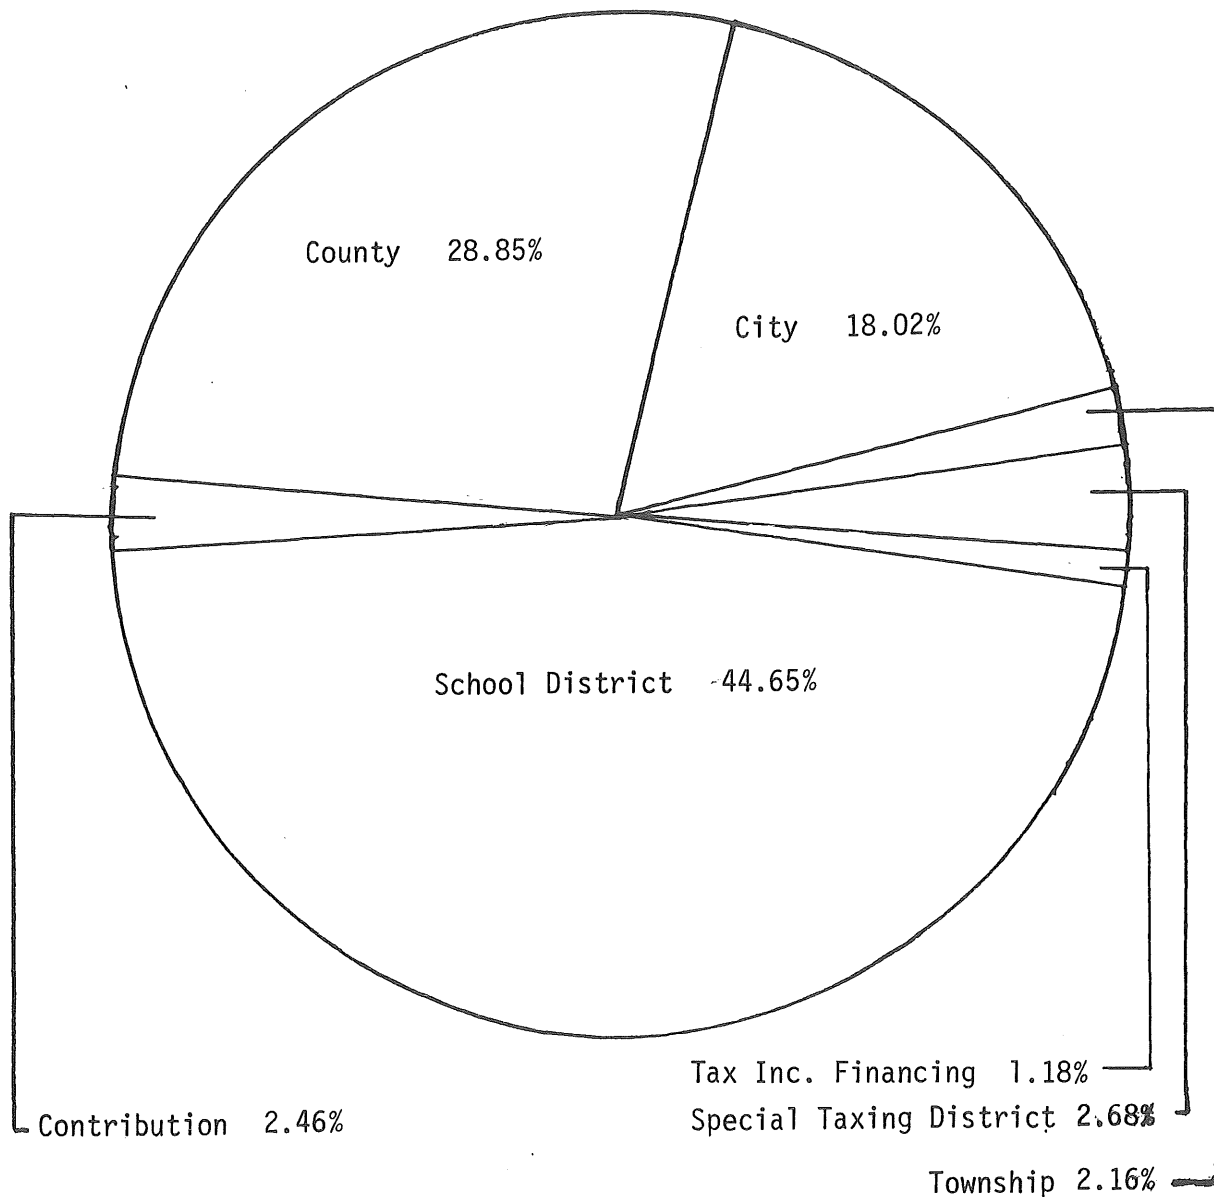

Although special taxing districts exist with great variance among the counties, general categories are established in this section of the abstract. If special taxing districts exist in a county, the levies are entered separately for revenue and debt. There are ten main categories of special taxing districts as described in "1979 Tax Levy Authorizations and Limitations" (updated in 1980) as prepared and published by the Department of Revenue.

1. Hospital District
2. Watershed District
3. Sanitary Sewer District
4. Housing and Redevelopment Authority
5. Regional Development Commission
6. Metropolitan Airport Commission
7. Metropolitan Council
8. Metropolitan Transit Commission
(Seven county metro and St. Cloud)
9. Park District
10. Port Authority

For purposes of the Abstract of Tax Lists, mosquito control districts are also considered to be special taxing districts.

NOTE: THE TAX ON THE POWER LINE PROPERTY OF ELECTRIC, LIGHT AND POWER COMPANIES IS DIVIDED INTO TWO CATEGORIES. TRANSMISSION LINES ARE ASSESSED AT 43% OF MARKET VALUE, WHILE DISTRIBUTION LINES ARE ASSESSED AT 5% OF MARKET VALUE. THE TAX RATE FOR BOTH IS THE COUNTYWIDE AVERAGE MILL RATE FOR ALL PURPOSES.

* Excludes tax of \$3,690,830, an assessed value of \$39,999,291 and a limited market value of \$79,998,581 for minerals.

Nominal Tax Rate is net tax payable divided by assessed value.

Effective Tax Rate is the net tax payable divided by the indicated market value.
