## INTRODUCTION

The Minnesota Employment and Wages by Economic Region and County is published quarterly by the Research and Statistics Office of the Minnesota Department of Jobs and Training. The data contained in this publication includes two digits of industry detail wherever possible. To avoid violating data privacy laws and to maintain the mandated confidentiality of individual firm data it was necessary to combine industries wherever there are too few firms in an industry cell. For this reason, some counties show less industry detail than others.

The source of the information is data developed and analyzed by the Research and Statistics Office of the Minnesota Department of Jobs and Training. The data is selected from quarterly tax reports submitted by employers covered under the Minnesota unemployment compensation tax law. All individual employer data is confidential. The data selected is reviewed for accuracy and organized in accordance with the U.S. 1987 Standard Industrial Classification Manual. Approximately 97 percent of the total nonagricultural wage and salary employment in Minnesota is included. There are nine categories of workers excluded from coverage under Minnesota State law:

- 1) the self-employed;
- 2) farms with less than four employees in 20 weeks;
- 3) all railroad transportation employment;
- 4) insurance and real estate salespeople who work only on commission basis;
- 5) students working for the school while a full-time student;
- 6) those employed by a church or synagogue for religious work;
- 7) minor children, spouse and parents working for owner of a business;
- 8) elected officials at the Federal, State and Local levels of government;
- 9) the Red Lake Chippewa Tribe.

Construction jobs declined statewide in 1988 by 1,997 jobs in all divisions: general building, heavy construction, and special trades. Mining, especially in the Arrowhead Region, continued to grow with Metal Mining adding 1,006 new jobs. Employment in Finance, Insurance, and Real Estate remained virtually unchanged since 1987.

### Twin Cities Metro Area

The seven county metropolitan area claims almost two-thirds of the employment in the State. In 1988 employment increased 36,214 jobs (3.0%) to an average monthly total of 1,235,536. The Service industry gained 12,234 new positions, Trade rose 10,018, while Manufacturing grew by 8,496. While general building construction jobs gained 25, heavy construction and special trades lost 1,178 positions.

Most of the new jobs in Service were in health and social services; in Trade most were in the restaurant business. Printing and publishing, rubber and plastics, and computer jobs led the way in Manufacturing. Air transportation and communications added two-thirds of the 1,840 new jobs in Transportation and Public Utilities, while federal, state, and local branches of government all added employment, for a total of 149,618 in 1988, up 3.1 percent, matching the overall rate of growth for all of the industries in the seven counties.

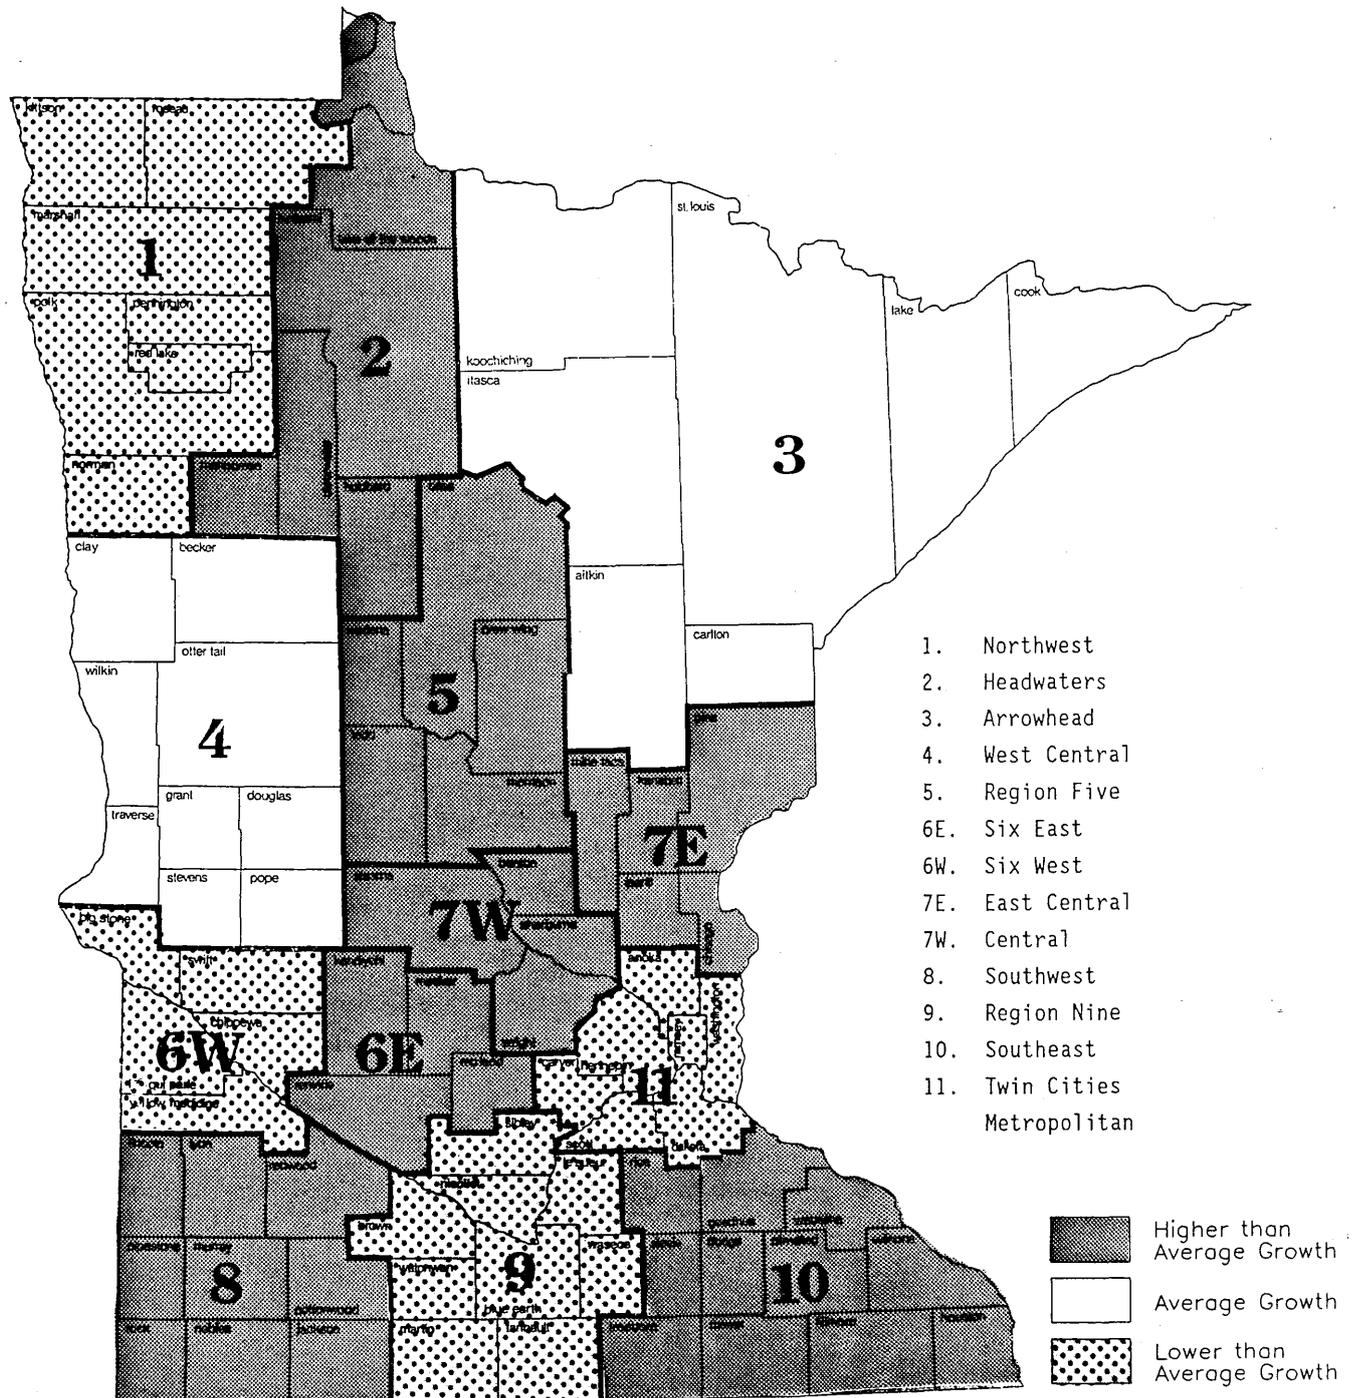

### Greater Minnesota

Overall, employment in Greater Minnesota grew by 26,956 new jobs. Manufacturing gained 9,024 new jobs, Trade rose by 5,851 positions, and Services grew by 7,447 in 1988. One-third of the loss in Minnesota construction jobs was in Greater Minnesota.

In 1988, as in 1987, more manufacturing jobs were created in Greater Minnesota than in the seven county metro area, but only 528 more this year. Each region showed growth in the manufacture of computer equipment, with approximately 2,400 new jobs created. Lumber manufacturing grew in most regions, especially north and central, but not in Regions 4, 6W, or 9. The manufacture of foods products dropped in Regions 1, 4, 7E, and 9, perhaps due to the drought of 1988, but rose moderately in the central regions of the State.

Seven regions in Greater Minnesota had higher growth rates than the Metro Area, compared to only three such regions in 1987, indicating that rural Minnesota is regaining some economic strength. Two regions in the State showed the "average" 3 percent growth, while four regions (1 in the Northwest, 6 with the West Central, 9 in the south Central, and 11, the Metropolitan Region) had less than average growth or no growth in 1988. (See map on following page).

# Employment Growth in Minnesota - 1988

Average Growth in 1988 is 3.3%

## Growth Regions

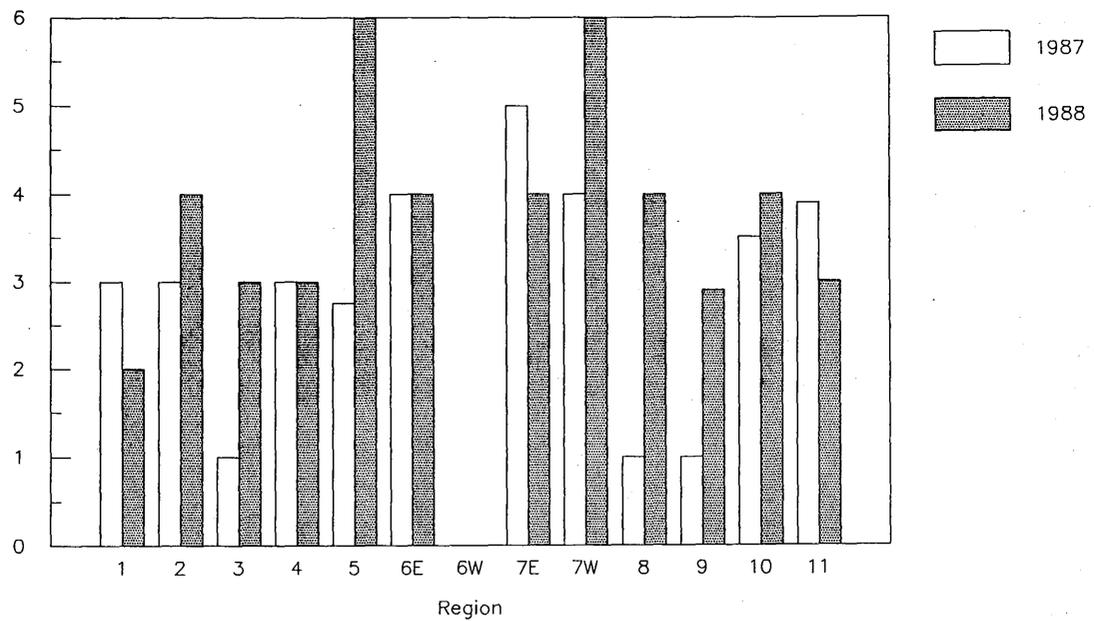

Expansion of the economy was more widespread throughout the State in 1988 than in 1987; and again this year, Regions 5 & 7W had the highest growth rate (6%). This growth extended northward from the St. Cloud area into Todd, Morrison, Crow Wing, and Cass Counties. Regions adjacent to this central growth core (2, 3, 6E, 7E, 8, & 10) grew at 3.5 percent or higher. The farming regions 1, 6W, and 9 had below average growth in 1988, no doubt drought related.

Only regions 1 and 9 in greater Minnesota grew more slowly in 1988 than in 1987. Also the metropolitan area growth rate was less in 1988 than in 1987 (down from 3.9% to 3.0%). Three regions (4, 6E, & 6W) grew at the same rate as in 1987, while all of the others grew faster in 1988 than in 1987. (See graph on following page).

Total Jobs Statewide			
<u>Industry</u>	<u>1986</u>	<u>1987</u>	<u>1988</u>
