## INTRODUCTION

The Minnesota Employment and Wages by Economic Region and County is published quarterly by the Research and Statistics Office of the Minnesota Department of Jobs and Training. The data contained in this publication includes two digits of industry detail wherever possible. To avoid violating data privacy laws and to maintain the mandated confidentiality of individual firm data it was necessary to combine industries wherever there are too few firms in an industry cell. For this reason, some counties show less industry detail than others.

The source of the information is data developed and analyzed by the Research and Statistics Office of the Minnesota Department of Jobs and Training. The data is selected from quarterly tax reports submitted by employers covered under the Minnesota unemployment compensation tax law. All individual employer data is confidential. The data selected is reviewed for accuracy and organized in accordance with the U.S. 1987 Standard Industrial Classification Manual. Approximately 97 percent of the total nonagricultural wage and salary employment in Minnesota is included. There are eight categories of workers excluded from coverage under Minnesota State law:

- 1) the self-employed;
- 2) farms with less than four employees in 20 weeks;
- 3) all railroad transportation employment;
- 4) insurance and real estate salespeople who work only on commission basis;
- 5) students working for the school while a full-time student;
- 6) those employed by a church or synagogue for religious work;
- 7) minor children, spouse and parents working for owner of a business;
- 8) elected officials at the Federal, State and Local levels of government.

### SERVICES: THREE LARGEST DECLINING MAJOR INDUSTRIES

	<u>JUNE 1990</u>	<u>JUNE 1991</u>	<u>NET CHANGE</u>	<u>% CHANGE</u>
73 BUSINESS SERVICES	94,698	91,091	-3,607	-3.8%

**TRADE**, as was stated earlier, was the only service-producing industry to have less employment than a year ago. Three major industry groups in **TRADE** had decreases greater than 1,000 in the period between June 1990 and June 1991. **APPAREL AND ACCESSORY STORES** laid off more than 1,800 employees as over 100 stores closed around the state. **AUTOMOTIVE DEALERS & SERVICE STATIONS** and **FURNITURE AND HOMEFURNISHING STORES** each cut back by 1,212 positions and 1,133 positions respectively.

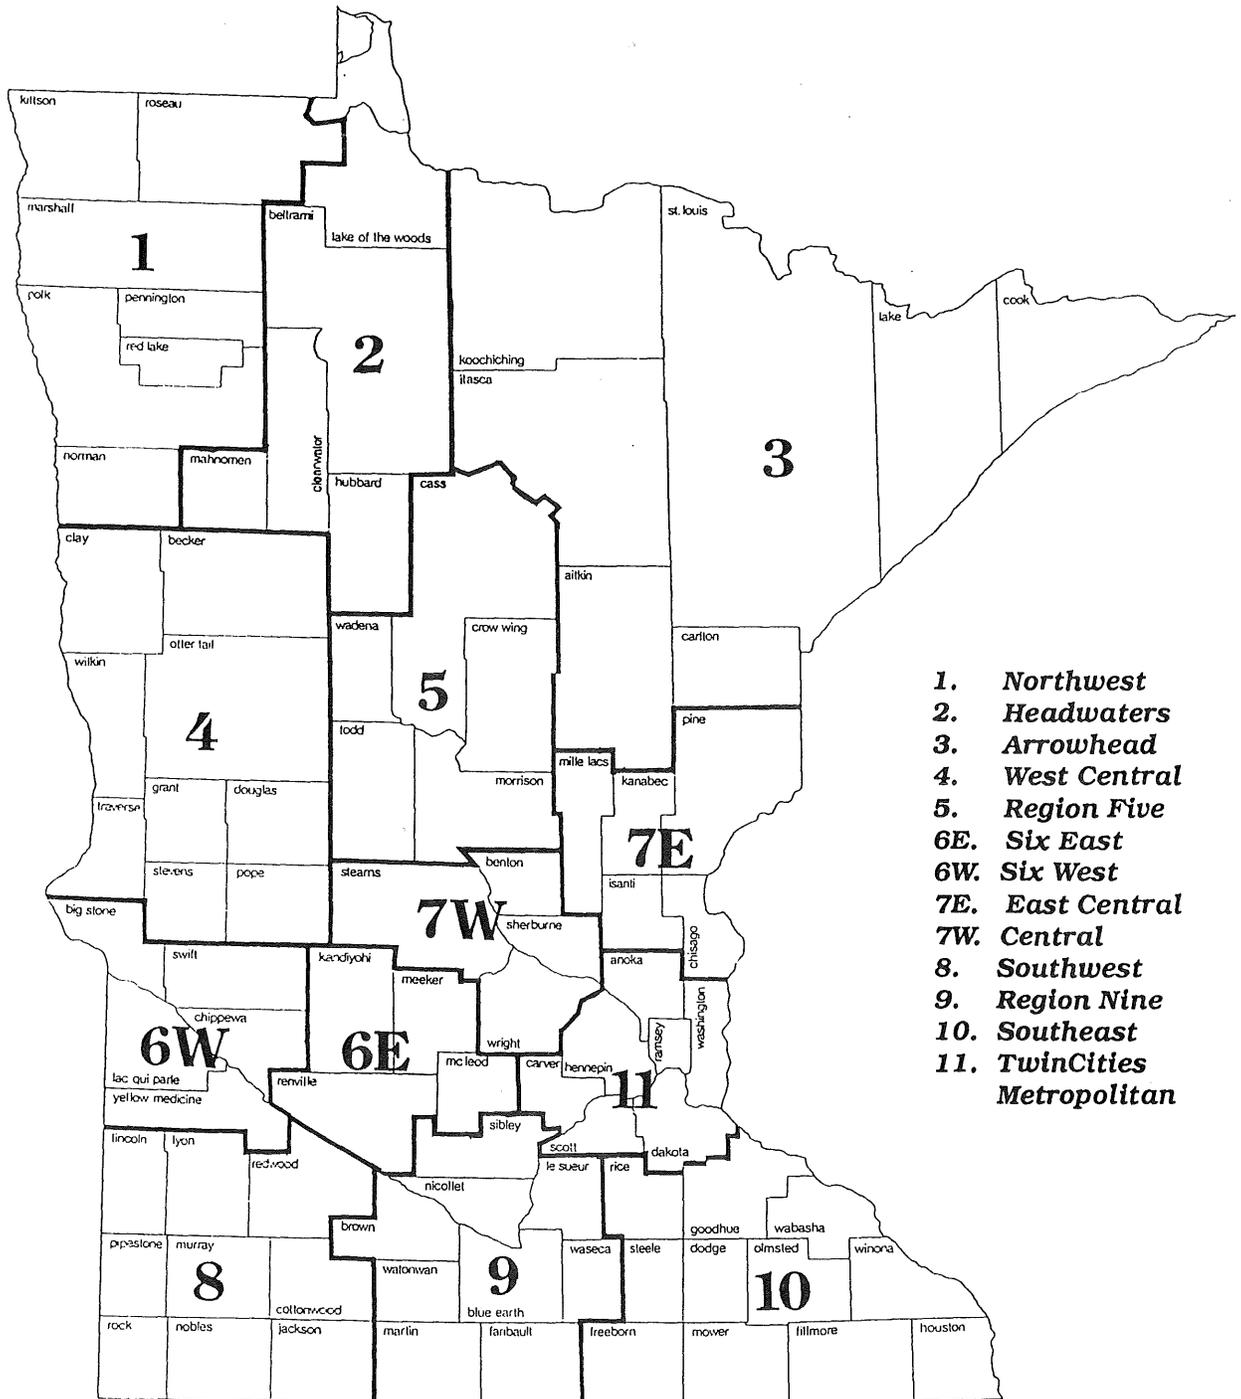

**FINANCE, INSURANCE AND REAL ESTATE** has increased greatly from a year ago as close to 4,000 additional employees were hired. About 1,500 of the workers were hired between March and June of 1991. **REAL ESTATE** had the lion's share of growth in the second quarter as employment rose by close to 1,200. **INSURANCE CARRIERS** suffered a large decline in April as payrolls were trimmed by nearly 1,000 people. There was great concern that **INSURANCE CARRIERS** might be the next group of institutions to suffer a financial crisis. However, employment stabilized and had a modest increase of 289 people over the last two months of the second quarter.

Employment in **TRANSPORTATION AND PUBLIC UTILITIES** has remained relatively stable over the last year. A total of 878 new positions were created as every major group in the industry division except **COMMUNICATIONS** experienced some minor growth.

The slowing economy has caused the overall number of jobs to stay nearly the same as last year. Although there were significant employment declines since June 1990 in goods-producing industries, these losses were offset by continued growth in the service-producing industries. However, many of the cuts in the goods-producing sector have occurred in high-paying, full-time positions. Growth in such industries as **SERVICES** have replaced these positions with lower-paying, part-time jobs.
