Under current law, the state withholds 1.75 percent of the first $48 million bet in a year and 6 percent of all bets over that figure. According to House researcher John Williams, the new provisions would impose a 6 percent tax across the board, but only on the amount the track retains after making payouts on winning tickets. Williams says the proposed system taxes roughly 20 percent of the total amount bet.

"Of each dollar bet, about 20 cents is retained by the track and 80 cents is paid out in payoffs on winning tickets. Under the existing law, the state taxes the full dollar, but under the new provisions the state would tax only the 20 cents," Williams says.

It's a fact!

Next time you drive through a Minnesota city, notice the green sign greeting all visitors—the one proclaiming the population. Even the sign for the state's smallest city, Funkley, Minnesota, proudly displays: "Funkley-population 18." Although the town has had some new births, and maybe some families moved since 1980 (the last census taking), 18 will remain the official population until after the 1990 census.

The federal census is as old as the U.S. Constitution. In fact, it was because of the Constitution that 1787 lawmakers decided to add a sentence requiring a count of the population at the beginning of each new decade. The results define political boundaries and determine the number of representatives each state has in Washington.

The next official census will begin April 1, 1990 and will take about three years to complete.
CFC-processed packaging

Certain types of styrofoam, including some brands of cups, plates, and fast-food containers are destroying the earth's ozone layer. Scientists claim they are a threat to the world's food supply. For years, scientists advised against the use of aerosol sprays because of their attack on the ozone, and now, they say, a certain type of styrofoam—chlorofluorocarbons (CFC)—is also destroying the thin shield that protects our environment from dangerous ultraviolet rays.

On March 30, the House Appropriations Committee unanimously approved HF2248 (Trimble, DFL-St. Paul), a bill that would prohibit the use and production of CFC-processed styrofoam packaging and containers in the state, making Minnesota first in the nation to address the problem.

And according to Rep. Steve Trimble, Minnesota will be taking a lead in a nationally recognized problem. "This is one way to show our state cares about this problem," says Trimble. President Reagan pushed for the federal legislation and for the Montreal protocol which is trying to outlaw the CFC production worldwide," he says.

In addition to stopping production of CFC products, the bill would initiate a study of other forms of chlorofluorocarbons, such as solvents, refrigeration, and air-conditioning. The study would provide legislators with background information to develop additional CFC legislation.

The danger of CFC products is the fluorocarbon used in manufacturing. Discharge of the substance into the atmosphere during the initial processing or disposal of styrofoam products degrades the earth's protective ozone, allowing more of the sun's ultraviolet rays to enter our environment.

Ultraviolet radiation is a leading cause of skin cancer. And scientists believe it could also threaten fish, animals, vegetation, and other elements necessary for a healthy environment.

Waste tires

The House passed a bill March 30 that would help tackle the environmental issue of used tires.

The bill's author, Rep. Darby Nelson (DFL-Champlin), says getting rid of used tires legally is a problem. Minnesota law prohibits burying them in landfills, and some retailers refuse to take them in exchange for new tires, he says.

Nelson's bill, HF2031, would consolidate responsibility for waste tire management and give it to the Waste Management Board. It would also appropriate $821,300 to the board to manage and clean up waste tires, regulate waste tire facilities, conduct research and studies to determine uses for tire-derived products, educate the public on waste tire management, and make grants and loans for waste tire programs.

Nelson says the board's ultimate goal will be to develop waste tire collection programs and a transportation network to get the tires to a final disposal site.

Auto emissions testing

The bill that would require people in the metropolitan area to submit their vehicles to an annual emissions test won preliminary approval in the Appropriations Committee March 30.

HF1803, now on its way to the House floor, would require annual testing of most cars, small pickups, and vans starting in 1991. The testing would take place at inspection stations that are either under contract or licensed by the Pollution Control Agency. The emissions test would cost motorists up to $10 and would be part of the vehicle registration process.

Rep. Darby Nelson (DFL-Champlin) says that 63 other urban areas have already implemented similar vehicle inspection programs. Nelson says setting up the program in the Twin Cities could reduce carbon monoxide levels in the metro area by 25 percent or more and would help bring the state into compliance with federal air quality standards for carbon monoxide.

Trust fund, lottery

A proposal that would create a $1 billion environmental trust fund and authorize a state-operated lottery to pay for it headed to the full House March 29. On a 13-8 vote, the Rules and Legislative Administration Committee recommended HF2182 to pass after amending it to give legislators a little more say over distribution of lottery proceeds.

If the Legislature passes the bill, and Minnesota voters approve the constitutional amendment, lottery proceeds would split three ways: one-third to preserve and protect Minnesota's environment and natural resources; one-third to the Greater Minnesota Corporation to assist rural economic development; and one-third to the state's general fund for a budget reserve.

The committee amended the bill to allow legislators to change the distribution of lottery proceeds at any time two-thirds of the House and two-thirds of the Senate agree to the change.

Rep. Willard Munger (DFL-Duluth) on behalf of the economic trust fund/lottery proposal, which may appear on November's ballot.

Higher education aid

Late on March 29, the House passed its version of higher education aid on a vote of 128-0.

Altogether, the House would appropriate $26,256,300 to Minnesota’s higher education institutions for fiscal years 1988 and 1989.

No monies would go to the University of Minnesota for building improvements or Commitment to Focus. However, the Board of Regents would receive $167,500 to cover expenses for setting up a graduate education program in Rochester.

Earlier on March 29, the Senate passed its own $21-million higher education funding bill. In it, the Senate allocated $650,000 to the Rochester University Center to establish a graduate program, rather than have the University of Minnesota extend its offerings to Rochester.

A conference committee is expected to iron out these and other differences.
Funding bill

On March 28, the House approved SF2788 (House author: Rice, DFL-Mpls), a money bill that includes money for state agencies and metro and non-metro transit programs.

Of the $17.5 million the bill appropriates for transit, $3.5 million would go for nonmetro transit. Programs such as metro mobility, regular-route bus services, and light rail transit would get the rest. SF2788 would require local transit authorities to match light rail funds on a 50-50 basis.

After several hours debate on light rail, legislators amended the bill so the Metropolitan Transit Commission would control light rail operations. Other amendments would cap the percentage of light rail funds going to a single entity, and require transit authorities to submit preliminary and final design plans to the Metropolitan Council before moving ahead with construction.

All the transit money in SF2788 is, however, dependent on passage of a separate highway funding bill to increase the state's gas tax 3 cents and transfer more Motor Vehicle Excise Tax money to highway and transit accounts.

Other provisions in SF2788 would provide funding for the Minnesota Historical Society, the Charitable Gambling Control Board, the departments of Transportation, Agriculture, and Public Safety, and other semi-state agencies.

Voter registration

A provision that would require Minnesota county welfare agencies to provide voter registration information to public assistance applicants met resistance on the House floor March 28.

Federal regulations prohibit federal social service agencies from distributing certain materials, says Rep. Mary Forsythe (IR-Edina), among them, holiday greetings, public announcements, alien registration notices, and voting information. She says that requiring county agencies to provide voter registration services could threaten welfare that federal government sends to Minnesota.

But bill author Rep. Lee Greenfield (DFL-Mpls) says the provision merely clarifies a 1987 law that requires all state agencies to provide nonpartisan voter registration assistance. Greenfield says the provision will help increase voter registration and participation in the November election.

An amendment to remove the voter registration provision from HF2126, the 225-page health and human services omnibus funding bill, failed on a vote of 74-53.

Steps to the Speaker’s chair at the front of the House chamber serve as a temporary place for paper work while the House is in recess.

State Departments funding

Rep. Phyllis Kahn (DFL-Mpls) presented the State Departments Division finance bill to the Appropriations Committee on March 25.

Some provisions would:
• appropriate $119,300 in FY '88 and $488,900 in FY '89 for 9-1-1 emergency services;
• make several appropriations for improved natural resources services such as forest and wildlife management;
• appropriate $5,050,000 for annual payments to Chippewa Indian bands for treaty settlements;
• grant $200,000 to the Minnesota Zoo to permanently exhibit an exotic species, and $1,200,000 to renovate the whale tank; and require free admission to the zoo two days a month;
• appropriate $430,300 to the World Trade Center Corporation for general operating expenses and program development; and
• grant various appropriations to the Pollution Control Agency for water testing and other pollution control services.

The bill also provides enabling legislation and rider language to govern and operate various state departments. The committee recommended the bill, HF2344, to pass and sent it to the House floor.

The House passed the bill March 29 on a vote of 84-43.
More cabooses with a train crew member in them may appear at the end of trains riding Minnesota rails under a bill the Appropriations Committee recommended to pass and sent to the House floor March 30. The bill, SF449, would require freight trains 2,000 feet or longer, transporting hazardous materials in Minnesota to have a caboose. Exempt from the requirement are short line railroads, trains traveling short distances from the terminal or running on block signal territory, and unit trains hauling grains and taconite.

Kindergarten students could enjoy one free serving of milk during the school day if the omnibus agriculture bill becomes law. The 43-page bill has a provision that would set up a milk-in-schools program for all kindergartens in the state. It encourages every school district to participate in the program and appropriates $600,000 to the Department of Education to reimburse those that do.

Help may be on the way for Minnesota farmers with acres of purple loosestrife to control. A provision in the omnibus agriculture bill would appropriate $100,000 to the Department of Agriculture for grants to help farmers eradicate the noxious weed. Officials estimate the average annual cost per acre for purple loosestrife control is $125. Purple loosestrife is poisonous to wildlife. It grows in wet soils and shallow water where it crowds out wetland plants such as cattails and sedges.

The bill that would set up a 25-member transportation study board moved a step closer to becoming law March 30 when the House sent it to the Senate for approval. The makeup of the board would be legislators and a cross-section of the public who would do a thorough study of the state's transportation system. HF1750 (Kalis, DFL-Walters) appropriates $300,000 to the board and directs the group to study such areas as toll financing, transportation bonding, highway jurisdiction, and local wheeage taxes. The bill gives the board three years to complete the study.

Exploring sunken ships off the shores of Lake Superior could provide some recreational thrills if state park boundaries expand in the area. A brief rider in the large State Departments Appropriations bill (see Highlights, Appropriations, March 25) would require the commissioner of national resources to study the possibilities of extending the boundaries of Duluth's Split Rock Lighthouse Park, or another state park near Lake Superior, to include off-shore waters. Extended boundaries would allow the DNR to determine if underwater diving near the sunken ships could be safe recreation.

An annual state park permit fee would change from $15 to $16; a special permit from $3 to $3.25; and a special 2-day permit for handicapped persons or persons over 65 from $1.50 to $2. The provisions are part of HF2344 (Kahn, DFL-Mpls), the State Departments funding bill the House passed March 29.
In answer to a frequently asked question, here are the required qualifications, responsibilities, and duties of members of the Minnesota House of Representatives: The House has 134 members (one from each House district). They serve for two-year terms. To run for the office of state representative, an individual must be:

- qualified voter
- 21 years old
- Minnesota resident—one year
- resident of her or his district at least six months before the election

Legislative duties:
- introduce and study ideas (bills) for laws (all revenue and appropriations bills begin in the House)
- serve on standing committees
- pass state laws (bills must pass both the House and Senate and have the governor’s signature)
- override governor’s veto

Judicial duties:
- judge election qualifications of members
- discipline House members (can expel members)
- impeach or remove members of executive and judicial branches

Other duties:
- respond to the needs and concerns of people in their districts
- elect University of Minnesota regents

As the Legislature begins night sessions, people leaving the Capitol for a dinner break cast long shadows in the early evening light.

Do you know?

Minnesota soil has been a battleground many times in history. But one of the state's most famous battles was a fight for numbers and a war of words—the Twin Cities Census War of 1890.

For years, Minneapolis and St. Paul were intense rivals. Each sought to pass the other in size, importance, and prestige. In preparation for the census taking in 1890, each city developed a highly efficient organization to see that the count didn't miss a name.

What followed were volleys of accusations: St. Paul accused Minneapolis of padding its list with names from tombstones. Minneapolis accused St. Paul of counting 325 people at addresses which didn't exist. Additional charges and countercharges were so numerous and serious that the national superintendent of the Census Bureau ordered a recount in both cities which special U.S. agents supervised.

The result of the second and official enumeration? The Minneapolis population count fell from 182,967 to 164,738 and St. Paul's went from 142,581 to 133,156.

For more information on the census, see "It's a fact!" on the front page.
DO YOU WANT TO STAY ON THE SESSION WEEKLY MAILING LIST?

We need your help. To save money, we're purging our mailing lists. We need your answers to the questions below.

Do you want to receive The Session Weekly in 1989? [ ] yes [ ] no

The Session Summary provides brief summaries of all bills that both the House and Senate passed during the 1988 legislative session and their chapter numbers as they appear in Laws of Minnesota 1988.

Do you want a copy of the 1988 Session Summary? [ ] yes [ ] no

If you answered yes to either question, please clip and mail this form (with the mailing label on the back) by June 1 to:

Mailing List
House Public Information Office
