Lottery revenue

A proposal for a constitutional amendment guaranteeing that half of the revenue generated by the state lottery be channeled to the newly created Environmental Trust Fund passed the Environment and Natural Resources Committee Feb. 20.

In addition, the bill that Rep. Willard Munger (DFL-Duluth) sponsors would dedicate 4 cents of the tax on cigarette packs to the trust fund.

The measure would place the proposed amendment on the November ballot so voters could decide whether half the lottery money should go to the trust fund.

State law currently requires that half the lottery money flow into the trust fund over the next five years. But Munger says he wants that provision chiseled into the constitution to prevent future legislatures from raiding the fund.

The bill may face opposition since some lawmakers have hinted they want to use the lottery money to help balance the budget. Projections indicate the state faces a possible shortfall of $161 million by mid-1991.

Rep. Phyllis Kahn (DFL-Mpls), who chairs the State Departments Division of the Appropriations Committee, says she won't support the bill as written because dedicating tax money for specific causes reduces the Legislature's accountability to voters and makes the state budget less flexible.

The committee sent HF479 to Kahn's division for further consideration.

Harassment penalties

A bill that would make it easier to get a restraining order and increase the penalties for those who commit repeated acts of harassment was approved Feb. 19 by the Judiciary Committee.

The bill, sponsored by Rep. Randy Kelly (DFL-St. Paul), would allow women to obtain restraining orders regardless of their relationship to the person harassing them.

Early explorers to Washington County came up the two major river highways, the St. Croix and the Mississippi, and settled between them in what was later called the "Golden Triangle." This rich, expansive triangle of land became the focal point of early government and the site of the first convention to establish territorial status for the new area — an important step toward Minnesota becoming a state.

It's a fact!

The first county in Minnesota takes its name from George Washington, "first in war, first in peace and first in the hearts of his countrymen."

Washington County, established October 27, 1849, includes 33 townships and villages. The county seat, Stillwater, was named by John McKusick, a state senator from 1863-66, for the stillness of the bodies of water bordering it.

Stillwater in 1870 with the courthouse in the background. Courtesy MN Historical Society
A woman who said she has been repeatedly harassed by a neighbor since 1984, but has been unable to obtain a restraining order against him.

She was unable to seek the court’s protection even though police apprehended the man, who was carrying an ice pick, in her yard.

**Uniform election day**

A bill that would require most elections to be held on the same day beginning in 1993 or 1994 was considered Feb. 20 in the General Legislation, Veterans Affairs and Gaming Committee’s Elections Division.

The bill’s chief author, Rep. Linda Scheid (DFL-Brooklyn Park), says the measure would increase voter awareness and participation by eliminating voter confusion in some areas, and by making it as easy to vote as possible. She says the bill would also reduce administrative costs in holding elections.

About 1,600 of the state’s 1,800 townships, however, would be exempted under the bill calling for uniform election days for county, municipal, and other local political subdivisions.

The measure would require all other local political subdivisions to hold elections on one of two dates: the first Tuesday after the first Monday in November in either the even or odd numbered years.

Local primaries would be held the first Tuesday after the second Monday in September of a chosen year. The bill also would require uniform precincts and polling places for all elections.

Under the bill, the first uniform election day would be held in 1993 or 1994. Local governments would be permitted to extend their elected officials’ terms so they would face election at that time.

The division will consider HF1916 at a later date.

**School system overhaul**

The state needs a radical overhaul of its K-12 education system to create a positive learning atmosphere, a college professor and member of the state’s board of education told members of the Education Committee Feb. 19.

Doug Wallace, an ethics professor at the College of St. Catherine in St. Paul, says the state should abolish school districts, license individual schools, define performance-based outcomes, and fund all K-12 operating expenses.

The plan would reduce school struc-
ture, which Wallace views as an impediment to learning. It would also provide the flexibility students and teachers need to create a positive learning atmosphere, he says.

“I no longer think tinkering and incrementalism is going to make much of a difference in motivating students,” said Wallace, adding that his plan would dramatically reduce property taxes.

But Rep. Jerry Bauerly (DFL-Sauk Rapids) questioned what taxes would be raised to cover the almost $2 billion in additional costs the state would need in order to pay all K-12 operating costs.

Lawmakers also questioned whether an individual school could be licensed, and if so, what would happen to students if a school lost its license.

And lawmakers asked how the plan would benefit rural students and teachers, and who would pay for the construction and upkeep of educational facilities. No one presented a bill regarding Wallace’s proposal.

**Educational choices**

Students shouldn’t be able to flounder through high school and get into college. That’s the simple message Rep. Ken Nelson (DFL-Mpls) wants to send to students, parents, and teachers. And that’s the message of the Future Choices brochure, says Joe Graba, deputy executive director of the Minnesota Higher Education Coordinating Board.

The Future Choices brochure is informational material intended for eighth graders that describes what classes they need to get into college, what financial aid is available to students, and what options students have after high school.

“The lack of information by parents and students could keep them from pursuing higher education,” says Graba. The materials are currently sent to school counselors. Several lawmakers say the material should be sent to students and their parents. Graba presented the Future Choices initiative to the Education Committee Feb. 19.

**Higher education requests**

College students became lobbyists at a Feb. 21 meeting of the Education Committee’s Higher Education Division. And they didn’t run short of suggestions for lawmakers.

They asked for an increase in the level of state scholarships and grants, and an improvement in the way they're delivered.

David Minkkinen, a University of Minnesota student representative, says the current living and miscellaneous allowances in state scholarships and grants barely cover food and dorm costs. Minkkinen also pointed out that tuition now accounts for only 25 percent of a student’s total expenses.

Mary Casserly, representing the private colleges, says increasing student debts are forcing students to choose more lucrative professions such as business and engineering so they can pay off their debts. Students may be less likely to pursue professions such as teaching as a result, she says.

Minkkinen suggested the state replace its financial aid model with the federal one.

The students also asked legislators to establish a legislative summer school program for high school and college students that would focus on the legislative process, and to increase student terms of office on the Higher Education Coordinating Board (HECB).

In addition, students asked for more child care funding, and that the application process for child care be streamlined. They say it’s now very time consuming and stressful to deal with the many funding agencies.

“I don’t understand why the system is trying to crucify a person who is trying to get ahead in life,” says Debbie Kelleher, a technical college student and mother.

**Travel contracts**

Ever sign up to join a travel group that offers discounts on hotel rates or travel, and regret it later?

A bill the Commerce Committee approved Feb. 22 calls for a three-day cooling off period to allow people to change their minds.

Bill sponsor Rep. Randy Kelly (DFL-St. Paul) says so-called “membership travel contracts” typically employ high-pressure sales tactics to get people to sign up for long-term agreements.

Kelly cited two examples in which people felt pressured into buying these contracts, only to realize later that they didn’t have a chance to change their
minds after reviewing the material.

Joseph Rumsey, who was temporarily taken in by a membership travel service, says he supports the measure. “This allows consumers to think again,” he says. “Legitimate business people have nothing to fear from passage of this law.”

Rumsey says he was allowed to cancel his contract after contacting the travel organizer even though the three-day cooling off period for many other sales pitches didn’t apply to membership travel contracts.

Seniors’ insurance

Senior citizens would have an easier time comparing available health care policies if a bill the Insurance Committee approved Feb. 21 becomes law.

Rep. Wes Skoglund (DFL-Mpls) sponsors the bill that would standardize insurance policies by requiring insurance companies to offer only two policies with four different supplement options.

Confusion among seniors over having to choose from so many insurance policies prompted the bill.

Under Skoglund’s plan, the two different policies would be called the extended basic Medicare supplement plan and the basic Medicare supplement plan. The policies would help seniors pay for a variety of expenses not covered by Medicare.

Tom Jordan of the Senior Citizen Federation says he supports the measure but hopes lawmakers address a few other concerns as well.

“Seniors want preventive medicine coverage,” he says, adding that policies should also cover the costs of hearing aids, eye glasses, immunizations, and physicals.

HF1983 was sent to the House floor for further consideration.

Budget cuts

Rep. Phyllis Kahn (DFL-Mpls) and a member of the Perpich administration were at odds at a Feb. 20 Appropriations Committee division meeting over how to proceed in making budget cuts in state government.

Kahn, chair of the Appropriation Committee’s State Departments Division, sent a letter to department heads last month for suggestions on how to trim their budgets by about 30 percent.

But Tom Harron, deputy commissioner of the State Planning Agency, says the administration intends to follow its own process in making budget cuts.

The governor is expected to offer his budget-cutting recommendations at the end of this month following the release of an updated revenue forecast. Earlier projections indicated a budget shortfall of at least $161 million by mid-1991.

Kahn says she was surprised by the administration’s rebuff of her request.

“Has it ever happened before in the history of Minnesota that the governor and the executive branch told agencies to withhold information from the state Legislature?” she asked.

Kahn says she wanted to get started early on the budget-cutting process because only a few weeks remain before committee deadlines at the Legislature.

Truck inspections

Most trucks would be required to pass annual and daily inspections before being allowed on the road if a bill approved by the Transportation Committee Feb. 21 becomes law.

“There’s a black hole of trucks out there not being inspected,” says bill author Rep. Harold Lasley (DFL-Cambridge). “We want to make the [trucking] industry safe as a whole.”

Under the bill, any commercial motor vehicle over 26,000 pounds would have to display a safety inspection decal that would be valid for one year. The State Patrol or people certified by the commissioner of Public Safety would perform the inspections. The bill also would request money for four new staff positions for the program.

In addition, drivers would be required to make daily inspections of their vehicles for possible safety defects and report those findings to truck owners. Drivers could not drive the trucks again until the owners made the necessary repairs.

“This law should keep vehicles at a very high level of maintenance in this state,” says Maj. Ralph Church of the State Patrol.

Members amended HF1898 to exempt most farm trucks from these inspections, and sent it to the Appropriations Committee for further consideration.
State taxes

The Joint Religious Legislative Coalition says Minnesota should rely more heavily on the state's income tax and less on regressive property and sales taxes which impose a heavy burden on the poor.

In addition, leaders of the coalition suggested during a Taxes Committee meeting Feb. 22 that the Minnesota income tax be made more progressive so those in the higher income brackets pay a greater share of taxes.

Mary Kay Sauter, chair of a coalition's taxation task force that prepared a report on Minnesota's tax system, says the state raises about 60 percent of revenues with regressive sales and property taxes compared to only 30 percent with the progressive income tax.

The report also recommends having the Department of Revenue analyze the tax system to see whether it's fair to all income groups. The coalition also wants the state to maintain an adequate budget reserve and to raise income taxes to cover budget deficits.

Coalition member Larry Gibson says research shows business leaders rarely consider tax rates in making business decisions. He says other factors such as markets and labor supplies are more heavily considered.

He says even though state tax rates are considered high, Minnesota has experienced high personal income growth and has been one of the nation's strongest regional economies.

Lending regulations

Loan and thrifts and certain other lender institutions would be allowed to charge higher interest rates on small loans and retain certain payments on prepaid loans under a bill approved by the Financial Institutions and Housing Committee Feb. 21.

The measure, sponsored by Rep. Linda Scheid (DFL-Brooklyn Park), would allow regulated lenders to charge 33 percent interest on the first $1,000 of a loan. Currently, they may charge that interest on only the first $455 of a loan.

They would also be allowed to keep certain discount point payments on prepaid loans. Currently, lenders must return this money to the borrower.

Scheid says lenders are losing money on small loans, which could ultimately force them out of business and make it more difficult for low-income people to get credit. She also says neighboring states have raised the interest rates on such loans.

Jerry Monson, a member of the Minnesota Consumer Finance Conference, says the consumer financing industry has been locked into these interest rates since 1980 even though their costs have been rising.

He says some industry profits are down 40 to 60 percent, and that the number of lender bankruptcies has increased 66 percent over the past three years. He says some lenders are in business today only because of the profits they accrued in the past.

But Harold Turner of the Legal Services Advocacy Project says the bill doesn't provide adequate protection to low-income people. He says the majority of small borrowers have low incomes, and that lenders are trying to make up for other losses by raising interest rates on small loans.

Jim Miller, deputy commissioner of the Department of Commerce, says his department doesn't support the interest rate change.

In contrast to remarks made by the lenders, he says the loss associated with small loans has been insignificant in the past three years. In addition, he says lenders have not reduced the number of such loans made.

HF1913 now goes to the House floor for consideration.

Education access

The pledge of access to higher education may be taking its toll on the quality of education available at Minnesota's colleges and universities, the chancellor of the State University System (SUS) told the Appropriation Committee's Education Division Feb. 21.

"There's a great deal of emphasis in this state on access," says Chancellor Robert Carothers. "I think it has damaged quality in the meantime."

Carothers says the SUS paid "a significant price in terms of the quality of operation and the stress on people" in trying to serve as many students as possible during the past five years.

College officials need to develop plans to realign their systems to better ensure quality, he says. Since state dollars apparently won't increase appreciably, officials must rely on creativity to assure integrity in their programs.

"It'll be a bloody road," says Carothers, adding that the governor, Legislature, and the education systems have to show the courage and willingness to make meaningful changes.

Minnesota ranks fifth nationally in per taxpayer contribution for education, he told the panel. Yet the state ranks between 25th and 35th nationally in per pupil spending.
Drug dispensation

Two bills that would give nurse practitioners and physician assistants authority to prescribe and administer drugs were approved Feb. 20 by the Health and Human Services Committee.

A measure sponsored by Rep. Peter McLaughlin (DFL-Mpls) would allow certain registered nurses to prescribe and administer drugs and therapeutic devices as outlined by the State Board of Nursing. The board would be required to adopt rules to determine the categories of prescription drugs and therapeutic devices nurses could prescribe.

HF1845 would apply to nurses who graduate from a program of advanced study for nurse practitioners, who receive certification through a national organization that certifies nurse practitioners and is approved by the nursing board, or who have a written agreement with a physician defining delegated responsibilities.

The other bill, sponsored by Rep. Marvin Dauner (DFL-Hawley), would allow doctors to permit certain physician assistants to prescribe, administer, and dispense drugs.

HF1887 would apply to physician assistants who are registered with the Board of Medical Examiners and certified by the National Commission on Certification of Physician Assistants.

Both bills were sent to the Appropriations Committee for further consideration.

Farmer-lender mediation

The farmer-lender mediation program would be extended another year under a bill approved Feb. 19 by the Agriculture Committee.

The measure, sponsored by Rep. Wally Sparby (DFL-Thief River Falls), would give $300,000 this session to the University of Minnesota Extension Service to continue the lending program begun in 1985.

Although most people testifying supported the measure, Jerry Schoenfeld, a lobbyist with the Independent Bankers Association and a former DFL lawmaker from Waseca, spoke against it.

"This mediation was never intended to be permanent and on-going legislation," he said, noting it began in 1985 in response to the state's farming crisis. He says farmers are no longer in that kind of emergency situation, and mediation is being used differently than when the program began.

Schoenfeld, a leading architect of farm policy when he served in the House, favors legislation that would give the governor the authority to define an agricultural emergency. Without a legitimate crisis, there is "not necessarily a need" for the program to continue, he says.

Rep. Katy Olson (DFL-Sherburn) however, calls the current program one of the only "helping hands" the state gives to farmers.

And an official from Farm Credit Services says the mediations have been positive and have brought results.

HF1815 was referred to the Appropriations Committee for further consideration.

Telecommunications

Members of the Regulated Industries Committee took a look into the future Feb. 19 at a U.S. West demonstration lab in St. Paul.

The lab allowed U.S. West to display its newest telecommunication systems that company officials say could be available if it were not for court-imposed restrictions.

Officials demonstrated prescription telephone systems that automatically adjust the volume of a call for hearing-impaired customers, and another device that converts TDD (telecommunication devices for the deaf) messages into speech.

The device, for example, would allow deaf people to type in a pizza order on their TDD, and the message would then be converted into speech, says a U.S. West spokesman. U.S. West officials say more than 60 percent of the U.S. population has some degree of hearing loss.

Another U.S. West innovation could allow doctors in rural areas to exchange documents and X-rays with colleagues at different locations via video terminals.

U.S. West officials say antiquated federal laws governing the telecommunications industry prohibit either the development or manufacture of such devices. They and others in the telecommunications industry say they support legislation that would remove the restrictions and give U.S. phone companies broader participation in the industry.

Welfare fraud

A Department of Human Services official criticized a local television station's recent report on welfare fraud in Minnesota during a Feb. 20 Appropriations Committee division meeting.

John Petraborg, assistant Human Services commissioner, says the KARE 11 broadcast was riddled with errors and misleading statements. He distributed a two-page memo during the Health and Human Services Division meeting listing what he alleged were 16 false or misleading statements in the broadcast.

He says the series of television reports suggested Minnesota is not interested in helping people who receive Aid to Families with Dependent Children.
(AFDC) become self-sufficient. That allegation is simply not true, says Petraborg.

Minnesota spends about $15 million per year to provide child care and employment and training services to about 11,000 AFDC recipients, he says. Each year about 10,000 AFDC recipients find jobs and stop receiving welfare payments. Nor does the department stop future welfare payments only when fraud is discovered as the television report alleged, says Petraborg.

Petraborg says the department attempts to collect past payments as well as stop future payments.

He told committee members that Minnesota ranks 32nd in the nation in per capita usage of AFDC benefits, and that the state has the highest AFDC fraud conviction rate in the Midwest region.

“Our efforts at program integrity are considerably more vigorous than the reports gave credit to,” says Petraborg, adding that the reports ignored basic facts about Minnesota’s income maintenance programs.

Mercury reduction

A bill that would drastically lower the mercury content in a wide variety of batteries was approved Feb. 21 by the Environment and Natural Resources Committee.

The bill, sponsored by Rep. Jean Wagenius (DFL-Mpls), is designed to reduce the amount of toxic metals in the waste stream — particularly from the burning of batteries in incinerators.

Supporters of the bill say it would reduce the amount of mercury in common alkaline batteries to about 5 percent of present levels.

Although these batteries contain only small amounts of mercury, Wagenius says those tiny levels add up to several tons during the course of a year.

The bill would also require the manufacturers of large specialty batteries — such as those used in television cameras, heart pacemakers, and portable television sets — to be collected at the manufacturer’s expense.

Another provision in the bill would ban consumer products with rechargeable batteries unless they have an easily removable battery pack and have instructions for recycling.

Ray Balfour, representing manufacturers of household and rechargeable batteries, said the industry is prepared to reduce the mercury content in batteries to the levels set in Europe and Canada. But he says it would be impossible to reduce the mercury content in all batteries such as the ones used in hearing aids.

HF1921 was sent to the House floor for further consideration.

Students’ Day

A bill that would establish a Students’ Day in Minnesota was approved Feb. 21 by the Education Committee’s Higher Education Division.

“More students deserve a pat on the back,” says students from Northwood West, a Duluth school that has students from around the state. Several of them traveled to St. Paul to testify before the committee.

Northwood students suggested the bill, and Rep. Mike Jaros (DFL-Duluth), agreed to be the chief author. Jaros is the division chair.

A students’ day would help “recognize students for their efforts and achievements,” says David Halver, a Northwood West faculty member, adding that only those who excel in academics or athletics typically receive any recognition.

All students from kindergarten through college would be included in the celebration. Halver says the day could be exciting for kindergarteners finishing their first year of school as well as for adults going back for more education.

The measure calls for Students’ Day to be held on the second Friday in May. “It’s a real opportunity to look our students in the eye and say ‘nice job’,” says Halver.

Division members unanimously approved HF1878 and sent it to the Education Committee.

Water, sewer development

Townships could get water and sewer development grants through a state program if a bill approved by the Local Government and Metropolitan Affairs Committee Feb. 20 becomes law.

The measure, sponsored by Rep. Mary Murphy (DFL-Hermantown), would allow the state to issue bonds to towns for sewer and water projects that are eligible under the program. The proposal outlines several eligibility requirements, some of which center on environment, health, population density, and special assessment resources, that must be met before the state could consider townships eligible for the grants. The Public Facilities Authority would set up and run the program.

“The competition is so great, the number of households to be hooked up is so few, and the cost of the project is so big that they [townships] never get top priority,” says Murphy. “The cities have a lot more places to turn to [for financial help].”

HF 1772 was sent to the Appropriations Committee for further consideration.

Feb. 24, 1858

On this day, legislators introduced the “Five Million Dollar Loan Bill” for building Minnesota railroads. Bitter opposition to the bill surfaced in a satirical cartoon showing a “Gopher Train” drawn by nine striped rodents with human heads. Historians believe that the nickname “Gopher State” has its roots in this cartoon.
As it stands now, a blowgun (often containing metal darts) can be sold in Minnesota as a toy for children. This, and other concerns about the potential dangers of the weapon, prompted Majority Leader Dee Long (DFL-Mpls) to get involved. Long is sponsoring a bill calling for the Department of Natural Resources (DNR) to regulate the sale and use of blowguns as they do any hunting weapon. The bill awaits a hearing in the Environment & Natural Resources Committee.

The operation of the University of Minnesota’s physical plant is on the rebound, the Appropriation Committee’s Education Division learned Feb. 19. A legislative auditor’s report in 1988 criticized the operation, saying it was fraught with poor management, faulty accounting, and disgruntled workers. A mini-audit conducted recently cites improvement in management, but Gus Donhowe, the university’s senior vice president for finance and operations, says, “the progress required by the Physical Plant Operation is more noteworthy than the progress it has made.”

Inventions that employees develop on the job would belong to them rather than to their employers in certain cases if a bill sponsored by Rep. Dick Kostohryz (DFL-North St. Paul) becomes law. HF1613 would give employees control over those inventions if their employers don’t develop them within a year. The Commerce Committee is expected to resume discussions on the measure next week.

The Department of Human Services’ child protection unit lost $320,000 in federal grants this fiscal year because Minnesota’s Child Abuse Reporting Act didn’t comply with federal standards, said Erin Sullivan-Sutten, who represented the unit Feb. 20 at a meeting of the Judiciary Committee’s Criminal Justice Division. The division approved HF1823 (Vellenga, DFL-St. Paul), a bill that would bring the act into compliance with federal regulations, and sent it on to the full committee.

One out of four bridges in Minnesota need either significant repair work or replacement, says Fred Corrigan of the Minnesota Transportation Alliance. A $32 million bridge bonding bill, approved by the Transportation Committee Feb. 21, would attempt to mend these deteriorating bridges. HF1803 would provide $8 million in bonding for the next four years, “keeping us only at a maintenance standard,” says author Rep. Bernie Lieder (DFL-Crookston). The money would be split between counties ($21.9 million), townships ($4.6 million), and cities ($5.5 million). The committee sent the bill to the Appropriations Committee for further consideration.
Committee Action

**AGRICULTURE**

Monday, Feb. 19
Farmer-Lender Mediation Act—extension, appropriation
HF1815/SF1750 (Sparby, DFL-Thief River Falls)—recommended to pass; referred to Appropriations Committee. (SF in Senate Agriculture & Rural Development Committee)

**COMMERCE**

Tuesday, Feb. 20
Inventions by employees—regulation
HF1613/SF1805 (Kostohryz, DFL-North St. Paul)—laid over. (SF in Senate Employment Committee)

Volunteer drivers—rule exemptions
HF1859/SF1806 (Steensma, DFL-Luverne)—recommended to pass.
(SF in Senate Transportation Committee)

Truck safety—annual inspections
HF1898 (Lasley, DFL-Cambridge)—recommended to pass as amended; re-referred to Appropriations Committee.
Revisor corps in the trenches for lawmakers

One of the oldest Minnesota state legislative staff offices also has one of the lowest public profiles. The Office of the Revisor of Statutes, created in 1939, is a vital behind-the-scenes link in the legislative process.

The nonpartisan office translates legislative bill proposals into proper legal form so they can be introduced into the House of Representatives and/or the Senate. It also publishes state laws and administrative rules, and provides computer services to many departments involved in the legislative process.

Most of the session is spent working with legislators. The first step in the process is for a bill drafter to discuss a proposed bill with a legislator, and then write a draft.

“We try to deliver what legislators want, when they want it,” says Steve Cross, the revisor since 1978. The more lead-time drafters have, the better job they can do, he says.

As the bill moves through committees, other drafts are sometimes substituted for the original and amendments are written and added. Whenever the bill is changed, the office produces an engrossment which combines the bill and its amendments.

After a bill passes both the House and the Senate, the revisor’s office checks the House and Senate files to ensure the passed bills are identical. The bill is then printed on special paper and sent to the governor to be signed or vetoed. If a bill passed by both houses of the Legislature differs from the one signed by the governor, the measure would be declared invalid.

While only a fraction of the bills proposed each year cross the governor’s desk, all involve the revisor’s office. During the 1989 session, over 3,400 bills were introduced in the House and the Senate. The governor signed 353 into law.

Also published is Minnesota Rules, a compilation of Minnesota’s administrative rules. All of the publications are indexed, which is a major undertaking. The office is now double-indexing the Minnesota Statutes.

Present builds on past

Other responsibilities of the office include examining other states’ laws; giving a yearly report on court decisions that criticized, or declared invalid, Minnesota laws; and giving advice on statutes upon request.

The department has 60 staff members during session, including 13 attorneys and 18 bill-drafting and editorial assistants. But the total staff is cut to 48 during the interim.

When the department was created it was placed under the jurisdiction of the Minnesota Supreme Court. Its job was to compile the state laws passed each year.

In 1947, it was given the task of drafting bills. But it was not until 1973 that the office was moved from the judicial branch to the Legislature.

The office computerized in 1970, making it the first in the Legislature to do so. The office’s computer staff recently completed work on the electronic mail and scheduling system, which is known as the MUS, or Minnesota Legislative Information System.

Publishing is interim priority

The focus during the interim (the time between sessions) is publishing. Three major publications come out of the Revisor’s office: Laws of Minnesota, Minnesota Statutes, and Minnesota Rules. Laws of Minnesota records the bills and resolutions adopted during a particular session. Published each year, it provides a historical record of the Legislature. It’s a good place to look up new law, but an inefficient way to find all the law on a particular topic, Cross says.

Minnesota Statutes, a 10-volume set that lists all Minnesota laws, is more convenient, he says. It’s published every two years, with the Minnesota Statutes Supplement published in the intervening years.

The original act mandating that the Office of the Revisor compile and revise statutes of Minnesota.
Medical advances reshape definition of death

Advances in medical technology left behind the traditional methods of determining death — the stoppage of heart and lung functions. Life support systems could maintain circulation and breathing indefinitely, even though the brain lost all function.

Medical advances dictated a new definition of death. In the early 1980s, the President’s Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research adopted as the definition of brain death the “irreversible cessation of all functions of the entire brain, including the brain stem.” A person with these conditions is considered dead.

In 1989, the Minnesota Legislature adopted the Uniform Determination of Death Act that states a person is dead if he/she sustains irreversible cessation of circulatory and respiratory functions of all functions of the entire brain, including the brain stem, according to “Brain Death,” a House Research Department information brief. Death must be determined according to generally accepted medical standards.

Brain death is different from a persistent vegetative state. A person in a persistent vegetative state has brain stem functions but irreversible damage to major parts of the brain. The body of a person who is brain dead will begin to decompose and heart and lung activity will stop within a few weeks, but the person can be kept on a respirator.

Having a uniform definition of death is important for the areas of criminal law, doctor liability, estate settlement, and organ transplantation.

In criminal law, brain death voids the argument that the removal of a person from life support systems was the cause of death. Likewise, when a physician declares a patient brain dead and stops treatment, the physician has a strong defense should a wrongful death action be brought.

In some rare instances — such as near simultaneous deaths — an estate may be settled because of the legal acceptance of brain death. Also, officials have noted that death must be determined according to the legal acceptance of brain death. Also, officials have noted that the concept of brain death may affect questions of life insurance, receipt of government benefits, and the statute of limitations in some cases.

Organ transplantation also benefits from the use of brain dead criteria because donated organs should be as fresh as possible. A person who is brain dead, but whose circulation and respiration is artificially maintained, may be a valuable donor.

Crime victim laws offer aid in many ways

Victims’ rights legislation in Minnesota began 16 years ago when lawmakers passed the Crime Victims Reparations Act. The act allowed people who are the victims or crimes, or their survivors, to be compensated for the illegal act.

While amended almost every year since its enactment, the changes mainly clarify the act’s provisions, so it remains much the same as it did when enacted in 1974. The House Research Department prepared an information brief, “Crime Victim Legislation in Minnesota: An Overview,” on victim rights laws.

Other victims’ rights laws, known as the “Crime Victim Bill of Rights,” protect victims from harm. Provisions covering areas such as tampering with witnesses, address protection, secure waiting area and employer retaliation give witnesses greater security when court officials ask them to testify.

The act also requires victims to be notified of changes during the criminal justice process. Courts must notify victims if a domestic assault case won’t be prosecuted, about plea agreements, or other court schedule changes. Victims also have the right to attend sentencings and to be notified if an offender is scheduled to be released from prison.

Victims also have the right to participate from pretrial hearings through sentencing. Minnesota laws allow victims to offer input regarding plea agreements, to request a speedy trial, and to offer a victim impact statement. In drug cases, the act allows for a neighborhood impact statement to be conducted. They also may request a probation review hearing if the offender fails to pay required restitution.

State laws also govern several assistance programs for victims and/or witnesses. Lawmakers included provisions that establish programs for sexual assault victims and battered women, victim crisis centers, and a crime victim and witness advisory council. They also passed an initiative creating the crime victim ombudsman office in the Department of Public Safety and streamlined collection and payment of restitution.

In the 1988 and 1989 sessions, the Legislature recognized the growth of so-called “hate” crimes — those motivated by bias against an individual because of race, religion, national origin, sex, age, disability, or sexual orientation. In addition to spelling out penalties, bias crime laws require law enforcement agencies to report bias crime and provide training courses to help peace officers identify and respond to bias crimes.
Planning to be in the St. Paul-Minneapolis area for a few days between now and Easter? Why not block out some time for a visit to the state Capitol to watch the Legislature in action.

The 1990 legislative session began Feb. 12 and is the second session of the biennium. The 1989 session lasted about five months; this year's session should last between eight and 10 weeks. House members will hold committee hearings until March 16. After that date, House members will meet more frequently in floor session until adjournment, possibly before Easter.

The Minnesota Legislature can meet up to 120 days during the biennium. This is not an appropriations year because state budgetary matters are considered during the odd-numbered year of the state's two-year spending cycle.

The Legislature is divided into the House of Representatives and the Senate. The House has 134 members and the Senate has 67.

The Capitol complex

The Capitol, designed by architect Cass Gilbert and famed for its four golden horses, is the cog of the Capitol complex. The Capitol, bound by University and Aurora avenues on the north and south, and Cedar and Constitution avenues on the east and west, is central to the other buildings on the hill.

House of Representatives' offices are in the State Office Building on Constitution Avenue, just in front of the Capitol. Committee meeting rooms, the House Public Information Office, the Office of the Revisor of Statutes, the House Research Department, and the Legislative Reference Library are also in the State Office Building.

Other office buildings in the Capitol complex are:
- Transportation Building, south of the State Office Building on John Ireland Boulevard.
- Historical Society Building, Cedar Avenue across the mall from the State Office Building.
- Veterans Service Building, 12th Street near between John Ireland Boulevard and Cedar Avenue.
- Centennial Office Building, Cedar Avenue at Constitution Avenue.
- Ford Building, University Avenue facing State Office Building.
- Capitol Square Building, Cedar Avenue at 11th Street.
- Administration Building, Sherburne Street at Cedar Avenue.

A tunnel system links the Capitol complex buildings. Entrances are on the lower levels of the state Capitol building, State Office Building, Ford Building, Veterans Service Building, Transportation Building, Historical Society Building and the Centennial Office Building. The tunnel system closes after business hours.

The Revenue Building is in River Place Plaza on Fillmore Avenue at Plato Boulevard, near the Lafayette Bridge and Interstate 94.

The Capitol location

The Capitol complex is to the north of Interstate 94, just minutes from downtown St. Paul. It is accessible from both the east and west on I-94, and from the south and north on Interstate 35E.

To arrive at the complex:
- On I-94 eastbound, exit at Marion Street and continue in one of two ways:
  1) Turn left on Marion Street, go to University Avenue and turn right. At Rice Street, turn right again. Go one block to the entrance of an open-air, metered public parking lot.
2) Travel straight to John Ireland Boulevard (you will need to merge to the right at the top of the exit ramp) and turn left, crossing over the interstate. Metered parking spaces line both sides of the boulevard.
   - On I-94 westbound, exit at 12th Street, go to Cedar Avenue or Rice Street, depending on which building you want to visit.
   - On Interstate 35E south, exit at University Avenue, turn right and go until reaching the Capitol complex.
   - On I-35E north, exit at Pennsylvania Avenue, turn right on Pennsylvania, turn right again onto Mississippi Street. At the light, turn right on University Avenue.
   - On 35W north of the complex; Lot D, next to the State Office Building at West Aurora Avenue and Rice Street; and the orange level of the Centennial Building Ramp at Cedar and Constitution avenues. All-day parking is available in Lot Q and in the Centennial ramp. Public street metered parking is available along John Ireland Boulevard and Fuller Avenue, which are near the Transportation Building. St. Paul meter patrols will issue tickets for expired parking.
   - Since parking is limited during the session, busing may be better. The capitol is located on several MTC bus routes.

Parking at the Capitol

Public metered parking is available at Lot Q, at Cedar Avenue and Sherburne Street north of the complex; Lot D, next to the State Office Building at West Aurora Avenue and Rice Street; and the orange level of the Centennial Building Ramp at Cedar and Constitution avenues. All-day parking is available in Lot Q and in the Centennial ramp. Public street metered parking is available along John Ireland Boulevard and Fuller Avenue, which are near the Transportation Building. St. Paul meter patrols will issue tickets for expired parking.

Since parking is limited during the session, busing may be better. The capitol is located on several MTC bus routes.

Capitol tours

Symbols of Minnesota's heritage grace the Capitol. Visitors may learn more about the state in general and the statehouse in particular by taking a Capitol tour conducted by the Minnesota Historical Society's Historic Site Program.

Society tour guides lead the free, 45-minute tours on the hour during the business day. Tours are given from 9 a.m. to 5 p.m. Mondays through Fridays; from 10 a.m. to 4 p.m. Saturdays; and from 1 to 4 p.m. Sundays. The tours begin at the society's information desk at the end of the corridor to the right of the Capitol's main entrance. Brochures in several languages, including Japanese, German, and Spanish are also available here.

Tour participants may request customized tours that emphasize either the building's art and architecture or state government. Tours also may be customized for senior citizens or grade school children.

Historical society officials ask that groups of 10 or more call in advance to reserve a tour time.

For more information about the tours or to reserve a time call the Minnesota Historical Society (612) 296-2881.

Representation

Visitors can find out who their representatives are at the House Public Information Office in the State Office Building. The office has directories that list representatives' office room and phone numbers, home and work addresses and phone numbers, committee assignments, and biographical information.

The information office also can provide names and addresses of the state's members of Congress.

House members' offices occupy most of the State Office Building. The offices of Independent-Republican (IR) legislators are generally on the second and third floors, while the Democratic-Farmer-Labor (DFL) members are on the third through fifth floors.

The offices of the House speaker, majority leader, and most of the assistant majority leaders are on the fourth floor. The offices of the minority leader, and most assistant minority leaders, are on the second floor.

There is a floor-by-floor listing of representatives near the elevators on all floors. This listing does not have room numbers. Floor receptionists are at the north and south ends of each floor to help visitors.

Rep. Robert Vanasek (DFL-New Prague) is the House speaker and presides over House sessions. Rep. Dee Long (DFL-Mpls) is the House Majority Leader and the leader of the DFL caucus on the floor.

Rep. William Schreiber (IR-Brooklyn Park) is the House minority leader and the leader of the IR caucus on the floor.

House Information

The House of Representatives Public Information Office, 175 State Office Building, offers publications and brochures on House activities and the legislative process in general.

The office publishes Session Weekly, a digest of House committee action, bill introductions and bill status. It also produces Today and This Week, daily and weekly committee schedules with meeting times, places, and agendas.

Visitors also may use a computer terminal to check on the status of a bill if they know the subject or have a bill number.

Visitors also may get House seating charts for House and Senate members, legislators' office room numbers and phone numbers, and legislative and staff directories.

The information office publishes brochures on how a bill becomes law, the state governmental process (a five-part series), and an introduction to the House of Representatives. It also offers a youth-oriented brochure on how a bill becomes law, and a coloring book of Capitol landmarks for pre-school and elementary school children.

Chief Clerk's Office

Visitors can get answers to questions on House proceedings and copies of bills and resolutions at the Chief Clerk's Office in Room 211 of the Capitol building.

The office, located next to the House chamber on the second floor of the Capitol, also has copies of House agendas available before the House convenes. The agendas — the Calendar, General Orders
Committee meetings

When many people think of the Legislature they conjure up visions of flashy oratory and impassioned speeches on the House or Senate floor. But Capitol insiders know that it’s during committee meetings where most of the important changes in bills occur.

Committees consider bills usually several weeks after the session starts. Visitors wanting to attend a committee meeting might want to call the House Public Information Office to find out what the agenda is, for that day. Agendas also appear in each issue of the Session Weekly.

Each committee has a chair, vice chair, secretary, and administrator. A list of all committees and their membership is available in the House Public Information Office in Room 175 of the State Office Building.

Committee meetings are open to the public. If a public hearing is scheduled, the committee will listen to comments from the audience (when time permits) in addition to the scheduled speakers. Committees have different policies on hearing testimony depending upon their size and workload. Some committees hear general testimony at the subcommittee level, while others allow general testimony during meetings of the full committee. Information that committee members receive during meetings or hearings is considered public and is available to the audience on a first come, first-served basis.

Controversial or major proposals such as open enrollment or groundwater legislation often have several public hearings so committee members may listen to all arguments for and against a bill.

The committee system starts at the beginning of the session. The first few meetings generally are informational. During these meetings delegates from organizations or other state agencies provide legislators with information about the topic in question.

Committees consider bills shortly after the informational meetings end. Also, committees face deadlines (March 16 this year) on when they may hear, refer, or vote on House or Senate bills. The deadlines help ensure a bill receives as thorough an airing as possible before the full House votes on it.

The committee meetings are usually held in either the Capitol or the State Office Building. A schedule of the meetings can be obtained from the House Public Information Office, (612) 296-2146.

Dining at the Capitol

All buildings in the Capitol complex have their own cafeterias. The Capitol and State Office Building dining areas are in the basement. The Transportation and Centennial cafeterias are on the ground floor of each building. The Veterans Service Building cafeteria is on the fifth floor, and the Capitol Square Building’s dining area is on the lower level. The Capitol also has a snack bar on the second floor (where the House and Senate chambers are located) during session.

Visitors may dine away from the Capitol complex. Several restaurants are within two to three blocks’ walking distance north on Rice Street. Other restaurants are within an easy walk or drive west on University Avenue.

Visitors may also eat in downtown St. Paul by riding a Metropolitan Transit Authority bus for a dime. Board a 94 or 16 bus at the bus stop area on Constitution Avenue between the State Office Building and the Transportation Building, and get off the bus on Cedar Avenue at either Seventh or Sixth streets. To return to the Capitol area, board a 94 or 16 bus on any corner along Minnesota Avenue (one block north of Cedar) and get off at the bus stop on Constitution Avenue across from the State Office Building entrance.
'Legislative day' helps 'demystify' government

If you hope to change state policy, those in the know say the best way is to spend a "legislative day" at the Capitol. It "demystifies the people who work there," says Grace Harkness, legislative coordinator for the Minnesota Women's Consortium sponsor of the Women Come to the Capitol Day Feb. 19. Several of the estimated 500 women who attended say it helped them understand the process.

"I thought you had to be rich, powerful, and have connections in order to be heard," says Alicia Sellie of Minneapolis.

The experience, she adds, "makes me more aware of the power that I have over the legislative process."

Although many people believe legislators will pay little attention to them, Harkness says that simply isn't the case.

"Legislators are almost always polite and cordial to everybody," she says, adding the opinions of constituents generally hold more weight with legislators than those of paid lobbyists. "You shouldn't feel, 'Who me?'"

Harkness says a carefully planned legislative day is one of the best ways to leave a mark on the issues that are of concern to you.

"You have to have some event to get people (involved)," she says. "Everybody's got a lot of work to do. There needs to be a little bit of motivation."

It also helps to ensure that your group is highly visible so lawmakers feel your presence, she says. At the most recent Women Come to the Capitol Day, for example, consortium members wore day-glow orange name tags and red and white buttons depicting the women's symbol and the Capitol.

In addition to being visible, the group marched to the Capitol and held a press conference to attract media attention to the issues they want addressed.

Perhaps the most important event of the day is the welcoming and inspirational speakers, says Harkness. This year, the speakers included Sharon Sayles Belton, president of the Minneapolis City Council, and state Sen. Nancy Brataas (IR-Rochester), a leader in the pro-choice movement.

Later in the afternoon, the women fanned out to meet one-on-one with legislators from their respective districts. The coalition suggests that topics for discussion be limited to actual bills being considered that year.

"It is too vague to go into the lawmaker's office and say, 'Make this a wonderful and safe state,'" says Harkness. "Instead, go to the office and say, for example, that we want you to keep abortion legal, provide more child care, enforce pay equity, and work for gender fairness in the courts."

Organizing your Day on the Hill

Here are a few things you may want to keep in mind when organizing your day at the Capitol:

• Schedule a room for the group to gather in at the beginning and at the end of the day by calling Betty Langenberger, room scheduler for the State Office Building, at 296-5974. Some groups gather at a location outside the Capitol complex, but it should be close so invited speakers can get there easily.

• Invite a speaker (legislator, commissioner, administrator) to address your group.

• Make appointments for visits with your representatives.

• Send a letter or a memo to legislators you want to attend your activities.

• Groups wanting to testify at a committee meeting should call the relevant committee secretary or administrator in advance of the meeting and ask to be placed on the agenda.
Bill Introductions

HF1965-HF2267

Monday, Feb. 19.

HF1965—Cooper (DFL) Education
Omnibus rural health care bill.

HF1966—Cooper (DFL) Health & Human Services
Emergency medical services advisory council established, and variance authority changed for ambulance attendant training standards.

HF1967—Wenzel (DFL) Agriculture
Grasshopper control program changed and rulemaking authorized.

HF1968—Winter (DFL) Insurance
Commerce department allowed to impose larger civil penalties.

HF1969—Price (DFL) Financial Institutions & Housing
Contracts for deed cancelled under certain circumstances.

HF1970—Clark (DFL) Health & Human Services
Lead levels established, education about lead exposure provided, certain residences assessed, and abatement standards established.

HF1971—Clark (DFL) Economic Development
Military contractors given preference for economic development grants for projects in accordance with alternative use plans designed to eliminate dependency on weapons contracts.

HF1972—Milbert (DFL) Environment & Natural Resources
Landfill fees imposed on facilities disposing of construction or demolition debris.

HF1973—McGuire (DFL) Governmental Operations
St. Paul Fire Department Relief Association to pay benefits to certain surviving former spouses.

HF1974—Simoneau (DFL) Governmental Operations
Payroll deposits made directly to credit unions and financial institutions upon employee request.

HF1975—Vellenga (DFL) Judiciary
Child support orders regulated.

HF1976—Milbert (DFL) Gen'l Leg., Vet's Affairs & Gaming
Adjutant general allowed to appoint an executive director of the Department of Military Affairs.

HF1977—Kinkel (DFL) Gen'l Leg., Vet's Affairs & Gaming
Vet's Affairs Home Board to appoint an executive director.

HF1978—Kinkel (DFL) Education
Education districts permitted to conduct meetings via interactive television.

HF1979—Rest (DFL) Judiciary
Excise tax increased for cigarettes, beer, wine, and alcoholic beverage; local government drug council established; and grants provided for drug treatment and criminal justice programs.

HF1980—Segal (DFL) Health & Human Services
Community service facilities; bonds issued and money appropriated to build facilities for care of people with mental illness.

HF1981—Johnson, A. (DFL) Transportation
Motor vehicle registration provisions changed.

HF1982—Haszkamp (DFL) Judiciary
Visitation suspended when noncustodial parent is convicted of certain crimes, expedited hearings required when child is in danger of harm, and no-contact orders provided.

HF1983—Skoglund (DFL) Insurance
Medicare supplement insurance plan coverage regulated, and insurers to submit claims experience and earned premiums data.

HF1984—Skoglund (DFL) Insurance
Health and accident insurance companies allowed to coordinate benefits from group and individual contracts to prohibit excess coverage.

HF1985—Skoglund (DFL) Insurance
Commerce department; cease and desist orders and various communications regulated.

HF1986—Rest (DFL) Judiciary
Open bottle law; constructive possession of alcohol prohibited in private vehicles.

HF1987—Jefferson (DFL) Financial Institutions & Housing
Low-income housing tax credits allocated.

HF1988—Jefferson (DFL) Gen'l Leg., Vet's Affairs & Gaming
Absentee ballots automatically provided to permanently ill or disabled people.

HF1989—McEachern (DFL) Transportation
Driver education vehicles used by private school programs allowed tax-exempt license plates.

HF1990—Skoglund (DFL) Insurance
Claimants and insureds paid promptly.

Pipeline; commissioner of natural resources' authority to review pipeline plans repealed.

HF1992—Tompkins (IR) Education
Sex education; advisory task force formed to develop and review materials and money appropriated.

HF1993—Murphy (DFL) Transportation
School bus stop sign procedures clarified for vehicles meeting or overtaking a bus.

HF1994—Murphy (DFL) Economic Development
Taconite and iron ore tax relief areas redefined to include Proctor.

HF1995—Bauerly (DFL) Commerce
Amusement rides regulated, with inspections required and money appropriated.

HF1996—Welle (DFL) Education
School District 345, New London-Spicer, provided a maximum effort capital loan.

HF1997—Jaros (DFL) Insurance
Health insurance premium and health care cost regulation studied by legislative task force established to study regulation of health insurance premium and health care costs.

HF1998—Reding (DFL) Governmental Operations
Peace officers; retirement age provided for officers in public safety department's gambling enforcement division.

HF1999—Stanius (IR) Gen'l Leg., Vet's Affairs & Gaming
Hockey tournament authority returned to high school league.

HF2000—Stanius (IR) Environment & Natural Resources
Moose licensure restricted.

HF2001—O'Connor (DFL) Gen'l Leg., Vet's Affairs & Gaming
Veterans redefined.

HF2002—Beard (DFL) Gen'l Leg., Vet's Affairs & Gaming
Cemeteries allowed near veterans' homes.

HF2003—Beard (DFL) Appropriations
National Guard members provided a cash bonus, and money appropriated.

HF2004—McEachern (DFL) Education
Education department program for implementing governor's drug plan.

HF2005—Quinn (DFL) Gen'l Leg., Vet's Affairs & Gaming
Charitable gambling provisions changed in comprehensive legislation.

HF2006—Dorn (DFL) Taxes
Local government equalization aid modified and extended.

HF2007—Price (DFL) Environment & Natural Resources
Metropolitan water management regulated and water management organization provisions changed.

HF2008—Pelowski (DFL) Education
Undergraduate academic programs; endowments...

Do you know?

"Women's Day in Willmar," an event the city is hosting as part of its "Celebrate Minnesota" activities, will be held in the Fine Arts Building at Willmar Community College on March 5.

Keynoter Erica Bouza will speak on "Women Peace Activists in the Changing World" at 5:15 p.m. Following her talk, participants can choose between two sessions: "Household Hazardous Waste and Recycling" and "Choices and Challenges: How To Reach Young Women."

The Women's Alliance in Iceland will conclude the program by discussing their organization's activities.

The event is sponsored by the community college and various social, business, and women's organizations.

Officials require preregistration by March 1. The cost is $25 for the general public; $20 for members of sponsoring organizations. There'll be child care on a limited basis for $5. For further information, call Sue Minnick at (612) 231-5110.

The First Bank of Willmar and Home State Bank are providing scholarships.
Coming Up Next Week . . .
