

REDISTRICTING COMMITTEE

MINUTES

Representative Erik Paulsen, Chair of the Redistricting Committee, called the sixteenth meeting to order at 7:20 p.m. on Thursday, April 26, 2001, in Room 500 South of the State Office Building.

The Clerk noted the roll.

Members present:

PAULSEN, Erik, Chair
RIFENBERG, Michelle, Vice Chair
ABRAMS, Ron
ANDERSON, Irv
BOUDREAU, Lynda
KNOBLACH, Jim

LUTHER, Darlene
MARIANI, Carlos
PELOWSKI, Gene
SEIFERT, Marty
TINGELSTAD, Kathy

Members excused:

A quorum was present.

Rep. Luther moved the minutes from April 26, 2001. **The motion prevailed.**

Rep. Paulsen moved that SF 1326 be recommended to pass and placed on the general register.

Rep. Paulsen moved to amend SF 1326 with the DE 2 amendment (see attached).

Tom Pender, House Research, suggests the following clarifications to the DE 2 amendment:
Page 3, line 34 after (12) insert [priority]
Page 4, line 3 after (13) insert [expiration]

Rep. Paulsen moved that Tom Pender's clarifications be incorporated in the DE 2 amendment.
The motion prevailed.

Rep. Pelowski moved amendment 0723 (see attached). **The motion did not prevail.**

Rep. Paulsen renewed his motion that SF 1326 as amended be recommended to pass and placed on the general register. **The motion prevailed.**

The meeting was adjourned at 8:30 p.m..

COMMITTEE ON REDISTRICTING
REP. ERIK PAULSEN, CHAIR

MEETING: Thursday, April 26, 2001
After session
Room 500 South, State Office Building

AGENDA

- I. Call to Order.
- II. Roll Call.
- III. Approval of Minutes: April 20, 2001.
- IV. S.F. 1326 (Pogemiller) redistricting principles.
- V. Adjournment.

Next meeting: To be announced.

0723

1 moves to amend the delete everything
2 amendment to S.F. No. 1326 (S1326DE2), as follows:

3 Page 1, delete lines 11 to 19 and insert:

4 "(3) [EQUAL POPULATION.] (a) Legislative districts must be
5 substantially equal in population. The population of a
6 legislative district must not deviate from the ideal by more
7 than two percent, plus or minus.

8 (b) Congressional districts must be as nearly equal in
9 population as practicable."

~~Mariani~~

~~Sefert~~
~~Petrowski~~

~~Kuchla~~

1 moves to amend S. F. No. 1326, the second
2 engrossment, as follows:

3 Delete everything after the resolving clause and insert:

4 "(1) [NUMBER OF DISTRICTS.] (a) The Senate must be composed
5 of 67 members. The House of Representatives must be composed of
6 134 members. Each district is entitled to elect a single member.

7 (b) A plan for congressional districts must have eight
8 districts, each entitled to elect a single member.

9 (2) [NESTING.] A representative district may not be divided
10 in the formation of a Senate district.

11 (3) [EQUAL POPULATION.] (a) Legislative districts must be
12 substantially equal in population. The population of a
13 legislative district must not deviate from the ideal by more
14 than .75 percent, plus or minus. The ideal population of a
15 House district is 36,713. The ideal population of a Senate
16 district is 73,425.

17 (b) Congressional districts must be as nearly equal in
18 population as practicable. The ideal population of a
19 congressional district is 614,935.

20 (4) [CONTIGUITY; COMPACTNESS.] The districts must be
21 composed of convenient contiguous territory. To the extent
22 consistent with the other principles in this resolution,
23 districts should be compact. Contiguity by water is sufficient
24 if the water is not a serious obstacle to travel within the

1 district.

2 (5) [MINORITY REPRESENTATION.] (a) The dilution of racial
3 or ethnic minority voting strength is contrary to the laws of
4 the United States, the state of Minnesota, and public policy.
5 The principles in this resolution must not be construed to
6 supersede any provision of the Voting Rights Act of 1965, as
7 amended.

8 (b) A proposed redistricting plan must not have the intent
9 or effect of dispersing or concentrating minority population in
10 a manner that prevents minority communities from electing their
11 candidates of choice.

12 (6) [PRESERVING COMMUNITIES OF INTEREST.] The districts
13 should attempt to preserve identifiable communities of interest
14 where that can be done in compliance with the preceding
15 principles. For purposes of this clause, "community of interest"
16 means a recognizable area with similarities of interests,
17 including, but not limited to, racial, ethnic, geographic, local
18 governmental, social, cultural, or historic interests, as well
19 as commonality of communications.

20 (7) [POLITICAL COMPETITIVENESS.] The districts must not be
21 created to unduly favor any political party.

22 (8) [NUMBERING.] (a) The legislative districts must be
23 numbered in a regular series, beginning with House district 1A
24 in the northwest corner of the state and proceeding across the
25 state from west to east, north to south, but bypassing the
26 eleven-county metropolitan area until the southeast corner has
27 been reached; then to the eleven-county metropolitan area
28 outside the cities of Minneapolis and St. Paul; then in
29 Minneapolis and St. Paul.

30 (b) The congressional district numbers must begin with
31 district one in the southeast corner of the state and end with
32 district eight in the northeast corner of the state.

33 (9) [NONCONTIGUOUS PORTIONS OF MINOR CIVIL DIVISIONS.] If a
34 noncontiguous portion of a minor civil division exists within
35 another minor civil division or if discontinuous portions of a
36 minor civil division are split by another minor civil division,

1 the splitting of a minor civil division is not considered a
2 split for purposes of these principles if any of the following
3 circumstances exist:

4 (a) the minor civil division must be split to achieve
5 equality of population between districts;

6 (b) a portion of a minor civil division is wholly contained
7 within another minor civil division, and that other minor civil
8 division would have to be split to keep the first minor civil
9 division intact; or

10 (c) the noncontiguous portion of a minor civil division
11 cannot be included in the same district with another portion of
12 the same minor civil division without creating a noncontiguous
13 district.

14 (10) [DATA TO BE USED.] The geographic areas and population
15 counts used in maps, tables, and legal descriptions of the
16 districts must be those used by the Geographic Information
17 Systems Office of the Legislative Coordinating Commission. The
18 population counts will be the block population counts provided
19 under Public Law Number 94-171, subject to correction of any
20 errors acknowledged by the United States Census Bureau.

21 (11) [DATA READY; PLANS POSTED.] The director of Geographic
22 Information Systems shall notify the President of the Senate and
23 the Speaker of the House of Representatives when the necessary
24 census data has been received from the United States Census
25 Bureau, loaded into the Legislature's computerized redistricting
26 system, and verified as ready for use in redistricting. A
27 redistricting plan must not be considered for adoption by the
28 Senate or House of Representatives until:

29 (a) the notice has been given;

30 (b) a block equivalency file showing the district to which
31 each census block has been assigned, in a form prescribed by the
32 director of Geographic Information Systems, has been filed with
33 the director.

34 (12) Where it is not possible to fully comply with the
35 principles provided in paragraphs (1) to (7), a redistricting
36 plan must give priority to those principles in the order in

04/26/01 12:08 p.m.

[RESDEPT] TP/JMW S1326DE2

1 which they are listed in this resolution, except to the extent
2 that doing so would violate federal or state law.

3 (13) ~~This resolution expires December 31, 2002."~~

HOUSE RESEARCH

Bill Summary

FILE NUMBER: S. F. 1326
Version: As amended by S1326DE2

DATE: April 26, 2001

STATUS: Redistricting Committee

Authors: Paulsen and others

Subject: Redistricting principles

Analyst: Thomas R. Pender, 651-296-1885

This publication can be made available in alternative formats upon request. Please call 651-296-6753 (voice); or the Minnesota State Relay Service at 1-800-627-3529 (TTY) for assistance. Summaries are also available on our website at: www.house.leg.state.mn.us/hrd/hrd.htm.

Overview

This joint resolution would establish principles for redistricting the legislature and the state's congressional seats. Under joint rule 2.07, a joint resolution, after its passage by the legislature, is presented to the governor for approval.

Section

- 1 **Number of districts.** Provides that the house and senate would have the same number of members they have now. Provides that there will be eight congressional districts, which is the same number Minnesota has now.
- 2 **Nesting.** Provides that house districts will be nested within senate districts.
- 3 **Equal population.** (a) Provides that legislative districts must be substantially equal in population. Permits deviations of plus or minus .75 percent. Specifies that the ideal population of a house district is 36,713 and that the ideal population of a senate district is 73,425.
(b) Provides that congressional districts must be as nearly equal in population as practicable. Provides that the ideal population of a congressional district is 614,935.
- 4 **Contiguity; compactness.** Provides that districts must be of convenient, contiguous territory. Provides that they must be compact to the extent consistent with the other principles. Specifies when contiguity by water is sufficient.

Section

- 5 **Minority representation.** (a) States that dilution of racial or ethnic minority voting strength is contrary to state and federal law and to public policy. Provides that the principles in this resolution must not be construed as purporting to supercede the federal Voting Rights Act.
(b) Provides that a redistricting plan must not have the intent or effect of dispersing or concentrating minority population in a way that prevents minority communities from electing candidates of their choice.
- 6 **Preserving communities of interest.** Provides that districts should attempt to preserve identifiable communities of interest where this can be done in compliance with the principles listed above. Defines the term "community of interest."
- 7 **Political competitiveness.** Provides that the districts must not be created to unduly favor any political party.
- 8 **Numbering.** Specifies how districts are to be numbered.
- 9 **Noncontiguous portions of minor civil districts.** Provides that where local governmental units are noncontiguous, splitting those units is not considered a split under certain circumstances.
- 10 **Data to be used.** Provides that the geographic areas and population counts used in redistricting plans must be those used by the Geographic Information Systems (GIS) office. Provides that the population counts must be those provided by the U.S. Census Bureau under Public Law 94-171, including any corrections issued by the Bureau.
- 11 **Data ready; plans posted.** Provides that the director of the G.I.S. office must notify the house and senate when the G.I.S. database is ready. Provides that a redistricting plan must not be considered by the house or senate until that notification has been given and an electronic file showing the district to which each census block is assigned by the plan has been filed with the director of the G.I.S. office.
- 12 **Priority.** States that redistricting plans must give priority to principles 1 to 7 of this resolution in the order in which they are listed.
- 13 **Expiration.** Provides that this resolution expires December 31, 2002.

SENATE
STATE OF MINNESOTA
EIGHTY-SECOND LEGISLATURE

S.F. No. 1326

(SENATE AUTHORS: POGEMILLER)

DATE	D-PG	OFFICIAL STATUS
03/05/2001	441	Introduction and first reading
03/05/2001		Referred to Rules and Administration
03/28/2001	940a	Committee report: To pass as amended
03/28/2001	945	Second reading
04/19/2001		Special Order: Amended
04/19/2001		Third reading Passed
04/19/2001		Reconsidered
04/19/2001		Third reading Passed

1 A joint resolution

2 relating to redistricting; establishing districting
3 principles for legislative and congressional plans.

4

5 BE IT RESOLVED, by the Legislature of the State of
6 Minnesota that a plan for redistricting seats in the Legislature
7 or the United States House of Representatives must adhere to the
8 following principles:

9 (1) [NUMBER OF DISTRICTS.] (a) The Senate must be composed
10 of 67 members. The House of Representatives must be composed of
11 134 members. Each district is entitled to elect a single member.

12 (b) A plan for congressional districts must have eight
13 districts, each entitled to elect a single member.

14 (2) [NESTING.] A Representative district may not be divided
15 in the formation of a Senate district.

16 (3) [EQUAL POPULATION.] (a) Legislative districts must be
17 substantially equal in population. The population of a
18 legislative district must not deviate from the ideal by more
19 than two percent, plus or minus.

20 (b) Congressional districts must be as nearly equal in
21 population as practicable.

22 (4) [CONTIGUITY; COMPACTNESS.] The districts must be
23 composed of convenient contiguous territory. To the extent
24 consistent with the other principles in this resolution,

1 districts should be compact. Contiguity by water is sufficient
2 if the water is not a serious obstacle to travel within the
3 district.

4 (5) [NUMBERING.] (a) The legislative districts must be
5 numbered in a regular series, beginning with House district 1A
6 in the northwest corner of the state and proceeding across the
7 state from west to east, north to south, but bypassing the
8 seven-county metropolitan area until the southeast corner has
9 been reached; then to the seven-county metropolitan area outside
10 the cities of Minneapolis and St. Paul; then in Minneapolis and
11 St. Paul.

12 (b) The congressional district numbers must begin with
13 district one in the southeast corner of the state and end with
14 district eight in the northeast corner of the state.

15 (6) [MINORITY REPRESENTATION.] The districts must not
16 dilute the voting strength of racial or language minority
17 populations. Where a concentration of a racial or language
18 minority makes it possible, and where it can be done in
19 compliance with the other principles in this resolution, the
20 districts must increase the probability that members of the
21 minority will be elected.

22 (7) [PRESERVING POLITICAL SUBDIVISIONS.] A county, city, or
23 town must not be divided into more than one district except as
24 necessary to meet equal population requirements or to form
25 districts that are composed of convenient contiguous territory.

26 (8) [COMMUNITIES OF INTEREST.] The districts should attempt
27 to preserve communities of interest where that can be done in
28 compliance with the preceding principles. For purposes of this
29 principle, "communities of interest" include, but are not
30 limited to, political subdivisions, neighborhoods, or other
31 geographic areas where there are clearly recognizable
32 similarities of social, political, cultural, ethnic, or economic
33 interests.

34 (9) [POLITICAL COMPETITIVENESS.] The districts should be
35 politically competitive, where that can be done in compliance
36 with the preceding principles. The districts must not be

1 created to unduly favor any political party.

2 (10) [INCUMBENTS.] The districts must not be drawn for the
3 purpose of protecting or defeating an incumbent.

4 (11) [DATA TO BE USED.] The geographic areas and population
5 counts used in maps, tables, and legal descriptions of the
6 districts must be those used by the Geographic Information
7 Systems Office of the Legislative Coordinating Commission. The
8 population counts will be the block population counts provided
9 under Public Law Number 94-171, subject to correction of any
10 errors acknowledged by the United States Census Bureau or by the
11 state demographer after consultation with the director of
12 geographic information systems.

13 (12) [DATA READY; PLANS POSTED.] The director of Geographic
14 Information Systems shall notify the President of the Senate and
15 the Speaker of the House of Representatives when the necessary
16 census data has been received from the United States Census
17 Bureau, loaded into the Legislature's computerized redistricting
18 system, and verified as ready for use in redistricting. A
19 redistricting plan must not be considered for adoption by the
20 Senate or House of Representatives until:

21 (a) the notice has been given;

22 (b) a block equivalency file showing the district to which
23 each census block has been assigned, in a form prescribed by the
24 director of Geographic Information Systems, has been filed with
25 the director; and

26 (c) a copy of the plan has been posted on the Web site of
27 the Geographic Information Systems Office.
